Through struggle and suffering, at the cost of multiform agonies, bereavements, privations, the American idea embodied in the preamble to our illustrious Declaration of Independence approaches its complete realization. The nobler, inspiring assertion that "all men are created equal," and endowed by their Creator with inalienable rights to life, liberty, and the pursuit of happiness, is no longer a glittering generality, but the recognized base of our political fabric. The benign Revolution, which dates from the Boston Massacre of 1770, finds its logical completion, just one century later, in the XXth Amendment, which gives to the equal political and civil rights of every man born or naturalized in our Republic the shield and defense of the Federal Constitution. The billows of Caste and Privilege may roar and rage around that rock, and may transiently seem on the point of washing it away; but its foundations are deep "aid and steadfast, and the breakers of Reaction and Slavery are hurled against and dash their spray on it in vain.

We do not underrate the forces of Prejudice and Aristocracy. We do not forget that a very large minority of the American People still hold in their inmost hearts that Blacks have no rights which Whites are bound to respect. We fully appreciate the desperation wherewith all the warring elements of hatred to Republican achievement will be combined and hurled against the battlements of Republican ascendancy in the Presidential Election of 1872. We do not doubt that local success, facilitated by Republican feuds and dissensions, will inspire the charging host with a sanguine hope of victory, such as served it to put forth its utmost strength in the earlier stages of the contests of 1864 and 1868. Yet our faith is clear and strong that the American People still bless God that, on the red battle fields of our late Civil War, the Union was upheld and Slavery destroyed, and will never consciously decide that the precious blood thereon poured out was lavished in vain.

The Tribune believes in the prosecution of the great struggle by legitimate means to beneficent ends. To State Sovereignty, it opposes individual National Integrity to Slavery for Blacks, Liberty for All; to Prescription, Entranchisement; to Popular Ignorance, Universal Education; to intensity and eternity of wrathful hate, universal and invincible Good Will. It would fain do its utmost to hasten the glad day when the South shall vibrate with the North in exultation and gratitude over the disappearance of the last trace of that which impelled the owners and chattel of his fellow Man.

Profoundly do we realize that the contest is not yet ended—that millions mourn, more or less publicly, the downfall of the slaveholders' Confederacy, and rear their children to hate those by whose valor and constancy its overthrow was achieved. If we ever seem to differ essentially from orthodox Republicans, our conviction that magnanimity is never weaker, that vengeance is never politic, and that devil is not cast out by Beelzebub, must serve to explain alleged eccentricities whose perfect vindication we leave to Time and Reflection.

The Tribune has been, and must be, a zealous advocate of Protection to Home Industry. Regarding habitual idleness as the greatest foe to human progress, the basis of human happiness, we seek to win our countrymen in masses from the ensnaring lures of Speculation, of Trade, and of always overworked Professions, to the tranquil paths of Productive Industry. We would gladly deplore our overcrowded cities, where thousands vainly jostle and crowd in misguided quest of something to do, to cover prairies and plains with colonies absorbed in Agriculture, Mechanic and Manufactures, and constantly projecting into the blank void wilderness the homes and the works of civilized Man. Holding the Protection of Home Industry by discriminating duties on imported Wares and Fabrics essential to the rapid, beneficent diffusion of Production in all its phases and departments, and so to the instruction of our people in all the gainful arts of Peace, we urge our countrymen to adhere to and uphold that policy, in undoubting faith that the true interest, not of a class or section and every useful class, is thereby observed and promoted.

The Tribune aims to be preeminently a Newspaper. Its correspondents traverse every State, are present on every important battle-field, are early advised of every notable Calumet decision, observe the proceedings of Congress, of Legislatures, and Conventions, and report to us by telegraph all that series of general interests. We have paid for one-day's momentous advices from Europe by Cable far more than our entire receipts for the issue in which those advices reached our readers. If lavish outlay, unsleeping vigilance, and unbounded faith in the liberality and discernment of the reading public, will enable us to make a journal which has no superior in the arena to which we wish to seek its contents, THE TRIBUNE shall be such a journal.

To Agriculture and the subservient arts, we have devoted, and shall persistently devote, more means and space than any of our rivals. We aim to make THE WEEKLY TRIBUNE such a paper as no farmer can afford to do without, however widely his politics may differ from ours. Our [illegible] Editor, Henry, Prudden, and General Mack, and report to us by telegraph all that series of general interests. We have paid for one-day's momentous advices from Europe by Cable far more than our entire receipts for the issue in which those advices reached our readers.

Ayer's Hair Vigor

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.

This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white fabric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

ADDRESS.

To the Editors of the San Antonio Herald, on the presentation of the Champion Belt as the most successful liars in the State of Texas.

In behalf of a large and admiring circle of your readers, allow the undersigned to present you with the accompanying belt, appropriately inscribed, as the champion liars of the State of Texas.

In doing this it will not be out of place to review your claims for this championship.

It may be deemed by some of the unsophisticated, unique, that this excellence should call forth a testimonial, but when we consider the many exploits of a meaner character that have called forth like testimonials, such scruples are surmounted. Some localities boast champion walkers, runners, typewriters, billiard-players, base ballists pie-eaters, etc., and why should your excellence go unrecognized? The work of years, the task of sleepless nights. As we gaze upon your muscular development in this particular, the Roman gladiator and the modern pugilist pale into insignificance.

In awarding this belt to you, we have not been unmindful of the claims of your fellow competitors devoted to the same political party as yourselves; but we have made a careful estimate of your confederate record, gathered from an old file of your journal, in which you inspired the now "Lost Cause" with fresh hopes, by your figures, recounting battles fought, and details of hiring Yankee slain and captured, and up to the date of "the last ditch" we find you had scored ahead of all your confederate competitors several million points, and in order to repopulate the United States, or rather to again bring the population of the earth, up to the figure before the devastation, as stated by you, caused by the arms of the Southern Chivalry, at least a thousand yards of active reproduction on the part of the remaining members of the human family, would be necessary. Stopping right here, you might rest secure on your claims for the championship.

Since the close of the "late unpleasantness" you have devoted yourselves, with an industry unequalled, to add new laurels to those already won. In computing the amounts stolen, by radical office-holders you have proven, by a strict computation that these radicals, have stolen the entire landed and personal property of the United States, and left nothing but a "hole in the ground".

You have by this course, been so eminently successful that you can point to several men occupying high official positions in Texas, who owe it to your extravagant lying, that the people have come to the conclusion, that they are thoroughly honest, and trustworthy. In fact so entirely successful have you proven, as liars, that it is only necessary to induce you to call a man a thief, to establish his reputation for honesty.

In this qualification you are certainly unrivaled, for your genius is far-reaching; soaring over this great country, and taking in national concerns and the smallest local items. From President Grant down to your Town-Constable, no one escapes your eagle gaze; from accounts of elections in Connecticut to the character of a charity pauper of your own precinct. And the courts of your town have not been unmindful of your merit having recently rendered a verdict in your favor to the effect that you are the first convicted libeller Texas has yet produced, and caused you to pay \$100 for your diploma; and this rendering was not the one-sided, arbitrary judgment of a military tyrant, but the deliberate conclusion of a civil Judge and twelve impartial jurymen, the result of your success in defaming the private character of a citizen of your own town.

Here again you might have been content to rest your claims for the championship. But, No! your muscular development has only grown firmer, and you pant for fresh conquests. And the radical office-holders quiver at every pore, with darts hurled from your brawny quills, and you stand forth unrivaled, unconquered, unsatisfied, your fierce eyes glaring on every side for new victims, your mouths looking like parched deserts capable of absorbing all the mendacity ever invented if it could only be reduced to a liquid state. Long since you have conquered all modest scruples, and nailed to your forehead the motto, "better rule in hell than serve in heaven"—better excel as liars than grovel in truthful obscurity.

To make the justice of your championship more apparent we might review the personal history of each one of your editorial corps, and show that to lying you have added all the kindred vices through a long series of years. And we might go on and recite the legitimate results of your successful career in this particular upon the community you live in; upon its business; and the general opinion you have created abroad in relation to it; impairing and retarding its prosperity, until decent people shudder at the thought of a community that furnish food for so successful a libeller as the San Antonio Herald.

Thinking you might feel some modesty in giving to the world this testimonial of your genius and accomplishments, we have taken the precaution of requesting Radical Newspapers to give it publicity.

MANY ADMIRERS.

Austin Letter.

AUSTIN, April 21, 1871.

THE SOUTHERN PACIFIC—DIVISION—CONSTITUTIONAL AMENDMENT—POSTPONEMENT OF ELECTION, &c.

To-day the House passed the Southern Pacific and Transcontinental Subsidy bill, the substance of which is, the granting of bonds of the State to the amount of \$6,000,000, or in case of the constitution being amended, throwing open the public lands to donation; twenty-four sections of land to the mile for six hundred miles of road. This subsidy to take effect after the roads are built. Accompanying this bill is an amendment to the State Constitution, opening the lands, and one of the arguments used to secure the passage of the subsidy is, that the people will certainly vote for a change of the constitution as a choice between evils.

There are good reasons for extending some aid to secure a speedy construction of what is now known as the "Texas, Pacific Railroad," as it will fence out the Indians from our Western frontier and add greatly to our progress and prosperity; and once completed will be connected by lines from the Texas coast and secure to us the shortest railroad route from the Pacific to the Atlantic across American territory. And a reasonable land subsidy would certainly meet the case, without going into the present proposed extravagance. Twenty-four sections of land to the mile is a notch above anything yet thought of by generous legislators, but on the principle that Abelard Ward enunciated, that he was willing to sacrifice all his wife's relations in getting down the cussed rebellion, our legislators are willing to part with our credit and lands.

There may be some confusion in the minds of the public about a subsidy to the Transcontinental and Southern Pacific, applying to the National road, known as the "Texas-Pacific." As explanation, Marshall O'Roberts is President of the Transcontinental and Texas-Pacific, and is the owner of a controlling interest in the Southern Pacific; and the "Texas-Pacific" becomes the "Southern Pacific" or "Transcontinental," where it reaches Texas, or in other words, a consolidation of all Pacific roads in Texas into one enterprise, and the aiding any one or two aids the main enterprise.

It was fondly thought, at the convening of the present session of the legislature, that there would be an absence of grand schemes, and that our law-makers would move on with even step to the completion of such legislation necessary to a civil State government. This expectation has met disappointment. The general legislation is but a meagre portion of the work of the past three months, and internal improvement schemes have multiplied until the careless looker-on might be excused if he

ventured the suggestion that a shorter method to solve the State government would be an act authorizing the railroad companies to appoint a receiver for the State and proceed to appoint agents to conduct its affairs.

The division question flashes up now and then, and will no doubt come up for definite action before the close of the session. Being experimental in many particulars, no plan yet suggested is free from serious objections. The bill presented by Mr. Robinson in the House, tears up by the roots and scatters to the winds, all the work accomplished in the way of reconstruction, and at the end of Gov. Davis' administration throws the people of Texas back into a State chaos, to begin over again and build up a civil government through a system of constitutional conventions, elections, and legislatures. This plan is too revolutionary, and while it suits the democrats, whose only hope for future success rests in some civil upheaval, it will not meet the approbation of thinking republicans, who cling to the good work they have already accomplished. Then what kind of a division plan would you suggest, may be asked? I would answer: begin with a slice at a time, leaving the State of Texas intact. Let the legislature pass a simple resolution to the effect that the people living, for instance, east of the Brazos or Trinity are authorized to form a State government, under the direction and control of the Congress of the United States.

The question, when we shall hold a congressional election, is commanding attention, and a proposition was yesterday made in the Senate, that it shall be first Tuesday in October; and to this proposition is likely to be tacked the question of an election for members of the Legislature. The decision as to the tenure of office of the present body is yet undecided.

The immigration bill has passed the Senate after much ridiculous demagoguism on the part of the democrats, who attempted or instigated a proposition to send an agent to Africa. But the success of any immigration plan is very doubtful, for while the bill establishing an immigration bureau passes the Senate, the appropriation bill, which has passed the House, is innocent of any appropriation for that purpose. Some opposition to immigration has been created by the anxiety of some of the friends of immigration to secure a direct immigration from Europe, in opposition to the opinion of others that one last plan would be to direct the streams pouring in through the eastern cities to the west, down the lines of railroads leading into our State from the Northern and Western States.

Nothing more of interest just now.

BEXAR.

MEDINA COUNTY, April 21st, 1871.

Editor of the San Antonio Express:

The stock-raisers of this section of country have been much pleased over the article in your last weekly issue, headed "Ought Stockraisers to be Protected;" and I hasten to assure you that nine out of ten of those who are cattle-owners in this section feel a confidence and security under the law, appointing inspectors, that they have never felt before.

For years, cattle drovers and buyers have embraced within herds they were driving off scores of cattle that had no earthly right to yet which no foresight of the suffering stock-raiser could prevent their carrying off. A dishonest neighbor frequently was the party making the profit in the transaction; for instance, he would sell twenty or thirty head of cattle belonging to Mr. A or Mr. B; if Mr. A or Mr. B discovered his cattle being driven off, the drover was called upon for a bill of sale; he would produce it, given by the dishonest neighbor as agent, and that neighbor—being called upon would turn over the proceeds but, in three instances out of five, Messrs. A or B knew nothing about their cattle being driven off—nothing would be done towards handing over proceeds of their cattle sold by the dishonest neighbor.

Under the new law appointing inspectors, all this is changed. It is next to impossible for the drover to get off with any cattle he has not paid for, and equally impossible for a dishonest neighbor to dispose of another man's cattle without turning the proceeds of the sale.

Parties in this section have written to their representative asking of letters up on the subject of protection of the stock interests, and many have addressed Representative Locke upon the same subject. All have urged upon them the securing of the passage of the bill defining the duties of the cattle and hide inspectors, and you may rest assured that any fee from five up to thirty cents will be cheerfully paid by the stock-raisers, who desire an honest, fair chance to reap the reward of their arduous labors in branding, caring for, and raising cattle.

Please forward to my address four extra copies of your paper of April 20th, and remember you have the support of nine-tenths of the stock-raisers of this section, in your advocacy of the inspection bill.

Truly yours,
J. A. H.

We are glad to find from the above that we were not mistaken in our idea concerning the satisfaction with which the stock-raisers hailed the appointments of proper officers to inspect cattle and hides. We know that for every dollar spent in legitimate fees for these inspectors that the stock-raiser saves five, that heretofore was lost to him by knavery of either drovers or bad neighbors.

We can assure our Medina friend that we will keep the true situation of affairs before the stock-raisers, and as a journal devoted to the interests of the West, will lend all our weight in advocating measures for the protection of their interests, and the lessening of abuses that have heretofore robbed them of thousands of dollars yearly.

It is rumored that arrangements have been made whereby France pays Germany fifty millions down.

PARIS, April 20.—Gen. Dambrowski reports that his troops have recaptured certain positions, with some provisions and prisoners. He asks for reinforcements, stating that the battle will continue.

Gen. Kalowitz maintains his position at Anieres, against the efforts of the Versailles troops to dislodge him.

A special to the Telegraph says the Arch de Triomphe in Paris was destroyed by fire of batteries.

LONDON, April 20.—Advice from Versailles report that fighting still continues at Anieres, where the insurgents are making desperate attempts to regain the lost position.

The Versailles troops have succeeded in gaining possession of Anieres, and found the suburbs suffering severely from pillage and marauding of the insurgent troops, and the streets filled with wearing apparel.

An endeavor was made by Dambrowski to rally the Nationals, but resulted in a failure. The officers of his staff have been arrested on suspicion of treachery.

All railroads are commanded by Versailles troops, and the insurgents will be unable to receive a supply of provisions from outside the city.

WASHINGTON, April 20.—The polls closed at seven o'clock. Partial returns indicate the success of the Republicans.

The following is the substitute for Sherman's amendment as passed:

That any person or persons having knowledge that any of the wrongs mentioned in the second section of this act are about to be committed, and having power to prevent or aid in preventing and shall neglect or refuse to prevent such wrongful acts, shall be liable to the person injured or his legal representatives for all damages caused by any such wrongful act which such first named person or persons by reasonable diligence could have prevented, such damages may be recovered in any proper Circuit Court of the United States, and any number of persons guilty of such wrongful neglect or refusal may be joined as defendants in such action; provided that such action shall be commenced within one year after such cause of action shall have occurred, and if the death of any person shall be caused by any such wrongful acts and neglect, the legal representatives of such deceased person shall have such action therefor and receive not exceeding \$5,000 damages therefor for the benefit of the widow of such deceased person if any there be, and if there be no widow, for the benefit of the next of kin of such deceased person.

The case of Kline against the United States, and another case from the court of claims, now argued for the supreme court, presents for decision the question of the constitutionality of the proviso relating to amnesty and pardon, in the appropriation act of July, 1870. That act provides that no pardon or amnesty granted by the President should be considered by the courts in deciding upon any claim against the United States.

WASHINGTON, April 20.—Proclamation issued convening the Senate in extra session on the 19th of May.

Both reached a personal explanation, defending himself from various charges, and denouncing Mr. Davis of Kentucky and Mr. Farnsworth of Illinois.

Farnsworth replied, closing his speech with the remark that he could convict the gentleman from Massachusetts of embezzlement and perjury before any jury in the country.

WASHINGTON, April 20.—Chirpman, Republican, was elected delegate from this Territory in Congress to-day, over McCreary, Democrat.

WASHINGTON, April 21.—Chirpman's majority is 493.

The upper House of the Territory, appointed by the President, are all Republicans—eight whites and three negroes.

The lower House consists of seven Democrats and fifteen Republicans; the latter including two negroes; those were elected by the people.

All the other officers of the Territory were appointed by the President, and are Republicans.

Fifty-two men captured by stragglers, the Versailles passing out of the post providing affiliation with the Nationals.

Twenty thousand Imperial Guards, under Gen. Ducrot, reached Versailles in excellent spirits.

Engagement along the entire line on Wednesday.

Dambrowski reports the results favor- able to the Communists.

The Communists are murdering on the Plain of Orange Jarle.

Fighting of a hoody character. The Communists made a strategic movement to envelop the Versailles, who advanced too far.

Trochais has been sacked.

Fort Vassel and Combric sheltering Paris faithfully. The Arch of Triomphe fallen. Shields fell like a shower in Avenue des Tirues. Forty civilians killed. The Nationals retreating dispirited and disgusted. Slaughter as usual.

General complaints of the inefficiency of his officers and says he is awaiting the cooperation of the gendarmes which will be ready in four days.

LONDON, April 21.—Versailles dispatches say the Communists have not recovered their lost positions. There was a desperate house to house fight at Neuilly and Donois. A decisive engagement in progress at Porte Maillot; the ramparts adjoining are a mass of ruins, and shells reach Rue de Claye.

Nothing official or explicit, though the general tenor of regular and special despatches indicate that the Versailles are gradually gaining ground.

VERSAILLES, April 21.—Thiers, in a circular announcing the capture of Anieres, declares the end of criminal resistance to the government is approaching.

NEW ORLEANS, April 21.—A crevasse occurred yesterday at Wallis' plantation, St. James parish, on the right bank, 35 miles above the city. The Bonnet Carlo crevasse is 1000 one hundred feet wide and increasing continuously. Have not yet commenced the work of closing.

DR. J. W. BRIGHT.

"Schnapps" is a remedy in chronic catarrhal complaints, etc.

I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With your superior, and superior, merit.

CHAS. A. SEELY, M. D., New York.

26 Pine Street, New York, Nov. 21, 1867.

Edolpho Wolfe, Esq., Present: Dear Sir: I have made a chemical examination of a sample of your "Schiedam Schnapps" with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances, which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

(Signed) CHAS. A. SEELY, Chemist.

From the result of our examination we consider the article one of superior quality, healthful as a beverage, and effectual in its medicinal qualities. Respectfully yours,

(Signed) ALEX. TRIPPEL, Chemist.

Consumption, Its Cure and its Preventive.

By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. These men and dear to family and friend, are sleeping the dreamless slumber into which, had they only adopted Dr. Joseph H. Schenck's simple Treatment, and availed themselves of his wonderful, efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not thousands and times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un-failing. Its philosophy requires no argument. It is self-asserting, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they

"Leave no Sting Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no excitation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatharings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was.

Given up as Lost.

The second thing is, the patient must stay in a warm room, until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of a cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to be the faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; I coughed to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats, all began to leave me, and my appetite became so great that I was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown to flesh ever since."

"I was weighed shortly after my recovery," said he, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer decides the exact condition of the lungs—and patients may readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$1.75 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1869—where "The Clipper" met some 40 competitors including all the leading machines built, and was awarded the First Premium and Gold Medal—proves that the proprietors have been able to sustain in the field their claims of superiority for The Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor of the team. The adjustability of the finger-bar, to cut high or low without stopping the team, is worth \$25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmers THE CLIPPER is the Horse's Friend, and you cannot afford to ignore his welfare. Send for pamphlet—investigate. See or write to some one who has used THE CLIPPER. See the Machine yourself before you buy any other.
