1671. Through struggle and suffering, at the cost of multiform agonies, bereavements, devastations, the American Idea embodied devastations, the American idea embodied in the proumble to our inthers' Declaration of Independence approaches its complete realization. The noble, inspiring assertion that "all men are created equal," and endowed by their Creator with inslienable rights to life, liberty, and the pursuit of happiness, is no longer a gliftering generality, a poet's fancy, a philosopher's speculation, but the recognized base of our political fabric. The benigh flevolution, which dates from the Boeton Massacre of 1779, finds its logical completion, just one century later, in the XVIA Amendment, which gives to the equal political and civil rights of every man form or naturalized in our Republic the chief dand defense of the Federal Constitution, The billows of Caste and Privilege may roar and rage Caste and Privilege may rear and rage around that rock, and may transiently seem on the point of washing it away; but its foundations are deep laid and atcadfast, and the breakers of Reaction and Slavery are furthed against and dash that away away it in vair.

We do not underrate the forces of Prejudice and Aristocracy. We do not forget that a very large minority of the American People still field in their inmost hearts that Blacks have no rights which Whites are bound to respect. We fully appreciate the desperation where with all the warring elements of hatred to Republican achievement will be combined and buried against the battlements of Republican ascendency, in the Presidential Election of 1872. We do not dembt that local successes, facilitain the Presidential Election of 1872. We do not doubt that local successes, facilitated by Republican fends and dissensions, will inspire the charging bost with a sanguine supe of victory, such as nerved it to put fresh its utmost strength in the earlier stages of the contests of 1864 and 1862. Yet our faith is clear and streng that the American People still bless God that, on the red battle fields of our late Civil War, the Union was upheld and Slavery destroyed, and will appear consciously decide that the arceions blood thereon pour dout was lavished in vais.

We learn that a notorious scamp, horse thief, etc., has been killed, under the following cfreumstances;

Some time since a horse was stolen from the neighborhood of the ice factory, and the theft traced to a person by the name of Mosher, who has ever borne a bad reputation, having been under numerous indictments for swindling, horse thieving, etc.

While riding along between the two po- fits arising licemen, Mosher sundenly turned, having got his hands loose in some unaccountable way, and grasped Lieut, Kelluer's pistol, and fired point blank at the Lieutenaut, the hall passing so close to his side as to in the hands of the Quartermaster General

I am sir, very respectfully your obedient servant, W. H. BELKNAP. Secretary of War.

In the drift of other matters that have comulated for a year, many of our citisens have forgotten the original agitation over the subject of making this grant to the Government, and have thus overlooked a matter that is of musual importance to us. The Records of Bexar county are kept in an insecure place. Iusecure from burglars, and liable any night to be burnt up. Let it be to the interest of any unprincipled man to destroy the records, and the act can be nmitted without trouble or risk. If those whose deeds, and other valuable

papers are recorded, or filed there, would cellect upon the consequences of the total loss of said documents, a painful feeling of anxiety would ensue.

Is it reasonable to "trust to luck" any longer? If those records are really worth anything at all, to no less than one hundred thousand people, directly and indi-rectly concerned in the property records, the records are certainly worth a safe place of deposit.

Will the county and city unite in erecting, forthwith, a fire and burglar proof building, wherein to keep the records? We suggest the centre of Military Plaza. But anywhere, even Powder House Hill, so that they be safe.

Why delay it until they are all destroyed? These records are second only to those at Austin. Why not make them safe at once!

this city, who may be addressed in reference to their respective class of business:

The Seaweed Tonic and Masdrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the rases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchist tubes "sympathize" with the stomech. They respond to the marbifus action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

The Mandrake Pills are composed of one of Nature's nebiest gifts—the Podophillum Peltatem. They posses all the blood-searching, alterative properties of calomel, but unlike calomel, they

A Supply of Good Blood.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suf-fering man. Sehench's Pulmonic syrup comes in to perform its functions and to hasten and complete the curs. It enters at hasten and complete the cure. It enters at more upon its work. Nature cannot be chested. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very clore time the malady is vanquished, the rotten throughthat it occupied is removated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manneod or womanhood that was.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wreng. Physicians who is commend that course lose their patients, if their longs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the atrength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

Dr. Schenck's medicines are constantly kept in tens of thousands of families, As a laxative or pugative, the Mandrake Pills are a standard preparation; while the Pul monic Syrup, as a carer of coughs and colds, may be regarded se a prophylactric against consumption in any of its forms.

Dr. Schenek has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un faiting. Its philosophy requires no argument It is self-assuring, self-convicing.
