Editor of the San Antonio Express :

The personal, that is, absolute govern-ment, now prevailing in France, disclessed its permicions offerts during the debates on the administration of Mr. Haussman, the practect of the Seine. In pulling down and building up, he has expended two hundred millions, has committed vio-lations of the law in every direction, and plunged the city of Paris into enormous debts; and as he had the consent of the Emperor, he cared for nothing class. The complaints about the actions of the Vice-Emperor, as Thiers called Mr. Haussmann, ed every day in the legislative body. suddenly the State minister, Mr. Rouher, leclared ue would astonish the world by his candor. And he kept his word. He dropped Haussmann, acknowledged his irregularities, his violations of the law, and left undefended all friends of the government, who had defended the administration of the Praefect, especially his colleague of the Interior Mr. Forcadede la Roquette. Only the Emperor he wanted to be free from all responsibility, because this was simply a question of-matters of adminis-

ty near the same thing, and everybody knows that if Napoleon III, is responsible at all, he is responsible for Haussmann's administration. Haussmann expused himself at every opportunity with the will of the Emperor, and every culogist of the Emperor pointed at the embelishment of Paris as the proudest work of his reign .-And, indeed, Paris bas been made magnificent, of course, without regard to cost or law. But if the Emperor is not responsible, then Mr. Haussmann is, still nobody thinks of making him suffer under such responsibility. This resignation has not been accepted; Haussmann remains in of-fice, so does Forcade and Bonher, and all remains as it was. No security is given for the further observance of the law. In spite of the democratic character, which the second Empire claims, the citizens of Paris are not allowed to choose their own municipal officers. The unlawful contract Hautemann entered into with the Credit

Emperor: a part of it belongs to the Leg-islative body. The State minister declared: 'We are wrong,' and everyone is satis sent to whatever the government asks.

In England Gladstone delivered a three ours speech on the disestablishment of the Irish Cchurch. His propositions are: The administration of the persons and estates of the Irish Cyurch is to be entrusted to a commission; vacant places can only be filled temporarily, and on the first of January, 1871, this privilege ceases. On this day the supremacy of the Crown over the Irish Church is at an end, and the church separates into independent communities, (parochial,) which elect their own church officers. Of the sixteen millions worth of property seven millions are to be used for the establishment and support of beneficiary institutions; the rest to be ap plied to reimbursements of those who suffer under the new order of things. The bill will be offered for second reading on the 18th day of March. (The telegraph informed us of the result.)

The New Pease Movement.

Although the San Antonio Express, un-der its new management, has greatly im-proved in ability and manuers, we fear there is little real change in its extreme Radical politics. Some of its articles, tately, indicate a spirit of proscription which has called down upon it even the Australia Republican. The hostility to flownor Hamilton is manifest; simply being the Morality of their gentleman, in the convention and out of it, as expressed in his firentian amount, has alrawn forth the approval of the Democratic press, the attempt is made to projudice him with his party, and a ingree of laterness is exhib-ited, which the circumstances do not at all

speak of his official words and new, and we have used that right, though sparingly and never discourteously.

We stated that this distinguished gentleman rave to the Convention, one interpretation of the suffæge clause,—as interpretation necessary

to its passage,—and that he gave in his subsequent speech at Brenham, an interpretation not reconcilable with the first. Was this statement a "bitter" one ! Yes, we confess it, but it was not of our making-it was the bitterness of truth.

At this moment, with rival zent. the Republican advocates his election on one interpretation of the franchise clause; and its neighbor the Gazette urges his claims on the other, and both plant themselves on his publicly uttered words.

This may be slightly awkward, and there may be a flavor of "bitterness" in it, but please not to hold THE EXPRESS responsible. It is not our funeral.

THE EXPRESS has manifested no hostility to Governor Hamilton," but toward the position which that gentleman occupies, by reason of the vociferous acclaim and hosanuas of the Democratic press, we have shown considerable hostility, and expect to show still more.

We never " went it blind" in our life, and are too old to learn that trick. If the Augel Gabriel, or any other of the Angelic feathered tribe. should be thrust upon us as our can didate, nolens rolens, by the Democ racy, we should repel him with the kick editorial.

The fact is, Oh brother of the Ga zette, that the little affair four years ago, at Appomattox Courthouse, settled the question of surrendersand settled it the other way.

It occurs to us to say here, by the way of "moral," that while the Austin papers accuse THE EXPRESS of manifesting a bitter and nawarranted hostility towards their candidnte, the friends of its former editors, both here and in Washington, are loudly proclaiming that "we have sold out to Jack Hamil-

This is a cheerful little fact, and with Mark Tapley we feel becomingly "jolly " over it.

Now one word with regard to Governor Pease. Since the present editor assumed control, it has hap to freeze the meat, and the object pened that the Governor's name has never once appeared in our columns. If then we are his "organ," it must be admitted that we are blowing for him in a very noiseless way, and advocated the release of political without much expenditure of wind, other scientific gentlemen will acsiless of the revolution are accepted ernor was seeking office, which be

PARAGRAPHS.

Tun Hemble we mean the Republican Herald of San Antoniothinks that "General Grant has a singular aptitude for taking anything but advice, If a horse, good; house, doubly indebted. If a \$65,-000 check, just the thing; let us have peace. But no advice, ruther have a horse."

OUR new converts have a rather singular way of manifesting their affection for the party of their choice. However "bear and forbear" is the word, until the 'pulpy' softness of these fledglings is hardended into muscular republican strength. - Whatever spanking we have to administer to our linfant

convulsions almost periodic. Then loans are levied, armies marshalled, and the whole machinery of force put in motion, to crush the messy masses who seek to each from their shoulders, the tremendous land they are no longer able to sustain.

Five millions of young men, the flower of continental Europe, stand facing each other today, and the hand of toil is robbed of its last dollar, that the great armies may be sustained. Everything indicates that the Governments are about to engage in a war, which. must take on huge proportions; possibly before it is ended the people may also take a hand.

Fresh Texas Beef For New 2

Lying in the East River, at the foot of Sineteenth-st., is the steamship William Taber, fitted up under the superintendence of Professor Lowe for the purpose of transporting to this market the carcasses of beef cattle from Texas, where beef is comparatively worthless. The gentlemen who have taken the enterprise in hand have incorporated themselves into what is called "The Refrigerating Steamship Company, with a capital of \$300,000. The Taber is a vessel of about 960 tons measurement, and is so arranged that she will carry 400 tons of carcasses in such a manner as to allow a free circulation of air around each

The entire hold of the ship is lined with a non-conducting felt two inches in thickness, and when the proper machinery is in working order, the ship's hold can be cooled in an hour and a half. The extreme degree of cold is produced by a pressure upon carbonic acid gas, condensing it to a liquided form, and then allowing it to evaporize. This process produced so latense a de-gree of cold that personal contact with the ice or machinery will cause duce blisters on the flesh similar to those raised by burns. As a matter of course this temperature is altogether unnecessary for the preser, vation of meat, and would in fact be uscless, and it was only produced as an experiment. The refrigerator on board has a capacity of 900 lbs. at a time, and ice was made and the ship cooled yesterday morning in one hour and a half. The air in the ship was reduced to a temperature of 20° above zero. The air, as it came from the supply pipe which the cold air was thrown into the hold, indicated a temperature of 180 below zero. The temperature can be reduced from 18 to 0° below zero, but it is undesirable is to keep it in an atmosphere where this rization almost ceases, and where it is dry and cold. The Tuber will sail for Texas on or about the 1st of April, in command of Capt. Bulger, Prof. Lowe and company her on her first voyage, The Company has an agent in Texas who will provide the cattle, and This will shortly be increased to 200. The round trip will be made in from 39 to 35 days and the meat will be delivered in this market in about 12 days after it is slaughtered. It will be retained in and sold from the vessel until the Company

DISPRESORISED OFFICERS. - The City Council has entitled of General Canby, whether city officers disfranchised under the 14th amendment, can perform official acts. In Vitginia a general order has tolieved all such officers from duty; strange it is that pothing has yet, been said of it in Texas.

ENERA SCHOLERER. OF Golden good and honest Union mon in Toxas, who are disfranchised by the reconstruction laws, scarcely one of a public reputation has been enfranchised by Congress, while a host of others, whosodopplity is rogy donbiful, have been favored. Judge Paschal's letter to Place's Bulletin explains this strange state affairs. It is the money which enfranchises, not the standing, merits, or loyalty of the man. We hope the new administration will make an end of this pardon brokership, and that the loyal people of Texas will remember those who are so active in furnishing relief, when money is presented, but who have no regard for poor men, who only claim honesty and CARRIESSNESS, The Incedit's mail from

This same mistake occurred once before. The Postmuster in question has generally shown himself efficient, and we hope that this notice will be sufficient to prevent a repetition of the blunder.

Boz (Dickers) atral the subject afterwards in his "Bleak house," painting with his artistic pen a fair representation of Lady Sonerby Creamsly.

Mrs. Crisp has played her part well, although it is our opinion that she has not taken altogether the proper view of the haracter; she should be the misguided old woman, having an inclination towards outward piety, but being more in earnest than she was represented. The bad spirit. who knows he is a rascal, is Aminidad Sleek, upon whom rests the responsibility of the destruction of family life. It would consequently make a stronger effect if the said Mrs. Sonerby Creamely, would put a little more pions devotion into her part, Mixed with worldly and selfish sentiment. Municat Dorivos.—Since Mr. Waters gave
up publishing sheet music, he has devoted
his whole capital and attention to the manufacture and sale of Piavos and Malodeous.
He has just issued a catalogue of his new
instruments, giving a new scale of prices,
which shows a marked reduction from former rates, and his Pianos have recently been
a warded the First Pathium at several Pairs.
Many people of the present day, who are Many people of the present day, who are at racted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his lustruments carned him a good reputation long before Expesitions and "honors" connected therewith, were even thought of; indeed, we have one of Mr. Waiters' Pianofortes now in our residence (where it has slood for years), of which any manufacturer in the werld might well be proud. We have always been delighted with it as a gweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same plano, and all pronounce it a superior and first class instrument. Stronger endorsement we evald not give connected therewith, were even the Stronger endorsement we could not Home Journal. (feb!
