

# Chinese Govt. Official Studies Oil Industry In This Vicinity

Brownfield and Terry county was honored last week by the presence of C. N. Wen from Shanghai, one of the 130 Chinese Government officials sent here to study the methods by which we operate our various industries. Mr. Wen states that he is in this part of the country studying our oil industry through the courtesy of the Magnolia Petroleum Co., for the purpose of reorganizing China's oil wells, which are lacking badly in modern development.

"The Chinese Government," states Mr. Wen, "started this campaign three years ago, putting two men to every industry, such as the railroad, steel and textile industries." They have been here a year and one-half, and have the same amount of time left before they take their newly learned knowledge back to China.

Mr. Wen looked over Brownfield and vicinity with E. L. Boots, representative in this area for Pacific Oil Pumps. He attended the Lubbock rodeo with Mr. and Mrs. Boots last week and will leave today for Houston where he will continue his study.

Mr. Wen stated that this was the first time he had even been in the United States, and although he found it quite different from his home country, he would like to make his home here with his wife and two year old son.

"China," said Mr. Wen, "is striving to develop its vast resources and put itself on a higher plane with the rest of the world, and its campaign here is one of the main steps toward doing that very thing."

## J. B. Sheppard Elected President U. S. JayCeers

John Ben Sheppard of Glade-water, Texas, is the new president of the United States Junior Chamber of Commerce.

The 30-year-old country lawyer from the East Texas oil fields will be one of the nation's busiest young men during his one-year term of office beginning July 1.

Required by the duties of the Jay Cee president's office to visit every state and territory, Sheppard also plans trips to Central and South American countries.

Representing an organization which by July 1 should number 2500 clubs with a total membership of 350,000, Sheppard will average a speech a day during his year's administration.

Sheppard was elected national Jay Cee president without opposition at the national convention in Long Beach, California last week, the first time in 15 years a national president has been elected without opposition.

It is the first time a Texan has headed the U. S. Jay Ceers since 1929. Sheppard is the youngest man ever to hold the position and comes from the smallest town any president has been from. Following his administration he will serve for a year on the board of directors of the United States Chamber of Commerce, composed of the leading business men of the nation.

## Jay Ceers Win Over Denver City

The Jay Ceers soft ball team is waking up. By a squeeze in a tight game, they scored 4 to 3 over Denver City last Friday night and six to one over Post here, Monday night. They played again there Wednesday night.

Baldridge Bakery of Lubbock after being held scoreless to the fifth inning when they put one run across put two more across in the first half of the ninth to win over Primm Drug 3 to 1 before a large crowd Tuesday night.

Primm Drug played Midland, there Wednesday night and will play Tahoka here tonight.

The Gideon organization of the Lubbock Camp will give a program at the Methodist church Sunday evening at 8 p. m.

## New Policy On Farm To Market Roads Announced

AUSTIN, June 16 — The State Highway Commission today released details of a new state-wide policy on Farm to Market Roads, which will permit an expansion of the present state operated Farm to Market Road program.

It was explained in the Highway Commission's new policy that the Federal Funds made available by the Postwar Highway Act of 1944 for the construction of Secondary or Farm to Market Roads, covering a three year period, have all been earmarked for specific roads throughout the state. Approximately one-half of this work has been placed under contract and, consequently, no additional funds from this source are now available.

The Commission's statement also noted that no additional funds on the National or State level have been made available for the expansion of the program of construction of Secondary or Farm to Market Roads.

The numerous requests from officials and citizens from all sections of the State for the designation, construction, and maintenance of additional Farm to Market Roads indicated the need of some type of additional program to provide at least for the more urgent and immediate needs in the rural areas of Texas.

On behalf of the Highway Commission, State Highway Engineer Dewitt C. Greer explained, "This new policy of the Highway Commission has been formed to place into operation the new laws passed by the Fiftieth Legislature relative to this type of road."

Mr. Greer pointed out that "a law was passed at this session giving permission for the counties, road districts, etc., and the State Highway Department to enter into a cooperative plan of construction of Farm to Market Roads by a pooling of finances."

He said, "two additional laws were passed that will tend to yield additional revenues for Farm to Market Roads on the county level. One of these covered the distribution of the surplus of one cent of the gasoline tax that goes to the Board of County and District Road Indebtedness. This law will tend to give more money from this source to the smaller counties of Texas. The other law is the Constitutional Amendment covering the abolition of the state ad valorem tax and permitting such tax to be assumed by the counties for the construction of Farm to Market Roads and other things."

Mr. Greer explained that "under the new policy of the Highway Commission, if a county, or road district desires additional Farm to Market Roads and is willing to furnish the right of way and 75 per cent of the actual construction cost, the State Highway Department will provide the engineering and 25 per cent of the construction cost from its funds, and will provide for the future maintenance of the road, which item alone generally equals construction cost over a period of fifteen years."

Mr. Greer further pointed out that in the Commission policy it was necessary, due to limited finances of the Department, that a ceiling of not more than \$100,000, in construction costs in any one county in any one year be used to give state-wide distribution under this plan.

## Second Negress Held In Forgery Case

A second colored woman was apprehended Monday by the Sheriff's department and questioned concerning the forging of six checks, three weeks ago on Mrs. J. L. Randal. Although a local business man, who had cashed one of the checks, tentatively identified her, she denied any guilt. She is well known among the colored folks here, but had gone to Odessa following cashing the checks.

BROWNFIELD, TERRY COUNTY, TEXAS.

FRIDAY, JUNE 20, 1947

NUMBER 47

# Terry County's First Wheat Crop Rolling In This Week

IN THE WHEAT BELT the above pictures would have little or no news value, but as the first large scale wheat harvest in the history of Terry county gets under way, the sight of combines rolling across Terry's acres causes many of us who never realized that someday many of our farms would be devoted to the raising of wheat to almost rub our eyes in disbelief. The pictures were taken on the E. B. McBurnett farm west of town. There were three combines in the field the day the pictures were taken, but due to camera difficulties, no more than two combines appear in any one picture.

## Florida Rotarian New President Rotary International

San Francisco — At the 38th annual convention of Rotary International, which wound up its five-day session June 12, delegates representing 6,200 Rotary Clubs with a membership of 302,000 business and professional executives in 76 different countries, elected S. Kendrick Guernsey of Jacksonville, Fla., as President of that world-wide service organization for 1947-48.

Mr. Guernsey is Executive Vice-President of the Gulf Insurance Company of Jacksonville, and since 1933 he has been Secretary of the National Boys and Girls Week Committee. For the State of Florida, he is chairman of the Citizens Committee on Education, a member of the State Highway Commission, and a Director of the State Chamber of Commerce. In Jacksonville, he is a Director of the Children's Home Society, the Boy Scouts and the Y. M. C. A. A Rotarian for 27 years, he is a Past President of the Rotary Club of Jacksonville and he has served Rotary International as Vice-President and as District Governor.

Elected to Rotary's 1947-48 Board of Directors were Tom Benson of Sussex, England; Lauro Borba of Recife, Brazil; Daniel de Jongh of Rotterdam, The Netherlands; Gil J. Puyat of Manila, The Philippines; Charles Jourdan-Cassin of Nice, France; Aly Emine Yehia Pasha of Alexandria, Egypt and six additional Directors from the United States and Canada.

One of the largest conventions held anywhere in recent years, and perhaps the most international, the Rotary Convention attracted more than 13,000 Rotarians and members of their families from some 50 different countries.

Theme of the convention was "Living Together in Friendship and Understanding," based on the internationality of the Rotary organization. In the formal convention addresses and in informal discussion groups, emphasis was given to the contributions which Rotarians around the world are making to advance the general program of the United Nations.

Rotary's 1948 convention will be held in Rio de Janeiro, Brazil, the week of May 16.

Mr. and Mrs. J. C. Baggett and daughter left Sunday to make their home in Altus, Okla. He has accepted employment with the Goodman and Groom Furniture Co.

## Eastern Star Installs Officers Last Week

Tuesday of last week in the Masonic Hall 18 new officers were installed in a formal candle-lighted service. Mrs. Dorine Criswell and Mr. J. W. Nelson were installed as worthy matron and worthy patron, and Mrs. Sammie Miller and J. L. Newsom as associate matron and associate patron. Mrs. Mollie Goodpasture was installing officer; Mrs. Gene Brownfield, immediate past worthy matron, was installing marshal; Mrs. Lula Singleterry, installing chaplain and Mrs. Caroline Ellington was installing organist.

Baskets of roses and numerous candles decorated the hall. Blankets of artificial grass covered the platforms on which the new officers stood as they were installed.

Mrs. Brownfield was presented with the past worthy matron pin and a compact as a gift of appreciation for her past service. Mrs. Criswell, incoming worthy matron, was presented with a gift of crystal.

## City Lets Street Lighting Contract

At the City Council meeting a contract was let to the General Electric Company to furnish street lighting material for the business section of the city. The price to be \$13,000.00. The work of installation to be done by the present street and city light force.

Mercury vapor lamps, on steel poles, reached by underground cables are to be erected on Main street from Tenth, one block west of the depot to First street and on Broadway from Eighth, to First and on most of this route one light on each corner and one midway of the block. And on first street from Tahoka road junction south to Buckley street. However because of material delays it will be several months before installation.

## Jay Ceers To Hold Important Meeting

Officials announce that the Junior Chamber of Commerce are to hold their regular, and an important meeting Monday at noon. New officers are to be installed and committees are to report.

## Oil Mill Workers On Strike

A strike at the West Texas Cottonoil Co., Brownfield, Texas plant was called by the Union on Saturday, June 14 while negotiations were still in progress. A meeting was scheduled for 10 A. M. Tuesday June 17th between representatives of the Company, Union and Mr. T. F. Morrow of the U. S. Conciliation Service when the strike was called. All of the issues have been satisfactorily agreed upon with the exception of the wage issue.

Company spokesmen state they wish they were in a position to make concessions necessary to dispose of the wage issue, but since the wages already being paid to those in this industry in this area and the Company feels a keen obligation to its rancher customers as well as its employees it has not met the Union's wage demand.

The Brownfield mill is being operated on a 24 hour basis by volunteers from the Company's salaried personnel.

## Mrs. Mabel Burt Dies Here Monday

Mrs. Mabel Burt, 35, of Bennett in Yoakum county who passed away Monday of last week in the local hospital was buried in the Plains cemetery after funeral services at the First Baptist church in Plains.

Burial was directed by the Farley Funeral home of this city. The funeral service was delayed pending word from her son, with the military service in Japan, who was unable to attend.

Survivors are her husband, Jack Burt, of Bennett; six sons; Pfc. James H. Burt, in Japan, Leroy, Billy Jack, Doyle Dean, Wayne, Jimmy Dale, all of Bennett; three daughters, Ruth and Betty at home and Mrs. Clifford Ohson of Tokio and one grandchild. Her parents, Mr. and Mrs. Jim Thompson of Mountain Park, Okla., five brothers and two sisters living in other states, also survive.

## FAMILY REUNION HELD SUNDAY

On Sunday, June 15, a family reunion was held in the home of Mrs. Grace Mason of this city. Those present were: Mr. and Mrs. Harlan Mason and family, Mr. and Mrs. Ocie Mason, Mr. and Mrs. Jack Mason and family of Brownfield; Mr. and Mrs. J. D. Mason and family, Mr. and Mrs. Glen Mason and family and Mr. and Mrs. Raymond Motley and family of Meadow.

## Kyle Adams Baby Drowns In Tank

Lynda Jean Adams, 16 months old daughter of Mr. and Mrs. Kyle Adams, was drowned about 4:30 p. m. last Monday in a small water tank at their farm home 5 miles southwest of town. The child had been playing about the yard, and the mother upon missing the child found her in the tank.

Funeral services were conducted Tuesday at 5 p. m. in the First Baptist church here with Rev. A. A. Brian officiating, assisted by Rev. G. F. Bell of the Forrester Baptist church.

Interment was made in the Terry County Memorial cemetery with Brownfield Funeral home in charge.

Survivors are the parents, a sister Yvonne, and brother William at home and the Grandparents, Mr. and Mrs. W. M. Adams of this city and Mr. and Mrs. J. R. Kee of Lubbock.

## Methodist Vacation School In Progress

Daily Vacation Bible School is in progress at the Methodist Church having begun June 16 and continuing through the 27th. The daily sessions are from 9 until 11:20 a. m.

Ladies of the church, under the chairmanship of Mrs. John H. Portwood, are serving refreshments each day.

Mrs. J. W. Fitzgerald is director of the school. Mrs. Wayland Parker is supt. of the kindergarten dept., and assisting her are Mmes. J. L. Newson, Jimmie Sadler, M. J. Craig, jr., Bobbie Jones and Miss Jean Craig. The course being taught in this dept., is "The World About Us."

Mrs. Alton Webb is supt. of the Primary dept. and her assistants are Mmes. T. H. Tarlton and Joe W. Johnson. They are teaching a course on, "We Go To Church." Mmes. L. M. McElroy, Cecil Aker and A. J. Lloyd are working with Mrs. J. H. Carpenter, supt. of the Junior dept., in teaching the course, "People Who Lived In Jesus Day."

## G I School Receives Equipment

Some seventy full sets of tools used on a farm, have been received here for use of students in the G I classes of Vocational and agriculture training courses now being taught in three classes.

The fourth class is to begin immediately with Jake Geron as instructor. One class is to be taught at Meadow, when enough students are enrolled at that place. These classes and equipment is furnished by the Federal Government for the vocational education of veterans under the G I bill of rights.

CITATION BY PUBLICATION  
THE STATE OF TEXAS  
TO: DOLLIE HUDSON

GREETING:  
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 28th day of July, A. D., 1947, at or before 10 o'clock A. M. before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 23rd day of September, 1946. The names of the parties in said suit are: V. L. Hudson as Plaintiff, and Dollie Hudson as Defendant.

The nature of said suit be substantially as follows, to-wit: suit for divorce on the grounds of abandonment of more than three years and for title to and possession of the South 2/3rds of the West 3/4th of Section 20, Block DD John H. Gibson Survey in Terry County, Texas, which plaintiff alleges to be his separate property; for the title to and possession of tractor and other farming equipment which plaintiff took as his part and share of the community estate at the time of the separation of plaintiff and defendant, for cost of suit and such other and further relief as plaintiff may be entitled to.

Issued this the 10th day of June, 1947.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 10th day of June, A. D., 1947.

ELDORA A. WHITE, Clerk.  
District Court, Terry County, Texas. 49c

### NOTICEABLE ABSENCE OF PEOPLE IN BROWNFIELD

Although Terry county has a bumper wheat crop here this year, many have already gone and many others due to go soon, with their trucks and combines to the harvest now beginning north of us. They intend to follow it on north through the season.

It seems that those not gone to the harvest have gone to Possum Kingdom, and with the Old He on vacation, leaves the town rather quiet.

Messrs A. T. Pickett, Mack Pickett, Loyd Pickett and Mrs. C. W. Coats recently attended the funeral of David Walker, of Sulphur Springs. Mr. Walker was the brother of Mrs. W. I. Pickett.

## Perfecting Democracy --

In an editorial on America's position in the world, The New York Times recently said: "Our strength is not in our wealth, manpower or technology alone, or chiefly. It is in perfecting democracy at home and helping to make it possible elsewhere."

It has often been observed that this country does not possess anything resembling a monopoly of the world's material wealth. Other nations have natural resources and an industrial potential which are comparable to ours. They, too, have the riches which would make possible a high standard of living for their people. But the United States has been almost alone among the powers of the world in developing these resources for the benefit of the ordinary man and woman. The very essence of democratic capitalism, as we know it, has been to make our material wealth work for the benefit of us all—and to equitably share the rewards among all producers.

We have not reached perfection. But nowhere else on earth does the ordinary man or woman receive so much in return for his or her labors. Nowhere else on earth does opportunity to go ahead exist on so great a scale. The leaders of American industry today were the clerks of yesterday. It is perfectly possible that the American president in 1952 or 1956 will be someone who is unknown to the country at present. That is the heart and soul of what we term the American system. Opportunity to go to the top is open to all—and a man's rewards are commensurate with his contribution to our society.

That is what American freedom stands for. Free enterprise, upon which all the other freedoms rest, is not a vague thing, without significance to the masses of the people. It is a living, breathing principle which stands squarely between us and dictatorship, statism, or some other form of oppression. The idea that government is the servant, not the master of the people, was an almost unique conception when this country was founded—and the power of this vast nation is its monument. The perpetuation of our democracy, and its defense against all enemies within and without, is the greatest contribution America can make to a troubled world in which whole nations have sunk into totalitarian slavery.

## Texas Legislature Adjourns After 4 1/2 Months

The State Legislature, after staying in session since the middle of January, adjourned last Friday. It has been termed a free spending legislature.

It started off with a checking account of 220 millions, that is, that sum is forthcoming from current taxes. All appropriations, plus statutory fixed items, will permit expenditures up to 750 million dollars in the next two years.

Education received much increased appropriations over past times. Scholastic apportionment raised from \$36.00 to \$55.00, adding a total of 30 million increase. Rural aid was upped from 28 million to 36 million, support of State colleges raised from 26 million to 45 million. Three and a half million appropriated to establish a University for Negroes, with courses in the higher professions. Likely to be placed at Houston. Some of the smart ones want to sit with the white in the present University, but our laws of segregation has, and will continue to prevent it.

Although no "new taxes" were levied, it will cause a resumption of the constitutional maximum of .35 rate. Much new money will be received by reason of increased valuations of property, and from the omnibus tax on gasoline, automobiles, liquors, cigarettes, etc.

There seems to be no outstanding enactment. Nine labor laws were passed, but it remains to be seen whether they will affect our labor struggles any more than the others heretofore.

Perhaps the more noticeable acts in the proposed measures it failed to pass. These include the secret ballot amendment to our present election laws; the parimutuel race track betting; chiropractor licensing; the basic science, or medical bill requiring practitioners in every branch of human treatment to pass a Medical examination, which would have practically put the Chirosts and osteopaths out. They also failed to enact laws carrying out the Veterans Land purchase, carried last summer by the voters in to a constitutional amendment. Defeated State wide prohibition proposal, nor did it remove the present ceiling for old age pensioners.

One of the hottest potatoes on the legislative menu was the so-

### RUDOLPH MOORHEAD TAKES POSITION WITH BROWNFIELD FUNERAL HOME

Rudolph Moorhead, who recently resigned his position with the J. B. Knight Furniture Co., has accepted a position with the Brownfield Funeral Home.

A resident of Terry county for approximately 20 years, Moorhead's friends will be glad to know that he is in charge of the Insurance Dept., and is ready to serve the public in that capacity.

Roy B. Collier returned Wednesday from a State Funeral Directors Convention held in Fort Worth. He was accompanied by Lewis Simmonds who will start his vacation after the convention.

Chief of Police Tom Cornett and Mrs. Cornett spent the weekend in Lamesa with her mother, Mrs. A. A. Morris.

called Fair Trades measure. It passed the Senate, but was defeated in the House Committee. This bill would have permitted manufacturers and processors to fix the retail price on all registered trade mark products, calculated to suppress competition among retailers as well as also fix their margin of profit.

Last, but not least, to South and West Texas was the debacle of the redistricting bill, which was by-passed. Instead they will submit a constitutional amendment at the 1948 election, providing if the 1951 legislature fails to redistrict on the 1950 census, then the Lieut. Governor, Speaker of the House, Attorney General, Land Commissioner and Comptroller would do the redistricting, which would become law. The state has not been redistricted as to Legislators, since 1921.

## Dead Wrong

### NO PRISONERS! SHERIFF GETTING BORED

Sheriff Ocie Murry stated this week that for the first time since he has been in office his jail is empty.

There are no applicants on hand and if business doesn't pick up soon he is going to the wheat harvest.

Leonard Chesshir, former gin man at Forrester, but last two years of Hedley, with his family, moved back to Brownfield to become associated with his brother, Herman, in operation of two gins here this promising season.

Mrs. Elmo Schaffner Shower Honoree

Miss Kathleen Hardin and Mrs. Joe Hardin were hostesses with a pink and blue shower June 6th at the home of Mrs. Hardin naming Mrs. Elmo Schaffner honoree.

Contests furnished diversion, and the winners, Mrs. Jack Wilson and Mrs. Ulee McPherson, received ivy vases. Miss Hardin sang, "A Little Child Shall Lead" and Mrs. Hardin made a presentation toast as she presented the gifts.

Refreshments of punch with pink and blue ice cubes and cakes iced with pink and blue rosebuds were served from a table centered with a stork flanked with arrangements of garden flowers.

Guests were Meses. Wilson, McPherson, Lewis Simmonds, W. B. Downing, Tobe Power, Douglas Samson, Pete Crump and daughter, Jacqueline, A. D. Schaffner, W. H. Schaffner and Jake Geren. Those sending gifts were Meses. Glen Webber, Jack Browder, Pete Allen, A. E. Bowman, J. T. Bowman, Harvey Gage, Nathan Woolsey, Rudy Lewis, Maury Lewis and Miss Kathleen Marchbanks.

Peterman-Moore Weddings Vows Said In San Angelo

The wedding of Miss Marie Peterman, daughter of Mr. and Mrs. O. L. Peterman of Brownfield, and John M. Moore, son of Mrs. Omega J. Moore of San Angelo, was read Friday night at 8 o'clock at the San Angelo Emmanuel Episcopal church. Rev. Philip Kemp performed a single ring service before an altar lined with baskets of white gladioli.

Given in marriage by her father, the bride wore a white sheer wool suit with black accessories and a green orchid corsage. Mrs. O. O. Dodson of Galveston, matron of honor, wore a black crepe suit with black and white accessories and an orchid.

J. E. Carrol of San Angelo was best man and Burl Hubbard of Lubbock, soloist, sang "O Promise Me."

Following the ceremony, the couple left on a wedding trip to the Gulf Coast and New Mexico.

The bride is a graduate of Texas Technological college where she was a member of Forum, Junior council, Alpha Chi, Theta Sigma Phi and Las Chaparritas, social club. The bridegroom attended Tech, also, and both are former reporters on San Angelo Standard Times.

Including out-of-town wedding guests were Mrs. Katie Mims of Christoval, grandmother of the bridegroom; Mrs. R. T. Coffee of Brownfield, grandmother of the bride; Mrs. Chester A. Hubbard, Miss Anne Birkman and Miss Jane Hess, Lubbock.

Mrs. Elmore Carver of Amarillo was a week end guest in the home of her sister, Mrs. Cecil Smith.

Jimmie Jackson, Wed To Albert Barber In Local Ceremony

Miss Jimmie Jackson, of Roswell, daughter of Mr. and Mrs. Jim Jackson, of Brownfield exchanged vows with Albert L. Barber, of Roswell Saturday, June 14 at two o'clock at the home of the bride's parents. Mr. Barber is the son of Mr. and Mrs. A. L. Barber of Capitan, N. M.

Rev. Ed Tharp read the double ring service before an improvised altar of baskets of pink and white larkspur and babysbreath.

Mrs. M. C. Motheral, of Pyote was her sister's matron of honor. Darrel Jackson, brother of the bride, served as best man.

The bride wore a two piece white crepe suit with white accessories and carried an arm bouquet of red rosebuds. For something old she wore a wedding band of her mothers that belonged to her great, great grandparents. A pair of blue combs belonging to Mrs. Tharp was something borrowed and blue.

A reception followed the ceremony. A three tiered wedding cake and punch were served from a table laid with a white lace cloth and centered with an arrangement of pink roses and sweetpeas flanked with pink and white candles. Meses. Cleve Williams and W. B. Downing presided at the table. Pink and white roses were used throughout the reception rooms and members of the houseparty wore corsages of sweetpeas and roses.

Mrs. Barber is a 1942 graduate of the Brownfield high school and a graduate of the Big Spring Business college. She has been in Civil Service work since her graduation and is now employed at the Air Base in Roswell.

Mr. Barber is foreman of the electric shop at the air base.

The couple left for a three weeks wedding trip to Denver, Colo., and Dayton, Ohio. For travelling the bride chose a two piece dress of gaberdine and white accessories. After their wedding trip they will be at home in their newly constructed home 407 W. Tenth St., Roswell.

Out of town guests were Mr. and Mrs. A. L. Barber, Miss Ann Barber and Henry Barber, all of Capitan, N. M.

PICKETS HOSTS WITH SUPPER

Mr. and Mrs. A. T. Pickett were hosts with a supper June 7th honoring Mr. and Mrs. Rayborn Goolsby, of San Antonio, who were here visiting.

Guests were Messrs. and Meses. W. I. Pickett, R. I. Pickett, Thurman Pickett and children, Mack Pickett, Loyd Pickett, C. W. Coats and son and A. C. Rowden and sons.

Mrs. Del Smith and daughter left the first of the month to join Mr. Smith in Glendale, Ariz., where they are making their home.

Graham-Orme Vows Read in Glendale Arizona

In simple but impressive rites, Marguerite Graham and Bill Orme exchanged their marriage vows June 4th in a ceremony held in the home of the bride's parents, Mr. and Mrs. Mumford Smith, 164 West D Avenue, Glendale, Ariz. The Rev. Walter Hoffmann, pastor of the Christian church, was the officiant.

The bride wore a powder blue, sheer brocade frock with all-white accessories. Her flowers were orchids fashioned into la corsage. For "something old" she wore the pearls belonging to her grandmother, Mrs. W. C. Smith of Brownfield, for something "borrowed" and "blue" she carried a blue handkerchief belonging to Mrs. Del Smith.

Attending the bridal pair were the bride's uncles and their wives Mr. and Mrs. A. H. Smith, and Mr. and Mrs. Del Smith. Other wedding guests were Mr. and Mrs. H. L. Renick, Gloria Smith, and the bride's parents.

At the reception following, the wedding cake was cut and served with punch. Bouquets of glad-

Mr. and Mrs. Sawyer Graham were in El Paso over the week end. Mr. Graham's son, Mumford, of Glendale, Ariz., returned home with them to spend the summer.

Mr. and Mrs. Lester Ericson and of Lubbock visited Rev. and Mrs. H. L. Thurston Sunday evening.

Following a wedding trip to Nogales and other points in old Mexico, the newlyweds will return to their new home at 232 North 3rd Avenue in Glendale, and will be at home to friends after June 8.

The bride, whose father is a well known Glendale business man, has made her home in Glendale since she was a small child and received her education in the local schools.

The bridegroom, a former resident of El Paso, Texas, is the son of Mrs. Elizabeth Orme of that city. Before the war he served as a flying instructor at the College of Mines in El Paso. In 1942 he came here and was a flight commander at Thunderbird Field. For the past year he has been instructing at Air Haven.

MISS JEAN KINARD LIKES MISSION WORK

Miss Jean Kinard, daughter of Mr. and Mrs. Virgil Kinard of Rt. 1, is working with the First Mexican Fundamental Baptist Church at 1618 Durango St., San Antonio and states that she likes her work fine. She began her duties March 11 and is a teacher in the Junior Dept.

Miss Kinard dedicated her life to mission work August 14, 1945 and was a member of the North Side Baptist church while here in Brownfield. She plans to spend her vacation here with her parents.

THARP HOME SCENE OF TRIPLE WEDDING

The home of Rev. and Mrs. Ed Tharp was the scene of a triple wedding Sunday evening when three couples from Lubbock exchanged vows with Rev. Tharp officiating. The couples were Miss Lillian Wava Smith and H. R. Lankford, Jr.; Miss Betty Lou Cone and Billie Gene Petree and Miss Ruth Ater and Hal Sparks Langford.

Rita Mullins, of Sterley, visited Wanda Tomlinson last week.

MEADOW H D CLUB MEETS WITH MRS. GOSSET

Mrs. Sam Gosset entertained the Meadow H. D. Club in her home June 17. Club was called to order, old and new business was discussed. The club voted to enter the Bewley's baking contest.

The program was then turned to Miss Dunlap, our demonstrator. The subject of the program was Walls and Wood Work. We were happy to have her with us again, after a period of four months. However she will meet with us most every month the rest of the year. All enjoyed her program. A number of helpful points were given.

Refreshments of ice cream and cake were served to ten members and one visitor.

The next meeting will be in the home of Mrs. Watkins, July 1.

Friday night, June 13 the H D ladies entertained their husbands and family with a supper in the lunch room. Fried chicken, salads, ice cream and cake were served. 42 was played in-between.

Mrs. W. E. Latham and son, Bobbie left Tuesday for Dallas.

THE PRESIDENT OF THE UNITED STATES: "The problem of lowering the highway death rate remains one of the nation's most serious problems. It is an appalling fact that 33,500 American citizens were killed in automobile accidents in 1946. I therefore call upon every State and every community in the land to work unceasingly through 1947 to promote highway safety.

"Laws and regulations will be of little avail unless the individual driver holds himself strictly accountable to his own conscience."

That call is to you personally to cooperate as a citizen of the United States in helping reduce highway accidents. It is a shameful record when in one year 33,500 lives are sacrificed; 1,150,000 persons are injured and \$750,000,000 in property destroyed, resulting in an economic cost to the nation of \$2,000,000,000 because of careless, reckless driving.

It is a national problem, but essentially the solution is in your hands. Drive safely — live and let live!

[ This is the first of a series of advertisements presented in the public interest by the President's Highway Safety Conference and the daily and weekly newspapers of the nation through their Press and Publisher Associations. ]

SANITONE SERVICE

Is Really Different and Better Than Any Other Dry Cleaning

- ★ PERSPIRATION STAINS AND ODORS REMOVED
- ★ SPOTS GONE—MORE DIRT REMOVED
- ★ COLORS REVIVED TO ORIGINAL BRIGHTNESS

We invite you to challenge our Sanitone Dry Cleaning Service! You'll be amazed at the difference you can actually see and feel in the very first garment we dry clean for you.

"OVER 40 YEARS OF CONTINUOUS SERVICE"

Mr. and Mrs. Roy Jenkins returned Sunday from a three weeks vacation trip to Portland, Ore.

Akron and Mason Gorby, who have been attending school in San Angelo are now at home for the summer.

**3 HARVEST SEASONS every year**  
Spring—Summer—Fall

**ALL-CROP HARVESTER**  
"SUCCESSOR TO THE BINDER"

Risking your whole year's work and investment in a single crop is no longer necessary.

The All-Crop Harvester handles a wide variety of crops that mature at intervals from spring till snow flies. You have money coming in during three seasons instead of one.

Early clovers and grasses open the harvest season in late spring and early summer... followed by summer-ripening grains... then fall seed crops, sorghums and soybeans.

**Babson Discusses Company Earnings**

BABSON PARK, Mass. June 20—This is no time to make forecasts as to business in 1948. Personally, I think it will be better than most people predict; but when it comes to net earnings, after taxes, I fear they will aggregate less in 1948 than in 1947. THE YEAR 1947 should see the tops for such net earnings for most of the large corporations. With the public pressing for lower prices, with labor and taxes pressing from below causing higher costs, the net earnings of most companies are sure to shrink.

Commodities are beginning to crack due to competition. Only farm legislation is holding up parity prices at the present time. Even the farmers themselves know that their present honeymoon will someday be over. Moreover, wages have not yet stabilized. Certain groups are entitled to further increases and will get them; but workers' efficiency will soon begin to improve. When we know some idle man is waiting for our job, we will speed up and give a dollar of work for a dollar received.

Real Estate— with the exception of distressed sales—should remain at about present levels for some time further, although there has been a slowing up in real estate sales. Inflation has always been in operation over long periods. The recent inflation epidemic has about reached its climax for the present. The next move within a few years will be toward deflation, followed later by further inflation. The price breaks which started in with the fish industry a year ago, are now threatening real estate and commodities.

Stock Market: If wages, commodities, real estate, etc.—based upon the money in circulation—are entitled to stabilize at around 50-100 per cent above 1932, as the fiscal authorities claim, the stock market is entitled to do likewise. Therefore, when wondering whether to buy or sell any stock, it is wise to look up the price overage in 1932-33 and add 50-100 per cent. Moreover, it should be remembered that stock prices depend much more on earnings than on reproduction costs.

The Next Depression will be brought about by one of the wheels of the business machine cracking. This will stop the entire machine for the time being. Perhaps the cracking wheel will be farm prices; perhaps foreign trade; perhaps labor unions; and perhaps government finance. It seems too bad that a depression seems to be necessary once in a while, but such is required in order to awaken in people the desire to work and produce to their best ability. If you will read the Preface of my book, "Fighting Business Depressions," published in 1933 by Harper & Bros., New York, you will see I then forecast on the fly leaf that the next severe depression would come between 1950 and 1955.

The Greatest Danger of a depression comes through forced distressed sales in commodities, real estate, stocks and even labor. The greatest service which any employer or investor can render is to store up cash now in times like these in order to help out when these later distressed transactions appear. For every additional person doing this, future distressed quotations will be less severe. Moreover, the investor or employer will be very highly rewarded for his foresight.

Small Businessmen especially

**Cotton Balance On Hand Lowest Since 1928-29 Season**

AUSTIN, June 13.—The United States cotton balance sheet shows a May 1 balance of 5,792,000 running bales on hand, the lowest May 1 balance since the 1928-29 season when it slid to 4,701,000 running bales, according to the Texas Business Review, monthly publication of The University of Texas.

Balance on hand at this time during the 1945-46 season was 11,115,000 running bales. The August 1 carryover this year is 7,522,000 running bales compared to 11,164,000 at the same time last year.

"The cotton industry is going through that period of drastic adjustment which normally follows the end season of a short cotton crop," Dr. A. B. Cox, professor of cotton marketing in the College of Business Administration, stated in the Review.

"As the new crop movement approaches with supplies being offered at substantially lower prices, the pressure on the price of spot cotton for end season delivery increased. Unpledged cotton hedged in July must be transferred to a new crop month at a loss in the base price if discounts in new crop months continue through July.

"Best interests of mills will not be served by taking June and July deliveries beyond actual requirements at prevailing premiums."

The basic dynamic force in the cotton market is the prospect for the 1947-48 crop. "The predominance of sentiment so far is the belief in a substantial increase in

acreage and production, not only in the United States but throughout the world," according to Dr. Cox. "This belief, coupled with a belief in a substantial business recession during the first half of the cotton year beginning August

1 and growing buyer resistance to present prices of cotton goods are the factors now governing cotton prices."

Mr. and Mrs. James L. Reast spent last week end in Spur.

*and simply Terrific*

SLIP into this one — and you'll have to hang on tight to keep your spirits from soaring right out of this world.

There's no trimmer, tidier, fresher bit of automotive styling anywhere in sight, and never in your life have you had more of the makings of fun and adventure right at your finger tips.

You handle a wheel that seems moved more by your wishes than your muscle.

You boss a big Fireball straight-eight whose mission in life is taming tall mountains and making the miles cry "Uncle!"

You take your ease on broad, soft Deepflex cushions — flick the proper control, and the door windows run up to serve as wind-screens, the top swings into place

against a sudden storm, or the front seat adjusts itself to your perfect comfort.

All the while there's the good steady feel of Buick solidity beneath you. There's the fluent, easy stride of wheels cushioned all around by gentle coil springs. There's size — and room — and levelness — and that mastery of good roads and bad found only in a performer that's built to star in any company.

A buy? But naturally! Nowhere but in Buick will you find all this

smartness — nowhere but in a Convertible do Buick power, size, comfort and steadiness pay off so handsomely in sheer joy in going places.

So count yourself lucky if your order's in. Or, if it isn't, count yourself smart if you nail one down without further urging.

For while we'll take your order any time, with or without a car to trace, only you can make sure (by placing your order) that no one else is going to get ahead of you.

**ONLY BUICK HAS ALL THESE STAR FEATURES**

**CHAMBLISSES ON TOUR WITH THEATRICAL GROUP**

Woodrow Chambliss and wife, who are associated with the Ojai Festival Players are currently on tour with the group. Most of the central California points will be played, with a three night performance scheduled for San Francisco on June 19, 20 and 21.

Chambliss, upon graduation from Brownfield high school, went to Baylor University, where he received a dramatics scholarship to study in England under Chekhov. While in England, he met his Austrian-born wife, who was also with the Chekhov group. The Chamblisses have been residing on the West Coast the past several years.

Mr. and Mrs. Oliver A. Wheat made a business trip to Tulsa and Oklahoma City last week. They also visited Mr. and Mrs. W. L. Johnson at Dill City, Okla., and Mrs. Marie Golightly at Texola, Okla. Enroute home they visited Mrs. Wheat's uncle, A. J. Golightly at 4121 Bryan Mawr, Dallas and spent the week end visiting Mr. Wheat's mother, Mrs. Sue Wheat at 2117 Riverside Drive, Ft. Worth.

Mr. and Mrs. N. R. Butcher and daughters returned Saturday from a weeks trip to Carrizo Springs where they visited his parents and Mrs. William Butcher. As they are former residents of Brownfield their many friends will be glad to know that they are both feeling fine.

Mr. and Mrs. Albert Bateman and daughter, of Altus, Okla., were week end guests of Mr. and Mrs. Ben Baggett.

**SHORT STORY**  
**Nice Old Girl**  
By MARGARET COBB

WHEN Sally Carter spied the crisp green of the bill lying against the white of the sidewalk that bordered the engineering building, she dropped the handle of the baby carriage and swooped down upon it.

"Look, Richey, look!" she cried happily to the cheerful bright-eyed boy in the carriage. "A ten-dollar bill—a real, brand new ten-dollar bill. I found it myself, and I can spend it any way I please!"

Turning the carriage briskly to return the way she had come, Sally sped her son back toward the trailer camp that nestled at the foot of the hill, a haven for married student veterans.

Once inside her trailer home she hurriedly hung the pinafore in the tiny clothes closet and reached for her best skirt and sweater. "Do you know what I'm going to do with this money first thing, Richey?" she cried happily. "I'm going to get you a play pen, so you can stay out in the fresh air all day long and have plenty of room to wiggle around in."

Sally dropped the sweater to give the baby a quick, impetuous hug. "We'll get Daddy that pipe he wants, and maybe there'll be enough money left over to get me some dress material!"

Speeding joyfully across the campus toward town, her hand straying

**3 Minute Fiction**

In mid-afternoon, about the time Sally was unwrapping her gifts, often to the money in her pocket, Sally suddenly slowed her pace, her face sober.

"Ob, dear," she thought, "I've been so happy about having some money all my own that I hadn't even occurred to me that it belongs to someone else. Ob, dear!"

PARKING the carriage at the door to the engineering building, she entered, hesitated a moment outside a door marked "Office," and went in. The secretary looked up as Sally laid the bill on the desk.

"I found this outside the building, Miss Hanson, so I guess it belongs to someone in here." She was talking fast, turning to leave.

"Wait a minute, Mrs. Carter," the older woman called. "You may as well keep it. I don't see how we can ever find out who it belongs to. 'Finders keepers,' you know. Now you just run along downtown and see what you can find to buy."

"Do her good to have some money all her own," Miss Hanson muttered as the door closed. "Of course I should have held it a day or two in case anyone asked about it, but that child probably hasn't had a dollar to spend as she likes since Richard entered here!"

In mid-afternoon, about the time Sally was unwrapping her new purchases at home, Richard Carter was frantically going through his pockets.

"I know I brought it with me," he muttered as he searched one pocket after another. "Good grief, what'll I do? It's all the money we had left for the rest of the month—a nice new ten-dollar bill. I must have dropped it when I opened my billfold sometime today."

In mid-afternoon, about the time Sally was unwrapping her gifts.

A MOMENT later, as he was explaining his plight to the secretary, he was relieved to see a quick look of comprehension in her eyes. "You haven't had it turned in, have you?" he finished hopefully.

"Why, yes," she replied slowly, "I have. At least, a young lady gave me a ten-dollar bill this morning and told me she'd found it outside. It must have been yours. Wait a minute, I put it in my pocketbook for safekeeping."

Reaching into a drawer in the desk, Miss Hanson pulled out a well-worn black bag. After a moment's search she found a bill, tucked away with several one-dollar ones, that was crisp and new and had the numeral "10" in its corners. "Here it is," she said, handing it over with a smile.

The boy took the money with a grateful grin. "Well, thank goodness—we can eat for the rest of the month, anyway," he said as he left the office. "Thanks a million, Miss Hanson!"

**Mail Storage Box**

A Texas rancher thought up this idea to keep mail order packages as well as letters out of the wet weather.

An old oil drum is used as the base. The opening in the mail box

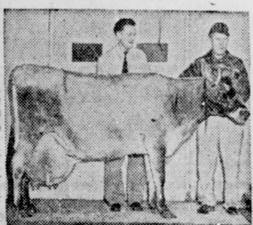

Combination mail box, receiver, designed by a Texas rancher.

base was cut out with an electric arc welding machine, using the carbon arch. Then, hinges were welded to the drum, and the cut-out section, as shown in the sketch, provided a door.

Packages placed in this old drum will remain dry until they are picked up.

**Wins 'Ton of Gold' Award**

Dinah Lady, winner of the "Ton of Gold" award.

Dinah Lady, 750-pound Jersey, owned by Walter Welkner, Jacksonville, Fla., recently announced as the "Ton of Gold" award winner of the American Cattle club, for having produced 3'121 pounds of butterfat in a 48-month period, during which time she produced four calves.

Welkner has been credited with maintaining as good a permanent pasture as can be found. In addition to grass, the cattle feed on lespedeza and Italian rye.

**THE NEILLS HAVE VISITORS**

Mesdames Ellen Joiner and Julia Thompson of Sweetwater, sisters, with Burton Powell of Freeport, a brother, spent Sunday here with their sister, Mrs. Geo. W. Neill. Also Lillian Burnett with husband, C. T. Burnett of Abilene, Dora Dean Buce and family of Lubbock and Coach Jim Neill of Lamesa took advantage of Fathers Day to visit their mother here.

Mrs. Arch Evans of Stephenville spent Tuesday here visiting her relatives, Mrs. Kyle Graves and Mrs. Sharlene Schellinger. Mrs. Evans was also seeking information and plans of the new Church of Christ building, with view of duplication at her home town.

John Earl Dalton, Jimmy House, Morgan Copeland, Alfred Mangum, Flo Dean Stafford, Eleanor Miller, Jane Weir, Marion Wingerd, Mrs. Bit Copeland and Mrs. Roy Wingerd spent the latter part of last week at the Wingerd cabin in Ruidoso.

Mrs. Lula Tomlinson of Slidell is here visiting in the home of her son, Walter Tomlinson.

**DOES YOUR WASHER NEED A DOCTOR?**

If you're not getting one of our grand New Maytags right away, better let us help keep your old machine working. Whatever its age or condition, we will promptly put it in best possible working order, replacing worn parts, if necessary. Phone today for a service man to call and give accurate cost estimate.

**All Household Appliances Sold On Liberal Terms**  
**J. B. KNIGHT HARDWARE**

Mr. and Mrs. K. D. Sneedecker and children returned Monday from a business trip to Oklahoma City. Mrs. Sneedecker and children visited her mother.

Mr. and Mrs. Leftie Hardy made a business trip to Friona, Texas this week.

AMM 1/c and Mrs. Elmo Schaffner left last week for San Diego, Calif., where he will be stationed.

Scott Walker, pioneer settler of his county, but now living at Fort Springs, N. M., was visiting here last week.

Mr. and Mrs. Grady Dickson of Gomez had as their house guest this week Mr. Dickson's father, Mr. J. L. Dickson and his brother-in-law, Sid Grant, of Deport, Texas.

Mr. and Mrs. Sam White visited Mr. and Mrs. Harold Watson in Denver City Sunday.

James Parker Davis, former groceryman here, now of Houston, and wife were here this week visiting her parents the John Burnetts.

Alfred Mangum Jr., attending school at Trinidad, Colo., and his mother, Mrs. Helen Mangum, who has been with relatives at Canyon City some time, are spending the week here.

Mr. and Mrs. Gordon Alexander with their niece, Miss Laverne Watson, left Sunday for a two weeks vacation through Colorado and California. Mrs. G. G. Pri-vett will fill her place as assistant to Dr. Roberson.

Mr. and Mrs. N. R. Butcher were hosts Sunday noon with a fish dinner, the fish were caught by Mr. Butcher on his vacation in Carrizo Springs. Guests were Messrs. and Mmes. Fred Baldwin and family, Truman Baldwin and family and Preston Daniel and family.

Miss Margaret Bell and Mrs. Frank Weir spent the latter part of last week in south Texas. Miss Bell visited her sister, Mrs. Regis Quinlan in Robstown and Mrs. Weir visited Mr. and Mrs. Clarence Taylor in Alice.

Miss Alpha Joyce Parker, of Tempe, Ariz., is here visiting in the home of her brother and his wife, Mr. and Mrs. Monk Parker. The Parkers attended the graduation exercises of the Tempe high school, where Miss Parker received her diploma the first of June.

**Farm Topics**

**Herds and Flocks**

Teach early pigs to eat grain and protein by providing a feeder in a creep—where they can go and eat while still nursing the sow. This way the pigs won't quit gaining when weaned from the sow.

If you neglected to keep a record of farrowing dates, you can come pretty close to telling when pigs will arrive by examining the sow's

udder. Most sows farrow about 24 hours after milk starts filling the udder.

Poultry disease is less of a problem when young chicks are kept apart from older birds. Selling off all old hens and raising a new batch of pullets each year is a paying practice. An all-pullet laying flock, the poultry experts call it.

Trim wool from around the ewe's udder before lambing time. A newborn lamb will sometimes suck a lock of wool instead of a teat. Result, starvation.

Newborn calves should have the cow's first milk (colostrum) because it is richer in vitamin A than milk produced some time after freshening.

**Knock on Henhouse Door Pleases 'Girls'**

Ladies are sticklers for etiquette and hens are no exception, according to Arthur Gannon, poultryman of the Georgia extension service.

Etiquette demands a knock on the door before entering an occupied room, he points out, and this is a good point to observe when visiting the poultry house.

When the poultry house door is opened suddenly, hens flutter around and scamper for the back of the shed in the excitement. As a result, egg production drops.

On the other hand, if the poultryman raps gently on the door of the house and then waits for a moment or two before entering, the hens become ready for the entrance of the visitor. There is no excitement and no drop in egg production, he says.

Mrs. Strain, from Crane, was here this week visiting her daughter, Mrs. L. H. Brannon, on East Broadway.

Mr. and Mrs. P. R. Cates and daughter and Mr. and Mrs. Albert Anderson spent the week end in Ruidoso.

Mrs. Bernard Lay was called to Big Spring Thursday on account of the serious illness of her father, J. A. Roberts of Coahoma.

**Here's the Answer to SHORTER - MORE PROFITABLE Cotton Harvests!**

Harvesting cotton in a **once-over operation** is the short cut to bigger profits. Get this advantage by stripping and delivering cotton, two rows at a time, with a labor-saving John Deere No. 15 Cotton Harvester.

Designed to work with the John Deere "A" and "B" Tractors, the No. 15 is a simple, sturdy, long-lived machine that does a fast, efficient job of saving bolls after the cotton plants have been killed by frost. Many gin operators state that cotton stripped by the John Deere is cleaner than that pulled by the average hand puller.

This year, to make short work of your cotton harvest—use a John Deere Cotton Harvester. See us for complete information the next time you're in town.

NOTE — John Deere Harvester also works with the model "G" Tractor.

**NOTICE TO BIDDERS**

Sealed proposals will be received by the City Council of the City of Brownfield, Texas, at the office of the City Secretary, City Hall, Brownfield, Texas, until 8:00 o'clock P. M., July 11, 1947, for THE CONSTRUCTION OF A 25' x 60' EXTENSION TO THE PRESENT CITY HALL BUILDING AND REMODELING OF EXISTING CITY HALL STRUCTURE, on plans and specifications prepared by BUTLER-BRASHER CO., Architects, 406 Avenue "M", Lubbock, Texas, and at which time and place the proposals will be publicly opened and read aloud.

The proposals must be accompanied by a bidder's bond or Certified or Cashier's Check in the amount of ten (10%) percentum of the total bid price, payable without recourse to the City of Brownfield, Texas, as a guarantee that the bidder will enter into a contract and execute a performance bond in the forms provided within ten (10) days after notice of award of contract to him.

The successful bidder will be required to furnish a performance Bond of 100% of his total bid, written by a responsible surety Company satisfactory to the City Council of the City of Brownfield, Texas. The City reserves the right to reject any and/or all

**WESTERN STOCK YARDS FETE THEIR EMPLOYEES**

The Western Stock Yards here, Coy Maroney, manager, feasted their employees and families last Saturday evening with a barbecue. The employees dined on one of the several thousand Safeway steers that have been fattened out here. Approximately 250 people attended the affair.

Mr. and Mrs. Bill Beck of Stephenville, Texas spent the past two weeks visiting in the home of Mrs. Beck's parents, Mr. and Mrs. J. P. Lewis. The couple are former residents of Brownfield. Mrs. Beck was Mary Helen Lewis before her marriage.

Mr. and Mrs. Ladd Brownfield and son Stephen Lynn left Friday for a two weeks vacation in Corpus.

Plans, specifications, and other proposed contract documents are on file at the office of the City Secretary, City Hall, Brownfield, Texas, and at the offices of Butler-Brasher Co., Architects, 406 Avenue "M", Lubbock, Texas.

Frank Jordan, Mayor  
City of Brownfield 48c

**GOOD NEIGHBOR CLUB MEETS THURSDAY**

The Good Neighbor Club met Thursday June 12, with Mrs. L. V. Wagner and celebrated its first birthday.

New officers were elected for the following year, Ruth Holleman is the new president and Mrs. J. C. Cunningham is reporter.

A quilt was tacked and hemmed and another quilt top pieced for the hostess.

Refreshments of sandwiches and cold drinks were served to the following:

Mrs. W. H. Wagner, Mrs. Milton Wagner, Mrs. Dalton Warren, Mrs. W. V. Fenter, Mrs. J. C. Cunningham, Mrs. Houston Stephens, Mary Belle Warren, Ruth Holleman, Maureen Wagner, a new member, Mrs. Louise Riley, the hostess and several children.

The next meeting will be with Mrs. Milton Wagner, Thursday June 26. Everyone come and bring your thimble.

Mr. and Mrs. K. B. Sadlier, of 112 Lamesa Road, announce the birth of a son, June 13. The baby weighed 7 pounds and 9 ounces at birth and is named Gary Eugene.

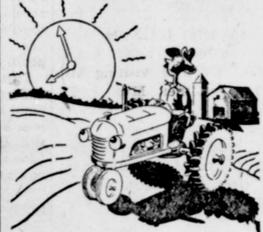

Miss Forrest Steen, an assistant city clerk, returned this week from Houston and Galveston, where she has been vacationing.

The Bagby Circle of the Baptist Women's Missionary Society met in the home of Mrs. G. W. Graves Monday afternoon for a program taken from the Royal Service magazine. The program topic was The American Negro and Mrs. Ame Flache was program chairman. Others taking part on the program were Mmes. John Jenkins, Roy Phillips and D. L. Patton. Mrs. L. C. Heath gave the devotional.

Dr. and Mrs. Gordon Richardson have as their houseguests Dr. Richardson's mother, Mrs. Sam S. Richardson and his brother and family, Mr. and Mrs. S. S. Richardson, jr., of Bay City.

Unofficial estimates are that the ABC Rodeo, held in Lubbock last week will clear in the neighborhood of \$26,000 when all accounts are settled. Proceeds are to be used for the erection of a building housing a swimming pool, recreation rooms and a library for the Lubbock Boys Club.

**Farming by the Clock**

Old Man Weather sometimes gives a farmer only a short time to do critical field work. Minutes and seconds count. The farmer must be a natural "clock watcher."

Mechanical power that gets the job done in the limited time when the weather is right may mean the difference between good crops and a profit and short crops and a loss.

**Chemical Dehorning Greatly Improved**

**Less Painful Solution Produced for Process**

While livestock specialists and dairymen generally have widely used caustic sticks and pastes for stopping horn growth on calves, the method always met with some objections.

The caustic sticks caused extreme irritation to the animal, and failed to stop horn growth effectively as a result of the animal rubbing the chemical off. It also resulted in injury to the animal's face and eyes due to careless application—often causing injury to other animals.

A new type of chemical dehorner has been found that promises to overcome the disadvantages. The new product is an escharotic solution in which antimony trichloride and salicylic acid are combined. It is much less painful to animals than caustics containing hydroxides. It has another advantage in that it does not extract fluid from the tissue, causing runny sores. It also dries quickly.

When applied to a horn button the escharotic solution forms a tough film that is not washed off by rain. An eschar forms beneath the film, and when it sloughs off, the horn button comes out with it.

Miss Betty Sue Mache is, of Seymour is here visiting the Ray Haileys, Jim Quintons and J. B. Worshams. Her cousin, Jo Anne Machen, also of Seymour, who came with her returned home over the week end.

Superintendent Lee Fulton, is in receipt of the last installment of the \$35.00 scholastic apportionment for last year. The apportionment for the next two years will be \$55.00.

## Swimming Pool Standards Outlined

AUSTIN, June 13, A pamphlet entitled "Minimum Swimming Pool Standards" is being distributed by the State Health Department throughout the State to operators of swimming pools or other interested parties according to Dr. Geo. W. Cox, State Health Officer.

The standards set up were prepared for the protection of public health and include recommendations of the Joint Committee on Bathing Places of the Conference of State Sanitary Engineers and the American Public

Actual construction of the machine shop building on the southeast portion of the school grounds was begun this week and will be pushed to completion in time for the next school term. The building, 30x50 of brick is to be used for agriculture and vocational training, a regular course in the school.

Health Association. These standards provide for proper sanitation practices at all types of pools from the "fill and draw type" to the modern "recirculating type."

Some of the specifications for standard sanitation are that the bacterial quality of the water should be equal to that of safe drinking water; frequency of changing or recirculating water should be such that maximum safety will be provided as well as proper economy; the water should be sufficiently disinfected to kill all disease bacteria and standards for clearness and algae control should be enforced.

Dr. Cox advises that the State Department of Health offers many services to the pool manager or operator. These services include free bacteriological analysis of the water, free kits for making chlorine residual tests on the water, and information and advisory service on any problem that may be encountered in sanitation, engineering, or operation. All operators or managers are invited to write the State Health Department if they wish to obtain the bulletin on pool operation or a free chlorine residual testing kit.

## SIDELIGHTS From Washington

By George Mahon

Friends of the Army Air Forces and the cause of national defense won a victory in the House of Representatives last week which will be a warning to the world that the United States is not planning to surrender her position as the world's greatest air power.

The controversy over U. S. air power arose when the Appropriations Committee, the Committee upon which I serve, slashed \$40,000,000 from funds recommended for the purchase of new airplanes. The requests for the funds had been made of Congress by the Chief of the Army Air Forces, the Secretary of War and the President. The Committee then requested the House to approve the slash.

In Committee I had offered an amendment to restore the airplanes which had been denied but I was overwhelmingly defeated. When the bill came up in the House of Representatives I took up the fight again, re-offering the amendment to restore the funds for the airplanes.

The Republican leadership fought the amendment and the question was heatedly debated for a part of three days.

Finally, in the last half hour of the debate, Congressman Andrews of New York, the Republican Chairman of the House Committee on Armed Forces, took the floor in support of my amendment and in support of my contention that the Appropriations Committee had misrepresented the facts and the figures in regard to army air power. This broke the back of the opposition and shortly thereafter the amendment was accepted and passed the House. A number of Members of Congress from Texas were very aggressive in the successful effort to restore the funds.

I argued that it would be inexcusable for us today, or at any future time, to start down the road to a second rate air force

and an inadequate national defense program. It was stated that the defeat of the airplane request would be a straw in the wind which would lead to dangerous international consequences. I pointed out that the army appropriations bill contained savings in funds to the extent of \$475,000,000 and that the expenditure of the additional \$40,000,000 provided in my amendment for army airplanes would not seriously interfere with the economy program.

Without my amendment there were already sufficient funds in the bill to provide 561 airplanes. With the amendment the bill provides for 749 aircraft of the latest type, the planes to come off the assembly line within two years.

Funds were not reduced for the National Guard, the ROTC units in high schools and colleges, and Reserve Officer training otherwise. No cut was made in funds requested for the important work of research and development. The bill reduced War Department civilian personnel by 74,600 employees and officer personnel by 18,000, it being felt that the Army

Mr. and Mrs. Joe Gideon and his mother of Canyon, were in Brownfield Monday. Mr. and Mrs. Gideon visited Mr. and Mrs. Tommy Hicks as Tommy and Joe were buddies during their overseas duty. Mrs. Gideon visited her sister, Mrs. J. W. Hogue. The Gideons, Mrs. Hogue, Mrs. Jack Benton and Mrs. Wayne Brown left Tuesday to attend funeral services of a sister of Mrs. Hogue and Mrs. Gideon.

Junior Brown was slightly injured when the car in which he was riding, driven by Dale Miller, was in collision with another driven by Darrel Jackson at the intersection of 5th and Seagraves highway. One of the cars was heavily damaged.

Mr. R. L. Walker was a surgical patient in the Treadaway-Daniell hospital from Friday to Wednesday.

was somewhat top heavy with officers. The bill provides for an army of 1,070,000 men during the period June 30, 1947, to July 1, 1948. The total funds in the bill exceed \$5,000,000,000.

## SHORT STORY

Best Insurance  
By HENRY SUTER

JONATHAN LANGDON waited patiently behind the diamond counter in McLaughlin's jewelry store. He was one of the store's oldest clerks, quiet, dependable, efficient. He was pondering over something this morning and his fellow clerk, Philip Smart, in charge of the watch repair section, speedily observed it. "I'm wondering about the old man," began Langdon. "For the life of me I don't see why he had to take out theft insurance. We've managed without it all the years I've been here and nothing has been taken yet. Burglar insurance, of course. But why spend money to protect yourself against theft out of the store when he must realize what a smart bunch he has toiling for him? Why couldn't he put that money to better usage by slipping me the raise I asked for?" "I guess it was that glib insurance salesman he fell for," replied Philip.

"Sure enough, still I think the old man's wasting good money— The interruption was caused by the entrance of a customer. This was a portly, middle aged gentleman, immaculately dressed, who would have made an impression

"Why, it's nothing but a phoney," he cried. Langdon greeted him with his most gracious smile.

"I want something in a two ear's solitaire, the very best you have in the place. It is for my daughter, and I want it as a graduation present!"

Langdon hurried to the safe and brought out a tray of sparkling beauties. Mr. Blake gazed upon them carefully one by one and finally se-

lected one. Langdon went back and put the rest of the tray of rings in the safe. "Just let me run up to the hotel and get my check book. You keep this stone out till I get back." Ten, 15, then 20 minutes lapsed and the customer had not returned to complete his purchase. Just then the door of McLaughlin's office opened. "Well, Jonathan," he began, "I presume you still think we do not need any insurance and that I should use that part of our budget towards giving you a raise?" "Well, yes, I do think so really. You know my sales have almost doubled in the last year."

"That's true, Jonathan, and I appreciate it. Yet you must consider that in selling diamonds, the store is taking big chances. I don't mean in a hold-up or a burglary. But, just suppose some smooth artist came in here and got away with a valuable diamond?" "Oh! but they couldn't do that with me," returned Langdon promptly. "I've been here 10 years and no crook has ever gotten away with it, yet."

"That's what you think," smiled McLaughlin. "Now take that last customer. I watched everything from the start. You, of course, assume that everyone who comes in here is just as honest as you. That is why you left him standing there with a valuable diamond in his possession while you turned your back and put the rest of the tray in the safe. In the minute you were gone, he substituted a phoney diamond and walked right out with the genuine diamond."

"So you saw the whole thing, and let him get away with it! I don't understand..."

"You can come in now, Blake!" called McLaughlin.

"Meet Mr. Blake, of the Dependable Insurance system," said the smiling McLaughlin.

"Sorry we had to make you the guinea pig, Buddy," Blake began, as he took a sparkling solitaire out of his pocket and placed it upon the desk. "But I just had to convince your boss here how essential it is to have the insurance."

"Take a look at that diamond on your desk. Mr. McLaughlin," said Langdon calmly.

"Why, it's nothing but a phoney," he cried.

"Sure," remarked Langdon quietly. "You don't suppose I'd leave diamonds around for strangers to pick up, do you? I made the switch before I put the tray away in the safe. Now, Mr. McLaughlin, do I get my raise or don't I?"

Released by WNU Features  
The growth and development of plants in influenced by climate, diseases, insects, soil structure, soil texture, fertility and the acidity or alkalinity of the soil.

## Farm Topics

Crop Yield Doubled By Soil Treatment  
Two Applications Have Decided Advantages

Although the Corn Belt states produce nearly 60 per cent of the nation's food, crop yields in this area average only about half of what they could be if the soils were provided with enough raw materials such as lime and fertilizer elements, according to Prof. Emil Truog, head of the soils department of University of Wisconsin.

On most of the soils of the Corn Belt, a heavy initial application of fertilizer and lime is needed right now to make up the deficit of available nutrients in the soil, he de-

Thirty-six bushels per acre corn yield shown at left. Heavier fertilizer application brought 70 bushels per acre crop shown at right.

clared. This deficit, he said, always has existed in the poorer soils and has been created through exhaustive cropping on many of the better soils.

Truog pointed out that "heavy application of fertilizer" means in many cases the use of four to five tons of lime and the equivalent of 1,500 pounds of 0-20-20 fertilizer per acre.

Tests in Wisconsin, he added, have proved the value of such heavy initial soil treatments. Thereafter, maintenance applications are made.

In following this system, half of the fertilizer is applied and disked in before plowing. The other half is spread and disked in after plowing. Thus the whole plow layer is uniformly treated from top to bottom, creating a much better condition for crop production than when the fertilizer is applied in one dose and not thoroughly incorporated with the soil for five or six years afterward.

## Whooping Cough Cases High in Texas

AUSTIN June 20 — A statement released today by Dr. Geo. W. Cox, State Health Officer, indicates that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent or germ of whooping cough, is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not come in contact with other children until three weeks after the appearance of typical signs of the disease.

## NEW GIN COMPLETED AT UNION

Horace C. Barton, who built the first gin at Union several years ago, but lately operating in Dawson county, is putting the finishing touches on the new gin at the same place.

The former gin was burned down two years ago. He will be ready for the fall crop.

Mr. and Mrs. Dennis Q. Lilly attended the Texas Electric Show in Lamesa last week.

Mmes. Clovis Kendrick and Jack Stricklin were Lubbock visitors Monday afternoon.

### GI Question And Answer Department

Q. What income provision is attached to the pension that I will get as the widow of a soldier who died in a German prison camp?

A. As the widow of a soldier who died in line of duty, you are

pensionable under the law regardless of income.

Q. I divorced my wife on grounds of desertion and would like to know if she can claim part of my pension?

A. The divorce discontinues the marital relationship and your wife could not successfully claim a portion of your pension unless she successfully contests the divorce.

Q. How much is allowed for a child whose father is taking a G. I. college course. We are divorced and he claims that he is receiving only \$65 a month.

A. A veteran going to school under the Servicemen's Readjustment Act (G. I. Bill), if single and without dependents, may receive an allowance of \$65 monthly; if he has a dependent or dependents, he may receive \$90 a month. If the child is dependent on your former husband, he would be entitled to the higher rate.

Q. How long after discharge from armed services is readjustment allowances available to a veteran?

A. Readjustment allowances are available to an eligible veteran at any time after his discharge

### Holsteins Up In Butterfat Production

COLLEGE STATION, June 13 —L. Jaicie Corona Starlight, a seven year old Holstein cow, is the first of her breed in Texas to produce as much as 1,000 pounds of butterfat in a year's time.

The Holstein Friesian Association has informed Extension dairy men of Texas A and M College that the cow, now on the Neale farm near Waco, produced 27,408 pounds of milk and 1,087.3 pounds of butter fat in 365 days, on three times a day milking.

The new record makes Starlight the highest butterfat producing Holstein in Texas, and second highest producer of all breeds in the state. Texas' butterfat champion is Welcome Volunteer Sable, a five year old Jersey owned by J. Chester Eliff, of Tulla. Last January, Sable completed a record of 1,144 pounds of butterfat to top all breeds in the state.

Mrs. Kate Caldwell of Hereford was here last week visiting her nephew, W. E. Winn and his wife who is ill in the hospital here.

Mr. John Butler left Saturday to join his wife and children in Chickasha, Okla. They will go from there to Blackwell, Okla., to visit Mr. Butler's parents.

or release until two years after the date of his discharge or release or until two years after the official termination of the war, whichever is later.

### Soil Conservation District News

Graze properly and raise plenty of beef; overgraze and "beef" plenty.

The writer of this column and the District Engineer spent Wednesday, June 11, in the other part of the CYT District (Cochran county) checking over various types of conservation practices being carried out there this year by the farmers. One of special interest was on Cooperator S. C. Kelley's farm, 3 1-2 miles north-east of Morton. He prepared 3-4 acres last fall and on October 1, 1946, seeded this plot to Southern Smooth Brome grass, Crested Wheatgrass, Perennial Italian Rye grass and Alfalfa. This plot has been irrigated twice this spring. He did a few days grazing in March, but since April 1st he has run continuously 14 head of cattle on this improved pasture. Of course, he has this acreage divided up into two pastures using an electric fence, thus rotating his grazing. The beef cattle on this pasture sure looked fat and well contented.

What few irrigation farms there are in Cochran county are well planned and each farmer apparently is growing crops that are adapted to good land use.

Martin Sullivan of the Union Community requested the District this week to assist him in plan-

### NEEDMORE H. D. CLUB NEWS

The Needmore H. D. Club met May 22 in the home of Mrs. Johnny Bingham. Miss Dunlap met with us and gave a very interesting demonstration on bread baking.

After the demonstration, we had our business meeting. Mrs. Hubert Henson, from the Pleasant Valley Club, gave a report on the district meeting at Levelland. She also reported on the last council meeting.

Refreshments of punch and cookies were served to seven members and four visitors. The next meeting will be June 12. Everyone is urged to come.

Pelting raindrops speed up soil erosion by splashing soil particles as high as two feet in the air.

Mrs. T. D. Meacham and son Billy, of Monahans spent last week here visiting in the Jack Griggs home.

ning a grass revegetation program on some Class IV land.

What harvest started off with a "bang" during the week of June 16-21 in Terry county. Yields are exceptionally good. Several being reported from 18 to 32 bushels per acre.

Following the combining of wheat, several farmers throughout this area are breaking and one-waying the stubble rather deep; thus keeping down weed growth and preparing the land to store up moisture that should follow early in July.

F. T. Brooks, route 3, Brownfield, requested the District to assist him in retiring to grass 100 acres. This acreage is of considerable sandy area and much damage has already been done by recent winds, but a plan of action has been outlined, and if followed under fairly normal conditions, grass can be established by the fall of 1948.

A 30 acre field of Canadian Ryegrass was observed this week growing West of Morton on some shallow soil adjacent to a Playa Lake area. This grass was seeded October 1st and from all indications this should be a good grass for this section. It stays green all winter and spring. It seeds around July 1st.

Perennial Italian Rye grass and Smooth Brome grass stays green

### The Low Down From Hickory Grove

Moving pictures—that is my topic. I will tackle any subject. By getting an argument started, the truth usually shows up. I been thinking about how they are hitching communism to the moving pictures—all moving pictures. There is a grain of truth to the talk, but no more the whole truth than if you said all barbers are a blood-thirsty lot of a wind-bag, just because one of 'em sometime or other snipped your ear or talked your arm off. Like once when I was in Tacoma, Washington, a barber there, when he had finished on me, I looked as if I had been through a cotton picking machine—but that barber, he was not typical. It is likewise with a picture maker—I know one of them—an upright gent—he is—100 per cent American—he takes no back seat on loyalty. It is not shoddy square to say that all barbers or all motion picture makers are unsavory characters.

And on moving pictures themselves, there are good ones and mediocre ones. But from the business angle, they are all good salesmen for American goods. Take a movie showing a beautiful bathing dame stepping from her automobile and show the film in Egypt, or India, or Mesopotamia. It sells bathing suits—also automobiles—and that brings dinero home to our fair land.

Moral: Don't use a scatter-gun—call your shots—be specific.

Yours with the low down,  
JO SERRA.

all winter if seeded around August 20 to September 15. These two grasses mixed with Alfalfa under irrigation does exceptionally well here on the South Plains. If these grasses are planted under dry land conditions on well selected sites with Madrid Sweet Clover or Dry land Alfalfa it makes good pastures judging from results being obtained by farmers in areas adjacent to Terry county. So why not have good permanent improved pastures for hogs or a few milk cows every month in the year?

If the soil starts to blow, use emergency measures. Sometimes listing a few rows across the end of newly planted cotton or feed will help prevent blowing down rows. Change of row directions could help. There are many temporary measures that will aid if used.

Get land and range ready for drought. Put more land to grass. Plant trees. Terrace and contour where soil and slope will permit. When drought strikes there are two main things that most South Plains farmers hope to do during a severe drought, and they are (a) prevent complete crop failure and (b) keep their soil from blowing away.

### STOP DOSING YOUR STOMACH FOR CONSTIPATION . . .

WHEN constipation hangs on and you have that listless, "half alive" feeling chances are it's not your stomach but your intestinal tract that's at fault. Sluggish intestinal muscles permit waste to accumulate . . . gas is formed and often you feel miserable, nervous and out of sorts.

For real relief . . . take the new, improved, ADLERIKA the Tone-Up Laxative. It moves waste quickly but gently to relieve constipation and gas. You'll enjoy a new feeling of pep and vitality when your digestive system is in perfect order. Try ADLERIKA today and you'll learn why over 20,000,000 bottles have been sold. *Caution: take only as directed.*
