The action of the Seguin Convention h nominating John Hancock for Congress, rather astonished those who had placed faith in the rag tag and bob tail element of fusion. But it remained for the knowing ones to chackle over the neat way in which popular sentiment was defeated and Mr. Berends choked off. It seems that a caucus of seven of the leading spirits of fusion was held just previous to the calling of the meeting at Seguin to order, and the town of Bosque. The State Police the hrmy, 1,150,000 thalers, (\$793, programme marked out.

The afternoon was spent in lines as follows: electionsering for Hancock, and we have the word of three responsible men, that are of the Sau Antonio delegation turned out and worked snight and main against the rends, and for Hancock. One of them, in particular, set edrift the position of Mr. Berends on religion, and made capital for Hancock, among some of the ignorant del-Hancock, among some of the ignorant delegates, by ascribing to Mr. Berends a pastetion of opposition to any Sunday Law.

On the next meeting and ballot, every thing had been made secure. The race between Berends and Hancock had been literally sold to the Austinites, and John than from 40 to 60 of them; their camp that which they must have known Hancock went through as a regular name fires at night numbering from ten to thir to be the truth, because the mob Hancock went through as a regular nomed for the Congressional nomination. AMNESTY.

affairs in our state, is a dubious one by which to encourage teelings of liberality and provide for general amnosty. While efficient State measures, the State police and State Guard, maintain in most localities law and order, the tone of the people of other districts seems to be in such defiance of law and order, that the thinking man will find it hard to assimilate his ideas to the liberal policy which manifesta itself in the National Congress in regard to ainnesty. Notwithstanding the great improvement in the aspect of affairs, made by the vigorous enforcement of the laws by the Clovernor and his aids, the fact still stares us in the face that the time has not yet for a man to express his political views openly and advocate them untrammelled by attendant dangers trom mob violence. The outrages upon republicans in

WE ARE in receipt of favors from our worthy Congressman, the Hon. E. Degener, for which he will please accept our thanks.

THE OLD foot bridge serves as quite centre for the loungers who congregate there, to watch the workmen who are pre. paring to wall up the new race to be open ed there for the running of Lewis' mill.

Pork has been scarce since the holidays, a good sharp cold spell is needed to in crease the supply.

NEW BUILDING .- We see the excavators at work just below the store of Mr. A. Sartor. A few months will add another to the number of fine buildings that grace Main street. Hurrah for Hooray!

JUDGING from the number of parties und balls given all around, we can assert that the gay and festive season has opened in dead earnest. A decided improvement is noted in the general management of balls and sources, to that which prevailed two or three years ago. Society is uniting the different cliques that formerly were al-ways in social antagonism to each other.

mile radius of town. Our city has so many amateur lovers of gun and dog, that we wonder not at all at the diminishing num ber of the coveys. We could not commend a finer sport, or one more producive of health to all sizes of masculines. Old or young, a good tramp over the prairies, and through a mile or two of cat-claws, is bound to have a good effect.

Our city is slowly recovering from the holiday effects. Business is settling down into its regular demands. Carts and wagons fill up our streets. The scholars are on the increase at the public schools, while even Quilp is pegging away at a pile of exchanges, with as much relish as though he never knew what a Christmas or a New Year's frolic, was. The new year bears a bright face, and we sincerely trust that it is an auspicious omen, significant of the brightness of both Industrial and National prospects

Parties who are owners of horses should keep a sharp look out for them. A horse and saddle were stolen from a residence on Acequia street day before yesterday. On motion, an Ordinance continuing in force an Ordinance entitled "An Ordinance regulating the Advalorem and License taxes for the year ending January 15th, 1871," approved January 8, 1870, was

adopted.

Council then adjourned. The Body and its Needs.

Considering the extreme sensitiveness of the human body, and, that it is unprotected except by artificial covering, from the action of cold, it is not strange that at this season it is liable to, many disorders. The skin exercises a powerful influence over the stomach and bowels, and when its functions are interrupted by sudden chills that seal the pores and prevent evaporation from the surface, internal congestion is apt to ensue. The digestive organs never perform their office properly when this is the case, and the waste matter of the system, which should be discharged in part through the perspiratory glands, having no other outlet than the bowels and the kidneys, constipation and a variety of renal diseases are more or less pro vealent. Dyspepsia, where it exists, is also aggravated by these causes. The most effective preventive of, and remedy for disturbances of this nature is Hostetter's Stomach Bitters. Acting as a stimulant and tonic, it rouses the stomach and the intestines, imparting to those important organs both activity and regularity. It also operates as a sudorific, by toning the vessicles of the skin and promoting the free passage of exhausted matter through that natural sieve of the system. Being a mild diuretic, it gives a healthful impulse to the action of the kidneys, where there is a tendency to dropsy, and as a blood depurant and nervine, has a highly beneficial effect in rheumatic cases. sombines in happy proportions the tonic, alterative, aperient, antiseptic, diaphoretic and antibilious properties requisite for the restoration of a system generally disordered, and has no equal as a winter medicine. 1-4-70dcodflw.

DR. SCHENCK advises Con-sumptives to go to Florida in Winter.
Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fally the course that

feel that I understand fully the course that ought to be pursued to restore a telerably bad case of diseased longs to healthy seemed ness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subjected to such variations as in more Northern latitudes. Falstka is a point I can recommend. A good hotel is kept there by Peterman, Last winter I saw actual persons there whose lungs had been hadly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Pulatka, the temperature is more even and the air

CLEAN your chimneys. The number of chimneys, should act as a caution to our citizens generally, and induce them to give their attention to seeing their chimneys.

Wanted—Augusts—375 to \$200 per mouth, everywhere, male and female, to introduce the GENUINE IMPROVED COM-MON SENSE FAMILY SEWING MA CHINE. This Machine will sitch, hem, fell, tuck, quilt, cord, bind, braid and embroider in a most specific masner. Price their attention to seeing their chimneys.

Wanted—Augusts—375 to \$200 per mouth is a point which I would prefer to Palatka, the temperature is more even and the air troduce the GENUINE IMPROVED COM-August And bracing. Marlonville and Enterprise are located there. I should give a decided there, is should give a decided for five years.

There is no fun in being burn.

We will pay \$1900 for any machine that

rature, and it is not necessary to say that where a consumptive person expesses himself to frequent colds he is certain to die shortly. Therefore my advice is, go well down into the State out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid fiver a disordered stemach, deranged bowels sore throat or cough, but for those whose jurgs are diseased a more southern is earnestly recommended.

For filteen years prior to 1869, I was pre-fessionally in New York, Boston, Baltimore and Philadelphia every week, where I saw and examined on an average five hundred Being a private instructor for married and examined on an average are numerous persons or those about to be married, both male and female, in everything concerning embracing every possible phase of lung discussions and relations of our sexual case, has enabled me to understand the discussion of the concerning and being, my caution in regard case, has enabled the to understand the observed fully, and hance, my cantion in regard to taking cold. A person may take rast quantities of "Schenck's Palmonic Syrop, Souweed Tonic and Mandrake Pills," and

the stalls as usual, and judging from the cheerful faces of the butchers, they are all satisfied with it. The misunderstandings in regard to it, all proceeded from the Dashiell faction, and we have yet to find anything done by the ins, that meets the approval of the outs.

To you desire rosy obsecks and a complex of fair and free from Pimples, Blotches and Eruptions, purify your blood by taking Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It has no equal far the disase described in his purpose, nor as a remedy for "Liver in the disase described in his publications, at the disase disased, and the disase described in his publications, at the disase disased, and the disase described in his publications, at the disase disased, and the disase disased her and the disase described in the location of the hiddle States it does not be disased, in the Middle States it does not here. What at vast per ceutage of life would be saved if four the housands of ca

My advice to persons whose lungs are af-fected even slightly is, to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Sea-

weed Tonic, and Schench's Mandrake Pills, and go to Florids. I recommend these Particular medicines because I am thereother acquaints I wish their action. I know that where they are used in strict accordance with my directions, they will do the work that is required. This accomplished, nature will do the reat. The physician who prescribes for cold, cough or night sweats, and then advises the patient to stalk as side out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines, in accordance with the printed dt. tons, except in some cases where a freer f. the Mandraka Pills necessary. My object as to give tone to the stomach—to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish for food and the gratification of that relish, come good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough loosens and abates, die creeping chills and clammy night-sweats no longer prostrate and sunoy, and the patient gets well, provided be avoids taking cold.

Now there are many consumptives who have not the means to go to Florids. The

chills and clammy night-sweats no longer prostrato and annoy, and the patient gets well, provided be avoide stating cold.

Now there are many consumptives who have not the mesos to go to Florida. The question may be asked, is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly avoid to prove the patient take his exercise within the limits of the room by walking up and down as much as his atrength will permit in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is takes in time, and the proper kind of treatment is pursued. The fact stands undisputed on record that schenet's Pulmonic Syrup, Mandrake pills and Scawesd Tonic, have cured very many of what seemed to be hoppiess cases of consumption. Go where you will, you will be almost certain to find some poor cansumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit and diarrhous entires, a dose of the Mandrakes will cure you in two hours. If you would obviate the effect of a change of water, or the too few includence in fruit, take one of the Mandrakes will cure you in two hours. If you would obviate the effect of a change of water or the too few includence in fruit, take one of the Mandrakes early night or overy other night, and you may then drink water and eat watermelons, pears, apples, houns, pearlies or cern, without the right of being made sick by them. They will prote thinks and fevers. Try them, They are perfectly harmless. They can do you goed only.

I have abandoned my profess

perfectly harmless. They can do you good only,

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office. No. 15 N. SIXTH Bireat, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Resirometer will be charged five dollars. The Hespirometer deciares the exact condition of the lungs, and patients can readily learn whether they are corable or not. But I desire it distinctly understood that the value of my modicines depends entirely spon their being taken strictly according to directions.

In evacuation, I will say that when persons taken or medicines and their systems are brought into a healthy condition thereby, they are not so liable to take celd, yet no one with deceased longs we bear a and den change of atmosphere without the liability of greater or less tritationed the bronchial tubes.

The great field trials at Sedalia, Mo., at Xenia, Ohio, in the Summer of 1869where "The Clipper" met some 30 competitors including all the leading machines built, and was avarded the First Premiums and Gold Medal—proves that the proprietors have been able to sustain in the filled their claims of superiority for Fire Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor off the team. The adjustability of the finger-war, to cut high or low without stopping the team, is worth \$25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly the least complicated, the most perfectly constructed, the most symmetrical in design of any implement of iss class. Farmers of any implement of iss class. Farmers on a class of the Horses Friend, and you their salfare. Send cannot afford to ignore their weifare. Send for pamphlet—investigate. See or write to some one who has used THE CLIPPER. See the Machine yourself before you buy any
