And the Comanche Chief says, "Physical examinations for the Army have now got to the point that, when you come before the medical officer, he just feels you. If you're warm, you're in."

Reports are coming to Brownfield that there are five or six cases of infantile paralysis here. The Herald has checked up, and finds none so far. One of these reports came via Seagraves, whether or not it originated there or elsewhere, we cannot say. Too many reports like that are calculated to get people, already riled up by war, in a more nervous condition, and are usually started by a speculative rumor. The Herald isn't advising a complacent attitude, but advises the public to take every precaution advised by your physician or the health department, and to consult a physician if you have a suspicious case, at once. This disease is dangerous, and the sooner treatment starts the better.

Most people of the south Plains are law abiding, but they just don't like to have a whip cracked over them and told what the MUST do. Some of the heads of

the bureaucratic rationing boards of the south Plains, are alleged to have "cracked down" of late, perhaps more than anything else, to show their authority. While in the east, where gasoline is really a scarce article, authorities are advising families to take a short vacation away from home to relax from the war strain. The Herald has an idea that the guys that try showing their authority too much during this war, are going to be just about as popular at home after this conflict is over, as Quislings of Europe are going to be with the real patriots over there.

Much had been printed in papers, it seems, south of the border about the riots a few weeks ago at Los Angeles, in which it was intimated that most of those with zoot suits that soldiers and sailors took to a cleaning were young Mexican, but it developed that most of them were citizens of the United States and not Mexico, and that a vast lot of them had migrated to California from south Texas. So, it was quite interesting this week, when the reaction of Mexicans in Mexico city to the zoot suit was registered as a wax

dummy was being draped with a zoot suit, in a store window of that city. Most of the expressions were, "well, anyone that would wear that thing should be beat up."

We notice from the daily press that Mr. Wm. Green of labor unions, that congressmen and senators have been put on notice that they will be opposed in the elections of 1944, if they were guilty of voting for anti-strike legislation. In the case of the 19th district of Texas, so far as we know now, Mr. Green, Geo. Mahon of Colorado City will be the people's candidate—the candidate of the partiotic men and women that go to make up the district. Mr. Mahon Voted for the anti-strike legislation. Now it is up to you, Mr. Green to select your union candidate, and prime him up for the race. Mr. Green, we fear you will be greatly surprised just how few votes your man Friday, will get in the 19th. Nearly every family in the district has kin in the service, and what don't, have friends that have men in the service, and these folks are not too friendly toward labor unions, especially miners. Let's go, Brother Green.

The suspicion is fast leaking out that our boys who are prisoner in Jap concentration camps are dying of mistreatment or hunger or a combination of both. Of course this heathen government does not recognize a Red Cross or any other organization of mercy. They are brutes, bred and born. Some south Plains boys are among the victims, the latest being the Cooksey boy of Seagraves. The time of retribution will come some of these days, and while most of our boys in their prison camps may be dead at that time, a vindictive nation should not forget this when the dirty rats have to surrender unconditionally. We hope that our commissioners who will dictate terms to them, will have no isolationists among them. Yes, we know that Christ said to show mercy and pray for those who despitefully use you. We also have read in the old Bible where God's people were ordered to "utterly destroy" heathen nations.

A Few ???'s to Ask the Printing Peddler

When the Peddler selling stationery and printing supplies solicits your business, there are a few questions which he should be willing to answer to your satisfaction.

Among them being:

- ?** Does he pay taxes in this community?
- ?** Does he donate space in his newspaper to the local community enterprises?
- ?** Does he pay wages to a force of employees located in this City or County?
- ?** Does his paper devote its entire space toward the betterment and upbuilding of this community?
- ?** Does he grant you every favor that you would ordinarily ask of a local newspaper?
- ?** Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?
- ?** Will he submit proof of your work before finishing and mailing it to you C. O. D.?
- Does his price include postage and insurance charges?
- Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

IF NOT . . . CONSULT

Terry County Herald

Phone 1 Commercial Printing
We Can Answer YES To Every Question

Last week, editor Hale of the Yoakum County Review, Plains, was roaring down one of his columns, about dis, dat, and the tother that was bothering him, especially the rationing, and made a crack that we needed Hoover, followed by Mr. A. J. S. We are just supposing that the Mister A. J. S. meant this writer, and if so, we say with all the vim, vigor and vitality at our command, that we do not need "Hoibet" Hoover for anything. He has made a mess of everything he has ever undertaken, including the presidency, and became a one termer. When he was feeding the Belgians and other Europeans during the first world war, he piled up stuff in such quantities on the Atlantic seaboard, that it rotted in warehouses. True the Belgians were well fed, a darn sight better than here in the south, especially, who had to take our corn

Dr. and Mrs. McIlroy visited Dr. and Mrs. T. A. Mellroy in Lubbock, Sunday. Miss Opal Camp and Mrs. Bob were well fed, a darn sight better than here in the south, especially, who had to take our corn

WHERE DOES THE NORTH BEGIN?

AUSTIN, Texas, July 15—Where does the North begin? at the equator, of course.

That question is answered in a new government film which the University of Texas' Visual Instruction bureau has added to its stock, for circulation to Texas schools, civic and community groups.

Called "Down Where the North Begins," this film tells the story of Ecuador—its geography, history and customs. Another new motion picture, "Venezuela Moves Ahead," also comes from the same government agency, the office of the co-ordinator of inter-American affairs.

W. L. Cappell and wife, of Weslaco, and their daughter from Odessa, were here this week, visiting Mrs. Capell's sisters, Mrs. J. R. Burnett, Mrs. S. H. Holgate and Mrs. W. W. Price.

Miss Althea Hooper of Topeka, Kansas, stopped over in Brownfield Tuesday morning, and visited Twilla Graham. She was on her way to Ruidoso.

Mrs. Ralph Bailey of Tahoka spent Saturday with Mrs. Glen Webber.

Twilla Graham enrolled in Tech for some summer courses Tuesday.

Mrs. J. G. Butler left Tuesday, to visit her daughter in San Antonio.

"QUOTABLE QUOTES"

Great Britain and Canada are winning the battle against inflation. The United States is losing it. Why? It has been suggested that bombs dropping on the homeland cement the populace and make painful measures less painful. But no bombs have yet dropped on Canada, so perhaps it will not be necessary for the United States to receive a baptism of incendiaries before looking the dragon inflation in his fiery red eye and grappling with him in an all-out effort.

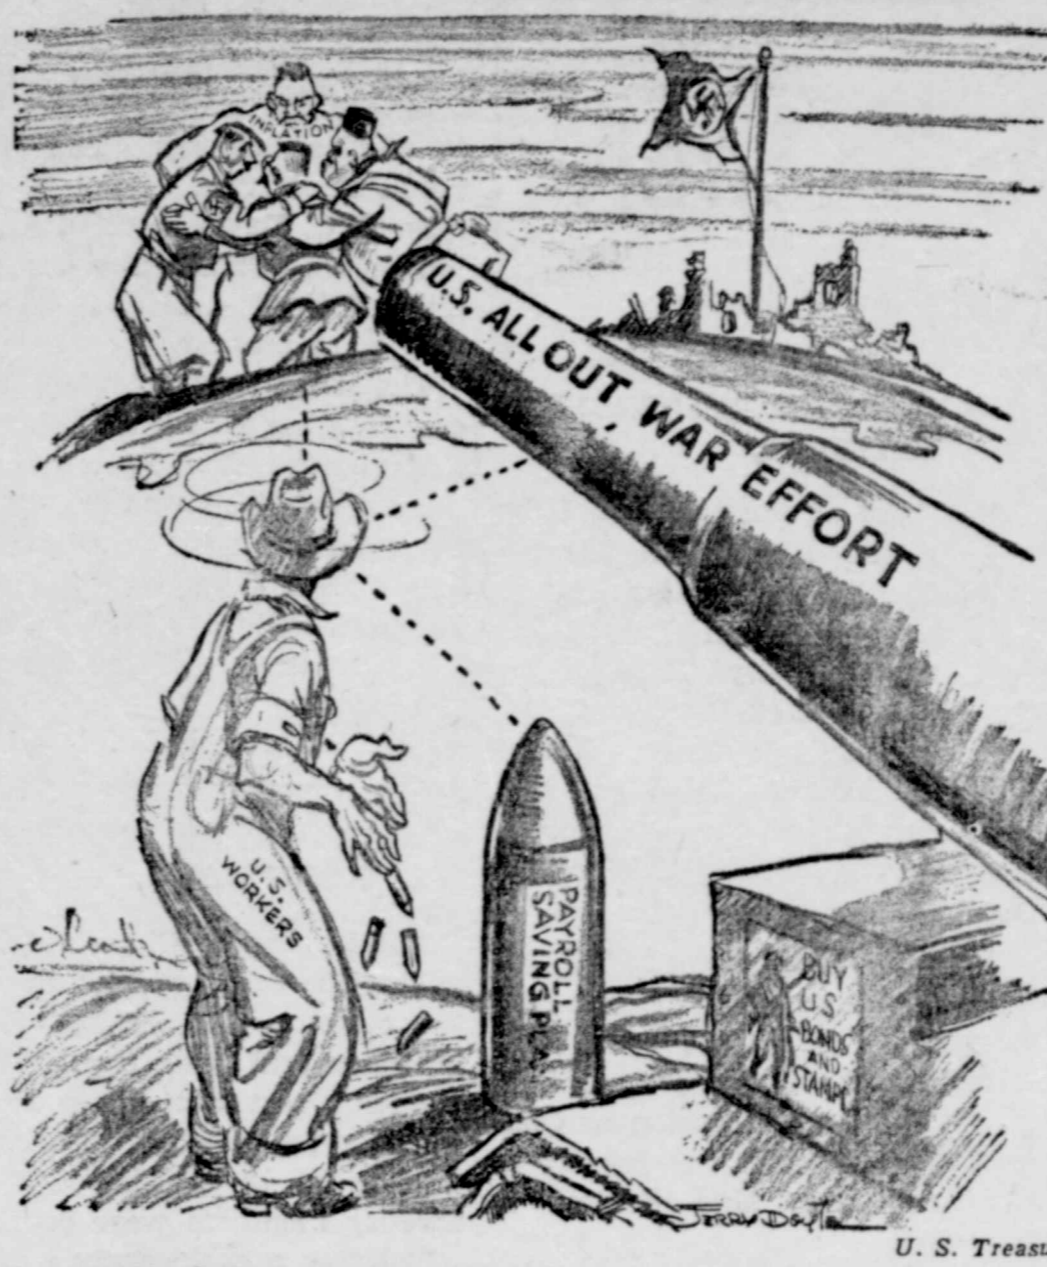

We shall not win the war against inflation so long as we cling to our "standard of living as usual" obsession, any more than we could hope to win the war against the axis while clinging to a "business as usual" formula. But if we lose the war against inflation, the standard of living cannot survive a major war intact. Either we sacrifice it consciously and deliberately to prevent inflation or we have it snatched from us by an inflationary rise of prices.

An effective war against inflation must be waged on three fronts—control of prices, control of wages, and taxation. We must clamp a ceiling on prices, and we must also lessen the inflationary pressure that would otherwise blow the ceiling off by controlling wages and by draining off purchasing power through heavy taxes. In our early railroad history, a colored fireman did not like the sound of escaping steam, so he leaned against the valve. All that survived of the train crew was a badly wounded engineer who lived long enough to tell what happened. A ceiling price alone isn't any more effective than leaning against the valve. Unless the steam (which in this case is purchasing power) is reduced, there will be an explosion which will blow the ceiling to bits. From Tax Policy, edited by Mabel L. Walker.

Mr. and Mrs. L. C. Green are reporting the arrival of a granddaughter, born to Mr. and Mrs. L. C. Green, Jr., of Waxahachie, Texas. The little lady arrived on July 9th, and has been named Mary Fern. Congratulations.

Utah Eicke, born Dumas, was here this week visiting his parents, Mr. and Mrs. Elzie Eicke.

FIGURE IT OUT YOURSELF

BE CAREFUL OF SUNBURN, SUNSTROKE

Following last week's suggestions for comfortable and safe living during hot summer days, Dr. George W. Cox, state health officer, today released a statement concerning the danger of over exposure to the sun. "Sunstroke is not thought to be due to the heat of the sun, but to certain direct effects of the sun on the human brain. It is likely to occur after the sun has shone excessively on the back of the head or neck," Dr. Cox explained. "This can be prevented by protecting the head and back of the neck from the sunshine," he added.

Dr. Cox asserted that exposure of the skin to the sun has some virtue since the action of the sunshine tends to kill the germs on the skin. Further, sunshine produces Vitamin D from the fats in the skin and this product is absorbed and used by the body. "In general, the good effects of sunshine are not due to the heat rays, but ultraviolet rays," Dr. Cox stated. "It must be remembered, however, that it is these same rays which burn the skin and extensive application of direct sunshine to the skin may produce painful and severe burns which actually may endanger life." The state health officer advises those who wish to obtain an extensive suntan to get it by slow degrees. Expose small portions of the skin to the sun for a short period of time. When tanning is established, exposing a greater area for a longer period of time should prove safe and comfortable.

Goron Walker, son of Mrs. Lee Walker of Gomez community, and Eugene Locke, whose folks live north of Tokio, are here from California, visiting relatives. They work in a defense plant.

Mrs. Homer Newman, of Oklahoma City, is visiting her parents, Mr. and Mrs. Jim Burnett and the Henry Newman family.

The J. W. Rhynes have had as their guests, the past week, Mrs. Harold Montgomery and daughter of O'Donnell and Mrs. B. F. Little, of Moran.

Mrs. Bud Patterson, of San Antonio, is here visiting her mother, Mrs. O. L. Jones. Cpl. Patterson has recently been transferred to Randolph Field, from California.

Margaret Glandon and her grandmother, Mrs. O. D. Ray, left last Tuesday for Dallas, to be gone for two weeks.

Mr. and Mrs. Stacey and son of Comanche, are guests of the E. C. Davis family this week.

FLASH

For the first time in history a big glider was towed across the Atlantic ocean, it was announced by the British Air Ministry.

A twin-engined Douglas transport, apparently a C-47, yanked the Waco glider across 3500 miles of ocean in 28 hours. The glider carried two and a half tons of freight.

The flight was conceived with a view to collecting data on the possibility of trans-Atlantic air train service.

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

10 REASONS WHY WATKINS FLY SPRAY IS A SUPERIOR INSECTICIDE

- 1 High Kill** — (AA quality, highest official rating).
- 2 Fast Action** — Acts upon insects quickly.
- 3 Effective against "hard-to-kill" insects** — (bedbugs, roaches or waterbugs, carpet beetles or "buffalo moths," weevils, etc.)
- 4 Drive-out Power** — When sprayed into cracks, crevices, behind cupboards, sinks, etc. — helps to drive out the insects so that they will come in contact with the spray fog.
- 5 Pleasant to Use** — Contains a chemical that masks the odor of the killing ingredients.
- 6 Stainless** — Can be used freely in closets, drawers, on walls, curtains, etc., without fear of stains.
- 7 Repels** — Effectively prevents annoyance to cows during milking period in barn from stable flies, horn flies and house flies, when used according to directions.
- 8 Economical to use** — Less Watkins Fly Spray is required to do the job. You actually save money when you use this high-kill insecticide.
- 9 Leaves Stock Clean** — Leaves no oily deposit on the hide that picks up dirt and decreases milk flow as much as TWENTY PER CENT during fly season.

No. 10 — MANY USES

- KILLS** — Flies, mosquitoes, gnats, roaches, spiders, centipedes, carpet beetles or "buffalo moths," fleas in basements, clothes moths, silverfish, earwigs, ants, weevils that attack stored food products, crickets, bedbugs, bees, wasps, hornets, and yellow jackets.
- FOR CAMPERS** — Spraying for flying and crawling insects; for spraying clothing, arms, or legs to repel insects while you are outdoors.
- FOR PICNICKERS** — When sprayed on the tablecloth, it keeps away ants and flies.
- FOR FISHERMEN** — A sprayer filled with Watkins Fly Spray is an excellent aid in repelling troublesome insects.
- FOR LAWN PARTIES** — Insects can ruin out-of-door parties, but not if a sprayer of Watkins Fly Spray is handy.
- ON THE FARM** — For destroying weevils and other of grain pests in bins, on sacks; a temporary repellent for stable and horn flies from cows in the barn during the milking period; for killing flies in the dairy separating room.
- BUSINESS INSTITUTIONS** — Excellent for use in restaurants and bakeries, hospitals and schools, cheese factories, stores and butcher shops, ice cream parlors, etc.

Lewis Havarar, proprietor of the City Tailor Shop of this city, attended the funeral of his father, Frank Havarar, Wednesday at Munday.

LEO HOLMES FATHER DIES SUDDENLY

R. B. Holmes, 72, pioneer citizen of Gaines county, and father of Leo Holmes of the Brownfield State bank, died of a heart attack while driving his car at Seminole, last Sunday. He was buried at Seminole Monday evening. He is survived by his widow, and one son, Leo Holmes, of Brownfield.

Mr. Holmes was one of the earliest settlers in Gaines county, engaging in ranching business, until his death. Leo Holmes has lived here for the past 18 years, and is connected with the Brownfield State bank, of which he is now vice-president, and active in civic affairs.

Both banks were closed Monday evening, and quite a number of people from here attended the funeral.

TERRY COUNTY HENS DOING THEIR PART
By G.W.N.

A brief check-up with our poultry dealers indicate the lowly hen of Terry county is responding liberally in the war effort. There is over 700 cases or about 25,000 dozen eggs sold and shipped from Brownfield per week. Dealers say because of the season, egg production is at a minimum now, it being much greater a few weeks ago. Some dealers reported that many have been shipping laying hens because of the high price of feed, they can not keep them profitably. The same complaint is made by the hog raisers and dairymen.

Chisholm's hatchery reports they sold over 218,000 baby chicks this season. Most all in Brownfield's trade territory. No figures could be obtained on how many have been shipped in by mail and by truck, from outside hatcheries. Some 10,000 pounds of poultry per month have been shipped out the past several months, which seems to be increasing, while egg production has decreased some. In the meantime the old jerseys have not been on a strike, as they have produced 40,000 pounds of butter fat per month, shipped to markets. Both brings some \$20,000.00 per month, or a quarter of a million dollars to the producers of this county.

With several thousand head of hogs being finished out monthly, and a favorable corn and feed crop in the making, there is no need for alarm over food shortage, in good old Terry.

Mrs. Roy Wingerd and daughter Lois, have returned to Brownfield.

Mrs. Margaret Barton and children, Dorothy and Jim Bob, returned home Saturday from a visit to Houston, where they visited her daughters, Mrs. Jennings Noel and family, and Mrs. Willie Arnett and family. On the way home they stopped over at Stephenville and visited her mother and brothers.

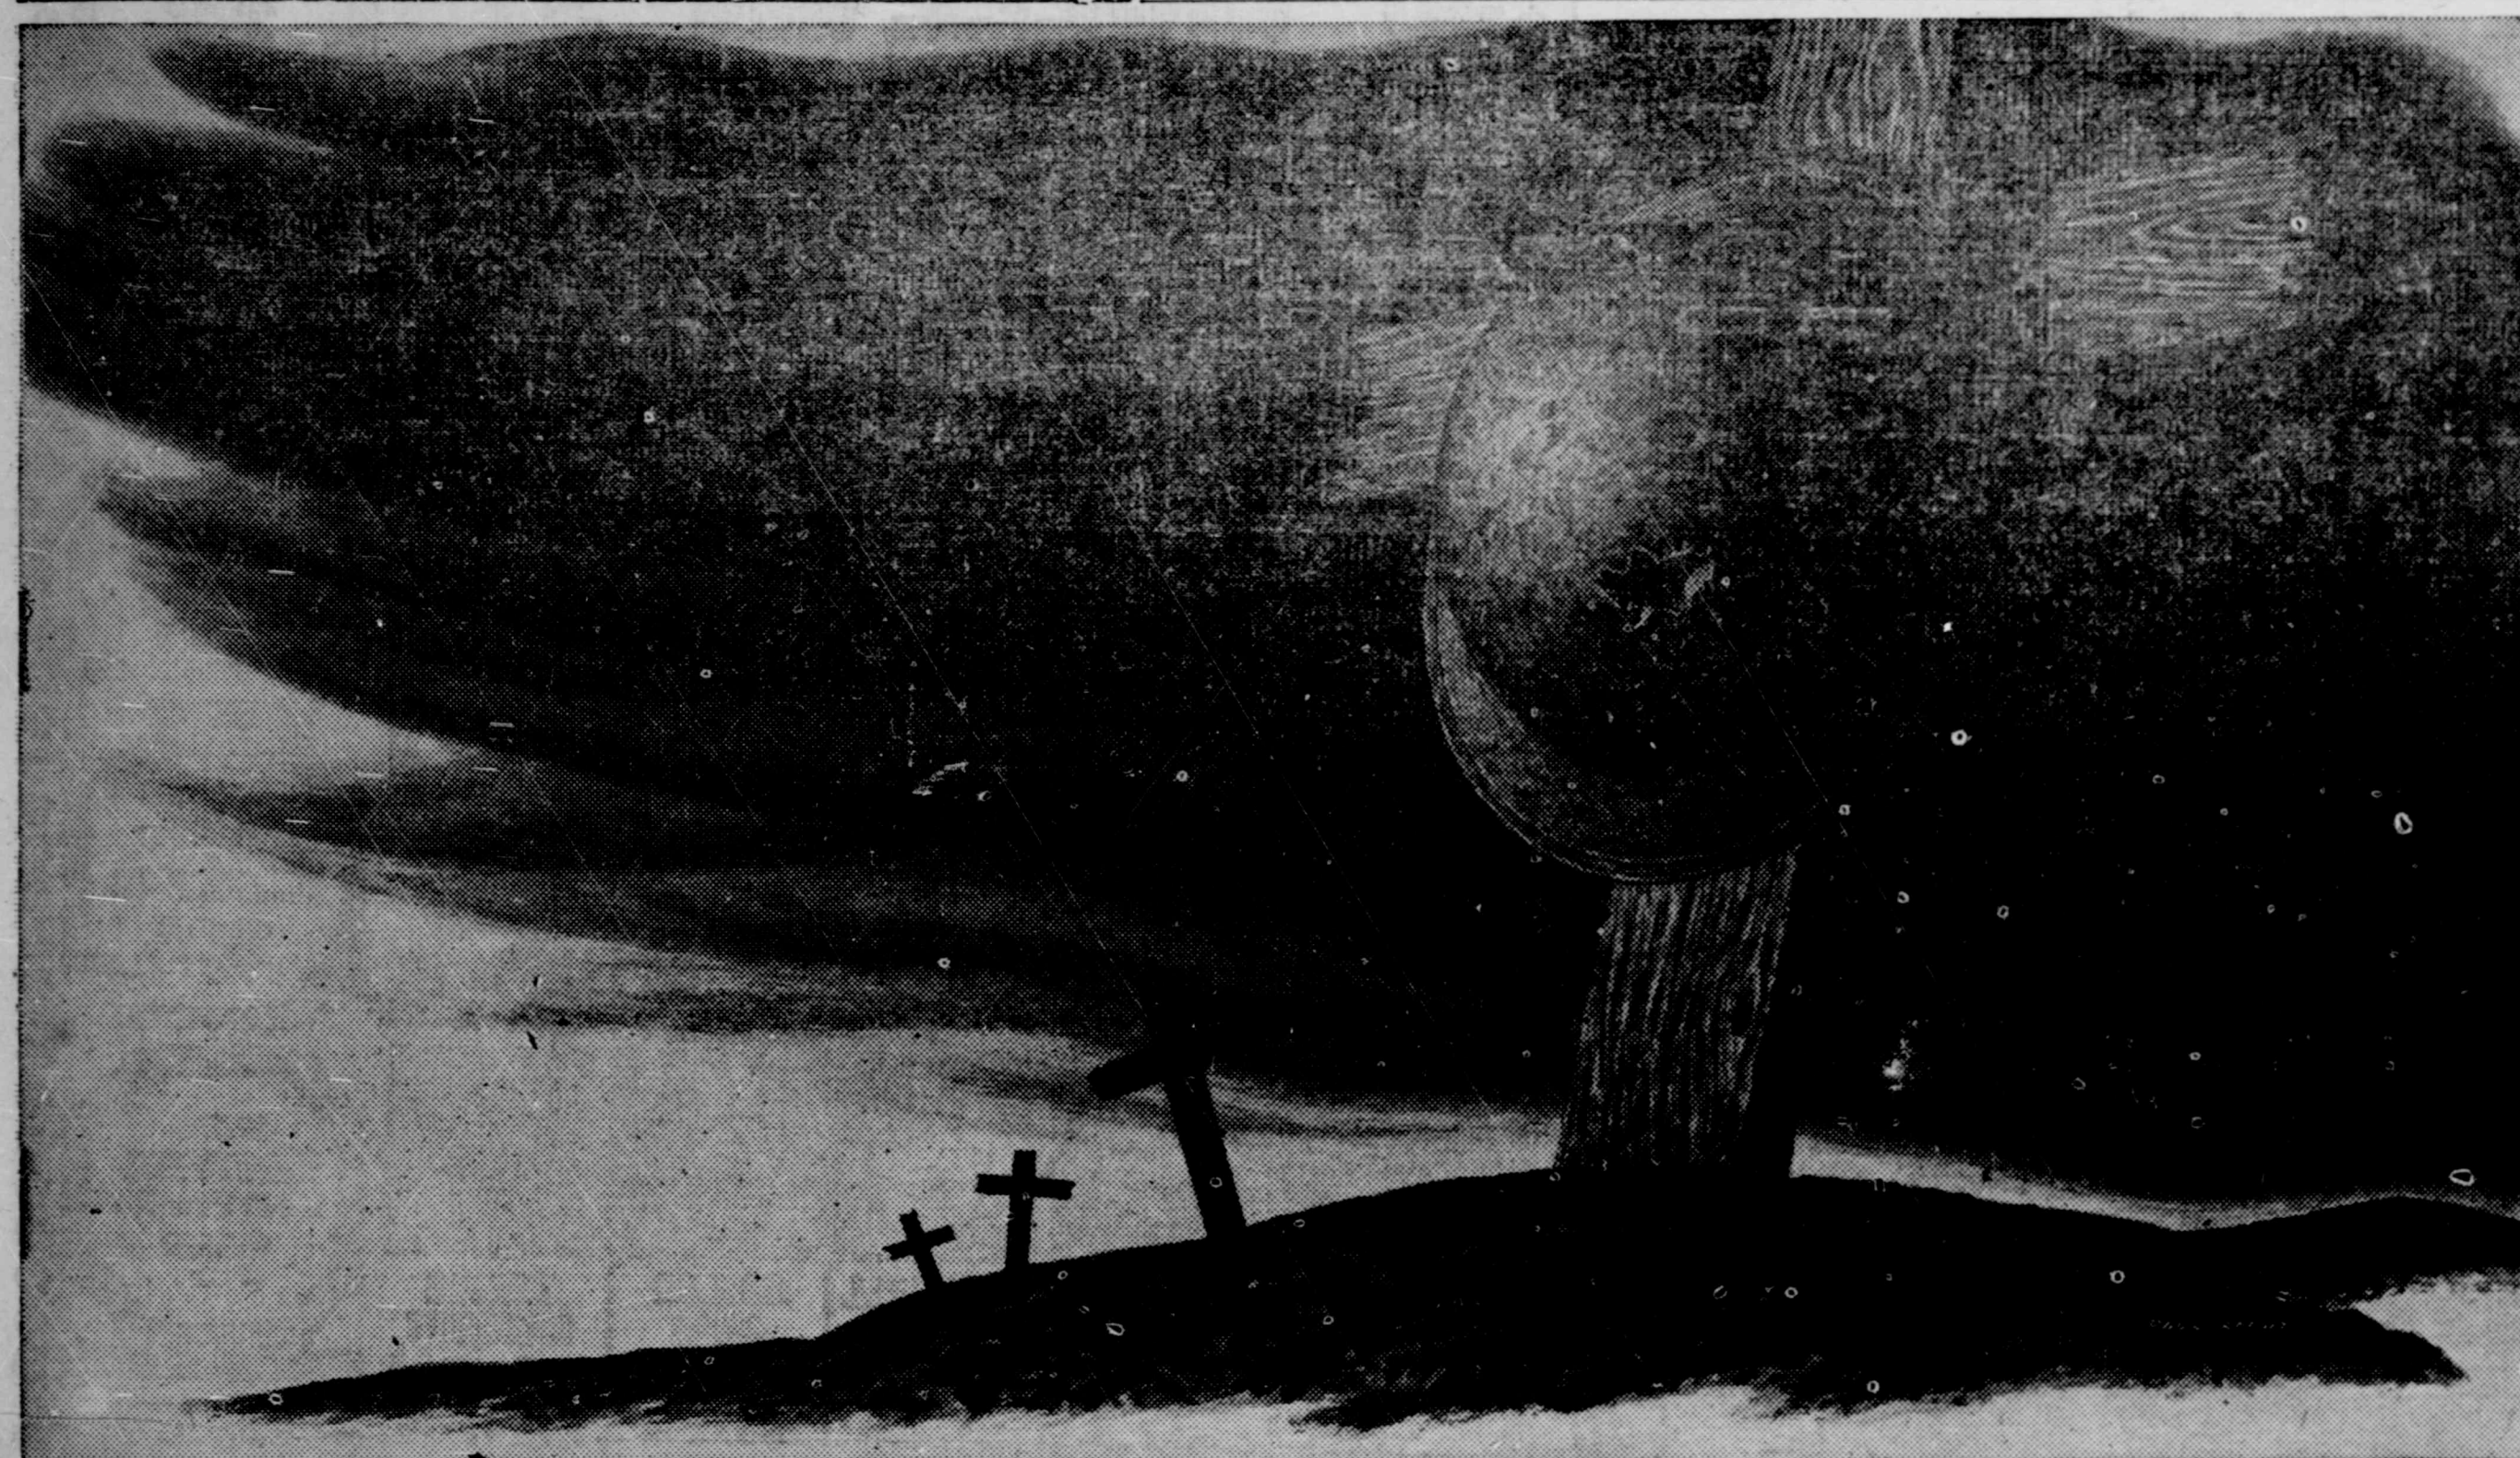

Mr. and Mrs. Joe McGowan spent a few days in Austin, visiting their son, Bill.

L. O. Michel Jr., who is home on a furlough from a Marine base, is visiting in Tahoka. He was in Brownfield Tuesday, visiting friends.

Cooling Desserts For Summer Meals
Preparing delicious, cool desserts is no problem when you've plenty of pure ice on hand! And, after they're prepared they'll keep longer, "put 'em on ice." Have our route man deliver your supply of ice. Call 300.

"The flowers are for yesterday and the monuments for tomorrow."

"I'd like to tell you what the Japs did to some friends of mine"

I AM LIEUTENANT (j. g.) ANN B. BERNATITUS, U. S. N.—a nurse, back from Bataan. I have a message for you . . .

"Those American boys—who fought for you with their backs to the wall, waiting for help that never reached them—came from the land of plenty. But when their lives were at stake, all they had was . . . plenty of nothing!"

"They were outnumbered, outgunned, and out-supplied. They were so short of ammunition that antiaircraft gunners often had to hold their fire until the enemy planes were on top of them. They

were so short of bandages and gauze that we nurses had to wash out the old ones and use them again.

"But they were never short of courage. They never spoke of surrender. They just went on fighting, and hoping, and dying. And no sacrifice was ever too great.

"Let me give you an example. One terrible day on Bataan we had 285 patients on our operating tables in 8 hours—a new patient every two minutes of the day.

"A sailor was brought in with his abdomen blown to bits. He was a goner and I think he knew it. 'Doctor,' he asked, 'is there any hope at all?'"

"The doctor wished to reassure him and replied, 'We'll do everything we can!' The sailor tried to roll over. 'Doc,' he begged, 'get me off this table and save one of those other fellows who still has a fighting chance.'

"That was the kind of men we had at Bataan. And they would want you to remember it, but not what they *did*, but what they *did without*.

"They would want you to remember it, but not with flowers and memorials. The flowers are for yesterday and the monuments for tomorrow.

"Remember them now—this month and every month—by buying War Bonds!

"Buy guns and planes and shells and ships and tanks—for those other countrymen of yours who are fighting so far from home. See to it that never again, any place in the world, will American fighting men be caught short as they were on Bataan! That never again will American wounded perish for the help your dollars might have sent!"

"Certainly taxes are higher. Certainly the cost of living has gone up. *But the men on Bataan were never ten-percenters!*

"They gave everything they had. And now it's up to you to buy War Bonds not only if you can, but *all* you can! Please believe me, folks—that's the way the boys on Bataan would like to be remembered!"

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!
