The Triumph of the Adminis- tration.

President Grant has been assailed with more bitterness and malignity than any President since the days of Thomas Jefferson, and his triumph is complete and almost without example. Mr. Sumner and Mr. Schurz have for months been laboring in their literary workshops, pictures of which are presented to us in some of the Democratic pictorials, but their labors have been in vain and their shafts have fallen harmless at his feet. Their shots were aimed under circumstances of great ostentation, after having been advertised for weeks to collect Copperhead crowds in the galleries, amidst great sound and fury, which the whole country has discovered signified nothing. There never was a more pompous undertaking or a more ignominious failure.

Mr. Sumner was under the impression that he had created the Republican party, and could disband it at pleasure; that it was his personal property, to be disposed of in the way that would minister to his vanity and ambition. In Mr. Schurz he found a trusty lieutenant who claimed that he owned all the Germans in the country, and could carry them with him in any scheme he might contrive for the dismemberment of the Republican party and the building up of a new one of which he and Sumner should be the dual sovereigns, like the Tycoon and Mikado, in Japan. But from these dreams of power they have been rudely awakened; and after creating a nine day's wonder, they have discovered, to their exceeding mortification, that they can no more shake the foundations of the Republican party than the discharging of half a dozen pop-guns could cause the columns of the Capitol to topple and fall from their base. They are merely sentence makers, professional manufacturers of speeches, who have never accomplished anything practical or exhibited the least administrative ability.

Mr. Sumner has been in the Senate twenty years, but he is not the author of any great measure; no law on the statute-book can be pointed to of which he is the real or putative father. He refused to vote for the fifteenth amendment. Mr. Schurz was a conspicuous failure as an officer in the army, and the only positive thing he has ever done that can be pointed to as something accomplished, was the division of the Republican party in Missouri, and the election of Frank Blair to the United States Senate. Last week he voted against the bill for the protection of life and property in the Southern States; after having made a speech, one half of which was Republican and the other Democratic, in which he defined his position to be that of "an independent Republican. What this means may be inferred from his course during the last eight months, in which he has divided the Republican party in Missouri, elected Frank Blair to the Senate, and voted with the Democracy on every party question in the Senate.—National Republican.

Mr. Morton and the Democ- racy.

The Democratic papers all over the country are amusing themselves at the present time by filling their columns with abuse of Gov. Morton. Their ground of complaint against him is that on last Saturday evening he struck the key note of the next campaign, and disclosed the reasonable purposes of the Democratic party. He then stated plainly the issues in the next struggle, and attributed to the Democracy the intention of, among other things depriving the colored people of their present civil and political rights, and of overthrowing the reconstruction laws. This is the head and front of Mr. Morton's offence. The Democracy do not like the position; they do not like the picture. But Mr. Morton cannot help it. He painted them exactly as they are, "warts and all." Frank Blair, speaking for the Democratic party, pronounces the fourteenth and fifteenth amendments to the Constitution "fraudulent," and says, "at the last Presidential election no majority would have been found against the cause of the Constitution if the timidity or infidelity of friends had not placed the contest in an attitude which left us nothing worth fighting for." Mr. Blair gives expression to these senti-

ments in the Senate, and his party all over the country acquiesce in them. No one rebukes him; no one disavows these ideas and opinions on the part of the Democracy. Mr. Morton has earned the gratitude of the loyal people of the country, and has in no way misrepresented his opponents.—Republican.

The Dead of our War.

At the banquet of the Army of the Tennessee, in Cincinnati the other night, Gen. Swaine responded to the toast, "Our dead not dead, but gone before," in the following impressive words:
"Our dead are the true cost of the war. Silver and gold still multiply, and art and science grow. The nation has new life in all its channels, and 'free and equal' lives forever in the flag where all the world may read. Only the dead are dead. Sometimes, perchance in trial or distress, a wistful thought has gone in search of them, as those who were permitted in one hour to sum up and discharge all that remained for them of life, and then realized that since antiquity it has been said that it was sweet as well as glorious to die in arms for a country. Still they are dead, hopelessly dead, for the mother and wife; mournfully dead for the wayward boy; bitterly dead to the hour of want and need of a strong hand; dead also to our love; and yet they live as those whose works do follow them.

"Innumerable colored children south of us are learning busily the shape and structure of the world; learning to love their country and live like men. Many a time have I seen them and remembered that our dead men teach those schools! So, too, it has been taught a pretty speech that 'liberty and union' were inseparable and were one, and it was whistled down the wind until death followed the denial, and men read the oracle involved. Let no man doubt it for the evils of to-day. They are only the mill of the gods, slowly grinding, and these dead may yet teach that truth to all the world. We count them dead and reckon up our loss. God simply seems to make them of more use."

The Secretary of State has received from the Atascoso country, some curious geological specimens. They consist of nodules of iron ore generally globular in shape, which, when broken, prove to be hollow and filled with a fine white, sea-sand. Like King George over the apple dumpling, the query is, how did the sand get in? One scientific explanation is that when the Atascoso was a marine beach, the sand drifted freely into the open mouths of the dead mussels, which afterwards, upon the elevation of the land, were subject to the action of water, which dissolved the lime, depositing iron in its place. This theory is strengthened by the fact that in many of these little ocean-rolled lumps the form of the shell has been preserved, and can be distinctly traced. Another very learned gentleman thinks that the iron simply formed around the hollow, as the barrel is built around the bung-hole, or the cannon cast around the bore.—State Journal.

The German Parliament.

The Parliament of the German empire, which has just met for the first time in nearly fifty years, was elected by manhood suffrage and by ballot, and consists of 383 members, or one representative for about one hundred thousand persons. The Parliament, which is established on the basis of the new constitution, and ratified by the States composing the empire, has 236 members from Prussia, 48 from Bavaria, 23 from Saxony, 18 from Wurtemberg, 14 from Baden, 9 from Hesse, and 35 from the minor States of the North, making 383 in all. The relative strength of the political parties is said to be as follows: Conservatives, 70, of whom 60 represent the Prussian country gentlemen interest. There are 20 Free Conservatives or Constitutional Tories, or friends of Prince Bismarck. The Moderate Liberals, coming from all parts of the empire, number 147. The Advanced Liberals are 30 in number, and the Ultra-Montane party has 70 adherents. The Secessionists or opponents of the empire, coming from Hanover and Schleswig-Holstein, are 19 in number. There are 2 Socialists, 13 Poles and 1 Dane. No account is given of the politics of the remain-

Miscellaneous.

THE Christian young men of San Francisco no longer pay postage on unstamped letters. It got to be a common thing for everybody to mail them without stamps.

At Bath, New York, recently, a man suffered from catarrh and sore throat had extracted from his nose a plum stone, which he insisted had been inserted there twenty-three years before.

A citizen of Reading, Pa., is said to have mourned the death of thirty-six of his children. He is now 55 years old, has had three wives, and has now four children living.

So large is the French-Canadian population in Lewiston, Me., that it has become necessary for some of the state-keepers here to employ clerks who understand and can speak the patois.

At the special election for a member of the French National Assembly in Conica, one arrondissement voted unanimously for "l'Empereur l'Impératrice, et le Prince Imperial."

Among those who went to see the Cardiff Giant in New Haven was a middle-aged man who had lost his brother by a mysterious disappearance, and was bound to inquire, as he stepped away, "Lain? Hain?"

The Fourth Regiment of the Prussian Landwehr Guard boasts of 109 soldiers familiar with Greek and Latin, and of seventeen who have studied the Sanscrit language.

Police-men are called upon in Boston to perform all sorts of service. At one of the station houses a woman asked the Captain to have a policeman sent to her house to cook her supper, because her "old man" was drunk.

Fashion has it that, in passing a lady on the street, the hat should be raised to the present season with the 4-9 band, the little finger and thumb to be placed under the rim. The bow for April is a little to the left side, and not quite as low as formerly.

A Middletown correspondent of the Hartford Post says: "It is reported that the Portland quarries will send to China for 1,000 coolies for the next season's quarrying. They have had so much trouble from strikes in past years that the Directors are tired of them, and propose to employ such help as they need from those who are not yet up to strikes."

It is estimated that 500 carpenters alone are at work at Long Branch, the larger part of them on new buildings. A cottage is being erected, which it is proposed to present to Bishop Simpson. The proposition was started at the close of the late season; the lot was given by Mrs. Cooper, and the first subscription of \$100 was made by President Grant. The building of cottages has greatly affected the value of real estate, which now almost reaches New York prices. Property on the ocean drive which sold a year ago for \$1,000 per acre, now sells at \$5,000 per lot of 100 feet front.

Among the curiosities at the French Fair, now open in Boston, are the table at which George Washington drew his plans for the battle of Trenton, the night before the contest; autograph letters of Cromwell, John Adams, Sir Isaac Newton, Wellington, and Mrs. Sarah Siddons; manuscript poems of Robert Burns and Dean Swift; a library chair of Napoleon I, and a pair of boots worn by him; the roster of John Brown's company taken at Harper's Ferry; a helmet of Lord Byron—given to the British forces; one of George III's breakfast plates; a plate and candle stick that came over in the Mayflower; a Damascus scimitar; the Arab sword of the first century after Mohammed; a fine collection of Salem witchcraft relics, including the staff of a witchcraft relic, including the staff with which George Jacobs walked to the gallows, and a number of pins sworn to have been stuck into people by the witches.

The Secretary of War has ordered that hereafter leather stocks shall be dispensed with in the army.

Under the army regulations commanding officers had a right to require soldiers to wear these horrid instruments of torture, a relic of barbarism that was transferred to our army regulations from those of European armies, and which have been a part of a soldier's wardrobe from time immemorial. Secretary Holman, deserves credit for this order, and the army, with one voice, will doubtless unite in voting him a testimonial of thanks for his humane order in abolishing this venerable nuisance.—Washington Exchange.

The New York World a few days ago made the admission that "the Northern Democracy would not carry any Northern states on the platform of the Northern Democracy." Now, that is precisely what Governor Morton asserted in his recent famous speech, for which he is so industriously attacked all around the Democratic circle. He said that Democracy meant one thing in the East and another thing in the West; something entirely different in the South, and nobody knew what it meant in the North. The Democracy to-day has no platform and no policy, properly so called, by which it is ready to stand or fall.—Exchange.

DRUNK, YOU BET.—A machine named Stanwood got on a bust yesterday morning, and was arrested last night and fined \$5. "Th' strange" muttered he as he staggered to the barracks, "how evil communications corrupt good manners. I've been surrounded by tumblers all the evening, and now I'm a tumbler myself." It made no difference, however, he got the full extent of the law.—Exchange.

A STRANGER in Albany offered \$10 to any man who would get him a wife. The offer was immediately taken up, and in a few minutes a blooming damsel appeared. In less than thirty minutes the two were coupled. The stranger is reputed to be wealthy and eccentric.

ISPIDO, bound dry on the wound, is a sure cure for rattlesnake bites, scorpions and bee stings, etc., says a Mormon, who has tried it.

NOTICE.

The SAN ANTONIO EXPRESS has received the commission of Official Organ for the twenty-third Judicial District, which embraces the counties of Bexar, Wilson and Comal.

The FREE PRESS has received the commission of Official Organ for the twenty-sixth Judicial District, composed of the counties of Kendall, Kerr, Gillespie, Blanco, Edwards and Kimball.

We call the attention of Sheriff's Constables, District Judges, District Clerks, Justice's of the peace; all county officers and administrators, or parties making either public or private sale under order of a Court, to the clause in Section 13, of the law, which says:

"Every advertisement and publication in any other paper than the one selected, shall, during the term of such legal selection, be null and void for any legal purpose."

Also to Sections 14 and 15 of same law, which reads:

Section 14. That before any public or private sale, under order of any court, shall be had, due notice of such sale, with a full account or description of the property to be sold, shall be published in the legal advertising medium of the Judicial District in which such property shall be sold, for a period of four weeks, on each section each week, immediately preceding such sale; and any officer selling property, of any kind whatever, without advertising the same as required by this section, shall be responsible for all damages that any party may sustain.

Sec. 15. That whenever it shall be established before any court of competent jurisdiction, that the provisions of section 14, of this act, have not been complied with, the party, or parties, purchasing the property not properly advertised, shall forfeit the amount paid for such property, and such property shall revert to its former position as when no sale had been made.

OFFICIAL

LAW OF THE UNITED STATES.

Passed at the Third Session of
the Forty-First Congress.

[GENERAL NATURE—No. 49.]

An Act making appropriations for the naval service for the year ending June 30, eighteen hundred and seventy-two, and for other purposes.

(Continued.)

ENGINEER CORPS.

Sec. 7. That the officers of the engineer corps on the active list of the navy shall be as follows:

Ten chief engineers, who shall have the relative rank of captain.

Fifteen chief engineers, who shall have the relative rank of commander; and

Forty-five chief engineers, who shall have the relative rank of lieutenant commander or lieutenant.

And each and all of the above named officers of the engineer corps shall have the pay of chief engineers of the navy as now provided.

One hundred first assistant engineers, who shall have the relative rank of lieutenant or master; and

One hundred second assistant engineers, who shall have the relative rank of master or ensign; and the said assistant engineers shall have to pay of first and second assistant engineers of the navy, respectively, as now provided.

Sec. 8. That no person under nineteen or over twenty-six years of age shall be appointed a second assistant engineer in the navy; nor shall any person be appointed or promoted in the engineer corps until after he has been found qualified by a board of competent engineer and medical officers designated by the Secretary of the Navy, and has complied with existing regulations.

Sec. 9. That of the naval constructors two shall have the relative rank of captain, three of commander, and all others that of lieutenant commander or lieutenant; and assistant naval constructors shall have the relative rank of lieutenant or master; for chaplains shall have the relative rank of captain, seven that of commander, and not more than seven that of lieutenant commander or lieutenant; and that the President of the United States is hereby authorized, in his discretion, to determine and fix the relative rank of civil engineers: Provided, That the pay of said officers shall not be increased.

Sec. 10. That the foregoing grades, hereby established for the staff corps of the navy, shall be filed by appointment from the highest number in each corps, according to seniority, and that new commissions shall be issued to the officers so appointed, in which commissions the titles and grades herein established shall be inserted; and not existing commissions shall be vacated in the said several staff corps, except by the issue of new commissions required by the provisions of this act, and no officer shall be reduced in rank or less seniority in his own corps by any change which may be required under the provisions of this act; and the officers of the staff corps of the navy shall take precedence in their several corps, and in their several grades, and with officers of

the line with whom they hold relative rank, according to length of service in the navy: Provided, That in estimating the length of service for this purpose, the several officers of the staff corps shall respectively take precedence in their several grades and with those officers of the line of the navy with whom they hold relative rank who have been in the naval service six years longer than such officers of said staff corps have been in said service: And provided further, That in estimating such length of service, officers who have been advanced or lost numbers on the navy Register shall be considered as having gained or length of service accordingly: And provided further, That chiefs of bureau may be appointed from officers having the relative rank of captain in the staff corps of the navy, on the active list: And provided further, That no staff officer shall, in virtue of his relative rank or precedence, have any additional right to quarters: And provided further, That any staff officer of the navy who has performed the duty of chief of a bureau of the Navy Department for a full term shall thereafter be exempt from sea duty, except in time of war.

Sec. 11. That officers of the medical, pay, and engineer corps, chaplains, and professors of mathematics, and also constructors, who shall have served faithfully for forty-five years, shall, when retired, have the relative rank of commander; and officers of these several corps who have been or shall be retired at the age of sixty-two years, before having served for forty-five years, but who shall have served faithfully until retired, on the completion of forty years from their entry into the service, shall also from that time have the relative rank of commander; and staff officers who have been or shall be retired for causes incident to the service before arriving at sixty-two years of age shall have the same rank on the retired list as pertained to their position on the active list: Provided, however, That nothing contained in this section shall be construed to increase the pay now provided for said several staff officers.

Sec. 12. That the chiefs of the Bureau of Medicine and Surgery, Provisions and Clothing, Steam Engineering, and Construction and Repair, shall have the relative rank of commodore while holding said position, (or if heretofore or hereafter retired therefrom by reason of age or length of service,) and shall have, respectively, the title of Surgeon General, Paymaster General, Engineer-in-Chief, and Chief Constructor: Provided, That when the office of chief of bureau is filled by a line officer below the rank of commodore, said officer shall have the relative rank of commodore during the time he holds said office: And provided further, That the pay of chiefs of bureau in the Navy Department shall be the highest pay of the grade to which they belong, but not below that of commodore; and officers of the staff now on the retired list shall have the rank thereon to which they would have been entitled had they remained in the active list, unless they shall be entitled to higher rank. That commanding officers of vessels of war and of naval stations shall take precedence over all officers placed under their command, and the Secretary of the Navy may, in his discretion, detail a line officer to act as the aid or executive of the commanding officer of a vessel of war, or naval station, which officer shall, when not impracticable, be next in rank to said commanding officer, and who, as such aid or executive, shall, while executing the orders of the commanding officer, on board such vessel, or at such station, take precedence over all officers attached to such vessel or station; and all orders of such aid or executive shall be regarded as proceeding from the commanding officer; and such aid or executive shall have no independent authority in consequence of such detail; and staff officers, senior to the officer so detailed, shall have the right to communicate directly with the commanding officer, and in processions on shore, on courts martial, summary courts, courts of inquiry, boards of survey, and all other boards, line and staff officers shall take precedence according to rank.

Sec. 13. That all acts and parts of acts inconsistent with this act are hereby repealed.

Approved, March 3, 1871.

[GENERAL NATURE—No. 50.]

An act making appropriations for repair, preservation, and completion of certain public works on rivers and harbors, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums of money be, and are hereby, appropriated, to be paid out of any money in the treasury not otherwise appropriated, to be expended under the direction of the Secretary of War, for the repair, preservation and completion of the following public works hereinafter named:

For improvement of Superior City harbor, Wisconsin, sixty thousand dollars.

For improvement of Marquette harbor, Lake Superior, Michigan, sixty thousand dollars.

For improvement of Green Bay harbor, Wisconsin, seventeen thousand five hundred dollars.

For improvement of Manitowish harbor, Wisconsin, eleven thousand dollars.

For improvement of Sheboygan harbor, Wisconsin, fifteen thousand dollars.

For improvement of Port Washington harbor, Wisconsin, fifteen thousand dollars.

For improvement of Milwaukee harbor, Wisconsin, thirty-eight thousand dollars.

For improvement of Racine harbor, Wisconsin, ten thousand dollars.

For improvement of Kenosha harbor, Wisconsin, ten thousand dollars.

For improvement of Two Rivers harbor, Wisconsin, twenty five thousand dollars.

For improvement of Ahnapee harbor, Wisconsin, twenty five thousand dollars.

For improvement of harbor at mouth of Menominee river, Wisconsin and Michigan, twenty five thousand dollars.

For improvement of the north and south branches of the Shrewsbury river, New Jersey, fourteen thousand dollars.

For improvement of Aux Becs harbor, Michigan, ten thousand dollars.

For improvement of South river, New Jersey, fifteen thousand dollars.

For the removal of obstructions of Salem river, New Jersey, four thousand dollars.

For improvement of Manistee harbor, Michigan, nine thousand dollars.

For improvement of Onondaga river from the Louisiana State line to the town of Arkadelphia, in the State of Arkansas, on said river, twenty five thousand dollars.

For improvement of Pere Marquette harbor, Michigan, ten thousand dollars.

For improvement of Pentwater harbor, Michigan, ten thousand dollars.

For improvement of White river harbor, Michigan, twenty thousand dollars.

For improvement of Muskegon harbor, Michigan, five thousand dollars.

For improvement of Grand Haven harbor, Michigan, six thousand dollars.

For improvement of Black Lake harbor, Michigan, ten thousand dollars.

For improvement of Saginaw harbor, Michigan, ten thousand dollars.

For improvement of Cheboygan harbor, Michigan, ten thousand dollars.

For improvement of South Haven harbor, Michigan, fifteen thousand dollars.

For improvement of Saint Joseph harbor, Michigan, ten thousand dollars.

For improvement of Saint Mary's Falls canal and Saint Mary's river, Michigan, two hundred and fifty thousand dollars.

For improvement of Au Sable river, Michigan, ten thousand dollars.

For harbor of refuge, Lake Huron, Michigan, one hundred thousand dollars.

For improvement of Clinton river, Michigan, one thousand five hundred dollars.

For improvement of Saint Clair flats, Michigan, one thousand five hundred dollars.

For improvement of Toledo harbor, Ohio, fifty thousand dollars.

For improvement of Ashland harbor, Ohio, fifteen thousand dollars.

For clearing and buoying the channel of the Schuylkill river, at its mouth, at Gibson's point, and above to the Chestnut-St. bridge, Philadelphia, Pennsylvania, ten thousand dollars.

For improvement of Erie harbor, Pennsylvania, twenty nine thousand dollars.

For improvement of Chicago harbor, Illinois, one hundred thousand dollars.

For harbor of refuge at Calumet, Illinois, fifty thousand dollars.

For improvement of Michigan City harbor, Indiana, fifteen thousand dollars.

For improvement of Dunkirk harbor, New York, twenty five thousand dollars.

For improvement of Port Jefferson harbor, Long Island, New York, fifteen thousand dollars.

For improvement of Buffalo harbor, New York, one hundred thousand dollars.

For improvement of Okech harbor, New York, five thousand dollars.

For improvement of Oak Orchard harbor, New York, ten thousand dollars.

For improvement of Charlotte harbor, New York, ten thousand dollars.

For improvement of Little Sodus harbor, New York, fifteen thousand dollars.

For improvement of Putneyville harbor, New York, five thousand dollars.

For improvement of Oswego harbor, New York, one hundred thousand dollars.

For improvement of Ogdensburg harbor, New York, twenty five thousand dollars.

For improvement of Plattsburgh harbor, New York, twenty five thousand dollars.

For the improvement of Peconic river, below the village of Riverhead, Long Island, five thousand dollars.

For improvement of Burlington harbor, Vermont, thirty thousand dollars.

For the preservation of the falls of Saint Anthony, and the navigation of the Mississippi river above the same, fifty thousand dollars.

For improvement of the Ouachita river, in Louisiana, from the Arkansas State line to the mouth of said river, twenty-six thousand dollars.

For improvement of the upper Mississippi river, and removing snags, and dredging, forty-two thousand dollars.

Provided, That no part of such sum shall be paid for the use of any patent or patented machine in which any engineer or officer employed by the government may be interested.

For improvement of the Minnesota river, ten thousand dollars.

For improvement of the Rock Island rapids, one hundred and fifty thousand dollars.

For improvement of the Des Moines rapids, two hundred and fifty thousand dollars.

For improvement of the Mississippi, Missouri, and Arkansas rivers, one hundred and fifty thousand dollars.

For improvement of the mouth of Mississippi river, one hundred and twenty-five thousand dollars.

For improvement of the falls of the Ohio river, and Louisville canal two hundred and fifty thousand dollars.

For improvement of the Ohio river, fifty thousand dollars.

For improvement of Quenstown harbor, Maryland, five thousand dollars.

For improvement of harbor at Cambridge, Maryland, ten thousand dollars.

For improvement of the ship-channel in the Patuxent river and Chesapeake bay, leading toward the harbor of Baltimore, fifty thousand dollars.

For improvement of the channel at the mouth of Cape Fear river, North Carolina, seventy-five thousand dollars.

For improvement of Roanoke river, below Weldon, North Carolina, twenty thousand dollars.

For improvement of the ship-channel in Charleston harbor, South Carolina, thirteen thousand dollars.

For improvement of the James river, below Richmond, Virginia, fifty thousand dollars.

For improvement of the Appomattox river, below Petersburg, Virginia, fifty thousand dollars.

For improvement of the Rappahannock river, Virginia, fifteen thousand dollars.

For improvement of the Hudson river, New York, forty thousand dollars.

For improvement of the East river, New York, including Hell Gate, two hundred and fifty thousand dollars.

For improvement of Pawtucket river, Rhode Island, seven thousand dollars.

For construction of break-water at Block Island, Rhode Island, seventy-five thousand dollars.

For improvement of Pawtucket river, Rhode Island and Connecticut, ten thousand dollars.

For improvement of Thames river, Connecticut, fifteen thousand dollars.

For improvement of Connecticut river, above Hartford and below Holyoke, twenty thousand dollars.

For improvement of Connecticut river, below Hartford, thirty-five thousand dollars.

For improvement of New Haven harbor, Connecticut, forty thousand dollars.

For improvement of the Housatonic river, Connecticut, fifteen thousand dollars.

For improvement of Bridgeport harbor, Connecticut, twenty thousand dollars.

For improvement of Taunton river, Massachusetts, ten thousand dollars.

For improvement of Housatonic harbor, Massachusetts, ten thousand dollars.

For improvement of Freetown harbor, Massachusetts, six thousand dollars.

For improvement of Plymouth harbor, Massachusetts, ten thousand dollars.

The owner is hereby notified to come forward, prove property and pay charges, or the same will be disposed of as the law directs. 13-4-71wft. FRANK HUEBNER.

CELEBRATION

OF THE
Twenty-Fifth Anniversary

Of the founding of the city of
Fredericksburg.

The above celebration will take place on Monday and Tuesday, the
5th and 6th of May, 1871.

All those who take an interest in the settlement of Fredericksburg, especially all old settlers, are invited to attend.

Reception of guests on Sunday, the 7th of May.

By order of the Committee of Arrangements.
WM. WAHRMUND.

Administrator's Notice.

In pursuance of an order made by the Honorable the District Court of Bexar county, made on the 16th April, 1871, in the matter of the estate of Dan H. Ragdale, dec'd, I offer at private sale six hundred acres of land of the lower part of 1476 acre of land sold by C. de Monte to D. H. Ragdale and A. H. Davidson, situated on the Medina river, in Bexar county. A particular description will be given by the undersigned, upon application at the store of Steele & Williams.

WM. STEELE,
Adm'r of Estate of D. H. Ragdale.

The Daily Express

OFFICIAL JOURNAL OF THE UNITED STATES.
OFFICIAL JOURNAL OF BEXAR COUNTY AND
CITY OF SAN ANTONIO.

A. SIEMERING & CO., Publishers.

STANLEY WELCH, Editor.

SATURDAY, APRIL 29, 1871.

EXECUTIVE DEPARTMENT,
Austin, August 28d, 1870.

To A. Siemering & Co.,
You are hereby notified that I have this day
appointed your paper, "The San Antonio Ex-
press," the Official Journal of the twenty-third
Judicial District.

In testimony whereof, I have hereunto signed
my name and caused the Great Seal
of the State to be affixed, at the city
of Austin, this 23d day of August, in
the year of our Lord one thousand eight hun-
dred and seventy, and the Independence of
Texas, the thirty-fifth.

EDMUND J. DAVIS, Governor.

By the Attorney General,
JAMES P. NEWCOMB.

NOTICE TO REPUBLICANS.

The undersigned having been selected
a member of the Republican State Execu-
tive Committee for the 23rd Judicial Dis-
trict, comprising the counties of Bexar,
Comal and Wilson, hereby give notice
that he will act as such member for said
District, and calls upon the county Execu-
tive committees of Bexar, Comal and
Wilson, to at once report to him the condi-
tion of their respective counties, and the
names and Post office addresses of the mem-
bers of the County committees. More by
Circular.

A. SIEMERING,
San Antonio, March 10th, 1871.

NOTICE

To the Republicans of the 26th Judicial District.

The undersigned having been selected a
member of the Republican State Execu-
tive Committee, for the 26th Judicial Dis-
trict, comprising the counties of Ken-
dall, Kerr, Gillespie and Blanco; herewith
respectfully calls upon the county execu-
tive committees of the above named coun-
ties, to report to him the condition of their
respective counties as soon as possible,
giving their full names and post office ad-
dresses, and also communicate with the
undersigned freely, in order to complete a
thorough organization of this District.

AD. ZOELLER,
Austin, March 10th, 1871.

Governor Davis.

As day after day, we look over the politi-
cal arena, and we see the masses of lob-
yists and corruptionists gathering their
forces for the charge upon the legislature,
we instinctively look around to see where
our protection is to come from; how the
State is to be saved from the bankruptcy
and the years of burdensome taxation like-
ly to be thrust upon our people by the suc-
cess of the schemes of the plunderers.

In the back ground, calm and cool, we
see a hardy, plucky little band of true re-
publicans, whom money cannot buy, whom
bullying cannot control, and upon whom
sycophancy and flattery is but thrown
away; and leading them, holding them in
bands of true brotherhood, by the ties of
logic, of sound judgment, and eminent
statesmanship, stands a towering central fig-
ure; that of him to whom we look for our
State's safety, Governor Edmund J. Davis.

Since the hour when Sam Houston ap-
peared upon the stormy scenes of '41, and
proved a savior to the State, there has
been no man to whom the people could look
and feel through confidence in, at the head
of the Executive Department, as upon Gov-
ernor Davis. Calmly our present Governor
has taken bearings of the dangerous situa-
tion in which the welfare of the State has
been placed at different times, and his wis-
dom, his moderation, his mind, have so di-
rected matters as to avert from the State
the threatened ills of internal disorder, dis-
struction of State credit, and general retro-
gression to a deplorable situation of inter-
national panic.

In all this, while his voice has been
heard and heeded, he has been, by creat-
ures of baleful issues and destructive ten-
dencies, almost most violently—even as the
Jewish rabble baited and mocked and re-
viled He who came as their savior, so a
pseudo democracy have turned loose all
the engines of their abusive press to try
and crowd him from his duty and crowd
him from the affections of a people who
daily perceive, in the changed and happy
aspect of affairs, how much they owe him.

Their efforts have signally failed, and as
day after day the people's faith in him
grows stronger, they but hurl their last
and bitterest curses at him because he will
not listen to their destructive doctrines.

In Governor Davis the people behold a
republican in the truest meaning of the
term: They behold in him a man who has
lent every energy of mind and heart, to
good works for the good of his people. He
has passed through all the fire of democra-
tic hate, and, like the pure silver, has come
forth brighter than ever in the people's es-
timation, by the ordeal to which he has
been submitted.

A few months more and democracy will
be in the last ditch. The people, in driving
it and its cursed teachings from all power,
will have vindicated their possession of
reason and common sense. Texas' foster
father and savior, Sam Houston, met the
same bitterness, when, from a distracted,
debt and tax-ridden people, he brought
forth a prosperous, well-managed State.

Governor Davis has faced his enemies—
has never flinched nor faltered for a mo-
ment in his earnest convictions of right,
and history will place his name with that
of Houston's upon the brightest of its
pages, and coming generations will speak
his name with the same pride as that with
which they now speak that of the earlier
Texas hero.

King Victor Emmanuel's morganic
wife is said to be so illiterate
that she is barely able to read.

The Division Question.

It is a singular fact, that while fully two-
thirds of the newspapers are in favor of
division, there are no two of them, scarcely,
that agree upon the lines as proposed. Rep-
resentative Robinson has introduced into the
House another bill, prescribing such bound-
aries as prevents the dividing of present
county lines, and although it conflicts with,
and will doubtless cause much delay, the
other bill introduced in the Senate, we
hope it will receive consideration. To
republicans, we would propose a joint can-
didate, say of Senators and Representatives,
and the selection of dividing lines by that
body, to become the system of division to
be received with favor in both branches of
the legislature.

A better understanding of the whole mat-
ter can in this way be secured, and many
delays and difficulties overcome. In the
late action of the lobbyists and speculators
to secure valuable charters, franchises and
subsidies, on promises as "light as air," we
perceive a dangerous tendency of Eastern
Texas to monopolize, as heretofore, valu-
able legislation, upon public and internal
improvements, to herself. In the opposition
with which the State road, the International
route, has met with, we see the same
eastern influence at work—an influence
that so to speak, is under the control of
the central road ring, and which proposes
to use that influence to the advantage of
its own clique.

To say that a monopolization of the leg-
islature by the Eastern factions is detri-
mental to our interests, is to say but half.
It is really burdensome. Here, after two
sessions, we have just been able to procure
stock laws, and even they are not yet fully
through the red tape routine, which all our
Western bills have to go through with
here, near the close of the second session,
the two important questions of immigra-
tion and education have just come up.

Now, in all this delay that a vindication
of our interests meets with, we do not charge
the Eastern members with intentional
wrong; we only desire to show that this
State is too large in area, too extensive in
population, too unequally represented, to
give the East and West alike, full benefits
of all legislative action, either on public
improvements or internal measures of safety.

Had West Texas been a State by herself,
untrammelled by the bitter animosities of
an Eastern Senator in Congress, Mr. Flan-
gan, or one from Central Texas, Mr. Mor-
gan Hamilton, we are satisfied the ques-
tion of an Indian policy that would provide her
a thorough and effective defence, would
have been settled long ago.

On the question of figures, we are satisfied
we have the advantage. The taxes paid
in to the State Treasury to-day by the
West, would effectually support a govern-
ment for our section, providing men of in-
tegrity and well balanced judgment were
placed in power. Again, every inch of soil
of West Texas, is enhanced in value by
the very act of division itself. Why? Because
the amounts we have hitherto paid for im-
migration systems (from which we have
never received a farthing's return) and that
which our people have been taxed for, in
supporting eastern schemes of internal im-
provement, (we have never had a dollar ex-
pend for us), would be expended upon
our own section of country. We would
have immigrants coming hither by thou-
sands. We would have a railroad or rail-
roads, as if by magic, for the bar and hin-
drance that has hitherto been met at the
Capital, to encouragement of western en-
terprises, would no longer exist.

In fact, we consider the fact of "Eastern
antagonism" in itself, a weighty cause for
division. An antagonism that never showed
itself plainer, perhaps, than in the subsid-
izing of a Confederate General to tear up
and destroy the only railroad in our West
section, under a malicious plea of "military
necessity."

The West lacks nothing in the elements
of future greatness. She has fine beautiful
harbors; she has centres adapted to unlim-
ited spread of manufacturing interests; she
has valleys that rival the world for produc-
tiveness in agriculture; she has spread of
lands, over which millions of cattle roam,
which feature is in itself, an immensity of
wealth when railroads intersect these cat-
tle regions. She has endless mineral and
metallurgical wealth; she is the destined
section of country, where the connecting
link of the two oceans, is to be found; and
in fact, we might write pages, and then not
exhaust the facts that point to a wonderful
impetus in prosperity to be gained by the
West, whenever she is freed from the trammels
of the East, who in reality cares but
little for her, as long as she is not numer-
ically strong enough to defeat their (the
Eastern) aims of legislation. Now, let our
Legislature do us justice in this matter;
give us what will eventually prove to the
advantage of all concerned. Give us Div-
ision. The issue between the Senate and
the House of Representatives bill that will
probably now arise, can be settled before-
hand in joint Republican caucus, and in the
name of all that is right, all that is Repub-
lican, let the fiat of division go forth.

Mr. E. Remington, inventor of the war
weapon which bears his name, has shown
generous rivalry in peaceful things by giv-
ing \$10,000 for the building of a new Meth-
odist Church in Syracuse.

A man seventy-three years old, residing
in Columbia, Mo., lost his wife about six
weeks ago, and has since married a girl
not quite twelve years old. Her parents
forced her to the marriage.

A Newark barber started out the other
evening to "go to the lodge." His wife en-
tered a masquerade ball at 10 o'clock; took
him by the arm, and led him away
from his young partner in costume, with
the gentle remark, "This is the way you
go to the lodge, is it?"

OFFICIAL

L A W S

OF THE

UNITED STATES,

Passed at the Third Session of
the Forty-first Congress.

[GENERAL NATURE—No. 56.]

An act making appropriations for repair,
preservation, and completion of certain
public works on rivers and harbors, and
for other purposes.

(Continued.)

For improvement of navigation at the
"Gut," opposite Bath, Maine, six thousand
five hundred dollars.

For improvement of the Penobscot river,
at Bangor, and below, Maine, fifty
thousand dollars.

For improvement of Union river, Maine,
fifteen thousand dollars.

For improvement of Royal's river, Maine,
ten thousand dollars.

For improvement of Narragansett river,
Maine, twelve thousand dollars.

For improvement of Sullivan river,
Maine, ten thousand dollars.

For improvement of White, Black, and
Little Red rivers, in the State of Arkansas,
ten thousand dollars.

For improvement of Saint Francis river,
in the State of Arkansas, ten thousand
dollars.

For improvement of the Little Missouri
river, in the State of Arkansas, ten thou-
sand dollars.

For improvement of the Cumberland
river below Nashville, Tennessee, thirty
thousand dollars.

For improvement of Galveston harbor,
Texas, twenty thousand dollars.

For construction of breakwater at Wash-
ington harbor, California, two hundred
thousand dollars.

For improvement of the Umpqua river,
Oregon, twenty-two thousand five hun-
dred dollars.

For the improvement of the bar at the
mouth of the Saint John's river, Florida,
fifteen thousand dollars.

For improvement of Malibu harbor, Ala-
bama, fifty thousand dollars.

For improvement of the usage river, Mis-
souri, twenty-five thousand dollars.

For improvement of the harbor at Du
Luth, Minnesota, sixty thousand dollars.

For improvement of the Willamette
river, above Oregon city, Oregon, sixteen
thousand dollars.

For examination and surveys for im-
provement on the northern and north-west-
ern lakes and rivers, and the Atlantic and
Pacific coasts, and for contingencies of riv-
ers and harbors not provided for in this act,
one hundred and seventy-five thousand
dollars.

Sec. 2. That all moneys heretofore ap-
propriated for the improvement of the
Tennessee river, and still unexpended,
shall be expended, under the direction of
the Secretary of War, for the repair and
completion of the works heretofore begun
between Knoxville and Chattanooga, and
for the completion of the works now in
progress below Chattanooga, including the
Muscle shoals.

Sec. 3. That the Secretary of War is
hereby directed to cause examinations or
surveys, or both, to be made at the follow-
ing points, namely: At Galveston harbor,
from the outer bar up to the Red Fish bar,
on or nearest to the west shore; at Missis-
sippi city, for harbor on Mississippi sound;
at Black river, Missouri, to Poplar bluff;
at Curlew river, Missouri, from its mouth
to Van Horn; at Otter creek, Vermont;
at Norfolk harbor, Virginia; at Kureka
harbor, and at Santa Cruz, California; at
Passaic river, between Newark and Pas-
saic, New Jersey; for ship-canal from the
head of Sturgeon bay, Wisconsin, on the
line now opened across the portage
through the timber to the shore of Lake
Michigan, with estimates for constructing
the same one hundred feet wide and thirty-
two feet deep; at East Chester creek or
inlet, New York; at Port Chester harbor,
New York; at Rondout harbor, Hudson
river, New York; at Maumee river, above
Toledo, Ohio; at Fourche La Pave river,
Arkansas; for surveying of Monroe harbor,
Michigan; for survey and estimate for
removing middle bar and at the mouth of
Black river, in Saint Clair river, Michigan;
harbor at Stonington, Connecticut; at
Grand Marais, Michigan; at Newisco bay,
Virginia; at Accotink bay, Virginia; at
Savannah harbor, Georgia; at Wells har-
bor, Maine; at Coosa river, Alabama; at
Huntingdon harbor, on south coast of Long
Island sound; and to complete the survey
of the Cumberland river, and the survey
of the Tennessee river, from Brown's ferry
to Florence, Alabama; at Choctaw har-
bor river, Florida; at Aquic creek, Vir-
ginia; for survey of White river, from
Buffalo shoals to the mouth of James fork,
Missouri; for the survey of the Wabash
river, from its mouth to the city of Lata-
hite; for survey of the Mount galeata
lake, from New Tennessee, in Pennsylvania,
to Morgentown, in West Virginia; for a
survey beginning at or near Guttersville, on
the Tennessee river, to the headwaters of
the Warrior and Coosa rivers, in Alabama,
with the view of determining the practica-
bility of uniting the waters of the Tennes-
see river with the waters of the Warrior or
Coosa river for the purposes of navigation,
and estimates for necessary locks and
dams to extend the navigation on said
river to the intended place for examina-
tion and survey of the Etowah river,
from its mouth up to Cartersville, Geo-
gia, and also for examination and survey
of Achehalaya bay and Calcasieu passes,
Louisiana; of the Oosteenania river; from
Rouse, Georgia, up to the mouth of the
Coosawattee; at Chattahoochee river, be-
low Columbus, Georgia; at the mouth of
the Saint John's river, from the outer bar
to Jacksonville, Florida; at the mouth of
the St. Mark's river, from Spanish Hole
to St. Mark's, Florida; at Apalachicola bay,
Florida; at Tampa bay, at Tampa, Flor-
ida; for survey of Fifteen-mile falls;
at Elizabeth and Tamsenow river, Vir-
ginia; at Camden, Arkansas; to Trinity,
Louisiana, on Ouachita river; at Golds-
boro, North Carolina, to the mouth of
Neuse river; at the mouth of Licking
river, Kentucky, for harbor of refuge; for
survey of the Cape Fear and Deep rivers,
as far up as La Grange, North Carolina;
at Quiver river, Missouri, from its mouth
to Moscow Mills; at Bayou Bartholomew,
from its mouth to the Arkansas State
line; for the examination and survey of the
Tangipahoa and Chiffante rivers, in the
State of Louisiana; for the survey of
Horse Shoe shoals, in the Delaware river,
below Philadelphia, Pennsylvania; for
the survey of the harbor of Newark, Con-
necticut; for surveying the months of
Quantic and Choppa Wamasie bays, Vir-
ginia; for examination and survey of Red
river, the month to a point above the craft
in Louisiana.

Sec. 4. That the unexpended balances
of appropriations made by the act ap-
proved July eleven, eighteen hundred and
seventy, entitled "An act making appro-
priations for the repair, preservation, and

completion of certain public works in
rivers and harbors, and other purposes, for
the fiscal year ending June thirty, eight-
een hundred and seventy-one, are hereby
re-appropriated for the purposes therein
specified: Provided, That any part of the
appropriations made by this act may, at
the discretion of the Secretary of War, be
applied during the current fiscal year.
Approved, March 3, 1871.

[GENERAL NATURE—No. 56.]

An Act making appropriations for the ser-
vice of the Post Office Department for
the year ending June thirty, eighteen
hundred and seventy-two, and for other
purposes.

Be it enacted by the Senate and House
of Representatives of the United States of
America in Congress assembled, That the
following sums be, and the same are
hereby, appropriated for the service of the
Post Office Department for the year ending
June thirty, eighteen hundred and seventy-
two, out of any moneys in the treasury
arising from revenues of said department, in
conformity to the act of July two, eighteen
hundred and thirty-six:

For inland mail transportation, twelve
million three hundred and twenty-nine dol-
lars.

For pay of mail messengers, five hundred
and six thousand two hundred and four-
teen dollars.

For pay of mail route agents, seven hun-
dred and eighty six thousand five hundred
and sixty nine dollars.

For pay of mail route messengers, fifty-
nine thousand four hundred and four dol-
lars.

For pay of local agents, forty nine thou-
sand and forty four dollars.

For pay of railway post office clerks, five
hundred and eighty five thousand three
hundred and eighty eight dollars.

For pay of baggage masters in charge of
through mails, five thousand dollars.

For foreign mail transportation, four hun-
dred thousand dollars.

For ship, steamboat, and way letters, ten
thousand dollars.

For pay of postmasters, five million one
hundred thousand dollars.

For pay of clerks in post offices, two mil-
lion six hundred thousand dollars.

For pay of letter carriers, one million four
hundred thousand dollars.

For wrapping paper, thirty five thousand
dollars.

For wine, thirty five thousand dollars.

For letter balances, two thousand five
hundred dollars.

For pay of blank agents, ten thousand
dollars.

For office furniture, two thousand five
hundred dollars.

For advertising, fifty thousand dollars:
Provided, That no part of this sum shall be
paid to any paper published in the District
of Columbia for advertising mail routes
other than those in Virginia and Maryland.

For manufacture of adhesive postage,
one hundred and fifty nine thousand dol-
lars.

For manufacture of postage stamped en-
velopes and newspaper wrappers, four hun-
dred and fourteen thousand two hundred
dollars: Provided, That no envelope as fur-
nished by the government shall contain any
lithographing or engraving, and no print-
ing except a printed request to return the
letter to the writer.

For salary of distributing agents and as-
sistants, and incidental expenses of agency,
six thousand eight hundred dollars.

For mail depositions and special agents,
one hundred and twenty five thousand dol-
lars.

For mail bags and mail bag catchers, one
hundred and eighty thousand dollars.

For mail locks and keys, forty thousand
dollars.

For post marking and canceling stamps
for post offices, twelve thousand five hun-
dred dollars.

For balances due foreign countries, two
hundred thousand dollars.

For preparing and publishing post route
maps, twenty thousand dollars.

For rent of post offices, two hundred
thousand dollars.

For fuel for post offices, one hundred
thousand dollars.

(To be continued.)

READ CAREFULLY.

Ague and Fever.

The only preventative known for Chills
and Fever is the use of Wolfe's
Schiedam Schnapps.

Wolfe's Schiedam Schnapps.
Is good for Dyspepsia.

Wolfe's Schiedam Schnapps.
Is a preventative of Chills and Fever.

Wolfe's Schiedam Schnapps.
Is good for all kidney and bladder com-
plaints.

Wolfe's Schiedam Schnapps.
Is used all over the world by physicians
in their practice.

Wolfe's Schiedam Schnapps.
Is good for Gout.

Wolfe's Schiedam Schnapps.
Is good for all Urinary complaints.

Wolfe's Schiedam Schnapps.
Is recommended by all the Medical Faculty.

Wolfe's Schiedam Schnapps.
Is good for Colic and pain in the stomach.

Wolfe's Schiedam Schnapps
Is limited and counterfeited, and pur-
chasers will have to use caution in
purchasing.

I beg leave to call the attention of the
reader to testimonials in favor of the
Schnapps:

I feel bound to say that I regard the
Schnapps as being in every respect pre-
eminently pure, and deserving of medical
patronage. At all events it is the pure-
st and most valuable article of Holland gin, heretofore
unobtainable, and as such may be
safely prescribed by physicians.

DAVID L. MOTT, M. D., Pharmaceu-
t, Chemist, New York.

Louisville, Ky., Sept. 1. I feel that I
have never an article of gin suitable for
such cases as that remedy is adapted to.

DR. J. W. BRIGHT.

"Schnapps" is a remedy in chronic
tarrhal complaints, etc.

I take great pleasure in bearing high-
creditable testimony to its efficacy as a
remedial agent in the diseases for which
you recommend it. Having a natural ten-
dency to the mucous surfaces, with a slight
degree of stimulation, I regard it as one
of the most important remedies in chronic
catarrhal affections, particularly those of
the genito-urinary apparatus. With most
respect, your obedient servant,

CHAS. A. LEAS, M. D., New York.

26 Pine Street, New York, Nov. 21, 1867.

—Udolpio Wolfe, Esq., Present: Dear Sir:

I have made a chemical examination of a
sample of your "Schiedam Schnapps"
with the intent of determining if any
poison or injurious substance had been added
to the simple distilled spirits.

The examination has resulted in the con-
clusion that the sample contained no
poisonous or harmful admixture. I have
been unable to discover any trace of the dele-
terious substances which are sometimes
employed in the adulteration of liquors.
I would not hesitate to use myself, nor to
recommend to others, for medicinal pur-
poses, the "Schiedam Schnapps" as an ex-
cellent and unobjectionable variety of gin.
Respectfully yours,

(Signed) CHAS. A. SEELY, Chemist.

NOTICE.
All legal advertisements in the San Antonio Express must from this date be paid in advance, except where otherwise provided by law. Advertisements of short duration, under execution, or by order of Court, are required by law to be paid out of the proceeds of the sale. This is the only exception to the rule of prepayment. We wish not to be asked to deviate from this rule.
PUBLISHER SAN ANTONIO EXPRESS.
See advertisement of Dr. Hatter's Dispensary, headed "Book for the millions" MARRIAGE GUIDE—in another column.
A good opportunity to make up spring and summer clothing. Those who do not wish to purchase a sewing machine, can now rent one by the month, at the Sewing Machine office, on Main street, opposite L. Zork's.
THE boys are all playing "little barefoot,"
PIC-NICS are the order of the day.
STRAW HATS and linen clothing are necessary for comfort this weather.
THE Turner festivities commence to-day, and continue until Monday.
THERE was a general flutter of excitement in all circles yesterday morning, over the expected arrival of Gen. Sherman.
We would like to see the supply of street sprinklers increased. We believe they are necessities this breezy weather.
FARMERS and gardeners in this section of country are planting their second crops of vegetables.
THE building next to Sartor's is nearly completed. It is to be devoted to a drinking saloon and fine billiard room.
We advise all our readers to let mulberries alone. The physicians report a number of dangerous cases of cramp, resulting from using them.
We learn there are to be one or two more vacancies in the police filled. We suggest to Republican managers the selection of none but true, earnest, capable Republicans to fill those vacancies.
Of course we had our flag on yesterday. Why shouldn't we? Gen. Sherman belongs to our side of the house, and we were more than glad to greet him with a sight of the old flag that he followed so nobly on the "march to the sea."
WONDER why some of our sportsmen do not get up a pigeon shooting match. It is fast becoming in other cities, a popular American amusement. There are plenty of pigeons in San Antonio, and many fine shots.
ALWAYS READY.—The world renowned Singer's Sewing Machine, with all the very latest improvements and attachments. The champion machine of the world. The largest assortment ever offered in this market, and "always ready" at the Furniture warehouses of Reed & Mather, agents for the same. [28d314w11]
THE city recorder has fortified himself by a data and x-ralling to keep out the "vulgar herd." If he could now fortify himself with a little more "equal and exact justice," and some slight knowledge of law and evidence, we might think he was really carrying his four thousand a year.
LOGIC.—Merchants who build up and support the city by paying taxes, have to take out licenses to enter into their purchases and sale of goods, but the Herald thinks because a man comes from NEW YORK and buys, he ought not to be taxed. Query—How long would it be before our merchants would be bankrupt, and New Yorkers all Jim Fisks?
We observed a crowd of city jail inmates being marched out to work yesterday. Such a system of utilizing an expensive material is eminently proper. It is one of the systems that the excellent police ideas of Captain Kempton have left to us.
\$500,000 from our county, and proportionate amounts along the proposed route is all that Morgan asks for condescending to build our people a railroad to this place.
THE MATTER IN A NUTSHELL.—Mr. Martin Mason and Mr. Grenet and other well known merchants in our place, buy wool, hides, and other country produce; they pay State, Government and City taxes, and take out State, Government and City licenses, for the privilege of such purchases. Mr. A. B. comes from New York, and goes into the market as a buyer, desiring to ship all he buys to New York. Will the San Antonio Herald please state why Mr. A. B. should not be made to take out a license? Will the San Antonio Herald state why our home merchants are to be placed at a disadvantage because Mr. A. B. comes from New York? If our home merchants are to be taxed, and New York merchants, who are taking just so much business out of their hands, and so much of profit, are to escape taxation, why not let New York pay the running of our municipal machinery? It would then be run exclusively for their benefit.
We were favored yesterday with the first number of the third volume of the Texas Farmers Gazette, edited by Judge Stiermer, and believe rightfully that he has reason to be proud of that journal. Its appearance, typographically speaking, is very handsome, and sixteen pages of solid reading matter, attest to the labor expended in making it a first-class farmers' journal. Its circulation is well up into the thousands, so in every way we can pronounce it a success. We congratulate its editor and proprietors upon the auspicious commencing of their third volume.

REED & MATHER have just received a large assortment of Furniture and House Furnishing goods—elegant wardrobes, sideboards, bureaus, marble-top tables, sewing stands, music stands, fine bedroom and parlor sets. Also, the new patent bed-folding lounge and canopy mosquito bar. A large variety of wire and tin safes, cheap bedsteads, wash stands and tables; all kinds of mattresses made to order. Also, agents for Singer's sewing machines. [28d314w11]
At twenty minutes past one yesterday, the first gun from the Alamo Plaza signified the arrival of Gen. W. T. Sherman, who entered our city with his staff and accompanied by Generals Reynolds and Carleton and Major Thielepape, who had gone out to meet him. We trust the General's stay in our fair city may prove eminently a pleasant one.
Proceedings of the City Council.
Called meeting, April 28, 1871
Present, his honor, Mayor Thielepape. Councilmen, Messrs. Bell, Pentenreider, Moore, Durler, Norton and Groos.
The object of the call was explained by the Mayor, which was to provide for an entertainment in welcome of General Sherman.
On motion it was voted to appropriate (\$500) five hundred dollars (currency) towards said entertainment.
The following citizens were chosen to act upon the committees necessary for said entertainment:
For Finance Committee—Messrs. J. S. Lockwood, H. Grenet, D. Bell, W. W. Gamble, and J. T. Thornton.
For Committee of Arrangements—Messrs. W. C. A. Thielepape, E. D. L. Wickes, J. H. Kampman, J. F. Minter, G. Durler, and J. W. Moore.
For Floor Committee—Messrs. J. Withers, C. Upson, M. Sloeum, T. H. Stribling, and W. C. A. Thielepape.
Council then adjourned.
THIEVES! KNAVES!! SWINDLERS!!!—These are mild terms with which to designate those adventurers, who have been induced by the high reputation which Dr. Sage's Catarrh Remedy has won to offer for sale a worthless imitation of this celebrated medicine. Remember that Dr. Pierce's private stamp, which is three and a half inches long and has upon it his portrait, and the words "U. S. Certificate of Genuine," is upon every package of the genuine. Sold by druggists or by mail sixty cents. Address Dr. R. V. Pierce, Buffalo, New York. [28-4-71d31]
It is amusing that the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years experience that the world has had of Hostetter's Bitters, all would know that its effect is to prevent disease. At certain seasons the atmosphere is surcharged with the seeds of intermitents, remittents, rheumatism, pulmonary disorders, bilious complaints, and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potent vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest discipline of the old medical dogmas will at least admit that a tonic and alterative, capable of applied herb, roots and barks can do no harm, while the testimony of thousands invites a trial of its virtues. Vigor is the thing most needed in these cases, as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome strength giving preparation that human skill has yet conceived. Hundreds of physicians have abandoned all the official receipts and prescribed this harmless tonic as a preventive and cure for all cases of chills and fevers.
SPECIAL NOTICES.
TWENTY-FIVE CENTS. This amount will buy a bottle of Mrs. Whitney's Syrup, the great soothing remedy for all diseases incident to infants and children.
GETTING MARRIED.
Beware for Young Men, on Social Rites, and the propriety of getting married, with sanitary help for those who feel unqualified for matrimonial happiness. Sent free, in sealed envelopes. Address, HO. HO. HO. ASSOCIATION, Box 1, Philadelphia, Pa.
NOTICE.
To the Corporators of the Independent, San Antonio and El Paso Railroad Company.
Henry Sedgwick, Samuel R. Johnson, W. Westhoff, M. Kriesle, Wm. Koehler, Edward Seeliger, R. W. Davis, L. N. Lawrence, H. H. Melane, C. E. Menzies, J. Dantz, W. J. Locke, A. J. Fontaine, E. King, J. W. Matthews, and E. E. Grothman, corporations named in the Act incorporating "The Independent, San Antonio and El Paso Railroad Company," passed April 27, 1869, are respectfully requested to convene at the City of San Antonio, at 10 o'clock a. m. on the 2nd day of May, 1871, for the purpose of perfecting the organization of said company, under the provisions of said Act.

TESTIMONIALS.
From Gen. C. Scott's "Report of Fashion."
Residing at the fountain-head of American
enterprise, and knowing the interests of the
tailoring business from many years' experience,
we most unhesitatingly pronounce the Shuttle-
stitch, last imported sewing machine of Grover
& Baker, one of the best machines—if not the
very best—in the world for "fashion" use, or for
the use of any trade requiring a light seam in
cloth or leather.
We have used the Grover & Baker Shuttle
Machine No. 1, and find it admirably adapted to
our business. It runs lighter, makes less noise,
and is in every way preferable to the Singer
Machine for either light or heavy manufacture.
Syrup, the great soothing remedy for all
diseases incident to infants and children.
Manufacturer of Clothing,
No. 340 Broadway, New York.
I am the fortunate possessor of one of your
new Shuttle Machines, which you designate as
No. 1. I have used many different machines in
my business during the past eight years, and it
gives me great pleasure in asserting that this
one is far superior in all points to any that I
have ever used—I want no better.
SEBASTIAN BLESH, Boot and Shoe Maker,
124 South 3d Street, St. Louis, Mo.
Having used the different kinds of Sewing
Machines in the market, including Leavitt's,
Singer's and Howe's, have finally adopted your
No. 1 Grover & Baker Machine; and having
used it the past two years, can truthfully say
it proves to be the best machine, and superior
to any we have used.

AN ORDINANCE
Regulating the manner of crossing the
City bridges.
SECTION 1. Be it ordained by the City
Council of the city of San Antonio,
That it shall be deemed an offense for
any person to ride, or drive, any animal or
vehicle, over any street or road bridge
across the San Antonio river, within this
city, in a faster gait than a walk; and
that any person guilty of a violation hereof
shall, on conviction thereof before the
Recorder, be fined in a sum not less than
one dollar, nor more than twenty-five dol-
lars and costs.
Sec. 2. That it shall be deemed an of-
fense for any person to ride, lead or drive
any animal, or vehicle, over any foot
bridge within this city, or to attempt to
do so; and that any person violating this
provision shall, on conviction thereof be-
fore the Recorder, be fined not less than
ten dollars, nor more than fifty dollars
and costs.
Sec. 3. That it shall be deemed an of-
fense for any person to stand on, or, in any
manner, use any bridge within this city
for the purpose of swimming horses or
other animals; and that any person violat-
ing thereof before the Recorder, be fined
not less than one dollar, nor more than ten
dollars and costs.
Sec. 4. That on failure, or refusal to pay
the fine imposed, and the costs incurred
under any of the provisions of this ordi-
nance, the person so failing or refusing
shall be committed to the city prison, or
condemned to labor on the public works
of the city, as provided for by general
Ordinance.
Sec. 5. That this Ordinance shall take effect
and be in force from and after its publication.
Approved,
WM. C. A. THIELEPAPE,
Mayor, City of San Antonio.
Attest:
G. W. BARTHOLOMEW, Jr., City Clerk,
San Antonio, Texas, April 14, 1871. [25-4-71d1m]
An Ordinance.
Restricting the sale of liquor by Bar-
rooms.
SECTION 1. Be it ordained by the City
Council of the City of San Antonio;
That any retailer of ardent spirits, or
other person who shall sell or give to any
habitual drunkard, or minor under four-
teen years of age, within the city limits
any intoxicating drink, or vicious or fer-
mented liquor, shall for each and every
such offense, on conviction thereof before
the Recorder, be fined not less than two
dollars, nor more than ten dollars and
costs; and in default of payment shall be
committed to the city prison, or condemn-
ed to labor on the public works of the
city, as provided by general Ordinance.
Sec. 2. That this Ordinance shall take
effect and be in force, from and after its
publication.
Approved,
WM. C. A. THIELEPAPE,
Mayor City of San Antonio.

MARRIAGE GUIDE.

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cts. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

MS. AFFLICTED AND UNFORTUNATE—No matter what may be your disease, before you place yourself under the care any of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the disease described in his publications, at his office No. 416 Spruce street, above Fourth, Philadelphia.

Consumption, Its Cure and its Preventive.

By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friend are sleeping the dreamless slumber into which, had they only adopted

Dr. Joseph H. Schenck's simple Treatment.

and availed themselves of his wonderful efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is infallible. Its philosophy requires no argument—it is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the arsenal of the medical art is armed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they

"Leave no Sting Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It resumes from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, fortifies and assimilates with the food. Civilization is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no excoriation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

Given up as Lost.

The second thing is, the patients must stay in a warm room until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this season of the country to the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the wrong, they must not sit down quiet; they must walk about the room as much as they can, and as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits. A great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unimpaird health."

Dr. Schenck has discontinued his professional visits to New York and Boston, he has no son, Dr. J. H. Schenck, Jr., still continues to see patients at their offices, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the amide instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated, in a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

Science and Science have met together. Genesis and Geology have kissed each other.

SCIENCE AND THE BIBLE.
A book of thrilling interest and greatest importance to every human being. The Papers, Pulpits and People are all discussing the subject and every man, woman and child wants to read it. The long fierce war is ended, and honorable peace secured. Science is true, the Bible literal, pure and beautiful, both now satisfied and firm friends. God's work days, six actual days, not long periods. This book gives the very cream of science, making its thrilling reality, beauty, wonder and sparkling genius a hundred times more interesting than fiction. **AGENTS WANTED.** Experienced agents will drop their books and secure territory immediately. Address for circulars: ZIEGLER & McCURDY, 303 N. Sixth St., St. Louis, Mo.

JURUBEDA.
WHAT IS IT?
It is a sure and perfect remedy for all diseases of the Liver and Spleen, Enlargement or obstruction of Intestines, Urinary, Uterine, or Abdominal Organs, Poverty or a want of blood, Intermittent or Remittent Fevers, Inflammation of the Liver, Dropsy, Sluggish Circulation of the Blood, Abscesses, Tumors, Jaundice, Scrofula, Dyspepsia, Ague and Fever, or their Concomitants.
Dr. Wells

having become aware of the extraordinary medicinal properties of the South American Plant, called
JURUBEDA.
Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular supply of this wonderful Plant. He has spent much time experimenting and have figured as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the medicinal medicine now presented to the public.

Dr. Wells' Extract of Jurubeda and he confidently recommends it to every family as a household remedy which should be freely taken as a BLEND PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic temperaments.

ELMENDORF & CO.,
Agents for the Copper Mowers and Reapers.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1869—where "The Clipper" met some 40 competitors including all the leading machines built, and was awarded the First Premium and Gold Medal—proves that the proprietors have been able to sustain in the field their claims of superiority for the Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor off the team. The adjustability of the finger-bar, to cut high or low without stopping the team is worth \$25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmers the CLIPPER is the Horse's Friend, and you cannot afford to ignore their welfare. Send for pamphlet—investigate. See or write to some one who has used the CLIPPER. See the Machine yourself before you buy any other.

WONDERFUL RAPIDITY.
Perfectly Regular and Even Distribution of the Seed. Cahoon's Broadcast Seeder. For Sowing all Kinds of Grain and Grass Seed.

The unprecedented success of this Seeder the past season is without a parallel in the history of Agricultural Implements. The farmers of the Country have no longer got to wait in the hurry of Seeding time for the imperfect product of Hand Sowing, nor for the "Slow Coaches," called "Combined seeders, &c., &c."
