A MAN was arrested in Buffalo last week for stealing a barrel of salt. When arraigned in the court he pleaded destitution. "You couldn't eat salt," said the judge. "Oh, yes I could, with the meat I intended to steal." This reply cost him six months. The judge had no appreciation of delicate humor.

A gentleman expressed to a lady his admiration of her toilet. She said she supposed he had been impressed by her angel sleeves. He answered with effusion; "No but he'd like to be."

"There are some things which will never be hurt by falling," growled an old man in the market the other morning. "What's them?" inquired a market man. "Prices," said the old man; "they're so awful slow in falling that they'll never get smashed."

DR. J. W. BRIGHT.

"Schnapps" is a remedy in chronic catarrhal complaints, etc.

I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant.

26 Pine Street, New York, Nov. 21, 1867. —Udolpho Wolfe, Esq., Present: Dear Sir, I have made a chemical examination of a sample of your "Schiedam Schnapps" with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

(Signed) CHAS. A. SEELY, Chemist.

Ayer's Hair Vigor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of foaming the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

EXECUTIVE DEPARTMENT,
AUSTIN, AUGUST 23, 1870.

To A. Siemering & Co.,
You are hereby notified that I have this day
appointed your paper, "The San Antonio Ex-
press," the Official Journal of the twenty-third
Judicial District.

In testimony whereof, I have hereunto signed
my name and caused the Great Seal
of the State to be affixed, at the City
of Austin, this 23d day of August, in
the year of our Lord one thousand eight
hundred and seventy, and the Independence
of Texas, the thirty-fifth.

EDMUND J. DAVIS, Governor,
By the Governor,
JAMES P. NEWCOMB.

NOTICE TO REPUBLICANS.

The undersigned having been selected
a member of the Republican State Execu-
tive Committee for the 23rd Judicial
District, comprising the counties of Bexar,
Comal and Wilson, hereby gives notice
that he will act as such member for said
District, and calls upon the county Ex-
ecutive committees of Bexar, Comal and
Wilson, to at once report to him the condition
of their respective counties, and the
names and Post office address of the members
of the County committees. Mailed by
Circular. A. SIEMERING,
San Antonio, March 10th, 1871.

NOTICE To the Republicans of the 26th Judicial District.

The undersigned having been selected
a member of the Republican State Execu-
tive Committee, for the 26th Judicial
District, comprising the counties of Ken-
dall, Kerr, Gillespie and Blanco; herewith
respectfully calls upon the county execu-
tive committees of the above named coun-
ties, to report to him the condition of their
respective counties as soon as possible,
giving their full names and post office ad-
dress, and also communicate with the
undersigned freely, in order to complete a
thorough organization of this District.
AD. ZOELLER,
Austin, March 16th, 1871.

Republican State Executive Committee.

Elsewhere we publish a list of the mem-
bers of the Republican Executive Com-
mittee, organized in accordance with the
present Judicial Districts. To our notion
the word "Republicanism" is fraught
with intimate ideas of zeal and work, in
the great causes of Truth, Principle
and Progress, and we hope that the mem-
bers whose names are thus set forth, will show
no idle hands or brains in the hour when
work is to be done.

Some changes have been made in the old
list and the new one as it stands shows
a weight of men and material, that augers
well for the triumph of our side in the
coming contests.

Encouragement from Stock Raisers.

We have received, in the last two days,
nine subscribers from the country, who an-
nounce themselves as stockmen, and who
are pleased with our advocacy of their in-
terests in insisting upon the maintenance
of cattle and herd inspectors. From a let-
ter from Jackson, and other lower coun-
ties, we learn that the system has been
carried on by them independently. That is,
until the passage of the law providing
these inspectors with official powers, &c.,
they hired parties to act as inspectors, and
paid them regular salaries, cheerfully. At
a meeting held in Victoria not long since,
a clause was introduced into a resolution
asking Mr. Grothaus to call up and urge
passage, the bill providing for cattle and
herd inspection. We are proud in being
able to champion, as a Republican paper,
the interests of the stock raisers of West
Texas, and want it understood, we are wil-
ling at all times to listen to any grievances
or drawbacks they may sustain, and use all
our Republican influence to sweep them
aside. We believe in "equal and exact jus-
tice to all men." That is the leading prin-
ciple of Republicanism.

Commanders.

By MONSIEUR.

If the State Police force is "a blister on the
body politic," how is it that it only draws
on the carcasses of democrats and horse-
thieves?

If a Republican emigrant from Indiana is
a "carpet bagger," what is a Democrat from
the same State—a saddle bagger, a blue-
cotton handkerchief, a paper-collar bax-
er, or a ski-niddler? If the latter, what is hog
stealing, and in what degree?

If ex-captain J. C. Conner, late of the
1st (colored) U. S. Infantry, carries out his
bombastic threat of meeting the State Po-
lice on his threshold with a rifle, will he be
buried in this State or in Indiana, where he
originally came from a few years ago?

If the doctrine of secession is right, and
the forcible suppression of the late rebel-
lion was an outrage, does it not necessarily
follow, that the establishment and main-
tenance of public lunatic asylums is wrong
and the compulsory detention of dangerous
lunatics therein is unconstitutional?

If General Davidson punched the snout
of Loughery, of the Jefferson Times, for
publishing a gross libel, would it not be
sound policy on the part of the editorial
corps of the San Antonio Herald to take a
few lessons in the manly art of self defence?

If such blatant, frothy advocates of the
cord, bullet and steel system of squelching
political opponents as Jeff. Davis, Brick
Ponstrey, John Morrissey, Captain Conner

and Logan, of the Herald, can become lead-
ers in the Democratic ranks, in their re-
spective localities, would it not be a good
thing for a few of our first-class Texan de-
spairados to give up the surreptitious horse
trade and go into the Democratic leader
business?—they would certainly have the
advantage of the mere "blow-hards" above
named, in a practical knowledge of the
squelching process; and as for brains, that
doesn't enter largely into the composition
of democratic politicians, you know.

The Army in Texas.

General W. T. Sherman, the hero of the
"march to the sea," is expected to be with
us in a few hours, and as his visit is one
connected with inspection of military af-
fairs in Texas, it may not be amiss for us to
allude to affairs in Texas, as far as the ar-
my is concerned.

In the extreme horror, so oft excited by
reports of Indian outrages and troubles,
the facts and circumstances are frequently
overlooked, and a cry goes up from a thou-
sand throats, anathematizing "the army,"
because the frontier is not kept perfectly
protected, and every outrage or raid pre-
vented. A little cool reflection on the part
of our western people, with an inquiry as
to facts, statistics, and so forth, would re-
veal a state of things exonerating the ar-
my in Texas, and hinging the responsibility
upon the area to be protected, the near
proximity of the Indian tribes to the bor-
der, and the laxity of vigilance on the part
of agents and commandants at the military
reservations.

Upon Gen. J. J. Reynolds has devolved,
since the close of the war, herculean tasks;
first, the work of civil reconstruction, lat-
terly, a settlement of a policy by which the
Indians are to be held in subjection and
withheld from their outrages. The first
task, as far as he is concerned, has been
finished, and the voluminous data, statistics
of crime, and so forth, that went from his
office, showed that the work was practical-
ly accomplished, and the first steps taken
towards clearing the State of masses of
desperadoes, who flocked to this State, ex-
tensive in area and its wilderness, for safe-
ty. The foundation stones of security and
protection from internal troubles were laid,
and laid with a perfection that speaks vol-
umes for his well balanced mind, his far-
seeing judgment, and what is of even higher
value, his understanding of the science of
government.

Upon his devoted head, to-day descend
the "vials of wrath" of the unthinking peo-
ple, who read of Indian troubles and then
turn in and curse the army, for what they
term inefficiency. It is our pleasant task
to show how thoroughly unjust their char-
ges are. From the very hour when General
Reynolds turned over the weight of
civil affairs to a worthy successor, General
or Governor E. J. Davis, he has devoted
himself and the entire scope and vim of
the army in Texas to the solution of the
knotty problem of an Indian policy, and to
the protection, as far as lay in his power,
of the frontier. Thirty years of arduous
service in the field, the camp, or garrison,
have not served to detract in the slightest
from his warmth of heart or susceptibility
of feelings over suffering humanity, and
amidst all the horrors that from time to
time have descended upon our people, no
one has suffered more in heart than the
General, whose utmost strain of mind and
body and judicious use of forces at his com-
mand, have still not given this district per-
fect security.

Of the army itself, of its officers, of its
rank and file, the history of long and fat-
tiguening scouts, attests to their endeavors
to overcome and drive back a treacherous,
wily, savage foe. Hungered and foot-sore,
hand after hand has retraced, and the sto-
ries of their silent march through ravines
and along the banks of wild streams, in
winter and in summer, effectually match
their truth and sincerity the wildest sto-
ries of the early days of 1860, when Amer-
ica was all comparatively a wilderness.

When the State provided its rangers, the
army were willing they should try their
tactics. They were received with open arms.
Technicalities and red tape were cast
aside, and many a risk taken by officers of
the U. S. forces, that the ranger boys might
be made comfortable. They too have seen
arduous service, have used-up horses, and
cost hundreds of thousands of dollars, yet
the frontier is but very little better off than
before. The truth is plain. To maintain
a perfect line of defence requires something
outside of mere organization. Ten, twelve,
or twenty miles the start, is an Indian's
safety and protection; and organized troops
or rangers, who answer to the call of their
officers, cannot expect to follow Indians,
who have the start of them, and do effec-
tive service.

The bill providing for the support of
minute men, introduced into Congress by
Mr. Degener, was a bill that contained the
safety principle originated and conceived
by General Reynolds. At the very places
where Indians were reported, minute men
would be found, and signals given by ben-
fices and by other contrivances, would
arouse the whole frontier section of coun-
try, and the chances of escape of Indians,
rendered slim. The bill failed, because the
proper precautions of consistency were
lacking. Had the Texas senators and
congressmen been a unit in demanding the
same protection decreed for other States,
where internal disorders prevailed, had
they kept in mind the importance of the
one great leading question, rather than
branching out upon side issues, and add-
ing fuel to the fire of factionalism that
for a time glared and threatened disastrous
consequences, we to-day would have been
in possession of a system that would have
relieved our State from enormous burdens,
given the General commanding the de-
partment allies in checking Indian depre-

dations and added much to the influence,
with the people, of republicanism.
Now, though the bill failed to pass, the
army has not shown discouragement. Ar-
rangements are perfecting themselves for
the removal of the Kickapoos. One half
the garrison force of all the frontier posts
are out at the time, scouring and scouting
the country. Protection in shape of es-
corts is provided where there is a show of
such danger as warrants the use of them,
and our gallant, warm-hearted General is
even proposing to anticipate the good re-
sults of the Southern Pacific railroad, by
making the army pioneers of its protecting
influence in opening up a cattle route to
California, and so protecting one of the
greatest interests of our State.

Those who are disposed to cast blame
and maledictions upon the army, do so in a
wrong spirit. Activity, constant activity,
pervades its every branch; and, though ill
are upon us of suffering and sorrow for the
outraged and murdered of our frontier, it
is no fault of the army, of its system, or
its management. Their sufferings are as
keen as those of our own people; and as
General Sherman goes from post to post in
Texas, and receives the history of scouts
and marauds and duty well-performed by
the boys in blue, we feel satisfied he will
look elsewhere to attach blame, than to the
army.

WE ARE in receipt of one or two com-
munications, dubbing our action in the
Morgan and McComb matter, as "hasty and
ill advised," and recommending to us the
"oil-and-sugar" policy. To the authors
of those communications we have this to
say:—We are running a square, honest,
Republican paper. Republicanism means
justice, equal rights, anti-corruption and
everything else that is a motor in bringing
about a healthy, social and political
growth of ideas and principles. We are
not governed by any paper in the State,
but call from their right and left, what is
true, what is logical, what is Republican.
We are not to be bought, bullied or flattered
into advocacy of any thing that does
not rest upon the foundation of logic,
facts, or clear hard common sense, and
those gentlemen who believe in "rubbing
the cats' fur only the smooth way," will
find that we gather more electrical force
by rubbing it the other. We never stop
to think how it affects the cat, the greater
principle being involved of a future to be
prepared, and rough stones now may make
a smooth road then, for the most tender-
footed creatures.

LONDON, April 22—4 P. M.—In the re-
port made to the Commune yesterday, Gen-
erant claims to have repulsed the Ver-
sailles at different points. Other ac-
counts declare the fighting murderous,
and say the village of Courcelles, on the
right bank of the Seine, between Nanilly
and Clechy, is filled with wounded.

It is stated an armistice was concluded
for to-day for burying the dead and to

the ring \$30,000. The total contract
amounted to over \$10,000,000, of which ten
per cent commission was levied. The Sun
adds that 50 to 250 per cent profit was

and that a profit of \$250,000 was made on
35 batteries of Napoleon guns alone.

bidder; and paymasters for the navy on
foreign stations shall render, when prac-

paymasters were made at her ruling
market prices of the port or place at the
time of purchase or expenditure.

Sec. 4 That the President be, and he
is hereby, authorized to accept the resig-

Consumption, Its Cure and its Preventive, By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those who stand dear to family and friend are sleeping the dreamless slumber into which, had they calmly adopted Dr. Joseph H. Schenck's simple Treatment, and availed themselves of his wonderful efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is infallible. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the acting in, with all its distressing symptoms of

Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they

"Leave no Sting Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a cinder, is wound up. It absorbs from its torpidity. The stomach acts responsibly, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Circulation is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest blood Purifier ever yet given by an indulgent father to suffering man, Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and rids the impaired and diseased portions of the lungs. In the form of gathering, it prepares them for expectoration, and lo! in a very short time the melody is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the married or womanhood that was.

Given up as Lost.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—he determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the faculty of his own cure was in these modest words: "I was confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery, and I weighed 120 lbs., then looking like a mere skeleton; my present weight is only nine lbs. less, and my present weight is two hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and London. He or his son, Dr. J. H. Schenck, Jr., still continues to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families, as a laxative or purgative; the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$1.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chills, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. It contains neither Arsenic, Quinine, Hints, Zinc, nor any other mineral or poisonous substance, and, therefore, it is in no way injurious to the system. The number and importance of its cures in the West Indies, are generally beyond question, and it is a "Prophylactic" in the history of Ague poisons. Our people is satisfied by the knowledge that we receive of the small cases effected in malarious cases, and where other remedies have failed.

Unsubstantiated persons, either resident in, or traveling through malarious localities, will be benefited by taking the **Ayer's Ague Cure**, daily.

For Liver Complaints, arising from torpidity of the liver, it is an excellent remedy, stimulating the liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

efficient preparation from it, for popular

ELMENDORF & CO.,
Agents for the CLIPPER MOWERS and REAPERS.

The great field trials at Sedalia, Mo., and
at Texas, OREGON, in the Spring of 1893—
where "The Clipper" met some of the competi-
tors including all the leading machines
built, and was awarded the First Premiums
and Gold Medal—proves that the proprietors
have been able to sustain in the field their
claims of superiority for the Clipper Machine
over all others. Its EXTRAORDINARY lightness
of draft takes one-third of the labor of the
team. The adjustability of the finger-bar,
to cut high or low without stopping the team
is worth \$25 on any machine. It is the only
mower that has the true center draft in ac-
cordance with correct mechanical principles.
In short, it is the lightest, the most durable,
the least complicated, the most perfectly
constructed, the most symmetrical in design,
of any implement of its class. Farmers
use CLIPPERS in the Home's Front, and you
cannot afford to ignore their welfare. Send
for pamphlet—immediately. See or write to
some one who has used THE CLIPPER. See
the Machine yourself before you buy any
other.
