BUTLER.—Ben Butler has been heaping coals of fire upon Brick Fomeroy's head. As Ben himself alleges, Mrs. Fomeroy recently engaged him as her coansel in a saint for divorce from her lineband, and the mere sound of Butler's name was enough to make "Brick" compremies the case by the payment of twenty thousand dollars down, and the promise of a yearly sam of six hundred dollars. Butler now facetiously claims that he repays all Brick's abuse by showing him how to provide for his family.

VALUE OF MODRETY. -- Modesty is a very good quality, and one which generally se-companies true merit; it engages and cap-tivates the minds of people; as, on the other hand, nothing is more shocking and disgustful than presumption and hupu-dence.

There are no tests that give so noble a lastre to the cheek of innomence as the tears of filial sorrow.

TESTIMONIALS.

From Genio C. Scott's. "Report of Fashions."

Residing at the frontain-head of American enterprise, and knowing the interests of the tailoring bississes from many years experience, we most unhesitatingly pronounce the Shuttle-stitich, last invented sewing machine of Grover a Baker, one of the best machines—if not the very best—in the world for tailors' use, or for the nee of any trade requiring a tight seam in cloth or leather.

We have used the Grover a Baker Shuttle Machine No. 1, and find it admirably adapted to our business. Il runs lighter, makes less noise, and is in every way preferable to the Singer machine for either light or heavy manufacturing.

Manufacturer of Clothing,
No. 340 Brondway, New York.

I am the fortunate passessor of one of your new Shuttle Machines, which you designate he No. 1. I have used many different machines in my business during the past eight year, and it gives me great pleasure in asserting that this one is far amount in all points to any that I have ever used. I want no better, any that I have ever used. I want no better.
