OFFICIAL
LAWS
OF THE
UNITED STATES,
 Passed at the Third Session of
 the Forty-First Congress.
 [GENERAL NATURE—No. 13.]
 AN ACT for the relief of the Stockbridge
 and Munsee tribes of Indians, in the
 State of Wisconsin.
 Be it enacted by the Senate and House
 of Representatives of the United States
 of America in Congress assembled, That
 the townships of land, situated in the
 county of Shawanaw, and State of Wis-
 consin, set apart for the use of the Stock-
 bridge and Munsee tribes of Indians, shall,
 under direction of the Secretary of the In-
 terior, be examined and appraised, by two
 or more disinterested appraisers to be
 selected by him, in eighty-acre lots, ac-
 cording to public survey; such appraisers
 shall state the quality of the soil, the
 quantity, quality, and value of the timber
 growing on each lot, estimating also, the
 timber at not less than one dollar per
 thousand, and the value of all improve-
 ments, if any, made thereon, with the
 name of the owner of such improvements,
 as certified by the sachem and councilors
 of said tribe, and, when returned to the
 land office of the district in which said
 lands are situated, be subject to public
 inspection for at least thirty days before
 the day appointed for the sale of such
 lands, as hereinafter provided. One copy
 of said appraisal shall be made and return-
 ed to the land office of the district, and a
 duplicate thereof to the Secretary of the
 Interior, within six months from the pas-
 sage of this act, and the persons appoint-
 ed to make such appraisal shall be allowed
 such compensation for their services as
 may be fixed by the Secretary of the In-
 terior.
 Sec. 2. And be it further enacted, That
 the said two townships of land shall be
 advertised for sale, by notice not less than
 three months, to be published in at least
 three newspapers of the district having
 general circulation, and shall be offered
 at public auction, at the nearest Government
 land office within the Green Bay agency,
 to the highest bidder, in lots of not exceed-
 ing eighty acres each, but shall not be
 sold for less than the appraised value
 thereof. None of said lands shall be sub-
 ject to entry until they shall have been
 offered as aforesaid, and then only at the
 price fixed by such appraisal. All of said
 lands remaining unsold at the expiration
 of one year after they shall have been
 offered as aforesaid shall be again adver-
 tised and offered at public auction at the
 nearest government land office within the
 Green Bay agency, at not less than the
 minimum of one dollar and twenty-five
 cents per acre, and thereafter shall be sub-
 ject to private entry at the latter price,
 and shall in all cases be sold for cash only.
 Provided, however, That the Secretary of
 the Interior is hereby authorized to re-
 serve from said a quantity of said lands
 not exceeding eighteen contiguous sec-
 tions, embracing such as are now actually
 occupied and improved, and are best ad-
 apted to agricultural purposes, subject to
 allotment to members of the Indian party
 of said tribe as hereinafter provided.
 Sec. 3. And be it further enacted, That
 from the first proceeds of the sale of lands,
 as provided in the second section of this
 act, shall be paid the expenses of apprais-
 al and sale of said lands, the amount due
 to individuals for improvements as return-
 ed by the appraisers, and the amount of
 the debts contracted by the sachem and
 councilors, for the benefit of said tribes,
 amounting to the sum of eleven thousand
 dollars, according to a schedule to be cer-
 tified by them, and returned to the Com-
 missioner of Indian Affairs.
 Sec. 4. And be it further enacted, That,
 immediately after the returns shall be
 received at the General Land Office of the
 last public sale according to the provisions
 of this act, a statement shall be made
 up, under the direction of the Secretary
 of the Interior, exhibiting the gross amount
 of moneys realized from the sale of the
 said two townships of land, after deduct-
 ing therefrom the sums appropriated by
 the preceding sections of this act, to
 which said amount shall be added the
 value of the lands remaining unsold of
 said two townships, estimating the same
 at sixty cents per acre; also the sum of
 six thousand dollars held in trust by the
 government of the United States for the
 use of the Stockbridge and Munsee tribes
 Indians, under the Treaty of eighteen hun-
 dred and thirty-nine; and the total
 amount thereof shall constitute the entire
 sum of moneys due from the government
 of the United States to said Stockbridge
 and Munsee tribes of Indians, to be paid
 and appropriated for their benefit as here-
 inafter directed.
 Sec. 5. And be it further enacted, That
 the sum of money thus found due to the
 said tribes shall be divided between the
 citizen and Indian parties of said tribes,
 in proportion to the number of each re-
 spectively, according to rolls thereof, made
 and returned in conformity with the pro-
 visions of this act to the Commissioner of
 Indian Affairs: That portion of said sum
 belonging to the citizen party shall be
 equally divided among them per capita,
 and paid to the heads of families, and
 adult members of said party; that por-
 tion of said sum belonging to the Indian
 party shall be placed to their credit on
 the books of the Treasurer of the United
 States, and bear interest at the rate of
 five per centum per annum, payable semi-
 annually, and said interest shall be ap-
 plied to the support of schools, the pur-
 chase of agricultural implements, or paid
 in such other manner as the President may
 direct: Provided, however, That a part
 of said sum due the Indian party, not ex-
 ceeding thirty thousand dollars, may, on
 the request of the sachem and councilors
 of said tribe, and in removing and aiding
 them to establish themselves in their new
 home; and in case of their procuring and
 removal to such new location, at any
 time, the said eighteen sections of land
 reserved for their use by the second sec-
 tion of this act shall be sold in the manner

thereat provided, and the proceeds there-
 of be placed to their credit as aforesaid.
 Sec. 6. And be it further enacted, That
 for the purpose of determining the persons
 who are members of said tribes and the
 future relation each to the government of
 the United States, there shall be prepared,
 under the direction of the Commissioner of
 Indian Affairs, or such person as may be
 selected by him to superintend the same,
 two rolls, one to be denominated the citizen
 roll, to embrace the names of all such
 persons of full age, and their families, as
 signify their desire to separate their rela-
 tions with said tribe, and to become citi-
 zens of the United States; the other to be
 denominated the Indian roll, and to em-
 brace the names of all such as desire to
 retain their tribal character and continue
 under the care and guardianship of the
 United States; which said rolls shall be
 signed by the sachem and councilors of
 said tribe, verified by the person superin-
 tending the same, and returned to the
 Commissioner of Indian Affairs, but no
 person of full age shall be entered upon
 said citizen roll without his or her full
 and free consent, personally given to the
 person superintending such enrollment;
 nor shall any person, or his or her descen-
 dants, be entered upon either of said rolls
 who may have heretofore separated from
 said tribe and received allotment of lands
 under the act of Congress for the relief of
 the Stockbridge tribe of Indians, of March
 third, eighteen hundred and forty-three,
 and amendment of August six, eighteen
 hundred and forty-six, or under the treaty
 of February five, eighteen hundred and
 fifty-six, or who shall not be of Stock-
 bridge or Munsee descent. After the said
 rolls shall be made and returned as here-
 in provided, the same shall be held as a full
 surrender and relinquishment on the part
 of the citizen party, each and every one of
 them, of all claims to be thereafter known
 or considered as members of said tribe, or
 in any manner interested in any provision
 heretofore or hereafter to be made by any
 treaty or law of the United States for the
 benefit of said tribes, and they and their
 descendants shall thenceforth be admitted
 to all the rights and privileges of citizens
 of the United States.
 Sec. 7. And be it further enacted, That
 after the said rolls shall have been made
 and returned, the said Indian party shall
 thenceforth be known as the "Stockbridge
 tribe of Indians," and may be located upon
 lands reserved by the second section of
 this act, or such other reservation as may
 be procured for them, with the assent of
 the council of said tribe, and their adop-
 tion among them of any individual, not of
 Indian descent shall be null and void.
 Sec. 8. And be it further enacted, That
 as soon as practicable, after a suitable and
 permanent reservation shall be obtained
 and accepted by said tribe, either at their
 present home or elsewhere, the same shall
 under the direction of the Secretary of the
 Interior, be surveyed and subdivided to
 correspond with the public survey, and
 the council of said tribe, under the super-
 intendance of the agent of the United
 States, shall make a just and fair allotment
 of so much thereof (in compact form)
 as may be required, among the individuals
 and families composing said tribe; as fol-
 lows: Each head of a family consisting
 of four persons shall receive eighty acres
 of land, and if consisting of more than four
 persons, at the discretion of the council,
 eighty acres more be assigned to him or
 her; each male person above the age of
 eighteen years, not included in any fam-
 ily, shall receive eighty acres; each female
 person above the age of eighteen years,
 not a member of a family, and each or-
 phan child, shall receive forty acres; the
 lands assigned and allotted as aforesaid
 shall be held inalienable, and in case of
 the death of any person, his or her right
 thereto shall descend to his or her heirs,
 if members of said tribe, and if he or she
 dies without heirs capable of inheriting,
 the land shall revert to and become the
 common property of said tribe; there shall
 also be set apart and appropriated a lot,
 not exceeding forty acres, to be held as
 common property on which to erect a
 church, parsonage, school-house, and other
 improvements necessary for the accommo-
 dation of said tribe: Provided, That if
 any female shall marry out of said tribe,
 she shall thereby forfeit all right to hold
 any of said lands, as if deceased.
 Sec. 9. And be it further enacted, That
 the allotments contemplated in the pre-
 vious sections of this act shall be made, and
 a certified copy thereof returned to the
 Commissioner of Indian Affairs, within
 one year after the reservation shall have
 been made and accepted by said tribe;
 and thereafter the title of the lands de-
 scribed therein shall be held by the United
 States in trust for individuals and their
 heirs to whom the same were allotted.
 The surplus lands embraced in such reser-
 vation remaining after making such allot-
 ments shall be held in like manner by the
 United States, subject to be allotted to in-
 dividuals of said tribe, who may not have
 received any portion of said reservation,
 or to be disposed of for the common benefit
 of said tribe: Provided, That no change
 or addition shall be made in the allotment
 returned to the Commissioner of Indian
 Affairs, unless the same shall be approved
 by the Secretary of the Interior.
 J. G. BLAINE,
 Speaker of the House of Representatives,
 SCHUYLER COLFAX,
 Vice-President of the United States and
 President of the Senate.
 Received by the President Jan. 25, 1871.
 [NOTE BY THE DEPARTMENT OF STATE.—
 The foregoing act having been presented to
 the President of the United States for
 his approval, and not having been return-
 ed by him to the house of Congress in
 which it originated within the time pre-
 scribed by the Constitution of the United
 States, has become a law without his ap-
 proval.]

[GENERAL NATURE—No. 14.]

Ayer's Hair Vigor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

1871.

Through struggle and suffering, at the cost of multitudes of lives, bereavements, devastations, the American idea embodied in the preamble to our fathers' Declaration of Independence approaches its complete realization. The noble, inspiring assertion that "all men are created equal," and endowed by their Creator with inalienable rights to life, liberty, and the pursuit of happiness, is no longer a glittering generality, a poet's fancy, a philosopher's speculation, but the recognized principle of our political faith. The benign Revolution, which dates from the Boston Massacre of 1770, finds its logical completion, just one century later, in the XVth Amendment, which gives to every man born or naturalized in our Republic the shield and defense of the Federal Constitution. The billows of Caste and Privilege may roar and rage around that rock, and may transiently seem on the point of washing it away; but the foundations are deep and steadfast, and the breakers of Reaction and Slavery are hurled against and dash their spray over it in vain.

We do not underestimate the forces of Prejudice and Aristocracy. We do not forget that a very large minority of the American People still hold in their inmost hearts that Blacks have no rights which Whites are bound to respect. We fully appreciate the desperation wherewith all the warring elements of hatred—Republican achievement, most of all combined and hyped against the battlements of Republican ascendancy in the Presidential Election of 1872. We do not doubt that local successes, facilitated by Republican funds and dissections, will inspire the charging host with a sanguine hope of victory, such as served it to put forth its utmost strength in the earlier stages of the contests of 1864 and 1868. Yet our faith is clear and strong that the American People still prize God's truth, and that the breakers of our late Civil War, the Union was upheld and Slavery destroyed, and will never consciously decide that the precious blood thereon poured out was lavished in vain.

The Tribune believes in the prosecution of the great struggle by legitimate means to beneficent ends. To State Sovereignty, it opposes indissoluble National Integrity; to Slavery for Blacks, Liberty for All; to Proscription, Entrenchment; to Popular Ignorance, Universal Education; to Intensity and sterility of wrathful Hate, universal and invincible Good Will. It would fain do its utmost to hasten the glad day when the South shall unite with the North in exultation and gratitude over the disappearance of the last trace or taint of that spirit which impelled Man to exult in the ownership and chattelhood of his fellow Man.

Profoundly do we realize that Millions mourn, and less publicly, the down fall of the slaveholders' Confederacy, and rear their children to hate those by whose valor and chivalry its overthrow was achieved. If we ever seem to differ essentially from other Republicans, our conviction that magnanimity is never weakness, that vengeance is never politic, and that devils are not cast out by Beelzebub, must serve to explain alleged eccentricities whose perfect vindication we leave to Time and Reflection.

The Tribune has been, and must be a zealous advocate of Protection to Home Industry. Regarding habitual idleness as the greatest foe to human progress, the bane of human happiness, we seek to win our countrymen in masses from the ensnaring lures of Speculation, of Traffic, and of always over-crowded Professions, to the tranquil paths of Productive Industry. We would gladly deplore, and even deplore cities, where thousands vainly jostle and crowd in mightiest quest of "Something to Do," to cover prairies and plains with colonies absorbed in Agriculture, Mechanics and Manufactures, and constantly projecting into the blank, void wilderness the homes and the works of civilized Man. Holding the Protection of Home Industry by discriminating duties on imported Wares and Fabrics essential to the rapid, beneficent diffusion of Protection in all its departments, and to the instruction of our people in all the glorious arts of Peace, we urge our countrymen to adhere to and uphold that policy, in undoubting faith that the true interest, not of a class or a section and every useful class, is thereby observed and promoted.

The Tribune aims to be preeminently a Newspaper. Its correspondents traverse every State, are present on every important battle-field, are early advised of every notable Cabinet decision, observe the proceedings of Congress, of Legislatures, and of Conventions, and report to us by telegraph all that seems of general interest. We have paid for one day's momentous advices from Europe by Cable far more than our entire receipts for the issue in which those advices reached our readers. If lavish outlay, unsleeping vigilance, and unbounded faith in the liberality and discernment of the reading public, will enable us to make a journal which has no superior in the accuracy, variety, and freshness of its contents. The Tribune shall be such a journal.

To Agriculture and the subservient arts, we have devoted, and shall persistently devote, more means and space than any of our rivals. We aim to make THE WEEKLY TRIBUNE such a paper as no farmer can afford to do without, however widely his politics may differ from ours. Our reports of the Cattle, Horse, Produce, and General Markets are so full and accurate, our essays in elucidation of the farmer's calling, and our regular reports of the Farmers' Club and kindred gatherings are so interesting, that the poorest farmer will find therein a mine of suggestion and counsel, of which he cannot remain ignorant without positive and serious loss. We sell THE WEEKLY TRIBUNE for less than its value in dwellings for waste paper; and though its subscription is already very large, we believe that a Half Million more farmers will take it when they shall be commended to their attention. We ask our friends everywhere to aid us in so commending it.

DAYS growing gradually longer.

Now is the time to send stock to pasture.

LOCAL ITEMS are as scarce as—local items.

Business never was livelier in San Antonio, than it is this spring.

SODA WATER, fizzles and fumos all over town.

LEST has the effect of giving our city a most remarkably quiet air.

Real estate transfers and changes are decidedly lively.

We notice a general improvement in the fencing, surrounding lots in our city limits.

GRECIAN bonds have been straightened out by the iron decree of fashion.

Tax business of shipping hides revives with the reduction of freight rates.

CLEAN out your wells, before the hot weather sets in.

SHOO-FLY! is becoming a practical popular saying.

THE moon is in Quip's condition—at its last quarter.

MORNING glories are going up in the world.

THE hindmost and pleasantest place in town—Department Headquarters.

THE gardens of our florists are masses of beautiful spring flowers...

PLUVIUS made a half way attempt to dampen the ground yesterday...

THE wheel at Lewis' mill is being placed in position.

STAECKER is fast closing out his stock of wagons.

GAMBLE is filling his shelves to overflowing with everything neat and nice in the stationery line.

LOANERS are scarce in San Antonio. The busy bees of our San Antonio populace have no use for drones.

FROG-CULTURE is finding devotees who hunt ponds and water holes...

THE new store of our fellow-citizen, Jax H. French, is being rapidly filled up...

A SINGLE mosquito came to town yesterday, presented his bill, which was objected to, and he left by the first stage.

MANY of our planters are directing their efforts to the raising of Irish potatoes.

PASSENGER fare on the Keise is ten dollars for cabin and five dollars for deck passage.

SINCE Noyes' Circus was here, we can't do anything with our devil. He is like Quip's boy—he will stand on his head.

THE Agricultural, Stock raising and Industrial Association are hard at work preparing for the October Fair.

THE public spirit manifested by the gentlemanly directors should meet with a corresponding show of public spirit on the part of merchants and citizens generally.

DOBSONG.—It is amusing rather than otherwise, to watch the dodging of parties on the streets as they catch sight of the deputies of the sheriff, out after jurors.

to keep a sharp watch for the bailiffs. Sometimes the quick-eyed sheriff catches sight of some such suspicious movement on the part of the dodgers...

SOME of our folks who do not understand the perils and delays of our antediluvian style of transportation, will find in the following one of the occasional ills that suffering merchants are subject to.

Ayer's Cathartic Pills.

For the purpose of a Laxative Medicine. Perhaps no medicine is so generally required by every body as a cathartic, or purgative medicine. It is a well known fact, that in every country and among all classes, the most common complaint is that of constipation. It is a more common complaint than any other, and it is a more dangerous one than any other. It is a more common complaint than any other, and it is a more dangerous one than any other.

Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD. The reputation this excellent medicine enjoys, is derived from the fact, that it is a more common complaint than any other, and it is a more dangerous one than any other. It is a more common complaint than any other, and it is a more dangerous one than any other.

DR. SCHENCK advises Consumptives to go to Florida in Winter.

Having for the last thirty years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tubercular lung to its healthy condition. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subjected to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, the temperature is more even and the air dry and bracing. Merionville and Enterprise are located there. I should give a decided preference to Merionville. It is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times but that is a good sign, as it indicates a return of appetite, and when this is the case they generally increase in flesh, and then the lungs must heal.

Jacksville, Hibernia, Green Cove, and many other places in various parts of Florida, can be safely recommended to consumptives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to any that where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice is, go well down into the State, out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a disordered stomach, damaged bowels, sore throat or cough, but for those whose lungs are diseased a more southern is earnestly recommended.

For fifteen years prior to 1869, I was professionally in New York, Boston, Baltimore and Philadelphia every week, where I saw and examined an average five hundred patients a week. A practical examination, embracing the possible phases of lung disease, has enabled me to understand the disease fully, and hence, my caution in regard to taking cold. A person may take vast quantities of "Schonck's Pulmonic Syrup, Seaweed-Tonic and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly all are using Schonck's Medicine, especially Schonck's Mandrake Pills, for the climate is more likely to produce bilious habits than more northern latitudes. It is a well established fact that natives of Florida rarely die of consumption especially of the southern part. On the other hand, in New England, one third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about scarlet fever, small pox, &c. But they are not. They take what they term a little cold, which they are credulous enough to believe will wear off in a few days. They pay no attention to it, and hence it lays the foundation for another and another still, until the lungs are diseased beyond all hope for cure.

My advice to persons whose lungs are affected even slightly, is to lay in a stock of Schonck's Pulmonic Syrup, Schonck's Seaweed-Tonic, and Schonck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know that where they are used in strict accordance with my directions, they will do the work that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough or night sweats, and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines, in accordance with the printed directions, except in some cases where a freer the Mandrake Pills necessary. My object is to give tone to the stomach—to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish to food and the gratification of that relish, some good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough lessens and abates, the creeping chills and clammy night sweats no longer prostrate and annoy, and the patient gets well, provided he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question may be asked, is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record that Schonck's Pulmonic Syrup, Mandrake Pills and Seaweed-Tonic, have cured very many what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit and diarrhoea ensues, a dose of the Mandrake will cure you. If you are subject to sick headaches, take a dose of Mandrake, and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night or every other night, and you may then drink water and eat watermelons, pears, apples, plums, peaches or corn, without the risk of being made sick by them. They will protect those who live in damp situations against chills and fevers. Try them. They are perfectly harmless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15 N. SIXTH STREET, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Respirometer detects the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood that the value of my

medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet to one with decreased force a clear sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting me, and can be bought from any druggist.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Croup, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine has any thing so simple and so efficacious been discovered for the relief of the most distressing and dangerous affections of the throat and lungs. As a protection against the attacks of Croup, it should be kept on hand in every family, and administered as directed with the greatest care.
