From Harper's Weekly.

The terocious abuse of General Grant by the Democratic press is an illustration of the real feeling of that party. It cannot forgive his victory of the rebellion. It hopes by a fog of slander to obscure the mational remembrance of his great and glorious service to the country. But the people of the United States know that the worst mistake of his administration is white as snow compared with the deeds of that nest of traitors and rebels, the last Democratic national administration. While the Democratic papers sneer at the Cabinet, whose personal character and efficient official service they cannot question, the peo-ple have not forgotten the last De-mocratic cabinet, in which Jere-miah S. Black, who declared that the Union could not lawfully be maintained by arms, was Secretary of State; and Howell Cobb, one of the chief rebel chiefs, was Secretary of the Treasury, plotting to destroy the national credit; and Jacob Thompson was Secretary of the Interior; and Isaac Toucey, who sent the national ships out of reach, was Secretary of the Navy; and John B. Floyd, who tried to transfer the national arms to rebels before the war began, who fied as a rebel Gen eral from Fort Donelson, and who died execrated by every honorable American, was Secretary of War.

That's why I'm here. I belong to a gang of twelve wot's working these parts just now. We crack cribs by turn. It's—it's my turn to-night."

The precious society of patriots was the last Cabinet which the Democratic party furnished to the country, and its head was James Buchanan, whose supporters now gibe at General Grant! James Buchanan was the faithful instrument of the slave masters, and when they raised their hands to destroy the Union and the government, that great Democratic states man under the advice of Jeremiah man, under the advice of Jeremiah Black, whimpered that they had no right to do so, but that the country had no right to help itself! These were the men whom the Democratic party and papers, which now abuse General Grant, called to power when they last carried a national election. And the party is not changed. As it was the organization by which slavery worked its will then, so it is that by which the Ku-Klux would work its will now. As it elected Vance to the Scuate from North Carolina, and Blair from Missouri, when he said that he would undo reconstruction by the army, so it would send Jefferson Davis from Mississippi, and Robert Toombs from Georgia, could it but

have a little more encouragement. The Democratic lattred of General Grant is the Ku-Klux hatred of TEXAS LUMBER, SHINGLES loyal men in the Southern States. He is the perpetual monument of the crushed rebellion. His presence Listen to me first. I ain't going to the crushed rebellion. in the White House is the constant hart you. It's my duty to crack assertion of supremacy of the Re your crib to night. Now, will you assertion of supremacy of the Republican principles of liberty, union and law. The same spirit which hissed at Lincoln as a gorilla and a despot, and at the Union soldiers as hirelings, denounced Grant in the field as a butcher and scolds.

L. PREUSS. est, it is well to reflect what party it is that utters it, and how its men and its services to the country compare with General Graut and what pare with General Graut and what party is natural that those who thought Robert E. Lee, a Christian, hero, and gentleman should think General Grant a butch er; that those who sheer at Long Aud he handed Old Reginald a MARCH STREET street as unfaithful to his cause, because, when conquered, he bonestly surrendered, should refuse to honor General Thomas, and that those who excused the horrors of Anderson will should make light of the Ku-Kiux Klan. This is all natural but is it to such a spirit that the government of the country can be safely intrusted?

Louisville, Ky., Sept. 1. I feel that we have now an article of gin suitable for such cases as that remedy is adapted to.

DR. J. W. BRIGHT.

"Schnappa" is a remedy in chronic catarrhal complaints, etc.:
I take great pleasure in bearing highly
creditable testimony to its efficacy as a
remedial agent in the discases for which
you recommend it. Having a natural tendency to the morrous surfaces, with a slight
degree of stimulation, I regard it as one
of the most important femedies in chronic
catarrhal affections, particularly those of
the genito-urinary apparatus. With much
respect, your obedient servant,
CHAS, A. LEAS, M. D., New York.

26 Pine Street, New York, Nov. 21, 1867.

— Cdolpho Wolfe, Esq., Present; Dear Str.
I have made a chemical examination of a
sample of your "Schiedam Schnupps"
with the intent of determining if any foretign or infurious substance had been added
to the simple distilled spirits.

— The examination has resulted in the conclusion that the nample contained no poisouous or harmful admixture. Have been
unable to discover any trace of the deleterious substances which are sometimes
simplayed in the adulteration of liquors.
I would not hesitate to use myself, nor to
recommend to others, for medical purposes,
the "Schiedam Schnappe" as an excallent
and unohjectionable variety of gin. Very
respectfully yours,
(Signed). CHAS, A. SEELT, Chemist.

Ayer's Hair Vigor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the glass and freshness of youth.
Thin hair is thick-

ened, falling bair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as semain can be saved for usefulness by this application. Instead of fouling the hair with a pasty redi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither eil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

The New York Tribune. T871.

Through struggle and suffering, at the coat of multiform agonics, beresvements, devastations, the American Idea embedded in the preamble to our fathers! Declaration of Independence approaches its complete realization. The woble, inspiring assertion that "all men are created equal," and endowed by their Creator with insilenable rights to life, liberty, and the pursuit of happiness, is no longer a glittering generality, a poet's fancy, a philosopher's speculation, but the recognized base of our political fabric. The benigh Revolution, which dates from the Boston Massacre of 1770, finds its logical completion, just one century later, in the Xvith Amendment, which gives to the equal political and civil rights of every man born or naturalized in our Republic the shield and defense of the Federal Constitution. The billows of Caste and Privilege may roar and rage around that rock, and may transiently seem on the point of washing it away; but its foundations are deep laid and steadfast, and the breakers of Reaction and Slavery are hurled against and dash their spray over it in vain.

We do not underrate the forces of Prejudice and Arist-cracy. We do not forget that a very large unisority of the American People still hold in their immost hearts that Blacks have no rights which Whites are bound to respect. We faily appreciate the desperation wherewith all the warring elements of hatted to Republican achievement will be combined and hurled against

the desperation wherewith all the warring slements of hatred to Republican achievement will be combined and hurled against the battlements of Republican ascendency in the Presidential Election of 1872. We do not doubt that local successes, facilitated by Republican feeds and dissensions, will inspire the contests and dissensions, will inspire the contests and successes facilitated by Republican feeds and dissensions, will inspire the contests of 1864 and 1888. Yet our faith is clear and strong that the American People still bless God that, on the red battle fields of our late Civil War, the Union was upheld and Slavery destroyed, and will never consciously decide that the precious bleed theseon poured out was lavished in valu.

The Therewar believes in the prosecution of the great struggle by legitimate

THE THESENE believes in the proscution of the great struggle by legitimate means to besencent ends. To State Sovereignty, it esposes indissoluble National Integrity; to Slavery for Blacks, Liberty for All; to Peoscription, Enfranchisement; to Popular Egoorance, Universal Education; to intensity and eternity of wrathful Hate, universal and invincible Good Will. trace or taket of that apirit which impelled Man to exult in the ownership and
chattelhood of his fellow Man.

Profoundly do we scalize that the contest is not yet ended—that Millions mourn,
more or less publicly, the downfait of the
slaveholders' Confederacy, and rear their
children to hate those by whose valor and
constancy its overthrow was achieved. If
we ever seem to differ essentially from other Republicans, our conviction that magnatimity is never weakness, that vengenanimity is never weakness, that venge-ance is never politic, and that devils are not cast out by Beelsebub, must serve to explain alleged coentricities, whose per-fect windication we leave to Time and

AD. ZOELLER. Anstin, March 16th, 1871.

State Police vs. Democracy.

The main issue between Republicanism and Democracy seems to be the same throughout the country. The desire on the part of Republicans to secure for every man, Peace and Protection; the desire on the part of Demicracy, by a spirit of intolerance and hatred, murderous hatred, shown, to gratify a fell spirit of proscription which they believe will give them the ascendancy. over white Republicans or colored men, by the terrors with which they will surround any and every one professing to be a National man, or a conservator of the peace,

This spirit of evil opposition to law, does hot exist perhaps, to so great an extent in Texas as in other States, the Carolinas for instance, or Tennessee, but still, what there is of it, is in a shape that should demand the pledging of every fair minded honest citizen to support every effort of the State Government to root what there is of it out.

First, because the Democratic platform adopted at Austin has, by its recommending of resistance to the State police law. encouraged the very desperadoes who had previously been driven to their holes, or were making themselves scarce, to return to their old habits, hopeful that the next political tilt in the State would give the party they adhere to-a party placing itself party they adhere to—a party placing itself by its platform in antagonism to a law in-auring peace and order,—the upper hand. Consequently the encouragement of Demorracy, while appearing with so dangerous a platform, is the de facto encouragement, and it is a platform, in the defect of the property of a platform, is the de facto encouragement of disorder and violence, that will bring us to the deplorable position of Tennessee or Carolina

Second, because Democratic exponents of its doctrines scruple not to cast abroad the most insidious doctrines of meeting laws that they, with their desperado element, do not like, with armed resistance. We assert this not carelessly, for we give the proof in the language of that vicious young scamp, Connor, and ask if such dangerous lan-guage should meet countenance at the hands of any good citizen. Speaking of the State police and Gov. Davis, he remarked at Houston, "If that man attempts to force apon me, his black Lazzaroni. I will meet them at the threshold as I would any other banditti, with my rifle."

This is the language of a man whom it Was been the misfortune of a portion of openly, armed resistance to a law passed by a two thirds vote of the representatives of the people of Texas. Surely, even the most rash of men, must hesitate, ere they ally the law. themselves to a party so dangerous in its teachings, so reckless of the sparks which it scatters abroad, to become perhaps, the kindling of a flame that would be queuched only in blood.

Third, because the cry of "armed violence" and secret political hatred to Republicans.

In reply to a note addressed to the Adju taut General, by Senator Parsons, the fol-

lowing statement was given.

There are organized bands of outlaws, not only in the county of Travis, but in many either counties in the State. 'In the vicinity of Webberville there exists as organization, headed by known desperadoes, who have stelen horses, fired into houses, murdered inoffensive citizens, and been guilty of almost every other known violation of law. These men have stopping places at the houses of some of the "respectable" citizens, in or near Webberville, and their whereabouts is well known to most of the inhabitants. On account of the sympathy of these parties, up to the present time it has been found impossible to seenre their arrest by the State police. lowing statement was given.

Every effort has been made to secure them; but the presence of the police in the vicini ty is immediately made known to them by the citizens, and they are thus placed on

In Williamson county a nearly similar state of affairs exists, as reported by the sheriff of that county, upon whose request for assistance a possee of police was dispatched to Georgetown yesterday.

Following this hurried statement comes the following day, one more complete, which we give at length, feeling that the aportance attaching to this subject warrants its taking up our space :

ADJUTANT GENERAL'S OFFICE, A STATE OF TEXAS, Austin, April 5, 1871. See. H. M. Parsons, Austin, Texas:
GENERAL—The limited time at my disposal prevented my communication of the 4th inst., from being as complete and comprehensive as I desire, and therefore I recut to the subject.

the inst. from being as complete and comprehensive as I desire, and therefore I recur to the subject.

My annual report embodies a record of the amount of crime committed up to and including the 31st December, 1870, by reference to which it will be seen that of the twenty-seven hundred and ninety criminals evading arrest, nine hundred and seventy-eight had been arrested and transferred to the civil anthorities up to that time. Since then to the first of April, the number of criminals at large has increased (by reports from sheriffs of different counties and other sources) to thirty-six hundred and sixty-four; twenty two hundred and seven ly seven have been arrested by the State police, leaving at large in the State at this date thirteen hundred and eighty-seven murderers, desperadoes, horse thieves and other classes of criminals.

In this latter number are comprised many desperadoes, the record of whose crimes is perfectly appalling, and whose continued freedom from the restraints imposed by law, is a shame upon the State. These men have cetablished a reputation for daring and disregard for law, which has overawed the communities in which they operate, and it is next to impossible to pro-

for daring and disregard for law, which has overawed the communities in which they operate, and it is next to impossible to procure information of their whereabouts, by which they might be captured, for this reason. In Bastrop and Travis counties a regularly organized band of horse thieves and murderers exist, whose operations extend to and include all the neighboring counties. It is even stated that this band

tend to and include all the neighboring counties. It is even stated that this band is so numerous as to be able to extend its operations from the, ited river to the Rio Grande, stealing horses in one locality and forwarding them by members of the band to another for sale. The members of this band have their headquarters within twenty miles of the capital of the State, and steal horses and murder with impunity, almost within hearing of the Legislature. It is difficult to conceive why it is that citizens of the infested localities should remain quiet while these offenses are being comquiet while these offenses are being com-nitted, unless they are intimidated, as be-fore stated. Within the past two months it is believed that at least two hundred horses have been stolen in the locality men-

tioned.

This state of affairs exists to a greater or less extent throughout the entire State. In one locality a gang of horse thieves was headed by a minister of the Gospel, who was in the habit of holding protracted meetings in certain localities. While the congregation was engaged in worship, at a given signal from the minister, the horse thieves would make a descent, steal all the horses, and be off before their presence was discovered.

There have been over fifty murders perpetrated in Texas since January, a portion of them in the following counties: Fort Bend, 2; Red River, 7; Brown, 1; Lavaca, 3; petrated in Texas since January, a portion of them in the following counties: Fort Bend, 2; Red River, 7; Brown, 1; Lawaea, 3; Dalias, 7; Bastrop, 6; San Augustine, 1; Wilsou, 1; Tyler, 1; Limestone, 1; Johnson, 1; Bowie, 1; Uvalde, 2; Kaufman, 1; Comanche, 1; Lamar, 4; Caldwell, 1; Hood, 1; Hays, 1; Travis, 3; as shown by the records of this office, and the number is being daily increased as reports are received. In Red River county three murders and one stabbing affray are reported in one day; and at nearly the same time a colored woman is being ravished, in the presence of her husband, and husband and wife both killed, in Burleson county, while, in town of Paris; a man's threat is cut in open day. From the citizens of Van Zandt, Fayette, Bastrop, Travis, Williamsou, Parker, Lampasse, and other counties, many letters have been received reporting the civil officers of the law utterly unable to preserve

ficers of the law utterly unable to preserve peace and order, and arrest the great num-ber of criminals infesting those localities, addition to their other duties.

In the short space or a letter it is in sible to give you an adequate idea of present extent of outlawry in Texas, al-though much has been done to repress dis-orders and arrest crime; and it is a matter of deep regret to myself that law-abiding citizens should fail to throw their influence in favor of the efforts made to pai down crime, simply because of political differ-ences and preferences.

I am, General, very respectfully, your obedient servant,

JAMES DAVIDSON, Adjutant General of Texas.

And still in face of the above facts, Dem-

ocracy incorporates in its platform, resolutions antagonistic to the maintaining of a

Lastly, is it not plain to the minds of the impartial and honest minded citizen that upon the State Police depends the internal peace of our State. Can it not be easily seen that the Kuklux horrors running their full length in other States, are prevented from precipitating themselves upon our State, by the State police! Paris, March, 6.—The funeral of the killed to day was an extraordinary scene. There were three huge hearses with black palls, and decorated with twelve red flags, containing the dead. Following them were 80,000 National Guards and double that number of citizens. Women were marching by hundreds past and along the Boolevards at a solemn pace. Many members of the Commune joined the procession. Thus far the grape vines give every indication of yielding superabundantly this year. By the by, we would like some gentlemau to take up, through the press, the subject of Wine Growing in Texas. The American wines of the Western States have some deservedly popular, and yet, we think Texas ought to improve upon them. We want practical, scientific men to take hold of the subject, and build up this new branch of remunerative industry: Who speaks fifst?

THE last financial exhibit of the Secretary of the Treasury shows a fednction, by payment of the principal of the national debt since March 1, 1869, of \$204,754,413, or a little over one hundred millions of dollars per annum. tions for their use, is quica ened into healthful vigor.

In this statement there is nothing presumptions. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenok's medicinuse is as simple as it is un failing. Its philosophy requires no argument It is self-assuring, self-convious.

The Swaweed Tonio and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the broachial tables "sympathise" with the stomach. They respond to the morbifi-action of the liver. How then comes the culminating sand, and the setting in, with all its distressing symptoms of

"Leave no Sting Behind," The work of cure is now beginning. The vittated and mucous deposits in the bow-le and to the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last, A Supply of Good Blood.

The Seaweed Toule, in conjunction with The Seaweed Touic, in conjunction with the Pills, permeates and assimilates with the food, Chylification is now progressing without its previous tortures. Digestion becomes painless and the cure is seen to be at hand. There is no more flattlemes, no exacerbation of the stomach. An appetite

exacerbation of the stomach. An appetite sets in.

Now comes the greatest Bland Purifier ever yet given by an indulgent father to suffering man. Schench's Pulmonic syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be chested. It collects and ripens the impaired and diseased portions of the lines. In the form of gatherings, it prepares them for expectoration, and lo lin a very about time the malady is vanquished, the rotten throme that it coupsed is removated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was.

Given up as Lost. The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all arring. Physicians who iscommend that course loss their patients, if their lungs are badly diseased, and yet, because they are in the house they must not nit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain. The second thing is, the patients must stay the great point to gain.

To despair of gure after such evidence of

its possibility in the worst cases, and moral cartainty in all others, is sirful. Dr. Schenck's personal statement to be Faculty of his own cure was in these modest words:

Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; them, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to ma that I could feel them penetrate my whole system. They soon ripes. etrate my whole system. They soon ripeu-ed the matter in my lungs, and I would spit up more than a plat of offensive yellow matter every morning for a long time. As soon as that began to subside my cough, fever, pain and night sweats all be
