**Republican Platform.**  
The Republican party of Bexar county, assembled in Mass-meeting, in the city of San Antonio, on Wednesday, May 5th, 1869, made the following declaration of principles:  
Whereas, Unity upon political questions is indispensably necessary among those who are loyal to the Government, and in favor of the Reconstruction laws, and the National Administration; Therefore, be it resolved:

1st. That we, the Republicans of Bexar county, in Mass-meeting assembled, accept the National Chicago Platform, as modified by the 15th amendment, and will heartily support the principles therein announced.  
2nd. That we most emphatically disapprove of any division in the Republican party, and we earnestly urge upon all true and loyal men to drop obsolete issues, and previous differences, and unite as one man in the great work of reconstructing the State in conformity with the National will.  
3rd. That we recommend the holding of a State Convention at Houston, on the fourth Monday of May, and a Congressional Convention at Seguin, on the third Monday in May.  
4th. That we are opposed to self chosen candidates, or to those presented by cliques, in any manner.  
5th. That we pledge ourselves to support the regular nominees of our State and District Conventions.  
6th. That the Secretary of this meeting is instructed to furnish a copy of the proceedings of this meeting to the loyal papers of this State.

**District Convention.**  
At the meeting of the 29th Senatorial Representative District Convention at San Antonio, on Monday, May 10th, 1869, the following resolutions were passed:  
WHEREAS, 1st. No election is yet ordered, and it is uncertain whether the President of the United States will order an election at an early day, or postpone the same till after the re-assembling of Congress; and  
Whereas, 2d. In the latter event it would be inexpedient to nominate candidates for the Texas Legislature at so early a date, as new issues might arise requiring different nominations; and  
Whereas, 3d. The time allowed for the convening of this Convention was unreasonably too short, to enable all parties concerned to take the requisite action; and  
Whereas, 4th. The small number of Delegates who responded to the call, convince this assembly that they cannot claim to fully represent the Republican party of the District; Therefore,  
Be it Resolved, That those persons who are willing to tender their services to the people, as members of the Texas Legislature, are requested to make known their names.

2nd. That the Counties of the 2nd District, not yet represented in this Convention, be urged to call mass-meetings and select delegates to the Convention, when re-assembled.  
3rd. That this Convention do, and do hereby re-assemble, by a call of the majority of the present Delegates, after the day of election shall have been ordered.

Chairman, and delegate for Bexar county.  
J. KIRCHNER,

**HINTS TO FARMERS.**—If you don't know how to prune, don't hire a man from the other side of the sea that knows less than you do.  
Don't cut off a big lower limb unless you are a reuter, and don't care for the tree when your time is out.  
A tree with the limbs coming out from the ground is worth two trees trimmed up

ten feet, and so until they are not worth anything.  
Trim down, not up; shorten, not lengthen them.  
If you had your arm cut off you would feel it to the heart—a tree will not feel, but get to the heart.  
When any body tells you of a gardener that understands all about horticulture and agriculture, and that he can be hired, don't believe a word of it, for there is no such to be hired. Such a man can make more than you can afford to give him, and if he has sense enough to understand the business he will also have enough to know this.

**Preventive of the Army Worm.**  
We take the following from an article in the New York Journal:  
A planter on the coast, having for several years past, being in the habit of sowing in his cotton land the ordinary cow manure and dung, to his amazement, that those of his neighbor's crops were no more had been so severely injured by the worm, his crop remained untouched, was induced to test the efficacy of the Vire as a preservative against their destruction. With this view, he used the following experiment, to wit: That of cultivating one portion of his field in cotton alone, and surrounding the other with a belt of peas. This done, the period for the army worm to appear having arrived, that portion of his field which had been sown with peas was entirely unharmed, while that in which peas had been sown remained untouched—a result which, of course, leads him very naturally to suppose that the virus allowing around the cotton, had proved its protection against the aggression of the insect.

After all, from the account given by the oldest inhabitants of our parish, we are inclined to think that it is, as reported, an insecticidal preservative against the ravages of the cotton worm, and for this reason: From the authority quoted above, we are told that up to twenty or twenty-five years ago, such a thing as the army or cotton worm was unknown among them, and before that period it was the universal practice of all planters to sowing their seeds—whether of cotton or corn, in peas. Why should they have given up this wholesome practice, we are unable to say, but certain it is that since, few have been the crops raised in this section, without having been more or less injured by these insects.

We could not too strongly urge upon our cotton planters the importance of testing the efficacy of this simple expedient, it being both easy and profitable.  
Among the subjects to be discussed at the approaching Memphis Convention we mention the following:  
1. A new force law, compelling the owners of stock to fence them in, in very

much needed, and of all measures of assistance that Government could adopt, it would help our people most, and add millions of money, both saved and made, to our resources.  
2. Some practicable plan, backed by sufficient money, of introducing improved stock, and testing new varieties of seeds and fruits, should be adopted.  
3. Special attention should be given to the consideration of Ranic, and encouragement, in the way of premiums, &c., given to experiments with it, both because it can be gathered by machinery and produced in large quantities, and because it can be gathered and produced in large quantities, and because it can be gathered and produced in large quantities.

Republican State Convention.

A Delegate Convention of the Republican party of Texas is hereby called to assemble at HOUSTON, ON THE FOURTH MONDAY OF MAY NEXT, for the purpose of nominating candidates for State offices.

The basis of representation for delegates is the same as the apportionment made by the late Reconstruction Convention. It is earnestly urged that a full delegation from the various counties be present.

TRACY & QUICK, Editors Houston Union.

E. M. WHELOCK, Editor San Antonio Express.

A. SIEMERING & T. HERTZBERG, Editors Texas Press for Texas.

A Call.

FOR A DISTRICT AND CONGRESSIONAL CONVENTION.

The loyal press unite in urging the Republicans in each Senatorial District, contained in the 4th Congressional District, to nominate on the SECOND MONDAY IN MAY, a Republican candidate for Senator, and as many candidates for the House of Representatives, as their respective Districts may be entitled to have members, under the new Constitution.

It is recommended that the Senatorial and Representative districts known as the 24th, 25th, 26th, 27th, 28th, 29th, 30th, hold their conventions respectively at Goliad, Columbus, Bastrop, Belmont, Georgetown, San Antonio and Corpus Christi.

It is further recommended that the Republicans of the 4th Congressional District, at the same time select delegates to a CONGRESSIONAL CONVENTION to assemble in Seguin on the THIRD MONDAY IN MAY—each Senatorial district to send as many delegates as it may be entitled to have Senators and Representatives in the State Legislature.

Railroads.

There is at this time no railroad outside of the State of Texas, that the citizens of Bexar county are more interested in than the New Orleans and Opelousas railroad; this interest has been based upon the statements of wise manipulators, who profess to be fully posted in regard to the condition and future prospects of all roads pointing in this direction.

Some tell us that the Chattanooga and Mobile railroad have arranged a consolidation of all the roads from Mobile to Columbus, via New Orleans, Niblets Bluff and Houston; that they have negotiated for the franchise of the Columbus and San Antonio road. We were told this same thing months ago, and were also told that hands would be immediately put upon the road at Columbus, pushing in this direction.

Now, as we take it, the great desire of San Antonio and surrounding country, we may say of Western Texas, is to have a road first, if we can get it, that will connect us with the great net work of National railroads, east of the Mississippi river, and our interest requires that it should be the shortest and most direct route to the most densely populated portion of the United States. All agree that the Cairo route is preferable; the St. Louis next; the Memphis next; and the New Orleans and Mobile last; but all are agreed that the first three are in the future, and no effort of ours would decrease that future one day, and likewise all are agreed that the only feasible and practicable route is the Columbus, Houston and New Orleans route; hence we are forced to place all our hopes upon the Chattanooga, Mobile and New Orleans and Columbus roads. How well they are based, the future will tell; how wise or well informed the aforesaid manipulators are, will be seen by a report of the Directors of the New Orleans and Opelousas railroad. They state that a vexatious suit instituted in the United States Court, trying to force the road into Bankruptcy, has been dismissed, that thereupon, the Bondholders appeared in open court and demanded four and a half years interest, due them, unpaid, upon 1987 first mortgage bonds, amounting to \$750,000, and upon default thereof, the road and its property is now in the hands of the United States Marshall, advertised for sale on the 25th of this month, to satisfy the claims for the aforesaid past due Coupons. Besides this debt, they owe the Government of the United States, for repairs upon the road \$30,000. That they have completed 80 miles of road from New Orleans to Berwick's Bay, which has cost the company as follows:

Table with 3 columns: Description, Amount, and Interest. 1987 first Mt'g Bonds, \$1,987,000.00; 4 1/2 years interest, 750,000.00; U. S. Government, 30,000.00.

\$2,767,000.00

Showing a cost per mile of \$34,587.50, bearing an annual interest of \$221,360.00.

In their report they make a strong appeal to the citizens of New Orleans, asking them to take a \$1,000,000, second Mortgage Bonds, showing that it will enable them to arrange the payment of the past due interest by exclusion of time on part or all, and to finish the road to Vermillionville, which will entitle them to subscription of stock, by the State of \$250,000 in State Bonds, and that they will then be able to complete the road to Orange on the Sabine, in two years; but in the event of the sale, they say: "Should the sale of the road be accomplished - it matters not if it falls into the hands of parties whose interests, intentions and purposes would lead them to take immediate steps to carry it forward, they would find themselves embarrassed with many difficulties, not perhaps now foreseen, which would at least greatly delay, if not ultimately defeat, its extension."

From this report we see that there has been no consolidation with the Chattanooga or any other company, and if unable themselves to prosecute the work they speak of, obstacles will be in the way of any other company who may purchase, which would at least delay, if not defeat, the extension. They can have reference but to one "obstacle," and that is to legal intervention on their part.

Under the best auspices, we will not have a road running from New Orleans to the Sabine, under two years, and this promise is made by a company, that for eighteen months, has been fighting to avoid Bankruptcy, and who to-day are not legally in possession of one foot of the road, or one dollar worth of its property; yet are in a condition, and manifest a determination to place many difficulties in the way of any party or parties that may purchase with the intention of extension.

We shall refrain from recrimination and ask our friend of the Express to do so likewise.—Austin Republican.

Our Austin cotemporary under the heading, "let us have peace," gives this paper and its editor a number of "werry vicious digs," and when his supply of brickbats is exhausted, he winds up with the above sentence. We can't say that we admire that way of "refraining," but as we are placable by nature and habit, and never get out except in sheer self-defense, we cordially agree, and expect to observe the courtesies of the truce, at least as long as our pugnacious and peppy brother at Austin.

We will be asked, why will not harmony result from the Houston Convention? We answer, because but one side has participated in it, and it is, we think, a moral certainty that under this call the divisionists and the ab-initios will not assemble. We doubt there ever having been an expectation that they would.—Flake's Bulletin.

There is a grave error here. The Bulletin declares that the Houston Convention will result in no good, because it is called by the Anti-ab-initios, and therefore only that wing will participate. While the Austin Republican, the organ par excellence of the "Anti's," denounces this call as wholly in the interest of the other faction, and declares that the Express has become again their mouthpiece. In this it is seconded with endless iteration by the Telegraph—the organ of the moderate—conservative—Democratic—Republicans, and the chorus is made complete by the verbose and lachrymose Jeremiahs of certain factionists, who regard with mingled incredulity and horror the loyal, national and popular stand now taken by this Journal.

The Bulletin mistakes greatly in supposing this call for a Convention to emanate from any "side" of the Republican party. We belong to no faction and go with neither side.

The call was issued in accordance with the pressing and urgent request, of prominent public men on both sides of the Republican house, who saw the danger sure to result to the common weal, if this schism could not be closed.

To preserve the integrity and unity of the whole Republican party, we have joined in this movement, trusting thereby to promote harmony, and lead to reconciliation and peace.

The regular meeting of the Bexar County Railroad association was held at Kampmann's building on Commerce Street, Monday Evening May 10th.

The attendance was not as large as it ought to have been, and as we hope to see it at future meetings, we take this occasion to remind the citizens that this association meets every Monday afternoon at five o'clock, and that there is no secrecy connected with its proceedings. The members and citizens generally should be willing to give one hour each week to the consideration and discussion of ways and means for the speedy accomplishment of the great work of connecting our city by rail with some point on the coast. The time has arrived when we should wait no longer for persons from abroad to take the lead in this work. They cannot be expected to take the same interest in this enterprise as our own citizens, whose prosperity, may with safety be said to mainly depend upon our having at an early day railroad communication with Indianola and Galveston. The building of either one of these roads would hasten the completion of the other and a road being constructed to Columbus would have a powerful influence in favor of a recommencement of work on the road from Houston to Brazhler City; and depend upon it that when the day comes, that we can travel by rail from our city to the north and east, San Antonio will take such long and rapid strides in the increase of her population and wealth as will astonish the most sanguine among us.

At the meeting to be held on Monday May 17th, officers for the association to serve for six months are to be elected, and it is hoped that our citizens will attend in large numbers and see to it that our best men are selected.

Principle.

Principle is very like the wandering Jew. It never stops, it never tires, it is forever traveling. Its motto is Onward. Nothing can turn it from its course. It is insensible to flattery and menace. It carries a stout heart, a brave tongue, an eye whose keen glance penetrates into all the shams and counterfeits by which men would give plausibility to falsehood and villany, and beneath which sooner or later, their authors and abettors cover away in disaster and disgrace.

Principle is oftentimes quiet, never confused and over hasty, as conscious of its impregnable position and certain victory; but when opposed and resisted, it may become revolutionary, bearing away, as by an overwhelming torrent, all the bulwarks of tradition, prescription, and prejudice. Principle can afford to bide its time. It may be under an eclipse, but it is sure to emerge; it may be hooted at, but it shall be applauded; it may be crowned with thorns, but it shall be crowned with laurels.

Principle and policy are wholly unlike. The former is courageous, the latter cringing. The former is honest and straight forward, the latter shuffling and tricky. The former stands upon eternal rock, the latter upon shifting sand.

An individual, an institution, a system, a party, a nation inspired by principle is great and mighty; but instigated by policy is weak and destined to crumble.—[New Orleans Tribune.

TERRIBLE FAMINE IN THE NORTH OF EUROPE.—Our advices by mail from the countries on the Baltic sea, tell of a terrible and widely spread famine now existing there. A letter from one of the central districts of Esthonia says that the distress is indescribable. From the 23d of May to the 18th of August, last year, no rain fell, and the summer crops were scorched. Bread can now be scarcely got, even at the most exorbitant price, and as the roads are impassable by reason of the extraordinary wet weather, no help from abroad can reach the people. The debilitated condition of the population and their herding together in the larger villages in the hope of getting food and shelter, has engendered disease, which is making fearful ravages.

It is said that nervous diseases are on the increase among us, and that they are most frequent and most severe among brain workers. That this impression is well founded there can be no question. Paralysis, neuralgia, hysteria, dyspepsia, hypochondriasis, and insanity are certainly more frequent, both in this country and in Europe, than they were thirty or fifty years ago. In my own practice, I am continually amazed by the variety and subtlety of phase that these diseases assume even in the young and growing generation. But it is one of the compensations of these nervous disorders that they are not rapidly fatal, and that they protect the system against febrile and inflammatory affections that harry the Indian, the negro and the poor laborers of our own race into early graves. This protective power of the nervous constitution was illustrated, over and over again, during the late war, when delicate exsanguined students resisted malaria, and grew stout amid exposures that prostrated by thousands the lumbermen of Maine, and the sons of the plough and the anvil.—Dr. George M. Beard.

COMING SOON.—The Paschal pamphlet, chock full of genuine punchlines for the benefit of the people of Texas. The Judge wants to be Senator. He is not content with his \$500 fees for removing disabilities, and all he made out of the pardon business, and getting folks offices or retaining them in offices when they once get them, and living in Washington City, and reporting the Supreme Court decisions of Texas and having them published North to save an honest penny, perhaps, and perhaps not his heart yearns for the Senatorship.—[State Gazette.

**D. APPELTON & CO., Publishers,**  
 90, 92 & 94 GRAND St., N. Y.,  
 Commenced, April 3d,  
**APPLETON'S JOURNAL**  
 A WEEKLY PAPER,  
 Devoted to Literature, Science, and Art.

Omitting ordinary news, and avoiding partisan advocacy, both political and sectarian, the JOURNAL will be devoted to general literature, to science, art and education, and to the diffusion of valuable information upon subjects of public importance. It is intended to make use of all resources, original and selected, domestic and foreign, which can give interest and variety to its pages; and neither exertion nor expense will be spared to secure the aid of the best talent of the time. Who abstain from the large professions and the parade of controversial names so common on these occasions, and, trusting to the intelligence of the people, shall be content to let the Journal speak for itself.

The department of literature will embrace: Poems, in the form of both Serial Novels and Short Stories.  
 Essays on Literary and Social Topics;  
 Sketches on Travel and Education;  
 Discussions upon Art, Books and kindred Themes.  
 Papers upon all the various subjects that pertain to the pursuits and recreations of the People, whether of town or country; and Poems by our foremost Poets.  
 Illustrations will form an important feature in the plan of the Journal. Nearly every number will be accompanied by either an illustrated supplement on some popular theme, or a new engraving in the best style of the Art or a large cartoon engraved on Wood.

No. 1.—Contains a cartoon of the Grand Drive to the Central Park; a Spirited and Animated Scene.  
 No. 2.—Contains an Eight Page Supplement of Underground Life and Mining, with 10 Illustrations.  
 No. 3.—A Steel Engraving of Naps on the Seashore, from a Picture by Kennett.  
 No. 4.—An Art Supplement, containing New York Illustrated with 13 Sa, art Illustrations.  
 No. 5.—A Supper Cartoon of the Levee at New Orleans.  
 Novelty, freshness, and continual change will be aimed at in this department. The illustrations will usually be valuable as works of art; those on steel, and the Cartoons, consisting of views of American scenery, by our most distinguished painters, and illustrations of character and life, by our foremost draughtsmen. They will be printed with extra care on separate sheets, and may be either bound in the volume at the close of the year, or framed to hang upon the wall. The Journal, in this feature, will be unlike any other.

**Testimonials.**  
 The Waters' Pianos are known as being the very best.—N. Y. Evangelist.  
 We took special notice of the Waters' Pianos from personal knowledge as being of the very best quality.—Christian Intelligencer.  
 The Waters' Pianos are built of the best and most thoroughly seasoned material.—Advocate and Journal.  
 Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodions and Organs to be found in the United States.—Graham's Magazine.  
 Musical Domain.—Since Mr. Waters gave up publishing about music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodions. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are so excited, if not confused, with the glowing advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "boilers" connected therewith, were even thought of, indeed, we have one of Mr. Waters' Pianos in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first class instrument. Strongest endorsement we could not give.—Home Journal. (Feb 19 '93-ly.)
