Platform of the Republican party of Texas.

Resolved, Ist. That the Republican party of Texas heartily accepts the conditions of reconstruction embraced in the several reconstruction acts of Congress, and will in the future, as heretofore, fully sustain the same in word and spirit.
2. That the amendments to the Constitution of the United States, known as the 13th and 15th amendments, are necessary to the pacification of the country and the security of the equal civil and political rights of all classes of the people. The Republican party therefore pledges itself to the prompt adoption of those amendments.
3. That the resolutions adopted by the Chicago Convention of May 20th 1868, where not modified by the proposed 15th amendment, are accepted by the Republicans of Texas as the embodiment of correct principles of public policy. That the Republicans of Texas especially, commend the spirit of the additional resolution adopted in that Convention at the instance of Hon. Carl Schurz; and we will cheerfully accept the assistance of such of our fellow-citizens as served in the late rebellion, but who now frankly and honestly co-operate with us in restoring the peace of the country, and reconstructing our State Government on the basis of impartial justice and equal rights.
4. That the payment of the debt incurred in preservation of the unity of the nation to the last dollar, is in our opinion the sacred duty of the American people, and the Republicans of Texas will condemn all attempts to evade in any manner, the payment of this debt according to the intent of the creators of the same.
5. That the Republican party of Texas earnestly desires the encouragement of internal improvement and immigration, and will as a party, press the adoption of measures having these ends in view. That in Convention herewith, we condemn the demagogical use of the term of "carpet-bagger," and other terms of reproach applied to strangers who may come among us, as designed to keep alive the prejudices of the ignorant and deter immigration.
6. That while the Constitution submitted to the people is in some respects imperfect and objectionable, it is believed on the whole to propose the main object of Constitutional Government viz: The equal, civil and political rights of all persons under the law. This Convention therefore recommends the ratification of the same.
7. That the preservation of the unity and the organization of the Republican party is essential to the safe progress of reconstruction in this State, and they believe that to effect this reconstruction, a great work has yet to be performed. They therefore warn the loyal people of Texas that opposition to the organization of the Republican party, is the result of an insidious design of the enemy purposing the practical surrender of the State to the disloyal.
8. That the Republics of Texas heartily express unqualified confidence in the administrative abilities and integrity of the honor of head of our Government—President Grant, and in the patriotism and wisdom of the majority in Congress.
P. W. Hall, of Robinson, offered the following independent resolution which was adopted:
Resolved, That the commanding General of this military district, Maj. Gen. J. J. Reynolds, deserves the approval of the loyal people of the United States, for his activity in ferreting out and bringing to justice the murderers of the patriot Geo. W. Smith, and for the measures he has adopted for the security of life and property, and the establishment of peace.
Johnson Reed of Galveston, offered the following, and moved that it be added to the resolutions, and be known as resolution No. 9:
Resolved, That to this end we earnestly invite the co-operation and support of all good citizens, advocates of peace, law and order, and who believe in the principles of the party of union, progress, liberty and reform, which has done so much for the pacification and well being of this country. This resolution adopted.

DESPERATE GAMING—The Chinese, when their money is gone, sometimes stake their fingers on a single chance. During the game they keep by them a vase of sesame oil, under which a fire is kept burning; and between the players is placed a small but sharp hatchet. When one wins he takes the hand of the loser, places it on a stone and cuts off one of the fingers with the hatchet. The piece falls, and the loser immediately dips his hand into the hot oil, which canterizes the wound. This operation does not prevent the players from beginning again. Such is the account of travelers who have visited China, incredible as it may appear to us.

Total eclipse as observed from Maysville Ill. by a party of Observations: "Though darkness had crept on insensibly, and distant objects had become invisible, yet the final wave of obscuration was something not only to be seen, but felt. I must confess that I felt something like a shudder creep over me, because it came so unexpected. Let the reader imagine himself in an almost darkened room and that instantly a certain drops, cutting off all the remaining light, and he will have some faint idea of the phenomenon. But behold the sun! What a startling, magnificent spectacle! What pen can describe, what pencil can picture it! There he hangs in mid heaven, blacker than India ink, but around his lanky face, the most gorgeous aureola, with intensely red, flame shaped protuberances first on his eastern, then on his western limb! Fifteen degrees southeast is Venus, shining with full hesperian light; and five degrees northwest is Mercury, fully as bright as Sirius, the great dog Star. The sky above is of an ashy gray with violet tint; the edge of the horizon all around, straw colored, as if light were coming up from behind the earth; and midway between the zenith and the horizon hangs darkness like a thunder cloud fringed below with Tyrian purple. The earth is dark, but it is not the black darkness of the night; it is a bronzed darkness, unearthly and awful, calculated to inspire even the intelligent with vague fear and apprehension.
But the first-wave of total darkness took with no greater surprise than the first ray of returning light. Those who have seen the electric light in a darkened room can form some conception of the brilliancy the first pencil of light that darts from behind the dark moon, so bright, so clear, as literally 'to make darkness visible.' It seems as if it came through an atmosphere strained of all vapors and gross matter, so as to be perfectly pellucid.
I was not favorably situated so as to observe the effect of the phenomenon upon animals. On all sides of me, like little boys whistling while passing a graveyard, the cocks were crowing to keep up their courage. A few seconds after returning light, a flock of wood ducks flew past, bewildered, darting now-hither, now thither, screaming with terror. Such is a faint description of the rare and startling phenomenon, which will not again be seen in this section of the globe, for the next four or five generations.

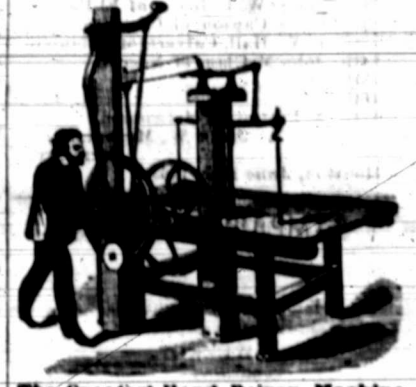

Great preparations for the Humboldt Festival on the 14th of September next are being made in Germany. Berlin, the birthplace of the great man, is taking the initiative. A committee has been formed under the leadership of Professor Virchow, of the University, and an address issued by the same to the German people calling for contributions toward a national monument, to be erected in the capital. Any surplus contribution will be handed over to the Humboldt Stiftung for National Philology and Travels, which exist in connection with the Academy of Sciences. Toward the monument five hundred thalers has been contributed by the Crown Prince and Crown Princess, and three hundred thalers by the Queen of Prussia. A public park, about to be completed in Berlin, will receive the name of Humboldt Park. The Berlin Geographical Society has sent out invitations to other German geographical societies to participate in a common festival in Berlin. The geographical societies of Leipzig and Vienna have already accepted this invitation. The Berlin Academy of Sciences celebrated the Humboldt festival on the 1st of July (the day appointed by the statutes of the society for the commemoration of Leibnitz) instead of the 14th of September, as on the latter date the members of the Academy cannot assemble. Herr Dove delivered the oration in memory of Humboldt. Other societies and cities are also making great preparations.

TO PREVENT HORSES BEING TRAGED BY FLIES.—Take two or three small handfuls of walnut leaves, upon which pour two or three quarts of cold water; let it infuse one night; and pour the whole next morning into a kettle, and let it boil for a quarter of an hour. When cold it will be fit for use. No more is required than to moisten the sponges, and before the horse goes out of the stable, let those parts which are most irritable be smeared over with the liquor, viz between and upon the ears, the neck, the flanks, &c. Not only the gentleman or lady who rides out for pleasure from the walnut leaves thus prepared, but the coachman, the wagoner, and all others who use horses during the hot months.

The last effort to remove Mayor Thielpape--The Railroad Ring and the Hamilton Faction.

The following is a copy of the last petition gotten up in this city for the removal of Mayor Thielpape and certain of the Aldermen; we ask our readers to give it a careful perusal, in order that they may be thoroughly convinced of the existence of a "ring" in our midst, which is doing all in its power to fasten upon our city an immense load of indebtedness, which is both a fraud and an outrage; which ring has allied itself to the Hamilton faction and is working its schemes in connection with that political swindle. Read it before we remark further upon its character, contents and objects.

SAN ANTONIO August 2nd 1869. To His Excellency James H. Campbell, U. S. A. San Antonio Texas.

GENERAL: The undersigned citizens and Taxpayers respectfully request your attention consideration of the following facts connected with their interests and the general welfare of our City and people. A majority of the Board of Aldermen in connection with and under the lead of W. C. A. Thielpape, have entered into a contract with E. J. Davis, a resident lawyer of Corpus Christi for the institution of a suit as suits against certain parties holding or claiming to be the owners of City bonds to the extent of fifty thousand dollars issued over sixteen years ago by this city to the San Antonio and Mexican Gulf Railroad Company. This contract stipulates for the payment to Mr. Davis of six thousand dollars, one thousand of the amount paid in advance, the remainder, in regular installments; these payments are absolute, without any proviso or conditions, as regards the failure or success of the attorney's efforts. The payment of so large a portion of the fee in advance, and the absolute payment of the whole, reasonably raise the presumption, that the suit must necessarily be successful. An examination of the facts proves almost conclusively the reverse of this. These bonds were issued under the authority of law; the city transferred and delivered them to the railroad Company; that Company delivered them to parties who are now bona fide, or supposed to be bona fide holders.

The question of the City's liability on these bonds was, in effect, decided in a case entitled Deuch Jones versus the City of San Antonio, in the Supreme Court of the State. The question was again, fully, fairly and thoroughly tested, at the last September term of the District Court.

Court, in a trial, and before the Thomas H. Stribling, wherein William G. Lane was a plaintiff and the city of San Antonio, defendant. The presiding Judge, stated, during the trial, that he was willing the city should introduce all evidence which seemed to be in any degree relevant to the defence. He permitted its counsel to have the widest range and the most favorable mode for the introduction of evidence on its behalf, yet, notwithstanding this favorable ruling on evidence by the Court, the most persistent efforts of counsel during trial, and the lengthy, able, and exhaustive argument of Judge George W. Paschal, in the City's behalf, the facts and the law carried home to the mind of the Judge, and every intelligent lawyer and citizen present at the trial the conviction that the City of San Antonio could not escape from the payment of its deliberately executed obligations.

In face of the Judgement referred to the City authorities entered into this contract with Mr. Davis, without any lawyer of this place or the public, being informed of the fact, the former city counsel already engaged, and still retained in the suit. The standing of Mr. Davis as an attorney, and his reputation, as a Judge, repel the presumptions that he was either the superior or equal of a majority of the lawyers in this city, who were, willing, ready and able, to represent it in the way of their profession; none were, however, consulted or spoken to on the subject. In addition to the acting city attorneys two lawyers of this place, frequently employed by the city in important suits, were, like the rest omitted and passed over by the Mayor and Board of Aldermen. This transaction raises the inquiry in the mind of every impartial observer, why were the able counsel of San Antonio overlooked, and the implied reproach of ineptitude and unfaithfulness cast upon them by the strange contract with, and the substantial donation of so large a fee to a lawyer of very moderate abilities residing one hundred and fifty miles from here, one who never had a case in our court, and who never had practised in Bexar or the adjoining counties? We can find no solution to this inquiry save one, namely, a desire to patronage the use and power of the city by a Mayor who owns no real estate in the State, city or county, and who pays no taxes, save a small tax on money loaned at interest to enable a political favorite to make his electioneering tour, and carry out his canvass for the Governorship of the state to a successful issue by the said aid of this donation.

Against E. J. Davis, as a citizen of Texas, we have nothing to say. We do however, most earnestly remonstrate against this mal appropriation and squandering of our taxes, by the Mayor and a majority of the Board of Aldermen, for the advancement of the interests of any candidate or political party, and more respectfully ask, that the Mayor, and such of the Aldermen as favored this nefarious contract be removed from the positions they have shown themselves so unworthy to fill.

In connection with this subject we desire to state, that we have seen a recent letter from General John S. Mason, so long and favorably known to our citizens as an accomplished, gentleman and impartial officer, in the discharge of his duties while in command of this division of the State. In that letter General Mason refers to an official communication from him to General Reynolds in which he suggests the propriety of removing Mayor Thielpape, giving reason, in addition to those stated in this communication.

The high position of General Mason, his long residence in San Antonio and his close observation of the manner in which the city affair are being administered, convinced him that the present Mayor and a majority of the Board of Aldermen were not the proper parties to conduct successfully our municipal affairs, or encourage a spirit of harmony among our people. We have referred to the letter of General Mason as additional evidence of the wisdom of Mr. C. A. Thielpape for the office of Mayor of this city, and the necessity of the removal of him, and those who have conspired and controlled his official action.

Signed by 35 citizens of San Antonio A true copy. JAMES H. CARLETON, Brevet Major General U. S. A.

This is accompanied by the decision of the Confederate Supreme Court in the case of City of San Antonio vs. Enoch Jones, also an opinion from N. O. Green, attorney for Lane in the railroad coupon case, which Stribling decided against the City, to the effect that he, Green, considered this case as deciding the whole matter; also by the following certificate:

The undersigned practicing Lawyers residing in San Antonio, certify that they consider a fee of one hundred dollars \$100 amply sufficient as a fee for taking and prosecuting an appeal on behalf of the City to the Supreme Court of the State in the case entitled Wm. G. Lane vs City of San Antonio, (signed) Charles J. Devine, I. P. Simpson, Jacob Wealdter, W. B. Leigh, A. Dittmar.

Also by a quotation from the assessment roll, that Alderman Newcomb paid no taxes. Also the following:

Extract from a letter to a gentleman in San Antonio, Texas, by General Mason, dated camp on the Peninsula July 21, 1869. Your letter forwarded by Major Cresson has just been handed to me. I have no objections to your giving General Carleton any of the points in the case. I made an official recommendation, a copy of which is on file in his office. I also wrote a private letter, a copy of which I did not keep, but I gave all points containing it to General Carleton and he took them down on paper. My objections were that the parties named were I believe using their offices for political purposes and not for the good of the citizens and that it would be advisable to place the City Government in the hands of those who would use their place in the best interests of the community.

I cited the case of paying over a large fee to defend the city, also the attempt to make a loan of one hundred thousand dollars, these I thought were both political schemes. I thought Thielpape a good man but a weak one, and who would be used by designing men; and that General Van Antwerp was fully competent for the position.

The above is the substance of my letter as I said before, I have no objections to your making any use of this that you may desire as I full convince that I acted not in the interest of any party, but for the good of the citizens at large.

The City paid to General Davis \$1000, down and to have \$5000, more by installments to defend the City.

And by copies of contracts with

Murphy & Davis and extracts from City Charter; and signed by THIRTY-FIVE citizens of San Antonio!

The petition is evidently drawn up by a lawyer, perhaps by an ex-Judge. It proves that there is a combination in our midst to fasten upon us the principal and compound interest of the San Antonio and Mexican Gulf Railroad bonds, which will almost reach half a million of dollars, for which no kind of consideration has ever or will ever be rendered. For attempting to arrest this gigantic swindle, "33" individuals want the city administration broken up so as to confuse and destroy the efforts which may, and if justice prevails, will, succeed in warding off the blow upon our city.

When the contract was made by the city with Mr. Murphy to prosecute the bond suits, Gen. Davis was in Washington, and was not a candidate for office, so the main charge of the petition, that the Aldermen were guilty of a political intrigue, is false and malicious. Mr. Newcomb, against whom the petition is spiteful, was also in Washington at the time. It simply proves that the city has acted wisely by securing legal services not influenced by local interests, and that the "33" desired to "kill two birds with one stone," that is, help out Hamilton and the Railroad bond holders, by removing a loyal Mayor and Aldermen.

Who are these "33" signers? Have they an interest in the \$50,000 Confederate money in the City safe? From the silence which they have kept in the petition upon the contract with Messrs. Davis & Murphy to prosecute the recovery of this amount in lawful money, we guess some of the "33" are interested. How many of them hold railroad bonds and coupons? How many of them are ex-Confederate vigilance committee men, confiscators, and cotton speculators?

The letter of Gen. Mason, which retails the "libel" of the Herald, proves that there is also another "ring" inside the Hamilton and railroad bond "ring," which may be appropriately called the "whisky toddy ring," in which our military friends are loaded into the rebel camp. Mason has gone to New Mexico, or he would find it disagreeable to meet some local facts in connection with Mayor Thielpape's administration.

The assessment roll quoted to prove that Mr. Newcomb owned no property in the city, shows to what lengths the "33" were driven to trump up an objection to a man they can neither use nor intimidate. Mr. Newcomb has answered them to his own satisfaction to Gen. Reynolds.

In conclusion, the "33" will meet the "263" substantial business men and tax payers of our city upon Gen. Reynolds' desk. The odds are in favor of Thielpape and honesty, if the ~~case~~ is against him.

Death of H. B. Hamilton.

Hezekiah B. Hamilton, Mr. Morgan Hamilton's elder brother, died at his residence on the Penitencials, thirty miles from Austin on the 11th instant. The deceased was a man of remarkable qualities of head and heart and resembled Mr. Morgan Hamilton in the simplicity of his manners, austerity of opinions, and unflinching integrity and honesty of character. He leaves a large family to battle with the same rough world he fought through a life of hardship and toil.

Having planted his home in the mountains of Texas,--subject to the frequent raids of hostile Indians, Mr. Hamilton can be justly called one of the pioneers of civilization. His outspoken loyalty subjected him to persecution during the rebellion and he made his way into the Union lines and returned with the triumph of the Union arms. Thus, a member of one of the most remarkable families who have made their mark upon the history of our State, has passed from life. May his ashes rest in peace.

"We hope soon to see the Grant-Hamilton journals of that district advocate his claims."

The above quotation is from an article in the Austin Republican of the 17th inst., calling upon the democratic party to support that old democratic sinner, Gen. Shields, for Congress against Clark the Republican nominee. The point is,

"the Grant-Hamilton journals." The unblushing impudence of the white-ravaged editor of the Republican, can not be beaten. Gen. Grant has sparred the whole Hamilton movement and is now rolling it under his boot.

There are four democratic candidates out in the Third District, at the head of the list is Capt. Fulton a gentleman, and we believe an honest man, but Flake and Wheelock set themselves up as the dictators to their new allies, and to tell them they must put aside Fulton, Neale, Elliott and Cowen and take up an old broken down hack. We guess the democrats would rather enjoy the pleasure of voting for a man of their choice though he may be defeated to being driven about like sheep under the whips of such renegades as Longley, Wheelock, Whilden and Flake.

ROSENCRANS DECLINES TO RUN.--Gen. Rosencrans declines to run as the Democratic candidate for Governor of Ohio. The Democracy is becoming more disreputable every day. Their attempt to secure the aid of Union Generals to help them out meets little success. Hancock refused the Pennsylvanians and now Rosencrans rejects the favor at the hands of the Ohio Democrats.

MURDER.--The Brownsville Ranchero gives an account of the killing of Mr. Columbus Hill, late Inspector of Customs and Messrs Taylor and Montague on the road between here and Edinburg on the Rio Grande.

Two facts very distressing to the Hamilton faction and "Austin Ring." That Clark will go to Congress and Ruby be elected to the State Senate.

The Administration, as reported by a Conservative paper. The N. O. Times has the following Dispatch:

WASHINGTON, AUGUST 11.--The Tennessee election was the subject of Cabinet consultation yesterday, and the policy to be pursued in the Mississippi and Texas elections and in the organization of a State government in Virginia. Two of the members suggested nonintervention. New England radicalism triumphed, and the policy adopted is of the most radical character.

Conservation is to be crushed out in Mississippi and Texas, and the organization of the State of Virginia is to be so ordered by Gen. Canby as to defeat the expression of the will of the people at the recent election.

Boutwell, the author of the programme, did not attend the meeting, but made its adoption a sine qua non to his remaining in the Cabinet. The excitement and disappointment of the Texans and Mississippians here is great. All of the officers favoring the Conservative movement are to be immediately removed.

We hope soon to see the heads of such renegades as Haynes, Longly, Blocker and Lane roll from the radical block.

DEATH OF MR. EMILE DRESSEL.—We learn that Mr. Emile Dressel, the brother of Mr. Julius Dressel, recently died in California. Mr. Dressel was one of the earliest and most successful of California wine growers; he established the celebrated Anaheim vineyard, and was the owner of a fine vineyard in Sonoma. He was also known and respected in California as a man of fine culture, energy and ability, and his loss is a calamity to that State. Mr. Dressel leaves a fine property which falls, we are glad to note, to the portion of our fellow-townsmen Mr. Julius Dressel.

DR. MARSH.—Dr. Marsh the collector of customs for El Paso District as who supercedes Hamilton's son-in-law Mills, has gone to his post via New Mexico. This will be a disappointment to many who were in hopes the Dr. would come through our city.

ALL INTERESTED.—We learn upon good authority that every lawyer of any standing in the community is in one way or another interested in the rail road bond or coupon suits. The city was most fortunate in securing counsel from abroad.

THE CHILLS.—The Herald and its friends have an attack of chills caused by Guenther's ice wagon. Every enterprise started by our German citizens almost freezes the Herald.

THE WAY THE COUNTY TAXES ARE MANAGED.—Mr. John Harget has shown us his tax receipts for '98, and yet his property is advertised for sale among the delinquents. Let every body look at the list.

FOR THE LEGISLATURE FROM 29TH DIST.—We are authorized to announce A. M. Cox of Burnett Co. as a candidate for the House of Representatives, from the 29th District.

The Grave of Lincoln.

But there still remains the grave of Lincoln, the great martyr to the new birth of American liberty. Oak Ridge is his burial place. It is situated some two miles north of the city, and takes its name from the brokenness of the country, such as is usual along the streams and ravines adjacent to the Sangamon river.

Oak Ridge has become a sacred place, on account of the illustrious dead that sleep in its precinct. Side by side is the city of the living and the city of the dead. The mausoleum and the capital are alike famous. Whoever, in all time to come, visits Oak Ridge, will tread soft as angels around the tomb of America's greatest and best man; he who, amid fire and smoke, and the thunders of war, issued the law from the nation's Sinar. "Let the lips of those who can speak well, hallow the place where his bones repose."

EX-PRESIDENT Fillmore will preside at the Buffalo celebration of the one hundredth anniversary of the birth of Humboldt, and give a short account of his interview with Humboldt. An oration in German will be delivered by Rev. Dr. Dulon, of Rochester, and the English oration by Judge Clinton. A poem in German will be read by Dr. Carl de Haas, and in English by David Gray.

INTERESTING TO PLANTERS.
H. J. Baker & Bro., Castor Oil Manufacturers, 215 Pearl Street, New York, furnish us with the following information in regard to the usefulness of the Palmis Christi, or Castor Bean Plant, besides the oil properties of the bean.
 It is said to be a preventive against the destruction of the cotton plant by the army or cotton worm, by planting it as a fence around the field in which cotton is planted.
 The fibre of the castor bean plant is also said to be good for making paper and the leaves good for the silk worm to feed on.
 We are also informed that the leaves are a panacea for rheumatism, and for promoting lactation by a local application.
 H. J. Baker & Bro., have published a pamphlet on the cultivation of the castor bean, which they furnish gratis to those who address them to Box 2434, New York Post Office, or 215 Pearl Street, New York.

Testimonials.
 The Waters' Piano is known among the very best.—N. Y. Evangelist.
 We can speak of the merits of the Waters' Piano from personal knowledge as being of the very best quality.—Christian Intelligencer.
 The Waters' Piano are built of the best and most thoroughly seasoned material.—Advocate and Journal.
 Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodions and Organs to be found in the United States.—Graham's Magazine.
MEDICAL DIONION.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodions. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are at rest, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith, were even thought of; indeed, we have one of Mr. Waters' Pianos now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it superior and first class instrument. Stronger endorsement we could not give.
