To wash from off her foot the clinging sand,
And tell the tired boy of that bright land
Where, this long journey passed, they
longed to dwell.

When lo! the Lord, who many mansions Drew near and looked upon the suffering Then pitying spake, "Give me the little In strongth renewed and glorious beauty I'll bring him with me when I come ogain."

"Nay, but the woes I feel he too musshare."

Or, rather, bursting into grateful song,
She went her way rejoicing, and made To struggle en, since he was freed from

You, who are thus situated, are proffered an absolute safe-guard against the danger that menaces you. Tone and regulate the system with this harmless me. disinal stimulant and alterative, and you will be forearmed against the maladies whose seeds float around you in the air unseen. Hostetter's Stomach Bitters are not only a standard tonic and alterative throughout the United States, but they are accredited by the certificates of the most distinguished citizens of the Uniou. to the people of all other lands. In Canada, Australia, and the West Indies, they are gradually taking the place of all other stomachics, whether native or foreign, and as eurely as truth is progressive and demonstration overthrows doubt, they will eventually supersede every other invigorant and restorative new employed in medicinal practice.

THE Hou. Secretary of State has returned to Austin, after having performed satisfac-torily, the duties with which he was charge ed, and having saved the State many thou sands of dollars. The Journal says:

from the New York Tribune, shows his pubitic labors in a very satisfactory and creditable light:

"Through the active efforts of the Hon. J.
P. Newsomb, Secretary of State, and of Gen W. T. Clark, ex-Representative, the State of Texas has just concluded a sale of her Agricultural College acrip to G. F. Lewis, of Cleveland, Ohio. The sale embraced 180,000 acres, and the price obtained was \$158,000, the highest price yet paid to any State, being three cents an acre more than New York received, through Mr. Cornell's efforts. Mr. Lewis has purchased the scripiasued to seventeen States, and it amounts to more than 7,000,000 acres. Under the law passed last July, this college acrip is receivable in payment for pre-emption settlements. The Texas mie is for cash, an advantage few of the States secured. Nearly the whole of the South Carolina college acrip was sold at \$135 for each 160 acres.—The State officers are reported to have made tearns to the amount of only 79; cents per acre. In locating this scrip not more than three section can be taken by any one person in the same township, thus cutting off its see by speculators to any great extent."

Senator Morton, the ablest man to-day in the national councils, followed him with a telling speech. The great issues of the hour be forced home upon Democracy. The Southern Democracy will never vote taxes and appropriations to pay the national debt unless they are paid for their slaves. The Northern Democracy who are committed by endless resolutions, and years of declamation to the position that | dred Reds. slavery was wrongfully and unconstitutionally abelished, would sustain them. It would be easier to assume the payment of slaves than to repudiate the national debt for the reason that the payment must come principally from the North, and they (Demperats) are to be much more benefitted by the payment for slaves than by exemption from debt.

It is improbable to suppose that the Southern Democracy when placed in power would voluntarily tax themselves to pay the debt, which had been created for their subjugition, while all they had invested in the Confederate debt was lost, together with their slaves. That they will, in that case, make payment for their slaves, a condition upon which the national debt shall be paid, no one can doubt.

It may be said, however, that the Democrasic party in the North will never con-sent to this. My answer is that they will consent, where they find they can hold power on no other terms ;-basides, it will only be consenting to the practical applies tion of what they advocated all the time. If they were in earnest, when they declared that slavery was ablofished without authority of law and without any public necessity, and that it was most unjust toward owners of slaves, how can they, when in those slaves !

The Southern question will be the great issue of 1872, dwarfing into insignicfiance every other. No merely economical question can diother. No merely economical question on diride public attention with it. Shall Reconstruction be maintained? Shall colored people

Shall Republicans of the Southern States be

BURNETT had, on Wednesday night, one of the fullest houses we have ever seen in of the firm declined, saying that San Antonio, and he proved himself fully equal to the occasion; the feature of the great novelist's works without any evening's entertainment was, in our estimation, the recital of Samuel Lovers poem of Shamns O'Brien, which was rendered in fine style, and called forth tremendous applause. Last night was the last of his stay with our people, and the entertainment was given for the benefit of the Alamo Literary

OUR former fellow townsman, and accomplished gentleman, G. F. Weisselberg, has addressed a memorial to the Legislature in relation to the management, condition, and so forth, of the State Lunatic Asylum, which has the stamp of practicability of ideas, and is assurance that the Doctor means work, and work of the best kind. We sincerely trust his endeavors to ameliorate and improve the condition of his patients, may meet with able seconding from the Legislalure, and be thoroughly and successfully OF THE STOCKHOLDERS OF carried out.

THROUGH the courtesy of our Post commander, we have been allowed to peruse the report of Lieut: Jewest, of the Tenth Infantry, who, it will be remembered, left here on the first of April, to scout through the country in search of Indians. The Lieutenant and his scouting party returned yesterday. Notwithstanding the many reports of Indians seen in, and around the ranch of Mrs. Kendall, above Boscue, no defigite information regarding them, was to be had, save that a daughter of that lady had seen, what she shought was an Indian, skulking 150 WAGONS WANTED around the neighborhood, and two negro children, aged six and eight years, respectively, said they saw an Indian about four hundred yards from the place. Strict search, careful scouting, &c., falled to find any In-

dians in that neighborhood, so on the 4th, the party started over the mountains, and on application by the State police, assisted them in scouring the country, and keeping careful watch upon Bandera pass.

This lasted until the 10th, when the Po-

ice left for home, and the Lieutenant hearng nathing further of Indians, and being unable to find a single person who had seen any, returned, and reported as above.

We hope this scout, sent out at the full of the moon, is but the first of a series, that will fellow at least once a month, for we believe some of these days they will in this way, catch Mr. Lo at his tricks, and give him a dose of lead that will make him a little top heavy, so much so, that his scalp will have to some off to keep up the proper balance.

A goop and charitable deed. We have come in possession of the facts in a case that go far to show the happy principles upon which our friend Dr. McCreary works, and the self satisfaction he is able to draw from his own good deeds. On his trip to San Antonio from Indianola, it was his good fortune to stumble across a German who was lying badly wounded at a station 40 or 50 miles from here, and who was suffering acutely for want of medical attendance Inquiring into the particulars of the case the Doctor learned that he had been shot and was unknown in that community, and without money or means to reach San Antonio, as the stage driver refused him trans-

portation without the money down.

Without hesitation, the Doctor had him comfortably fixed up, advanced all money for such purposes, and came on here feeling of course, the same pleasureable sensation that the good Samaritan always feels in such cases. The German was profuse in his thanks, and took the Doctor's name and address, and the probable pince of his stoppage in San Antonio, and a morning or two since, the Doctor was approached by Mr. Steinecke, at Menger Hotel, and handed the full amount advanced, with renewed expressions of gratitude from the unknown, Accompanying this return of the loan and expression of thanks for the favor, came the opinion (as advanced by the physician) that a few hours further delay would have caused a loss of the wounded limb, by mortification, and perhaps of the sufferer's life. So the seed of charity sown by our pleasan friend, was the means of saving a life, averting sorrow from the relatives and friends of the wounded man, and above all, instrumental in showing up (unwittingly) the Doctor in his true light, of a good man of broad heart, and blessed with the highest of gifts—true Samaritanism. May his kindly and generous nature bring him yet many, many years of happy life.
