A Vast Immigration Scheme.

The passage of the Southern Pacific railroad bill has given a great impetus to the development of the Southwest, the effect of which is already to be seen in the imanguration of new enterprises, having that region for the scene of their operations. We have just heard of one which promises vast results for Texas. An immigration society has been organized, partly in this country and partly in Germany, with a very large capital, embracing among its members men of reputation for business enterprise and fluancial wisdom, and of means adequate to the comprehensiveness of their undertaking. This society propose nothing less than the settlement of whole districts with immigrants from abroad. To facilitate their scheme, they also propose starting a regular line of steamships from some European port to Galveston, to make monthly trips at first, which are to be increased to weekly ones as soon as the business justifies it. Two of the agents of the society, Mr. Geo. G. White and Gen. John T. Crexton, passed through the city last night on their way to Texas. For the purpose of making the 3rs. G. White and Gen. John T. Crexton, passed through the city last night on their way to Texas, for the purpose of making the first entries of land for the company. We are not informed as to what portion of the State their attention will be first directed, but understand that their wish is, if suitable hand in sufficient quantities and underfavorable conditions can be obtained in Texas, to make all the entries in that State. Louisville is greatly interescented in the Lonisville is greatly interesested in the rapid development of Texas, and we will watch the progress of this vast enterprise withgreat interest.—Lonisville Commercial.

The elder Booth, or "Richard III, Booth," as he was not improperly designated, was at times the victim of strange fancies. He had as many peculiarities in his way as Horace Greeley. At a certain time Booth took the fancy to be an absolute vegetarian. During the excess of this feeling be was traveling on a western river steamboat, and happened to be pinced at a table opposite a solemn, straight faced Quaker, who was singularly attracted by the spiendid appearance and eloquent conversation of the greater actor. The benevolent old Quaker, observing the lack of viands in Booth's plate, kindly said:

"Friend ahall I not help thee to the breast of this chicken ?"

The Parisian Revolution.

Nearly eighty years have elapsed since the guillotine was the tutelar goddess of the French capital, and fish wives and their male associates danced the Carmagnole in its streets. In that period the archi-tectural beauties of Paris have been increased, and the artisan of 1871 may not be as ignorant as his grandtather, but the atrocities mentioned in our cable telegrams show that the citizen of to-day has inherited the malignity of his ancestor of '98.

Something more is required than replied that he was doing what he the veneering process by which mo-dern civilization has sought to conceal the depravities of the past. When in 1789.94 the French people got the upper hand of their oppressors, their excesses shocked even English liberals into timid conservatism. The fearfulness of the public's wrongs was forgotten in the horror which its brutal vengeance inspired. Later critics have been more indulgent, and have treated the First Revolution as a social hurricane, frightful in its first effects, but essential to the purification of the political atmosphere. There is much of truth in this conclusion, but the purifying results have not been as marked as many would suppose. At all events, the storm has left behind its passions, its cruelty, and its bitter hatred of all that is religious and venerable, the direful results of which are even

now working. Careful observers have pronouuced Paris a whited sepulcher, but few have believed that it could again become a den of wild beasts. From present appearances, unless the Thiers government, assisted by Prussia is not strong enough by itself, crushes the anarchists with an iron hand, the reign of the guillo-tine will soon be resumed, and de capitation be the sure penalty of being well to do in purse or morals. -Cincinnati Gazette.

ONE of the marvellous results of the telegraph was recently shown in the transmission of a dispatch to Kurranchee in India, via Tcheran, to London in fifty minutes. Old Mother Earth lumbered around ou her own axle, as the georgraphy says, at the rate of four hours and twenty-six minutes in making the same distance, and the result was that the dispatch, which left Kurrachee on Friday morning at 12:43 A. What is it!

Many, many people suffer from they know not what. They are not sick-they are not well. There is no name for it. It is simply weakness - a breaking down of the vital forces. Whatever its causes, (and they are innumerable), its symptoms are they are innemerable), its symptoms are in the main the same. Among the most prominent are extreme lassitade, loss of appetite, loss of flesh, and great mental depression. Indigestion and a stomach cough are also frequently concomitants of this distressing state of body and of mind. The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunates really want is vigor, rital strength; and, as certainly as dawn succeeds darkness, they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear Celebrated Stomach Bitters. It is as clear that a life-reviving tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived with a new supply of oil. Perfectly pure and inocnous, containing nothing but the most genial vegetable extracts, and combining the three grand elements of a stomachie, an alterative, and a genial invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once sgreeable, bealthy, and effectual for preserving the bair. Faded or gray hair is soon restored to its original color. with the gloss and freshness of youth. Thin bair is

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the bair where the follicles are destroyed, or the glands atrophied and decayed.
But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair-from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

Through struggle and suffering, at the cost of multiform agencies, beteaven onto revestations, the American Idea embodied in the preamble to our fathers' Declaration of Independence appressive its competer realization. The mode, implified assertion that "all most are created equal," and endowed by fheir Creator with insilenable rights to life, liferty, and the pursuit of happiness, is no longer a glittering generality, a poet's fancy, a philosopher's speculation, but the recognized hase of our political fabric. The benign Revolution, which dates from the Borton Massacre of 1770 finds its logical comulation, instance. which dates from the Borton Massacre of 1770, finds its logical completion, just one century later, in the XVth Amendment, which gives to the equal political and civil rights of every man born or naturalized in our Republic the shield and defense of the Federal Constitution. The billows of Caste and Privilege may roar and rage around that rock, and may transiently seem on the point of washing it away; but its foundations are deep laid and steadfast, and the breakers of Reaction and Slavery are hurled against and dash their spray over it in vain.

and Slavery are hurled against and dash their spray over it in vain.

We do not anderrate the forces of Prejudice and Arissecracy. We do not forget that a very large minority of the American People still hold in their inmost hearts that Blacks have no rights which Whites are bound to respect. We fully appreciate the desperation wherewith all the warring elements of hatred to Republican achievement will be combined and hurled against the battlements of Republican ascendency in the Presidential Election of 1872. We do not doubt that local successes, facilitado not doubt that local successes, facilita-ted by Republican fends and dissensions ted by Republican feuds and dissensions, will inspire the charging host with a sanguine hope of victory, such as nerved it to put forth its utmost strength in the earlier stages of the contests of 1864 and 1868. Yet our faith is clear and strong that the American People still bless God that, on the red battle fields of our late Civil War, the Union was upheld and Slavery destroyed, and will never consciously decide that the prectous blood thereon poured out was lavished in vain. THE TRIBUNE believes in the prosecu

THE TRIBUNE believes in the prosecution of the great struggle by legitimate means to beneficent ends. To State Sovereignty, it opposes indissoluble National Integrity; to Slavery for Blacks, Liberty for All; to Proscription, Enfranchisement; to Popular Ignorance, Universal Education; to intensity and eternity of wrathful Hats, universal and invincible Good Will. It would fain do its utmost to hasten the glad day when the South shall vice with the North in exultation and grati-tude over the disappearance of the last trace or taint of that spirit which impelled dan to exult in the ownership and chattelhood of his fellow Man.

chattelhood of his fellow Man.

Profoundly do we realize that the contest is not yet ended—that Millions mourn, more or less publicly, the dowrfall of the slaveholders Confederacy, and rear Their children to hate those by whose valor and constancy its overthrow was achieved. If we ever seem to differ essentially from other Republicans, our conviction that magnanimity is never weakness, that venge ance is never politic, and that devils are not east out by Beelzebub, must serve to explain alleged eccentricities whose perfect viadication we leave to Time and Reflection.

THE THRUNK has been, is, and must be, a zealous advocate of Protection to Home Industry. Regarding habitual idleness as the greatest foe to human progress, the bane of human happiness, we seek to win our countrymen in masses from the ensuaring lures of Speculation, of Traffic, and of always overcrowded Professions, to the tranquil paths of Productive Industry. We would gladly deplete our overcrowded cities, where thousands vainly jostle and crowd in misguided quest of "Something to Do," to cover prairies and plains with colonies absorbed in Agriculture, Mechanics and Manufactures, and constantly projecting into the blank, void THE TRIBUNK has been, is, and must be, one and constantly projecting into the blank, void wilderness the homes and the works of civilized Man. The Campaign of '72.

OPENING SPENCH OF SENATOR MORTON.

On the evening of the 8th of this mouth the Indiana Republican Association at Washington, and other Republicans, united in giving Senator Morton a serenade, at the National Hotel, in that city. The President and Vice President of the United tates appeared upon the balcony at eight oclock, with that distinguished Senator, and all three were received with great ensissm and loud cheers.

A series of resolutions were read, pledging fealty to, and confidence in the integrity of the Republican party; deprecating any attempt to disunite the organization; expressing hearty and sincere approval of the course and policy that have marked the administration of the general government during the past two years; recognizing in President Grant one who has provd himself true to his promises to the peo ple and to the great principles of the Republican party, and thanking Senator Mor on for his devotion to Republican principles. At the close of the reading, Senator Morton stepped forward and was introduced to the audience by Gen. Shanks. We append his speech in full, and earn

estly invite its perusal. It is logical, searching, and a complete expose of the Democratic position. We may fairly say, that this speech is the opening of the campaign of 72, and as State after State puts forth its Republican strength in reorganisation of the party that has a second rebellion before it to crush with the ballot, it will be found that the party is marching to the glorious music, of which this masterly effort of Senator Morton's, is the key

FRILOW-CITIZENS—I should be quite insensible if I was not touched by the kind words of my friend, Gen. Shanks. To my Indiana frienths who have tendered me the compliment of this serenade I am thankful. Whether it is theoffering of personal friendship or an approval of my political course, it is equally gratifying. We are bound together not only in our political sentiments, but in love and admiration for that great and presperous commonwealth which did to duty in the late war under difficulties that were speculiar, and not altogether known to the rest of the country. We are rapidly approaching rapidly approaching

House for action, and, as it is a listle more energetic and prompt in such matters, we can flatter ourselves that it will be but a short time now, before a practical system of immigration will be at work, and our country filling up and rapidly advancing under it.

We have not as yet seen the bill as passed, but hear it commended through the Austin Journal; and as practical, deepfaliking men are at the head of that paper, we are willing to take their testimouy in Rs favor.

With the passege of the two bills, the fiducational bill and the Immigration bill, we feel greatly pleased. All other matters sink into insignificance with us, in comparison with these two great principles of advances in the southern States. They are not—not the Squthern States are members of the democratic party in the Southern States, and it cannot carry all the Squthern States expected by establishing in them a reign of terror, the effect of which, it hopes, will be to drive the republicans into silence, submission or exile. The great instrumentality which is being graployed to create this reign of terror, and effect this purpose, is commonly called the Ku Klux organization. I will not say that all democrates are members of that organization in the Squthern States.

ALL EU KLUX ARE DEMOCRATS: that it is an organization inside of the democratic party in the Southern States, and

that it is an organization inside of the democratic party in the Southern States, and that it is the great missionary society by which those States are to be converted to democracy, if they are converted at all.—The instruments by which that organization works are muriler, borture, arose, perjury, and, in fact, nearly all the crimes on the calendar. The attention of the nation has recently been called to the existence and operation of this organization, not only by the report of a special committee in the Senate, but by the message of the President of the United States, and the evidence has accumulated from every source, and it is State cannot refrogress.

The sattention of the pation and operation of this organization, not only been earlied to the existence of the United States, and the evidence has the other between organization in the evidence has to the United States, and the evidence has to the United States, and the evidence has provisions of their lands; it there sections to one, three, five or twenty, acres, just as the owner pleases, but but the subdivision be made, and the property owners will find remaneration, while the immigrants, property owners will find remaneration, while the immigrant will find a home, and, acres ready for his labors, and will control it in the scrope, the every has a made acres ready for his labors, and will be compary will be sometry and the control of the control of the party can only succeed by the green of the party can only succeed by the green of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party, and will, as a material of the control of the party can obtain a province of the party can obtain the proposed of the party can obtain the party can obtain the proposed of the party can obtain the proposed of the party can obtain the proposed of the party

while the immigrant will find a home, and acres ready for his labors, and the country will be so much richer in the increase of crops, the extended population, and the advanced value of lands.

slavery is unconstitutionally abelished, and slavery is unconstitutionally abolished, and if it is brought into power it cannot avoid making payment for those slaves. The sentiments of the mass of the democratic party in the work are all inclined to wards this result, and I am inclined to think that the large body of the democracy would consent to pay the South for their slaves with more cheerfulness than they would consent to pay the national debt. This, then, would be the second result of the triumph of the democratic party, paying the South for their slaves and adding two thousand millions to the national debt. Now,my friends, what will be the third result! It will be THE DISENPHARCHISEMENTOPTHE COLORED PEOPLE and taking from them the right of PEOPLE and taking from them the right of suffrage. When these Southern States pass into the hands of the democratic party; and when the national government passes into the hands of that party, they will be able to disenfranchise the colored man in sixty days. It would be attempted now by some of the Southern States, if it were not the restraining, presence of a Republican President, the fact that the national government is in the hands of the republican party. But, if the State governments and the national government shall passinto their hands, they, having all the arms down there, having the military appairance would there, having the military experience, would drive the colored men from the polls or compel them to vote their own disenfran-chisement, and stripping. compel them to vote their own-discufran-chisement, and stripping the colored peo-ple of all their rights and reducing them, if not to slavery, to the condition of serf-dom, would be the third result of having the democratic party in power. Now, my friends, what are the issues that we are called upon to try in 1872 † Is reconstruc-tion to be maintained † It was said in the Senate, no longer ago than last Monday. enate, no longer ago than last Mo Senate, no longer ago than last Menday, that the reconstruction laws were of no more virtue than if passed by a mob or a town meeting. Shall the constitutional amendments be abolished? It was said in the Senate the same day that these amendments were fraudulent.

The democratic party nowhere has accepted them. In no convention, by no resolution, by no concentration of sentiment in any State of this nation, have they accepted these amendments. But on the concepted these amendments.

in any State of this nation, have they accepted these amendments. But on the contrary, with the exception here and there of a newspaper, like the New York World, that is wiser than most of its friends, they are committed in implacable hostility to each and every one of the amendments. The next issue is, shall the colored people be maintained in the enjoyment of equal political rights? Of that I have already spoken. The democratic party, North and South, are committed unequivocally and inexorably against civil rights to the colored people, and that is the question perhaps more than all others that will be at issue during the coming campaign. The next inore than all others that will be at issue during the coming campaign. The next issue will be, shall the republicans of the South live in peace? Shall they be protected in life, liberty and property in the Southern States? With the republicans of the South that is the great, all-absorbing question to-day. They are struggling for life, struggling for the mere privilege of living and enjoying their property. There will be no other great leading issues in the next election. The democratic party say that they are opposed to national banks. that they are opposed to national banks, but they dare not say that they are in favor of restoring the old State banks. They clamor in favor of free trade, yet they dare not say that they are in favor of raising the money necessary to carry on the government by direct taxation. Direct taxes have ment by direct taxation. Direct taxes have to be apportioned among the several States under the constitution according to the population, not according to their wealth, and in directing the taxes the States of the Northwest, having large populations and little wealth, would pay large taxes, while the States of the East, having greater wealth and less population, would pay wealth and less population, would pay smaller taxes. The democratic party dare not submit to the contry the question of

not submit to the contry the question of direct taxation.

They clamor about free trade and talk about repealing all taxes and relieving the people of the burdens of taxation, presuming that the people have not intelligence enough to inquire how the money shall be raised to carry on the government. It regard to the tariff, the democratic party has no respectable position whatever. In the State of Maine they ore in favor of the highest duty on coal, which is the most obnoxious duty; on the statute book. In

friends, his administration cannot be broken down.

The Indian policy that has been inaugurated, and which is especially the work of President Grant, is enough to immortalize half a dozen administrations. He has adopted the simple policy of peace, kindness, a good will and integrity in dealing with the Indians, which was first inaugurated on this Continent by William Penn, and it has already produced the most salutary results; and I believe I am justified to-night in making the statement that at no time in the past, within a period of a hundred years, have we been so much at peace with the Indian tribes upon this Continent as we are at present. If you will review the history of our country in connection with the Indian tribes I believe you will be able to bear witness to the accuracy of this statement.

you will be able to bear witness to the accuracy of this statement.

The Policy of the President is a policy of peace. His paths are paths of peace. While he was endeavoring to preserve the peace between two neighboring republics he was arraigned as a criminal. But he has recently been acquitted at the bar of public opinion. (Cheers.) Those who have tried to impeach him of high crimes and misdemeanors have impeached themselves of supreme folly. Some two or three weeks ago we were beaten in New Hampshire. After the result of that election the democracy took great courage. They said it was an evidence of reaction, an avidence that the Republican party was dying, and that the democracy were coming into power. But it was evidence of no such thing. The truth is, the result of the New Hampshire election was owing to local guaract to local dissersions and of no such thing. The truth is, the result of the New Hampshire election was owing to local causes, to local dissensions and quarrels, and to apathy brought about by long success—that indifference which is so aften attendant upon continued triumph. In that defeat there was no element of degeneracy on the part of the republican party. But we have had another election. It was in Connecticut. You have doubtless heard of that. We did not count very much on carrying Connecticut. It was hardly our year to carry it. The elections in Connecticut have been vary close for several years, but at the last election the republicans were determined simply for several years, but at the last election the republicans were determined simply to show that the democracy were reckoning without their host and that the people of this country do not intend to put this geverument into the hands of the party that was so nearly ruining the republic. We have triumphed in Connecticut, and the elections in other States show that the republican party, so far from being in a decaying or dving condition, is full of lusty life, and will achieve a grand victory in 1872. (Applause and cries of "that's in 1872. (Applause and cries of "that's so.") Last year we lost Indiana by a in 1872. (Applause and cries of that's so.") Last year we lost Indians by a small majority—the vote was nearly forty thousand short. The defeat was the result of local causes, difficulties growing out of State questions and was in no wise connected with national politics. But that will not happen again in Indians. If we had an election there to-morrow I believe we could carry the State by about ten thousand majority—(applause)—and ten thousand majority—(applause)—and in 1872 the State of Indiana will show that she has not forgotten the services of her illustrious soldiers; that she has not for-gotten the principles of the great party which alone can save this country, and she will also show that she has not for-gotten the hero who led our armies on to victory.

Indian Hostilities.

It is probably known to most of our read-

said, to go and see what kind of a gintleman he was. The agent advised him to bury. Price \$2,50. hours, often coming within forty yards of the stages. Each of the escorts fired about fifty rounds, and the agent did good work. It is believed five or six Indians were killed and several wounded. Several of their horses also were killed and others wounded, while, strange to say, the party with the stages only suffered by a slight wound in the ankle of one of the escorts, and by having their garments pierced by many bullets and arrows Observing the Indians lighting signal fires, they hitched the mules to the stages and drove rapidly for the nearest station towards Concho, followed for a long way by one of the Indians. They all had a narrow escape, nad the incident shows the danger which continually besets travelers, from the marauding, horse-stealing bands of Indians.

It appears they had gathered some forty or fifty horses and mules, bosides what they rode, and were doubtless from the reservation.

The above particulars have been derived brough two of the persons engaged and an be relied upon as correct.

PENMANSHIP.

The undersigned teaches Penmanship by a new method. The old method of placing a pen in the hands of a beginner, according to set rules, is entirely done away with. Good penmen can learn something by this method. Those whe wish to improve their handwriting—either fancy or ornamental—would do well to call. Many persons who regret their inability to write well, will find full information at Braden's hotel, of the undersigned.

Residing at the fountain-head of American enterprise, and knowing the interests of the tailoring business from many years 'experience, we most unhesitatingly pronounce the Shuttlestitch, last invented sewing machine of Grover & Baker, one of the best machines—If not the very best—in the world for tailors' use, or for the use of any trade fequiring a tight seam in cloth or leather.

We have used the Grover & Baker Shuttle Machine No. 1, and find it admirably adapted to our business. It runs lighter, makes less noise, and is in every way preferable to the Singer machine for either light or heavy manufacturing.

Manufacturer of Clothing, No. 340 Broadway, New York.

Having used the different kinds of Sewing Machines in the market, including Leavitt's Singer's and Howe's, have finally adopted your No. 1 Grover & Baker Machine; and having need it the past two years, can truthfully say it preves to be the Best machine, and superior to any we have used.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofilious disease, where the system seemed saturated with eined saturated with gruption, have been griffed and cured by it, refulous affections and

they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrothlous poison is one of the most destructive essenties of our race. Often this unseen and infelt tenant of the organism undermines the confliction, and invites the attack of enfeebling or fix diseases, without exciting a surpheton of its resence. Again, it seems to breed infection roughout the body, and then, on some favorable deous forms. presence. Again, it seems to breed. Mrection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its nideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the large or heart, or fumors formed in the layer, or it shows its presence by eraptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Suran partides is advisable, even when me active symptoms of disease appear. Fersons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA? St. Anthony's Ever. Rose or Evystylents, Tetter, Sait Medien, Scald Head, Ringworm, Sore Eyes, Sore Eure, and other coupling or visible forms of Serequious disease. the various Freewas and Mercurial Dieseard nor you systems. Suphilits or I energed and Mercurial Dieseases are cured by it, though a long time is required for subduing these obstinate malacites by any medicine. But long-continued use of this medicine will cure the complaint. Lescowy Assa or Whites, Uterine Clevrations, and Francis Diseases, are commonly soon relieved and ultimately cured by its parifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. Rhesswarism and Gossi, when canced by accumulations of extraneous matters in the thood, yield quickly to it. traneous matters in the blood, yield quickly, to it, as also Liver Complaints. Torpidity, Congestion or Influenmation of the Liver, and Jaundies, when arising, as they often do, from the rankling poisons in the blood. This \$8.48.84.PARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Nicepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Heakesses, will find immediate relief and convincing evidence of its restorative power upon trial.

that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quiexened into health-

made no representation that is not a thous-and times substantiated by living and visi-ble works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un failing. Its philosophy requires no argu-ment It is self-assuring, self-convicing.

The Seaweed Tonic and Mandrake Pills

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate. In dyspensis and a functionally disordered lives. With this condition the brouchial tubes "aymosthize" with the stomach. They respond to the morbific action of the lives. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

"Leave no Sting Behind," The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food, Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite

sets in. New comes the greatest Bleed Purifies ever yet given by an indulgent father to suf-fering man. Schenck's Pulmonic syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impair. ad and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it command is becaused. that it occupied is renovated and made now, and the patient, in all the dignity of regained vigor, steps forth to enjoy the man-nood or wemanhood that was.

Given up as Lost.

The second thing is, the patients must stay Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wring. Physicians who is commend that course lose their patients, if their lungs are hadly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast we the strength will bear, to get up a good circulation of blood. The patient must keepin good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
