Kn Klux Poetry.

The following Poem, is going the rounds of the press. It made its appearance first in the Memphis Avalanche, the writer being unknown. It only proves that the charme of Poesy can be thrown around the most hideous objects. It is simply a plagiarism from an old Scotch poem, commencing with 'The Scotch are on the Border."

As soon as the shrouded brothers have taken the above oath, the following charge and eath shall be administered by the Grand Cyclops, or in his absence, the Vice-Grand

and the members here assembled, I, splemnly swear to be true to the Order, to its members individually and collectively, and should I ever, by sign, word or deed betray a secret or a member of the brotherhood, that the skull upon which I now look may be a counterpart of mine and I hope that all the social relations which I now enjoy may be sundered, that honesty in the men or virtue in the females may not be known in my family and generation, and that all who own my name shall be branded as dogs and barlots. I further swear to obey im-plicitly, the orders of the Grand Cyclops, regularly issued through his Council, and soon as I receive an order to fulfill it. I again swear that, should a member of this Order be in danger, that even at the risk of my life, I will defend and endeavor to save him. The New Railroad Law of Pennsylvania.

By the free railroad act, that became a law in Pennsylvania a few days ago, any number of citizens not less than nine may form a company for the purpose of constructing or running a railroad where-State, except within the limits of any incorporated city, in which case a special charter is required. Thus chartered, the companies are required to complete and open the first 50 miles of the road within five years; six months more being allowed for each additional 25 miles. Brasch roads, connecting with the main line, are also authorized under this act; and when the directors of two companies cannot agree on mutually satisfactory terms respecting the junction of the roads the Court of Common Pleas of the District in which the connection is to be made shall, have the final arbitration of the question.

This is a brief sketch of the principal features of the new law, in the most essential particulars similar to that of New York. Such a law is just what is needed in Texas, We have yet to establish a system of internal improvements, and, with the experience of New York, Pennsylsonie and California before us, such a law as the above should be one of the first nots of our Legislature. It opens a rich field to private enterprise, without being compelled to go through the logrolling of a Legis ature for the purpose of obtaining a charter to corry out any public work. The corporation law of California has been the chief reason of the great prospecity of that State.

MEXICO SILVER MINING.-Mr. W. W. South, the gentleman who ewns the machinery which passed through this city, the first of the week, goes to Santa Rosa, a hundred miles from Eagle Pass, to reopen the "Pavibon Silver Mine."

The machinery is the most powerful ever taken into Mexico through this route for mining purposes and is intended to give employment to sixty or a hundred men; thus the old sources of revenue that once made the coffers of San Antonio teem with wealth, are one by one renewing their welcome revenues. In addition to the mining machinery which hope that now that the contractor is can crush from thirty to fifty tons of on the route giving it his personal rock per day, Mr. S., has machinery for a superintendence the mails will be put participation in the rebellion. grist and saw mill.

SOUTH CAROLINA.

South Carolina, that former hot-bed of treason, and the nest from which that secession, has gone Radical Republican tragedy this warm and elected her two Republican Senators and all her Republican Representatives. She has ratified her free Constitution, and soon takes her place once more in the Government of the nation. It could voters were 127,296, 80,286 of whom were colored, against 47,010 white.

Could Calhoun's ghost revisit his native State and see the utter repudiation of his teachings, we fancy that he would hie his ghostship back to the grave to free himself from the obloquy and infamy which hangs over his name.

South Carolina was the most tyranical of all the States; she was the first to go among the first to become reconstructed. And now, having thrown overboard her secession, her States Rights, and her mean slavocracy, we shall expect to see her take a front rank in the march of improvement.

The New York Tribune's special says all offers to aid the military authorities in correcting false returns, and all attemps to remedy frauds in the election in Louisiana, by the Republican leaders, were thwarted by Gen. Buchanan.

Since the publication of the article on the "El Paso mail service" in our issue of the 7th inst., the following facts and circumstances in connection with the reestablishment of this mail service have come to our knowledge, going to prove that Mr. Ficklin has neglected nothing within his control to reopen communication with New Mexico, and place his line in perfect order. The means at his command in the way of money are ample, and he is determined to use it freely to facilitate the work. Some time in March, upon the recommendation of the military authorities, the mail route was changed from, by the way of Castroville and Fort Clark, to a new route by way of Fredrickburg, Mason and Concho, from the latter point there is a stretch of some eighty miles without settlements or certain water. Previous to the change the mail was delivered at both ends with tolerable regularity.

We can easily understand the numerous difficulties involved in a change of a mail route so long and through such a sparsely settled country. Contract for the delivery of forage at the mail stations are about being made, animals and quaches abundantly to stock it, on, or en route. The contract for the supply of forage on the frontier posts, had already drainthe route of all surplus forage of last years crops The large number of horses and mules required by the Quartermaster's Department, has rendered it difficult to procure (as was desired) the necessary stock for the

We will not pronounce a hasty and evere judgment when it is clear that a real, honest, vigorous effort is being made to perfect an enterprise so mportant to our people. Mr. Ficklin has shown unusual tact and energy in preparing for a speedy perfection of this route, making at cheaper safer and more comfortable than ever before. Before the war this mail ervice was performed with more regularity than that to Alleyton or Matagorda Bay. But we all know too well how difficult and tedious a matter reconstruction is. The publie will allow Mr. Ficklin a reasonable time to find reliable men to do his work. Parties coming through give good reports as to safety, and we

Wires Dows .- The line is broken below Brenham, and the repairers were unable to raise it, up to midnight last night. The suspense is unfortunate, as the final decision of the Impeachment trial is liable to start across the country at any moment. We will issue an Extra if the news coules to-day, and before into rebellion, the first whipped, and night, time will clapse in which to organize a rousing demonstration.

The New York Tribune's Washington special says at a meeting of the influential Democrats on Sunday evening it was agreed to aid the nemination of Hancock and Groesbeck for the Presidency and Vice-Presidency.
