

# Farmers Dusting With Planes For Insect Control

It is rather unusual for the Old He to arise around 7 a. m., and take off before breakfast to watch parties in planes give the flea-hopper bugs a bath. But we did that Monday. By the way, we saw a number of farmers on the trip pouring the powders to the bugs along the way with their tractors.

But the cotton field we visited, the Purcell Brothers, R. J. and Kenneth, is too large for tractors, 1200 or more acres, as the dust has to be put on early while the cotton is damp, and before the wind gets up. The plane was maneuvered by a pilot of Hoyt Willingham, and he really knows his cotton dusting, as he would get down just over the cotton and turn on a stream that seemed to be about 20 or 25 feet wide, but there was enough wind to drift some of the dust further.

If we did not misunderstand Kenneth, this was the third dusting and apparently the little fellows are about through, as the cotton is forming new squares. But he carried us to another field that belonged to a neighboring farmer, never dusted, that was some 18 inches high and not a square or even a form could be detected. The little rascals work on the tiny form just as it makes its appearance, and not on the square, after it is formed later.

And talking about little rascals, they are just that. Kenneth and Mr. Willingham, after a diligent search for one to show the crowd, composed of two visitors from California, the Junior Editor and the Old He and wife, they finally found one, just a size bigger than a dog flea, round and near the color of the cotton, makes them hard to detect. But they can simply knock you out of a cotton crop while you talk about it.

Purcell Brothers are very much in earnest in their fight for a good cotton crop. They state that we only have about 21 mot days for squares to form and mat cotton before a freeze or fro and if you ask us, that is a very narrow margin.

However, in other sections of the county, farmers tell us that the little boosters are letting up. In the immediate section of the Purcell farm, there is one of the largest cotton acreages in Terry county. That is an area cut off of the east pasture of the Brownfield ranch, and near a chemical plant. There are literally thousands of acres of cotton that vicinity.

By the way, we saw lots of blackeyed peas, hundreds of acres in that area, and in one small area, where alfalfa is growing, the water being only a few feet from the surface there.

## Nation JayCee Prexy Praises Local Club

John Ben Shepperd of Glade-water, president of the United States Junior Chamber of Commerce, has commended Brownfield Jaycees for their work on behalf of his successful candidacy. "As one Texan to another," Shepperd said in a message to Local President Tommy Zorns, "I want all of you to know that I am humbled by this great honor and am grateful for the support and encouragement I have received from Texas Jaycees and especially from Brownfield Jaycees."

"As your national president, I hope that I shall be a credit to Texas and its Junior Chambers of Commerce."

Shepperd took office July 1, and immediately began a tour of duty which will take him to all 48 states and the territories, as well as several foreign countries.

## CINDERELLA BEAUTY SHOP CHANGES MANAGEMENT

Billie Luster has leased the Cinderella Beauty shop, 110 S. 5th from Mrs. J. J. Andress and assumed management this week. She is featuring Zoto machine-less permanents and Helen Curtis cold waves.

## Lt. Huddie Bagley Killed in Plane Crash

Mrs. Cora B. Bagley was notified Tuesday that her son, First Lt. Huddie Bagley was killed in a plane crash Monday at Eglon Field, Florida. Lt. Bagley had been in service since 1942, having served in the Pacific during the war and re-enlisting last year.

He was one of nine men killed when the B-29 they were in crashed on take-off; two escaped. Survivors are his wife and seven months old son, his mother, two brothers, Regie of Plains and Paul of Tucumcari. A sister, Mrs. Irene Johnston lives in Tucumcari, N. M.

## Board of Development Becomes U. S. C of C Affiliate

Secretary J. V. Burnett of the Terry County Board of Development, along with President R. E. Self, a few of the board members and representatives of the press were called into a short meeting in the banquet room of a local cafe Tuesday afternoon.

The speaker of the occasion was Tom V. Watson, a graduate of Tech college, who is working for the United States Chamber of Commerce out of the headquarters offices in Washington. Mr. Watson briefly outlined his message with something like a 40 minute talk, most of which was off the record.

The main burden of his talk he wished to put over is for real Americans to be always wide awake and on the look out for all subversive elements who wish to secretly change our way of life. He greatly stressed the aim and ambition of the USCC and affiliates to see that the new voter is fully grounded in our constitutional government and what the aims of secret policies are, of those who are boring into our national affairs from within.

Another thing that he wished put over is to get the people of the nation, farmers and small business men in every town and hamlet interested in legislation which is going to come before the next session of congress. Also, to get these people, who are the real backbone of America, to write their congressman occasionally, not as an organization but as an individual, and frankly let him know the sentiment of the people in that area about certain legislation.

He brought out the fact that the other side of controversial legislation will be on hand at Washington with plenty money and sharp boys to help put over their program. And maybe, too, those who are just taking the easy route of silence and indifference will wake up too late and they have been hoodwinked.

## A Sugar Rationing Ended Tuesday

Of course most of us knew that so as private homes was concerned sugar rationing ended some months ago, but that it was maintained so far as certain manufacturers, canners, bottlers, etc., were concerned. In view of the fact that the congress made no appropriation for the 600 odd employees who were carrying on all rationing ended Tuesday without giving the employees the usual 30 days notice.

But the ceiling prices are still on, the announcement stated. However, the big users of sugar are forth under penalty to hold their stock inventories must not be too high.

Thus the last of our many war-time rationing laws, all necessary steps, but nevertheless a step to both dealer and consumer.

Mr. and Mrs. E. P. Bish, of Hobart, Okla., moved to Brownfield to make their home. Mrs. Bish has accepted employment with Sheltor Ready to Wear shop as alterations and saleslady.

# The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

VOLUME 43

BROWNFIELD, TERRY COUNTY, TEXAS.

FRIDAY, AUGUST 1, 1947

NUMBER 1

## New Lions President

FRED W. SMITH

The new president of International Association of Lions is Fred W. Smith of Ventura, Calif. He was advanced by unanimous vote from the first vice presidency at the 30th annual convention of the Association which closed July 31. Smith succeeds Clifford D. Pierce of Memphis, Tennessee.

## Brownfield Gets Soil Erosion Sub Station

Jay Barrett, Chairman of the Board of Supervisors, of the Cochran-Yoakum-Terry Soil Conservation District, with headquarters here, announced last week that the district was now prepared to go into a long range study of soil and how to prevent erosion, either wind or water, principally wind, of the three rather sand land counties.

The old A. C. Harvey place on the Plains highway, some ten miles west of the city has been purchased, or a long lease secured, and the soil district will have something on which to experiment for many years. Mr. Barrett stated that it was not just what they wanted, as the section has much hard soil, but a lot of it is deep sand.

There is no state experiment station on the sandier land counties, such as the three named above and with the addition of Gaines, Andrews and Dawson. Those at Lubbock and Spur have radically different soils to contend with. Most of Hockley and Lynn have soils that the similar to Lubbock county.

For that reason, an effort is being made to get the State to appropriate money to build an experiment station here, as this is very near the center of the area to be served.

## Curry Motor Freight Leases Local Line

Mr. J. E. Mann, who has been manager of the Levelland truck line here for some time, was in last week and announced that the Curry Motor Freight lines had taken over the Levelland company line from Brownfield to Lubbock and that he would still manage the freight office here. As we understand it, very little change will be made in personnel.

The Curry people have had a line from Amarillo to Lubbock for quite some time, and at each terminal, they have a lot of connecting lines, one of which has been the Levelland Truck line. With the leasing of this line from Lubbock to Brownfield, Mr. Mann stated the next map would show this line as one of their main truck delivery lines.

Sam Tankersley established the Tankersley truck line from Lubbock to Brownfield many years ago, when there was not quite so much red tape to them, such as permits, etc. Sam made a go of the line, and so did the Levelland people who bought his business.

## BOY SCOUTS HOLD COURT OF HONOR

The Boy Scout troops of this city held a Court of Honor at the Lions Swimming Pool here last Monday afternoon.

# Brownfield Prepares For Big Sporting Event

## Plague-Typhus Control Started

The State Department of Health in cooperation with the Commissioners Court have established headquarter offices here for a control program to combat the spread of bubonic plague and typhus in this South Plains area. It has been rumored for a year that symptoms have been found among wild rodents in a nearby county.

The purpose is to set up a laboratory here to investigate the area and furnish technical information and remedies to stamp out the plagues.

Dr. Carl Mohr is officer in

charge and assisted by Mr. Tom Scoggins and Mrs. Madin Donica, as field supervisors and Miss Arantha Lucas as secretary. Mr. George Halyard will operate a mobile survey unit. Lewis Johnson will supervise rat-proofing buildings. John Black, former policeman, appointee of the Commissioners will supervise prairie dog killing.

Dr. Mohr makes it clear there is no epidemic existing and no one need be excited. It is a nation wide move to ferrit out and exterminate these plagues found in many spots of the country. It has

been learned these plagues are transmitted by fleas, mostly among wild rodents, but often spreads to common rats found around homes and barns.

It came to this country from the Orient and has been known along the Pacific coast for many years, but has spread gradually eastward. The local office has the aid of the State laboratory and of the Federal government.

Their offices are in the sub-courthouse, known as the old Legion Hall just off Broadway on South 5th, which also houses the Highway Patrol and the road engineers.

Read Polio Preventatives now appearing in the Herald In Interest of Public Health

Brownfield sporting people, led by the Junior Chamber of Commerce, lost no time in making preparations for the District 2, Texas Amateur Athletic Federation events here next week, Aug. 7th, 8th and 9th. Indeed the time was too short to relax and just let matters drift, so the old let George do it was out. Hastily, the Junior Chamber of Commerce members were called together and they got down to business.

And these men came up with a list of men they believe will get the job done. For instance, Dr. Gordon E. Richardson was named Director in charge, and he named committees to see that the ring was erected, trophies, judges, referees, time keepers, as well as the eligibility of entrants, were prepared.

Still another was named for sale of tickets, headed by Lynn Nelson, seats, ushers, etc. A light and sound committee, with Clyde Bond Jr., chairman, assisted by Leroy Thomas. A housing committee was headed by J. V. Burnett.

A concessions committee was headed by Tess Fulfer; records committee by Dr. W. A. Roberson and ground committee by Clifton Jones. If anyone is not sure about committee members or whom they should consult about any condition or conditions, we suggest that Tommy Zorns be consulted at the City Hall. Or either of the newspapers have a full list of all committees and their membership.

As was stated last week, Cub Field has been selected as the site of the events. The squared circle will be erected in the center of the field nearest the larger grand stand. Ring side seat will be erected around the ring, and these seats of course will be higher than others. There will be 300 of these and sell for \$1.50 each.

Then the bleachers of the football field will be divided, the section nearest the ring and immediately in front of it, will be reserved seats at \$1.20 each. All other seats in the grandstand will be priced at 90c each, in all cases with tax included.

One of the greatest headaches of the events will be obtaining rooms for those who come long distances, and cannot go home after the night's events. So, if you have a room you could rent for the three nights, please get in touch with some of the officials named above.

Winners in this TAAF boxing event in all weights, will represent District 2 in the final State Boxing Championship matches in Fort Worth, Will Rogers memorial stadium August 20-22. It is estimated that some 300 young men will participate here, and that thousands of visitors, including daily paper and associated press reporters, photographers, and others will be here for the event.

## Vital Statistics Show Increase In Births

Vital statistics of Terry county show there were 177 births registered the first six months of this year against 44 deaths for the same period. There were 84 marriages recorded and 38 divorces granted.

The District Clerk reports, and substantiated by the various attorneys, that there is a considerable decline in divorce cases filed since January 1 and most of the decline has come in the past three months. No particular reason for the decline is suggested, except perhaps the war causes have run their course.

## Pleas Of Dr. Newton Rejected By Board

Well, it begins to look like Dr. W. R. Newton of Cameron, will have to spend some time in the pen, despite the fact that his presence in his home town is very "essential" and "indispensable." This man, tried three times for murderous attack on Dr. Roy Hunt of Littlefield back in 1942 has been convicted twice, and another jury voted 11 to 1 for conviction.

He has been tried at Littlefield, Plainview and Tulia, and 35 of the 36 jurymen said he was guilty as charged. And the Court of Criminal Appeals said he was tried fairly. Yet despite this, this "indispensable" man wrangled a 30 day reprieve out of Gov. Jester, "in order to attend some very sick patients in his hospital." Then last week he and his attorneys tried to get the board of pardons to give him an outright pardon before entering prison.

It seems that one of the Board, Abner Lewis of Houston, has an idea that the penitentiary was just built for punishment of certain criminals, the "non-indispensable type" but that doctors and other big shots should be turned loose. But the other two members, one ex-sheriff Smoot Schmidt of Dallas county and Walter Strong of Henderson believes in letting the verdict of juries stand, despite all the pressure brought to bear.

And this week, Dr. Newton came right back and asked for a 60 day reprieve to treat his mother-in-law for a heart ailment. Again Lewis said OK, but Schmidt and Strong voted no, and told Newton to report to the pen Wednesday night to start his sentence.

## Nelson Jewelry Adds To Bright Lights

We note that the Nelson Jewelry has added quite a flashy neon to the many on Main street, of which Lynn is very proud and is receiving not a few congratulations from friends.

Not only is it a bright and attractive ad, but is a real utility to the belated who have no time piece of their own. There are many attractive neon signs in our little city. Even some of the churches are going in for them, notably the First Baptist.

## Golfers To Denver City Sunday

A large number of local golfers are to go to Denver City next Sunday to engage in return visit games there beginning at 1:30 p. m.

They will try also, to return the drubbing the Denver City team gave them here a week ago. Bill McKinney urges all local golfers to be there on time.

## THE OLD GAL IS ALL OF 43

There are scarcely any ladies that think it any of your kinfounded business how old they are. But there are many inanimate things we refer to as "she" that just don't give a hang whether she is sweet 16 or 100. In fact, a newspaper is one of them, and the older they are the better they like it.

Well, the Herald is celebrating her 43rd year this week. She by right should have had a birthday last December, but so many issues were lost for one reason or another, when she was just a child, that her birthday comes in August. So does the birthday of the Old He. However, we took charge of the young thing 38 years ago the first of June, and have tried to raise her up in the way she should go.

Most of the time however, it has been a sublime pleasure for us to serve good old Terry and the Brownfield trade area. Both have been good to us.

## Revival To Begin At Meadow

A revival meeting will begin at the Meadow Baptist church on Sunday August 3 and run for one week through August 10.

The Evangelist is Rev. R. Y. Bradford, pastor of the First Baptist church, Colorado City, Texas.

Rev. Bradford was a chaplain in the Ninth Air Force during the last war. He entered active military service on April 3, 1941 and remained in service until February 13, 1946. He spent thirty-three months in overseas duty in India, Africa (Egypt and Libya) England, France, Belgium, Luxembourg and Germany. Rev. Bradford is authorized to wear six battle stars and was awarded the Bronze Star medal. All of his service with the Ninth Air Force. His primary assignment was as Command Chaplain for the Ninth Air Force command with as many as 50 chaplains under his supervision. Rev. Bradford held the rank of Lt. Col. during the last twenty months of his service.

Rev. Bradford attended Wayland college, graduated from Oklahoma Baptist University and the Southwestern Theological Seminary. He has been pastor of the Colorado City church since April 1946.

The singer for the revival is Rev. W. I. Taylor. Big like, Tex. Rev. Taylor is a splendid singer and is well known in West Texas.

The people of the Meadow community are invited to hear these splendid workers daily at 10 a. m. and 8:15 p. m.

## Broadway Cleaners Celebrate First Anniversary

At this time we wish to extend our hearty congratulations to the Broadway Cleaners, which has now been under the ownership and management of Douglas Jones, ably assisted by his wife, for the past year. Just a year ago, they purchased and took charge of the Noel Tailors on Broadway and renamed it Broadway Cleaners.

In the short time the business has been under their management, the Joneses have added many new features, as well as employed additional personnel. They have their own building, which was built for a cleaning emporium and fur storage. It is well arranged and air conditioned.

Douglas spent several years as manager of the cleaners and fur storage department of the Panhandle Steam Laundry at Amarillo, and he really knows the business from jump go.

## Local Buyers Report On Market

Those who attended the fall clothing market in Dallas and Ft. Worth last week confirm the changing style in women's apparel. In fact one remarked that husbands had better save their money for wives new wardrobe as they will need a complete new one to be fashionable as styles are so drastically changed. Suits and dresses are more feminine, using bows, frills, bustles and draped effect. Mannish styles are definitely passe.

More merchandise in the less expensive lines has been promised and shipments promise to be much better.

One merchant reported there is still a shortage of piece goods and no immediate relief in sight, also that in the higher priced lines they are still on allotments.

## County-City To Build Labor Barracks

Waking up to the need of housing and camping facilities for migratory labor expected here to help gather the cotton crop, Judge Winston with a committee of farmers went to Hobbs Thursday afternoon to deal for some army barracks to be moved here.

It is known that many nearby towns and cities have prepared ample and comfortable camps and houses with cheap rent for their labor, is getting all the labor they need, while Brownfield is being by-passed and many suffer dire results.

TEXAS  PRESS ASSOCIATION

 WHOLESALE PRESS ASSOCIATION

All of us of course deeply sympathize with President Truman over the loss of his aged mother, just as we sympathize with any one who has such a great loss. Very appropriately, the president stated soon after he heard of his mother's passing while on a plane to her bedside in Missouri: "Well her long period of suffering is over." Privately, we have remarked on several occasions, that a man who loves his mother sincerely cannot be a bad guy. And we have had President Harry Truman in mind on such occasions.

We are truly glad that some one took time out to examine the twice vetoed tax bill. We have stated however, on more than one occasion that the man or woman in the low income bracket needed relief, and we still think so. But we had never read the vetoed tax bill, and had about decided that Mr. Truman just didn't want to give the little guy a break. Evidently one of the editors of the Lubbock Avalanche did take time to read it. But frankly if we had been one of these popular polls, we would have been classed with those with "no opinion." But the Avalanche editorial comes up with this information, which looks like the GOP was out to help the very prosperous. For instance, the person with a \$300,000 income would have had \$50,000 peeled off. But the poor little guy with an income of \$2,000 trying his best to make both ends meet, would have had a reduction of less than \$20. Then the Avalanche editorial goes on and says, "both the National Association of Manufacturers and the US Chamber of Commerce are coming up with a bill next session of Congress that

will make the vetoed measure look like a piker. The \$300,000 income will get a reduction of \$100,000. The little guy will still be holding the sack. All of which makes one rise to ask why some Democrat or Progressive Republican don't offer one that will do justice where justice belongs? Very likely such a bill would escape the executive axe.

We got Editor Eee Eye Hill of the Lynn County News, Tahoka, really wound up last week, when we sent him a copy of an editorial by Editor David Watson of the Seminole Sentinel. Now, Bro. Hill, we did not send that for you to answer, or that we had in mind an idea like "let's you and him fight." It was just to let you see how far two honest individuals can be apart in their opinion, and still be good American citizens. After all you and this writer are not so very far apart in our ideas, even though you "guess" we are. Maybe you have forgotten that we tried legal beer in Brownfield for a couple of years. Well sir, after that trial, nine-tenths of the business men here voted to oust it. It brought a kind of business, OK, but not like they liked. But most of them to this day will not wrangle with a man pro or con prohibition. You carry in your masthead a very appropriate answer to the way most men look at the proposition, when you quote Voltaire, as follows: "I wholly disapprove of what you may say, but will defend to death your right to say it." The Herald could be getting what "The Old Judge Says," which is just veiled beer advertising, and paying the regular ad rate, but we have a lot of readers and good advertisers to whom the matter is obnoxious. And while we are on the subject we have another confession to make, Mr. Hill. Our wife has a niece that is ticket agent at Big Spring bus station, the place you referred to lately when you were waiting for a bus and could find no water to quench your thirst, just beer. Remember? Well we sent that "dry" article to this niece. Mind you Mr. Hill that girl is as dry sentimentally as you, as well as the way she votes. She has nothing to do with the sale of beer—just bus tickets. Anyway she says she and her manager got a great laugh out of that editorial, but did not say whether or not it was shown to the beer dispenser. Better pass around Big Spring from now on Eee Eye.

Former Congressman W. D. Jamison, of Iowa, who writes "The Window Seat" from Washington mostly for weekly newspapers, say that after all the wrangling and jangling of the 30th congress just past, the burdened tax payers will get little relief and in the final analysis, and that the appropriations will not be too far below the 37 1/2 million President Truman asked for. He further elucidates that the present congress did a mighty fine job of re-electing the pres-

## Another Lesson In Economics

The quaint theory that is possible to continually raise wages without raising prices was disproved long ago. Now the public is witnessing still another demonstration of the fact that wages and prices move together. The current case is coal. As the Wall Street Journal said, "The American public will soon be 'chipping in' to finance the latest pay hike which John L. Lewis dropped up for his soft coal miners." The probable average increase, since the situation stabilizes, will be about 85 cents a ton. That, along with some other factors, is expected to raise the price of steel by \$5 a ton. And when steel prices rise, it is felt throughout all basic industry. The price tags on thousands of articles will be increased.

The desire of workers to earn more money is perfectly natural. But, in the long run, the welfare of industry is what will determine job security and workers' annual income. If, as an example, higher coal prices force consumers to

ent White House occupant. Could be.

This newspaper does not believe that anything like a majority of American citizens think the government should seize control of railroad, mines, oil and other public utilities. On the other hand we believe it a very well organized, loud mouth minority, and a small minority at that. Hitler in his popular pre-war book well illustrates what we are driving at. His contention was that people do not take to or believe small lies. You have to give 'em a whopper to make it stick with the masses. That's what Hitler did. That's what the Divide-the-other-man's property crowd wish to do.

## The Low Down From Hickory Grove

You know, it is a good time to start an argument on "coddling." Maybe we will discover of it is a good idea to keep doing same, and what good it has done up to now, if any—and why is everybody still in a quandary after a dozen years, with folks wanting houses and cars but can't get them.

Proceed, says Henry. I will start with labor. We patted the Labor Temple on the back. We made the rules just as the Temple wanted 'em. But you try coddling a boy by giving him a new sling-shot,

substitute other fuels, the ultimate result will be a shrinking market for coal and fewer jobs for the miners. Again, if a wave of price increases brings on consumer resistance and a general decline in buying, the ill effects will be felt throughout the country—at the expense of all.

There is but one way wages can be permanently increased without prices being increased—and that is by higher output per worker to hold down cost of production. In the last two years, worker productivity in many fields has actually declined while wages have soared. The inevitable result has been price inflation and a cheapened dollar. The present coal situation simply indicates that still more price inflation is on the way.—Industrial News Review.

and then turn your back.

My next answer on coddling is guaranteeing "security" to everybody, bronze, black and white—regardless if you choose to work or vice versa. Leave everything to the Govt.—that has been the slogan. But looking toward Europe, etc., where the Govt. is the "know-all and does-all," you don't see any kind of security that looks inviting.

On gala days and holidays our Big Smokes in Govt. spread-eagle on how Mr. Geo. Washington and Mr. Thos. Jefferson were frugal and self-dependent. How their followers were likewise—and built here a great country. And then they catch a plane back to old Spendville-by-the-River, and concoct some new way to guarantee security in some grand manner having nothing to do with perspiration—but loaded with vote appeal. Confucius would say, fummiddles.

Yours with the low down,

Troy Harold Curington.

**Veterans' News**

More than 17,000 government checks to Texas veterans were returned in the period January, through May because of faulty addresses, the Veterans Administration reported this week.

Although this was only one percent of the 1,739,733 issued in Texas during that time, V A emphasized the hardships caused many veterans and the additional work-load resulting from the returns.

Principal cause of the returns was veterans moving and failing to give the VA a notice of change of address. In all such cases, VA must verify correct addresses before the checks can be re-mailed.

Most negligent in notifying VA of changes of address were World War II veterans taking on-the-job training or going to school. More than 60 per cent of the returns were subsistence payments.

As a result of the study, VA has made some administrative changes which it is expected will help eliminate some of the returns.

But the principal factor in eliminating returned checks still is the veteran, himself, VA said. Veterans must keep paying offices advised of their correct and current address to receive prompt and efficient service.

**Chevrolet Production Far Ahead of '46**

DETROIT — July — Chevrolet today became the first manufacturer in the auto industry to announce production of a half million vehicles in the calendar year 1947, according to a statement made here by Nicholas Dreystadt, general manager of this largest General Motors division.

Production of its 500,000 unit July 7 contrasts with 1946, when Chevrolet, because of a prolonged strike and material shortages, had not attained so high a mark until mid-November. The figure includes 360,947 passenger cars and 140,688 trucks.

The current Chevrolet record, established in virtually six months despite a new car change-over period and limited truck production due to the model change-over that preceded announcement of the division's new "advance-design" truck line for 1947, was made with only negligible output from its newly opened Flint (Mich.) assembly plant.

Veterans Administration services for amputees, the blind and other physically-handicapped veterans will be brought closer to their home towns through prosthetic appliance units in each of VA's 13 branch offices and 66 regional offices.

## CITATION BY PUBLICATION THE STATE OF TEXAS TO: EARL HOUTS GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of

issuance of this Citation, the same being Monday the 15th day of September, A. D. 1947, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 28th day of July, 1947. The file number of said suit being No. 3368.

The names of the parties in said suit are:

Loetta Houts as Plaintiff, and Earl Houts as Defendant.

The nature of said suit being substantially as follows, to-wit:

Suit for divorce alleging as grounds therefor cruelty. That Defendant struck and inflicted severe bodily injury upon the Plaintiff and threatened her so that she is afraid of him and fears serious bodily injury. Prayer for Divorce and General and special

Dairy cows need their vitamins. Good legume hay put up in the barn now will help prevent a vitamin-lack this winter.

This is the time of year when animals often get prussic acid poisoning when turned on grasses whose growth have been stopped or retarded by drought, trampling or over grazing. Smart stockmen are feeding hay before turning sows on pasture.

Issued this the 28th day of July, 1947.

Given under my hand and seal of said Court, at office in Brownfield, Texas, this the 28th day of July, A. D., 1947.

ELDORA A. WHITE, Clerk, District Court, Terry County, Texas. 4c

Harvesting cotton in a *once-over operation* is the short cut to bigger profits. Get this advantage by stripping and delivering cotton, two rows at a time, with a labor-saving John Deere No. 15 Cotton Harvester.

Designed to work with the John Deere "A" and "B" Tractors, the No. 15 is a simple, sturdy, long-lived machine that does a fast, efficient job of saving bolls after the cotton plants have been killed by frost. Many gin operators state that cotton stripped by the John Deere is cleaner than that pulled by the average hand puller.

This year, to make short work of your cotton harvest—use a John Deere Cotton Harvester. See us for complete information the next time you're in town.

**Union News**

The "Fun Night" entertainment was held last Friday night at the high school gym. A good time was in evidence. The committee reports that \$95.00 was cleared for equipping the lunch room. Anyone else wishing to donate to the cause are asked to get in touch with the lunch room committee which consists of three women who will act with Supt. Hancock and the school board. The committee is Mrs. Frank Sargent, Mrs. Lloyd Shepherd and Mrs. Willie Jones.

Mrs. Claude Montgomery entertained the friends of her little daughter, Dian, last Tuesday afternoon. The occasion was Dian's third birthday and she received many nice gifts.

Mrs. Juanita Lanious honored her little son, Eddy on his fifth birthday. Ten children played games and helped Eddy blow out his candles.

Miss Geneva Stewart, who has been teaching in the Union school for the past three years, has resigned to accept a position in the Whitharral school for the next term.

The Union H D club met in the home of Mrs. Claude Montgomery on Thursday afternoon, July 24th. Mrs. Griffith, the county Health Nurse gave an interesting talk to the group. Her subject was public health. The talk was thoroughly enjoyed by those present and they extend an invitation to Mrs. Griffith to come back and be with them. Refreshments were served by the hostess to the twelve women present. The next meeting will be Thursday, August 7, in the home of Mrs. Dee Hancock. You are welcome either as a visitor or a new member.

The writer has been asked by the Boy Scout's master, Mr. Welton Fenter, to say that there will be no more scout meetings until after school starts. The people are all so busy with the crops that it does not seem that the boys can be expected to be up and come to scout meeting once a week. So you boy scouts all remember to come to the first meeting after school starts.

The Girls' 4-H club failed to meet last Wednesday. The writer did not learn the cause, but the people are really busy hoeing.

The Baptist revival is scheduled to begin Friday night, August 8 and continue through Sunday August 17. Make your plans now to attend every service. Rev. Draper will do the preaching.

Church was well attended Sunday. Rev. Welch was unable to be here Sunday night, so no church service was announced for Sunday night.

Next Sunday night is regular singing night and Mr. Bearden thinks we will have the new class books by then.

Several young people of the community enjoyed a swimming party Sunday afternoon in Mr. Howse' tank.

Jimmy Sargent who has been spending his vacation with his grandmother at Tahoka, returned home Sunday.

Sadie Merle Shulls has returned from Colorado after being gone about ten days.

Several from this community attended Worker's Conference at Foster church last Tuesday.

A meeting has been called for the laymen to meet at the church Monday afternoon August 4 to repair seats and get things in readiness for the revival which starts the following Friday night. Everyone who is handy with a hammer and saw is given an invitation to be there.

B. O. Black was over this week from the ranch in New Mexico. He stated his greatest trouble was getting his Herald regularly. Assured it was mailed each week, he stated he guessed he'd have to hold a bull session with the postmaster there.

**Johnson News**

Mrs. H. L. Bryant and children, Mrs. Velmo Cowan and son all of Roswell were visitors of the R. B. Smiths and V. H. Wheatleys Wednesday and Thursday.

James Neal James is home from wheat harvest.

Mrs. J. S. Hodges, June, Jack and Pete of McAdoo, Mr. and Mrs. A. M. Reid and sons of Levelland and Mrs. B. A. Piar of Bakersfield, Calif., were guests of Mr. and Mrs. Claude Merritt and family over the week end.

Mr. and Mrs. R. D. Jones attended to business at Morton, Muleshoe and Littlefield Saturday.

Mr. and Mrs. J. J. Jones and Glenda were dinner guests of Mr. and Mrs. J. A. McCrow and family Sunday.

Rev. and Mrs. Harrison and family of Brownfield visited the Sam Parks family Monday.

Mr. and Mrs. Verdel Lasiter have moved to Gomez.

Mr. and Mrs. George Lasiter visited Mr. and Mrs. W. F. Foster of Ropesville Sunday.

Mr. and Mrs. Dean Robertson of Lameza visited her parents, Mr. and Mrs. Sam Parks Sunday.

Mr. and Mrs. W. D. May and daughters of Pittsburgh, Calif., are visiting Mr. and Mrs. V. H. Wheatley and family, also two of Mr. Wheatley's aunts, Mrs. Lola Massey of Haskell and Mrs. Ed King of Slaton.

Barbara Ann Parker is improving and shall soon be up.

Wanda Winn was an Artesia, N. M. visitor over the week end.

Bonard Stice and family of Lubbock and Mr. and Mrs. Shorty Stice were guests of the Lee Fultons Sunday.

Mr. and Mrs. J. T. Pippin of Tokio visited O. A. Pippin and family Sunday afternoon.

**Meadow News**

Mr. and Mrs. J. M. Bureson and son, Joe, left this week on their vacation. They plan to drive to New York, the Great Lakes, Canada and return by way of the mountains of Colorado.

Mrs. W. T. Arnett received word Tuesday that her nephew's wife, Mrs. Jess Elder had died at a Seagraves hospital. They had been married about two years. She was a nurse and they met in a hospital while Jess Elder was in the service. Her people live in Iowa. Funeral services were set for Wednesday afternoon at Seagraves.

Mrs. Arnett and Mrs. G. E. Ashburn visited Mrs. R. L. McNutt last Monday afternoon.

Mr. and Mrs. W. A. Bartlett and son Kenneth, Mrs. W. T. Arnett and Rev. and Mrs. R. L. Shannon visited Mr. and Mrs. L. A. Wingham Monday afternoon.

Mrs. Winolee Johnson, granddaughter of Mr. and Mrs. R. L. McNutt, visited in the McNutt home last week.

Mrs. Effie May Hinson and children have moved back to Meadow. They have been living at Eunice, N. M.

The vacation Bible school began at the Meadow Baptist church last Monday with a good enrollment and interest.

Jerry Lee Roberts suffered an injury to his leg, when he fell from a bicycle Monday. The injury is requiring medical attention.

Mrs. Leon Pinion and little daughter are visiting Mrs. Emma George.

Mrs. R. A. Drennan, of Jamestown, Penn., is visiting her sister, Mrs. Ethel Young of the Pool community.

**Salt Prevents Heat Cramps**

If your work is such that it causes excessive perspiration add a pinch of ordinary table salt to each drink of water you take, to prevent heat cramps. This is advised by Dr. George W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

Mr. and Mrs. Frank Easley and daughter, Cathrine, of Eldorado, Okla., visited Mr. and Mrs. G. W. Luker and family last week.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help make up for the deficiency caused by sweating.

It is a wise precaution to keep the body supplied with salt, and thus avoid much possible suffering and loss of time from heat cramps.

**Local Minister To Hold Wellman Meeting**

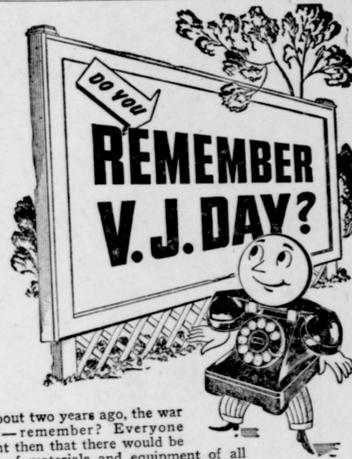

T. J. Woodard of the Wellman section was in this week to announce that the protracted meeting of the Church of Christ meeting at Wellman would begin next Lord's Day morning at the usual preaching hour.

Evangelist F. I. Stanley of this

city, will hold the meeting for them, Mr. Woodard stated, which will go over ten days. A Brownfield man, name not known, will lead the song services.

Mr. Woodard stated that it had not been definitely decided on day services, but night services will begin at 8:30.

Bats are the only native land mammals in New Zealand.

Just about two years ago, the war ended—remember? Everyone thought then that there would be plenty of materials and equipment of all kinds available immediately. That hasn't been the case with us. We haven't been able to obtain enough equipment to complete our expansion program, and we're still short. But in spite of this, we have installed more telephones than ever before in our history. We're proud of our record—and we're driving with all possible speed to keep up with the ever mounting demands for new service.

### Total State In All Its Glory

It will be interesting to see just how American Communists, Communist-sympathizers, and fellow-travelers go about squaring the present policy of the Soviet Union with the old propaganda to the effect that their particular brand of dictatorship offers the sole hope for bettering the lot of the common man.

When, some time ago, the Soviet Union refused to join in the Marshall plan for the rehabilitation of Europe, it divided the world into opposing camps. It made united effort for putting hungry and destitute people on their feet, impossible. It decreed, in effect, that the citizens of the small nations such as Czechoslovakia must divorce themselves from all hope of American assistance on pain of "displeasing" Moscow—and thereby inviting the kind of terrorism that subdued Hungary.

The people of these unhappy countries were not, of course, given an opportunity to express their own wishes in the matter. It is only in "degenerate" capitalist nations that the ordinary citizen has a free ballot, free speech and a free press. Only under the obsolete and ridiculous democratic system can a man work or not work as he pleases, start a business, speak his mind, and go about his affairs without dread of secret police and drumhead courts and concentration camps and slave labor. Only where the laughable institution of free enterprise exists do the people control their government—and choose their officials all the way from town marshal to the head of the nation.

Communism feeds upon despair, starvation, terror. The Soviet high command has decided that these shall be its gifts to every nation which it can influence and dominate. It is building one of the most brutal systems of slavery in the history of the world. Here is the total-state, in all its glory.

#### HARMONY H D CLUB MEETS WITH MRS SEXTON

The Harmony H D Club met in the home of Mrs. Sexton with Miss Dunlap and 10 members present.

Miss Dunlap gave a very interesting demonstration on walks and drives.

The ladies embroidered 14 cup towels for the hostess.

Our next meeting will be the first Thursday in August.

#### MRS. WILLIAMS LEADS PRAYER SERVICE

Mrs. Cleve Williams, Spiritual Life secretary took charge of the prayer service preceding the meeting of the Women's Society of Christian Service Monday July 21 in Fellowship Hall, at the Methodist church. Mrs. A. E. Proctor gave the devotional using Isa. 58:12 and Matt. 1:12 as her scripture reading. Prayers were given by individuals and the service closed with the Lords Prayer in unison.

Mrs. G. S. Webber gave the lesson on New and Renewed Alcohol Education.

Present were Mmes. J. H. Carpenter, Tobe Power, W. B. Downing, Webber, Joe Johnson, Harry Longbrake, Glenn Harris, Cleve Williams, Herchel Thurston, A. E. Proctor and Lee Walker.

#### MRS. EDD ASHBURN HOST TO H D CLUB

The Meadow demonstration club met in the home of Mrs. Edd Ashburn July 15th. There were nine members present. Mrs. W. T. Bell gave a report from council. Our demonstration agent, Miss Dunlap gave a demonstration on walks and drives which was of interest to all.

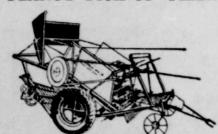

The club will have a social Aug. 1 at the school lunch room.

The next meeting will be with Mrs. Jim Jones in September.

Ice cream and cake was served by the hostess.

Light sure travels at amazing speed until it hits the human mind.

**L-JAICE CORONA STARLIGHT** 2096960— Her production of 1097.3 pounds of fat and 27,408 pounds milk with a test of 4.0 per cent give L.JaiCee Corona Starlight 2096960 top place among Texas owned Holstein-Friesian

cows who have completed official production records in the 3X division of the 365-day test in Advanced Registry, announces the Holstein Friesian Association of America. She is owned by Neale Farms, Waco, Texas.

#### Texas Road Building Leads The Nation

From the highway building agency at Austin last week, the Herald gathers the following facts from Commission Chairman John H. Redditt's report. For instance, when the State system took over in 1929, there was only 6,061 miles of paved roads in the state against the present mileage up to July 1, of 25,734.

Where Texas is really going to town is on the Farm to Market program, which we understand is letting around 100 miles a month for the past few months. Progress is reported on contracts of some \$77,000,000, a volume never before reached in the history of the department.

The department has a lot of praise for the faithful employees which now number 7,663. Of this number, 2,278 have been with the department ten years or more, 100 have served 25 years or more. One has completed 30 years or service and others are approaching that figure.

#### ICE CREAM PARTY GIVEN FOR BTU CLASS

Mrs. R. J. Rowden entertained her BTU class and young people of the Forrester community with an ice cream party Friday night July 18 in her home.

Games were played and ice cream and cookies were served to Tommie, Chester, Mary Jo and Juanita Hadaway, Kenneth Jackson, Velma Jean Bruce, Pat Tipton, Nathalie Golden, Mr. and Mrs. Kyle Adams, Mr. and Mrs. Jim Jackson and the host and hostess, Mr. and Mrs. R. J. Rowden and Le Wayne.

### Peaches Coming In Abundance

A Texas peach crop that's expected to be of the best quality yet has started rolling into market from the West Cross Timbers area and the northeastern part of the state.

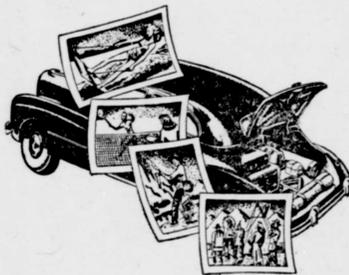

Most growers in both areas have carried out intensive spraying schedules throughout the growing season, which is producing worm and rot free peaches, says J. F. Rosborough, horticulturist of the Texas A. and M. College Extension Service.

During the last half of July and well into August, the yellow freestone peaches—Halehaven, Fairs Beauty, Texberta and others—will be coming in. The Elbertas will start moving in early August.

The big crop is coming from some 6 million trees, most of which are around Weatherford, Eastland and Comanche in the West Cross Timbers area. Approximately one million of the fruit trees, mostly Elbertas, are in the vicinity of Avery, Dekalb and Omaha, Texas.

For the first time in several years, housewives will have a chance to combine this quality peach crop with unlimited sup-

Mr. O. N. Hamilton, of Parker, Ariz., and his grandson, Norman Godfrey, of Ajo, Ariz., visited Mr. Hamilton's son and family, Mr. and Mrs. L. E. Hamilton the first of the week. Mrs. Hamilton and son Tommy took them to Winters Tuesday where they will visit relatives.

Looks Like A Vacation Ahead . . . Watch Out for Poor Appearance !

There are more things to watch out for than the other cars on the highway—it's your personal appearance. #### GOOD NEIGHBOR CLUB MEETS JULY 24

The Good Neighbor Club met July 24 with Ruth Holleman and Mary Belle Warren.

A quilt was quilted and two luncheon cloths made for the hostesses.

Refreshments of punch, sandwiches, cookies and jello were served to the following: Mrs. Walter Watson, Mrs. L. V. Wagner, Mrs. W. H. Wagner, Mrs. Henry McMillan, Mrs. Milton Wagner, Mrs. Ford Fowler, Mrs. J. C. Cunningham, two visitors, Mrs. Marvin Warren and Mrs. James Warren, the hostess and 11 children.

The next meeting will be with Mrs. Dalton Warren, August 7th. Since the club was organized a little over a year ago, the members have pieced four quilts, quilt-

ed eleven quilts, made a baby quilt and one set of cup towels and several other things.

Coopers were tested and soap making demonstrated at Mrs. Walter Watsons.

Mr. and Mrs. E. O. Pentecost of Wellman had as their guests Friday, her brothers, F. L. Cates of Cooper, Texas, B. H. Jones of Tahoka and her nephew, Elmer Cates of Slide.

plies of sugar. The peaches will go by way of truck to every town in Texas.

**G. I. Question And Answer Department**

Q. I have a blue discharge from the Army. Am I entitled to any of the benefits under the G. I. Bill?

A. If you have other than honorable discharge, you may request Veterans Administration to review the circumstance under which it was issued. If it is found that your discharge was issued under conditions other than dishonorable, you will be eligible for benefits under the Servicemen's Readjustment Act (G. I. Bill).

Q. I am an American Indian and a World War II veteran. Am I eligible for a G. I. loan?

A. Yes, but it must be on property you own or plan to own outside the reservation. You cannot secure a G. I. loan to build a

home on tribal land.

Q. Will Veterans Administration accept collect telephone calls made by physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A. Yes.

Q. I am a World War I veteran and was married in June, 1945. Is my wife entitled to receive a pension when I die?

A. A widow of a World War I veteran is entitled to receive a pension if she was married to the veteran before Dec. 14, 1944, or for 10 years or more. Consequently, your wife would not be eligible for a pension if you died less than 10 years after your marriage.

Mrs. Betty Rice and daughter, Marilyn and Mrs. Ray Hughes left last week to visit friends in Dayton, Ohio.

**44 ways To get "Something for Nothing"**

The railroads have received 44 "rules" demands from the leaders of the operating unions . . . representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—NOR a wage increase.

**More Money For Less Work**

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

**For Instance:**

The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 5.

**"Made Work"—Sheer Waste**

The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service is performed as a part of the same day's

work. The crew would get at least two days' pay for one day's work.

The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

**You Can't Afford This Waste**

Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work, not waste, this is it.

105 WEST ADAMS STREET • CHICAGO 5, ILLINOIS

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

**Soil Conservation District News**

Mr. Will Montgomery, Route 4 Tahoka, who is a farmer-cooperator of the Lynn County Soil Conservation district, paid a visit to the CYT district office July 24. This farmer was interested in grass establishment on his farm. He made a trip around over Terry county to see first hand results of grass plantings, and also paid a visit to the Starnes farm to see how the new sprinkler system there was to operate. Mr. Montgomery is 77 years old and says he has farmed in the same community 41 years. It is his opinion that every farm should have some permanent pasture.

W. L. Lowe and son, Brady of Lubbock, who own two sections of land in Yoakum county, contacted the District office July 24 relative to starting a good grazing grass on their land in Yoakum county. These two men will return later for assistance on pasture improvement.

W. W. Watson, who farms the West half of Section 36, Block 7, south of the Municipal Airport, secured the assistance of the CYT district technicians in mowing 24 acres of shinnery pasture. This treatment is to aid in bringing back a better stand of native grass. The mowing of shinnery is one of several conservation practices that Mr. Watson will use on his farm to carry out good land use practices. Other plots of ground are to be used for more pasture.

W. M. Hunter, sr., of Lubbock, who owns the North half of Section 9 and the North half of section 14, Block 4-x, located about three and one half miles due east of Meadow, requested the District Engineer to assist in developing an irrigation system on part of his farm. If water is secured, alfalfa and grasses will be established later to make a better balanced farm program. Mr. Joe Kennedy has operated the Hunter farm for some time.

Odus Caswell, who farms about 1 mile west and 3 miles south of Meadow has requested assistance through the CYT District program for a better conservation

planned farm. Mr. Caswell, by starting now, is getting ahead of the early fall rush.

John A. Perrin, district conservationist over the work group consisting of Brownfield, Morton, Muleshoe and Littlefield, attended a Range School in Amarillo from July 21 to 25.

A number of leading farmers and farm leaders are greatly concerned over possible fire hazards in reference to a large number of wheat field stubble here on the Southern Plains. It has been suggested by these farm leaders that due caution should be exercised against any possible burning off of wheat stubble. A good coat of wheat straw on the ground is insurance against wind erosion for two years to come where the trashy cover is well managed. To allow straw to burn off through carelessness may bring a crop failure one season closer.

Along highways and railroads where burning is a hazard, the preparing of a fireguard is essential. Elsewhere, day and night vigilance to confine small fire promptly is a necessity. Motorists and others should help in every way possible to prevent the starting of fires by carelessness. Much damage to property, such as fences, machinery and farm buildings, always is threatened as a result of stubble fires, to say nothing about the complete loss of a good ground cover, which within itself may be a bigger property damage. So, let's use every precaution against burning off of stubble during this dry July period.

Organize a group in your community for conservation planning. Your CYT District office will help in coordinating your efforts. Come in and talk over your community problems in regard to farming.

Mrs. Etta Gillham and her granddaughter, Miss Edith Gillham, of Boulder, Colo., visited Mrs. Gillham's daughter, Mrs. Ewing McGehee and family in Canyon this week.

Glen Cary, son of Mr. and Mrs. Tracy Cary, who has been attending school in Pampa came in last week to remain here until fall when he will attend the Kilgore Junior College.

**United States And "Uncle Sam" Synonymous**

By Garland Adair

Texas is sometimes referred to as "John Texas" or (and) "Old Man Texas." This comes from the fact that John Knot, eminent cartoonist of the Dallas News, has for many years given Texas its nicknames.

When it comes to a matter of giving credit where credit is due, however, to the nickname of the United States, it is not such an easy matter.

The derivation of "Uncle Sam" as the nickname of the United States has never been determined for certain. The popular derivation assigned to it is as follows:

During the War of 1812 the government purchased supplies from Elbert Anderson, a contractor at Troy, N. Y. When the government buys goods it appoints an inspector to see that they are up to specifications. In this case the inspector was a good-natured man named Samuel Wilson who ment by the name of Uncle Sam. The goods were marked "E. A.—U. S." The initials stood for "Elbert Anderson to the United States." One of the employees at Anderson's was asked what the "U. S." stood for. He facetiously replied "Uncle Sam." The joke took over and gradually was adopted as the nickname of the United States and as the personification of America. But this story lacks proof. In fact it is practically disproved by the following quotation from the Troy Post, Feb. 13, 1813: "Loss upon loss and no ill luck stirring but what lights upon Uncle Sam's shoulders, exclaim the government editors. This can't name for our government has got almost as current as 'John Bull.'" The letters U. S. on government wagons are supposed to have given rise to it. The foregoing sentence was written less than a year after the War of 1812 was declared and in the very town where "Uncle Sam" is popularly supposed to have originated through the incident previously related.

**How Did The Eagle Become Our National Emblem?**

The eagle as a national emblem is not peculiar to the United States. It was the principal device on the standard of several ancient nations, and it is the national emblem of several modern countries. It became our national emblem when it was placed on the great seal adopted by the Continental Congress on June 20, 1782. The eagle was first suggested as part of the seal by William Barton, a private citizen of Philadelphia. His eagle, however, was created and was not the American or bald eagle. Charles Thomson, secretary of Congress, who modified Barton's design, put the eagle as the central figure of the device and specified that it should be an American eagle, rising not displayed.

Texas has a forest of Southern Pine trees in Bastrop county which grow farther West than anywhere in the U. S. It is called "The Lost Pines."

**WILLOW WELLS H D CLUB NEWS**

The Home Demonstration Club met in the home of Mrs. Nelson on July 23 at 3 o'clock.

The Home Demonstrator met with the club. The lesson was on walks and drives. Refreshments were served and

enjoyed by all.

Those present were: Mrs. Dunlap, Mrs. Vaness, Miss Betty Kinney, Mrs. Lampp, Mrs. O. Kennedy, Mrs. Balcum, Mrs. Faulkenberry, Mrs. Sturdivant and the hostess, Mrs. Nelson.

Those attending club council in Brownfield were Miss Betty Kin-

nie and mother, Mrs. Kinnie, Mrs. Nelson and Mrs. O. Kennedy.

The next meeting will be in the home of Mrs. Sturdivant July 28 at 3 o'clock.

The County Health nurse, Mrs. Griffith will meet with the club. We hope all members can be present and always welcome visitors.

**Former Brownfield Girl Marries In New Mexico**

Beautiful in its simplicity was the wedding Sunday afternoon, July 27th at 4 p. m. in the First Baptist church of Jal, New Mexico, of Miss Rowena Hulse and Fred A Thigpen, of Jal.

Rev. Jack McCullough, pastor, officiated at the double ring ceremony before an altar banked with fern and garden flowers, and large baskets of dahlia and perennial phlox. Candles on the piano for an illuminated background for the wedding party.

Preceding the ceremony Miss Beverly Burke played "The Bells of St. Mary" and the traditional wedding marches. During the ceremony she played "Song of Songs" as soft background music.

The bride wore a street length dress of navy blue with white accessories. She carried a white Bible topped with white rose buds and pink sweet peas with satin streamers. For the traditional "something old" she carried a white handkerchief belonging to her niece, which had been carried by three previous brides.

The couple were attended by Mr. and Mrs. T. J. Thigpen, son and daughter-in-law of the groom.

Immediately following the ceremony, Mr. and Mrs. J. M. Whitworth, close friends of the bride, held a reception in the Home Economics cottage. The bride's table was laid with a white linen cloth centered with a three-tiered wedding cake, topped with a miniature bride and groom. The ends of the table were decorated with garden flowers.

Those assisting in the reception were Miss Dortha Carl, Mrs. Ray Speer and Mrs. Leslie Martin. After a short trip to Santa Fe, the couple will be at home in Jal.

Wedding guests from Brownfield included: Mr. and Mrs. Alanson Hulse and Sherry, Hugh Hulse, Nevelle and Elma Lois, Dorma Nell Jenkins, Mr. and Mrs. Dan Hulse and Patsy, Mr. and Mrs. Curtis Hulse, Mr. and Mrs. Norval Hulse and daughters, and Mr. and Mrs. Embree Hulse.

Mr. Herb King manager of the local State Employment Commission here attended a conference of the Commission at Midland last week.

**JORDAN REUNION**

Mr. and Mrs. A. J. Jordan of this city and Mrs. Elmer McCutchen and boys of the Needmore community, returned last week from attending the family reunion of the H. R. Jordans, pioneer settlers of Vernon.

There were 125 of their descendants attending. A. J. Jordan is one of the only four surviving children, out of a family of 12.

Mr. and Mrs. Walter Bond and little son, Wally of Houston, are here the guests of his mother, Mrs. J. C. Bond and daughter, Miss Shirley. Also his brother Clyde Bond and family. Walter is salesman for wholesale drug, chemical and surgical supplies.

Only one, of the elder set failed to attend, because of sickness.

**Herald Want Ads Get Results!**

Mr. and Mrs. L. G. Smith are rejoicing over the arrival of a little daughter, Juaneva Lajuna the 25th; weight 7 pounds and 15½ ounces. Smith, an employee of the Brownfield State Bank, was passing out cigars and stated: "It is not a boy, but I am proud of our little girl." The average American farmer is in the best financial condition he's ever been in before.

BROWNFIELD, TEXAS

### Terryites Candidates For Scholarships

Joyce Meeks of Brownfield and Max Williams of Meadow are honor graduates of high schools in Terry county who have been accepted as candidates for \$100 Dunlap scholarships to Texas Technological College next year, the college committee on scholarships and awards has announced. Annually the Dunlap stores give funds for scholarships to Tech to selected honor graduates of high schools in Lubbock and the adjoining counties. This year 31 candidates were chosen from some 100 applicants. Selections were based on high school scholarship, three psychological tests and a personal interview at Tech. Students must maintain a B scholastic average or better to receive the award after having been accepted for candidacy.

Mr. and Mrs. M. J. Craig, Robert Lee and Jean and Mr. and Mrs. A. G. Green, of Tatum returned Sunday from a vacation trip through Colorado.

Eli Whitney invented the cotton gin.

### Air Power Is Peace Power

The experiences of World War II and the growing smallness of the world brought about by the continued improvements in aviation underscore the vital necessity for maintaining strong air forces. Today, without question, our air power is in a position to serve as an effective guardian of the peace. The basic theme of Air Force Day—"Air Power is Peace Power"—thus holds meaning for all Americans.

Our air power, supporting the policies of peace-loving nations, is insurance against war. The Army Air Forces, with the air units of the National Guard and the Organized Reserves, will provide our air power.

In our common search for world security, we must support adequate air forces and two important elements which contribute to air strength—a virile aviation industry and an expanding program of research and development.

Mrs. C. W. Avary of Meadow and Mrs. B. C. Flowers of the Needmore community visited Mrs. Herman Chesshir Monday.

NUMBER 1

## Terry County Ginners Preparing For Fall Crop

### Pressure Cookers To Be Tested

Pressure cooker gauges will be tested in the county home demonstration agent's office, basement of the court house next Saturday morning, August 2. Any woman who failed to take her pressure cooker to have it tested earlier in the year, or anyone who has recently bought one, is asked to bring it in for testing.

This is the latest pressure cooker clinic to be held this year, and it is hoped that all who need this service will avail themselves of

Rev. and Mrs. J. Preston Murphy and Rev. Clem Sorley, of Lamesa left Thursday to attend a leaders training school in San Francisco, Calif. After their return the Murphys will spend the remainder of the month of August in Fort Worth visiting their parents.

The J. L. Newsoms have bought the Troy Noel house and moved in Monday.

This opportunity next Saturday morning, says Miss Helen Dunlap, County Home Demonstration Agent.

### Attention Bell County People

The annual Bell County Panhandle and West Texas reunion will be held at Mackenzie State Park on Sunday August 10th. We are reminding you of this day and date as agreed upon by more than 200 present on last August.

Remember all former Bell County people are cordially invited to attend and enjoy a day of relaxation and renewing of old friendships.

Bring as many as you wish and with you well-filled lunch baskets.

### CLIFF FITZGERALD RETURNS FROM VACATION

Cliff Fitzgerald, city policeman, returned Wednesday from a 10 days vacation spent in Hobbs and El Paso.

Fitzgerald has been on the city police force for a number of years.

Cpl. L. H. Brittain arrived home this week and will soon receive his discharge papers. He has been a patient in the General Hospital in Beaumont for the past two years having received shrapnel wounds while in active service.

Read Polio Preventatives now appearing in the Herald In Interest of Public Health

While several old timers have remarked, "we never know till November whether or not we'll have a crop, and there is many a slip between the planting and harvest." Nevertheless Terry county's fifteen ginners are being readied for a big season. The ginners are optimistic at the present for the biggest run in the history of the county. They note the excellent condition of the crop, and the greatly increased acreage. One ginner who keeps a close view on the cotton patch, stated he believed the county would produce 75,000 bales this season.

While most of the gins will have only to sweep off the spider webs, and accumulated dust of two idle seasons, several are installing new machinery, extensive repairs and additions. All are cleaning up, overhauling and getting ready for a record run.

Hermans gin, the oldest in the county, owned and operated by Herman Chesshir is doing a general overhaul job. His brother, Leonard and co-owner are installing much new machinery at Forrester. Mr. Barton has completed a new one at Union. A new and large one is being rushed to completion at the old Needmore school site. Roy Phillips is wiping off rust and dust and oiling up the North Gin. Gordon Newsom, who last year purchased the McNabb gin at Gomez, expects to be ready with full capacity. Lee Fulton will operate the same one in the Johnson community.

Lee O. Allen is taking time off from his Mayors job at Tokio to rejuvenate the old faithful and care for his twin-county district. After keeping crews busy all summer, overhauling, Mr. Griffith will manage the Co-Op at Wellman. Howton & McCool are the new owners of the old Campbell gin there. Frank Weir is also making ready.

The three gins at Meadow, which had only one years rest, as their 1945 crop was near normal, are busy in pre-season work. Tom Brown is manager of the Farmers co-op there. The West Texas, under management of J. M. Burlington, as usual, has only to overhaul and oil up. The McCombs Bros. gin have installed much new machinery. The Lockett gin just over the Hockley line, but serving a large territory in Terry, are keeping pace.

Several predict that if the crop turns out as is now prospective, it will tax the capacity of all our gins to handle the crop.

Mr. and Mrs. Burton Clifton of Lubbock were week end guests of Mr. and Mrs. Dennis Q. Lilly.

A

**"Y"**

For Young Men and  
for Young Women!

Your Help Is  
NEEDED

The program of the Y's provides recreational opportunities for children, teen age youth and young adults in a variety of indoor and outdoor activities. It helps young people to maintain health and physical fitness, gain skill in personal relationships and develops qualities of leadership. It seeks to help them understand themselves and the world in which they live and to make the right personal choices in life.

It aids youth to take responsibility for planning and conducting their own activities through Youth councils, committees, club groups and to join with others in civic events. As a Christian organization, it helps young people to understand the Christian heritage and to achieve a sustaining and courageous religious faith. It works co-operatively with other agencies of the community to achieve the aims that all character-building organizations have in common—service to youth.

**NOTICE — BIDS WANTED**

Notice is hereby given that the City Council of the City of Brownfield, Texas will receive bids for the construction of foundation for Worthington Gas Supercharged Dual Fuel Engine up to 2:00 o'clock P. M. on Friday the 15th day of August A. D. 1947 at the City Hall in said City of Brownfield, Texas.

Plans and specifications for the said foundation are on file in the City Hall at the office of E. D. Jones, Superintendent and may be obtained by any person, firm or corporation desiring to bid on the same.

All bids must be accompanied by cashiers check payable to the City of Brownfield, Texas, for at least 10% of the bid conditioned that the successful bidder will enter into a binding contract for the construction of said foundation and give bond for the successful completion of the same.

The City of Brownfield reserves the right to reject any and all bids received.

FRANK JORDAN, Mayor, City of Brownfield  
Attest: THOMAS D. ZORNS, City Secretary. 2c

Mr. and Mrs. Barney Evans of Stephenville are visiting in the W. O. Schellinger home and the Kyle Graves. They are enroute to their new home in Morton.

**Corporation Charters And Business Failures**

June was the peak month in Texas as far as new business is concerned, with 281 new domestic corporations receiving charters, according to The University of Texas Bureau of Business Research. In the same period Dun and Bradstreet reported only 4 business failures in the State.

The new charters exceeded the 230 granted in May but business failures were also greater, as only 2 failures were reported in May.

Capitalization on charters issued during June reached \$6,591,000, which was a sharp drop from the \$9,547,000 total marked up in May. This reduction means that the size of new business is markedly smaller.

Miss Jo Ann Howland, Clarksville, Texas, is visiting Charlsie Lou Gaston.

Mr. and Mrs. Phil Gaasch had as their week end guests Mr. Gaasch's parents, Mr. and Mrs. G. M. Gaasch, of Tulsa, Okla., and Mrs. Gaasch's mother, Mrs. J. T. Resler of Stillwater, Okla.

Mrs. T. G. Green, of Indianapolis is here visiting her sister, Mrs. Ame Flache. They will visit relatives in Hobbs the latter part of the week and in Winters next week.

**Martin Baze Here On Business**

Martin Baze, of Ft. Stockton, was here this week with Mr. V. J. Ross of the Pecos County Airways advertising their air excursions to a lake in old Mexico. The take-off by air is from Ft. Stockton, and in just a few hours you are at this fishing resort, according to circulars, without bother of custom duties, as they are all attended to by the company.

Baze is the son of the late M. H. L. Baze, who was for several years superintendent of schools here in the early thirties. His mother is still living at Monahans, where her husband died several years ago, and is one of the school faculty there.

Mr. and Mrs. Kenneth Fowler, of Kosciusko, Miss., Mrs. Mary Fowler and Mrs. Alice Bowie, of McCool, Miss., left Wednesday of last week for their homes after several days visit in the home of Mr. and Mrs. J. J. Gaston. Mrs. Fowler and Mrs. Bowie are sisters of Mrs. Gaston and the three had not been together for twenty-nine years. While here they visited the Carlsbad Caverns and were accompanied by Mrs. T. W. Brunton.

Mr. and Mrs. Everett Latham were in Dallas the first of the week to attend the fall market.

**Texas Wranglers To Appear on Rio Stage**

The Texas Wranglers a stage show carrying six people is scheduled for the Ritz Sunday and Monday in addition to the regular attraction. The group of entertainers is built around the famous Troutt family of Evants, Texas.

With the Wranglers is the Hollywood wonder horse, Smoky Boy who will perform on the stage with his trainer, Murl Alexander.

**ENTERTAIN LIONS DANCING GIRLS**

At their Wednesday luncheon, the Lions Club were entertained by a local dancing team: Misses Barbara Beard, Von Forbus, Carlon Brady and Jacki Roberts. They featured tap and toe dancing with an art and grace equal to that seen on the stage. Mrs. Mary Dee Mason, was pianist. Their instructor was Foy Mackay.

Burton G. Hackney, presented as his guest at the luncheon, Lee P. Pierson, solicitor of the Department of Justice, from Washington; A. W. Christian, assistant U. S. District Attorney of Fort Worth and V. M. Nelson an investigator of the Department of Agriculture who are here on official business.

Mr. and Mrs. Luther Cruce returned after two weeks at their Cabin on Possum Kingdom Lake.

**GOMEZ NEWS**

T. L. Dozier and daughter, Maude of McAdoo visited in the home of Mr. and Mrs. Cager Wade over the week end.

Mrs. Preston Ballard and sons, of Crosbyton spent the week end visiting her mother, Mrs. Lee Howell. Her sister, Miss Colleen Howell returned home with her for a short visit.

Little Carolyn Sue Carroll of Sweetwater is visiting her aunt, Mr. Alfred Tittle.

Week end visitors in the B. R. Lay home were Mr. and Mrs. C. C. Cabool of Levelland and Mrs. Ida Collin and son of Big Spring.

Mr. and Mrs. Buster Neely and Mr. and Mrs. George McKee of O'Donnell were week end visitors in the Cliff McKee home.

Mrs. Lockart of Lubbock was a visitor in the Wes Key home Sunday.

Mr. and Mrs. Bert King and baby daughter, Linda Kay of Plainview visited Sunday with her father, Tom Doss.

Mr. and Mrs. J. M. Teague, of Spur were guests of Mr. and Mrs. Joe Young last week.

Mr. and Mrs. J. F. Keeling and daughters Martha Nell and Vicki Ann of Mt. Enterprise, Texas, and Mr. and Mrs. Lenard Tyer and Linda Kaye of Timpon visited the C. J. McLeroys Saturday. Mr. Keeling is a brother to Mrs. McLeroys.

Mrs. B. R. Lay is visiting friends in El Paso this week.

Work on the dunch room for the Gomez school has been started along with other improvements.

Mrs. W. T. Sparkman and Mary Gertrude left last week to spend a few days with her parents in Center City and to attend graduating exercises at Howard Payne College in Brownwood where their daughter will receive her degree.

Mrs. Cliff M-Kee's father, W. E. Brasher, died last Thursday at his home in Aspermont. The body was carried to Hale Center for burial. Mr. and Mrs. McKee and daughter attended the funeral.

August 3 through 10 is the date set for the revival at the Gomez Baptist church. Only one week so plan now to attend every service. Rev. Steve Miller of Humble, Texas will do the preaching.

**HELP BUILD**

**AMERICA'S AIR POWER**

**on AIR FORCE DAY, AUGUST 1ST**

No one today questions the fact that the whole future of the United States may rest in the very clouds over your head. And the new, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's air power . . . on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may also be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Reserve and continue your military aviation training outside of business hours.

Or, you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

On Air Force Day, make a point of finding out everything about your Air Forces — especially the new Aviation Career Plan described below. Full details can be obtained at your U. S. Army Recruiting Station.

**NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION**

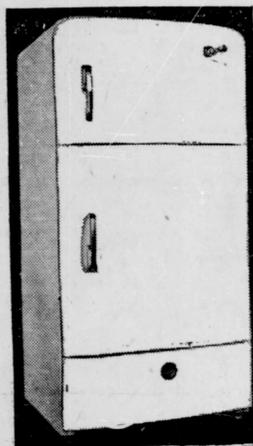

Today the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling on earth — and select your school or course before you enlist.

The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to your U. S. Army Recruiting Station, advise the Recruiting Officer the kind of aviation training you want and he will provide you with an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your basic training period you are guaranteed the education you have selected to make you a specialist in the type of work you want.

Get a list of all the schools and courses open to you under the AAF Aviation Career Plan at your U. S. Army Recruiting Station.

## How A Tennessee Sportsman Rose And Fell

Not long ago, when we mentioned having a picnic lunch with relatives at a one time pretty prominent resort, Roger Springs, of the wealthy sportsmen of the section, we promised to elucidate more in the future. Will say the water is very cool coming as it does from under high, heavily timbered hills. But it tastes rather nasty, which in our experience, is one of the conclusive evidences reached that the water has medicinal value. Did you ever taste medicine that was pleasant?

But this story goes back to our childhood, some 55 years ago. A rather young man, whose name we will not use for various reasons, had a hefty gift of salesmanship, as well as being a man who dearly loved to follow the fox hounds. An old editor the writer worked for during our teens, and a relative of this sportsman, once told us that he gave Jim his first hound. Anyway, as time passed, Jim added to his pack; got to the point where he could lease a lot of that wooded hill country for hunting purposes, and imported red fox from England.

Then he leased for quail hunting, and began to add bird dogs to his kennels, and hired men to manage and train them. His place became a mecca for governors, senators and other noted men. But Jim was looking for men with means to locate in the little town of Hickory Valley and build winter homes. He succeeded well, and among them were such New York tycoons of that time like Stevens, DuRey, Whitney and others, who came down and built palatial winter homes with a routine of servants. They would spend the winter there chasing fox and killing quail.

Jim was soon selling hounds and pointers at fabulous prices for that day and time, well up into the five figures. Not only that, but the fast passenger trains on the Illinois Central would stop at this little village and take on Jim and his hounds or pointers, when there was a field trial anywhere in the United States or Canada. They began to call him Colonel, and his name was familiar among sportsmen everywhere.

There were other men of means who wished to spend some time in the area during winters, but did not wish to build homes. So, the 40 room hotel and resort was built at Roger Spring. We did not go inside, but was told that the rooms were elegantly furnished. A physician now owns the place and he informed us that he was preparing to cut out the rank growth of underbrush, repaint and redecorate the hotel inside and out, and pave the road leading to a paved highway at the top of the high hill. Then, if he will use some advertising in Memphis

## Behind the Scenes in American Business

BY Reynolds Knight

There seems to be a great deal of "wishful arithmetic" in the new methods the Department of Commerce is using to figure out America's "national income," chief indicator of business, industrial and agricultural activity. Many billions of duplicated income dollars apparently are included in the \$178 billion dollar national income which the Department added up for 1946.

Government, for example, claims it contributed \$23 billion dollars to the national income. This figure includes the pay of federal, state, county and municipal employees. But where did it get this money? The answer is obvious. It took the money first in taxes from the wages of individuals, and from the gross earnings of business. Thus, government's "contribution" consists of taking from you to pay another. The number of "unseen guests" at your supper table each night has grown rapidly over the years.

**TIRES—LUXURY?**—The fact that excise taxes at "mink coat" rates are still being applied to auto tires, adding about \$139,000,000 a year to the tax burden borne by the nation's motorists, was brought out the other day by Guy Gundaker, field sales manager of B. F. Goodrich. In presenting a 30-year dealership plaque, Gundaker noted that in that period American auto tires had followed such a course of "better-for less" that the average motorist's tire cost per thousand miles had been reduced from \$2.35 to 65 cents. And in perpetuation of that trend, he said, his company's replacement tires now are "below prewar prices for tires that outwear prewar tires." Against this trend, though, is the fact that the excise tax remains a fixed added element for from seven to 14 per cent of the price the consumer must pay for a tire. The comparable tax on auto accessories in general is only two per cent and other dailies, and resort media, he may get this resort back on its feet and a paying proposition.

But alas and alack, to finish with Jim. He went the way of all flesh. Some kind of monkey wrench got into the cogs of his machinery, and we were told by people who knew that he died a virtual pauper. But this resort will be a monument to his memory. Jim was not a bad guy at all; he had many good friends even among the natives—but somehow, no one seemed to know—he made an awkward step, fell and never rose.

But old Hardeman county, and especially the Grand Junction section still carries on as a sportsman's paradise. Annually, one of the south's greatest field trials are held at Grand Junction, Tennessee.

## Veterans' News

The Veterans Administration has advised World War II veterans in Texas, Louisiana and Mississippi to pay their GI insurance premiums by draft, personal check or money order rather than by direct cash remittance.

Paralyzed and tubercular patients in VA hospitals may now study educational courses while they are bed-ridden by flashing microfilmed pages of textbooks on the ceilings over their beds with special projectors.

The new program is a feature of VA's Educational Retraining, Medical Rehabilitation Service. VA has microfilmed 32 manuals from the 200 courses used in the educational therapy program to launch this project.

The subjects range from grammar through physics and electric refrigeration. A number of books on the establishment and operation of small businesses also are included.

Mrs. L. H. Brittain and her mother, Mrs. C. O. Brown spent the week end in Littlefield with relatives.

Mmes. W. B. Downing, Hayden Griffin, J. L. Cruce and W. H. Collins spent several days in Ruidoso this week.

Mr. and Mrs. M. A. Donica spent the week end in Brownwood visiting relatives.

**3 HARVEST SEASONS every year**  
Spring—Summer—Fall

## ALL-CROP HARVESTER "SUCCESSOR TO THE BINDER"

Risking your whole year's work and investment in a single crop is no longer necessary.

The All-Crop Harvester handles a wide variety of crops that mature at intervals from spring till snow flies. You have money coming in during three seasons instead of one.

Early clovers and grasses open the harvest season in late spring and early summer... followed by summer-ripening grains... then fall seed crops, sorghums and soybeans.

This one home-owned machine harvests them all.

The All-Crop Harvester's wide, rubber-faced bar cylinder with its finger-tip speed control gives you a choice of over 100 crops. Crops that not only diversify your income but improve the fertility and productivity of your entire farm.

Many legume and grass seeds qualify for the 1947 conservation payments of \$3.50 per acre. Market prices per bushel are also excellent for most seeds.
