Eighteen persons attended the convention where three resolutions were adopted. Green acted as chairman for the meeting and Nelda Merriott was acting secretary.

First resolution adopted was in support of the bill changing the Federal Estate Tax from \$60,000.00 to \$200,000.00.

In the second resolution, the Democrats asked "that a natural gas consumer in Texas should have to pay no more than the lowest priced gas shipped out of Texas."

Republicans Name Local Delegates

Fifteen interested Republicans attended the Bailey County Republican Convention last Saturday at 6:00 p.m. at the Tri-County Savings and Loan Community room. They chose Clarence Mason and Ray Precure to be delegates to attend the upcoming state convention.

Elected alternates were Joe Sooter and Ed Mason. Keynote speaker was Jim Reese, Odessa, candidate for Congress from the 19th Judicial District.

Opening the meeting was Les-

ter Howard with County Chairman Clarence Mason conducting the session where several resolutions were adopted.

First resolution was for the "Abolishment of the Department of Health, Education and Welfare, and furthermore, stated that these areas of concern be returned to the state and local government."

Local Republicans also resolved to support the need for legislation regulating business and labor under the same anti-trust laws.

Third resolution urged adoption of legislation which would place an expiration date on every federal agency unless that agency proves its worth and Congress then took action to extend the life of that particular agency. They further resolved that every state agency be proven and then state legislators to take action similar to proposed federal action.

Another resolution included asking for regulation of firearms being a matter of local or state, and not federal control.

Final resolution adopted by the group was a resolution for the local delegates to fully support Ronald Reagan at the state convention. This action was taken as four delegates from the state are uncommitted although local residents indicated a preference for the nomination of Reagan for President. A total of 96 delegates from throughout the state have been committed to Reagan's support.

Dr. Charles Lewis 'Dentist of Year'

Heads Committee To Improve Service

Dr. Charles Lewis, a general dentist practitioner in Muleshoe since 1960, and a native of the Muleshoe area, received the "Outstanding Dentist of the Year" award from the Texas Dental Association, the 4700 member state society of Texas dentists.

Educated in Muleshoe public schools, the son of Dr. A.E. Lewis, he graduated from Baylor University Dental School in 1958 and served two years in the armed forces. He and his wife, Sammie, are the parents of two children; a daughter, Rachelle and a son, LaMont.

Dr. Lewis is licensed to practice in Texas, New Mexico and Arizona.

According to outgoing Texas Dental Association President Dr. William B. Milligan, speaking at the annual state dental assembly in Galveston this last week, Dr. Lewis practices four days a week and contributes three days a week to the insurance industry - dental controversy revolving around insurance claims processing by Texas dentists. He was honored for

"his tireless contributions in behalf of his profession and the maintenance of the traditional doctor-patient relationship."

NAMED CHAIRMAN

Dr. Lewis is chairman of the TDA committee which is attempting to arbitrate insurance company demands for diagnostic aids to accompany claim form applicants.

TDA dentists say that they are opposed to providing x-rays with claims, because, as Dr. Lewis states it, "there is widespread evidence that some companies use the x-ray for matters other than those that benefit determination such as fee bargaining, quality control, and utilization. We also strongly object to x-rays being reviewed by non-trained people, and out of state dentists whose training may not coincide with ours," said the lanky 41-year old practitioner voted in 1967 by the Texas Jaycees as one of the "Five Outstanding Young Texans."

covered by a particular policy.

"We feel that this puts a middle man or third party in between the doctor and patient, thereby inhibiting the relationship. We want to provide, or offer, the best dentistry possible, not what someone else has written in fine print and promised the customer," added Dr. Lewis.

TRYING TO UNTANGLE

Dr. Lewis is now working on a study committee of insurance industry executives, management people, labor and consumer leaders, and other dentists working to untangle the complications of the problems of

pre-paid dental plan dentistry administered by insurance companies. This committee is the brain child of Hector Deleon, General Counsel of the Texas State Insurance Commission.

The Pastor Speaks

By Rev. Evetts

THE MAGIC PORTAL - Rev. 3:8 "I know thy works; behold, I have set before thee an open door, and no man can shut it; for thou hast a little strength, and hast kept my word, and hast not denied my name." A man stood in Ancestral Hall, looking moodily into the fire. He felt a touch on his arm - an old man stood beside him. "You have complained that you were in bondage to me - you are wearied of my company." "But you are free and at liberty to go now." So without another word the old man turned and with a key opened a great door and said: "The door stands open, depart." But the man questioned, "Would you thrust me out with no one to guide me?" "Nay, there is one, a young one, he

will take over - prize well the privilege." There were two suitcases - the old man requested that he leave the larger one behind - labeled (Prejudice, mistakes, and sins), take the smaller one - it contains (Experience, faith and courage). He left the company of the old man to join the new guide - through the door he passed over which were the words - "The Magic Portal" - "A New Day of Opportunity". When the Lord of men says: "I have set before thee an open door". When the Apostle Paul counsels his friends: "As we have therefore opportunity, let us do good unto all men, especially unto them who are of the household of faith, we must give earnest heed. It is not enough to profess faith, one must live it out in everyday life. Even if we can not realize the ideal, we may idealize the real."

THE GOOD OF OPPORTUNITY - This fact is noted in the value it give to life, and the vigilance it inculcates. Opportunities are fleeting in nature -

they are gone almost as soon as they come. For a brief moment the door stands open - we may pass through it to a brighter, bigger life, or we may idle for awhile and wait too long. We can not depend on the coming of opportunities. There is no time table to regulate them. They are like ships that pass in the night. The demand exceeds the supply, and a scarcity in any market street corner of Pittsburg. Later to become a railroad telegraph operator, energy plus character and opportunity has shown to the world one of the greatest ironmasters. A youth, inscribed in the books of the Hudson Bay Company as Donald Alexander Smith, was sent to a lonely trading post on Mingan Island off the coast of Labrador. For thirteen years he labored for one hundred dollars a year. He had big dreams. Today he is known as the father of the "Canadian Pacific Railroad, which links the great Pacific Ocean with the Atlantic. He dreamed and did. The word 'Opportunity' comes from two latin words "Ob" and Portus" which mean "Over a

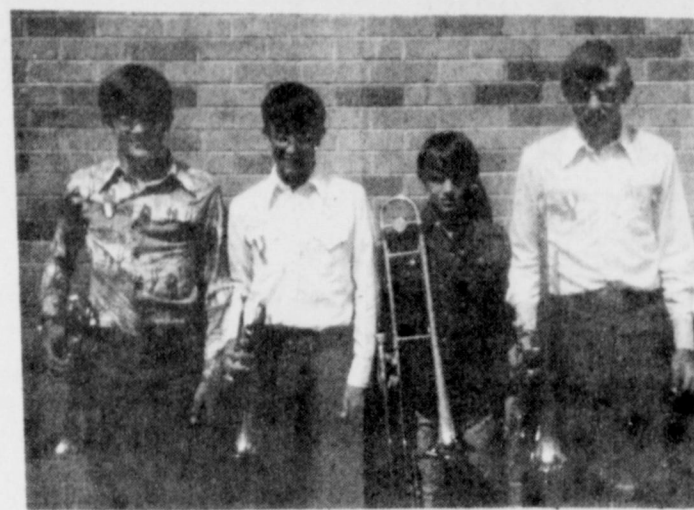

sweep - yet love, faith, and devotion and sacrifice work marvels. Sir John step by step climbed the cloudy pyramids of time to success in his own right. Andrew Carnegie whose name is synonymous with the greatest of steel workers today was once an orphan of ten - penniless, who began his career by selling newspapers on a downtown street corner of Pittsburg. Later to become a railroad telegraph operator, energy plus character and opportunity has shown to the world one of the greatest ironmasters. A youth, inscribed in the books of the Hudson Bay Company as Donald Alexander Smith, was sent to a lonely trading post on Mingan Island off the coast of Labrador. For thirteen years he labored for one hundred dollars a year. He had big dreams. Today he is known as the father of the "Canadian Pacific Railroad, which links the great Pacific Ocean with the Atlantic. He dreamed and did. The word 'Opportunity' comes from two latin words "Ob" and Portus" which mean "Over a

gainst the gateway'. Now let us reason a little - if Christianity means anything at all, it means that: "The Christian has what the world has not." But what the world needs most - lets give or share with it today.

THE OPPORTUNITY OF GOOD: - The opportunity of good proves the power of faith we possess. It defines the circumference of our activity. Its challenge is as wide as life itself. Christian, in Bynans allegory, Pilgrim's Progress, found the wicket gate. But beyond lay the Cross and Deliverance. Then at last because he had trodden the narrow way he came to the gate of the Celestial City.

The revenge of an idiot is without mercy.
-Thomas Fuller.

There's small revenge in words, but words may be greatly revenged.
-Benjamin Franklin.

Dentist...

Cont. from Page 1 who has devoted four major meetings to the conciliation of the problem.

Attorney Deleon has made it clear at these meetings that he does not want the insurance industry "practicing dentistry in Texas", and at the same time he wants them to have a cost control device.

The TDA contends that the new informational form plus the availability of the TDA consultant and peer review provides cost control and protection against erroneous or falsified claims.

Dr. Lewis believes that it will be a year before significant progress is made in getting dentistry and the insurance industry together on these problems.

"At the moment," he states, "we have some telephone company people receiving full benefits, while other elements of the A.T. and T. system, such as Western Electric, are not receiving full benefits because of their carrier's insistence on x-rays."

"This is unfortunate and the only advice I can give is for that person to consult with his benefits supervisor. In companies where the employer gets concerned about these matters, we find them instructing the carrier to drop the x-ray requirement," continued the dentist.

"We are asking TDA dentists to avoid any dialogue on these matters with an insurance company since they have no relationship with the carrier. The policy is a matter between the employee and the employer and the dentist has no involvement, directly or indirectly," he concluded.

The members were assigned small groups of eighth graders and were responsible for showing them around the homemaking department. The tea party was to give the eighth graders an idea of what their class would be like in their up-coming year in High School.

The eighth grade girls would like to thank the Homemaking Class for taking the time in introducing the girls to F.H.A.

Philosopher**

Editor's note: The Sandhill
Philosopher on his Johnson
grass farm is astonished at a
weather report by the CIA, his
letter this week says.

Dear editor:
A couple of years ago when
Russian buyers eased into this
country and quietly bought up a
fourth of our grain crop at
below-market prices, on credit
to boot, because we didn't know
they'd had a big drought over
there, I explained our lack of
knowledge of Russian weather
by saying the CIA simply hadn't
trained any of its people to look
out a Russian hotel window and
see if it was raining.
This, or something, apparently
stung the CIA, because it has
now gone into the weather
business, including the predic-
tion end of it.
According to it, there is going

**A tempting offer on a
gas grill.**

Right now, we're making you a tempting offer on gas grills with twin burners! Independently
controlled twin burners never use more gas than you need. For big meals, use both burners.
For smaller meals, save gas and money by using one burner and half the grill. A gas grill
adds a new dimension to family meals and entertaining. It eliminates the fuss and bother
of cooking outside while it keeps the flavor and the fun. And, because you take cooking
heat out of the house and the burden off your air conditioning, you save energy, too.

Letters To The Editor

Dear Editor:
I was mildly disappointed at the turnout in the primary election of all parties. In adding the votes cast I mentally calculated that about a third (maybe less) voted.

Busy Kristofferson's 'Vigilante Force' His Sixth

Kris Kristofferson, a former Rhodes scholar, who gained fame as a singer-songwriter, is spending more and more of his time these days in front of a movie camera. Currently, Kristofferson is starring in his sixth film, the Gene Corman Production of "Vigilante Force," with Jan-Michael Vincent, Victoria Principal and Bernadette Peters. Written and directed by George Armitage, it will open at the Theatre.

In a total about face, the shaggy haired and bearded actor whose bright blue eyes, dazzling smile and sexy low drawl have conquered many hearts, is playing his first screen heavy in "Vigilante Force." The contemporary drama about a small town that booms after the oil reserves nearby are opened was directed by George Armitage, who wrote the original screenplay.

After playing such a nice guy in "Alice Doesn't Live Here Anymore," "I was ready to get into doing a real lowdown and mean character," pointed out Kristofferson.

Kris made an auspicious motion picture debut in "Cisco Pike" for which he also wrote and recorded the music.

Kristofferson was born in Brownsville, Texas. He was an "Army brat" who travelled all over the U.S. with his parents before settling down in California. He went to Pomona College where as a major in creative writing he won the top four out of twenty prizes in the Atlantic Monthly collegiate short story contest. He then became a

Rhodes Scholar at Oxford University.
Summer Camp For Scouts In June At Camp Post

As the sun begins to climb higher and higher and the days begin to get longer and longer, Scouts in the South Plains Council, Boy Scouts of America, look forward to summer camp adventure at Camp Post located at Post.

More than 400 Scouts are expected to take part in the weeklong training experiences between June 6 and July 2, according to Bobby Moody, Council Scouting Chairman.

"The adventure that a Scout has in summer camp depends on many factors," Moody said, "but one of the most important is boy involvement in program planning, in competitive events, and in his own growth and development."

Among the exciting activities that Scouts find at Camp Post are aquatic skills, nature studies and outdoor camping skills training.

Moody said that the members of the camp staff for the four-week season are carefully selected and are skillful in their relationship to boys and in helping leaders be effective in administering the troop program at Camp.

Key staff members include, Chuck Hornung, Camp Director, Bill Bennet, Program Director and Bill Nelson, Aquatics Director.

A special Aquatic Camp for training in the aquatic skills such as rowing, canoeing, life saving and mile swim. This Camp will run June 27 through July 2. Leadership will be provided by the Council.

For more information regarding all Summer Camp Activities, contact the South Plains Council, Service Center, No. 30 Briercroft Office Park or phone 747-2631.

Everywhere I turn when taxes are the topic of discussion there is a heated discussion. The best place to deal with taxes is at the voting place.
Surely more people in Bailey County are interested in taxes than those who expressed themselves on primary day.
Sometimes we get to feeling, 'What can I do?' 'I'm only one!' Yes but your one plus my one equals two. Two are better than one. If one falls the other can pick him up. Your one and my one plus your friend and my friend equals a voting block that people interested in a political office are going to listen to. If they don't listen to us, then it is time for us to get some one in the office who will listen to us.
If you are tired of seeing our country steeped in debt, laughed at because of mishandled foreign policy and embarrassed by those who have received our money, then let us mount an assault on the legislators to do something about relieving us of this situation.
Enclosed please find a copy of my letter to Senator John Tower in reply to his Tower Comments for the month of April regarding his presentation of "Time for tax reform".
Sincerely,
Charles Kenneth Harvey
P.S. I read with interest Gene Bray's letter to the Editor, Thursday, May 6, 1975 and agree with this wholeheartedly.
(Editor's note: Below is the copy of a letter from Charles Kenneth Harvey to Senator John Tower)

Dear Senator John Tower:
I find a lot to agree with you in your April Tower Comments.
We have passed the time of tax reform.
You have mentioned some very good suggestions for the broad reform.
Under your 'finally' you list probably the best and most talked about point to begin.
Most of us as overburdened taxpayers struggle under the daily threat of our bill collectors but at the same time wonder why our government can continue spending us into debt which to me is the greatest paradox of all times.
When I look at just one department of government, Health, Education, and Welfare (HEW) and see my health handled contrary to the way I want it, my education along channels that I cannot morally agree and my welfare threatened by foreign policies I cannot buy, I ask myself this question: "Just why am I paying for all this?"
People illegally in this country, drawing support and help when I cannot meet my personal

debt. People who are as healthy as I am driving a better automobile than I, eating better meat than I, from money they didn't work for.
Sir, just where is there any incentive for me to even work, much less pay a tax?
By the way, isn't it about time for some "Work Incentives" to be written into our politicians positions? No legislation, No pay would be a good way to get the "Do-nothing" Congress out of the mud hole.
Sincerely a tax-tired taxpayer,
Charles Kenneth Harvey
