A "gentleman" killed three "niggers" near Victoria a few weeks ago. This so far as known has been treated as a huge joke by the authorities, Jokes being his fort, so long as he confined simself to them he was successful.

Unexpectedly the farce was converted into a tragedy. "Niggers and carpet-baggers" stood killing meekly. The murderers, after two years' uninterrupted outrage and prescription, thought nothing could withstand their assaults, and they attacked the garrison at Gonzales. This made the commedian serious. The farce had finally caused the death of a rebel (only one)—a capstone for the pyramid of loyal bones. Now we felt the full force of the military protection. Three soldiers, strictly in the line of their duty, shot down one of a crew who had attacked them. Special officers are sent to investigate the circumstances. HAY AND LIME VS. COTTON. While we saw great quantities of cotton finding, its way to a distant market from the interior of our State, we were mortified to see car loads of hay raised in New England making its way into the interior to market. We also learn that all the lime used for building purposes was imported from abroad. Just think of our boundless fields of wild hay, and our inexhaustible quarries of lime rock, and yet we send to Main and New York or Illinois for our supply of winter hay and our lime! It is high time our people were waking up to their true position, and cease the miserable cry of the "nigger" won't work. The only offset to the hay and lime is the cotton raised by the labor of the colored man. Let every man, white and black, go to work and simply use the advantages and natural riches which lavish Nature has furnished, and then we will see no more importation of hay or lime, or leather, or hundreds of other articles we now import, and the cry about hard times and the " nigger" not working will be forgotten.

In my next I will compare railroad vs. stage locomotion.
