TUESDAY, JUNE 15, 1869

FOR CONGRESS, FOURTH DISTRICT, THOMAS H. STRIBLING, OF BEXAR.

MR. W. D. PRICE, of Travis county, Registerin Bankruptcy, was unanimously nominated as Treasurer, on the State ticket by the Houston Convention. Mr. Price has published a letter in the Austin Republican, saying that he was not consulted as to the use of his name, and that he "declines the honor."

There was not a moment during the sitting of the late Houston Convention, that General Davis would not have caused that august body to adjourn sine die, if the friends of Governor Hamilton, then in Houston, had offered to put General Davis on the ticket with Governor Hamilton. And even after the nominations had all been made, General Davis' friends got a resolution through, authorizing Mr. Tracy to make any change on their ticket which he may deem necessary for the unity and he may deem necessary for the unity and harmony of the party. This simply means that Mr. Tracy is authorized to contract, that Mr. Tracy is authorized to contract, and that their ticket will be dropped the moment ft is arranged to let Davis run for Lientenant Governor of the Hamilton ticket .- Austin Republican.

This is much to the credit of General Davis. He realizes that the toyal element in Texas has become heartily tired of the bitter and discreditable wrangle, which began in the reconstruction convention, and was continued at Washington, to the shame and regret of all disinterested Republicans. He and his friends have, by the adoption of the Houston platform, shown an unmistakeable and commendable disposition to drop the past and its dead issues, and to unite with Governor Hamil ton on a liberal and acceptable basis.

Such an overture, involving the cessation of a most harmful party split, is not to be met with narrow taunts, and ill natured sneers. If this unwise course is persisted in too long, there are thousands of loyal voters in Texas, who, while they like A. J. Hamilton much, like the success and union of the Republican party still more; and they will begin to make their election between the two, as incompatible things.

Let us have done with needless antagonisms, and above all; with blind and bull-headed assaults upon those of our own party, who have publicly lowered the points of their

DURING the past thirty-five years no less than fifty five papers have been started in the city of New York, lived for a short time and then died for want of adequate support, after having sunk millions of dollars. And many of them tried the experiment at a time when it did not cost the sum to carry on a daily paper which it costs at the present time.

To-Morrow may never come to We do not live in to morrow. We cannot find it in our title deed. The man who owns whole blocks of real estate, and great ships on the sea, does not own a single minute of to-morrow. It is a mysterious possibility not yet born. It lies under the seat of midnight-behind the vail of glistening constellations.

Washington Dispatches state tiet recent Indian outrages are reving earnest consideration in official circles. Western men urge immediate action for the protection of the frontier. Senator Ross had an interview with the President recommending the stationing of garrisons along the frontier, and had been assured that such measures would be taken as would prevent further depredations. Of course all this refers to the Western States and Territories; and Texas will probably find the only result to be a still greater increase of savages on her border.

In the neighborhood of El Paso there are over 25,000 inhabitants, and the valley of the Rio Grande del Norte is highly cultivated for many miles and presents a continuous garden, with fine apricots, peaches, plums, and various other fruits. The trade that may be derived from that section is scarcely appreciated. In 1859 eight million dollars worth of goods were forwarded from San Antonio, Texas, to the city of Chihuahua, thence to be distributed to other points in Durango stream into the Southern States, which would seem fabulous if estimated now.

THE latest vehicular invention (but still, like a great many late inventions, one of the earliest known), is the property of a Milesian of this city. He calls it a "wheelocipide." It has the advantage of only need ing one wheel, and is not only one of the most useful of vehicles, but absolutely the safest. The operator rests his feet upon the ground, and his whole body upon his feet, and guides the arrangement by means of a pair of bars. It is capable of use in building operations, for the conveyance of earth, sand and such materials, and will doubtless supersede, in the end, all the bicycles and other descriptions of velocipedes.— Phil. The New South.

Having been through most of the Southern States the past winter I think it but a simple act of justice to the majority of the Southern people, to testify to the fact of their civility and courtesy to any North-erners coming among them to settle, or travel, or transact business. The misrepresentations on this point have done much to retard the prosperity of the South, and prevent Northern settlers from reaping the advantages of emigration thither. I met with universal courtesy and kindness in all the States 1 visited, and the bulk of the people are anxious that men of capital, skill, industry and interprise, should purchase their lands and settle in the South. The former alienations are passing away; they recognize the fact that slavery is dead, and that a new orits place, and they need immediate capital and labor to establish society on its new basis. Let me say to the thousands of unrequited toilers alley, near foot bridge in the cities and country parts of the North, that here, in the South, golden opportunities of advance ment are waiting for them on every side. Norwegians.

Immigrants from Norway are among the most desirable that come to this country, and we wish Texas had as many thousands of them as she has tens. Mr. Canuterson a Texas Norwegian, recently in-formed the Waco Examiner that fourteen large sail vessels in one of the seaports of Norway have recently been chartered to bring emigrants to America, and that a great many were coming by steamships. About 15000 emigrants will leave orway this season for this country.

Mr. Canuterson says: If foreign emigration is desirable, Texas ought to stretch out its hand for a part of these people who are seeking homes for themselves in the There is room for millions, but they are not coming here; nearly all go to the Western States. The tide has set in that direction, and it will take more than individual effort to turn it into new channels. State aid and protection is extended to emigrants in some of the Northwestern States, and along with individual assistance from friends and relations, the march of

empire is steadily going westward. From the city of Christiana, Norway, there were shipped during last year, 8,368 persons, half by sail, the balance by steamships. They brought with them \$40,335 00, \$21,768 00 00 of which was received as aid from friends and relations in this country, and Sonora. of money-and now nothing remains of all that wealth but debt .- Cor N. Y. World.

Mr. H. Seeligson has shown us some old coins that were washed ashore on Padre Island, by the ac-tion of the sea. We learn that ful-ly a barrel full was picked up by the people on the island. They are much worn by the sea. An old Spanish galliot was sunk some hundred or more years ago off Pass Cavallo, loaded with wax and money for the Missions. The wax has been floating up on the beach for years, and now the loose coins with a salt incrustation on them are washed up. They are much black ened and they resemble the old pistereen. It is strange but nevertheless true.—Indianola Bulletin.

THE weather is now as fine as could be wished, and crops are growing most rapidly. Corn is so far matured that an abundant crop is secured. Cotton, as yet, promises well.

BREVET-COLONEL ELLIS, of the 35th Infantry, has started for Fort Couche with a detachment. At the Fort, the regiment will be consolidated, and then march to Fort Craig, New Mexico. Colonel Ellis is a gallant and high toned officer, and our hest wishes go with him.

Oun colored friends had a baptism in the clear waters of the San Antonio, on Sunday afternoon, Several hundreds of d interested spectators gathered tized was a good looking and intelligent female, and the cool bath seemed to do her much good.

Wk hear with pleasure, that Colonel Lee, the affable and efficient Quartermaster at this Post, has been fully acquitted of the charges preferred against him. " The Colonel is deservedly popular in San Antoto, and though this news is not unexpectod, it will be gratifying to the public and to his host of friends. Here's to you, Colough, in a glass of eliquot.

WE learn that the Indians who recently captured about 80 mules from a train of Messrs, Adams & Wickes, numbered about 125 warriors, and that they fled with their booty in the direction of Mexico, there to dispose of their spoil.

General McKenzie from the nearest Fort, started in pursuit about twenty-four bours afterward, with a hundred mounted men. But with such a start as the Indiana had, it is scarcely probable that they will be found on this side of the boundary line. If, according to stereotyped army usage, "pursuit stops at the Rio Grande," it might as well stop before it begins, and save a useless expenditure of horse flesh.

We have received a letter from El Paso, which says, "West of us the Indians are very troublesome. They are committing entinual depredations, and as yet we see no prospect of their being subdued. Grapes, wine, and fruit, of all kinds, are plentiful this year. Wheat crop large and fine; all we wish is that the Government of would purchase of us, instead of importing their flour from the

higher cost." This last seems to us very reasonable. We do not understand why the Government should wagon their flour from the coast, eight hundred miles from El Paso, when the latter place produces in abundance the finest wheat on the continent.

A GENERAL Court-martial was appointed to meet at Fort Richardson, Texas, June 1st. Detail for the Court : Colonel James Oakes, Sixth U. S. Cavalry, brevet brigadier-general U. S. Army; Captain Daniel Madden, Sixth U. S. Cavalry; Captain John A. Irwiu, Sixth U. S. Cavalry; Assistant-Surgeon George H. Gunn, U. S. Army; Second Lieutenant Gilbert E. Overton, Sixth U. S. Cavalry. First Lieutenant James F. Hill, adjutant Sixth U. S. Cavalry, judge-advocate.

Nortce.—There will be a meeting of all persons disposed to take week in a Section and Woolen Manufactory, (to be established in Sau Autonio at the contract practicable period), at Kampmann's new building, Commerce street, on Threadar afternoon, next, at 4 o'clock. All persons favorable to the project, are invited to attend.

' THE WEEK .- Nothing of any special interest transpired during the week past .-We have the same favorable condition of public health as has prevailed during the season, and cannot perceive the slightest

indications of a change.

Business has been rather dull, but the complaints of hard times is not more observable than usual, and we think our business men are doing abut as much as they have any right to expect.

The time of public morality as evidenced by the records at police headquarters, will compare favorably with any city of the

Improvements of every description continue to present themselves in every part of the city, and, altegether, we think we may congratulate ourselves upon our pros-perous and thriving condition.

Testimonials.

The Waters Pieces are known as among the very heet.—N. Y. Evangelist. We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—Christian Intelligen

The Waters' Pianos are built of the bust and most thoroughly seasoned material.— Advocate and Journal. Our friends will find at Mr. Waters' store

the very best assoriment of Pianos. Melo-deons and Organs to be found in the United

deons and Organs to be found in the United States, —Graham's Magazine.

Mesical Dorsos —Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Meledeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been mer rates, and his Pianos bave recently been awarded the First Premium at several Fairs. Many people of the present day, who are at racted, if not confused, with the flaming advertisements of rival plane houses, probly overlook the modest manufacturer n to know that his instruments earned him a good reputa-tion long before Expositions and "beners" were even thought of indeed, we have one of Mr. Waters' Plane-fortes now in our residence (where it has sloed for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated planists, have performed on the same piano, and all pro-nounce it a superior and first class instrument. Stronger endorsement we could not give -Home Journal. (feb19'694ly.
