

Lt. Simms Participating In the Invasion

Lt. Harold Simms, son of Mr. and Mrs. Raymond Simms of this city, was born here Oct. 29th, 1922; finished high school in 1940 and went to Texas A. & M. college for the fall semester, but transferred to Tech college for the spring semester, which he continued through the first half of the 1942-43 session, volunteer-

ing in the army air corps, Aug., 26th, 1943, and called to active duty Feb. 18th, 1943. His basic training was at Randolph Field, San Antonio, and classified as a bombardier. He then began training at Ellington Field, near Houston, then at Midland Army Air Field. On completion of his training he was commissioned 2nd Lt. Aug. 6th, 1943, and was assigned to the Clovis, N. Mex., Air Base for a period of six weeks.

His crew was sent to Bythe, Army Air Base at Bythe, Calif., and completed training there as a unit, and shipped from there to Harrington Field, Kansas.

He remained there a week or two and thence to Langley Field, Va. From there he was transferred to the air base in England, about March 10th, this year. He was promoted to First Lt., the first of June, and has participated in the invasion activities.

A letter from Harold written June 28th, stated that he had been awarded three Oak Leaf Clusters and Air Medal.

Corporal Wesley Speed of the medical detachment of the army has recently been sent from Kentucky to somewhere in England.

Corporal and Mrs. O. G. Cheek, jr., of Pampa came in Sunday to spend the 4th holidays with her parents, Mr. and Mrs. E. D. Ballard.

Pvt. Oscar S. Decker of the United States infantry in Mississippi is spending a 15-day furlough with his wife, Mrs. Dorothy Decker and his mother, Mrs. Minnie Decker and other relatives.

1st Lt. Sawyer A. Graham, of somewhere in the English invasion center, writes his parents Mr. and Mrs. E. A. Graham, that he is well but sure has been missing the Herald. Hope with the new address he can receive it more regularly.

Major Kenneth L. Turner is recovering after an operation on June 19th, at Bushnell General Hospital, Brigham City, Utah. Wanda Ruth is with him and is expected back about the 1st of August.

Cpl. Bud Patterson, former filling station operator here, now in the military service is here this week visiting his wife and new baby, and other relatives. Mrs. Patterson is the former Carolyn Jones, daughter of Mrs. O. L. Jones.

Marine Cpl. Cargill Awarded Silver Star

WASHINGTON—Marine Corporal Jerry V. Cargill of Tokio, Texas, has been awarded the Silver Star medal—second highest award a marine can earn—for leading his squad in a fierce battle with Japanese forces on Bougainville last November.

Credit by his citation with "conspicuous gallantry and intrepidity in action," Corporal Cargill "valiantly led his squad in a fierce engagement with numerically superior enemy forces. When one of his men was seriously wounded, he unhesitatingly rushed forward in the face of withering hostile fire and carried his helpless comrade to a safe position, where first aid treatment was administered.

"Corporal Cargill's splendid initiative and unselfish devotion to duty, maintained at great personal risk, were in keeping with the highest traditions of the United States naval service."

Corporal Cargill was born April 24, 1922, at Tokio, Terry county, Texas, and is the son of Mr. and Mrs. Jay Thomas Cargill. He enlisted at Amarillo, Texas, August 12, 1940, and trained at Mare Island, California.

Lee Roy Sanders, gunners mate 3/c, of San Diego, Calif., came in last Thursday to spend a fourteen day leave with his parents, Mr. and Mrs. G. W. Sanders. Mrs. Bill Back and children of Denver, Colo., are also visiting her parents, the Sanders.

Charles S. Auberg, S2C of Chuavista, Calif., is visiting his mother, Mrs. S. D. Auberg, while on a two weeks leave. Marshall Auberg, a defense worker in Ft. Worth, spent the weekend with his mother and family.

THE GETTYSBURG ADDRESS RENDERED BY A SEABEE

A Seabee in the South Pacific patterned this version of life out there along the lines of Lincoln's Gettysburg address, as follows:

"Two score and seven days ago our battalion brought forth upon this island a new project, conceived in a fox hole and dedicated to the proposition that all Japs are created evil.

"We are now ensnared in the heat, rain, and mud of the island, testing whether this project or the Seabees will long endure.

"We are all together slipping and sliding as we do this, but in a larger sense we cannot cultivate, we cannot navigate, we cannot harrow this ground, for those rains which make this mud here have made it impossible, far above the poor power of all the 'Cats' (tractors.)

"It is for us, the Seabees, rather to be enslaved here by this menial labor which they who are in charge have ths so freely advanced. It is rather for us to be here sickened by the dish of hash set before us, that from these cans we took our nourishment; nor no devotion to these cooks, for our stomachs gave an everlasting measure of commotion.

"The world will little note nor long remember what we build here, but we shall never forget the hash and beans we ate here. Let us resolve that we shall not have sweat in vain; that this battalion shall have 30 days freedom in the United States by Easter; that this thought shall not perish from our hopes.

Miracles Still Happen

Quartemaster Eulee McPherson of the USS Egeria, somewhere in the southwest Pacific, wrote his parents, Mr. and Mrs. B. L. McPherson, to send him his brother-in-law's, Arthur (Shorty) Browns address so he could write him. The McPhersons did. Shorty Brown S 2/c of the USS Prairie also wrote for Eulee's address.

Saturday, the McPhersons got a letter from Eulee saying he knew where Shorty's ship was located so took a boat out and went over for a visit. Shorty is planning to row over and see or (see) Eulee in a few days. Can't you imagine the thrill those boys are having so far away from home?

Lt. John Kendrick With Air Force In Burma

This week we are showing the likeness of Lt. John J. Kendrick and his little son, John J. III., who was born while John was in training. Lt. John J. is the son of

LT. JOHN J. KENDRICK

the late J. J. Kendrick, who helped to organize Gaines county. His mother now resides in Lubbock. Johnny finished high school in Lubbock and entered Tech, which he attended one term before accepting a position as bookkeeper for the First National Bank of this city, where he was employed four years before entering military service in October 1942.

Johnny received his wings as a fighter pilot at Foster Field, Victoria, Texas, in July 1943. He graduated from Key Field, Meridian, Miss., as a tactical reconnaissance pilot in March of this year, and went directly overseas from there. He is now in the

JOHN J. KENDRICK, III

jungles of Burma, flying a P-40 on reconnaissance, bombing missions and spotting artillery fire. He has completed 25 missions.

Kendrick stated that the monsoons kept them grounded a lot of the time. He is a lot more interested in telling about his seven months old son than anything else. His wife and son are making their home here with her parents, Mr. and Mrs. Cecil J. Smith, for the duration.

Sgt. Marner Price left Lubbock Monday for his base in Ontario, Calif. Mrs. Marner Price and Mr. and Mrs. N.L. Mason accompanied him to Lubbock.

A/S Charles Hamilton visited his mother, Mrs. C. F. Hamilton on a three days leave. He was being transferred from San Antonio to Brady, Texas. Mrs. Hamilton and Charles left Tuesday morning for Brady and she visited her brother, Mr. and Mrs. Bufford Adams in Brownwood, Tuesday night.

1st Lt. Fern Green, Physical Therapy Aide, of Brooks General Hospital, Ft. Sam Houston, will arrive July 9th, for a four days visit with her parents, Mr. and Mrs. L. C. Green. She will also visit her sister, Mrs. Earl Unger, of Lamesa.

Mrs. J. P. Benson called in this week and had us place her two sons names on our subscription list. Oneson, John, is based in Hawaii islands, the other, Raymond, is at present in San Diego. He is in training at the base there

War Bond Buying Lagging In County

Chairman Virgil Burnett announced that up to last Tuesday night the Fifth War Loan drive had sold \$288,984.00, of this amount \$75,862.50 was of the Series "E," the quota on that series being \$205,000.00. The total quota for the county being \$475,000.00. Sales about 61 percent.

Burnett reports the committee-men have worked faithfully, but are meeting with considerable reluctance by buyers. No particular reasons are assigned for this slow down, though some of the workers reported that several buyers indicated they could make more out of their money by speculation in other things, or get better interest in private trade, thus putting their selfish interest above the war effort.

The United States buys, hires and pays for everything it gets about the war; it does not confiscate nor use slave labor, and thus it costs this nation more than any other nation to carry on. With good prices, and the enormous sums being expended, brought prosperity to the people.

It is to be hoped there will be but a very few, if any, so selfish they can't reciprocate to Uncle Sam in carrying on this biggest and most serious war this nation ever had. It is not over, it is not won yet. There are many shells to shoot, and many bonds to buy.

Mr. Burnett feels some regret at this slow down. Points out the last official day is July 8th, and urges all who possibly can, to buy bonds, and more bonds, and get Terry county out of the lag.

Much Beer and Wine Sold In Wet Areas

County Sheriff Mon Telford announced this week that he had checked out 54 cases of beer, 37 gallons and 84 quart containers of wine to the Liquor Control board. This confiscated liquor will be carried to wet counties and sold to wholesale dealers.

The money derived therefrom will be sent to Austin to the comptroller, most of which will eventually go into the pension fund. This beer and wine has been accumulated over several months, and stored in a vault in the courthouse.

Country Weeklies Not Limited On Paper

We have heard and read much here of late about being limited on print paper by small town papers. Fact is, they have never been limited so far as we know. Only large dailies that use as much as 25 tons per quarter, are rationed.

Some one has been putting such stuff out here until a lot of people are believing it. In fact, we have had a number of people to call at the Herald office and ask if we are still taking new subscribers. YOU BET—JUST TRY US!

Furthermore, no longer than last week, the WPB or OPA or whatever ABC that has charge of rationing paper to dailies, announced that their quotas would be continued for at least this year. Some one has something up his sleeve when he tells you that print paper has ever been rationed to country weeklies or small dailies.

Lt. Bagley To Fly B-17 Fortresses

COLUMBUS, Ohio, June 27.—Lieutenant Huddle C. Bagley, son of Mrs. Cora E. Bagley of Route 3, Brownfield, has reported to the AAF training command's Lockbourne army air base to take a course of instruction in flying the B-17 Flying Fortress.

Upon completion of his course here, Lt. Bagley will be a qualified pilot of this famous army plane.

Lt. Bagley received his advanced pilot training at George Field, Ill., before coming to Lockbourne. He formerly attended Hardin Simmons university.

Center Parking Restricted In City

City authorities have placed a "No Center Parking" sign on many of the principle business streets and state they will enforce that ruling, having an ordinance providing penalties for violation.

There are yet many cars on our streets, and at times center parking all but blocks passage, and creates danger of injury to cars, or persons.

Main street running north of the court house is designated a state highway, which requires ample passage ways.

Ballots Ready for Absentee Voters

County Clerk Pycatt announces he has the ballot on hand, and the time is ripe for absentees voting. Those who are absent, or expect to be, primary day, are urged to come, or write, to the clerk's office right away for a ballot.

Lions Club Install New Officers

The Lions club, at their luncheon Wednesday, installed their newly elected officers: Johnnie Christwell, president, succeeding Herbert Chesshir; Jack Griffith as secretary, succeeding Fred Walker.

It was also announced that their swimming pool is nearing completion. Much work has been done on it, and will be ready for a plunge early next week.

Judge Chapman Withdraws From Senate Race

The many friends here of Judge Alton B. Chapman of Floydada, regret that he was forced to withdraw from the race of state senator. The supreme court of Texas held that under an act of the last legislature, he could not hold one office (district judge) and at the same time seek another.

And it seems that they also held that one cannot resign from one lucrative office after he has announced, to run for another. This leaves only Sterling J. Parrish of Lubbock, in the race.

Judge Chapman thanks his many friends for their consideration of his candidacy.

Canning Center To Open July 10

Opening of the high school canning instruction center has been definitely set for July 10th, it has been announced by Tom Neely, agriculture teacher, who is in charge of this project.

The canning center is located in the basement of the West Ward School building and will be open from 8 to 5 o'clock each day except Saturday. Mrs. Estelle Brown will be the canning instructor.

Each individual using the canning facilities will furnish his own cans or jars and produce. The equipment, heat, water and other essential items will be furnished free to patrons of the canning center. Anyone wishing to, is welcome to use the canning center.

The contribution that home canned food makes to the war effort should not be minimized, and to make best use of canning facilities, start with early vegetables and can a large variety of vegetables instead of a large number of a few.

Quiet Fourth Here

Brownfield observed a quite "safe and sane" holiday last Tuesday. All businesses, except two or three eating places, were closed for the day, and few people were on the streets. One of the Airfields at Lubbock gave an open house to the public. Seagraves staged a small rodeo, otherwise the South Plains rested in observance. However news reports indicate increased travel over the Nation on this occasion, resulting in over 300 deaths, mostly from traffic accidents and drownings. Were this rate kept up for a year, it would exceed our war deaths for the past two years.

Rialto Boosts Bond Sales This Week

It was announced Thursday night that the proceeds from the Bond Premier, showing "Buffalo Bill," totaled \$6,693.75, which will add greatly to the sum total of our quota. We figure that the most of these bonds were series E, which we are so far behind on.

Of course the maturity value of these bonds will be more than eight thousand dollars. The Jones theatres are doing their share in bond sales. ARE YOU?

Inner Tubes Removed From Rationing

Moving to conserve tires by making new inner tubes more readily obtainable, the Office of Price Administration has announced the removal of all inner tubes from rationing. In explanation, officials stated that a good tube properly inflated will extend the life of a tire.

The inner tube stock pile has grown enough to meet the anticipated future demand for 1,500,000 tubes a month. At the same time, officials estimated that conditions would prevent "A" gasoline card drivers from receiving tires until early next year.

James Cousineux, with the U. S. navy at Camp Parks, Cal., is here this week on leave, visiting his mother.

NFLA TO BE DIRECTED FROM LEVELLAND

L. E. Mabe, of Levelland was here this week making arrangements to direct the local office of National Farm Loan Association from the Levelland office, which has been designated the regional office.

Mr. Mabe stated that inasmuch as many of our farmers have liquidated their loans, it was no longer necessary to make a full time office of the local one, but that he would be here Tuesdays and Wednesdays to meet local farmers who have business with NFLA.

R. O. Black, who has for the past several years been secretary of the local office, will devote more time to his farm.

STATE GUARD OFFICERS TO GET TRAINING

From July 2nd, and continuing through July 29th, commissioned officers of Co. D., of Brownfield, will receive special training by regular army officers at Camp Bullis, near San Antonio. This training will be under direction of Adj. Gen. Arthur B. Knickerbocker, of the State Guard.

The regular army cavalryman, Col. Hobart Brown of Ft. Sam Houston, near San Antonio, will train the officers. Among those from Brownfield to receive training, are First Lt. Dr. John R. Turner, Capt. E. G. Akers, First Lt. Orbra V. Holt and Second Lt. Lawton Nicholson.

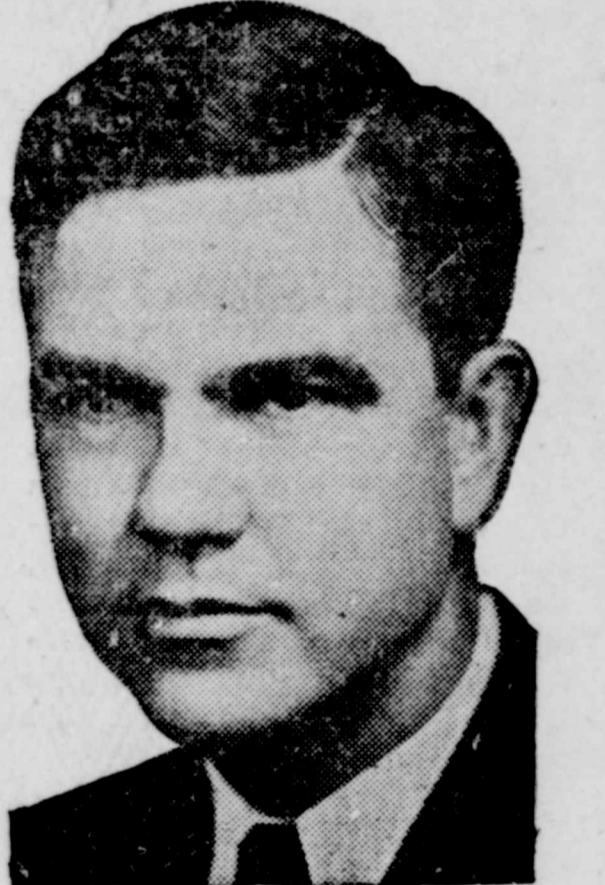

CPL. LUCIEN D. PARRISH

The above is a late likeness of Cpl. Lucien D. Parrish, killed in a plane accident at Casper, Wyo., and buried at Union, with military honors, June 23rd, account of which appeared in these columns last week.

Mahon Makes Statement to Terry Voters

Congressman George Mahon is taking advantage of the recess of congress to visit among the people of the 19th District. Mahon is a candidate for re-election and this week he issued the following statement to the people of Terry county:

"Congress is in recess and I have returned home to visit among the people of our Congressional District. In our district there

MAHON

are 25 counties, dozens of towns and more than a quarter million people. Naturally, I will not be able to see a large proportion of the people between now and the Primary, July 22.

"This is meant as a personal word to the people of Terry county. You have been generous to me beyond measure in the confidence you have shown in me and the support you have always given me. I have aggressively championed the rights of our people, seeking in every possible way to serve our people and our nation well in matters great and small.

"Our problems and difficulties have been many. I know that you are interested in many matters but that the war and the welfare of your sons in the service are your greatest concern.

"Our country's progress in the war has been amazing. I join you in the hope and prayer that victory will come sooner than we can now foresee. I have great faith in the stability and future of our country. Victory, peace for the longest possible span of years, and a better America for all our people are uppermost in my thinking in my service in Congress.

"I warmly thank you for the opportunities for service which you have given me and I pledge my best in the difficult and tragically important days ahead."

Mrs. Beulah Scuddy, Sweetwater, niece of Mrs. J. L. Randal of this city, has been notified of the death of her son, Capt. Fred Scuddy, somewhere in China. This ace of the air first joined the RAF, but later transferred to the United States air force after we entered the war. Capt. Scuddy was born in Brownfield, but was reared and educated in Sweetwater. Besides his mother, he is survived by his father, Fred sr., of Big Spring, and a sister, Mrs. Mary Gus Prim, of Phoenix, Arizona.

Earl Burnett, with the air corp, is furroughing with his parents, the John Burnetts. Earl is just returned from action in Italy, having left there only a few days before the capture of Rome. He expects to leave this week, but doesn't know the destination.

CARBON PLANT BEGINS CONSTRUCTION

A large crew of men and machines, began early Monday the ground work for erection of the half million dollar carbon black plant near the highway and railroad, two miles northeast from Seagraves. This plant utilizes a by product of oil and gas, obtained from near by oil fields, and will be one of the largest industrial plants in this section of the State.

Three West Texas editors are having a big threesome over the fact that because Uncle Sam wanted all their linotype operators and printers on the fighting front, Unk didn't kill their papers, not by a jug full. Rather braggingly, the trio of editors of the Rotan Advance, Hamlin Herald and Stanton Reporter, tell us that the loss of their help meant nothing to them, the supermen of the fraternity, but they just donned an apron, shed their white collar and took to the job like a bitin' sow, and presto, the paper was out Wednesday instead of Thursday, and they played the rest of the week, or golfed or fished. Well, we don't claim to be in their class. After a 20-year vacation spent in the "front" office, we tried the back shop and there was a hospital casualty. We couldn't take it (and admit it). Maybe we tried to do too much the first two months.

Hearing a song hit too often leads to making people wish it had been missed.

The government is selling a lot of surplus commodities which were either manufactured under order, or of which too much were bought. It is interesting to see who are buying. For several years The News predicted that no millionaires would be made during this war—that the administration was looking after that. Again we were mistaken. Wall Street bankers are doing the selling at a big loss to the government. The buyer are the big chain stores of the nation. What about the little business man? Well, he is simply not considered, the same as he has never been considered in the manner of war contracts. There will be about 75 billion dollars worth of government stuff to be sold at the end of the war. What effect is the sale of all this stuff to big firms going to have on the little business firms scattered over the nation who will never have a chance to buy any of this stuff? Again this is a good time to do some post-war thinking and planning.—The Canyon News.

Editors Hale of the Yoakum County Review, Plains, and Richards of the News, Anton, don't often agree, but they did recently—just about. Mr. Hale is a decided anti-new dealer, while Richards goes along with most of it. But the agreement came up over the prayer that President Roosevelt lead the day after D-day. The particular point of agreement being that Christ's name was left entirely out of the prayer, probably a sop to some minor religious "heretic" rediculouZfhoactoinshrdlaogroups. Well that did sound rather ridiculous to some 120 million or more other Americans who acknowledge that Christ is the son of God and that we pray the Father in Christ's name. But Editor Richards being what he is, a Primitive Baptist minister, just had to "spout" some, and he called attention that a prayer did not always have to be uttered to be answered. Then he kinder "rid" the back of some fraternal orders that ditch the name of Christ in their rituals for the sake of pleasing some minor religious bodies. Now if Mr. Hale belongs to any of these orders, maybe he will come back at Mr. Richards like a bull pup at a tom cat.

It's too late to learn when you think you know it all!

J. R. KEE WAS MISSING HIS HERALD

J. R. Kee, former automobile dealer in Brownfield, who for the past year or two has been working for Uncle Sam at Roswell, writes to renew, and remarks:

By the time it runs out again, maybe the Rats will be driven out of the Pacific, and Hitler and his gang will be shoveling coal for the devil, and we can all come home and adjust our affairs and live like humans again.

Amen! J. R. With you 100 per cent.

Our Neighbors Bring In the Eats

Being on the list some 2 months we have had time to think of eats a great deal, but being on restricted diet, there are a lot of good stuff that we are not allowed to consume. But we are not restricted to how much we eat of things permissible.

So our good friend, Mrs. G. G. Gore brings in a fine fryer. We are not allowed fried foods, so stewing had to be the way out, and that chicken was fine. Also, Mrs. M. B. Sawyer and daughter, Mrs. Cren aLecetainshrdlltao Mrs. Clarence Lewis, called Sunday with a beautiful supply of angel food cake.

Thanks a lot. We are now working up quite an appetite again and if any of the good folks have anything going to waste around the place that ought to be eaten, remember the address—106 East Broadway, and you'll always find someone around.

Thanks a lot, friends, and remember while the above may sound like kidding, it's on the level. Not that our fine grocery-men don't have a nice variety, but something extraordinary at times is highly appreciated.

RICE DIET FOR HIGH BLOOD PRESSURE

A new, entirely drugless treatment for high blood pressure by a diet of rice and fruit juices has been presented to the American Medical Association by Dr. Walter who has been conducting experiments the past four years at Duke University School of Medicine. The diet is mostly rice, boiled or steamed plus ample fruit juices and supplemented by vitamins and iron.

Enlarged hearts were reduced and near blindness was helped while blood pressure around 200 dropped immediately after the rice diet was started.

The time of diet varied from

The Herald received a letter this week from Mrs. John R. Turner asking us to send their paper to Bienville, La. Dr. and Mrs. Turner left here on account of the doctor's health, and they will locate later after the doctor rests up, in a lower altitude. Brownfield now has only three doctors, namely T. L. Treadaway, E. C. Davis and Wayne Hill.

Local People Allowed To Hire Labor

Beginning July 1, employers of Terry county will be allowed to hire male laborers for needed farm or other help without consultation with U. S. employment service, or the manpower commission.

It was stated by the USES at Lubbock, that inasmuch as Terry county, as well as a lot of the South Plains counties, do not have the service of this agency locally, and that it takes gasoline to go as far as Lubbock for such an arrangement, that the rules have been suspended until further notice.

"THE SOLDIER ON CRUTCHES"

"He came down the stairs on the laughter-filled grill Where patriots were eating and drinking their fill, The tap of his crutch on the marble of white Caught my ear as I sat all alone there that night. I turned—and a soldier my eyes fell upon, He had fought for his country, and one leg was gone!"

"As he entered a silence fell over the place; Every eye in the room was turned up to his face. His head was up high and his eyes seemed aflame With a wonderful light, and he laughed and came. He was young—not yet thirty—yet never he made One sign of regret for the price he had paid.

"One moment before this young soldier came in I had caught bits of speech in the catter and din From the fine men about me in life's dress parade Who were boasting the cash sacrifice they'd made; And I thought of my own paltry service with pride, When I turned and that hero of battle I spied.

"I shall never forget that hot flushes of shame That rushed to my cheeks as that young fellow came. He was cheerful and smiling and clear-eyed an dfine And out of his face goldn light seemed to shine. And I thought as he passed me on crutches: "How small Are the gifts that I make if I don't give my all."

"Some da yin the future in many a place More soldiers just like him we'll have to face. We must sit with them, talk with them, laugh with them, too. With the signs of their service forever in view And this was my thought as I looked at him then— Oh, God! Make me worthy to stand with such men. —Edgar A. Guest

E Eye, Lady, and Lady Friend Ramble

Editor Eee I. Hill of the Lynn County News, Tahoka, must have been saving gas ration coupons for sometime, or else they had a rich uncle that will let them have coupons, judging by the big ramble reported in his column last week. It seems that he (Mrs. Hill, and a lady friend visited just about all the places where a paper is printed just on the caprock, and for many miles beyond.

Just what Eee Eye was hunting for, he sayeth not, but if he was trying to entice any printers or linotype operators away from his competitors, the jolt he got when a car hit him last year would be in comparison to a soft baseball and a 105 mm, when those editors learn what he was up to.

Off hand though, we would judge that Mr. Hill and companions were out looking at the wheat crop, judging from the amount of space given the matter. Eee Eye may have been thinking that the biscuit material at his house might run low next year. But he seems to be assured after the trip.

But Editor Carlock at Paducha was unable to get him to go with

Greatest Wheat Harvest Of Texas In Full Swing

Some hundred years ago Texas pioneers were planting their first wheat harvest in the rich primeval lands of grand old Texas. And that summer or late spring these hardy new settlers and their sturdy sons and neighbors began "cradling" the crop. It then took 25 men four days to cut 50 acrs.

Compare this with the modern combine that cuts 50 acres per day, and by working some overtime on account of scarcity of help, some are combining 80 acres per day.

One great trouble this year is that a quirk of the weatherman made the harvest of Texas, Oklahoma and Kansas, come at or about the same time, which with the labor scarcity, makes it that much meaner.

We heard one commentator predict a winter and spring wheat crop of the nation at around a billion bushels. We are going to need all of it to feed ourselves and the big armed forces, as well as our Allies and the hungry liberated people.

We understand that OPA, in releasing a number of combins, insist that the owners not only harvest their own crops, but others, to a gross of some 2,000 acres.

TOO MANY CONVENTIONS

With the war approaching a critical phase, it becomes more than ever imperative to heed the warning of railroad officials and government agencies to stay off the trains. The movement of troops, supplies and civilians who have legitimate cause to travel, should not be hampered by thoughtless vacationists and "business-as-usual" individual. Conventions are one of the worst unnecessary burdens on the railroads at the present time. Colonel J. Monroe Johnson, Director of the Office of Defense Transportation, says: "We are obliged to report that even with the prospect of invasion and the resulting need to keep transportation lines clear, unnecessary trade shows and conventions continue to be planned. The governing officials of these organizations have neglected to take into consideration the harm these conventions inflict on war transportation efficiency."

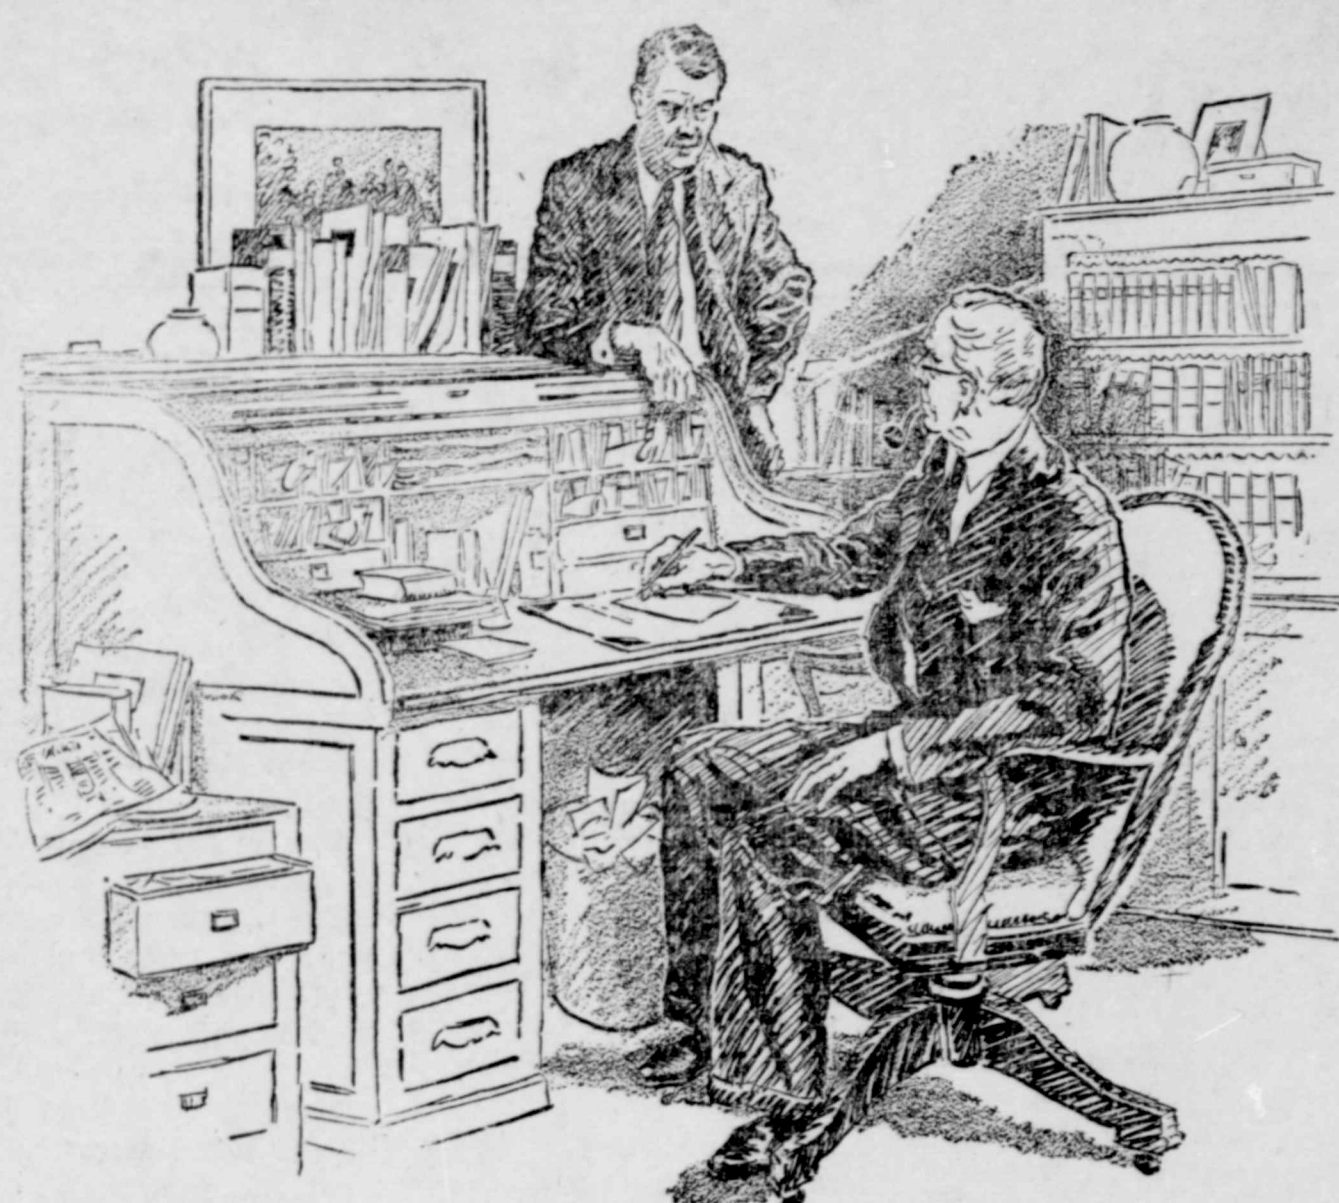

Pacific Coast Regional ODT officials have estimated that during 1944 approximately 48,000 persons will attend about 142 conventions in only four major cities on the Pacific Coast. Convention planning is continuing in spite of the fact that ODT has said that this type of travel is especially disruptive to transportation facilities. The resulting traffic congestion is far beyond what might be expected from the small percentage of passengers that conventions add to the total number carried.

The traveling public has cooperated generously with the railroads. In return, the railroads have performed a transportation job the like of which the world has never seen. Everyone should join in this cooperative effort to get first things first on the nations railroads and that goes for the convention promoters.

THE OLD JUDGE SAYS...

"The men overseas don't mince any words about the way they want to find this country when they come marching home... do they, Judge?"

"They certainly don't, Herb...and they shouldn't. They're doing a masterful job fighting over there to protect our rights and they have good license to expect us to protect theirs back here at home. One thing they're mighty clear on is their stand on prohibition."

"Their position on that subject was stated very emphatically in a poli taken recently

among American service men in England by the British Institute of Public Opinion. When hundreds of men were asked point blank how they would vote on prohibition, 85% of them stated, in unmistakable terms, that they would vote against it. There's no doubt about it, Herb...the men overseas don't want any action taken on that subject while they're away."

"And they're 100% right, Judge, because I know how I felt when I came home after the last war—only to learn that we had been over there fighting for so impractical a thing as Prohibition."

TERRY COUNTY FRAME GARDENS ARE POPULAR AND SUCCESSFUL

Of the 1600 farm and ranch families in Terry county, at least 300 have frame gardens. In addition, Mozelle Reast, the county home demonstration agent here, believes more gardens are in production in this county now than in 1943. She attributes unusual interest in frame gardens to an intensive program in their behalf sponsored by the home demonstration and 4-H clubs of the county during March.

As evidence of the value of an example of Mrs. Jewell Bell of the Harmony club. Although Mrs. Bell was a little dubious about one when suggestion was made to her, she obtained the help of her husband and some of her fellow club members in making a frame garden six feet wide and 35 feet long. This garden was built where it will be well protected from the sand and wind.

On March 14, Mrs. Bill planted lettuce, radishes, carrots, beets, English peas, spinach, mustard, and some onion sets in her garden. Twenty-three days later, she served radishes and a week following she obtained lettuce, mustard, and onions for the family table. Mrs. Bell's frame garden is the envy of all who have seen it.

State Reports On Tuberculosis

Tuberculosis probably represents the most important health problem of Texas at this time. Between 21 and 45 years of age tuberculosis is the leading cause of death in Texas. This is of signal importance, because it represents the most productive ages of the entire population. Tuberculosis, also, is common in elderly people, and is especially dangerous where they are confined to the household. They offer in the home one of the greatest sources of infection of family groups. Many of the cases of tuberculosis in elderly people are not recognized because the disease masquerades as bronchia asthma, chronic catarrh, chronic bronchitis, flu and allied diseases. In present survey practices these elderly people with chronic respiratory histories offer one of the most vulnerable points of contact in the control of the disease.

The mode of transmission is through the discharges from respiratory tract of infected persons, mainly sputum. Incubation period depends upon the type of tubercule bacilli from open lesions.

Mrs. Ivy Savage who is visiting her mother, Mrs. J. C. Green, received a cablegram stating her daughter, Cpt., Betty Savage, was somewhere in the Southwest Pacific. Mrs. Savage will leave today to spend two weeks with her son Bill, in Chicago.

FIGHT FLIES AND MOSQUITOS

COLLEGE STATION, May—Two dangerous public enemies, the housefly and the mosquito, are aboard. They spread disease and annoy persons, and should be destroyed wherever found.

According to Mrs. Bernice Claytor of the A. and M. College Extension Service, families should not delay in protecting their homes from these harmful pests. People have an added responsibility this spring because they have to make their protective fight with the material they have on hand. This applies principally to screening for porch, windows and doors. New metal screen generally can't be bought, and probably will not again be on market until after the war.

As the first line of defense, screens should be guarded carefully against damage and deterioration. Mrs. Claytor, who is the specialist in home improvement, advises seeing to it that all frames fit doors and windows tightly. Galvanized screens should be dressed once yearly with a thin paint or an approved screen paint, and as a preservative, paint the frames at the same time. During this annual renovation patch any holes or rips and when the screens and doors go into winter storage they should be protected against accidental damage.

It's a good idea, the specialist says, to put a strong spring on screen doors so they'll close quickly, have them well equipped with hooks and latches, and the lower portion protected with a guard.

Carrying the fight to the flies, Mrs. Claytor suggest attacking

Clean FALSE TEETH THIS EASY WAY . . .

At last, a scientific way to clean false teeth and bridge work REALLY clean. Just put your plate in a glass of water to which a little quick-acting Kleenite has been added. Kleenite has been added. With magic-like speed, discoloration and stains vanish—the original clean brightness returns! It's easy, economical. Ask your druggist for Kleenite today.

I GIVE YOU TEXAS

A true incident (when this writer was police reporter in Memphis, Tennessee): A negro about to board a train for the penitentiary comforted his wife with, "Don't cry, honey; I'll serve dis 14 years in a jiffy an' be back wid you."

Speaking not long before the Panhandle-Plains Historical Association annual dinner, this chronicler remarked:

"History is not the exclusive property of the Ph. D.'s—much less of the writer of that most unread and unreadable production of the human brain; the master's thesis.

"Nor is history soely an account of things of long ago. History is anything important and significant which has happened. It might have been in 1942 or it might have been yesterday.

"And history is not just the doings of generals and politicians. Wherever men have planned and played and plowed, whatever they have smiled and sung and splendidly swaggered, wherever men and women have wooed and wed and worked and wrought and worshipped, wherever they have dreamed and died—there is history.

"Texas history is not something that is past and dead but is a mighty, living force projecting itself into the present and profoundly affecting the future.

"I am not one of the Coronado addicts. He was picturesque, all right, in his armor, hunting for non-existent cities of gold—but I see no need to spend a lifetime trying to decide whether he camped for a single night three miles west or six and a quarter miles east of the present city of Abilene.

"To me, there is more romance in the weather-beaten countenance of a Texas rancher and there is more nobility in the heroic features of a ranch wife and mother—a couple who, with raw courage and bare hands, despite northern, sand, wind and sun—or perhaps because of these challenging conditions—wrought in the wilderness a civilization that is richer in dollars and infinitely richer in human values than the seven golden cities that Coronado sought—even if they had existed."

A sign in front of a confectionery in the little city of Blanco reads: "48314 San Pedro Avenue."

Could it be that the city limits of San Antonio—(San Pedro is a street in that city)—are striving to become as all inclusive as the city limits of Los Angeles?

"The Dog House" is the name of an establishment in the Alamo City. You can buy food for your dog there.

Do you remember that a while back there was a great hue and cry for a special session of the legislature to "do something" about the deficit in the State's general fund and that this writer opposed a special session on the subject because, partly, it would cost several hundred-thousand dollars of the taxpayers' money and mainly, because the deficit would wipe itself out in a short time?

Well, bib you read in the papers the other day where the deficit has been cut \$21,000,000 during the past year and is now only \$831,000 and would be wiped out entirely in a few months?

The hill country was radiant with wild flowers after the rains when this observer made a bus trip through the region recently. Between Marble Falls and Burnet, there were yellow flowers with a black center; others with pink petals that faded until the tips were lemon colored; then there were slim stalks with yucca-like blooms; tiny white flowers, and others that were blue, and there were tall stems that were tipped with crimson blossoms, and even the cactus had yellow blooms. What with the hills and trees and winding highway and rivers and valleys and the browsing flocks of goats and sheep, that really is a delightful section.

An Irishman, newly-arrived in the United States, wanted to buy a clock and the salesman showed him a cuckoo clock, something Pat had never seen before. "How do you like it?" the salesman asked. "I wouldn't want that one," Pat answered. "It's enough trouble winding up a clock without havin' to feed a bird."

It is stated in the daily press that 70,000 barrels of West Texas oil is shipped to California daily to meet the needs of the armored force in the Pacific, as well as civilian use on the west coast.

their origin. Destroy all breeding places; keep the yards clean; use sprays; have a sanitary toilet and lastly, have every member of the family trained to use the swatter

Good for Home Consumption

It has remained for Eric Johnston, President of the United States Chamber of Commerce, to lead the way in championing the American system of private enterprise. Instead of belittling our system as outmoded, as is too common a political practice here at home, Mr. Johnston, at a luncheon given him in Moscow by the Soviet Trade Commissar, said:

"In economic ideology, the practice of my country is different from yours. You are state-minded collective-minded. We are most private-minded and gentlemen, make no mistake, we are determined to remain so or even to become more so.

"I think each of our two countries should be allowed to pursue its own economic experiment, unimpeded by the other." Speaking of a "gulf" between the nations, he said: "Three bridges of practical cooperation can be thrown across it: (1) Our common determination to bring Hitler and fascims to an end; (2) Our common passion for production; (3) The bridge of export and import trade." The Russians applauded his speech and Trade Commissar Mikoyan congratulated Mr. Johnston.

We need more men like Johnston praising our own country and American private enterprise. Too many of our politicians are pussyfooting on this subject, while injecting government further and further into the affairs of private citizens, thereby limiting individual opportunity. Mr. Johnston can do missionary work at home as well as in Russia.

State's Rights received another jolt at the hands of the New Deal Supreme Court. By a vote of 4 to 3, with two members of the court not participating, insurance is declared interstate commerce and therefore due to be regulated through the bureaucrats of Washington, rather than through the 48 states. It is unfortunate that all nine members of the court did not participate in the decision. The fundamental point in the case is that the standing rules of the Supreme Court during 75 years were over-ridden in this decision. Those who watched the trend of transfer of authority from the various states to federal control need not be surprised. The federal government is rapidly supplanting local government, whether you like it or not. The fact that there are more federal employees in every state in the union today than there are local and state employees indicates how rapidly centralized government is taking over in this nation. You may tear your hair and denounce the encroachment of the federal government on local government, but the fact remains that the federal government is going to continue to grow stronger while local government yields its various functions. The New Deal has encouraged such a movement. But regardless of who
