A NEW DISCOVERY!!
PHALON'S
"VITALIA;"
OR
Salvation for the Hair.
For Restoring to Gray Hair its
Original Color.

PHALON'S "VITALIA" differs
utterly from all the "dyes,"
"colorers," and "restorers"
(?) in use. It acts on a
totally different principle. It
is limpid, fragrant, and per-
fectly innocuous, precipitates
no muddy or flaccid matter,
requires no shaving up,
and communicates no stain to
the skin or the linen. No
paper curtain is necessary to
conceal its turbid appearance,
for the simple reason that it is
not turbid. It is, to all intents
and purposes, A NEW DISCOVERY
in Toilet Chemistry.

PHALON'S "VITALIA" is
warranted to effect a change
in the color of the hair within
30 days after the first applica-
tion, the direction being
carefully observed.

IT IS AS CLEAR AS WATER!
AND HAS NO SEDIMENT.

Price, One Dollar per Box,
CONTAINING TWO BOTTLES.

SOLD BY ALL DRUGGISTS.

If your Druggist has not
"Vitalia" on hand, write, en-
closing \$1.00, and we will
forward it immediately.

TELEGRAPHIC
SPECIAL DESPATCHES TO THE EXPRESS.

WASHINGTON, February 4.
Gen. Wm. T. Clarke, M. C. elect from
Galveston District, departed for Texas.
He will canvass for the Senate, for which
it is confidentially said he has Executive
endorsement.

Hear was positively rejected by the
Senate, and the office is vacant, with the
President conflicting with factions North,
and a steady front from the South, which
is probable will secure a Southerner on
the Supreme bench.

Southampton steamship Bremen arrived
yesterday from New Orleans.

Among the nominations to-day are Dr.
Sam. Bard, late of Atlanta, Ga., Governor
of Idaho. Blocker, Associate of 3rd Dis-
trict, North Carolina. Gablin, District
Judge in Florida.

Revenue to-day over \$1,000,000.

Seizures continue and large quantities
of whiskey removed from distilleries in
Bingham, Bolton and Housaton, Indiana.

J. Durant again urged for Supreme
bench.

Cooper Institute meeting in New York

GORED BY A WILD-TEXAN BULL.—The
New Orleans Picayune of the 26th Jan.,
says:
"Yesterday evening, a lady at the cor-
ner of Ninth and St. Charles streets, was
severely gored in the breast and back by
a wild Texas bull that, escaping from a
drove as they were being taken to the
stock landing, dashed frantically down
the street, overturning everything that
came in his way. He was finally sur-
rounded and shot.

SENTENCE DISAPPROVED.—General Sher-
man has disapproved the sentence of a
court martial on the ground that the court
permitted the accused to be sworn and
testify as a witness on his trial. This de-
parture from the usual practice of general
court-martial has yet no sanction either in
custom or in law, and is, on the contrary,
virtually forbidden by the statute.

Our Book and Job Office.

In calling the attention of the public to our book and job printing office, we feel assured that our long experience and great care with which all our materials have been selected, will enable us to execute work better, and at far less cost than it can be done elsewhere.

Stocked with every style and design of type, border, ornament, cut, etc., a new supply of which is daily expected, we can confidently undertake to perform any character of book and job printing promptly, and to guarantee satisfaction to our patrons.

We are prepared to print ball tickets, programmes, auction bills, handbills, circulars, headings, invoices, deeds, cards, bills of fare, bills of lading, envelopes, bill heads, catalogues, mortgages, promissory notes, druggists' labels, receipts, bank checks, contracts, together with every variety of blanks, in the most tasteful and workmanlike manner, and to print and bind in the best style pamphlets, books, briefs, cash-books, day-books, etc.

In soliciting the patronage of the public we feel confident in our ability to give the most perfect satisfaction not only as to the character of our work, but also as to the prices.

From the Rio Grande.

Messrs. Taylor and Duncan applied to Col. Ford of the Sentinel, to recommend some trustworthy Mexican to take charge of a Caballero of horses coming East from the Rio Grande. Several citizens recommended Capt. Juan Porras. From Kings Ranché, Taylor and Duncan write the result thus:

Col. Ford—The Mexican, Juan Porras, the man who you recommended to me, has proven treacherous, and with the other Mexicans with us, attempted to murder my partner Duncan and myself, and robbed me of \$1,000 in American gold, and \$25 in silver, seven good saddle horses, saddles and bridles. I escaped unhurt. Duncan escaped, after being knocked on the head and shot at by Juan Porras. It occurred on the night of the 12th inst, eighteen miles from San Patricio on the Goliad road. Juan Porras took the belt, with the \$1000 American gold in it, from me and belted it around himself. Juan Porras led the affair and the other Mexicans were acting under him.

JACKSON, Tex., Jan. 15.

Editors Houston Union:

The reward of perjury, Hamilton's defeat.

What party, says Junius, will receive the common deserter of all parties.

Uzziah, usurping the rights of the altar, lost his throne, and entering the house of God an accredited priest, went forth as a perpetual leper.

Our legislators elect from Eastern Texas will be found presenting a solid phalanx to the eloquent though treacherous endeavors of General Hamilton to win them from their fealty to the Republican party.

Orpheus passed the fated Siren coast unscathed, and heard not the deceitful melody of the Siren's, sang they never so wisely, so absorbed was he in singing hymns to the Gods.

The representative of true republicanism may learn a lesson from the fable and intent upon the prosecution of their political duties, they will be deaf, deaf as an adder to all temptations.

Judge Garland is still pursuing the even tenor of his way, and by his fearless and unflinching course, is every day winning fresh confidence from the friends of good government.

Our Senator from this, the 8th District, Hon. Don Campbell will start for the scene of his labors at Austin ere this reaches you. Judge Campbell is destined to take a prominent part in the reconstruction of the State. The fine executive ability, and polite scholarship of this gentleman, coupled with his unflinching adherence to republicanism will make his services on Committees and other legislative affairs truly invaluable. The progressive ideas and humane spirit, that dominates over the character of the genuine radical, subsidizes in him every action of his political conduct to build up the fortunes of a party in whose behalf he has suffered so much.

Great interest is manifested in the choice the Senate will make for the Judgeship of the Supreme Court from Eastern Texas. Decided preference is expressed by many leading loyalists for Hon. J. B. William-

son, presiding Judge of the 6th District.

This sterling patriot certainly has claims paramount to any man's in this portion of the State. A learned lawyer, a pure, good man, of undoubted devotion to republicanism, he must, perforce, merit the full consideration of the Governor and the Senate.

We have just received details of the shocking murder of two freedmen of Lamar county on account of their active zeal in the election of Davis. The poor colored republicans of that section, cry out the wish that they were in General Buell's district. Would to God they all were.

OPTIMUS.

Houston Union.

A Coming Revolution in the Telegraph Department—Mr. Little's New System.

The poles of Mr. Little's new system of telegraphing are now being erected between New York and Washington. On the Washington roads the poles are lying at regular intervals, and the erecting parties under charge of Mr. Westervelt, will be along in a few days to put them up and suspend the wires. It is anticipated that the National Telegraph line will be in operation by the 1st of March.

We examined the instruments of this new system, invented by Mr. Little some six months since, and it will be remembered, gave a detailed account of its operations.

President Orton of the Western Union Company, in his annual report ridicules the claims of Mr. Little, but we assure him and all interested in telegraphing, that we witnessed the operation of this instrument, in company of two of the most experienced telegraphic experts in the country, and that by actual count it transmitted one hundred and forty letters per minute. The Morse alphabet was used, and the transmission was as perfect and accurate as was ever transmitted on any instrument running at one-tenth of its speed.

The fact that the line is being built, should be satisfactory evidence to all, that it is a reality. Those who have control of it have had as much experience in the telegraphic business as President Orton, and would not invest several hundred thousand dollars on a mere experiment.

Mr. Little anticipates to be able to at once reduce the rate of telegraphing to one-half of present prices, and ultimately make a uniform tariff of one cent per word to all distances. This would draw all business correspondence from the mails, and multiply the amount of telegraphing to tenfold what it now is.—Baltimore American.

Anti Slavery Festival in Boston.

BOSTON, January 27.—The thirty sixth annual meeting of the Massachusetts Anti-Slavery Society was held to-day. Resolutions were adopted rejoicing in the near prospect of the ratification of the Fifteenth Amendment; urging that the nation should give land to the negro, and characterizing the precipitate admission of half-loyal States as a needless betrayal of the nation and foul wrong to the loyal masses who look to Congress for protection. Speeches were made by Aaron M. Powell, Colonel T. W. Higginson, Rev. W. H. Channing, Wendell Phillips, Mr. Laughton, of Ohio, and others.

Mr. Charles Morgan has slept quietly over the necessities of Louisiana for the last twenty years; but suddenly awakes, rubs his eyes, and discovers that "the importance of a railroad communication between the city of New Orleans and the State of Texas, and the fruitful districts of country on the Red river, cannot be too highly estimated." Perhaps Mr. Morgan means that the importance of this communication is so great that it will entirely break up his monopoly, and hence his anxiety to prevent the Legislature from being so much imposed with a sense of its importance, as to permit the Chattanooga company to accomplish it. It is just because its importance cannot be over-estimated, that Mr. Morgan is determined to defeat it if he can.—New Orleans Republican.

THE steamship W. G. Hewes, Capt. Tripp, came up on the lowest tide of the season, until she approached near the wharf, when she grounded and was delayed for 24 hours.

The dredge boat is hard at work throwing out eight hundred tons of earth per day, within two hundred yards of where the Hewes struck, and within the next ten days will remove the only obstacle to the navigation of this bay for the heaviest class vessels on the lowest tides.

We have the most reliable assurances that we shall soon have regular steamship communication.—Lavaca Commercial.

Walking Erectly.

Walking erectly not only adds to manliness of appearance, but develops the chest and promotes the general health in a high degree, because the lungs, being relieved of and pressure made by having the head downward and bending the chest in, admit the air freely and fully down to their very bottom.

If an effort of the mind be made to throw the shoulders back, a feeling of tiredness and awkwardness is soon experienced, or is forgotten. The use of braces to hold up the body is necessarily pernicious, for there can be no brace which does not press upon some part of the person more than is natural, hence cannot fail to impede injuriously the circulation of that part. But were there none of these objections, the brace would adapt itself to the bodily position, like a hat or a shoe, or new garment, and would cease to be a brace.

To seek to maintain an erect position or to recover it when lost, in a manner which is at once natural, easy and efficient, it is only necessary to walk habitually with the eyes fixed on an object ahead, a little higher than your own, the eave of a house, the top of a man's hat, or simply keep your chin a little above a horizontal line, or it will answer to walk with your hands behind you; if either of these things is done, the necessary, easy and legitimate effect is to relieve the chest from the pressure; the air gets in more easily, develops it more fully, causing a more perfect purification of the blood, imparting higher health, more color to the cheek, and compelling a throwing out of the toes. To derive the highest benefit from walking, hold up the head, keep the mouth closed, and move briskly.—Journal of Commerce.

The Morehouse (La.) Conservative says:

Wagon after wagon of movers, Texas bound, still pass through our streets, almost daily. Texas is of almost unlimited space and capacity, but if it does look as if "the last hair to break the camel's back" will come after awhile. A heavy population for one big country, we think, has already passed through our city.

Our city is infested by professional thieves who follow their avocations with impunity. The police thus far have proved their inefficiency in not arresting them and by their failure to do so have subjected themselves to the deserved censure of our citizens. Thefts are committed by day and night in the most daring manner, and yet the guilty parties go unwhipped of justice.

We have a large number of vagrants in our city who live by their wits, that is by robbing and swindling citizens and strangers; the latter being the most unsuspecting. It would be well if more stringent laws could be enacted and then enforced to drive the creatures out of our city, or put them to work on our streets.—[Shreveport Gazette.

Wagon after wagon of movers, Texas bound, still passes through our streets almost daily. Texas is of almost unlimited space capacity, but it does look as if "the last hair to break the camel's back" will come after awhile. A heavy population for one big country, we think, has already passed through our streets, and our exchanges from all points above and below give weekly accounts of regiments of teams, of all sizes, shapes and capacities, passing on to Texas, loaded down with plunder, women and children.—[Bastrop (La.) Conservative.

A letter to the Gonzales Index from Caldwell says, that the enormous influx of immigrants has raised the price of both corn and meat, the latter of which seems to be rather scarce. This will create a home market for beef, for it has been the boast of Texas, that there was no hungry man in her borders. By far the greater portion of immigrants go farther up the country, into the wheat region. Much of this section bids fair to produce good crops of cotton, and suffers less from the worms than the coast tier of counties.

Charlotte, wife of Clement Lozier died recently in New York, aged about thirty years. She bore a regular diploma as Doctor of Medicine, and had practiced and lectured with success. The press of the city are emphatic in the eulogies upon her abilities and benevolence. She was the first to set the example to woman of becoming regular practitioners to medicine. Besides her professional usefulness, she was commendable for maternal and social duties.

OATS.—William Newton of Henrietta, N. Y., wrote that some four years ago he received from Germany a quart of "White Probestier" oats. The past season he sowed a field of six acres with this variety and harvested five hundred and eighty-seven bushels, or an average of nearly 98 bushels to the acre, weighing thirty-nine pounds per bushel.

The Brownsville Ranchero seems to hint at a Vigilance Committee at that point, to take order with the Mexicans, saying that in less than a month there have been six murders and several stabbing affairs by those people.

The trade of Texas, now rapidly increasing, is of vital importance to the city of New Orleans, and New Orleans is the proper and natural market for the people and products of Texas. Let us have the Chattanooga road.

ANOTHER FINANCIAL SCHEME.—A special Washington dispatch to the Chicago Times, of the 23d ult., says: A member of the Senate Finance Committee has prepared a bill, to be introduced in January, providing for the issue of gold notes, or gold certificates, by the Treasury, of all denominations, to the extent of \$30,000,000. The notes are to be redeemable at the holder's option, in gold, and are to be used in business transactions.

Testimonials.
 The Waters' Pianos are known as among
 the very best.—N. Y. Evangelist.
 We can speak of the merits of the Waters'
 Pianos from personal knowledge as being of
 the very best quality.—Christian Intelligencer.
 Our friends will find at Mr. Waters' store
 the very best assortment of Pianos, Melodeons
 and Organs to be found in the United
 States.—Graham's Magazine.
 Musical Director.—Since Mr. Waters gave
 up publishing sheet music, he has devoted
 his whole capital and attention to the man-
 ufacture and sale of Pianos and Melodeons.
 He has just issued a catalogue of his new
 instruments, giving a new scale of prices,
 which shows a marked reduction from former
 rates, and his Pianos have recently been
 awarded the First Premium at several Fairs.
 Many people of the present day, who are
 attracted, if not confused, with the flimsy
 advertisements of rival piano houses, prob-
 ably overlook the modest manufacturer like
 Mr. Waters; but we happen to know that
 his instruments earned him a good reputa-
 tion long before Expositions and "honors"
 connected therewith, were even thought of;
 indeed, we have one of Mr. Waters' Pianos
 for sale now in our residence (where it has
 stood for years), of which any manufacturer
 in the world might well be proud. We have
 always been delighted with it as a strong
 toned and powerful instrument, and there is
 no doubt of its durability; more than this,
 some of the best amateur players in the city
 as well as several celebrated pianists, have
 performed on the same piano, and all pro-
 nounce it superior and first class instrument.
 Stronger endorsement we could not give.
