Ayer's Hair Vigor

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Fed or gray hair is soon restored to its original color, with the gloss and freshness of youth.

This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be secured for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. It is wanted merely for a

HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

### Consumption,

Its Cure and its Preventive,  
By J. H. Schenck, M. D.

Many a human being has passed away, for whose death some other reason than the neglect of known and indisputably proven means of cure. These near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. Joseph H. Schenck's simple Treatment,

and availed themselves of his wonderful effusions medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unerring. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the chords of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver, and then comes the culminating result, and the setting in, with all its distressing symptoms of

### Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they

"Leave Nothing Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

### A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, purifies and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

### Given up as Lost.

The second thing is, the patients must stay in a warm room until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this season of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet in their own walk about the room as much and as fast as the strength will bear. To get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility is the worst error, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats, all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continues to see patients at their offices. No. 15 North Sixth Street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; first create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer; good blood at once follows. The cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

The great field trials at Sedalia, Mo., and  
 at Xenia, Ohio, in the Summer of 1869—  
 where "The Clipper" met some 40 competi-  
 tors including all the leading machines  
 built, and was awarded the First Premiums  
 and Gold Medal—proves that the proprietors  
 have been able to sustain in the field their  
 claims of superiority for The Clipper Machine  
 over all others. Its extraordinary lightness  
 of draft takes one-third of the labor of the  
 team. The adjustability of the finger-bar,  
 is cut high or low without stopping the team  
 is worth \$25 in any machine. It is the only  
 mow that has the iron center draft in ac-  
 cordance with correct mechanical principles.  
 In short, it is the lightest, the most durable,  
 the least complicated, the most perfectly  
 constructed, the most economical in design,  
 of any implement of its class. Farmers  
 who are the "Horse's Friend," and who  
 desire to do the most for their welfare. Send  
 for pamphlet—investigate. See or write to  
 some one who has used the CLIPPER. See  
 the Machine yourself before you buy any  
 other.
