VOLUME THIRTY-EIGHT

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JUNE 4, 1943

NUMBER 44

Sgt. Kermit R. Howard In England

The Herald had a card this week from Master Sgt. Kermit R. Howard, with no post marks what-ever, but Sgt. Howard announced he had arrived safely at an army base somewhere in England. He states that the people are real nice and that England is a pretty country.

Says he can't write much but sure would like to get some letters from friends at home. Sorry Kermit, that we are not allowed to print your address. Those wanting to write you can get your address from your folks in Terry county. We are not even allowed to let anyone get an overseas service man's address off our mailing list. But the Herald is glad you landed safely, and that you are liking the country and our English cousins.

Greenfield Awarded Wings, Commission

We had a communication from the Roswell, N. M., Army Air Field this week, stating that Keller P. Greenfield, son of Mr. and Mrs. L. O. Greenfield, of Brownfield, had been awarded his wings and commissioned a second lieutenant.

Lt. Keller attended the Brownfield school, graduating with the class of 1938, and was on the Cub football team, and was considered a good player. Finishing school, he was employed for some time by Piggly Wiggly, and worked for Magnolia Petroleum, at Midland, Texas, until he enlisted in the Air Corps in June, 1942. He was a young man that made friends fast.

The other Greenfield boy, Cpl. L. O. Jr., is now perhaps overseas, according to his mother, who was a visitor at the Herald office this week. She has not heard from him since May 4th.

Cpl. L. O. received most of his training in the Ordnance Department at Camp McCoy, Wisconsin. Like his brother, L. O. was also a football player, and took active part in other athletics of Brownfield schools.

Pfc Peeler Taking Technical Training

Keesler Field, Biloxi, Miss. — Pvt. Louis W. Peeler, son of Mrs. Estie Peeler, of Meadow, Texas, was promoted to the grade of private first class this week and enrolled in Keesler's huge B-24 Liberator mechanics school.

Private Peeler's promotion, and his selection for technical training, were results of the high scores he received in his Army mechanical aptitude tests. His course, directed by the Technical Training Command of the Army Air Forces, will last 17 weeks and will include training in B-24 maintenance, hydraulics, fuel and electrical systems, propellers, instruments, engines, and inspection.

The last eight days of the course will place him in the open under simulated battle conditions where he will have an opportunity to apply in the field what he has learned in hangars and workshops.

Friends of Miss Dannie Lee Farrell, daughter of Mr. and Mrs. Arp Farrell of Route 3, will be interested to know that she has accepted employment with the Hilton Hotel in Lubbock. Miss Farrell formerly attended a business college there.

Lt. G. G. (Buddy) Rambo of the Ferry Command, headquarters at Dallas, is spending several days furlough with his parents here, Mr. and Mrs. Irvin Rambo. They are expecting their other son, Charles, who has seen service in the Aleutians, home in a few days.

Sgt. Ernest S. Warren, of the Mechanics Air Corps at Childress, is here on a 10-day furlough, vis-

Sends Souvenir From Jap Planes

Mrs. J. M. Beck was in one day last week to tell us a bit about her son, Pfc. Buster Beck, somewhere in India. He is with an anti-aircraft battery (sorry, can't give his address) and recently when a Jap plane was shot down, after examination, it was, as salvaged. But Buster just had to send part of the wreck to mother.

There were three pieces of the aluminum body of the plane, cut in strips about half an inch wide by two long, held together with adhesive tape to mail. One of them had a red coloring on one side, and Buster explained that was part of the painting of the Rising Sun (now going down) on the outside of the plane.

But what Buster called special attention to, was the riveting of the aluminum where the plates, about the thickness of a case knife blade, came together. Americans would be ashamed to turn out such riveting. It looked more like a child had done the work than men or women. The braded side of the rivet stuck out at least an eighth of an inch, leaving of course a very rough surface.

Jap planes are therefore so light they are very speedy and maneuverable, but they are as easy for American .30 calibre machine guns to penetrate as cardboard, almost. No wonder our Yank boys are shooting down those filthy rat planes at a ratio of about 18 to 1.

Another Card From Old Jeems Hurley

When we received a post card this week from some guy with the following address, we knew it could be from no one save Old Jeems Hurley Dallis (James Hurley Dallis), way down in old Panama: "Old Jack Stricklin, Sr., Old He of the Herald, Brownfield Texas, United States of America, This World." The main thing was that James wanted his paper address changed a bit.

Says he gets practically all his Heralds, but sometimes they come in a drove of two or three, but he never stops till he reads all of them. No wonder that lad is getting wise. And would you believe it, he is still promising to write that letter for publication. Are all Naval men prevaricators?

Here's what he hangs out as a parting shot: "Still fighting to keep the world safe for the Democratic party." Yea, and so are we, if we can ever locate what has become of the Democratic party. Wonder if he will ever write that letter? We'll believe it when we see it.

Dr. Daniell Somewhere In New Guinea

Mrs. Daniell had a letter this week from her husband, Dr. A. H. Daniell, stating he was now located somewhere in New Guinea, but had recently been taking a course in Australia in chemical warfare. Not stating anything about the course, he being a physician leads one to believe he was learning how best to treat victims of chemical warfare.

He has only received one Herald, which he greatly appreciated, and said tell us keep 'em rolling that way. He has lost 30 pounds and stated he was getting one fresh egg a month. Whether any dehydrated eggs, he did not state. They get one good meal a week, he said.

However, he stated that they were just as well fed in Australia as at home, as that is a great farming and ranch area.

'Dub' Walker Promoted, Gets Distinguished Flying Cross

Capt Willie G. Walker, son of Mrs. Lee Walker, Rt. 4, writes from somewhere overseas that he has been promoted to Captain. Also has received a Distinguished Flying Cross to add to his collection of souvenirs.

His brother, W. A. Warren of Tokio.

Texas Paces Nation Buying War Bonds

Texas' man in the street paced the entire nation in the purchase of war bonds in the Second War Loan Drive.

Frank Scofield, State War Bond Administrator, disclosed Monday that bond sales to individuals, partnerships and personal trust accounts nearly doubled the fixed quota.

Sales to small investors totaled 199 per cent in the 11th Federal Reserve District which comprises all of Texas and parts of Louisiana, Oklahoma, New Mexico and Arizona. Texas has 254 of the 311 counties making up this district.

The district had a goal of \$400,000,000 in the war loan drive. It handed Uncle Sam a cool \$572,451,600 to make it hot for the axis in translation of bonds to armament and ammunition. This means the goal was oversubscribed by 43 per cent.

Banks, institutions and governmental departments invested heavily in the war loan drive, but the individual investor—the man in the street—emerges as a great factor in its success, the No. 1 Bond Salesman declared.

"This shows beyond a doubt that the average man has wholeheartedly accepted his responsibility in the people's war," Scofield added.

"Uncle Sam needs everybody in this all-out war. He called for that help and he got it. The average man has rolled up a victory of his own on the home front. The Atlanta Federal Reserve District ranked next to Texas in bond sales to individual investors, attaining a goal of 189 per cent. The Minneapolis district was third and Kansas City fourth.

Hats Off To Our Fighting Allies

Britain: When France fell 1940, Britain was left alone the near east with a force of 40,000 men against 620,000 Italians. During General Wavell's campaign in Libya, his striking force never exceeded 30,000 men. In 8 weeks the British took 130,000 prisoners. The British have suffered 200,000 casualties. 71 per cent were men from the British Isles.

Russia: In one year of war, Russia suffered 4½ million casualties and has inflicted greater losses on the Germans than Germany suffered in the whole of World War I. Thirty million women in Russia are engaged in the war.

China has more than 20 million trained troops, and 6 million more are now being called to the colors. China still has 50 million men in reserve and given equipment, the Chinese could outnumber the Japanese 10 to 1. China has more than 800,000 guerrillas who are harassing Jap garrisons and lines of communication.

Grill Cafe Changes Hands

Mrs. Jess McWhorter, owner of the Grill Cafe, on the west side of the Square, has sold all fixtures and business to Burdette Auburg, of this city, and it is learned that Mr. Bill Low and wife will manage and operate same. The Lows are well known and experienced in Cafe business.

Mayors Meet.

Mayor Ed Evans of Union, and Mayor Lee O. Allen of Tokio, were in town Wednesday, but as no pre-announcement was like those of Churchill and Roosevelt. News reporters being barred from their meeting, it is not known what the purpose was, if any, though there was much speculation.

Some think it was to war on the boll weevil; others their boundary lines were discussed. Each declined interviews.

A cooking school for students of the Allied Nations is in progress at Hot Springs, Va. No menu as yet has been printed in the newspapers.

Comparing 1918 Prices To Livestock Prices Now

AUSTIN—Although the national index of prices paid for livestock at present is still below that for the corresponding period of 1918, the Texas average is 75 per cent above the average of prices paid for Texas livestock at the end of the first year of World War I, according to Dr. F. A. Beuchel, associate director of the University of Texas Bureau of Business Research.

This situation may be ascribed to the vast improvement which has taken place in the quality of Texas cattle during the past 25 years and the strong demand for Texas cattle by feeders in the Midwest, Dr. Beuchel declared. Comparative abundance and low cost of feed in the Midwest has made the feeding of cattle very profitable now.

But, the University economist pointed out, the favorable relation between feed costs and cattle prices which the Midwest has enjoyed for some time promises to be modified considerably in the months just ahead. This, he said, will affect Texas feeder cattle demand correspondingly.

Comparing levels of farm prices with World War I levels, Dr. Beuchel cited that in April, 1918, the farm price index in the country stood at 145, while in January, 1920, it hit a peak of 170. During April this year, the level reached 124.

Thus, he pointed out, the general index of farm products would have to rise approximately 17 per cent from present levels before it will have reached the April, 1918 mark, and to reach to post-war peak, present levels would have to be upped 37 per cent.

Ration Book No. 3 Being Mailed

Have you received and sent your application for Ration Book No. 3? If not you had better do so before June 10th. The blanks have been mailed out to your last known address, but if for any reason you have failed to receive one, call at the Post Office for another.

The forms are very simple, easy to fill out, but you are urged to type or print your name plainly. Your receiving a Ration Book at all largely depends on your correct name and address. Also include names and ages of all your family. Be sure to put 3c postage stamp on the card, and drop in P. O. Ration Books will later be mailed to you.

Sheriff Witness In Corpus Christi Court

Sheriff Joe Price attended court in Corpus Christi this week where he was summoned in the case of a colored woman, charged with slaying a colored man, about a year ago.

The victim, well known as "Catfish," worked around Brownfield for quite a while a few years ago.

Wolf Hunters Meet

Judge C. L. Lincoln, Commissioners Thomas, Settle, McNeil, and Malcolm, with County Attorney Crawford and County Agent Hartzog, attended the Wolf Hunters Bounty Association at Seagraves last Friday night.

Most of same officers of adjoining counties were also present, as well as those of Lea County, N. M. The Association requested of OPA additional ammunition to combat wolves. They are already paying a bounty for scalps, and will put on several drives this summer.

Income Tax

The second quarterly installment of last year's income tax is due June 15th, and should be paid by then. Authorities warn us this must be paid, whether or not any kind of new tax law is passed, or pending.

Texas, The Postwar Reception Center

That good old Texas trade mark, GTT, put up by people all over the Old South after the Civil War to indicate that they had closed shop and "gone to Texas," is due again to become familiar over the United States when this war is ended. All signs point to one of the greatest population migrations of all time when the big trek begins.

Here's why Texas will be on the trail of people on the move: 1. Soldiers, sailors and flyers are now training in Texas by the hundreds of thousands and they will want to come back. 2. The war record of Texans in service is attracting a lot of admiration throughout the world. 3. Texans in service are usually likeable and can be counted on to do a good job of selling Texas on every post and ship on the globe.

4. Lack of heating facilities in the East this year will accentuate the warm and pleasant climate of the Southwest. 5. Industries developed by the war program will be converted to peace-time production. 6. The development of the airplane will bring Texas closer to all other parts of the United States and the world. 7. Proximity to Pan-America will be the deciding factor in the location of many plants in the Lone Star State.

But why go on? There are dozens of reasons why people are going to want to come to Texas when this war is over and any one of them would be good for from fifty to hundreds of thousands of people. The best thing about it is that it will not be necessary to hang out the SRO sign. There will be room enough and welcome enough for all who may want to come.—CAPS and lower case.

No Crime Wave Hits In Terry County

According to our local officers, there is a shortage of crime in Terry county. But very few arrests and those for minor offenses have been made in quite sometime. Sheriff Ellison was in town early this week and reports his Grand Jury convened, reported and adjourned last week at Plains.

There is enough work for all to be kept busy, and find more to do than get into mischief. After all maybe unemployment a few years back had something to do with the then crimes.

To Fill Pulpit at Methodist Church

In the absence of the regular pastor of the local Methodist church, Rev. Robert Bryant of Meadow, will fill the pulpit Sunday morning at the regular hour. Rev. H. W. Hanks, regular pastor, is attending a pastor's school at Georgetown, Texas, for two weeks.

The pulpit will be filled by Rev. L. D. Cleveland Sunday night at 8 o'clock. Rev. Cleveland stated that his subject would be "Faith," and that it was his intention to bring out some technical points on this subject. Everyone cordially invited.

SGT SPEARS GETS AWARD, OAK LEAF CLUSTER

We learned this week that M/Sgt. Vance H. Spears, son of Mr. and Mrs. J. E. Spears, Wellman, has returned from the south Pacific to the Salt Lake Base, where he is now stationed. He has been home recently on a 15 day furlough. He has been the service for three years.

He was in the Ferry Command before the war, and has been in the thick of the fight in the south Pacific since real hostilities started, for the past 15 months, as a flight engineer on a Flying Fortress.

He has recently received the Air Award with Oak Leaf Cluster and Distinguished Flying Cross.

Mrs. A. W. Turner is in Dallas, attending the summer market.

Agricultural Notes

By Looe Miller
Secretary Terry County ACA

The following telegram was just received from B. F. Vance, AAA Administrative Officer in charge: "PENALTIES FOR FAILURE TO MEET 90 PER CENT OF WAR CROP GOAL ELIMINATED." The above telegram will eliminate any Terry County farmer from drawing penalties on their planting with reference to war crops. If a farmer wishes to plant corn instead of grain sorghums he may do so regardless of what his farm plan sheet shows as a goal and he will not be penalized for doing so. However, farmers should be careful not to plant in excess of 110 per cent of their cotton allotment. As soon as planting is completed the farmers should measure his cotton, peanuts or soybeans and bring to the office a sketch of the crops and measurements of special allotment crops and sign his compliance papers. This should be done between now and the last of June. We are very anxious to complete as much compliance work before July 1 as possible.

Peanut Seed

The time for securing peanut seed from a designated agency has been extended to June 30. The above change was necessary due to dry weather and the late planting season in the major producing areas.

Farm Machinery Quotas Lifted

Mr. Peace Warren, chairman of the farm rationing committee, was notified this week that all county quotas on rationed farm machinery have been cancelled.

Under the revised program which goes into effect immediately, eligible producers now may purchase machinery from any dealer in the state instead of restricting purchase to the county in which they carry out farming operations.

They will be required, however, to locate the machinery which they wish to purchase and obtain a purchase certificate from farm ration committee before making the purchase. Producers are eligible for purchase certificates when their application for farm machinery and equipment is approved by the local rationing committee.

All applications on file will be reviewed by the rationing committee as soon as possible and those producers who are eligible for certificates will be notified in the near future. Committees are not permitted to issue purchase certificates unless the machinery is first located by the procurer. Mr. Warren, chairman of the war board said, and explained that the purpose of the plan was to prevent issuing certificates in excess of the available supply.

Pressure Cookers

(1) Who is Eligible for a Pressure Cooker? In general, organized groups of persons, such as neighborhood pools, garden clubs, home demonstration clubs, etc., will have a better opportunity of obtaining cookers than single family groups. The application of any bona fide user will be considered, however.

(2) How Can Pressure Cookers be Obtained? The applicant can obtain the form from either his dealer or from his County Farm Rationing Committee. The appli-

Predicts Rural Electrification Growth

Rapid strides made in the electrification of America's farms were recounted by G. Edward Pendray, assistant to the president of Westinghouse Electric and Manufacturing Company and a recent western visitor. Mr. Pendray predicted that after the war, electricity will play a major part in easing the tasks of the farmer and making his work more profitable.

"From this world conflict will come new knowledge that will provide a tremendous impetus to rural electrification," Mr. Pendray said. "This war is an electrical war—no plane could fly, no tank could roll and no big gun fire without electricity. Many of our farm boys now in the armed forces are getting a fine working knowledge of electricity and the vital job it is doing. When the war is over these boys will carry that knowledge back to the farms, where there undoubtedly will be a broader and more profitable use of electricity."

"In 1922, only 175,000 of the nation's farms were served by electricity," he continued. "By 1935 this number had grown to 800,000 and at the end of 1942 mounted to 2,240,000 or 38 per cent of all the farms in the United States. Just before Pearl Harbor farms were being electrified at the rate of 200,000 a year."

An important influence in electrification, the visitor believes, is the work of the 4-H clubs, organizations of rural youth sponsored by the state agricultural colleges in cooperation with the U. S. Department of Agriculture. Through a nation-wide contest sponsored by Westinghouse, these youngsters get well acquainted with electricity. They make some electrical apparatus and demonstrate it themselves before club and community audiences. Winners of local contests get gold medals; state winners get a free trip to Chicago for the national contest. Six national contest winners get college scholarships supplied by Westinghouse. In 1936 there were 2,200 contestants from 37 states. In 1942 there were more than 10,000 contestants from 43 states.

BROCK BACK IN ENTOMOLOGY SERVICE

L. L. Brock, who had worked previously with the Bureau of Entomology, covering west and Central Texas, in 1935 and 1936, left Sunday for Dallas where he will join a crew of scouts. His territory will include Oklahoma, Arkansas, Kansas and Missouri.

ARTHUR SAWYER INJURED

A. A. Sawyer, pioneer stockman and farmer, residing one mile west of the city suffered a broken arm in two places, when he fell from a windmill Thursday evening. He is being treated at the Treadaway-Daniell Hospital.

Mr. and Mrs. Orb Stice and children were in Midland Sunday.

cant will show how many families would use the cooker, how much meat and vegetables would be canned, and whether the applicant already has a cooker. There are other questions on the form, but these are the most important. The application then is presented to the Farm Rationing Committee. If the Committee finds that the applicant should be allowed to buy a cooker, he will be notified. When the applicant advises the committee, in writing, that he knows where he can purchase a cooker, a purchase certificate will be issued.

On Ration Stamps

Do you know what should be done with unused, expired point coupons? Answer: Destroy them. Farm people were issued as many points as town people, but they have less need to spend all of them, and probably will have some left over.

If points are given away to friends, relatives or retailers, point values may have to be increased and the distribution system will get out of gear.

In the death last week of Dr. Joe J. Taylor, editor in chief of the Dallas Morning News, Texas lost its most beloved editor. Perhaps Joe Taylor was better known to the general run of people in Texas, not as editor of the News, but as the writer of a daily column known as State Press, in which he not only got off a lot of homely philosophy, but his timely comments on the editorials of others, chiefly of country weekly editors, made him famous. This column, State Press, is no more, as the Dallas Morning News despaired of ever finding a man to fill Joe Taylor's shoes. While Dr. Taylor's writings were the soul of wit and humor, to quote others, "he never stooped to use barbed thrusts that might hurt the feelings of the lowliest and smallest of papers." One might state that he was the mid-wall that cemented together the weekly and daily press. While, as we stated above, his comments never went so far as to rile the anger of anyone, he could, innocently get one into a pickle. The Herald is reminded way back in 1909, when we were new with the Herald, we sometimes tried to get funny with folks who did something we did not like. One week back in that year, we made a crack that somebody should have his chewing tobacco taken from him and sentenced for life in Van Zandt county. State Press duly copied the editorial, and with some comment, passed it on, and

it was really passed on. The next week, we got papers from Grand Saline, Canton and Edgewood that had plenty vinegar in them. And how was we, way out here with just a small, four page, five column, hand set paper to answer all of them. We just didn't try.

We note that some of the older newspaper folks (and we mean in point of service in this section, and not necessarily age) are dropping back in this area. For instance, there is Mrs. J. Sam Lewis, who lost her husband while he was holding down an editorial position in western New Mexico, now is a special writer and associate editor of the Lamesa Reporter. Then there is James L. Dow, who, when the writer landed here in 1909, was editor-publisher of the weekly Lubbock Avalanche, which was later made a semi-weekly and then a daily, before he sold out to the present owners. Mr. Dow is now associate editor of the Hockley County Herald at Levelland, and more recently from Wink. Mrs. Lewis and husband also spent many pleasant years in Lubbock, he as field editor of the Avalanche Journal. Both are good writers, and we know both have a warm welcome back to the south Plains.

The Hon. William Lemke, representative in congress from North Dakota, has sent us a speech he is supposed to have delivered in

HOME IS NOT THE SAFEST PLACE

AUSTIN—The general opinion prevails in America that home is about the safest place there is. However, the facts prove that far from being the safest, it is often quite the opposite.

In commenting upon the urgent need for the protection of life and limb in the American home, Dr. Geo. W. Cox, State Health Officer, today declared that accidents in the American home are the cause of more deaths than diphtheria, scarlet fever, whooping cough, and measles combined; of more than appendicitis; of nearly as many as diabetes; of over two-thirds as many as automobile accidents; and of over a third as many deaths as tuberculosis.

"Slippery floor surfaces, lack of handrails on cellar steps, absence of protective stairs in homes where there are small children, toys left on stairs, unanchored small rugs on polished floors, poisons in medicine cabinets accessible to children, and the careless storage of sharp tools and firearms are some of the more prominent hazards resulting in home accidents Dr. Cox said.

"However," he added, "in the last analysis, the problem boils down to one of reasonable individual caution. We cannot view complacently the more than 30,000 deaths annually due to home accidents. These deaths, chargeable to remediable carelessness, can and should be reduced."

Dr. Cox declared that such needless and profitless loss of life should be deplored at any time but to permit such a condition to persist in 1943, in view of our national crisis, is a neglect that cannot be condoned, and one which can seriously cripple our war effort.

congress on April 16, on "Ignoring the Constitution." Of course Mr. Lemke walloped beauracracy from one end to the other, and among other things, stated that too much authority was being centered at Washington. In other words, Congressman Lemke made a jamb up good state rights speech. While we have no way of knowing, the Herald is willing to lay a gill of buttermilk to a doughnut that Lemke voted to override southern states in their recent contest to let states control their own elections. That is a state right question, and should be settled by states. Since the vote on the question last year, Tennessee has abandoned the payment of a poll tax as a prerequisite to vote; others will do so in time if let lone. Poll tax payments is not popular with very many people when it comes to that, but has been a long time custom in the South, and probably gave the intelligent people of the old South ways and means to make a comeback during that awful reconstruction period. However, southern people believe that State Rights mean State Rights, just like that.

As the Dutchman said, we get so "g... d... mad dat we cud kus," when we read about the coal and other strikers, while we are fighting for our very lives. We can hardly contain our self, or listen like a well balanced citizen to the nightly news casts. It sure gets our goat, to be perfectly frank. But what this plain old country editor can't understand about the matter, is, if the government has taken over the mines, and run up the Stars and Stripes over them, why in heck is the government still trying to get the "owners" and the "miners" together. We always thought that when anything was taken over by the government, the owner was eliminated in negotiations for the time the US is in charge. It's beyond us.

Congress has about finished a pay-as-you-discuss plan of revenue getting.

First Lady of Oklahoma

—Photo by Wynn Richards.
Mrs. Robert S. Kerr, First Lady of the State of Oklahoma, is shown at Oklahoma City. Fourth in the library of the Governor's Mansion at Oklahoma City. Fourth in the cotton industry's current series of "First Lady" portrait presentations, this photograph appears in the June issue of Harper's Bazaar. Mrs. Kerr is wearing an eyelet batiste dress in blue and white. Kay's costume has a red and white striped lambra skirt with a white pique top.

Don't Let Worms Get Your Tomatoes

College Station—Now that tomatoes are, or soon will be setting fruit, growers should prepare to fight the tomato fruit worm, says Paul Gregg of the A. and M. College Extension Service staff.

Tomatoes are the most economical and best all-round source of vitamin C. In addition, they are a valuable cash crop to Texas farmers. Tomato growing in Texas follows the sun from the Rio Grande Valley in midwinter through the gardens and fields of east and north Texas in the spring and early summer.

Gregg, who is assistant Extension entomologist, says that millers are active now in these areas. They fly from one tomato patch to another, laying their eggs in the terminal part of the tomato plants. The eggs will hatch in three to five days and the young worms start feeding on the immature fruit. They cut holes in the tomatoes, and go inside and feed. A single worm will damage or destroy three to five tomatoes.

An early application of poison is extremely important to check damage by the pest. If the worms get into the tomatoes poison will not reach them. For the best results, start control treatment soon after the fruit is set, or about the time the tomatoes are the size of a marble. Dust the plants thoroughly with calcium or lead arsenate one part, and hydrated lime one part, or with a mixture of one part cryolite and two parts sulphur. Dust at five to seven day intervals until about three weeks before the tomatoes ripen.

Unlike citrus, which also is a source of vitamin C, tomatoes do not lose the strength of the vitamin in heating or canning. Don't let the worms cut production.

Miss Estella Swain recently accepted employment as a stenographer with Ben E. Keith Co., in Lubbock. Miss Swain is the daughter of Mr. and Mrs. W. G. Swain of Route 4. Up until she accepted employment she had been attending a business college in Lubbock since January 4 of this year.

Supreme In Circulation

In 1917 and 1918, American mills consumed six and one-half billion pounds of cotton. In 1941 and 1942, with one-third less spindles, the industry used more than twelve billion pounds of the white fiber.

One thing that is hard to explain to a child is why he must go to bed when he isn't sleepy and get up when he is.

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: W. M. Lloyd, and the unknown heirs of W. M. Lloyd, deceased. Annie Lloyd, and the unknown heirs of Annie Lloyd, deceased. W. B. Lloyd, and the unknown heirs of W. B. Lloyd, deceased. GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 28 day of June, A. D., 1943, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 12 day of May, 1943. The file number of said suit being No. 2852.

The names of the parties in said suit are: Rebecca Sawyer, a widow, A. A. Sawyer, U. D. Sawyer, Oscar Sawyer, Laura Cotton and husband J. W. Cotton, Nettie Barrier and her husband Raymond Barrier, Allie Graham and husband A. E. Graham, Ida May and husband Tom May, Ora Lewis and husband Clyde Lewis, Ima Lewis and husband Clarence Lewis, Ticia Givens and husband John Givens, Larue Tankersley and husband Cye Tankersley and Christova Sitt and husband W. T. Stitt are Plaintiffs

and W. M. Lloyd, and the unknown heirs of W. M. Lloyd, deceased. Annie Lloyd, and the unknown heirs of Annie Lloyd, deceased. W. B. Lloyd and the unknown heirs of W. B. Lloyd deceased as Defendant.

The nature of said suit being substantially as follows, to wit: A suit in Tresspass to Try Title. Plaintiffs allege that on January 1, 1943, they were the owners of and entitled to the possession of the hereinafter described lands and premises, including all Oil, Gas and other minerals in and under the N. W. ¼ of Section 121 Block T Terry County, Texas, containing 160 acres of land. The Plaintiff Rebecca Sawyer owning all surface thereof and an undivided ¾ of the minerals and other plaintiffs named owning jointly ¼ of the minerals. That on said date the defendants unlawfully entered upon said premises and ejected plaintiffs therefrom to their damages in the sum of \$100.00. That the defendant M. B. Lloyd is asserting and claiming some right or title to same but that any right or title he may have is inferior to the title of the plaintiffs. Prays for title and possession and for writ of restitution and general and special relief.

Issued this the 12th day of May, 1943.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 12th day of May, A. D., 1943.

Eldora A. White, Clerk, District Court, (SEAL) Terry County, Texas 44c

OLD HITLER

By Verna Cargill
Brownfield, 14 Years Old
Humanity with all its fears, With all its hopes of future years, Old Hitler is holding on to fate, Just like it was a swinging gate. The noise of marching feet, Makes Old Hitler think he's beat, We want to make him bend upon his knee And say to Uncle Sam, "be merciful to me."

If I had my way, To Germany I would go, I would grab Old Hitler by the toe, And make him say, "I give in"; This awful war we would win.

Benefit payments from life insurance policies averaged \$4,608 every minute during the first two months of 1943, according to the Institute of Life Insurance.

United States life insurance policyholders are this year putting about \$3,200,000,000 more into life insurance premiums than they did in 1917, an indication of the greater force exerted by life insurance in this war in the fight on inflation.

Mrs. Hugh Harred has received word that her brother, Sgt. Charles Beaver landed safely overseas.

How to Make Cooking Fats Do Double Duty!

OF COURSE YOU CAN! There's no conflict between rationing and saving your used cooking grease to make gunpowder for our men at the front. And the reasons are very simple. First, the government doesn't ask for your fats until you've got all the cooking good out of them. And, second, even if you consume a lot of them in using them over, what you have left is vitally important. No housewife need think she has too little to turn in! Because just one simple tablespoon of used fat will make five machine gun bullets. Save every precious drop. Keep it in a can. When full, rush it to your meat dealer.

I GIVE YOU TEXAS
by
BOYCE HOUSE

Boyhood memories: I've never especially cared for magnolias. It goes back to my boyhood home. There was a magnolia tree in the yard. Overnight, the tree could—and would—shed hundreds of leaves. It was my task to rake them up. Then, next morning, there would be as many leaves as ever littering up the lawn. I visited the place after an absence of thirty years and the old tree was still there—and so were the leaves in the yard.

Did you used to read those nickle thrillers—Wild West, Buffalo Bill, Diamond Dick and Nick Carter?

Movies are all right—but a magic lantern show was a real treat in the good old days.

And did you ever "play show" in the barn? We had a real professional troupe because we actually charged money, and not pins, for admission. When we presented "Jesse James", you had to pay two cents to get it.

My first school principal had a crooked index finger. He must have broken it and then it failed to knit back properly. Anyway, it was permanently bent. The shape of the finger made it a very simple matter for the educator to yank a boy out of his seat by the collar.

Almost eight years ago, your columnist had the pleasure of interviewing H. P. Drought, just beginning his work as state administrator of the Works Progress Administration, and I was impressed by his courtesy and ability. The other day, the work came to an end after he had directed the expenditure of a third of a billion dollars, employing a total of 600,000 persons—a truly gigantic undertaking. Construction of strategic highways and many airports fitted into our war needs; 80,000 adult Texans were taught to read and write, to name just a few of the activities. Mr. Drought sums it up, "The successful efforts of WPA workers to find work for themselves, when private industry made jobs available, justifies completely this nation's faith in them."

She: did anyone ever tell you how wonderful you are?

Gov: I don't believe they ever did.

She: Then where did you ever get the idea?—From Comanche Chief.

Joel B. Allen and family, of Seagraves, visited he Brannons and J. W. Moores, late last week.

F. M. Cox, of the Lovington, N. M., section, was here on business Monday. He moved his ranch from Yoakum county to New Mexico about two years ago.

Uncle Sam, and his friend, John Bull, and H. Giraud are planning to spend the summer in Europe—just exploding around.

Winnie has just completed an agreeable visit with Frankie. His arrival home will be announced when he gets there.

A group of doughboys report good hunting in Attu.

Maj. Gen. Doolittle spent last week end in Sicily and Sardinia.

BETTER SEED MEANS BIGGER PRODUCTION

VITAMINS FOR VICTORY

The American farmer answers his Country's call, and serves as a home front soldier, producing Food for Freedom. Ready to work with him are the implement repair experts, the feed graneries, the chick hatcheries—each serves an important purpose in helping the farmer get the most out of his lands—raising Vitamins for Victory in the form of vegetables, livestock, poultry and dairy foods to make America vigorous—and to keep Americans strong for the fight which must for all time conquer the enemy.

Our part in this

FOOD FOR FREEDOM

fight is furnishing you with the best of certified seed for bigger harvest and

PARAMUNT BRANDS

of poultry and dairy feeds for better production.

BROWNFIELD MILLING COMPANY

Stop World War III Now

Powerful arguments can be advanced, solely from a dollars and cents standpoint, to show why this country should participate in world affairs and lead the way in promoting international trade. Over and above these arguments is the fundamental proposition that through sound trade relations permanent peace can be established. The truth of this proposition should be the ultimate determining factor in rallying support for any trade program. If trade will insure peace, trade there must be. Individuals or groups who oppose extension to the Reciprocal Trade Agreements Act because of an imagined possibility that the profits of their businesses may suffer in some degree, and who wholly overlook the consideration of future peace, deserve little consideration from the millions of parents whose sons and daughters are fighting the present war.

Twelve hundred of the nation's economists have united in warning against abandonment of the policy of reciprocal trade agreements. Their action is unique in that, while the group included widely divergent philosophies and economic beliefs, on the question of reciprocal trade there was firm agreement, as is eloquently attested to from the following signed statement: "Some of us would like to turn toward laissez-faire; some toward a greater measure of planning. But all of us stand on this common ground: We are con-

Liht Showers Fall Ove County

Reports from different sections of the county indicate the rains of last Saturday and Saturday night, were spotted. Being heavy in the Pleasant Valley community and NE part of the County and in south part, but lighter in other places. Coming at this not too late planting season, will be a great aid to farmers.

RUBBER DAY

William O'Neil

Heading a delegation of prominent industrialists, William O'Neil, president of The General Tire & Rubber company, will come to Texas June 28, to take part in the ceremonies planned in connection with the General operated synthetic rubber plant at Baytown.

"Texas from here on in will be a vital factor in the solution of the rubber problem. Texas will be particularly important in the making of tires because Texas produces—under the American Made rubber program—not only rubber but cotton and sulphur, the three most important components in tire manufacture."

O'Neil will be accompanied by L. A. McQueen and T. Spencer Shore, vice presidents of his company and will meet H. Stuart Hotchkiss, chairman of the board, and Warren MacPherson, director, of the General Latex and Chemical Corporation, which company is associated with General in the Baytown plant.

Mussolini is in some dilemma about the peace, or quitting the war. He'll be dead if he does, and deadlier if he dont. He is between the devil and the Mediterranean Sea, and there's boogers in that sea.

vinced (1) that a worldwide reversion toward nationalistic protectionism after the war will hinder of reasonable reconstruction programs. (2) that the matter of co-operative action which the American trade agreement program provides is the minimum basis of United States post-war policy, and (3) that the repudiation of this policy by Congress would inevitably start an avalanche of trade restrictions in foreign countries. The economic preparation for World War III would have begun."

We are prepared to--

Tommie Hicks and Bobbie Virginia Bowers Take Vows In Warrensburg, Missouri

Culminating a romance, starting in grade school days, a wedding of interest to many here, took place in Warrensburg, Mo., last Wednesday, June 2nd, when Miss Bobbie Virginia Bowers and Pfc. Tommie Hicks of Sedalia Army Air Base, were united in marriage by Rev. Gordon Carpenter, in a double ring ceremony. The wedding took place at the Baptist Church. The bride wore a turquoise blue two piece angel crepe dress.

Mrs. Hicks is the daughter of Mr. and Mrs. R. L. Bowers, a pio-

neer family and she was born and reared here, graduating from Brownfield High School with the class of '41, and is a junior at Texas Tech.

Tommie has also lived here all his life, is a nephew of Mr. and Mrs. L. R. Pounds and graduated here with the class of '40, and was attending Tech when he was called to the colors in February. The couple are general favorites and popular in social circles here and at Tech. Mrs. Hicks will stay with Private Hicks as long as he is in the States.

Eastern Star Installs New Officers

A public installation of officers of the Local Eastern Star was held at the Masonic lodge, June 1. Installing officers were: Mrs. Lillian Barnard, grand conductress, Lubbock; Mrs. Oscar Duncan, district deputy grand matron, Weatherford, Okla. sister of Mrs. Grady Goodpasture; and Pauline Smith, junior past matron of Lubbock chapter. A beautiful installation ceremony was given in honor of the newly installed Worthy Matron and Patron.

Officers installed were: Mrs. Grady Goodpasture, Worthy Matron; F. M. Ellington, Worthy Patron; Mrs. Lee Brownfield, Associate Matron; Jesse D. Cox, Associate Patron; Viola Mae Barrett, Secretary; Mary Ellen Brown, Conductress; Margaret Sue White, Associate Conductress; Lula Singletary, Chaplain; Ethel Fulton, Marshall, Caroline Ellington, Organist; Thelma Chesshir, Adah; Dorine Criswell, Ruth; Flake Hancock, Esther; Allie Mae Cox, Martha; Bada Newton, Elberta; Hazel Holt, Warder; and Jewel Smith, Sentinel.

A banquet was given at 7:00 in honor of the installing officers.

MRS. HARTMAN HONORED WITH SURPRISE SHOWER

Mrs. J. A. Scott and Mrs. Mat Jones honored Mrs. D. W. Hartman with a surprise shower in the home of Mrs. M. M. Scott last Thursday night. The honoree was truly surprised as the hostess had told her that there was a very unpleasant experience before her that would take place in the adjoining room. When Mrs. Hartman walked into the room she discovered many lovely gifts that needed unwrapping.

Punch and cookies were served to 19 guests.

Mrs. Hartman was formerly Janelle Scott, daughter of Mr. and Mrs. M. M. Scott. She was married in San Diego, California on April 25th and is living there at the present. She has been in Brownfield visiting her mother but left Tuesday to return to her home.

Irene Adams is visiting in Ft. Worth and Dallas this week.

DEENIE BALLARD CELEBRATES BIRTHDAY

A slumber party was given by Mrs. Roy Ballard, for Deenie, on her tenth birthday, Monday night. Following the usual pattern of slumber parties very little sleeping was done, but a lot of talking and laughing was enjoyed by the following girls: Cynthia Tankersley, Marjorie Graham, Sandra Bailey, Mary Edna Tankersley, Peggy and Patsy Black, Nancy Wier, Jonelda Edwards and Joan Connally and Kay McClain of Quanah.

During the evening refreshments of sandwiches, punch and birthday cake were served.

SURPRISE SHOWER GIVEN MRS. BISHOP

Mrs. Stuffy Moorhead entertained a group of Mrs. Truman Bishop's friends with a surprise shower, naming Mrs. Bishop as honoree, Tuesday from four to six. The problem of how to surprise the honoree was solved by having the guests walk in while the Mrs. Bishop and Mrs. Moorhead were enjoying a game of rummy.

Cookies and punch were served to Mesdames M. A. Tidwell, Tommy Moorhead, John Bishop, O. L. Jones, Ned Self, Eunice Jones, Roy Collier, Clarence Gosdin, Ted Hardy, R. M. Moorhead, Homer Winston, Arch Fowler, Moury Lewis, Leonard Chesshir, Brown, Scott Walker, of Meadow, and Miss Patsy Walker.

CHURCH ANNOUNCEMENT

Nazarene Sunday School and Worship Services:
Sunday School 10:00 A. M.
Morning Worship 11:00 A. M.
Evening Worship 8:30 P. M.
Prayer Meeting, Wed. 8:30 P. M.
Location: 203 West Tate St., Brownfield, Texas.

Workers: Mr. and Mrs. R. A. Ham.

A hearty welcome is extended to all.

Mr. and Mrs. Leo Holmes, Mr. and Mrs. J. O. Gillham and family, Mr. and Mrs. Bruce Zorn, Mr. and Mrs. Spencer Kendrick, Mr. and Mrs. Clovis Kendrick, Mr. and Mrs. Orb Stice and Miss Gertrude Jones were among those from Brownfield attending the Bankers convention in Amarillo Wednesday and Thursday.

MRS. BRUCE ZORN GIVES BRIDGE SHOWER

Mrs. Bruce Zorn entertained with a bridge shower Monday at four in her home, naming Mrs. Tom Neely as honoree. Stationery was given Miss Gertrude Jones for having high score, and to Mrs. Terry Redford, for second high.

Sandwiches, cokes and chocolate bars were served to Mesdames C. C. Primm, Curley Edwards, Jack Hamilton, and Misses Sue and Gertrude Jones. Mrs. Roy Ballard was a tea guest.

BRIDE ELECT HONORED WITH SHOWER

Mrs. W. W. Teer and Miss Marjean Bell honored Aline Denson, bride elect of Av/C F. C. Bradley with a miscellaneous shower in the home of Mrs. Teer Friday night.

Punch and cookies were served to the following: Mesdames J. T. Bowman, Ruth Huckabee, Virgil Bynum, Curley Edwards, W. B. Downing, Jack Thomas of Lubbock, Opal Jones, Bill Settle, Ed Burchel, John Chisholm, Polly Hanson and Misses Wanda Mae Zachary, Etta Lou Miller, and Thelma Lee Burchel. Many sent gifts that were unable to attend.

Miss Denson left Tuesday for Corpus where she and Mr. Bradley will be married immediately after his graduation. The marriage ceremony will be performed in the post chapel by the Chaplain. After the wedding the couple will return to Lubbock, home of Cadet Bradley, by way of Palestine, home of Miss Denson's mother.

BETTY HOLMES GIVES HARE AND HOUND PARTY

To celebrate her thirteenth birthday, Betty Jean Holmes gave a hare and hound party at her home Tuesday evening at 8 o'clock. Clever invitations were made by the hostess with pictures of hares and hounds on them and designating which of the two the guests would be for the evening.

At five minutes till nine the hares took off on a hop for parts unknown, followed by the hounds at fifteen minutes after nine. After an hour of hunting the hounds returned disconsolate and tired. The hares came hopping in safe and sound a wee bit proud of themselves in their ability to remain so well hidden.

Further enjoyment was had when the phonograph was brought out on the front porch and Virginia Reels and other dances were participated in. Doughnuts and punch ended a perfect evening for the following guests:

Richard McDuffie, John Earl Dalton, Ed Hildreth, Jerrell Price, Jackie Worsham, Jerry Worsham, Robert Bowers, Robert Knight, Eilly Joe Lewis, Alfred Mangum, Larry Rambo, Joe Vernon, Morgan Copeland, Mirron Harris, Jane Wier Naoma Thompson, Vela Mae Dumas, Aurelia Ann Cobb and her two cousins from Seminole, Thresa Hargrove and Beverly Besancan, Cora Brogden, Elizabeth Anthony, Patsy Kenerbrew, Judy Griffin, Hazel Vernon, Eleanor Miller, Billie Finney, De Lores Gillham, Carolyn Harriss, Janet Davis, and Joan Connolly and Kay McLean of Quanah.

FEDERATED MISSIONARY SOCIETY MET MONDAY

The Federated Missionary Society met Monday afternoon at the Presbyterian church, with the Christian church in charge of the program.

During the business session reports were given from the various committee chairmen. A very interesting history of the Federated organization was given by Mrs. G. S. Webber. Mrs. Webber also compiled the history which was most complete.

An interesting program followed under the direction of Mrs. Dennis. A social hour completed the meeting with the women of the Presbyterian church serving refreshments.

Miss Nell Burdette of Lubbock, visited Mrs. J. T. Auburg, over the week end.

Mr. and Mrs. George are the parents of a baby boy born in their home Saturday morning, and weighing 10 lbs.

SHOWER GIVEN IN THE HOME OF MRS. RAMBO

Mrs. Tom Neely was named honoree at a shower given in the home of Mrs. Horace Rambo, Thursday afternoon, from 6 to 8 o'clock. Mesdames Terry Redford and Johnny Bost were co-hostesses with Mrs. Rambo.

Several clever pencil and paper games were played to amuse the guests. A very original way of presenting the gifts was used at the close of the games. The presents were brought in on a very large tray surrounded with a garland of pink roses, tied with blue ribbons, which was placed around Mrs. Neely's neck as a lei.

The pink and blue color scheme was used in the decoration of the living room and also carried out in the refreshment plates. Open faced sandwiches, angel squares and punch were served, with cute little hand-made cradles of pink tied with blue ribbon, and filled with pink and blue mints a plate favors.

DELTA HAND CLUB MEETS WITH MRS. BURROW

Members of the Delta Hand Bridge Club met in the home of Mrs. Crawford Burrow, Thursday afternoon, for several games of contract. Bath sets were given for prizes at the close of the games when scores were tallied for high and second high.

Refreshments of ice cream, cake and cokes were served to Mesdames Brown, Benton, Mayfield, Blair, Hahn, Brown and the hostesses.

VISITORS ENTERTAINED WITH PICNIC

As a courtesy to her niece, Joan Connelly, and Kay McLean of Quanah, Mrs. Joe McGowan entertained a group of young people with a backyard picnic.

About 25 guests enjoyed the delicious meal and the games and contests afterwards.

AGED CITIZEN HONORED WITH BIRTHDAY DINNER

A birthday dinner was given Sunday in the home of Mr. and Mrs. Ray Swindle in honor of her grandfather, N. F. K. Foster. He was 81 years of age. Children attending were: Mrs. W. E. Fielder, Stamford; Mrs. Boyd Valentine, Levelland; Miss Ethel Foster, Brownfield.

Grandchildren were: Jack Fielder and Mrs. Melvin Ray of Big Spring; Dick Fielder, Stamford; and Mrs. Ray Swindle. Great grand children were: Melva Jane Ray, Jackie Fielder and Raymond Earl Swindle.

Others attending were: Boyd Valentine, Mrs. Jack Fielder, Melvin Ray and Ray Swindle.

MRS. TED WHITE HONORED WITH SHOWER

A shower was given Friday from five to eight in the home of Mrs. C. E. Ross, honoring Mrs. Ted White, formerly Mary Jean Lees. Hostesses were La Rue and Glenna Faye Ross, Juanita Cranford, Terry Lou Moorhead, Eleanor Gillham, Elizabeth Smith, La Verne Collier, and Mesdames Frank Wier, James King and C. E. Ross.

Flower arrangements of pink roses and larkspur added attractiveness to the living room. Glenna Faye Ross played the piano during the hours of calling for the entertainment of the guests.

Dainty refreshments of sweetheart cake iced in white with pink flowers, cheese sticks, toasted nuts and lime punch were served from a tea table centered with pink roses placed on a mirror reflector and flanked with candles.

Mr. and Mrs. White left the next morning for El Paso, where they will reside until he enters the service.

CHURCH OF CHRIST

The members of the Bible Class of the Church of Christ, met at the church Tuesday for their regular study program. It was the first two chapters of Proverbs, and will be continued next Tuesday. Eighteen members were present.

Work Day will be the second Friday in June and will be held in the home of Mrs. Houston Hamilton.

Eddy Taylor has gone to Holbrook, Arizona, to spend the summer with his uncle.

Charley Auburg left Brownfield for San Diego, Calif., Sunday morning. He was here for the funeral of his father.

Legion Auxiliary Sponsoring "Free A Marine To Fight" Drive

The American Legion Auxiliary units of the State of Texas in cooperation with the mothers, wives and sweethearts of personnel of the United State Marine Corps have offered to sponsor during the month of June a campaign to "Free a Marine to Fight."

The present Department Commander, Charlie Naisel, of the American Legion of Texas is now serving as Captain in the United States Marine Corps, and to honor him with this Marine Corps Women's Reserve Unit of the United States Marines.

Coke Stevenson, Governor of Texas, enjoins all American Legion Auxiliary members and all other women's organizations to direct all efforts toward recruiting and organizing this unit of United State Marine Women's Reserve in order that they may be sworn in at Dallas, Texas June 30 of this year in a single group. May 30 to June 30 is designated "Free a Marine to Fight" Month.

All women of the State of Texas between the ages of 20 and 36, who are in position to do so, to apply through their local Legion Auxiliary units for duty with the United State Marine Corps Women's Reserve in order that they may "Free a Marine to Fight" and to take their place in the winning of this war and the fight of all to live in peace.

Av/C. John J. Kendrick was transferred from the Waco Flying Field to Victoria, where he will take advanced training.

REPORT OF MEETING OF MEADOW HD CLUB

Meadow Home Demonstration Club met May 25th with Mrs. W. J. Moss. Meeting was called to order by president, Mrs. Herman Pendergrass. There were 10 members, Miss Blanton and two visitors present. Novelty song was led by Mrs. Lillian Doak for opening exercise. Roll call, minutes, reports, and business was attended to. Motion carried to have a Helpful Hint Box. Miss Blanton gave a good demonstration on materials for dresses, how to judge good materials, etc. Mrs. Will Bell and Mrs. Ashburn bought gifts given by Mrs. Pendergrass for our auction sale. Mrs. M. W. Fox and Mrs. Ashburn gave a stunt. A club picnic was decided on for the near future. Mrs. Thelma Locke led game, "Barnyard Frolics" was welcomed as a new member.

Meeting adjourned and delicious refreshments were served "ic," for recreation. Mrs. J. M. by hostess. Next meeting will be June 1st in home of Mrs. G. F. Parker. Everyone is urged to be present and new members are welcome.

—Reporter.

JERRIE DON HUCKABEE CELEBRATES BIRTHDAY

Little Jerry Don Huckabee had a group of friends in for an afternoon of games and play to celebrate his third birthday. The party was held at the home of his grandmother, Mrs. M. G. Tarpley. A birthday cake decorated with flags and candles was served with other refreshments to Donna Sue Christopher, Marion Nell and Don Reeves Rogers, Mary Jane Brownfield, Don Copeland, Mike Smith, Mike Hamilton, Kenneth Kendrick and David Nicholson.

Refreshments were served "ic," for recreation. Mrs. J. M. by hostess. Next meeting will be June 1st in home of Mrs. G. F. Parker. Everyone is urged to be present and new members are welcome.

—Reporter.

Baptist Church News

The committee appointed to lead in the Mexican Baptist Church building, finding difficulty in securing materials for building...

This building is of wood and galvanized iron and much additional work will be needed before it is what has been planned...

Next July first will be the time for another payment on our own building and our debt stands at ten thousand dollars with about two thousand dollars in the building fund...

Our greatest need as a church is that every member have a share in the work and be sure that their families are all engaged in the study of the Bible...

Ensign Sam Chisholm Visiting Home Folks

Ensign Sam Chisholm was at home this week on a furlough, before returning to New York, where he will be assigned to duty on one of Uncle Sam's newest naval ships...

Right here, we want to say that Sam, like other service men, is not enjoying the many strikes in essential war production...

MAN-MADE EXPLOSIONS DON'T CAUSE RAIN

SCHENECTADY, N. Y. — Do shell from cannon or heavy bombings on the battlefronts cause heavy rainstorms over here? No! says L. A. Hawkins, question-and-answer authority of the General Electric Science Forum.

Recently Mr. Hawkins, executive engineer of the G-E Research Laboratory, has received letters asking if "bad weather is caused by the cannonading and other heavy explosions of war."

"Terrific as the forces let loose in a heavy barrage or bombing raid may seem to us," he answered, "they are utterly puny and ineffective compared with the forces which control the weather. It has been well said that 'we shall be able to control the weather only when we are able to stop a mass of air of 190,000,000,000 tons from going on its own way.'"

Perhaps the idea that battles caused rains originated with the fact that an army usually gets into position during good weather while the roads are good, so that by the time a battle begins a rain period would be due, Mr. Hawkins pointed out.

And people who believe a rain-storm can be made during a dry spell by firing a cannon into the clouds may as well forget that they, too, he said.

AMERICAN HIGHWAYS COST BILLIONS

There are 500,000 miles of designated state highways, 300,000 miles of city streets and 2,400,000 miles of undesignated rural roads in the United States. It is estimated that approximately 25 billion dollars have been expended since 1910 on designated highways, city streets, and rural roads exclusive of relief expenditures which would jump the total to \$29,000,000,000.

Fifteen yards of cotton fabric are required in the sub-assembly of an airplane propeller. In one famed fighting plane, more than 300 yards of cotton fabrics in various weights and constructions are used.

The Japanatiz have learned by now that the American doughboy is a versatile critter. A Universal soldier, he's buried them in the tropical jungles, slid them off of Alaska's icebergs, and made 'em bite the African dust. He sails through the clouds with the greatest of ease, and crawls on the ocean floor. No seas too deep, nor mountains too high, to long keep the doughboy from carrying to a victorious finish. our just and righteous cause.

County Clerk Chester Brown, of Seminole, visited in Brownfield Monday.

Women Marines Graduate

Members of the first graduating class of the Marine Corps Women's Reserve parade on graduation day at Hunter College, New York City. Following a review by their director, Major Ruth Cheney Streeter, the 253 girl Marines were assigned to varied clerical tasks at Marine Corps Headquarters and other posts within the United States, freeing an equal number of Leathernecks for combat duties.

New Farm Expert Arrives in Capitol

"I am Mr. Brown, the new agricultural expert for this division. Here are my credentials."

"Ah, yes, Mr. Brown. Harvard man, I see. Splendid. Now which department do you—"

"I think I should prefer the publicity angle. I have some new ideas I should like to give to the farmers. Take for instance, our most delicious berries, the potato and the onion. I think we should plant the trees closer and prune the branches in the spring just after the moulting season. That would give us more branches to produce more burrs. This sample plan would help the peanut tree."

"But, Mr. Brown—"

"However, my chief interest is in bovines or cows. It has been our practice to produce numbers of useless male cows, and this must be discouraged. Such as are produced should be butchered and made into sausage and ham to relieve the pork and mutton shortage."

"We have also followed the wasteful practice of feeding our young female cows for a year or more before breaking them to give milk. I think these fillies should be trained to produce milk within six or eight weeks after hatching."

"The whole dairy business needs efficient reorganization. We must teach our dairymen to specialize. The cows in one region should give nothing but milk; those in another nothing but cream; those in a third nothing but butter, and those in a fourth nothing but cheese. It would not be necessary to specialize in buttermilk, for we can use ordinary milk and add the butter to a processing plant."

"We have been very wasteful. No doubt you have read about the breakage of milk bottles. This can be corrected by using larger containers with rubber cushions around the top. We should not blame the cows, for it must be difficult to sit on those small bottles. I think we should disconnect or plug up the horns they use in making that mooing sound and—"

"Yes, yes, Mr. Brown. That is splendid. But excuse me a moment. I need a little air."—Little-

J. W. Moore, who is doing guard duty at one of the Lubbock air bases, spent last week with family here.

While British highway deaths were 16 per cent lower in 1942 than in 1939, 27 per cent more children died as a result of highway accidents. This should serve as a warning to American parents not to relax supervision in wartime.

Approximately three-fourths of all life insurance funds invested in the first two months of this year went into U. S. or Canadian Government bonds, as direct financing aid to the war effort.

American policyholders set aside more than \$350,000 last year under annuity contracts. In addition an increasing number of policyholders are arranging for payment of life insurance benefits on a monthly income basis.

COTTON QUIZ

WHO IS THE WORLD'S LARGEST BUYER OF COTTON?

ANS—THE QUARTERMASTER CORPS! AMERICA'S FIGHTING MEN USE 11,000 SEPARATE COTTON ITEMS!

A new and stronger cotton yarn has been developed from short staple cotton. Produced by a combination of chemical and mechanical treatment of cotton, the new product was originally devised to strengthen the cord used in tires. It now has been adapted to the manufacture of parachute harness. The yarn is said to be resistant to weathering.

field County-Wide News.

Dictator-Proof

Production of essential war materials in the United States grew several months ago to a point where the daily output of the United Nations exceeded that of the Axis powers. Gradually since then good news from fighting fronts has come with more frequency; setbacks have been less often. No longer is America fighting a losing fight, although no one predicts a sudden and smashing victory.

Nevertheless there is hope that peace will come to the world again, and all except a negligible few hope it will be soon. Pledges, made by the Earth's most powerful leaders, that peace will bring victory to America and her Allies, are backed by men, materials and machinery as well as determination. Now the best of all things possible in the world seem to await only the bells and whistles which ultimately will proclaim an armistice.

Complicated Years It will be a joyful sound but as certainly as it proclaims an end of carnage it will also announce the beginning of another struggle, an undertaking to make peace permanent. Many big questions will demand answers, such as: Will capitalist Britain or communistic Russia dominate Europe, and who will help them decide? And all these questions will bespeak humanity's highest hope; hope that no more military maniacs can take possession of powerful peoples (as Hitler grabbed Germany ten years ago) and rob a whole generation of its rightful peace and progress, and centuries of accumulated wealth.

Here is how it happened: Hitler had no right to rule Germany but there was nobody to stop him. As a political demagogue he had gained some following. The German people were hungry. For three and years they had endured unemployment and starvation. Hitler offered them jobs and bread; subsistence in return for work—much work.

They Fell in Line With what they believed was "all to gain and nothing to lose," the Germans followed Hitler, followed him headlong into what they did not want, the most pitiless war of aggression ever known. Will it happen again? Hitlerism, to be sure, can hardly last, but power-madness will not vanish from the earth with Hitler. Grasping men will always scheme for power. How can the world's right-thinking people keep them from getting it?

Examine records of the past to learn how despots work and you will see one glaring similarity. Dictators climb to power over wreckage: wrecked lives, wrecked fortunes, blasted hopes. All men have inalienable rights to "life, liberty and the pursuit of happiness," and they do not sell their privileges to work and vote and worship God. Only extortion takes it from them. When men are doing even fairly well, they hold on to their freedom. They turn it loose only in dire calamity, when their children are weeping for bread.

Safety in Prosperity In a very real sense, prosperity protects human liberty. No Hitler can hypnotize and enslave a prosperous nation. People who are economically independent are dictator-proof. With full employment for labor and consequent high prices for farm products, with factories busy turning out marketable things for peace-loving customers, totalitarian rule is impossible, call it Regime-tation or what-not.

"Certainly dictatorship is unlikely in America," somebody will say, "but what has that to do with permanent peace? We are in war now on account of dictatorships in Europe. How can we stop it over there?" . . . That's a fair question and fortunately it has an answer: Prosperity in Europe depends on prosperity in America. We have only 6 percent of the world's population, nevertheless, the world prospers when we prosper.

Uncle Sam, Buyer In normal years the United States turns out 40 percent of all the usable things manufactured. In order to do this, factories of the United States utilize 40 percent of the world's output of raw materials. Uncle Sam is Mother Earth's big customer. Prosperity follows the American buyer to the four winds. Troubles in Germany over which Hitler climbed to power resulted in part from America's big depression that started in 1929. The most important step toward a lasting world peace is prosperity in America.

The brightest spot in world politics today is the fact that business leaders in the United States are making plans for full employment through private enterprise, starting with the armistice; and full employment means plenty of buyers and lively markets for farm products. It was private enterprise that made Uncle Sam rich enough to be the world's best customer. Private enterprise made America the bountiful source of world prosperity. Some seek to destroy it, only that they may climb to power over its ruins. Be assured, however, if it is destroyed, our unique prosperity goes with it.

NEVER AT A LOSS, THESE WAACS . . .

A group of 15 WAACS, led by their young, pretty lieutenant, met at a mid-town hotel recently and they all crowded into one elevator. Because of the excess weight, the control was jammed and the elevator slowly was lowered to the basement, where there was an emergency exit . . . The basement door, however, opens into a men's Turkish bath. The elevator operator, a girl, warned them about this. The WAACS conferred quickly and made their decision in a true military manner. "Line up, hold hands and shut your eyes," the open-eyed lieutenant commanded. "Then follow me."—Lyons Den.

I'd rather be a soldier lady Than sit at home like Shirking Sadie.

—Wilma WAAC.

M. B. Childress, one of our successful Forrester community farmers, was in recently to renew.

Our old friend, Sam Davison, of Meadow, was down last week to renew. He has been visiting in the Kermit section.

Mrs. Bertie Hess of Hobbs, a sister to Mrs. Jim Jackson, entered Treadway-Daniell hospital, Wednesday, for treatment.

Mr. A. E. Page, of Okmulgee, Okla., accompanied by his sister, Mrs. Thelma Hall of Jayton, visited their sister, Miss Beulah Page, here last week end.

Mrs. Lewis Richards of Lubbock, is visiting her mother, Mrs. Mae Low.

Had notice recently to make a slight change in the address of James P. Romans F 1/c, who is now on one of Uncle Sam's ships somewhere in the broad Pacific. By the way, the Pacific is not so peaceful just now.

Sam Pyeatt was in last week to get the Herald started to his brother-in-law, Travis Bynum, who is working at a copper smelter, at Clifton, Ariz.

Mrs. T. F. Chrestman was in one day last week to get their Herald up in advance.

Another old friend, A. W. Enders, of Fort Worth, sent in his dollar fifty for renewal.

TO REHABILITATE INSOLVENT FARM ASSOCIATIONS

HOUSTON — Federal Land Bank activities in Texas will be decentralized—strengthening both national farm loan associations and the Federal Land Bank of Houston, according to plans announced here by President Sterling C. Evans of the Land Bank.

Under new plans the 76 impaired associations (out of the total of 294 in the state) can be rehabilitated, all associations put in strong financial position, and nearly \$2,000,000 worth of member-stock in previously insolvent institutions can be restored to par value.

"The Land Bank will be in position to pay \$450,000 in cash to redeem with-held stock of 3,400 farmers who have paid their loans in full through insolvent associations," Mr. Evans said. "It can also restore to par value \$1,500,000 worth of stock held by 16,600 member-borrowers through such associations."

Malcolm Timmons and wife, of Meadow are entertaining a new daughter which was born at the local hospital recently.

TIME TO QUIT KIDDING

In spite of the apparent success of the last war bond drive, the ominous fact remains that of the billions of dollars worth of bonds sold only a small portion went to individuals. As usual, banks, corporations and other institutional investors with accumulated reserves absorbed most of the obligation.

This means that the prosperous masses are still riding the crest of a luxuriant war boom, with income expanded in March, 1943, 28 per cent over March, 1942. Taxes and bond buying will barely scratch the surface of the billions of the "new rich."

This all adds up to one thing: The people at home are still trying to fight the war the easy way. Instead of sacrificing comfort for the sake of victory as our men are sacrificing their lives, they are, so far, using the war as a device to wallow in more comfort.

Will our soldiers return to a luxury-satiated bankrupt homeland with a congress still arguing over picayune tax details, or a land where the integrity and solvency of their government has been preserved. The answer is with us.

MRS. TURNBOW PASSES AWAY

Mrs. Sam Turnbow died Tuesday night at the home of her daughter, Mrs. Leonard Lang, in Brownfield. She is survived by her husband, Sam Turnbow, two sons at Portales, N. M., who are here, and the daughter, Mrs. Lang.

Hugh Turnbow, brother in law of Seminole is here. Funeral services were held at the church of Christ, and interment was in Brownfield Cemetery.

Analysis of the occupations of the directors of sixty-one life insurance companies, not counting those who are also officers of the companies, shows that 26 per cent are business men, 25 per cent are bankers or investment men, 23 per cent are professional men, and the balance is made up of farmers, public officials, men who have retired and men engaged in miscellaneous occupations.

F. E. Stevens of Coleman, Texas, who owns property in Terry, was up this week and had us send the Herald one year. He says the crops are up down there but burning up for lack of moisture.

CRISIS IN MANPOWER

Today's problem of manpower means as much to the farmer with one hired hand, or the merchant with a single clerk, as it does to the industrialist who employs a thousand persons. It is all a matter of proportion.

The war program has reached such a stupendous size that the proper distribution of manpower assumes as much importance as the right use of steel, oil, rubber, or any other essential material or product.

It has been such a short time since there was more manpower than industry and agriculture could absorb that we may be a bit slow in waking up to the fact that today each man and woman who can be used to help in the battle of production is needed, and needed badly.

For the benefit, then, of farmers whose crops and livestock will suffer this year if manpower is not replenished; for the benefit of the armed services which have set their sights at possibly 10 million in uniform before 1944; for the benefit of the factories which must turn out ammunition, shoes, clothing, supplies and processed foods in ever-increasing quantities for fighters, civilians and allied nations, a careful stock-taking of manpower is required.

Where Manpower Is Wasted
Our new Congress must make sure that those in charge of this task, in Washington, cast about to see where able-bodied people are being needlessly employed. And in that city of Washington these authorities are now rubbing elbows with thousands of clerks, auditors, stenographers and others who could be used elsewhere without interfering with the war effort in any measure.

Recent figures show that there were 2,606,300 persons on the civilian payroll of the federal government. This is not only a million more than were in our armed forces in foreign lands at the time the President made his address at the opening of the present Congress, but it is three times as many as were

on the government's civilian payroll during the first World War. Of course this is a bigger war, but that only furnishes an even greater reason why the government should lead in conserving manpower for our farms and factories.

The "Renegotiation" Law A single measure, introduced in Congress last year, would require thousands of new payrollers to carry out its provisions. This was the act providing that the Army, Navy and Maritime commission should each check its war contracts so that renegotiation could be demanded in cases of excessive charges.

The purpose of this legislation—to make sure that the government was not paying too much for its materials and supplies—was not questioned. But the proposed method of rechecking all war contracts called for the hiring of such a large number of new federal employees that amendments to the bill were quickly demanded.

Although the bill has been rewritten and amended, it still places upon the Army, Navy and Maritime commission so much of the responsibility for re-examining their contracts that thousands of new auditors and accountants would be needed. This violates the principle that united war effort calls for the placing of every available man and woman in productive work, at the same time helping to keep the taxpayers' federal load as light as possible, consistent with wartime demands.

An acceptable amendment to this law—not yet adopted—would leave it to the Department of Internal Revenue to uncover instances of excess profit. By using this established checking system, the other departments would not have to hire extra people to wade through the 95 per cent or more of war contracts which are honestly and conscientiously executed.

Here is but one example of how manpower can be conserved in these days when the efforts of all must be directed toward winning the war.

TO: The American People FROM: The Secretary of the Treasury

A report on the most tremendous financing task in history - - - the Second War Loan

DURING the three weeks between April 12 and May 1, the American people tackled the biggest job of financing in the history of the world.

In these three weeks it was proposed to raise the sum of 13 billion dollars, or more than half as much as was raised by five drives in the first world war.

It was obvious that the task was hopeless unless the people of the nation were desperately in earnest about the war. And it was equally obvious that here was, so to speak, a thermometer by which the fervor of the people could be measured with reasonable accuracy.

This is why we believe you, as an American citizen, can take pride in this report. For it was written solely by you, the people.

The result, in dollars

Our goal was 13 billion dollars. Actually, the American people subscribed 18 billion, 500 million dollars.

This was 90% as much as was raised in all five drives of the first world war combined.

It was, I think, as much a victory for America and the free American democracy as any military triumph.

Where did the money come from?

You will be interested in where this 18½ billion dollars came from—for every dollar invested in War Bonds is more than a purchase; it is a demonstration of faith.

The chart below shows the portion of the 18½ billion that came from commercial banks. They were eager to buy more, but were limited to set amounts:

Insurance Companies and other Corporations know that there is no sounder investment than a U. S. Bond. The chart (top of next column) shows their purchases:

Naturally, it was your money that bought the bonds in the two groups above—for you are the people who put your money in banks and invest in insurance.

But how about what might be called your "personal" money.

That is a very important question, for it is vital that Americans, as individuals, buy War Bonds with all they can spare.

Our goal, here, was 2½ billion dollars. The chart below tells the story:

50 million bondholders

To review your record to date, almost half our entire population own at least one bond—including infants, children, the lame, the halt and the blind.

Or, to look at it in terms of those best able to buy bonds, see the chart below:

5/6
Of all the people earning money HAVE BOUGHT BONDS

Who gets the credit?

The credit for the 2nd War Loan goes to the people.

It goes to the children who put dimes and quarters into war stamps. To everyone who bought a bond. To thousands of patriotic banking people. To advertising people who donated their creative talents. To patriotic merchants and companies who paid the bill for war bond messages. To radio stations, newspapers, movies, outdoor advertising companies, and publications.

But chiefly, perhaps, to those who turned voluntary bond salesmen—a loyal legion of patriots.

What lies ahead?

Yes, America's record is good. But we cannot become complacent—for our biggest financing job lies ahead.

In the first 4 months of this year, we raised 25 billion dollars. During the balance of this year we must raise 45 billion dollars more.

The war is costing us 100 billion dollars this year. Part of this will come from taxes, and the balance must come from War Loans.

You, as an American, can take pride in what you have done. You have shown the Axis that Americans on the home front, like Americans on the battle front, will do all that is required of them—and more.

But our need is great. Dig as deeply as you possibly can and invest it in War Bonds now—either through the Payroll Savings Plan or through special purchases. Don't wait for "drives."

We must win this war with bayonets—and with dollars. We who stay home in safety must provide the dollars—all that are needed. It is the very least we can do.

Ration Dates, Deadlines

Point Rationing

May 30—Red "K" stamps in War Ration Book No. 2 (for meats and fats) are valid and will be good through June 30. Red "J" stamps also valid through June.

May 31—Red "E," "F," "G," and "H" expire at midnight.

June 7—Blue stamps "G," "H" and "J" (for canned foods) expire at midnight. Blue Stamps "K," "L," and "M" now valid, will be good through July 7.

Sugar

May 31—Stamp No. 12 in War Ration Book No. 1 (good for five pounds of sugar) expires at midnight. Stamp No. 13 valid June 1, good for five pounds through Aug. 15. Stamps No. 15 and 16 also valid for five pounds each of home-canning sugar.

Coffee

May 30—Stamp No. 12 in War Ration Book No. 1 good for one pound of coffee, expires at midnight. Stamp No. 24 becomes valid May 31, good for one pound through June 30.

Shoes

June 15—Stamp No. 17 in War Ration Book No. 1, good for one pair of shoes, expires. Stamp No. 18, valid for purchase of one pair of shoes for unspecified period beginning June 16.

Mileage

May 31—Deadline for second official tire inspection for "C" book holders. Deadline for "B" book holders on June 30, for "A" book holders Sept. 30.

June 1—Most "C" rations and Many "B" rations expire. Renewal applications should be filed with local war price and ration board, accompanied by tire inspection form which shows second inspection for "C" book holders.

July 21—No. 6 coupons in "A" gasoline books expire on this date. "A" books will be renewed by mail between June 22 and expiration date.

War Ration Book No. 3

June 1—Between this date and June 10, applicants should fill out applications for new food ra-

Ulee McPherson Writes From Somewhere

Mr. and Mrs. Lester McPherson had a letter from their son, Ulee, in the US Navy, from a "Beautiful Isle of Somewhere," evidently, as the lad almost got poetical in trying to describe the flora, mountains and sea of the island.

Ulee stated that he was well and happy, and that Uncle Sam's fleets were getting ready to put a damper on the Japs at the first opportunity.

Two Fire Alarms Answered Wednesday

A fire alarm in the mid-afternoon Wednesday, proved to be the home of Dr. and Mrs. E. C. Davis on east Broadway. It seems to have started from the hot water heater, but firemen put it out with slight damage. May have to repaint interior of that room.

Another alarm late Wednesday afternoon was a car near the telephone office. Damage mostly to wiring. We failed to learn the owner of the car.

Visitors in the J. W. Ball home, Sunday, were Mr. and Mrs. Lester Caswell, Loop; Mr. and Mrs. Hadley Kern and family of Morton; Mr. and Mrs. Jack Kern and baby, Whiteface; J. W. Brown Brownfield; also Mesdames Curington, Aldridge, Isaacs and Smith, of Lubbock.

Mary Nell Adams and two of her classmates, from the University of New Mexico attended a Government course in food testing being held in Lubbock. The course was held from Monday through Thursday.

Mrs. E. L. Treadaway returned Monday from a three week's visit in Austin, Dallas and nearby points.

Mrs. Will Fitzgerald visited in Plainview last week.

FARM QUESTION BOX

by
ED W. MITCHELL
Farm Advisor
General Electric Station WGY

- Q. Does plowing in the spring or autumn make any difference?
- A. Fall plowing is generally better because it gives frost a better chance to kill insects and break up the soil. Apply manure, if you can get it; otherwise, use superphosphate or 3-8-7 fertilizer.
- Q. Are cabbages easy to grow?
- A. Cabbages, as a rule, are easy to grow and they yield well. Send for your plants to arrive about May 29 and they should stand any cold we have after that. I will get you bulletins on gardening that tell how to grow and store them.
- Q. What is the food value of brewery grain for cattle?
- A. Wet brewers' grain is a bulky, laxative food about equal in feeding value to good corn silage and should be fed in much the same way along with dry hay and grain. You can feed a cow up to about 30 pounds a day of it, but, except in small amounts, it is not good for other kinds of stock. Therefore, do not try feeding it to horses, colts or pigs.
- Q. How should onions be cured and stored?
- A. When onions are ripe the tops will fall over and begin to die; then dig them and let them lie three or four hours to dry out a little, but avoid sunburn. Take shears and clip the tops off close to the bulb and cure in a shallow pile on the barn floor or in shallow, slatted crates in a well-ventilated place. When thoroughly dry, in three or four weeks, store in a cool, dry place.
- Q. When is the right time to plow under winter rye for best results for my garden?
- A. The longer the rye grows, the more humus it provides; but it also takes a lot of water and available food out of the land that this year's crop might use. So turn it under when it is about 1 1/2 or two feet high.
- Q. How can I prevent maggots and worms in carrots?
- A. Make up a 1-to-1000 solution of corrosive sublimate and moisten the soil around the roots two or three times a season. Start when plants are about 6 inches high, and repeat two and four weeks later.
- Q. For wiring a barn, should the metal sheathed (BX type) cable or the nonmetallic (Braid X) type be used?
- A. The nonmetallic type.
- Q. At what temperature is milk or cream most properly soured?
- A. In general, the higher the temperature the more quickly milk will sour, but around 70 degrees F is ample for most purposes and convenient in most homes. An open container is preferred.

THE LOW DOWN FROM HICKORY GROVE

A nation-wide sales tax right now, to pay for the war, is the medicine we need. Unless we care to drag around for years as a half-way invalid, we better start doing something—and taking our medicine.

A sales tax is a hot potato and poison to many office holders. But more than one politician of renown has not always had his finger on the public pulse—they just think they do. That is why we see so many new faces on the old Potomac, as time rolls along—as we get hep.

And while we are on the pulse subject, it reminds me of the horse story that the chef down at our Coffee Pot Restaurant told me. A horse doctor, he says, must be smart—smarter even than your family doctor. You tell your family doctor where you feel bad, he says, and the doctor proceeds to fix you up. But a veterinary, he can't ask a horse where he has a pain.

But the sales tax—I am off the subject. The time to get the money is when everybody is flush—which is now—and avoid much more bitter medicine later.

Yours with the low down
Joe Serra.

YAMAMOTO—DICTATOR OF PEACE TERMS

Yamamoto will yammer no more. Tokyo radio has broadcast with lamentation the news that the hard-bitten commander in chief of the combined Japanese fleet met death aboard a warplane in April. Since he report was a communique from the Japanese Imperial headquarters, designed for home consumption, its reliability can hardly be questioned.

This was the Admiral who boasted, in the tense period following the treacherous attack on Pearl Harbor, that the terms of peace would be dictated in the White House. He may have believed what he said at that hour, in the flush of unholy victories. But he lived long enough to know that his boasting was idle, that it had served the chief purpose of steeling the will and marshaling the power of this country and its people against whom he had long nourished a concentrated hatred.

His fleet which had scored brilliant victories in the early stages of the Pacific war had been outmaneuvered and outfought in decisive engagements with the foe which he underrated and despised. That he should have met death in a warplane seems unfitting, and more gratifying to Americans, if he and his flagship had gone down together. That fate may be reserved for Yamamoto's successor, Admiral Koga.—Dallas Morning News.

Mr. Douglas Jones, of Amarillo, Miss Ada Lee Mosier and Sgt. A. L. Mosier of Denison, were here for the weekend visiting Mrs. S. W. Jones and family.

Miss Elizabeth Upton spent Saturday afternoon until Monday in Clovis, visiting relatives.

Hospital Notes

Dad Tudor is a medical patient this week. Mr. O. L. Walton of Brownfield and Mrs. M. H. Hess of Hobbs are also medical patients. Mr. P. M. Willeman of Brownfield and Dixie Ruth Hollers, of Meadow, are appendectomy patients.

Mr. Jim Hagen of Tatum is an accident patient. Mrs. J. C. Todd of Brownfield is also an accident patient. He fell from an elevator and broke both heels.

Mr. and Mrs. A. H. Patton of Brownfield have a baby girl, born the 28th of May and weighing 6 lbs. and 8 1/2 ozs.

Mr. and Mrs. J. B. Ford have a boy, born the 26th and weighing 9 lbs. and 1 oz.

Mr. and Mrs. J. E. Mathews, of Brownfield, have a boy, born June 1st, and weighing 7 lbs. and 7ozs.

Mr. and Mrs. H. E. Robbins, of Brownfield, have a boy born the 30th, and weighing 9 lbs. and 5 ozs.

Mr. and Mrs. M. A. Timmons, of Meadow, have a girl, born the 29th, and weighing 7 lbs. and 12 ozs.

TWO LOCAL STUDENTS GET DEGREES AT TECH

LUBBOCK—Degrees are to be awarded to 284 graduates at the annual commencement exercises at Texas Technological College: May 31. Hon. Sidney L. Samuels, attorney of Fort Worth, will deliver the commencement address and the Rt. Rev. Harry Moore, bishop of the Episcopal church at Dallas, will deliver the sermon May 30.

Both exercises are to be held in the Tech stadium at 8 p. m.

By divisions the number to receive degrees are: agriculture, 19; arts and sciences, 84; commerce, 45; engineering, 74; home economics, 54; graduate, 8.

The following students got degrees, from Brownfield: Oran Buckner, MA, History; Wendell Rowe Smith, BS, Civil Engineering.

Denver City: Gwendolyn Lenore Lam, BS in H. E.

Plains News

Mrs. J. H. Morris and her daughter, Mrs. L. B. Lamance, of Houston, are visiting in Colorado this week.

Mrs. Lynn of Guthrie, is here visiting Mrs. J. H. Lynn.

Mrs. Minta Turner and son, Ed, and Clyde Perry Jr., spent Saturday night and Sunday at Jayton.

Mr. and Mrs. Warner Hayhurst and children, and Mrs. Les Covington and daughter, spent last week in Oklahoma.

Ovella Heath and Fray Smith, are home from Tech.

The Terry County Council Meets

The Terry County Council met May 29, in the Commissioners Court room, with the chairman, presiding. Miss Blanton talked on rationed pressure cookers. The Chairman appointed the following committees:

Finance: Mrs. C. P. Pendergrass, Meadow; Mrs. C. H. Hefner, Wellman; Mrs. Kelly Sears, Gomez.

Year Book: Mrs. Carl Griffith, Wellman; Mrs. Roy Martin, Scudday; Mrs. L. M. Lang, Harmony.

Educational: Mrs. Hardin Joyce, Johnson; Mrs. R. E. Faught, Scudday; Mrs. J. W. Moss, Meadow; Mrs. Jewel Bell, Needmore.

Recreation: Mrs. Lillian Doak, Meadow; Mrs. Paul Gracey, Harmony; Mrs. Wes Key, Gomez.

Expansion: Mrs. W. M. Fox, Meadow; Mrs. D. W. Allmon, Scudday; Mrs. R. H. Riney, Wellman.

Reporters: Mrs. R. D. Jones, Johnson; Mrs. Paul Gracey, Harmony; Mrs. Homer Sudderth, Scudday; Mrs. W. M. Fox, Meadow; Mrs. Bill Tipton, Wellman; Mrs. Alfred Bench, Johnson.

The secretary was absent at the beginning of the meeting. She came after the committees were appointed, and we had the roll call and the secretary's report was read and approved. There were three clubs who asked for the county wide picnic, Wellman, Johnson and Meadow. Wellman got the picnic and is supposed to set the date. It was decided for each lady to bring a covered dish. Each club will be responsible for its drinks.

We decided to change the date of Council meeting from the last Saturday to the second Saturday of the month in the Commissioners Court room. We will meet

E. N. CAIN MOVING

It was announced Wednesday that E. N. Cain has sold his residence here and is moving with his family to Lubbock. Mr. Cain has been very active in real estate and oil development in this and adjoining counties for the past 6 years, promoting the drilling of several oil wells, and is to follow the same line in their new home.

Mrs. Richard McAdoo and baby, Leon, returned to their home in Penwell Tuesday after several days visit in the home of her mother, Mrs. L. O. Greenfield.

Mrs. J. W. Fitzgerald has been in a Lubbock hospital, and was brought home Tuesday. She is still quite ill.

June 12, 1943. Meeting adjourned. Mrs. R. D. Jones, Reporter

Ida May and Jo Pete May enrolled in Tech Tuesday for the summer session.

Pvt Aubrey Jones was at home over the week end, from Camp Home, Texas, visiting home folks.

Miss Gene Coleman has accepted a position with the OPA in Lubbock.

Mrs. Marlin Davis from Dallas, will spend a week in the Dick McDuffie home.

Monday was Mother Cox's 87th birthday. Even at this age, she is enjoying good health.

Mrs. J. R. Bunts and son, Marc, of Dallas, and Mrs. W. T. Ince and baby daughter, Darla Kay, of Long Beach, Calif., are here visiting in the home of their parents, Mr. and Mrs. W. A. Bynum.
