Hospital Gets New Equipment

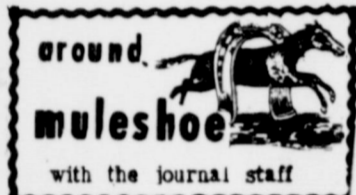

The West Plains Medical Center was the recipient of a Flame Photometer which measures the amount of sodium, potassium, and chlorides in the human body recently from the Hospital Auxiliary.

Dr. Gary Albertson explained that the above mentioned elements are called electrolytes and are necessary constituents of the blood, body tissue and fluids. These electrolytes can be disturbed by medication, vomiting, diarrhea and other illnesses. "With an imbalance of electrolytes, the body organs, heart, lungs, etc., cannot function properly," Dr. Albertson said.

"This instrument which has been purchased will help immensely in the diagnostic workup and thereby provide better health care," stated the doctor. The Flame Photometer was purchased with proceeds from Project Christmas Card, sponsored by the Hospital Auxiliary. This piece of equipment works hand in hand with the Blood Gas Analyzer.

HOSPITAL RECEIVES EQUIPMENT . . . Mrs. Joyce McGehee of the Hospital Auxiliary, West Plains Medical Center, is shown with John Wardrip, chief lab technician and the new piece of equipment purchased for the hospital by the Auxiliary. The equipment is a Flame Photometer, which works hand in hand with the Blood Gas Analyzer, and is a great help in the diagnostic workup. It will help provide better health care.

The Guadalupana Society will sponsor a bingo social at the Catholic Center, Sunday, February 15, beginning at 3:30 p.m. Prizes will be given away and refreshments will be furnished. Everyone is urged to attend.

A Valentine Dance will be held Friday, February 13, at 8:00 p.m. in the Catholic Center, sponsored by the C.Y.O. Tickets will be \$2.50 a person or \$5.00 a couple.

Dance contests will be held all during the evening. Boxes of Valentine candy will be given away to the winners. The public is urged to attend.

Student guests at Rotary this week were Kyle Kimbrough, Terry Gunter and Charlie Duval. The Rotarians plan to hold their Sweetheart Banquet on Tuesday at the Methodist Fellowship Hall.

Mrs. Winnie Huff, formerly of Muleshoe and now living in Plainview, received word from her son, Don, who is a 1968 graduate of Muleshoe High School and now working for

Nine Indicted By Grand Jury

Nine persons were indicted by the Grand Jury in Bailey County when it was in session, January 28. Four have been arrested and five remain to be picked up.

Bob Kimbrough was indicted for theft; Ronnie McDonald, for forgery by altering an instrument in writing and also for forgery by passing; Carlos Garcia for possession of marijuana and Roy Rufus Ogerly, III for theft.

Four other persons were indicted for theft, but have not been picked up by the law enforcement. Their names will be released when they have been apprehended.

School Board Sets Dates For Election, Picks Judges

Members of the Muleshoe Independent School District Board of Trustees reviewed and approved calendar dates for the annual School Board Election. They designated the High School Cafeteria as the polling place on April 3, 1976 between the hours of 8 a.m. and 7 p.m. They also designated Absentee Balloting be at the Bailey County Clerk's office at the court house.

Ernest Kerr was appointed election Judge and Manuel Balderas was named Deputy Election Judge. The Board approved the pay for clerks, the Election Judge and Deputy Judge at the minimum wage.

Absentee balloting shall begin on Sunday, March 20. The law requires that absentee voting shall begin on the 20th day and

shall proceed through the fourth day preceding the date of the election. The 20th day is Sunday, March 14.

The Trustees also approved the rescinding of the present Student and Teacher Pregnancy Policies, in order to meet the regulations of Title IX Civil Rights Act. They then approved new Student and Teacher Pregnancy Policies which read:

STUDENT PREGNANCY-Girls that are pregnant upon enrollment in school or who become pregnant while enrolled in school, must report their condition immediately to the Principal.

As a matter of policy and for the protection of each pregnant student, the Principal shall require the student to immediately obtain from her physician a

written statement relative to her physical condition. This statement shall include as a minimum: condition of health; restrictive activity; school attendance will not be detrimental to the student's health.

If a pregnant student is participating in curricular and/or extra-curricular activities, off campus, she must obtain a statement from her physician prior to the activity or trip, that the activity and/or trip will not endanger her health.

TEACHER PREGNANCY-Women teachers who are pregnant at the beginning of school or become pregnant during the school year must report their condition immediately to the Principal and/or the Superintendent of Schools.

As a matter of policy and for

the protection of the pregnant teacher, the Principal and/or the Superintendent shall require the teacher to immediately obtain from her physician a written statement relative to her physical condition. This statement shall include: condition of health; restrictive activities; teaching assignment will not be detrimental to her health; other periodic statements from her physician relative to the general physical and emotional condition as requested by the Principal and/or Superintendent.

Leave of absence will be treated the same as any other illness or accidental injury and considered by the Board of Trustees.

Any absence from duty as a result of pregnancy will be handled as specified in the

Reeder Reports On Fire Calls For 1975

H.E. Reeder, Chief of the Muleshoe Volunteer Fire Department, reports average attendance of firemen at their meetings during 1975 was 32 while the average attendance at each fire was 16 men.

Easter Seal Rep Named For '76

J. Crawford, Muleshoe will lead the 1976 Easter Seal Appeal in Bailey County, it was announced by Irving A. Baker of Dallas, President of the Easter Seal Society for Crippled Children and Adults of Texas.

Residents in the county will receive the traditional Easter Seal Appeal letters beginning March 1. The Easter Seal Appeal is conducted each Spring to provide disabled persons and their families treatment and service. It will continue through Easter Sunday, April 18.

Mr. Crawford is one of 234 men and women through out Texas who serve in this capacity to help meet the cost of the statewide Easter Seal program, which assisted 10,768 handicapped Texans in 1975.

The Texas Eastern Seal Society and its statewide network of

Cont. on Page 3, Col 1

Mahon To Speak At Gas Meet

The Honorable George Mahon will be the principal speaker at an area meeting of farmers to be attended by all commodity groups, sponsored by Plains Irrigation Gas Users, to be held at the high school auditorium at Dimmitt, Texas at 3:00 p.m. Friday, February 13, 1976. Mr. Mahon worked hard and assisted farmers in trying to secure a No. 2 priority, and proper tribute will be paid to Mr. Mahon at the area meeting, not

only by the gas users, but by representatives of many farm commodity groups.

The Board of Directors requested Mr. Ray Joe Riley of Castro and Lamb Counties to address the area meeting with regard to costs of production of our various commodities. The Board has concluded that something must be done about price, and Mr. Riley has done considerable research as to the cost of growing the principal crops

ing 187 miles for these fires.

Even though the department is the Muleshoe Volunteer Fire Department, working for the county, they answer calls out in the city and answered 72 rural fire calls during 1975. Eleven hundred and fifty-two man hours were spent fighting county fires and they traveled 3273 miles for these fires.

All together, the local firemen spent 4240 man hours fighting fires during 1975. The mileage mentioned above did not consider the Fire Chief's vehicle.

According to the fire chief, January and February are usual

Cont. on Page 3, Col 3

Former City Woman Is Sworn In

Mrs. Larry (Glenda) Terrell, former resident of Muleshoe, has been sworn in as Deputy Clerk by Chief Justice Austin McCloud of the Court of Appeals for the Eleventh Supreme Judicial District of Texas. She is the daughter of Mr. and Mrs. C.W. (Jack) Calhoun of Route 1, Muleshoe.

This will make her Deputy Clerk for the Court of Civil Appeals located in Eastland, Texas. Mrs. Terrell has been employed by this same court as Court Stenographer for the past three years.

Prior to her employment as Court Stenographer, she worked

Cont. on Page 3, Col 2

MRS. LARRY TERRELL

Champions Named In Jr. Livestock Show

Belinda Richardson, daughter of Mr. and Mrs. Homer Richardson of Maple showed the Grand Champion Lamb during the Bailey County Junior Lamb Show held in Muleshoe on Thursday, February 5 at the High School Bus Barn. Belinda attends Three-Way School and showed the Grand Champ in the 98 pound Heavy Weight Class. Both FFA and 4-H Club members participated in the show.

Reserve Champion Lamb was from the Light Middle Weight Class, 94 pounds and was shown by Mitzi Robertson, daughter of Mr. and Mrs. Robertson of Enochs.

4-Hers Bring Home Honors From Show

Several Bailey County youngsters attended the Fort Worth Fat Stock Show, January 30 and 31. Spencer Tankley, Bailey County Extension Agent feels they did fairly well.

Jacinda Gleason brought home a second place when she showed her cross breed weighing 995 pounds. Nicky Bamert's cross-bred, weighing 1320 brought home a third. Stacy Kirby's 980 pound crossbred netted him a third while Nicky Bamert's 1080 pound cross copped a fifth place.

Cont. on Page 3, Col 4

MET Won't Use Catholic Center

Luis Esparza, Project Director of Manpower Education and Training (MET), who is in Muleshoe to set up a Day Care Center for children of Migrant and other Farm Workers has stated that though the Catholic Church made a proposition to his organization for leasing a portion of the Catholic Center, MET was unable to work anything out with them and they will not be leasing the Catholic Center for their project.

Esparza says MET plans to find another location in Muleshoe for their Day Care Center.

Cont. on Page 3, Col 7

Brucellosis Info Shared By County Agent

Information received by Bailey County Extension Agent Spencer Tankley from James M. Armstrong, Extension Veterinarian, Dr. H.Q. Sibley, Executive Director of the Texas Animal Health Commission, indicates that the temporary injunction decision reached in Castro County District Court on January 8 will insure uninterrupted movement of cattle into and out of Texas.

According to Texas Animal Health Commission Chairman Norman Moser, the postponement of the quarantine should

give the commission ample time to adopt a satisfactory set of regulations and begin operating the Texas brucellosis program in compliance with USDA standards.

At present, the brucellosis regulations will continue to effect and in addition all "exposed" cattle going from markets to slaughter or to quarantine feed lots will be required to be branded with an "S" on the left jaw. If the owner does not desire to ship exposed cattle to slaughter, they will be allowed to return under quarantine to

Reeves, eighth and Connie Waggoner, ninth.

FINE WOOL CROSS - Orvis Burris placed first; Jerry Waltrip, second; Robin Reeves, third; Wayland Barker, fourth; Wesley Rasco, fifth; Dwayne Shafer, sixth; and Orvis Burris, seventh.

MEMORIAL SHOWMANSHIP AWARD . . . Darrell Rasco, son of Mr. and Mrs. Odell Rasco, of Muleshoe, won the Jimmy Dale Black Award, which represents showmanship through the whole show. Rasco won this honor during the Bailey County Junior Livestock Show held Thursday, February 5 and Friday, February 6.

FINE WOOL LAMBS - First place in this division went to Mitzi Robertson; second to Connie Richardson; third, Darrell Rasco; Shannon Kennedy placed fourth; Glenda Rasco, fifth; Edwin Reeves, sixth; Mark Rand, seventh; Kevin

Reeves, eighth and Connie Waggoner, ninth.

Bula News

By **Mrs. J. Blackman**

Three-Way boys and girls played Bledsoe Tuesday night at Bledsoe. Three-Way girls won their game and the boys lost their's.

Mrs. Edd Ray had a very Happy Birthday Sunday in observance of her 83 birthday. At noon their son and wife, Mr. and Mrs. Jerry Ray took them to the Corral, in Muleshoe, for dinner. Sunday night after services at the Sudan Church of Christ, every one sang "Happy Birthday" to her.

They Mr. and Mrs. T.L. Harper and Mr. and Mrs. Wayne Swarts and daughter, Kathy, came home with them from church. They all had birthday cake and cokes. Another surprise was a potted plant wired to her from her nephew and wife, Mr.

and Mrs. Ray Jenkins, of Fort Worth. Everyone wished her many more happy birthdays.

Mr. and Mrs. Richard Black had a guest in their home, Mr. George Leon, from Mexico City. He arrived on Thursday staying until Tuesday. Richard and his sons, James and Huston Black, met Leon about two years ago, when they were doing some sight seeing and touring in Mexico. Leon teaches English in a Mexico City college. He also is associated with commercial colleges there. He was here to check and visit with the commercial colleges in this area.

On Friday evening while he was there, the Blacks asked a few friends to get acquainted with him. They were Mr. and Mrs. Jimmy Cannon, Mr. and Mrs. Larry McCain, Mr. and Mrs. Jerry Ray and Mr. and Mrs. H.M. Black.

Tommie Gaston, has been visiting with her parents, the Tom Bogards and with Mrs.

Gaston, a resident of the Muleshoe Nursing Home, for the past two weeks. She left for her home in Junction, Monday morning.

Sunday, Mr. and Mrs. Bogard drove to the home of their daughter, Mr. and Mrs. Ray Kennison, of Olton. Mrs. Bogard attended a concert with her granddaughters, Kim and Dusty Kennison, at the Methodist Church in the afternoon. Her daughter, Mrs. Kennison, and Mrs. Gaston stayed at home with their father. This was the first time Bogard has took this long of a ride, since his heart attack several weeks ago.

Mr. and Mrs. Hoyt Tiller of Truth or Consequences, N.M., spent the past week in the home of their son and family, the Dewitt Tillers. The Tillers have recently retired and are doing some visiting and traveling.

Mr. and Mrs. J.D. Rowland spent Saturday night visiting

with his brother, Mr. and Mrs. H.W. Rowland of Littlefield. He also visited with the Kenneth Rowlands from Dallas, who were visiting in the home of his parents.

Visiting the past week with the H.M. Blacks were her grand-son, Stacy Smith, of Lubbock.

Mr. and Mrs. Paul Young spent Saturday night and Sunday in the home of his brother and wife, Mr. and Mrs. Richard Young, of Lubbock. Others attending were Paul's and Richard's two sisters and husbands, Mr. and Mrs. Charles Henry from Troy, Michigan and Mr. and Mrs. Burt Killingsworth, from Roby.

Sunday they all attended a family get-together at the Young's home. Others present were Mr. and Mrs. Roy Young, of Littlefield; Mr. and Mrs. Dan Hook and children, David and Laura, of Levelland; Mr. and Mrs. Moody Meixner and daughter, of Lubbock; and Mrs. Tommy Kirk of Bula. Mr. and

Mrs. Henry drove home with the Paul Youngs late Sunday afternoon and spent until Monday afternoon with them.

Mr. and Mrs. L.H. Medlin visited over the weekend with their son, Dennis and family, at Corsicana. Friday night, on their way down, they spent the night with his niece and husband, Mr. and Mrs. Rick Whittmann, at Nocona. Her parents, Mr. and Mrs. Buddy Medlin of Amarillo, happened to be visiting with them. They all had a real nice time together.

The Nolan Harlans daughter and husband, Mr. and Mrs. Rodney Marshall of Whitharral, are spending this week doing mission work for the Church of Christ, in the vicinity of Shiprock, N.M. The church is made up there of 90 percent Indians. They are staying in the home of Mr. and Mrs. McPhearson. He is minister of the church in Shiprock. Rodney is a student at the Sunset School of Preaching in Lubbock, and this is their

break week.

Mr. and Mrs. Jeryl Bellar and son, Jeryl Jr., spent the weekend at Dimmitt with her sister and family, Mr. and Mrs. Glenn Mahew. Little Miss Margie Gail Mahew, three year old daughter of the Mahews came home with the Bellars for a visit of several days.

Jackie Withrow, who lives and works in Muleshoe, came home Thursday night to spend the night with her parents, the J.C. Withrows. Friday morning she awoke with the mumps. She has been confined to her bed most of this week.

A.P. Fred underwent surgery Wednesday afternoon at the Lubbock Methodist Hospital. The results of the surgery is not known at this time. Other than his children, Mr. and Mrs. W.R. Adams and Mrs. A.M. McBece went down to be with the family. In the past two years, Fred has been in ill health and underwent several operations. We hope

this one will correct his problem.

Mrs. Goldie Nixon of Lubbock drove out Sunday and ate lunch with her mother, Mrs. Pearl Walden and they had a good visit, in the afternoon.

Mrs. L.E. Pollard was able to be removed from the Lubbock Methodist Hospital this past week where she had spent several weeks after undergoing hip surgery. Both Mr. and Mrs. Pollard spent the past week with their son, Mr. and Mrs. Loyd Pollard. Tuesday of this week, they entered the Roberts Nursing Home at Morton, where they both seem very happy.

Visiting with them, the past week were Mr. and Mrs. Larry Pollard of Tahoka, Mr. and Mrs. Lamar Pollard of Levelland, Mr. and Mrs. Carl Pollard of Stegall and Mr. and Mrs. Maurice Tow, of Littlefield.

Mrs. Hills sworn-in to Cabinet post.

THE HOPE DIAMOND
WASHINGTON--The famed Hope diamond has been re-weighed with metric calibrations and declared heavier than when it was last weighed in the 1830s. A Smithsonian Institution curator said the diamond was found to weigh 4 1/2 carats instead of 4 1/4 carats.

CANADA & OIL
OTTAWA, CANADA--Canadian crude oil exports to the U.S. will be slashed by one-third to 510,000 barrels a day on Jan. 1 and to 385,000 barrels later in the year, Energy Minister Alastair Gillespie said.

DERBY'S NEW LIFE
AKRON, OHIO--The All-American Soap Box Derby got a new lease on life with a \$165,000 financial transfusion and its first national sponsor in three years.

Prices good Feb. 12-14, 1976. We reserve the right to limit quantities. None sold to dealers.

Hostesses will be Miss Joyce Harbison, Mrs. Tootsie Stalling, Mrs. Don Murphy, Miss Ginger Gober, Mrs. Henry Spicer, Mrs. Pat Kunselman, Mrs. Edward Isaac, Mrs. Glenn Hromas, Mrs. Floyd Damron, Miss Rhonda London, Miss Fontella Cox, Miss Tammy Damron and Mrs. Joe Cox.

By Sarah Anne Sheridan
Hopping John

- 1 c raw cow peas (dried field peas)
- 4 c water
- 2 t salt
- 1 c raw rice
- 4 slices bacon
- 1 medium onion, chopped

Boil peas in salted water until tender. Add peas and 1 cup of the pea liquid to rice, add crisp bacon and drippings, and onion, which were cooked together. Put in rice steamer or double-boiler and cook for 1 hour or until rice is thoroughly done.

Library News

By Anne Camp

The Muleshoe Area Public Library is proud to announce the arrival of a large collection of adult books for the readers of this area to read. Some 390 books are going on special shelves for circulation. Books of every kind, sure to please the taste of all the readers. This is the initial shipment of the McNaughton Book service - and best of all - to follow will be 30 new books every month!

The library will return 30 books a month on a revolving basis. These books are all recently published, many best-sellers of both fiction and non-fiction. Everyone is urged to come and preview this collection, while there are so many to select from.

This book service is totally financed by the Texas Library Network through the Lubbock Area Library System of which the Muleshoe Area Library is a member.

Wrong Cure

"Well, Doc, you sure kept your promise when you said you would have me walking in a month."

"Good, I'm glad to hear that."

"Yeah, I had to sell my car when I got your bill."

Mother's Employment Cost

COLLEGE STATION -- A mother's work outside the home can cost money -- leaving only part of her paycheck for added family income. Mrs. Linda McCormack, a family resource management specialist, says.

If financial need is the major reason for a mother working outside the home, she should first consider her actual dollar contribution -- after all employment costs are subtracted.

Mrs. McCormack is with the Texas Agricultural Extension Service, The Texas A&M University System.

Golden Gleams

We are bound to our bodies like an oyster to its shell.

-Plato.

The body of a man is not a home but an inn -- and that only briefly.

-Seneca.

The body of man is a machine which winds its own springs.

-J.O. De La Mettrie.

A healthy body is a guest-chamber for the soul; a sick body is a prison.

-Francis Bacon.

ment may include these expenses:

- Child care: babysitter, nursery school or day care center.
- Transportation: family car, public transportation, a carpool.
- Clothing: new, special uniforms, cleaning and upkeep.

- Food away from home: restaurant, cafeteria, brown bag lunch; coffee breaks.
- Food at home: more convenience-type items.
- Hired help at home: cleaning, laundry.
- Office gifts: contributions; special group lunches or outings.

- Dues: unions, professional or business organizations.
- Extra training: courses to brush up on skills or knowledge.
- Also, payroll deductions for federal income taxes, social security pension or other retirement funds, and often insurance fees have to be considered," Mrs. McCormack noted.

West Plains Hospital Hospital Briefs

ADMISSIONS

February 6 - Sofia Vega, Sean Roberts and Linda Nowell.
February 7 - Josie Baca, LeAnn Wisian, Monalisa Quesada, Angelita Quentella and Charles Green.

February 8 - Pearlle Hoskins, Wayne Ware, Cecil Roark and Craig Smyer.

February 9 - Monty Foster, Mrs. M.L. Carpenter, Willie Phillips and Orlando Chavez.

DISMISSALS:

February 6 - Mrs. J.R. Carpenter and Franklin Lech.

February 7 - Mrs. Lino Martinez and daughter and Ben Foster.

February 8 - LeAnn Wisian, Josie Baca, and Angelita Quentella.

February 9 - Sean Roberts, Beth Boren, Charles Green, Elmer Downing, Lottie Moss, Felcano Reyes, Kim McDonald, Martha McCormick and Wayne Ware.

Get Garden Seed Fertilizer Now

COLLEGE STATION -- Don't wait until the last minute to get seed and fertilizer needed for your spring garden, advises the Texas Agricultural Extension Service.

The demand for garden goods and supplies is expected to increase next spring and may make some supplies short. This is particularly true for seed of some of the more popular home garden vegetables.

One of the most important aspects of successful vegetable gardening is using good viable seed for recommended vegetable varieties for your county. Proper varieties should be planted to insure success. Many gardens are failures simply because poor seed of non-recommended varieties are used. A list of recommended varieties for this county is available

at the county Extension office. Varieties recommended by the Texas Agricultural Extension Service are based on commercial as well as garden plantings and are the results of several years of testing.

With regard to garden fertilizers, the Texas Agricultural Extension Service says that most gardeners could probably use less fertilizer and still do well. However, fertilizer usage should not be cut back without taking a soil test. A soil test is the best basis for garden fertilization and will go a long way toward insuring the success of a home vegetable garden. A soil test kit can be obtained from the county Extension office.

For a productive garden in 1976, fertilize properly and plant recommended varieties.

PERFORMANCE AWARD . . . Mrs. Jess (La Verne) Winn was awarded the Texas ASCS Office Award for High Quality Performance, for her outstanding work in the Bailey County ASCS office during the year 1975. There were only three of these awards given in this area according to John Fuston, Mrs. Winn is the mother of three girls and one son and has worked at the local office since June, 1969. Prior to moving to Muleshoe, she started working for the ASCS office in 1961 in Crosby County. Fuston, shown with her, says she is a tremendous asset to his office and he doesn't feel there could be a more deserving person for the award. She is the wife of Jess Winn, manager of Pioneer Natural Gas in Muleshoe.

Activities Involve Everyone

Some of the activities going on at the Muleshoe Church of Christ are a new radio program which began last Sunday and will continue each Sunday morning at 8:45 a.m. It is called "Speaking The Truth In Love". Minister Royce Clay will be the main speaker and the program is sponsored by people of the church.

Last Sunday at noon, the congregation held a fellowship dinner in the church to celebrate retiring the indebtedness on the church building and the ministers home.

Sunday evening, the teens of the church attended worship service in the Central Church of Christ in Canyon. During the evening worship service Scott Baker led the singing.

Others involved with the services were Mike Wilkinson, Monte Vandiver, Royce Don Clay and Brad Baker. These boys presented short devotional

messages during the service. Afterwards, the church hosted the young people with drinks and sandwiches.

Simple Steps To Make Screen Replacement

COLLEGE STATION -- Screen repairs are simple and economical, especially because of the added convenience of well-kept screens on doors and windows to provide adequate ventilation -- and to prevent insects from coming indoors. Screen repairs can be complete screen replacement, Denise Beigbeder, a housing and home furnishings specialist, says.

She is with the Texas Agricultural Extension Service, The Texas A&M University System. She recommends the following tool-supply list to replace screens: screen wire fabric (roll or patches), screen staples or tacks, bedding strips or spline (for metal frame units), scissors, pliers, a screwdriver and hammer.

difference accounts for the variation in repair procedure.

Use screen staples or tacks to secure wire fabric to a wood frame.

A round flexible strip of plastic or rubber is used on most metal units to secure the wire fabric to the frame. This strip, called a "bedding strip" or "spline", holds the wire fabric in a channel around the sides of the frame.

There are essentially eight steps to screen replacement. In the following steps, when wood and metal procedures are different, instructions will be so designated.

Texas Ranks Third In Honey Production

AUSTIN--Texas ranked third in the nation in honey production and in the number of bee colonies during 1975, Agriculture Commissioner John C. White has announced.

The 100 commercial beekeepers in Texas added more than \$6 million to the state's economy during 1975, White said.

Honey production increased from only 10,290,000 pounds in 1974 to 12,896,000 pounds in

Step 1 -- Prepare work area. Remove screen frame from door or window. Place on smooth, flat surface. Assemble supplies.

Step 2 -- Remove old screen from frame.

For wood, with screwdriver, carefully pry up quarter rounds and moldings. Remove old staples, tacks and brads from the frame. Discard worn wire fabric.

For metal, carefully lift up cut end of bedding strip. Slowly pull strip straight up. The strip may be used again if undamaged, or a new bedding strip or spline may be purchased, if necessary.

Step 3 -- Measure opening and

cut replacement fabric.

For wood, cut wire fabric on grain -- six inches longer and three inches wider than opening. This allowance is needed for pulling the fabric tight across the frame.

For metal, cut wire fabric on grain -- three inches larger in each dimension than opening.

Step 4 -- Position screen fabric on frame.

For wood, without bending or folding the screen, carefully lay it across the frame. The screen fabric should extend about one inch beyond the top opening and one and one-half inches beyond each side. The grain of the wire fabric should be parallel to the sides of the frame.

For metal, with chalk and ruler, mark a straight line half an inch from the edge along one long side of wire fabric. Position the chalk mark on the fabric

over the channel on one side of the frame.

Step 5 -- Attach screen fabric to frame.

For wood, insert screen staples or tacks across the top of the frame every two inches. Then stretch screen fabric from top to bottom of frame and attach fabric in same manner as for top.

To pull fabric tight lengthwise on frame, place a board at a 45-degree angle against the bottom of the frame. Tack or staple wire fabric to edge of board so when board is pressed flat against work surface, the wire fabric is stretched taut from top to bottom.

After securing top and bottom of wire fabric to frame, tack or staple sides every two inches. Attach fabric to center rail last.

For metal, with a screwdriver or special tool, seat bedding strip and edge of wire fabric down into metal channel.

Pull screen fabric taut across the frame and secure the other side in the same manner. Be careful not to pull wire fabric so tight that it splits when forced into the channel.

When both long sides are in position, secure top and bottom by forcing wire fabric and bedding strip into channel.

Step 6 -- Trim excess wire fabric. With sharp knife or scissors, remove excess wire fabric. Trim close to staples (for wood) or bedding strip (for metal).

Step 7 -- Attach moldings or quarter rounds -- this step concerns wood frames only. With new brads or small finishing nails, attach original moldings or quarter rounds. Touch up damaged areas with paint if necessary.

Step 8 -- Rehang window or door screens. Return windows or door screens to their original locations.

Business Sense

Mother--Well Eddie, did you tell little sister choose which one of the two apples she wanted?

Eddie--Yes, mamma, I told her she could choose between the small apple or none at all, and she chose the small one.

Non-Resident Indigent Care Hearing Set

E.L. Short (D-Tahoka), Chairman of the House of Representatives Committee on Intergovernmental Affairs; and Ed Mayes (D-Granbury), Chairman of the Subcommittee on Local Government, today announced that a public hearing will be held by the Subcommittee in Brownfield, Texas on February 9, 1976. The hearing will be held in the Terry County Courthouse and will begin at 10:00 a.m.

The main subject of the Brownfield hearing will be the problem that Texas Hospital Districts are having in the area of non-resident indigent care. The Subcommittee is attempting to formulate a plan which would allow hospital districts to recoup their losses resulting from the care given to non-residents who are unable to pay. A previous meeting on this subject was held in Ft. Worth.

The members of the Subcommittee include Latham Boone (D-Navasota), Anthony Hall (D-Houston), Dick Reynolds (R-Dallas), and Doyle Willis (D-Ft. Worth). Chairman Mayes invites all interested citizens, groups, and organizations to attend the hearing.

God moves for the good of the world when the good people of the world move in the same direction.

Little Fertilization Required By Trees

Shade trees seldom require supplemental fertilization in lawn areas where a good lawn maintenance program is followed. Fertilizing trees once every three years is generally sufficient except in sandy areas, points out Spencer Tanksley, county agent for the Texas Agricultural Extension Service.

Over-fertilization of trees can force excessive top growth, making them vulnerable to storm damage. Over-fertilization is especially probable if a tree's root zone is confined to a limited area and this fact is overlooked.

The safest method of computing the amount of fertilizer to apply to a tree is this: figure the number of square feet included in the branch spread of the tree and then use two pounds of actual nitrogen per 1,000 square feet. For example, a tree having a 36-foot branch spread would cover about 1,000 square feet. This would require 24 pounds of a complete fertilizer with an analysis of 8-8-8 to supply two pounds of actual nitrogen required (24 x .08 is 1.92). A fertilizer analysis of 16-20-0 would require 12 pounds of the material to supply the needed nitrogen. The same complete fertilizer recommended for lawn use will be satisfactory for fertilizing trees in the county, notes Tanksley.

Xi Omicron Xi Make Plans For Valentine Ball

Xi Omicron Xi Chapter of Beta Sigma Phi met Tuesday, February 3, in the 16 and Avenue D Church of Christ Fellowship Hall. Mrs. Joe King and Mrs. Paul Poyner were hostesses for the meeting.

The business meeting was conducted by the President, Mrs. Paul Poyner. A report was given on plans for the Valentine Ball which will be held February 14, in the Catholic Center.

The program "Never Underestimate the Power of a Woman" was presented by Mrs. John Neal Agee and Mrs. Curtis Walker.

Refreshments were served by the hostesses to Mrs. Curtis Walker, Mrs. Eric Smith, Mrs. Spencer Tanksley, Mrs. Doyce Turner, Mrs. Marcia Henry, Mrs. Max King, Mrs. John Neal Agee, and Mrs. Charles Pummil.

If a tree's zone is confined due to buildings, curbs, walks or streets, compute the fertilizer application on the basis of actual root zone. If the root zone area of the tree in the above example is 22 feet by 20 feet, then the fertilizer application would be based on 240 square feet rather than 1,000 square feet. Thus only one-fourth as much fertilizer would be needed. More frequent applications may be needed when root zones are confined, points out Tanksley.

Normally, trees should be fertilized in late winter or early spring. However, trees with restricted root systems can be fertilized a second time in late fall.

Broadcast the fertilizer evenly beneath the branch spread of the tree and then water thoroughly. Without moisture the tree roots cannot utilize the nutrients, emphasizes Tanksley.

More detailed information on fertilizing trees and shrubs is available at the county Extension office.

It's surprising how much time one thinks he will have tomorrow.

10 Years Ago

Muleshoe Jaycees were well represented at last Friday night Charter night for the Morton Jaycees. Going from here to the banquet were: Muleshoe Jaycee President and Mrs. Kenneth Henry, Dr. and Mrs. Jerry Gle-Walker, Mr. and Mrs. Jimmy Lane, Ted Weaver, Janette Slayton, Bob Stovall, Roger Gorrell, Ed Wuerflein and Carl White.

Kenneth Lowe of the Lazbuddie community, has received his private pilots license at Muleshoe Airport. The license was granted by Morgan Locker.

Deadline for entering the Lazbuddie PTA sponsored Volleyball tournament is February 21 and persons interested in entering were asked to contact Mrs. Wayne Hardage. The tournament will start February 28.

Mrs. George T. Andrews, Mrs. Alex Williams' mother, is in Muleshoe for a visit. Mrs. Andrews came to Muleshoe from New York for her granddaughter's installation as Worthy Advisor in the Order of the Rainbow for Girls here Saturday night.

20 Years Ago

Judge and Mrs. Glen Williams of Muleshoe and their daughter and husband, Mr. and Mrs. Virgil Phipps of Friona, attended the basketball games at Three-Way Tuesday evening. Old friends and neighbors were happy to have them come back "home".

30 Years Ago

Johnson Furniture, Red Johnson proprietor, is announcing this week that they will have their Grand Opening next Thursday, February 16. Watch for their big ad next week with its important announcement of free prizes and special reductions of famous brand furniture. Special representatives of the name brand furniture will be present to help. Mr. Johnson with his big opening. Read his ad on another page of this issue.

Mr. and Mrs. Spencer Beavers and family attended the Ft. Worth Fat Stock Show and Exposition the past weekend.

Mr. and Mrs. E.E. Holland were house guests Sunday in the Bill Rutherford home, near Progress.

Mr. and Mrs. A.J. Fyie, of Alamogordo, N.N. were weekend guests in the home of her parents, Mr. and Mrs. A.F. Robertson.

Mr. and Mrs. J.L. Matlock and little son, Gary, of Sundown were guests Sunday of Mr. and Mrs. J.M. Forbes.

Mr. and Mrs. Buck Wood spent Sunday in Dimmitt with her parents.

Mr. and Mrs. A.E. Scarbrough and children spent Sunday in the home of Mr. and Mrs. Leroy Nelson of Clovis.

Miss Reola Bates of Elwood, Oklahoma, is visiting this weekend in the home of Mrs. F.L. Wenner.

Mr. and Mrs. George Johnson and daughter, Margaret, Billye Jenkins and Mrs. Nona Faye Precure visited in Lubbock Sunday with Sidney Dell Johnson.

Girl Scouts Cookie Sale Has Started

Girl Scouts of the Caprock Council began their annual cookie sale, Friday, January 30 and will sell through February 15. Mrs. W.C. Griggs, of Lubbock, Caprock Girl Scout Council President, has announced.

Cookies are on sale in the 18-County Council at \$1.25 per box. Nearly 6,000 girls are selling one cracker and five kinds of cookies offered this year. Varieties are Sesame Crisp Cracker, Mint, Lemon Creme, Oxford Creme, Scot-Tea and Savannah. Profits from the sale are used to support troop activities and Council Program activities including the maintenance and improvement of Camp Rio Blanco, year-round camp site east of Crosbyton.

Girls selling cookies will wear their Girl Scout uniforms or pins. A two-week campership for Camp Rio Blanco will be awarded to Girl Scouts who sell 180 boxes of cookies or more.

Weed Control In Cotton

LUBBOCK -- "Since cotton first appeared on the Texas High Plains about 75 years ago, farmers have been battling an assortment of annual and perennial weeds. "For decades their main tool was the hoe, a simple method that yielded nearly 100 percent weed control if plenty of time, labor and money were available. "Today," says Dr. James Supak, "numerous cultural, mechanical and chemical techniques are used to get rid of weed pests, and the most effective weed control programs utilize all three methods."

Supak, a Texas Agricultural Extension Service agronomist, says that in cultural control efforts, rotation of cotton with wheat or summer grain crops allows the use of summer tillage or herbicides for controlling weeds that are commonly a

problem in cotton. In mechanical control efforts, a timely cultivation or knifing operation can effectively destroy a crop of newly emerged weed seedlings, he adds. "Unfortunately, cotton farmers, especially in the dryland areas, often find themselves in a position where rotations are not economically feasible. Also, the timing of crucial tillage operations is often disrupted by rainfall or other factors and the resulting weed problem often requires considerable time and money to resolve," Supak says. More and more, cotton producers have become dependent on the use of chemicals to take care of a major portion of their weed problems. The agronomist says the preplant incorporated (PPI) herbicides have been especially effective in controlling many of the annual weeds and

grasses common to the Southern High Plains. "Five years ago, cotton farmers had only two PPI herbicides to choose from - Treflan and Planavin," he recalls. "Since that time, Planavin has been withdrawn from the market, but it has been replaced by five new compounds being marketed under the trade names of Amex 820, Basalin, Cobex, Tolban and Prowl. These compounds along with Treflan belong to the same chemical family, require incorporation and control about the same spectrum of annual weeds and grasses. "With the exception of Amex, all have performed satisfactory on the three major soil groups on the High Plains."

Supak says research conducted by Dr. John Abernathy, weed scientist with the Texas Agricultural Experiment Station at

Lubbock, shows that the recommended rates of Amex have not provided satisfactory weed control on the loam and clay loam soils. "These compounds do differ chemically," he adds. "For the user, these differences are reflected in the rates that must be applied and their residual properties. Since the rates do differ for some of these products, producers are urged to read the chemical label to insure against applying insufficient chemical to provide optimum weed control or increasing chemical costs by using excessive chemical."

Additional information regarding rates is available in a publication entitled "1976 Weed Control in Cotton For West Texas," Technical Report No. 8, Texas Agricultural Experiment Station. Copies may be obtained from a County Extension agent's office, Supak adds. The persistence of herbicides in the soils also vary, he says. "Treflan is classified as a long residual chemical. This means that it will last longer than the cropping season. Tolban has a medium-long residual; it, too, will persist beyond the crop season but will degrade some-

what faster than Treflan. "Amex, Basalin and Prowl are medium residual chemicals and will not persist beyond the cropping season in which they are applied. Cobex has the shortest residual and will also degrade before the cropping season is over." The Lubbock-based specialist says that in the field, this means that the time of application will be an important consideration with the short and medium residual herbicides. Because of their limited residual properties, he cautions, they should be applied as close to planting as possible to insure a satisfactory period of weed control. On the other hand, Abernathy has shown the risk of damage to sensitive crops planted the following year is essentially nil in fields where these chemicals are used. Supak says the time of application is less critical with Treflan and Tolban due to their greater stability. Treflan may even be applied in the fall if rates are

increased by 25 percent. Planting of sensitive crops such as sorghum should be delayed until May 15 following Treflan to avoid plant injury. "The effectiveness of these herbicides is somewhat dependent on several application factors including spray coverage and proper incorporation," he adds. "With the conventional nozzles used in applying these chemicals, the spray solution is broken down into small droplets. If windy conditions exist at the time these chemicals are being applied, the small droplets will tend to 'drift' and miss the intended target area." He explains that recent developments in drift reducing agents and nozzle design can be employed to reduce the magnitude of drift losses. "Chemicals such as Target and Nalco-trol can be added to the spray solution to eliminate the smaller droplets (mist), thus reducing drift losses. Also a new type nozzle called the 'raindrop' breaks the spray solution up into

relatively large, uniform droplets which are more apt to hit the target area even in relatively high winds." Time and uniformity of herbicide incorporation are also important, Supak says. The preplant incorporated herbicides tend to volatilize and degrade rapidly if left exposed on the soil surface. To prevent these losses, he recommends they be incorporated within four to eight hours after application. "To insure good weed control, the herbicide must be uniformly distributed in the soil. If soils are cloddy or too wet during incorporation, herbicide distribution will be incomplete and weeds will emerge from the untreated areas." The preplant incorporated cotton herbicide will not eliminate all the weeds that are likely to be present in a High Plains cotton field, Supak says. But when used properly, they will control many of the common annual broadleaf weeds and grasses.

Senator Lloyd Bentsen Watching Washington

This year, more than one hundred million Americans will pay the taxes that support our Social Security system. The number of people on the receiving end is just as enormous. Most of our older citizens are either getting benefits now, or will as soon as they retire. Nearly every mother and child in the nation is protected by the life insurance provisions of Social Security. And four out of every five American workers depend on this system for protection against disability. Essentially, then, Social Security is basic insurance for countless citizens; a guarantee that if income is lost because of retirement, disability or death, there will still be something to fall back on that they have rightfully earned. This means that when the Social Security structure becomes shaky, so does the security of virtually every man, woman and child in this country. And it means also that each of us has a stake in keeping that structure both workable and financially sound. Unfortunately, that soundness is now in jeopardy. Social Security is in trouble. Benefit payments are outpacing revenues, and projections show a large deficit is in the making. There is no certainty that the Social Security system—as it now operates—will not simply collapse from lack of money sometime during the next half century, unless some changes are made. This is why I've introduced legislation that would cut the projected long-term deficit of the Social Security system in half. Along with keeping the system fiscally strong, my bill would end the wild discrepancies between how much a person makes before he retires, and how much he will eventually receive in Social Security benefits. Because of a flaw in the 1972 amendments to the Social Security Act, a person's benefits could rise as high as 115 percent of his average monthly earnings before he retires. And, even worse, they could also sink as low as 29 percent. My bill makes this relationship stable, and makes sure that the Social Security system pays back a fixed proportion of what a person once earned. This stability has the additional advantage of making the trust funds that prop up the entire system stronger financially. The Bentsen legislation also corrects inequities that now occur because of the way benefits are computed. Today many people are being penalized because they earned their Social Security coverage during a period of low inflation. The benefits they receive now are based on these relatively low earnings, and they simply can't make ends meet at today's prices. I would update a person's earnings to reflect the rate of inflation when he retires, rather than the rate of inflation when he was earning his coverage. I would also make sure no one receives lower benefits than they're now getting because of the changes I have made. Those who count on Social Security to provide them with basic income—for food, for a home, for medical expenses—must be reassured that their system is working, that it is financially strong, and that it will offer them the protection they will need in the years to come. And those one hundred million taxpayers, whose dollars go to support a system that must someday be adequate enough to support them, are entitled to similar reassurance. My bill would contribute to their peace of mind and, at the same time, do much to restore confidence in our nation's most basic and essential insurance system.

CANCER & FLUORIDE
A National Cancer Institute study has found no relationship between cancer death patterns and the natural or artificial fluoridation of community drinking water supplies.

FORD & TRUCKS
President Ford has asked Congress to abolish many federal regulations governing the trucking industry and interstate buses, a move that one trucking association said could impair service to small towns.

A.L. Hobbs.

A.L. Hobbs Buried Monday

Funeral services for Alvis Leonard Hobbs, 62, who died Saturday, were held at 2 p.m. Monday in the First United Methodist Church of Muleshoe with Rev. Floyd Dunn, pastor, officiating. Burial was in Bailey County Memorial Cemetery by Singleton-Ellis Funeral Home.

Hobbs, born in Agnes, had lived in Lubbock for 20 years. He was an employee of Armstrong Moving and Storage of Lubbock and was a Baptist.

Surviving are the widow, Ruby; a son, Leonard of Muleshoe; a daughter, Mrs. Venita Price of Hurst; a sister, Mrs. Katharine Duke of Austin; and his parents, Mr. and Mrs. R.L. Hobbs of Muleshoe; and eight grandchildren.

STATE CAPITAL Highlights AND Sidelights

AUSTIN — Six Democratic and two Republican candidates for president will be campaigning for Texas votes in the May 1 state preference primary.

Texas' 130-member delegation will be the sixth largest in the nation to the Democratic National Convention July 12 in New York City. The 100-member Republican delegation will be the fifth largest at the Republican Convention August 16 in Kansas City.

Ninety-eight Democratic delegates and 96 Republican delegates will be elected in the one-time-only primary authorized for this presidential year by the 1975 legislature.

Democrats Lloyd Bentsen, George Wallace and Jimmy Carter qualified for the ballot in all 31 Texas senatorial districts.

President Gerald Ford and former California Gov. Ronald Reagan submitted qualifying petitions to get on the Republican ballot in the 24 congressional districts.

Democrats Fred Harris will run in 15 Texas districts, Sargent Shriver in six and Ellen McCormack (anti-abortion campaign

leader) in five.

Oil Firms Sued

Atty. Gen. John Hill filed damage suits totaling

\$14 million against Gulf Oil and Phillips Petroleum, alleging violations of state laws against contributing corporate funds to political campaigns.

Hill asked at least \$1,050,000 from Gulf and \$375,000 from Phillips, as the state's "triple damages" recovery of the amount of the corporate donations. He also asked injunctions against future violations.

Gulf contributions began in 1960, the Phillips contributions in 1964.

Appointments

Gov. Dolph Briscoe named James M. Rose to succeed Harry P. Burleigh as executive director of Texas Water Development Board. At the same time, he announced combining of the Division of planning Coordination (headed by Rose) and the Governor's Budget Office. Charles D. Travis, now budget director, will head the combined office. Appointments are effective February 16.

Briscoe appointed J. Michael Smith of Gilmer as Criminal District attorney for Upshur County replacing Welby K. Parish of Gilmer who resigned.

He named George Wayne Miller of Floydada 110th district judge, succeeding the late L.D. Rat-

liff of Spur and picked John R. "Randy" Hollams of Floydada to succeed Miller as 110th district attorney.

Courts Speak

The Court of Criminal Appeals upheld life sentences for two men convicted of killing two Dallas policemen in 1971.

An insurance company cannot rely on an exclusion of commercial vehicles to deny payment of death benefits to survivors of a Navy employee killed in a truck-auto crash, the State Supreme Court held.

A divided Court of Criminal Appeals reversed a Houston woman's robbery

conviction because the indictment failed to say who owned stolen property.

The Supreme Court rejected an insurance company's appeal to recover \$5,000 it paid owners of a burned house from parents of an 11-year-old who set the fire.

The high court also affirmed a lower court ruling that a former state securities commissioner must help pay back \$50,000 to victims of a Mexican real estate promotion scheme.

Court of Criminal Appeals overturned a Dallas heroin conviction of a man arrested with needle marks on his arm. Police also found 25 packets of the drug in his bedroom closet.

AG Opinions

Atty. Gen. Hill said accident reports may be considered by the Department of Public Safety in determining whether there is a reasonable probability of a judgment against a driver.

In other recent opinions Hill concluded:

Board of Health Resources members can collect pay only for meetings designed to be attended by all members.

Waller County may build and maintain a medical clinic without submitting the matter to a vote. Money budgeted for major

building repairs can be used.

Short Shorts

Texas' \$1.3 billion in agricultural exports for 1975 ranked among the top five states.

The new auto registration season opened February 1 and continues through March.

Regional chambers of commerce are accepting nominations for the 1975 Governor's Industrial Expansion Awards.

Welfare Commissioner Raymond W. Vowell is a new member of the national advisory committee on child abuse and neglect for the Education Commission of the States.

The State Board of Insurance has hired readability expert Dr. Rudolph Flesch to help write insurance policies people can understand.

The Welfare Department invited open bidding April 1 on administering its purchased health care program.

Judge O.P. Carrillo, convicted in an impeachment trial by the Senate last month, is suing to retain his job.

A series of hearings by a House special committee on alternatives to public school financing methods began in Houston February 10.

10 Counties Gain But 32 Lose Status

Ten counties moved up in the national brucellosis eradication program, but 32 others slipped a step during the past month, the U.S. Department of Agriculture (USDA) reported Tuesday (February 3).

Regaining top status as certified brucellosis-free were Jackson County, Illinois; Adair County, Missouri; Corson and Ziebach counties, South Dakota; and Ector County, Texas. Additionally, Pushmataha County, Oklahoma, and Jefferson, Karnes, Morris and Terry counties, Texas, regained modified-certified status.

On the negative side, Newton, Reagan, and Ward counties, Texas, dropped from certified brucellosis-free to noncertified status. Dropping from modified-certified to noncertified status were Blount, Chambers, and Montgomery counties in Alabama; and Anderson, Bee, Brazoria, Brooks, Callahan, Cherokee, Foard, Fort Bend, Frio, Gonzales, Henderson, Jones, Kleberg, Liberty, Matagorda, Montgomery, Panola, Rusk, San Patricio, Smith, Taylor, Titus, Van Zandt, Wharton, Wilbarger, and Zapata counties in Texas.

Officials of USDA's Animal and Plant Health Inspection Service (APHIS) explained that counties lose status in the eradication program when herds

fail to meet required testing schedules. These provide that: --An infected herd must be retested within six months.

--When an infected animal is found through the market cattle identification system, the herd must be tested or quarantined within 30 days. If quarantined, the herd must be tested within six months.

--Dairy herds must be tested within 30 days after a positive brucellosis ring test has been reported.

A county does not lose its status for failing to meet testing schedules if the state has initiated legal steps against a delinquent livestock owner. When status is lost, it may be regained when deficiencies are corrected.

CAB AGREES TO DELAY

The Civil Aeronautics Board has agreed to delay the order to require 20 U.S. airlines to carry hazardous cargo on passenger flights.

FARM HARVEST

Farmers have almost completed a record corn harvest of 5.8 billion bushels this fall, 25 per cent larger than last year's and 1 per cent more than was forecast in October, the Agriculture Department reports.

SAM HOPPER

Sam Hopper Rites Held

Sam Hopper, 53, died Monday morning in the Veterans Administration Hospital in Amarillo. He had been a Muleshoe resident since 1952, moving here from Conway. He was a native of Pocatello, Idaho and was a farmer. Hopper was a veteran of World War II, having served in the Marine Corps and was a member of the Presbyterian Church.

Funeral services were held at 3 p.m. Tuesday at the Singleton-Ellis Chapel of the Chimes with Rev. Jerry Boles, Presbyterian minister from Dumas officiating. Burial was in Bailey County Memorial Park.

He married Betty Long, February 14, 1948 in Amarillo.

Survivors include his wife, Betty, three daughters, Mrs. Sandra Allerton of Canyon, Mrs. Nancy Freeman of Conway and Miss Janet Hopper of the home; three sisters, Mrs. Esther Thrush of Kooskia, Idaho, Mrs. Ellen Cook and Mrs. Bernice Hall both of Pocatello, Idaho; one brother Allen Hopper of San Bernardino, California and two grandchildren.

Treatments Of Cottonseed With Fungicides

"Based on these studies, since disease situations can change in severity from year to year, a seed treatment that gives protection for a wide range of adverse conditions should be used," he says.
Minton emphasizes that because weather and field conditions vary considerably, all planting seed should be treated.

WE CONGRATULATE

FIRST PLACE ... Orvis Burris took first place in the fine wool cross division.

GRAND CHAMPION ... Craig Kirby is shown here with his Grand Champion Gilt in the Duroc division.

LUBBOCK -- A USDA Agricultural Research Service plant pathologist here believes that multiple fungicide treatment of cottonseed may be the answer to troublesome cotton seedling diseases.

Dr. Earl B. Minton, plant pathologist based at the Texas A&M University Agricultural Research and Extension Center at Lubbock, says that according to research conducted over the past five years, coating cottonseed with multiple fungicides was more effective in controlling seed and soil-borne diseases than coating the seed with one fungicide.

Multiple fungicides he used consisted of seed protectants to reduce seed and pre-emergence seedling rot, and systemic fungicides to prevent post-emergence diseases.

In 1974 field experiments, captan was used alone and in combination with either carboxin (Vitavax) or chloroneb (Demosan) or the three-way combination. Under the highest level of seedling disease conditions, seed treatment containing the three fungicides gave the highest stand, which means that they were the most effective in controlling both pre- and post-emergence diseases.

However, when disease conditions were milder, captan plus either of the systemic fungicides gave comparable to the combination containing the three fungicides.

In other field evaluations during the last few years, Minton reports, similar results were obtained with Thiram, a seed protectant that was evaluated alone and in combination with one or both of the systemic fungicides. Again the results were similar to those obtained with the combination with captan.

In addition to field studies, various combinations of fungicides have been evaluated in the greenhouse at constant soil temperatures of 65, 75, and 85 degrees Fahrenheit, and alternating 70 to 90 degrees F. A high inoculum level of seedling disease pathogen occurred in the soil.

Highest stand for each seed treatment was obtained from the alternating temperatures, Minton says. On the other hand, for each reduction in constant soil temperature, seedling emergence and survival were reduced.

"For each of the four tempera-

ture measurements, the most effective seed treatment contained three fungicides," Minton concludes.

"It's reasonable to conclude that two protectants could be twice as effective as one in controlling the same or even different pathogens," Minton reports.

"Combination of fungicides may also control pathogens that neither material is effective against when used alone."

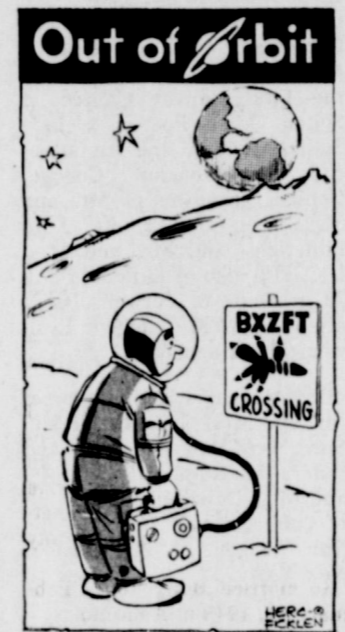

The scientist admits that initial seedling emergence may differ little between multiple-treated versus single-treated seeds when pre-emergence diseases are light. But the better protected, multi-treated seedlings stand a better chance of surviving post-emergence disease. This leads to a higher final stand with more uniform distribution of seedlings in the plant row, and these will be more vigorous.

"This means there will be less or maybe even no need for replanting to get a good stand," he concludes.

Minton says that by not replanting, producers save the cost of additional seed, fuel, machinery and labor that would be needed to replant. This would also conserve moisture since the soil is not distributed again. And, by not replanting, producers would have an earlier maturing crop which should provide higher yields and quality.

He adds that the more vigorous plants will have a better root system, enabling them to make better use of soil moisture and nutrients.

All this -- increased root-devel-

opment of the plant, increased vigor and higher plant populations -- will help control Verticillium wilt and other diseases, Minton believes. In his studies, the action of the fungicide itself

helped control Verticillium wilt. In order to obtain the most returns for fungicides, Minton emphasizes, properly processed seed of high quality should be planted.

Sudan News

By Mrs. Wayne Doty

David Doty and Jo Gaye Doty, of Lubbock visited over the weekend in the home of their parents, Mr. and Mrs. Wayne Doty and Donald.

Associational youth rally was held Monday night, February 2, at the Baptist Church with some 200 young people and sponsors

attending. Trinity Baptist of Muleshoe and Lee St. Baptist of Dimmitt received the Attendance banner and mileage banner. Sudan had 33 local youth to participate.

Refreshments of cookies and punch were served by the host church with Marge Nelson, Calvin Vernon and Noble Dud-

geon, sponsors. A lecture film by Hal Lindsey, "Late Great Planet Earth" was shown the group.

Sunday visitors in the home of Mr. and Mrs. Glen Cardwell were his parents, Mr. and Mrs. Hal Cardwell of Lubbock, Mr. and Mrs. Jerry Cardwell and children of Shallowater, Mrs. Hal Cardwell, Jr. and son of El Toro, Calif.

H.H. Hobbs of Plains is visiting this week in the home of his daughter and family. Mr. and Mrs. Glen Cardwell, Susan and Glenda.

Tim Kent is in Galveston this week on business.

Mr. and Mrs. Bruce Newman announce the engagement and approaching marriage of their daughter, Jane to Robert Neil Netheland of Dallas. He is the son of Mr. and Mrs. Claude Netheland of Mt. Healthy, Ohio. Jane is a graduate of Sudan High and has been residing in Dallas where she is employed by the Kenneth Murchison Co. Bob recently became a sales representative for The 3-M Co., in Lubbock. The wedding is planned for February 27, in the home of the bride-elects parents. Bob and Jane will reside in Lubbock.

Mr. and Mrs. D.W. Williamson returned home from vacationing for the past several days in Corpus Christi with their son and family, Mr. and Mrs. Harry Williamson and Kris.

Mr. and Mrs. Bill Poe of Sudan and former Muleshoe residents announce the engagement and approaching marriage of their daughter, Raylene to Gerald Gohlke, son of Mr. and Mrs. H.E. Gohlke of Oklahoma Lane Community. The wedding is planned for 7:00 p.m. May 21 in the First Baptist Church of Sudan. Miss Poe is a 1974 Sudan graduate and has attended Sam Houston College. Gohlke, grandson of Mr. and Mrs. H.E. Gohlke, Rt. 1 of Littlefield, and Mr. and Mrs. E.C. Hill also of Littlefield is a 73 graduate of Farwell. He is attending A&M College in Ryan where he is a senior.

Recent visitors in the home of Mr. and Mrs. G.C. Ritchie and Steve were their daughters and sisters, Jan Rudd and April, Mr. and Mrs. Dewayne Phillips, all of Lubbock; and her nephew, Dan Watson, of Pine Island, New York.

Controlling Volunteer Sunflowers

LUBBOCK -- High Plains farmers who grew oilseed sunflowers in 1975 probably will be faced with potentially severe volunteer sunflower problems this crop season.

Dr. James Supak, a Lubbock-based area agronomist for the Texas Agricultural Extension Service, says that the volunteer seed from last year's 325,000 acres of sunflowers have had little chance to germinate or rot during the rather dry fall and winter months. He believes they'll begin cropping up in March when the soil warms up, and growers will be faced with varying degrees of volunteer problems.

"Many growers already have attempted to reduce this weed problem by shredding and disking sunflower stubble shortly after harvest to encourage fall germination and eventually winter killing of volunteer seedlings," he says. "Others have deep-broken their fields with the intent of burying the seed too deep for germination, thus causing them to gradually rot in the soil."

Supak says that virtually the entire 325,000 acres planted to sunflowers have been or will be rotated to other crops. Farmers will need to seriously consider the best weed control methods for their farm situation.

"Some of the 1975 sunflower acreage is being double-cropped with wheat," Supak explains. "Invariably, volunteer sunflowers emerged with the wheat seedlings but were destroyed by the first freeze in the fall. The second volunteer crop will probably emerge in March when soil temperatures reach or exceed 50 degrees Fahrenheit. Unlike the fall crop, the volunteer sunflower seedlings that emerge in March will probably be much more tolerant to cold temperatures and will have to be controlled with herbicides."

The agronomist recommends from 0.5 to 1.0 pounds of 2, 4-D applied after the seedlings emerge. This, he says, should not only control sunflowers but will also eliminate other winter weeds such as tansey mustard.

Supak says volunteer sunflower control in field crops such as cotton and soybeans poses a more serious problem. In 1975, Dr. John Abernathy, weed researcher with the Texas Agricultural Experiment Station in Lubbock, tested a number of preplant incorporated (PPI), pre-emergence (PE) and post-emergence herbicides to determine their effectiveness in con-

trolling volunteer sunflowers. None of the 25 treatments tested provided satisfactory control. The best treatment (Caparol plus MSMA applied as a post-directed spray) controlled less than 50 percent of the volunteer seedlings.

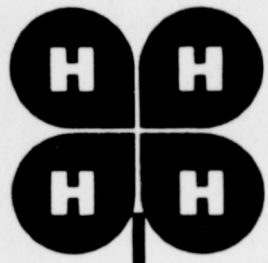

"With these crops," the Extension Service specialist says, "growers will have to depend largely on mechanical tillage to destroy volunteer plants. Where feasible, it would be advantageous to delay listing until after soils begin to warm up in

March. If rainfall occurs before this time, part of the volunteer crop will emerge and can be destroyed by the listing operation. After the soil is stirred during listing, more seed will germinate and emerge after a rain or a preplant irrigation.

Political Column

MEET THE CANDIDATES

Rate for listing in the Journal's Political Column is \$35 for all offices except those for city council and school board offices, which are \$30. This fee includes a front page announcement article and a one-column photograph at the time the announcement is made, in addition to the listing in the Political Column from the date of the announcement until the final election. Charges for announcements are cash in advance, and this same policy applies to all political advertising carried in the columns of this newspaper. Names for each office will be listed in the Political Column in the order they are received at the newspaper office. The Journal has been authorized to announce the following candidates for public office:

DISTRICT ATTORNEY
Jack Young
W. Doyle Elliott
BAILEY COUNTY COMMISSIONER
Robert P. (Bob) Sanders
Precinct No. 3
James Warren
Precinct 3
John W. Smith

Lake LBJ White Bass Tourney On Tap

KINGSLAND - The Kingsland Chamber of Commerce has completed its plans for the annual Lake LBJ White Bass Tournament. The tournament will begin February 28 and run through March 7. Daily prizes will be awarded in both adult and junior divisions; grand prizes will be awarded in the adult division.

A nominal entry fee will be charged adults. Children must be registered but will pay no fee. Everyone is invited to come and enjoy the fishing. Contact the Kingsland Chamber of Commerce, P.O. Box 465, Kingsland, Texas, 78639 for additional details.

The rules for the tournament are listed below:

1. All contestants must have a legal Texas Fishing License if applicable, and the laws governing size and big limit must be observed.
2. All contestants must register prior to 8 a.m. each day at the Chamber of Commerce office.
3. All fish must be caught from Lake LBJ on pole or rod and reel.
4. Only White Bass will be weighed for Adult division prizes.
5. Junior Division: 12 years and under, any fish type will qualify. This qualification applies only to Junior Division prizes. It does not exclude these contestants from fishing for White Bass for White Bass prizes.
6. All fish must be weighed on day caught and must be live and/or fresh caught. The Judges decision is final.
7. Weigh-in begins at 5 p.m. at El Rio docks; 6 p.m. is the deadline for weigh-in. No exceptions. Late arrivals must have fish marked if they plan to fish the remainder of tournament.
8. All fish will be marked by Judges upon weigh-in.
9. The Chamber of Commerce clock (in office) is the official time piece. We suggest you set your watch by it daily.
10. All ties, if any, will be decided by a flip of the coin.
11. All boating and safety rules related to lake navigation must be observed.
12. A contestant can qualify for only ONE GRAND PRIZE.

Adults must pay \$1.50 daily entry fee. (Office will open daily at 6 a.m. for registration.) Optional: A \$10.00 entry fee for entire tournament.

The Lonely Heart

For Rent

You're doing without a Zimmatic center pivot. Saving your hard-earned capital for other improvements? Don't want to borrow right now. But it's costing you money every year you wait. Two ways. First, you're losing the extra crop production you get under irrigation. Second, inflation is at work. Boosting prices, dropping the value of your dollars.

Why not rent a Zimmatic under our new lease plan? Let the system pay for itself and put some extra money in the bank for you at the same time. Our rates are reasonable. You can include freight, installation, pump... other "above ground" items in one flexible package, tailored to your needs. Why wait to irrigate? It's just costing you money. Call us today for details on our new lease plan.

Farm-facts

A Weekly Report Of Agri-Business News

Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

Not Since 1919... They've Done It Again... Above Last Year.

A report from the Texas Crop and Livestock Reporting Service backs up what Texas sheep producers have been saying all along: numbers of sheep and lambs in the state as well as the nation continue to decline.

For Texas, you have to go back to 1919 -- that's 57 years ago -- to find a year in which sheep numbers are lower than was the case as of Jan. 1.

All sheep and lambs on Texas farms totaled 2,600,000; this is 3 per cent below a year ago and ties the 1919 figure.

The number of sheep operations took an even sharper percentage dip. There are 9,500 sheep operations in the state as of Jan. 1. This is down 14 per cent from a year ago.

The inventory of all goats and kids is also down. The total as of Jan. 1 is 1,050,000. This is 9 per cent below a year ago. Angora goats are down 10 per cent from a year ago; as of Jan. 1 the total is 890,000.

Nationwide, it's the same story. The Jan. 1 inventory of all sheep and lambs is 13,300,000 head, a decline of 8 per cent from 1975 and a downturn of 19 per cent from 1974.

Texas' value of all sheep and lambs is estimated at \$81,900,000. The average value per head is set at \$31.50 compared to \$23.50 a year ago.

Nationwide, a value of \$37.30 is placed on each head of sheep which compares with \$30.40 last year.

WHILE MANY TEXAS FARMERS are still trying to figure out what to do in the way of cropping plans this year, they set new production records in at least three commodities last year.

The 1975 wheat production in Texas set an all-time record of 131,100,000 bushels. This was more than twice the previous year. A new high in soybean production was also attained in 1975. Soybean production last year was 9,065,000 bushels for the state.

Although farmers did not produce a record total corn crop, they did set what is expected to be a new high for Texas in per acre yields of that commodity. A 103-bushel per acre average for the state during 1975 is about 20 bushels per acre higher than the major corn state of Iowa for last year. Total corn production for the state is set at 11,300,000 bushels, which is second in size only to the 1910 crop.

Grain sorghum producers also did well for themselves. Production of that commodity in 1975 was second to the largest crop ever produced in Texas. The 1975 crop amounted to 374,400,000 bushels.

The cotton crop was probably the biggest disappointment. The 1975 crop was 2,400,000 bales, which was the smallest in almost 30 years. Even at that, it was only slightly lower than 1974.

ONE OF THE STATE'S MAJOR specialty crops -- rice -- shows an increase in storage stocks. Rough rice stocks as of Jan. 1 are 22 per cent above a year ago. However, milled rice stocks are 38 per cent below a year ago.

Nationwide, rough rice stocks are 32 per cent above a year earlier and milled rice stocks are 6 per cent above a year ago.

Food Stamp Amendment Testing

A proposed amendment to the Food Stamp Program regulations would allow the testing of several new administrative procedures which could have national applicability.

The procedures which could be tested include photo identification cards, countersigned coupons, retrospective accounting periods, client monthly reporting systems and other changes which could lead to more efficient program management.

The proposed amendment outlines how states may request waivers of current regulations and requires that notice of all approved projects must be given at least 30 days prior to the test.

The proposed amendment is scheduled for publication in the Federal Register of February 3, 1976, and comments are invited.

One fault with some members of the younger generation is that they dislike work.
