## Error Corrected

Some two weeks ago this paper stated on what we thought was straight goods, that S/Sgt. Lloyd O. Turner had not only been made a First Sergeant, but an inspector. Right straight Lloyd wrote us to make the correction, but as his mother was out of town at that time, we had to await her return. He was promoted to First Sergeant, however.

Mrs. Turner says our reporter misunderstood her over the phone about the inspection, and of course Lloyd does not want other service men to think he is misrepresenting things. We are glad to make the correction.

Also, in the letter to us, Lloyd states that the William Beaumont hospital was never anything else but an army hospital. That was our mistake, which we are glad to correct. We had it in mind that the army only had hospitals at forts or army camps. We knew that they had taken over many hospitals over the country, since Pearl Harbor, as well as hundreds of big hotels at Miami Beach, Fla., and the world's largest, the Stevens, of Chicago.

We knew also, that the government had built numerous hospitals over the nation for the treatment of War Veterans. So, we just guessed at the Wm. Beaumont, and missed.

Archie B. Karr, Seaman 2/c, is now riding the high waves on one of Uncle Sam's big battle wagons, the Mississippi, according to his sister, who had his address changed. He trained at San Diego.

Had a card this week from John Dumas, S 2/c, stating that he had been shoved over in ABD, and that means he's going places, and will give his new address later. Enjoying the old home town paper and the best of health.

## CPL. BANKS RECEIVES GOOD CONDUCT MEDAL

Medical Replacement Training Center, Camp Barkley, Texas, (Special)—Having served one year or more with faithful and exact performance of duty since December 7, 1941, Cpl. Kenyon H. Banks was recently awarded the good conduct medal at the Medical Replacement Training Center at Camp Barkley, Texas.

Cpl. Banks lives at Meadow, Route 1. The Herald congratulates this fine fellow countryman.

## Seaman J. E. Smith Calls On Herald

Seaman Jesse Edwin Smith, son of Mr. and Mrs. J. S. Smith, who live a few miles northeast of the city, can be classified as one of Herbert Hoover's "rugged individualists," in so far as physical makeup goes. He sure has it. He and his sister, Mrs. Guthrie Allen, of Plainview were callers, Saturday.

J. E. has been on the battleship Tennessee along with three other Terry county boys, but said he was being transferred to another ship, and had us stop his paper until he notifies us his new address.

By the way, the Smiths had a family reunion Sunday, Sept 26th, when Fayne came in from the AAAF at Amarillo, and Ruby Nell from her teaching job in Lubbock schools.

Pvt. Aubrey W. Jones notified us this week to change his Herald to Camp Howze, Texas, as he had finished his three month's training in the veterinary school at El Paso. Congratulations, young fellow.

Sgt. Wayne Rowden has been transferred from San Diego, Cal., to Amarillo army air field.

Hitting Russia is like Joe Louis hitting a haystack.

## Capt John Kerschner Killed Sept 12th

Word has been received in Lubbock that Capt. John Kerschner, formerly a member of Texas National Guard, and trained at Camp Bowie, had been killed in the North African war area on Sept. 12. This was a brief telegram from the war department.

Capt. Kerschner was a grandson of Horace Randal, old timer of Terry and Lynn Counties, and a nephew of Mrs. J. B. Eckert, of this city.

We learn that Donald Bynum, son of Mr. and Mrs. Virgil Bynum, of this city, has been with Capt. Kerschner both in training and overseas, and that Donald's folks are uneasy about him. But they have no word, so far.

Seaman 1/c Lejune Lincoln, son of Mr. and Mrs. C. L. Lincoln, is spending a few days here this week visiting his parents. Lincoln has just recently returned to the states from foreign service. He will report for service at Seattle, Wash., next week.

Harold Jones, son of Mr. and Mrs. E. D. Jones, left Tuesday for induction center at Ft. Sill, Okla. Young Jones was employed at the Banner Creamery at the time he entered service.

Pfc. Harvey Smith, who is stationed at Ft. Sill, Okla., spent the week end here visiting his parents, Mr. and Mrs. W. A. Smith. Pfc. Smith, who has been in service for a year, is with the field artillery.

Mrs. J. A. Turner and the Misses Thelma Duffey and Marie Wingham visited in Abilene over the week end. Mrs. Turner visited her husband, S/Sgt. J. A. Turner, who is stationed at Camp Berkeley.

Desmond Murray, who is with a government construction crew at Hawaii, arrived here Thursday night and is visiting friends and relatives.

Pfc. Jake Gore of Garden City, Kansas, is visiting his wife and his parents, Mr. and Mrs. G. G. Gore, while on a 15-day furlough.

Lieut. and Mrs. B. L. Dennison of the Lubbock army air field were guests Sunday in the Clyde Coleman home.

Pfc. J. H. (Buster) Jenkins, son of Mr. and Mrs. J. H. Jenkins, has passed his cadet test and will leave Bryan army air field soon for cadet training.

Cpl. Paul Goodman, who is stationed at Pendleton, Oregon, has recently been promoted to the rank of sergeant. Mrs. Goodman joined her husband there.

Adolphus, Smith, who is chief clerk of budget at Bryan army air field, has recently been promoted to corporal. Cpl. Smith is the son of Mr. and Mrs. W. C. Smith.

Lt. O. B. Thomas, from New Orleans, spent a few days here early this week with his parents, on his way to Kokomo, Ind., where he will be stationed instructing pilots.

Billy Mack Condra a new 'teen ager, left Wednesday for Lubbock to enter the Coast Guard service, having volunteered for that branch recently.

George L. (Lynn) Nelson has been promoted from corporal to the rank of sergeant at the Lubbock army air field. Sgt. Nelson, who was a jeweler at Nelson-Primm Drug in civilian life, is an instrument maintenance man in the army. He has been in military service about a year.

Mr. and Mrs. G. M. Holmes and Miss Freda Holmes spent Sunday in Lubbock where they met Mr. and Mrs. Bob Horsley of Muleshoe.

Mrs. Oral Adams has moved from Bryan to Brownwood, Texas, and is now back at one of the old home towns.

## School to Run On Half-Day Schedule

Supt. E. E. Hancock informed us this week, that beginning Monday, and running two weeks, or until Saturday, Oct. 22, the Brownfield schools will run on a half day schedule, in order to let the pupils do what they can in helping harvest the cotton crop. School will open at nine, and close at twelve, noon, when buses will pick home.

Beginning Monday, October 25, school will start at 10 o'clock each morning and close at 4:45 P. M. This in order to permit children on school bus lines, far out in the district, to get here on time.

As the days get shorter, children living 15 or 20 miles out, have to get up way before daylight to get here by nine. An hour later will help greatly.

Mr. Hancock also stated that some 30 high school students were taking store work training under Miss Gertrude Prince, but was not certain how many non-school students she has.

Scene from "Flight For Freedom," with Rosalind Russell and Fred McMurray, showing at the Rialto today and Saturday.

## Cubs Defeat Seminole No Game This Week

The Brownfield team over the Seminole Indians, here last Friday night, in a non-conference game, scoring 27 to 0 in an easy victory.

The Cub forward wall again showed its superiority in allowing the Indians only 13 yards on the ground. Meanwhile, the Cubs reeled off 299 yards and took to the air for a total of 97 yards. The visitors gained 26 yards on 2 completed passes and got five of their passes intercepted.

Greenfield, with two touchdowns and Chisholm and Chambliss with one each, figured in the night's scoring. Bobby Jones made three of his four attempts at extra points good.

The Cub "B" team played here last night with the Class-A O'Donnell Eagles, but we went to Press too early to give results.

The next game, a non-conference affair, will be with the Levelland Lobos, a Class-A team. The game will be played in Levelland.

Coach Bost calls attention to the difficulty of transportation for the team, and calls on the fans to kindly furnish transportation in their private cars, each one taking a few. Those who can go are urged to make it known to him by early Friday morning.

Mr. and Mrs. R. S. Swindle and son visited Mr. and Mrs. D. A. Brown at Tokio Sunday.

## Bond Sales Increasing

It was announced early this week by L. Nicholson, manager of the "Back the Attack" bond drive, that up to last Friday night (their reporting time) there had been sold in Terry county, \$483,780 and receipts since will run it near \$500,000. Our quota being over \$600,000.

This sum is much better than expected by many at first. Evidently the people of Terry county don't mean to let their boys over there want for a thing from us here.

## Supt. Hancock Makes Agricultural Notes Statement To Parents

Dear Parent: I realize that each person has about all he or she can do. We are vitally interested in doing our part in winning the war. It may take a long time to do our job and have our boys and girls home again.

I believe I realize, maybe more than anyone, since I am with the school youth five days out of each week—some 1800 of our boys and girls—that in many cases, we are neglecting them.

There is a big job to be done at home with our teen age boys and girls. We have a number of cases in Brownfield who need help. If something isn't done we will regret our neglect.

I think this work, you and I, as citizens of Brownfield and Terry county, are responsible for, can be helped a great deal by organizing a Parent-Teachers Association in our Junior High and Senior High Schools.

I want a closer acquaintance with each parent; the teacher should know you; through acquaintance we can better understand each other and do a better part by your child.

Please come to the High School building Friday afternoon at 4:00 o'clock, October 8, for the purpose of organizing a P.T.A. Let's do our best to strengthen the youth of our town for the problems before them. There is something for every man and woman to do in such an organization. Do not think for a minute your child does not need you in the school just because he or she is in the Junior or Senior high schools.

They need YOU most of all.  
Yours truly,  
E. E. Hancock

## Shy Four Inches Average Moisture

Just above 18 inches annually is given as the average rainfall for Terry county. To now, we have received 14.1 inches in '43, which is shy four inches for an average year, with three months to go. Will we make it?

However, we have just had a period of oversupply, and maybe the cycle is ranging back to the other extreme. For instance, we had a bit better than 42 inches in 1941, and just above 24 inches in 1942, the two years giving us slightly more than 3½ years supply in two years.

Below is the fall as registered by the USWB here this year up to Sept. 30th:

January	.05
February	.34
March	1.24
April	.30
May	1.39
June	3.55
July	5.18

## A Bit Short On Cigarettes for Service Men

Jim Miller stated this week that after "robbing" all the little cash deposit boxes in the business houses here and at Seagraves, \$170 was obtained. If we can make it another \$80 in the next week or two, the cigarette manufacturers will add to it 10 per cent.

Jim stated that the richest box opened was at a beer tavern in Seagraves. It seems that the proprietor would tell his customers to "shell in" before he would serve them.

Let's hit the till pretty hard for the next few days. At 5c per package, \$250 will buy 5000 packages, and ten per cent will add 500 more.

Just think how the boys over there will enjoy 5500 packages of cigarettes sent them from Terry and Gaines counties.

## Agricultural Notes

By Looe Miller, Secretary  
Terry County ACA

The Terry County AAA Office has just been instructed by Mr. B. F. Vance, Administrative Officer of the State AAA Office, to inform each producer to keep records of all sales of whole milk and butter fat produced by him. Dairy feed price adjustment payments will be based upon sales made from October 1 to December 31, inclusive. It is assumed therefore that these payments will be handled through AAA offices and when further instructions are received we will advise the producers through newspapers.

With the price of grain sorghums at \$1.90 per hundred, many Terry county feeders find it profitable to secure feed wheat, which can be purchased at \$1.07 per bushel, in car load lots, delivered in Brownfield. Several Terry county farmers have already taken advantage of this price of feed wheat. Any other producers interested should contact the Terry County ACA Office for detailed information.

## DISTRICT COURT IN SHORT SESSION

Judge J. E. Garland and J. E. Burton, Court Reporter, held a short term of court here Wednesday, disposing of several non-jury cases. It was announced he would hold another session here Oct. 13th and again on the 20th, for such cases as may be ready then.

Weather—Still cool and cloudy—little rain or sunshine.

A card from Mrs. Mary (Walker) Hyatt of Lubbock, this week, stated that her brother, Boots, had or would soon go overseas.

Mrs. Ruth M. Hudson of San Antonio was a business visitor here Monday.

## Important Farm Meet Held In Lubbock

A very important meeting of the Texas Farm Bureau Federation was held at the Hotel Lubbock yesterday to discuss various phases

J. WALTER HAMMOND es of the food and fiber goal for 1944, and how to meet it. Principal speakers were the president of the Texas Federation, J. Walter Ham-

W. R. TILSON mond; R. G. Arnold of the American FFB, and others.

Labor, machinery for farm work, ceilings, subsidies and roll-backs, the Pace Bill and other matters were discussed. Presiding at the sessions, was W. R. (Bill) Tilson of Terry county, a director.

## Accepts Pastorate of Union Baptist Church

Rev. L. V. Ratliff, jr., of Levelland, Texas, has accepted the pastorate of the Union Baptist church of the Union community. He held his first services there last Sunday, after having resigned the pastorate of the Berry Flat Baptist church, near Tahoka, Texas. The Union church carries a full-time program and is of the most active rural churches in the Brownfield

Rev. L. V. Ratliff, Jr.

Baptist association. Mr. L. C. Shepherd is the superintendent of the Sunday School, and Mrs. S. L. Powell is the director of the Training Union.

Rev. Ratliff is one of the most promising young pastors of the day and will no doubt lead the Union church in a fine way. He has a background of experience and training that will serve him well as he administers to his congregation. He is a graduate of the Levelland High School and has attended Texas Tech and Hardin-Simmons University.

## Rio Theatre To Open Sat., 9th

Mrs. Earl Jones, owner of the Rialto, Rio and Ritz theatres, has announced that the Rio, generally closed through the spring and summer, will be opened for the fall and winter run, tomorrow, Saturday, October 9th.

However, the show for the present will open only three days per week, Saturday matinee and night; Sunday matinee and night, and Monday night only. The opening picture for tomorrow evening and night will be, Roy Rogers in "Sons of Texas".

All of the people acting foolish aren't acting.

## Grain Becoming A Money Crop

The unprecedented price for grain is bringing Terry county into its own. Because of the nature of its sandy soil and climate, it has been recognized for many years as a feed crop country. And now with headed maize at \$28.00 per ton, threshed maize and kafir at \$38.00, and green bundles of sorghums, for silage purposes, at \$7.00 per ton, makes it a real money crop.

A normal average yield will bring \$20.00 to \$30.00 per acre, a close runner-up to his Excellency, King Cotton. Many farmers who last year denounced the government for not permitting more cotton now wish they had planted less cotton and more grain, and some express their intent to do that next year. With the high price of cotton seed and its products, cake and hulls, some query as to whether cotton is a feed or textile crop.

With farm tractors almost wholly supplanting horses and mules for power, it is difficult for laymen to understand the why and wherefore of all this. Though the government has forbid any more alcohol going into distilled liquors, diverting that and millions more tons into making munitions, the brewers of beer have resorted to maize and such grains. While many will denounce this "nasty" market, yet the growers are not complaining. Further millions of tons of grain are going into alcohol used in making synthetic rubber, creating a heavy market in competition for buyers of feed for livestock and poultry, making prohibitive prices for the latter—a result of the activity of the Congressional Farm bloc, two years ago—which delayed the beginning of making synthetic rubber, demanding it be made of grain alcohol instead of petroleum.

There is a hiatus between the cost of feed stuff, and products of livestock, dairy and poultry, that can't exist much longer, but to increase the cost of meat and milk the consumer will kick, labor will demand higher wages, and to roll-back the price of feed, stuffs, the grower will kick, and if one of the other isn't done the livestock feeders will be kicked out.

It's the same old American game of one group against another, one's gain, another's loss—the American Public vs. the American Public. But in the meantime, Terry county has found its crop.

## Representatives Of USDA Call On Herald

While neither mentioned the fact, the writer had a feeling this week that some one had read our article about pink boll worms, and told it to the biologists of the United States Department of Agriculture. Our article was to try to keep Charley Guy's knees from knocking over the prospect of boll weevils invading the Plains.

The callers were the local representative, O. L. Walton, who through illness, has not been active in his work of late, and Mr. H. B. Pritchett of Houston, who has been up assisting. These men don't believe that the boll weevil will ever be a menace in this area.

But they showed us evidence that the pink boll worm can get real rank down in the valley, and low pressures might bring them here again, they stated. Citizens and cotton men had paid for a number of page ads down there to get farmers to destroy their old cotton stalks.

And, speaking of the signs between here and Tahoka and here and Lubbock, these men pointed out that there must be a border, or, as cattlemen would say, a drift fence established somewhere. We still believe, however, that the fleahopper and leaf worm is our main worry in this area.

Among other championships, as homes. If you are not sure about such as cattle, cotton and oil, goes your wiring or gas connections, another to Texas. Of the more than 102 million bushels of sorghum grains, such as maize, higeria, kaffir, etc., Texas produces more than half, or over 59 million bushels. Needless to state that West Texas, and particularly the plains area, produces the bulk of the Texas crop, and right now that fine grain feed is rolling in like nobody's business, and is bringing the highest price on record. The Terry county crop is good, and many farmers are cashing in with a fat bank account, even if they do not have a stalk of cotton.

All this week is fire prevention week, October 3 to 9. It has been pointed out that America has lost more property by fire in the past year than London has lost through all its bombings, and that is considerable, if you ask us. The Texas Safety Association is asking that every householder, every owner of a business make close examination of all their property to see that there are absolutely no fire hazards about your premises. This may not take but a few minutes, an hour or so at best, and may save thousands of dollars. This advice applies equally to the schools, churches, theatres and other public buildings, the same

first to three gallons each, and now the B and C to two gallons, all in the name of conserving rubber. Oh! Rubber! What things are committed in thy name!

There is no easy road in learning the printer's trade. It takes time—lots of it. As the Abilene Reporter-News stated lately, it is a bit unethical for newspapers to pour out their troubles to readers. But sometimes it is good to let the reader understand why some of the short comings. For instance, it takes from three to six years to make a good linotype operator, and with most of the young ones in the service, and the middle aged ones in the larger cities, where they can command better wages, from \$50 to \$60 per week, a price that a weekly newspaper cannot pay, it becomes more and more difficult to get them. The Herald alone has had three called, one registered in this county, and the other two from Gaines and Crosby county, respectively. Many plants in the smaller towns have had to close for the duration. Is there any wonder that your paper is not up to normal, or gets to you later? While newspapers are classed as essential to the war effort, most papers have been patriotic enough to silently let their operators and pressmen go into the service rather than protest to local draft boards, other than to get a temporary deferment.

U. S. Treasurer-Secretary Henry Morgenthau jr., has suggested to the newspapers that they obtain from that department some nicely printed, in colors, placards to mail each and every business and professional man who helped to underwrite the series of ads that helped to put over the 3rd War Loan drive. The Herald agrees that these men and women should be thanked by the newspapers, who had to get out and solicit the ads, and we might add that the Treasury Department could not miss out much to go to some trouble to thank the business men and women of America for paying for these ads that the government should pay for. Publishers are the only people in America that does not receive pay from the government for what they do. The government not only asks for space, but they ask the newspapers to get out and get people to underwrite them. In conclusion, the Herald will state that it appreciates to the fullest the fine cooperation of the business firms in Brownfield, who have paid for these ads, a few perhaps a bit grudgingly, but in the main good sports. They have their reasons of course. They are expected to shell down in bond drives, and all other drives to help in the war effort, and like the Herald, believe the government should appropriate money to pay for ads just the same as it pays Henry Kaiser to build a ship. Thanks, good folks, for being so patient.

**Wellman News**

(Editor's note: The items below, intended for last week's Herald, was postmarked at Wellman the 28th, which was last Tuesday. But evidently it didn't stay in Brownfield long, as it was marked: "Missent to Tokio," and had a postmark at that place, Sept. 29. We got it finally, Thursday—too late for last week's paper.)  
Mrs. Delton Caffey of Carlsbad, N. M., visited home folks at Wellman and Loop last week.  
Mrs. Dave Yancey, of Carlsbad, N. M., visited home folks over the week end.  
Roy Green jr., who is in training at Bryan, Texas, visited relatives at Wellman Monday.  
Quite a number of people from here attended the revival at the Church of Christ last week. The meeting was conducted by Elder Paul Knight of Boonville, Ark.  
Mrs. Robert Hamm spent Monday with her mother, Mrs. J. F. Singleton.  
Mrs. Dorothy Christopher and Mrs. Estelle Thomas visited sick friends in the hospital Friday.  
Mrs. James Bowman of the Gore Shop spent the week end in Pecos visiting Mrs. Earl Penny.  
Mrs. John Dykes left Monday for her home in Davidson, Okla., after spending two weeks here visiting her daughter, Miss John-nye Dykes.  
Mrs. Del Smith and Gloria of Seagraves visited relatives here over the week end.  
Miss Clarice Mackey spent Sunday here visiting her sisters, Mrs. S. A. Carouth and Mrs. W. E. Sansing.

**The Judge Says**

Looks like Senator Wheeler's Fathers bill got there with 'too little too late.'

Millions of our boys are being "packed to go round the world."

Wonder if that senate committee was inspecting war fronts, or just trying to keep up with Eleanor.

Its plain what Hitler aims to do with his army in Italy: He's sent Romel there.

After three months scramble, Stalin finally pinned Hitler on the Dneiper. (That's the way they spell it).

While America is aching about our ceilings, Hitler wishes he had one over his European Fortress.

Women are proving themselves adept in many war plants taking the place of men almost everywhere, and widening their sphere of activity, but two energetic ladies (not WACs either) staged a hand to hand combat in a business institution here early this week, attacking and counter attacking, strictly and infantry affair, using hand grenades made out of pop bottles, cups and saucers. They fought to a draw, were not stopped by rain and mud, that is, no mud was found on the battlefield, but a neutral power intervened and effected a negotiated peace. Casualties very light. Cause of hostilities were not announced.

**Notice to Brand Owners**

H. B. 170 passed by the last Legislature of the State of Texas provides:

All records of marks and brands, shall become void and of no force and effect on the 1st day of October, 1943, and every person who has cattle, hogs, sheep, or goats shall have his mark and brand recorded or re-recorded.

The legal owner of a brand and/or mark shall have a preferential right to record such brands and/or mark for a period of two years from Oct. 1st, 1943, but if such preferential right is not exercised within such two years the same shall be forfeited and such brand and/or mark shall be subject to registration by any person, and the first person to record same shall be the owner of the same.

**COTTON MAY NOT ZIGZAG AFTER WORLD WAR II**

Austin, Texas, (Special).—The exact future of cotton price movements is unpredictable, but it does seem certain that prices will follow the pattern set during World War I, Dr. A. B. Cox, University of Texas professor and world authority on cotton marketing, has declared.

During the latter part of the first World War, cotton prices were high, but went into a decline immediately after the Armistice, then picked up again during the post-war boom. But they dropped precipitously in the first depression year, Dr. Cox pointed out.

Despite many similar conditions now, it seems improbable that such a pattern will be followed when the war ends, Dr. Cox said. European nations will be eager for cotton, since they have produced none of their own and their mills have been idle since war began.

Furthermore, the United States no longer produces more than half the world's cotton supply, American prices are high in comparison to the world price, and the federal policy of supporting farm commodity prices with loans seems likely to be continued, Dr. Cox explained. All these factors will effect future cotton prices.

**THE BARE FACTS**

A man remarked the other day that he had never seen a woman who would admit that she had enough clothes. In our opinion it doesn't matter, though, for we doubt if any woman would wear enough clothes, even if she had 'em.—J. W. Perkins in the Archer County Times.

**FORGOTTEN FOLKS**

When the prison gates clang behind the victim, so often that victim is forgotten by everyone. It should not be by any means. If Christianity means anything—and it does—these misguided folks under a false conception who break into prison, should be helped up rather than kicked down. The prisoners of New York state have made war goods beyond the value of ten millions of dollars. In Maryland the inmates of state prisons repair an average of 2,000 pairs of soldier shoes per week. In Massachusetts, the women prisoners have produced more than \$4,000 in war goods per prisoner the past year. And on and on in the prisons of other states are loyal citizens who have not forgotten their country. These so-called convicts are better citizens than the chisellers and war contract robbers on the outside.—Clarendon Leader.

**FATHER DRAFT DESERVES MORE CONSIDERATION**

In Washington for several weeks, as over the entire country, but now intensified, by and with Senator Wheeler's resolution to defer the drafting of fathers at least until January 1, or later, is the interest, deep-rooted, and we believe, debated with patriotic interest by those who oppose equally with those who favor, as the immediate fate and future of hundreds of thousands of fathers hangs in the balance.

The country as a whole is hardly competent or qualified to judge the issue, because we, as a nation do not have the facts.

Sentiment is being injected into the argument, probably where it should not be, because wars cannot be waged on a sentimental basis. Cold steel and cold facts neither yield to sentiment.

But there is not sentiment in Senator Wheeler's assertion that the wholesale induction of father's of young boys and girls, is going to do things, and have serious consequences on the future of America. Children need a father's advice—his discipline, and we have far too many examples of what has happened to many and many a boy and girl, who through circumstances, accidental, or otherwise, have been deprived of fathers, and a great many of them, who would have been better citizens at maturity, but have reached that age lacking in many of the prerequisites of good citizenship.

That doesn't mean that all children will get onto the wrong path if separated from fathers, but there is no question that the majority of those who are, or the average, hasn't had an even break with those who lived in a home that has had living therein, both father and mother.

We are convinced beyond any doubt that there is wholesale hoarding and wholesale wasting of labor in many or most defense centers. There have been too many first hand reports of such to make it anything but fact. There are thousands hiding behind essential deferments—there are other thousands who have been classified down, because of minor physical defections. There are still other thousands with physical defections which would not make it possible for them to be front-line soldiers, who could, and many would be glad to do the office and routine work in camps, now being done by able-bodied, first-line soldiers.

Regardless of what anyone hopes, or what anyone thinks, selective service has been riddled with faults, and countless errors, in the early days it was inaugurated. Senator Wheeler has quite often been wrong. So have we, and so have you—but Senator Wheeler's resolution for a deferment of such induction until all the facts can be smoked out, is not a political gesture or demand, but one of patriotic duty.

The senator from Montana, may not be as popular over the entire country as he should be, rightly or wrongly, but the fact remains that the State of Montana, and not the whole of the United States, elects in Montana, as in every state, and Mr. Wheeler stands ace-high with the people of his state.

The issue, then is NOT political from Senator Wheeler's standpoint.—County Wide News, Littlefield.

**WOULD LIKE TO GET HERALD EARLIER**

A lady subscriber, way down Corpus Christi way, complains that our up-to-date paper is a week getting there, and she underscores the up-to-date part, and states that it is a week coming every time. The lady is lucky to get it that soon. Sometimes it takes a letter three and four days to get just a little ways up here, and for second class to travel 600 miles in six days is a record.

The past week a letter (first class) was mailed to us at Waco on Sept. 27th. We got it Sunday, October 3. It contained news supposed to be in last week's Herald, of Friday, October 1.

We will all have to remember that we have the world's worst war on hand. That everyone, and this includes postoffices, are working shorthanded or at least

with inexperienced help. Let's all try to govern ourselves accordingly. If we must eat out anyone, cuss Hitler and the Japs. They are to blame for this mess.

About the next best thing we can think of is, if you are not satisfied, the Herald will send you the balance we owe you on subscription and stop your paper. Isn't that fair?

Mr. and Mrs. C. D. Jenkins and children of Lubbock were guests in the Roy Jenkins home Sunday.

Miss Christene Chandler visited relatives in Lubbock over the week end.

Mrs. L. M. Henderson of Spur is visiting her mother, Mrs. N. J. Landess, who has been ill, and with her sister, Mrs. Paul McDermott.

**Tokio**

Mr. and Mrs. Walter Whitmore and little daughter of Muleshoe spent the week end in the Buster Garrett home.

Mr. and Mrs. Warren Carter and children of Roswell spent the week end in the Rev. Sanders home. Mrs. Carter is a sister of Rev. Sanders.

Mr. and Mrs. Ted Ferguson and son, of Floydada, spent the week end here visiting Mrs. Ferguson's parents, Mr. and Mrs. Oral Hughlett.

Mr. and Mrs. Davis Hubbard visited in the J. M. Young home Sunday.

Mrs. Bill Bishop spent the day in the home of Mrs. Cora Proctor Sunday.

Mr. and Mrs. Burton Rowe of Roswell were in the community on business last week.

Mr. and Mrs. Homer Johnson made a trip to Portales last week in the interest of some ranch land.

Don Smith, who is working at Roswell, spent the week end with his family here.

Mrs. John Boren and small son of Lubbock spent the week end with her mother, Mrs. Sanders.

Mr. and Mrs. Homer Johnson and Jackie, and Mrs. Myrtle McCann, were Lubbock shoppers Monday.

Because of bad weather, farmers are making slow progress toward crop gathering.

Mrs. Frank Locke has her mother visiting with her. She has passed her 84th birthday since she has been here. May we wish her many more.

Mrs. Wash Baldwin of Chula Vista, California, spent last week here visiting her sister, Mrs. Bill Low.

Walter Breedlove was a visitor in Lamesa Tuesday.

Mrs. Clifton Decker and baby son, Rodney, of Wichita Falls are visiting her parents, Mr. and Mrs. T. G. Sexton.

Mrs. M. M. Hines of Forsan is visiting Mrs. R. M. Kendrick and Mrs. O. L. Stice.

Mrs. Ray Ross of Bowie is visiting her sister, Mrs. W. E. Latham.

O. H. Garner is ill at the home of his daughter, Mrs. J. C. Bond.

C. D. Ray was a business visitor in Amarillo Sunday through Tuesday.

Mrs. George D. Brownlee of Jacksboro is visiting her sister, Mrs. J. S. Smith, her brother, C. W. Dennison, her brother-in-law, Elmer Brownlee, and their families.

**I Give You Texas**

'Little Aleck' Stephens, who was vice-president of the Confederacy, made a point when he was joint-debating in a race for Congress. His opponent, a heavy-set man, said, "Why, I could swallow Stephens at one gulp." Instantly, Aleck retorted, "If you did, you'd have more brains in your stomach than you've got in your head."

Al Borofsky, genial Galveston attorney, tells of a little incident about Melvyn Douglas, movie star, who entered the army as a private and was stationed at a camp near Galveston. Recognized as he emerged one night from a theatre, Douglas was besieged for autographs. He pointed across the street to a long line of soldiers waiting for a bus back to camp and said, "See all those men over there? Well, they're privates, the same as I am; go over and get their autographs."

You hear lots about grapefruit and oranges in the Lower Rio Grande Valley, but your columnist met one man there whose interest is lemons. When the average person speaks of something as being "lemon-colored," he means a light yellow—but actually lemons are still green in color when they are ripe, as tests show, according to C. P. Melton of the Tex-Lem Co., Mercedes. Also the lemons hold up longer if marketed when green. (Gradually, the color will change).

Melton considers that the lemon industry in the Valley began, for practical purposes, only 12 years ago, when three Chinese lemon trees, of the Meyer variety, were set out as an experiment. The industry has grown until, this season, 100,000 cases will move to market. In size, and in low price, these Texas products are superior to those of California.

There is one group in this country that is contributing nothing to the war effort; on the contrary, it is a liability. They are criminals who have been found guilty and are "laying out" their fines in jail. They are sitting around, playing cards, telling jokes, reading magazines, eating regularly and getting plenty of rest—at the expense of the taxpayer.

Every patriotic citizen is willing to buy all the war bonds he can and to pay his share of the taxes to run the war, but he is not willing to have his money wasted on these unpatriotic, lawless bums, who are infesting the jails of the land, "laying out" fines. In many cases, they have money—or could get it—to pay the fine. If they can't or won't pay the fine, then all who are able-bodied should be compelled to work it out.

Expressive expression: He resembles an accident looking for a place to happen.

**U. S. CASUALTIES TO DATE ARE 105,205**

Announced casualties of the United States armed forces from the outbreak of the war to date (whose next of kin have been notified), total 105,205, according to war and navy department reports. This total includes: dead, 20,104; wounded, 28,226; missing, 32,905; prisoners of war, 23,970.

**The Low Down From Hickory Grove**

I been on a little trip on the railroad—had to go. Waited until after Labor day, but it was still crowded. Lots and lots of women. Couldn't quite understand it. If you just want to travel around because money is jingling in your jeans—and no other good reason—you are not shootin' aquare with the railroads, or the navy, and army, and marines. They gotta go—but it is not a pleasure trip. On the dining car I was sure surprised. They had not boosted prices. There was less variety, maybe, but plenty. Even strawberries. And coffee—pardon, my Susie don't make it much better. Don't go around pouncin' on the railroads and saying they need to be taken over and run by the Govt. She looks to me like they are doing a skookum job and should have 3 cheers—so I give 'em same.

And before signing off, I will tell you about a waiter on the dining car. He musta been a gold-star boy—he was an old timer. I said to him, "You make your job look easy." Think first and save steps, he says, and you will live longer—also, he says, you won't wear out your shoes. A colored Confucius. Yours with the low down, Jo Sepra

**KEEP FIGHTING FIT!**

**Care for Your Health for Your Country!**

NOW, more than ever, it is the duty of every citizen to keep himself fit and in the best of health—whether he's a farmer producing food for Victory, a worker at some essential job, or a housewife looking after the best interests of her family. With so many doctors and nurses in the armed forces, there is a critical shortage of medical service.

**WATKINS LINIMENT**

**A Veteran of Three Wars!**

Watkins Liniment, the first product in the Watkins line back in 1868, is a seasoned campaigner and a veteran of three wars. For 76 years it has given the same continuous aid, relief and comfort to millions of users for common, simple, everyday aches and pains. It is the dependable friend-in-need ready for any emergencies.

Only a medicine of proven merit can keep the loyalty of old customers and win new friends year after year for over three quarters of a century. Results justify the existence of any medicine; and by this standard, Watkins Liniment is deservedly the world's leading liniment. Keep a bottle always handy in your medicine cabinet, in the barn, and in the hen house, and brooder house.

**WASTE FATS NEEDED FOR EXPLOSIVES**

The need for glycerin now is greater than it has ever been, according to the home demonstration agent. Glycerine is used in making explosives which are vitally needed in fighting this war, and still millions of pounds of fats is wasted each year that could be used in the manufacture of glycerine.

Many families say they do not waste fats, but some of these do not realize how easy it is to let a teaspoon or tablespoon of fat remain in the skillet and go down the drain or to be washed in in some other way. Remember, the first part of the fat salvage program is to use fat as long as possible for food, but when it reaches the inedible stage turn it into the fat collection center before it becomes rancid. Glycerine content is reduced in rancid fats.

Mrs. Roger McLachlan is visiting her brother, Ted Greenfield, at San Francisco. Mrs. McLachlan was accompanied to San Francisco by her parents, Mr. and Mrs. J. E. Greenfield, of Dumas, Texas.

**THREE WORDS WORTH 50% OF YOUR SALARY!**

EUGENE COLLEARY is short on words—but lo-o-ng on action!

A machinist at Brewster Aeronautical, he helps roll out the dive-bombers and fighters which are going to help us bat the ears off the Axis.

His vital job might be considered enough of a contribution to America's war effort . . . but not by Colleary! He reasoned that he could do twice as much damage to the dictators by helping to pay for the planes—through War Bonds.

So he signed half of his salary over to War Bonds through the Payroll Savings Plan!

He covers the matter with three words: "I'm an American," he says. And that's that.

## WOMEN NEEDED TO FOLD SURGICAL DRESSINGS

Women of Brownfield are urgently needed to fold surgical dressings for the Red Cross. Their present quota has not been reached and there will be a new quota to be reached in the near future. The women must cooperate if these are to be reached. One afternoon a week should be set aside by the women as Red Cross day.

The following towns have received dressings to be folded: Plains, 15,000; Denver City, 9,000; Meadow, 9,000, and 7,000 were left here.

Meadow's quota has been reached and the women there have volunteered to help us reach ours.

Mrs. W. B. Brown.

Jackie and his guests spent the afternoon playing lawn games.

Refreshments were served to Robert Ferguson, Donnie Boyd, Tommy and Macky Hord, Deenie Ballard, Barbara Mullins, Juanell Greenfield, Sandra Bailey, Billy and Shirley Brown, Donnie Boucher, Joan Zant, Don Noble, Doug Tankersley, Bobby Latham, Ellen Faye Greenfield, and Jackie.

## RANDAL P-TA

Parents and teachers of Jesse G. Randal students met at the school auditorium Thursday afternoon at three o'clock for the first P-TA meeting of the school year. Mrs. Leo Holmes, president of the organization presided at the meeting.

Mrs. L. M. Wingerd, a guest speaker, spoke on "Defense in the Home." Miss Cherry, teacher in the Randal school, gave a musical selection. Freddy Ruth Lowe did a tap dance number. E. E. Hancock, superintendent of the schools, introduced the teachers to the parents.

A social followed the meeting.

Mr. and Mrs. Lee O. Allen were guests of Mr. and Mrs. Dewey Sullivan at Vera over the week end.

Mr. and Mrs. J. L. O'Dell and son, John, were Lubbock visitors Saturday.

Mr. and Mrs. Jimmy Applewhite and children visited his parents, Mr. and Mrs. J. K. Applewhite, at Tahoka over the week end.

Mrs. Roy Brashear left Tuesday for McLean, where she is visiting her brother, Carl Westfall.

## CHURCH OF CHRIST BIBLE STUDY

Mrs. Roy Collier taught the 28th chapter of Proverbs Tuesday afternoon when women of the Church of Christ met at the church for Bible Study.

The women will meet Friday, today, with Mrs. Estell Brown for work day. The afternoon will be spent working on a quilt.

Church of Christ women will work for the Red Cross every Thursday afternoon at two o'clock. Mrs. L. Nicholson will be in charge of this work. All women of the church are urged to attend these meetings.

## BAPTIST CHURCH NEWS

The new teachers and officers of the church school of the Bible took charge last Sunday with an enrollment of 570 and 251 registered present and many new resolutions were made for larger classes and a greater enrollment as well as attendance and we will watch with interest hoping that a marked increase in attendance and interest may be made.

Three new deacons were asked to serve for three years as active deacons being Less Newberry, Grady Dickson, and T. C. Hogue, those retiring from the active list being R. E. Sims, Drew Hobdy and D. P. Carter. Three are retired each year and three new ones selected and it is hoped that those selected to serve will shoulder the responsibility of the work and be regular in attendance when the meetings are called as there are nine active in all and when a meeting held with only five or six present it is an indication that some of them are careless about their work.

The recent budget as adopted provided the payment of the \$6,000 debt on the building next Jan. 1st which will be a very worthy achievement as these are good times to pay debts while farm commodities are selling for a good price and certainly every member of the church will get behind this movement, and no doubt the people who have paid \$44,000 on this building in the last four years will finish the job.

Mrs. Ima Lewis is acting on decorations for the church and families wishing to make decorations in honor of deceased friends or of men in the service will contact her for information.

Wednesday night is regarded as church night. The choir will practice 7:30 to 8:00. The teachers and officers of the school will assemble from 8:00 to 8:30 and the devotional hour will be from 8:30 to 9:00 o'clock and the success of all of this work will depend upon the attendance as well as the leadership.

There is a place in our church school for every individual not now studying the Bible elsewhere.

## NATIONAL LETTER WRITING WEEK BEING OBSERVED BY NATION

This week, October 3-9, is being observed by the nation as National Letter Writing Week. Everyone is urged to write a letter this week, especially to our men in service.

You may not fully realize how lonesome a fellow can be, miles from home, in his leisure moments at a naval base, army post, or air field. It's a lonesomeness that gets deep into a man's heart, and brings tears to even a hero's eyes! Don't let the man in uniform think about being sad; write to him today, and as many times a week as you can.

Miss Forrest Steen left for her home in Amarillo Tuesday after spending several weeks here with her mother, Mrs. W. E. Steen.

Mrs. David Mills, teacher in the Seminole schools, spent the week end here visiting her mother, Mrs. Ed Hamilton.

Mrs. Ruth Auburg visited friends at Carlsbad, N. M., over the week end.

Mrs. Annie Spivey is spending two weeks at Tahoka visiting her niece, Mrs. N. O. Townzen.

**Cotton Rolling In**

Terry county ginners report that about 1200 bales have been ginned in the county up to this week, which is little short of the amount at this time last year. It is claimed that much more would have come in, but for shortage of cotton pickers, many bales are now ready for gathering. From various reports it seems a big demand exists for more pickers. It is hoped however that the migratory wave of Mexican pickers that usually rolls up from the south each autumn, after gathering the earlier crops to the south, will reach here in time to save ours. Current prices are \$1.25 per 100 lbs. pulling.

Miss Irene Adams, teacher in the Midland schools, spent the week end here visiting her parents, Mr. and Mrs. W. M. Adams.

**HONORS SISTER WITH DANCE**

Wanda Joyce Finney complimented her sister, Billie Fay, with a dance at Thompson's Cafe Wednesday night. The dance was given to celebrate the occasion of Billie Fay's fourteenth birthday.

Refreshments were served to Barbara Taylor, Kenneth Jones, Glynn Fae Ross, Howard McIlroy, Diana Ruth McIlroy, Jay Denton, Joyce Dungan, Sammy Jones, Carolyn Harris, Alfred Mangum, Betty Jean Holmes, Arnold Dalton, Donald Moore, Gloria Swan, Myron Harris, De Lores Gillham, Richard McDuffie, Marion Wingerd, Wayne Brown, Eleanor Miller, Jimmy House, Vela Mae Dumas, Ed Hildreth, Elizabeth Jo Anthony, Roger Lewis, Bobby Jones and the honoree and hostess.

**URGES GUAYULE EXPANSION NOW**

William O'Neil

Declaring that the production of real rubber is even more vital today as a supplement to the synthetic rubber program than it was at the beginning of the war, William O'Neil, president of The General Tire & Rubber company, is urging immediate expansion of the guayule rubber project.

O'Neil has asked the rubber administrator and members of congress to act in setting up a guayule program which will provide a larger source of natural rubber.

He pointed out that with the great synthetic production, natural rubber is needed in the manufacture of heavy duty truck tires for use both by the military and essential civilian transportation companies.

Experiments with guayule culture since the Forest Service took over the project provided in legislation sponsored by O'Neil have shown that the period from seed to harvest need not be more than two years and probably can be one. Under the two year plan each acre produces from 600 to 850 pounds of rubber. Under the one year plan, guayule seed is drilled in like wheat early in the year, and is ready for harvest in the fall of the same year, producing from 400 to 600 pounds per acre. In each instance irrigation is necessary, but the one year method eliminates the necessity for nurseries and for transplanting, thus lowering the cost of rubber from this source.

O'Neil has suggested that much of the program be transferred to Mexico where there is an abundance of labor and of irrigable land.

Mrs. Ame Flache returned here Saturday from Big Spring where she visited her daughter, Mrs. Binie White, and from Baird where she visited her sister, Mrs. A. T. Scroggins.

**Getting Well**

Serious ailments often call for strenuous treatments. From the patient's point of view, potent medicine sometimes seems worse than the disease. But the ailing one (when rational) cooperates, convinced that the drug is constructive while the bug is destructive. The medicine, however distasteful, is meant to fight the disease, not the patient. Treatments, however inconvenient, are expected to be temporary, whereas the malady might last a lifetime.

Magnified to proportions as big as a continent, the illustration fits a nation at war. Threats to the freedom of an unoffending people, threats to their very existence, constitute a serious ailment. National defense is a natural process like bodily resistance to disease. Emergency measures are a part of the nature-aiding treatment. America is rational and will cooperate in hope of recovery.

**A Genuine Recovery**

None of the good physicians now attending the patient in whom we are all interested has ever said, "Miss Columbia, you can't get well." On the contrary, every authority with any right to issue a statement of progress in the fight against this Axis epidemic has offered recent assurance of final and complete victory. This nation is taking a lot of bad medicine, however, including some dangerous habit-forming drugs.

Granted that these doses are essential to the successful prosecution of the struggle, nevertheless a danger exists that we might decide to continue using them after the war, to our own serious injury. One of these supposedly temporary, emergency measures is government control of industry.

**What Is It For?**

Government's hands were laid on the controls of American industry as a defense measure, to allocate materials, regulate production and direct deliveries. Manufacturers have been told what to make and how much, where to sell it and at what price. Wages and hours have been regulated also. Now come suggestions from various quarters that these regulations not be relaxed when the war ends. Men in high office even suggest that regulations be increased after the war.

Europe has had much more control of industry by government than America ever had in the past; the Orient still more. Experience in these countries proves that production shrinks, wages decline, and people get poorer as government's control of industry increases. Government regulation lowers production in this country too. Some of America's big manufacturers say they could increase production by one-third now if bureaucratic controls were relaxed.

**Expensive Medicine**

Nobody knows how many American manufacturers could enlarge their effective war production extensively if government regulations were lifted. There is no positive assurance that the number is large. But it is perfectly obvious that rigid restrictions (with all their compensating advantages for war purposes) are themselves bottlenecks and would be a distinct hindrance to competitive industry if applied in peace time.

Government control, essential in times of war to concentrate production on war necessities, even now is expensive and would prove far more costly to the public if carried over into the post-war period. One large industrial concern stated recently in a report to its stockholders that the cost of figuring statistics for the government, answering questionnaires, etc., came to 10% of its net income in 1942. Executives of other big companies saw the report and thought the figure was high, but studied their own outlay for similar activities and agreed later that 10% was conservative.

**A Fixed Expense**

A lot of big companies could raise wages now on 10% of net income. If government red-tape amounts to this much, figured on the swollen volume of a war year, it could become a crushing burden to business in a post-war lull. When competition becomes active again, the cost of government regulation alone would be enough to throw many a company into bankruptcy. In connection with other restraints it would retard investment, which economists recognize as the mother of employment, waste resources needed to expand the sale of new products, and drain off working capital essential to business activity.

Unless government regulations are relaxed after the war, production will decline, wages will be forced downward proportionately, markets for farm products will drag and living standards will be lowered for all Americans. There are just and necessary regulations and these must be retained, but needless ones must be relaxed after the war or America will sink to European living standards which, at best, are no more than half as high as those we know in America.

If the United States hopes to stay in the competition and remain a world power of the first rank, we must quit taking doses when we get well.

A fellow in Denver wrote me. He must be a pretty nice hombre—he was not mad at anybody, or about anything. Also, he was not trying to be sweet to any certain group because there happened to be lots of people in that group, of voting age. He is not running for office.

Folks in Denver are nice people, he says, but they are allergic to politicians. To arouse them so they will vote with wisdom, he says, is the problem your essays are helping out. He got me with that one. I answered pronto. Nice people, who are busy, don't seem to savy, I told him, that the U.S.A. could ever be anything except what it has been since Washingt—ton—the Land of the Free. It don't

enter their noggin that anybody would dare to try making this country over into anything else. They don't see that socialism already has one foot in the door. It is the other guy's door, not theirs—that is why they slumber—it is not their baby.

Nice folks can be a sucker like anybody else—and lean back and listen to the wills-o-the-wisp.

**Says Rest Room Is In Filthy Conition**

Brownfield, Texas, October 4, 1943. Mr. Jack Stricklin, Brownfield, Texas. Dear Sir:

I wonder if the conditions in the ladies' rest room at the court house has been called to your attention recently.

I was in there a few days ago for the first time since the innovation. I was amazed and dismayed at the condition. The place has always been filthy. That is a disgraceful condition, but to expose the whole place to the public is even more disgraceful. The place is about as public as any street corner in town. The bandstand is always full of men. In summer the windows have to be raised and there are the ladies toilets—with no doors, mind you, no doors—exposed to the east windows for public inspection. All except the toilet for colored ladies, since where are the colored ladies more respected in our town than are the white ladies?

I have heard much comment on our rest room. One lady from Lubbock made the remark that the rest room at Brownfield was a disgrace to the whole county. Do we desire such a reputation in the outlying counties?

I think the ladies of this county would be very pleased if something could be done about this.

I do not know who is directly responsible for the care of the rest room, but whoever is responsible should think the matter over. I think this county should be financially able to hire a woman to take care of the rest room.

I know there are many people who are very filthy, but there are those that are not. These are in the majority, I am sure, and for this majority the rest room should be kept decent.

Mr. Stricklin, I know you are not responsible for this condition, but I thought perhaps you would publish this, or some comment of your own, to get this condition before the public. Thank you.—Mrs. Dot Herring, Mrs. Gus Pollard, Mrs. Victor Herring, Kate Fanchon, Mrs. Edd Evans, Mrs. Edd Stevens, Mrs. J. C. Herring, Mrs. E. C. Harvey, Mrs. C. G. Harvey, Mrs. Edith McGee, Mrs. A. E. Harvey, Mrs. A. J. Feltz, Mrs. A. R. Brock, Mrs. H. H. Hill, Mrs. W. H. Hill, Mrs. Glynn Brown, Mary Gladys Hill, Mrs. G. D. Wade, Mrs. J. H. Fisher, Mrs. W. B. Brock, and Mrs. Tom Taylor.

When our fighters fly at 400 miles an hour with a Jap Zero or a Messerschmidt on their tails there isn't much time for cogitation so the Army and the Navy show as many motion pictures of actual dog fights and air battles as possible to our student fliers.

Pictures of trainer flights, bombing flights and flights by fighters are all a part of the routine for our student pilots and must be drilled into them just as it is necessary for us to remind ourselves daily of the necessity to buy an extra \$100 Bond in September.

**Good Living**

Once upon a time a successful man decided to take a recess from business, and travel. Before leaving, he set up a budget to continue operations, appropriating substantial funds to three subordinates: 62½% to A, 25% to B and 12½% to C. When, after a long time, the head of the firm came back and asked for an accounting he learned that A and B both had doubled their money but the incompetent Mr. C had barely saved his principle.

What happened after that? Well, the management dismissed C and assigned his appropriation to the especially capable Mr. A. The story is told perfectly in Matthew 25:14-30. In this text is the origin of the term "five-talent man" meaning a person of exceptional ability in matters of business. It shows why business prospers in the hands of capable, energetic people. It is one of the many parables of Jesus.

**A Singular Gift**

Some people naturally have more money-making ability than others, just as some have more musical talent or more eloquence in public address. There is no end to a list of skills at which men have varying abilities, for new crafts are being created every day. But the knack of making money is in a class by itself, at least in the estimation of most people. It is a skill desired by many but admired by few.

It is not unusual to hear people speak with contempt of the money-making skill and, on several occasions, curiosity has led me to ask them why they did it. Some answers have been long and some short but they all have agreed on one point. Every answer implied that accumulating capital is selfish. One woman said, "Musicians play and sing for all to hear, artists make pictures for all to see, but the man who piles up money is helping only himself."

**How Earnings Come**

Hers was a tall tale answer. It disclosed considerable prejudice and not much thought. The truth is that a man with money-making ability is almost invariably a blessing to his community. Of course a miser's money is no good to himself or anybody else, but people who know how to assemble capital, put it to work and manage it well, are public benefactors. Such men improve incomes for people around them more than for themselves.

The best wages are paid only where big investments have been placed and where good profits are being made. Learned economists have scientific methods of proving that wages increase with the amount of capital invested, but it's more than a mere theory. It is a thing anybody can see by looking about at other people's jobs. Common sense teaches that (1) in the long run people get paid for what they produce, (2) with good equipment they can produce more and earn more, (3) but it takes an investment to provide the equipment.

**The American Plan**

Think of six foreign countries; any six you can name, large or small, rich or poor. The national income of the United States of America is equal to that of all the foreign six put together, no matter if you select the best half-dozen of the lot. This means that the average American earns far more money than the average citizen of any foreign country, and accordingly lives better.

Somebody is sure to ask: "How does this affect me? Of course our country is rich but the big corporations have everything gobbled up. National incomes and averages are nothing but statistics and I can't spend them. If I walk down the street and meet the millionaire who owns the plant where I work, his wealth and mine may average above \$500,000 but that doesn't make me any richer. What about me?"

**Protect Investments**

The answer to such a question is plain and reasonable: Every workman in any plant is richer because of the investment in it. Wages in America are twice as high as in England, three times as high as in continental Europe and six (sometimes 20) times as high as in the Orient. It is because only in America are workmen backed up with 4.5 horsepower of installed equipment apiece, an investment of \$8,000 for the average workman's job.

Do American workmen earn more because they work harder? No indeed! They don't work as hard or as long. Their pay is in proportion to their production: twice that of an Englishman, three times that of an European, six times that of a Jap. The necessary investment has been made by men who have prospered and saved and now hope to prosper further by intelligent investment.

**Divided Gains**

Under the American system of Free Private Enterprise, a few five-talent men in industry are extremely well paid. They earn it because all they get is very little compared to the income they create for others. Less than 16 per cent of national income will pay everybody in America who earns \$10,000 a year or more. Occasionally somebody shouts for equalized incomes. What the complainer really says is this: "Down with competent men. Let's ruin their investments, wreck their machinery and live on Japanese standards."

New York, Oct. 5—Beginning of work on a new crude oil pipeline to run nearly 400 miles from the fields near Seminole, Texas to Corsicana, Texas, was announced today by Magnolia Pipe Line Co. of Dallas, subsidiary of Socony-Vacuum Oil Co.

The company said the line would have a capacity of 42,000 barrels daily and would move oil from the Permian Basin wells to major north-south pipelines at Corsicana.

While 29,900 tons of steel were allotted to the \$6,000,000 project, some used pipe and equipment will be taken from less essential pipelines to complete the project.

**Drivers' Licenses To Begin Expiring**

State Police Director Homer Garrison stated that the first series of the two years license would begin expiring this month. Drivers that are not certain, should at once examine their license. The date is stamped close to the lower left-hand corner. Figure two years from that date.

Contact your state police headquarters (highway patrolman) at the courthouse. From them you will receive a blank to be filled. Be sure to fill out all places, otherwise this will delay matters, as it will be returned from Austin. It must be accompanied by the renewal stub, which will be torn from your present license.

The fee for renewal is 50 cents. No stamps or loose change in the envelope. Cashier's check or money order is best. For other information, your state police department will be glad to tell you.

**Cheese Production At Low Ebb**

The Business Bureau of the University of Texas, in its monthly review for August, stated that on account of a hot, dry summer, Texas farmers were way ahead of normal years in cotton harvesting, and as a consequence, had a much higher income than for the same month last year.

The report also disclosed that the carload shipments of poultry and turkeys were way off from last year, but that carload egg shipments were real high.

Milk, butter and ice cream production was off, from last year, and the decrease in cheese production was real alarming, the report stated.

**Tells About Time Winston Glutted Egg Market**

Joe Eudy worked for Homer Winston here for several years, and they seemed to get along just fine, but still Joe was noted as the one man that could really get under Homer's skin right where the sore spot was located. Joe called last Saturday and told this egg story on Homer.

According to Joe, way back several years ago, it was always difficult to buy plenty of fresh eggs here about Christmas time. The old domineers just seemed to refuse to put out the hen fruit on a combination feed of maize, corn and water, so Homer 'lowed as how he'd show these @!@! farmers how to get eggs in winter—and did.

He bought a bunch of white Leghorns, put the laying mash to them and would march in every morning as big as old Wash with two half bushels of nice, shining eggs, and cash them in at the grocery stores for 45c per dozen. This went well until about April

or May, when the old country hens began to cackle, and egg prices took a rather fast pace down the ladder, finally reaching about 15c per dozen, and egg mash too high to feed for 15c eggs.

So, according to Joe, Homer moved his hens to a farm, and traded them finally for some shoats to be raised and fattened on the halves. Homer finally got one dressed shoat, Joe declares. But don't tell Homer this story appeared in the Herald. He sometimes advertises in these columns, and he might cut from us.

She is personally sending many parcels to service men she met on the tour.

**LUBBOCK FEDERATION TO ENTERTAIN AREA CLUBS**

Lubbock County and City Federations of Women's Clubs will entertain Oct. 15, at the First Presbyterian Fellowship Hall, at Ave N and 14th St., honoring Miss Ethel Foster of Sterling City, president of the state federation of women's clubs, Mrs. Wesley Izzard of Amarillo, Seventh District president, and other officers.

At this time it is hoped that a large number of paintings will be on display from artists from all over the seventh district. From the exhibit, 10 or 12 pictures will be selected by competent judges, to be sent to the state convention in Austin in November.

The pictures should be of medium size in oil or water colors, and must be in the hands of those in charge by noon Thursday, October 14.

Please urge the artists of your community to respond to this call and use the above information as you see fit in this week's issue of your paper.

Thanking you for this favor, I am yours very truly, Mrs. A. W. McKee, chairman, fine arts division, seventh district.

**W. T. C. C. INVESTS \$10,000 IN WAR BONDS**

The West Texas Chamber of Commerce is actively promoting the war effort not alone through its inter-community war and preservation contest in which more than 100 area towns are entries, but with hard cash. During the Third War Loan campaign the organization bought a \$10,000 bond to bring to \$20,000 its holding of the nation's securities.

Announcement of the all-cash purchase was made at Midland by M. C. Ulmer, president of the regional chamber, in his address to the annual convention of West Texas county judges and commissioners. The \$10,000 check was delivered to Ulmer by WTCC Manager D. A. Bandoen, following a Lubbock meeting of the organization's officers committee at which the purchase was authorized.

The WTCC's initial \$10,000 bond purchase was made in May 1941, at its Mineral Wells convention, seven months prior to Pearl Harbor.

**HARLEY SADLER PRESENTS THE PICTURE, "RAVAGED EARTH," OCTOBER 13TH**

"Ravaged Earth," the expose of the ruin, riot and rape of China, opens at the Sadler tent theatre for a limited engagement. The picture will be presented continu-

ously . . . and is for adult consumption only. No children will be admitted.

This is the picture that has been so widely acclaimed by the press, public and pulpit. Military leaders have insisted that it be shown to the armed forces and in the large defense plants, and only recently, has it been possible to release it for public view. The engagement here is one of the few in this section.

The Texas legislature, en body, recently previewed it, and passed a House resolution commending the management of the Paramount Theatre in Austin, Texas, for the privilege of seeing this sensational film. "Unforgettable," says the resolution in part.

Mrs. Eleanor Roosevelt has said, "It is appalling, but should be seen by every adult American." Mae Tinee in the Chicago Review of the picture says, "Audiences at 'Ravaged Earth' are very quiet, and they come out fighting mad." Without exception, all who have seen it are of the opinion that every red-blooded American, who really wants to know the truth about the bestial barbarians of the Pacific, Hirohito's Sons of . . . Heaven, should see it.

It will be on view at the Sadler tent theater for one day only—Wednesday, October 13, benefit of War Relief fund.

**State Guard Called For Maneuvers**

Orders have been received here by Capt. E. G. Akers of the local company of the Texas State Guard, to attend the maneuvers of the 1st and 34th battalions, somewhere west of Odessa, next Saturday and Sunday. It is expected the greater part of the company will be able to attend. They will be fully equipped, and will engage in mock battles, marching, camping, and receiving instructions. Major C. T. Edwards, former Brownfielder, will be present and participate in instructions. Capt. Akers says they intend to go rain or shine.

**Lee O. Allen Champ Tater Raiser**

So far as we can learn, Lee O. Allen, gin and feed man of Tokio, and Mayor Pro Tem, is the champion potato raiser of Terry county this year, so far as the "sweet" variety goes. He had a big sack of them down town last week that came from one hill of irrigated potatoes, raised in the east part of the city. The bag of potatoes tipped the scales at a bit over 20 pounds, one of them weighing about three pounds.

We have heard of others that are really whoppers, one reported at about nine pounds. Mrs. Stricklin got one from her Victory garden that weighed 2½ pounds. These potatoes were never irrigated and grew on sod land. No, the Old He don't claim any credit as we merely looked at the vines a few times and wished them well.

It is a pity there is not a drying kiln in the city or in the county, as lots of farmers could then raise all the potatoes they want, and prepare them to "keep," for their own use if they did not wish to raise them for sale.
