WAR DEPARTMENT CIRCULAR.

General Grant, under date of the 24th instant, has issued a circular calling the attention of department commanders to general orders, No. 24, November 30, 1865, from the Adjutant General's Office, and directing their compliance with its requirements. The order referred to prohibits the giving of furloughs to soldiers whose term of service has nearly expired.

Attention is also invited to the fact that section 29 of the act approved July 5, 1868, "That in lieu of the bounty now provided by law for re-enlistment, every able-bodied non-commissioned officer, musician, or private soldier who may re-enlist into his company or regiment within two months before or one month after the expiration of his term of service, shall receive three months' extra pay," was repealed in full by section 9 of the act approved August 3, 1861.

General Sheridan, while in Providence, was serenaded by the Grand Army of the Republic, and in response made the following neat little speech: "COMRADES: I cannot express to you my pleasure and gratification at meeting you here tonight. To be greeted by my old comrades in such an enthusiastic manner makes me believe that the struggles we have had in defending the country have made a bond of friendship between us which is not easily to be severed. I can only say to you that I hope that bond will be continued: If it is continued until the sky is clear, the country will owe you for a double service. First, for the suppression of the rebellion in the field; second, for the use of your influence, after you have assumed the garb of private citizens, in preventing rebellion from being made honorable."

The Galveston (Texas) Civilian, which has been at some pains to collect the yellow fever statistics, says that the whole number of deaths, from the commencement of the epidemic to the 1st of October, was 1,254, of which 145 were from other diseases, leaving 1,109 from yellow fever. The Civilian estimates that there has been 15,000 cases of fever, as nearly all the population of 22,000 were unacclimated, thus giving only one death to every fourteen cases of the fever. The Galveston News, however, says: "We think this is too large an estimate of the cases of sickness. We believe 12,000 near the truth, making allowances for the number of persons who left the city."

RELIGIOUS ANNIVERSARY IN PHILADELPHIA.—The 30th anniversary of the Reformation of the fifteenth century, dating from the reading of Luther's celebrated 95th thesis, a declaration of faith on the doors of the church at Wittenberg, was celebrated in Philadelphia on the 31st ultimo by appropriate services in all the Lutheran churches in that city. All the churches were decorated with flowers, and were crowded during the exercises.

The following is the signification of the names of some of the Indian chiefs who recently signed the treaty of peace at Medicine Lodge Creek: "White Bear," "Sitting Bear," "Black Eagle," "Poor Man," "Saddle Cloth," "Plumed Lance," "Bear Runs Over a Man," "Kicking Eagle," "Big Bow," "Lone Wolf," "Iron Shirt," "Iron Mountain," "Ten Bears," "Over the Buttes," "Buffalo Hump," "Horse's Back," "Eagle Drinking," "Woman's Heart," "One Bear," "Parted Lips," "Dog Fat," "Little Horn," "Go in the Woods," "Standing Feather," "Wolf's Name," "Crown."

The New York hotels during the past year did well. The Fifth Avenue is reported to have made a clear profit of \$120,000; the St. Nicholas, \$110,000; the Metropolitan, \$100,000; the Astor, \$75,000; the Brevoort, \$60,000; the Clarendon, \$50,000; the Gramercy Park, \$40,000; the Barcelona (Spanish), \$75,000; the Union Square, \$30,000; the Everett, \$50,000; the Spangler, \$80,000; the St. James, \$40,000; and the Hoffman, \$6,000.

The latest news from the west coast of Africa says that at Old Calabar, on the 12th of September, an old Chief died, and a case of foul play being suspected, the entire household, including six wives were compelled to show innocence by eating a poisonous bean. Eight soon died, and none were expected to survive. It was reported that a battle had been fought between two tribes, on the 14th of September, and that forty of the New Calabar men were captured and afterwards killed, roasted and eaten by the Ekerikes.

Somebody says a wife should be like roast lamb—tender and nicely dressed. A bachelor adds, "And without any sauce."

THE NEWS IN BRIEF.

The insurers in Japan are proscribed in society. No other classes will associate or intermarry with them.

Mark Twain lecturing on the Sandwich Islands, offered to show how the cannibals eat their food if some body would hand him a baby. The lecture was not illustrated.

The British Wreck Register and Chart for 1866 has just been published, and is a more appalling catalogue of disasters than ever. Twenty-two hundred and eight-nine ships, nineteen hundred and sixty-one of which were British, were lost or damaged by casualties on or near the coast of Great Britain.

Professor Light made an ascension at Perryville, Juniata county, Pennsylvania, a short time since, in his Montgolfier balloon, with a perilous termination. His balloon split from the hoop to top, and descended with alarming rapidity. A good fortune would have it, Mr. Light lit in the Juniata river, and escaped without any serious injury.

One of the features of the season is to consist of "babies' receptions" in New York. Babies from one month to two years old, dressed in state, are "at home" on certain days, fortnightly, perhaps, and between stated hours, to all their juvenile friends, who are brought and taken care of by their nurses, while their parents compare notes and exchange volleys of mutual admiration.

A new burglar alarm is introduced. It consists of a series of locks and bolts, attached by wires to a spring alarm, so that when a door or window is partly opened by a burglar, the spring sets off the alarm and locks the sash or casing, and an indicator points to the apartment attacked. The indicator resembles a clock face, and is placed in the sleeping apartment of the occupant of the house.

The King of Prussia is said to have had a narrow escape of his life on a Wurtemberg railway. The train on which his Majesty was traveling was upset through running into a cart drawn by oxen, near Gippeugen, which was crossing the line. The cart was smashed in pieces, and a child which was inside had its arm crushed. King William escaped unhurt, and continued his journey after a short delay.

A man in Russia named Kurson, a member of a fanatical religious sect, lately killed his own son and offered him as a sacrifice to God. He stabbed the little boy of seven several times in the stomach, and after he was dead fell on his knees in ecstasy, imploring God to receive the offering. After being taken to prison he resolutely refused food and died of starvation before the sentence upon him could be executed.

In England common bricks absorb as much as a pint of water each; and a wall of 12,000 bricks will hold 1,500 gallons of water, requiring a ton of coal to evaporate it. Ordinary building stone is more retentive of water than bricks. Sandstone, in the dry state, contains a pint and a half of water per cubic foot. When water reaches a sandstone wall it diffuses throughout, and in Paris has been known to ascend thirty-two feet from the foundations.

A Belgian paper states that a robbery took place recently at Chenee under singular circumstances. The proprietor of a menagerie stationed there had just sold his animals to some English people and had received a partial payment of ten thousand francs, which sum he deposited in a chest and placed it in the den itself. Notwithstanding the proximity of bears and tigers the thief entered the cage and carried away the chest and money.

The Spanish politicians are considerably agitated by the sudden death of a nun named Sister Patrocinio, who had obtained a complete ascendancy over Queen Isabella, and who had, in consequence, exercised a controlling influence in affairs for a number of years. Opinion was divided as to whether she was a fanatic or an impostor. Like all royal favorites, she was hated by the people, and had numerous enemies, and some friends at court. There are rumors that she was poisoned.

A gouty gentleman was one night sitting alone by his parlor fire, when a well-dressed man came very civilly into the room and said, "Sir, I observed your servant has just gone to the stable, and carelessly left your street door open. Now, how easy would it be for any rascal to come in and blow out these two wax candles, thus! and thus! and run away with this heavy pair of silver candlesticks," which he accordingly did, without waiting for a reply.

A framshop far up Broadway is styled "The World's End," while another down town is the "Hell Gate. Eilat O'Gee."

MINNESOTA COMES UP TO THE SCRATCH.

By our yesterday's telegraph our readers were informed that the gallant State of Minnesota gave her voice in favor of extending the elective franchise to all its citizens, regardless of race or color. The foolish howl of "reaction" is dying out. It was the death rattle of rebellion.

A CITY GOVERNMENT.

What is a city government? Is a question which seriously concerns every citizen. Is it a concern for the support of indigent politicians? or a licensed institution for official thievery? Or is it the business establishment of the city corporation for the transaction of the municipal government upon the best and most economical plan, in which every agent of the corporation is held strictly accountable for his capacity and honesty? We take the latter definition to be the proper one. But let any unprejudiced man step into the Mayor's office of this city and ask to be shown how the municipal establishment has been conducted, and he will conclude that the first definition is the only one adopted up to this time, and that our city government has been made a den for thieves and for the employment of men with no higher capacity than their ability to control ignorant and illegal voters.

Every citizen contributes to the maintenance of the city government and every citizen is concerned in its management. If a prodigal, dishonest or incompetent set of men come into office, the pockets of the people are bled at a fearful rate, the city falls to rack, public improvements degenerate to a system of expensive patching, and the only thing that grows is the public debt.

At the rate our city government has been going during the rebel rule of Mayor Lyons, another year would have required ten years of economy to have repaired the injury done. One by one we intend to lay the facts before the public to sustain what we here assert. In a message to the City Council a few months since, Lyons advised the selling of all property owned by the city in order to strip it so bare that parties holding claims against it would not sue. After the city is stripped of all its property and continues to run in debt, the property of every citizen becomes liable as a party to the corporation for that debt. Had Lyons remained in power, before his term had expired the last rag the city owned would have been sold.

We repeat the question, What is a city government? because we fear some of our friends have imagined that it meant a place to provide fat, easy jobs for political favorites. Being a corporation under the United States authority it should be in the hands of loyal men; being the business establishment of the city it should be managed by honest, competent men, and conducted on a strict business plan.

The new administration enjoy an advantage because they owe their positions to military fiat and can do right fearlessly;—can be honest and economical in spite of the opposition of political enemies or the importuning of political friends; and we hope to be able in a short time to show our citizens that their work is being properly done; every account of every public servant, every public expense, every iota of public income properly kept and accounted for, and all so simple and plain that a school boy may understand it.

The new administration has a most embarrassing commencement. The city government is in the condition of a ship just abandoned by a band of pirates, who, knowing they would be soon compelled to leave it, have run it upon the rocks, cut down the masts, destroyed the sails, the compass and the provisions, and left it in a state of great distress. New masts must be put in, new sails made, a new "log" commenced, a new compass provided, new stores laid in, and the municipal ship disinfected and hauled off the shoals of debt and distress, and then, with Stars and Stripes in place of the "raw head and bloody bones," we feel certain all will come out right. We only ask a reasonable time and fair shake to give the proper definition of what a city government is.

EUROPEAN NEWS.

LONDON, November 13.—Florence despatch says a note from Meaabria has had a very quieting effect on the country. The press of Italy however are almost unanimously of opinion as to the impossibility to reconcile the difficulty existing between the Italian Government and people on one side and the Pope on the other.

The age for any fanciful accessory to the toilette is not of long duration, with French women; even gilt ornaments are already beginning to be superseded by ivory ones. Not only are ivory agraves worn on mantels, but large and small ivory beads are mixed with jet fringes for mourning, and with crystal for evening toilettes. Very light palm leaves dotted with gold are beginning to take the place of the gilt leaves and acorns now seen decorating every hat.

"NEW AMERICA."—Prof. James Hall,

the eminent geologist says: "A previous continent once filled the North Atlantic Ocean, and drift from it produced America. The first land was the Adirondac region; then the Highlands; after which the other parts of the State and continent came into being. The higher mountains were produced last, even in the Adirondac country. The Iron of Essex county, a fine magnetic ore, was deposited there in beds instead of in veins, and was the most valuable in this part of the continent. The geology of New York had been, he remarked more thoroughly studied than that of any other part of the world. Even in England learned men had made mineralogy their study, and had let lessons from the rocks comparatively alone. In Europe all writers on geology began by quoting the natural history of New York. So also in Canada."

Tampabay Hall of New York city has been purchased by a number of prominent Republicans, in which a new journal is to be published in the interest of the Republican party exclusively, and not subject to the vagaries and vacillations of the Times and Tribune. Six hundred thousand dollars have been subscribed, and Charles A. Dana will take the editorial management. It will be called "THE TALKER," and sold at two cents per copy.

A Spanish journal states that September of the present year was fatal to the toreros, not fewer than eight have been killed and many others wounded. At Aravaca, the bull tossed an unfortunate picador into the air three times, each time catching him on his horns. When at length he fell to the ground horribly torn, and died shortly after.

A Virginia editor says: "The man from the Western division, who is about six feet in length and drunk accordingly, and who called at our office on Monday, accompanied by an axe-handle, to ask if the editor was in, is respectfully informed that the editor is not in the city, and is not expected to return within the memory of the oldest inhabitant."

The revenues derived by the late King of Hanover, from his estates in England, amounting to the enormous sum of \$3,000,000 a year, are to be transferred to the King of Prussia, since the treaty of 1714, concluded on the accession of the Elector of Hanover to the throne of England, stipulates that this revenue shall hereafter belong to him who shall wear the crown of Hanover.

It is said that Brahminism is dying out with the older Brahmins, and that is the stronghold of Brahminism in Western India, not more than ten or twelve youths are studying Sanscrit. The world will yet see that its ancient tongues are perpetuated only by Christian students.

The Omaha Republicans, of the 27th instant, says a party of ten men arrived there on Friday in a mackinaw, with which they started in the Stinking Water, only twenty miles distant from Virginia City. The distance they had travelled in their mackinaw when they reached Omaha was fully three thousand miles.

At one of the schools in Cornwall the inspector asked the children if they could quote any text of Scripture which forbade a man having two wives. One of the children sagely quoted in reply the text, "No man can serve two masters."

A despatch to the London Times says that a few days ago something like an attempt was meditated against the life of the Pope. A man was arrested under the colonade of St. Peter at the moment that the Pope was about to go out for a drive. He had a pistol concealed under his clothes, but what his intentions were is not as yet precisely known.

A human donkey at Chicago was starting at a man's wife the other evening, with a lognette, when the married man took the printed card "Taken," which lay on a reserved seat near by, and held it up before his wife. Donkey looked no more.

"Job printing!" exclaimed an old lady the other day, as she peered over her spectacles at the advertising page of a country paper. "Poor Job! they hev kept him a printin' week after week ever since I learnt to read; and if he wasn't the most patientest man that ever lived, he couldn't stand it no-how."

A remarkable evidence of presence of mind was recently given in France. Monsieur J.—was talking with his mother-in-law at her country chateau, when a streak of lightning almost literally reduced her to ashes. The domestics ran into the room, when, without moving a single muscle, Monsieur J.—said: "Jobs, sweep up my mother-in-law."

THE CITY HOSPITAL.—On the West side of the San Pedro the city has established a hospital. Upon paying a visit to that institution we found it in good clean condition in charge of a matron. Three men and one woman were the only inmates, all being afflicted with chronic disease, but doing as well as could be expected under the circumstances. The matron is charge is very attentive and performs her duty as a charity as well as a duty. To show the economy of the Lyon's dynasty it would be only necessary to instance this hospital. The poor woman who did all the work, and work which ought to be well paid, received \$15 per month, while the Doctor who claimed the distinction of city physician and health officer received \$200 with a liberal arrangement is regard to drugs. The city hospital is about the only institution the Lyon's dynasty expended its economy on, while its extravagance is visible in a hundred directions.

THE VAULT STYLE.—In New Orleans the dead are mostly interred in vaults erected above ground; some of these vaults make pretensions to architectural taste, but mostly their fronts resemble the customary style of our business fronts, square and solid—panelings corresponding to the square doors of our most approved business style of houses. Why could not our merchants just as well have neat, tasty fronts with spacious show windows? That's what we would like to know.

CASES BEFORE THE MAYOR.—Three cases appeared before the Mayor's Court Wednesday, the 13th—two cases of drunkenness, and one complaint against a butcher for abusing a Mexican woman; all made to pay fines and costs.

PEACE AND QUIET.—No disturbance whatever occurred in the city during the twenty-four hours ending Thursday morning—not a single offender appearing before the Mayor.

LUMBER.—We noticed several wagon loads of the finest cypress lumber brought to this market for some time in our city yesterday, Thursday, from the mill of S. S. Brown & Co., near Uvalde.

IMPROVEMENTS.—The sound of the stone-cutters and the carpenters' hammer is heard in many directions over our city. Considerable building and repairing is going on.

In the World, for the AMERICAN HOME CIRCLE.

SIBERIA OTT, 783 Broadway, New York,

WHOLESALE AGENT. The immense popularity of these Organs, and their superior musical power, is fast bringing them before the public, as the instrument so long desired in American homes. And although the price is but a trifle over the Melodian, yet the musical advantages, beauty of tone and quickness of touch and action are so far superior, that they are fast superseding the Melodian, and the call is now almost exclusively for the American Organ.

It is adapted to any music from the quibset and most lively, to the heavy tone of the Church Organ. And almost universally they are preferred to the Piano, by persons who have them, yet costing less than half, and only taking a small amount of room. Send for descriptive circulars giving full particulars and prices.
