TRIPANCY.
Any lady who speaks alightingly of min-
isters of religion is not a lady. We were
much displeased with Miss Shallow, (the
Justice's daughter) the other evening.
Referring to the Puritan decision, which
pronounced the white dress to be the only
legitimate garb of the clergy, the misguided
young person said that she should
henceforth always call the parsons the
surplice population.

CANNIBALISM IN LONDON.
It is our melancholy duty to announce
that a gentleman well known in literary
circles and the neighborhood of Boston, a
kind husband, an affectionate father, a de-
voted friend, and an ex-churchwarden,
one at whom the finger of suspicion has
never been pointed, and on whose charac-
ter the breath of calumny has never yet
alighted, was the other day found, devour-
ing a favorite author!

"IMPRESSIONS OF GREECE."
Candle-droppings on the carpet.
A NEW POLICE DUTY.
Some people appear to have singular no-
tions of the power and duties of the police.
In a notice of the earthquake in Wales we
read that "a lady, in the absence of her
husband, much alarmed by the noise,
went in great excitement for the police
officer." We are not told what the cus-
tomer was expected to do. Probably to
take the earthquake up; or, at the very
least, to report it to the inspector on duty
for making a disturbance.

The French do not esteem the Legion of
Honor as much as they used to. The
Times sustains that there are but two
things the Frenchman cannot escape, Death
and the Legion of Honor. The same paper
invented the following story to show its
contempt for the decoration, which has
been generously distributed right and left
in France, especially since the exhibition
of 1867: "A prisoner was to be guillotined
for some fearful crime, and, according
to the old custom, the criminal has the
right to ask for anything he chooses, that is
to say, anything reasonable—tobacco,
wine, books, cigars, etc. Our unfortunate
prisoner, prior to decapitation, was asked
what he desired before visiting
the gloomy banks of the Styx. After
some hesitation he replied: "I want the
Cross of the Legion of Honor." "Why, my
friend, you are crazy; you dare to ask for
such a thing?" "So there is no way of ob-
taining it?" "Of course not." "Well, well,
I felt pretty sure of getting it; however,
if old Badingbun has none to spare, I will
take something better. Give me a glass
of brandy, please?"

Accounts from New Mexico convey the
impression that silver mines which
have recently been discovered there can
only be worked profitably by parties hav-
ing large capital at their command. The
three and four vindictive Apaches hold a
large part of the country where silver is
supposed to be, and a constant terror to
those who are trying to work the mines
already found.

der within the City Limits.

Nationality.

We have no hesitation in saying, that we are proud of our nationality. The German dwells with pride on the many virtues of the Teutonic race...

But, we fancy we hear some one say "are we not all Americans?" To this we reply, we are all Americans, and in another sense of the word, we are not all Americans...

Well, we called upon to define an American, we would do so by saying, that he was a man whose original nationality could not be distinctly or conclusively determined by his appearance and conversation.

Among the hundreds of exchange newspapers, that we receive weekly, we have many that are printed for the exclusive benefit of our American citizens of German descent...

Without indulging in any odious comparisons, for every nationality has lights and shadows, which others have not, we maintain that the American people are second to none in the world for scrupulous honesty...

We maintain, too, that it is principally due to the moral influence of the United States, that at the present time, no extended systems of human slavery can be perpetuated...

After Columbus discovered America there was no difficulty of following in his track, and he illustrated it once to some sneering courtiers, who thought that any one might have discovered America as readily as he had done...

That kings have discovered that their subjects, too, have rights that should be respected, and that the governed class, have made the same discovery, and are pushing forward into the sunshine of republicanism...

The national government was then established, and the United States became the asylum for the downtrodden and oppressed of all nations, and advanced in everything that goes to establish free, prosperous and enlightened people.

Ten years ago a rebellion was organized

by a class of men, who did not seem to have learned that the principles enunciated in that grand old bulwark of liberty, the Declaration of Independence, were as unchangeable as the laws of gravitation...

And, looking on our short but eventful page of history, we feel a glow of national pride at the names with which it is adorned, we see with our mind's eye the forms of Washington, Franklin, Jefferson, Patrick Henry, Hamilton, Adams, Randolph, Jackson, Webster, Clay, and a host of lesser lights...

And at last, coming down to our own day and our own State, we see that intelligence is taking the place of ignorance, that the bowie-knife is being superseded by a peaceful resort to the laws of the country...

MESSES. SLAUGHTER, Bell and Grothman, the commissioners appointed by the Governor to select a suitable site for the location of an Agricultural and Mechanical College...

We hope our city, and county authorities will be fully alive to the importance of securing this important institution, particularly as all the requisites, healthfulness, abundance of wood and water, and fertility of soil are to be found in the immediate vicinity of our city.

FIFTY PER CENT in the cost of living, is what the poor man will save in the railroad connection of our city with the east. Try the figures. Take the articles of flour, sugar, coffee, salt, molasses and other necessities...

Impacticables.

We remember, not long since, to have seen a caricature of an individual of the impracticable sort, which puts us very much in mind of some of our indignant Republican officials, whose course has been stepped upon by the weight of a little wholesome truth...

The action of some of the malcontents of the Republican party, is exactly of the impracticable sort of the man who was making an ass of himself. They drift about in ones and twos, plotting mischief and creating dissensions, trying to saw off a principle that is connected vitally with the party...

In the full rigor and earnestness of right and justice, we impeached Recorder Gamble both to the people and the party. Instead of his friends or himself seeking even the slightest defence, they resolve themselves into a sowing fraternity, and each one of them is doing his best to get a fall and concussion that will hurt, by their seeking to override all justice, honor, and even party fidelity...

These men, and their full names should be placed in black and white, and thus held up to the scorn and ridicule they so much deserve. We could show them that the press, which they ignore, and whose fair, honest teachings they ridicule, could make them feel their own insignificance in the same light that the fair-minded Republicans and the people see it.

the party, since they retain in office men of democratic tendencies, because they can bargain with them and make money. We know that they consider solemn obligations to support Republicans, as a mere empty form, to be set aside whenever a democrat allow them to earn an honest (7) penny by compromising laws and plain statutory enactments...

All these things we know. More than that, the Republican masses, white and colored, know the same thing. The day is not far distant when these detestable impracticables will be asked to take a back seat, and as the party has done from Maine to Texas, good, earnest, active Republicans, men of principles, rather than private and personal ambitions, will take their places...

Gentlemen of the impracticable sort, saw away keep your toothed instrument in motion. We will paint the final scene to your grand achievements, and perhaps, in our generous, provide you another branch on which you can expend the force of your collective impracticability.

TELEGRAPHIC Latest from the seat of War.

VERSAILLES, May 28.—The insurgents yesterday, shot the Archbishop of Paris. The Abbe Duguerre and sixty-two other hostages remain in their possession. The troops had, previously captured La Roquette and saved 169 hostages detained there.

VERSAILLES, May 28.—The insurrection is completely suppressed; not one band of insurgents are left; great numbers are prisoners.

PARIS, (outside) May 28.—Evening.—All is quiet within the city. Not a shell has been fired since 2 o'clock this morning.

The firemen have the flames under control, but there is still much smoke. The Prussians at Romainsville made 1000 prisoners, including several women, Saturday evening. All insurgents, who came within their lines were disarmed and placed under guard.

There are rumors of awful cruelties perpetrated by the Versailles, who are reported to have shot all men, women and children found with arms in their hands. There is great rejoicing within and without the city over the termination of the conflict.

VERSAILLES, May 28.—The remaining insurgents surrendered at En Conde at nine o'clock this morning.

The slaughter Saturday night was awful. Altogether the suppression of the Commune has cost over sixty thousand lives and the destruction of one third of Paris.

VERSAILLES, May 28.—Among the hostages shot besides the Archbishop were the apostolic pronotary, Presidents Courtes Campier, the merchant banker Jecker and ten others.

McMahon telegraphs that he is a solitary master of the city. The insurgents have hoisted a white flag over their last position. Vinoy has been appointed governor of Paris.

The Versailles loss during the struggle was 2000. Priests and nuns again appear on the streets. Bystanders utter no reproaches to the prisoners.

Two thousand regulars who deserted appear with their coats turned inside out. PARIS, May 29.—Executions are progressing at the Champs des Mars, Park de Monneux and Hotel de Ville. From fifty to one hundred are shot at a time. Nearly every member of the Commune was executed almost immediately after capture.

PARIS May 29.—Fighting at Levallois, Montague and Parc la Chaise, was desperate. No quarter given to men, women or children. Martial law established in the city.

VERSAILLES, May 30.—The insurgents in Fort Vincennes have surrendered unconditionally. Thiers ordered disarmament of Paris and dissolution of the National Guards.

The Paris journals demand a cessation of summary executions. All the Commune except Fryatt and Groussin, are killed or captured.

The national library, national archives and arsenal of the Louvre are safe.

Railroad Election Notice.

THE STATE OF TEXAS, County of Bexar. Be it remembered that at a regular session of the Hon. Police Court, held in and for the county of Bexar, on the 1st day of June, A. D. 1871, the following proceedings were had, to wit:

The petition of more than fifty (52) freeholders of the county of Bexar, having been presented to the Police Court of said county, asking for an election to take the opinion of the electors of said county on the proposition that said county shall aid in the construction or extension of the Galveston, Harrisburg and San Antonio Railway from the town of Columbus on Eagle Lake, in Colorado county, to the city of San Antonio, in Bexar county, by making a donation to the Galveston, Harrisburg and San Antonio Railway Company of the sum of Five hundred thousand dollars in the bonds of said Bexar county, in the manner and upon the conditions set forth in said petition, and which conditions are hereinafter more fully set forth.

And the court having duly considered the said petition, and being satisfied of the right of the petitioners to ask for and have an order for such election, by virtue of the act of the Legislature, entitled "An act to authorize counties, cities and towns to aid in the construction of Railroads and other works of Internal Improvements," approved April 12th, 1871.

It is therefore, hereby ordered by the Court that an election be held in accordance with said Act, at the Court-house of the county of Bexar, to commence on the 5th day of July, 1871, and continue for four consecutive days, to wit: the 5th, 6th, 7th and 8th days of July, 1871, to take the opinion of the electors of said county of Bexar, upon the proposition above mentioned, which is as follows, to wit:

That the County of Bexar shall aid in the construction or extension of the Galveston, Harrisburg and San Antonio Railway from the town of Columbus or Eagle

Lake in the county of Colorado, to the city of San Antonio, in Bexar county, by making a donation to the Galveston, Harrisburg and San Antonio Railway Company of the sum of five hundred thousand dollars in the bonds of said county of Bexar; each bond to be for the sum of one thousand dollars, payable thirty years after the delivery, and bearing interest at the rate of eight per centum per annum, payable annually upon interest coupons to be attached to each of said bonds, upon condition nevertheless, that the said Galveston, Harrisburg and San Antonio Railway Company shall complete and equip their said Railway to the city of San Antonio within two years from the time when the qualified voters of said Bexar county shall have voted affirmatively on the said proposition; and that the bonds aforesaid shall be delivered to the said Railway Company when the said Railway shall be fully completed and equipped to the city of San Antonio and prior to the date that the said bonds shall bear interest only from the date of their delivery. And further provided, that the said Railway Company shall execute and deliver to the said county of Bexar, within sixty days after said election, their bond in the sum of one hundred thousand dollars, conditioned for the faithful completion and equipment of said Railway within the time and to the place aforesaid.

The vote on the proposition aforesaid shall be by ballot for the proposition or against the proposition, as prescribed by the act aforesaid.

It is further ordered that J. W. Van Slyck, C. Wurzbach and H. Fresnal are hereby appointed managers to conduct said election in accordance with said Act, and to make a return thereof to this Court, on Wednesday, the 12th day of July, 1871.

It is further ordered that this order shall be published for three weeks previous to said election, in the "San Antonio Express," a newspaper published in the city of San Antonio, in said county of Bexar; and it is also ordered that a special meeting of this Court be held on Monday, the 17th day of July, 1871, that being the first Monday after the return day of said election, for the purpose of ascertaining and recording the result of the election herein and hereby ordered.

Thereby certify that the foregoing is a true and correct copy of the original order, as entered upon the minutes of the Police Court of Bexar county, at its May term, A. D. 1871.

This preparation of the great Scientist, Dr. Gottlieb Fick, of Germany, is based on the fact that, as all materials of the body are derived from Food, so all Vital Force, or Health, is derived from the Food. Dr. Fick's Bitters enables the system to liberate and appropriate these Forces, creates at once Appetite, cures Dyspepsia, with its resulting Debility, Lassitude and lack of Nervous Energy; so tones the Stomach and Liver, as to make Constipation and Biliousness impossible; acts as a Preservative and Restorative; Reinforces the System so it can tide over bad results of changing climate, water, &c., and better endures and meets the demands often unexpectedly made on its Force, and Energy. Ladies in delicate health, aged persons, and all enervated and weak after sickness, will rapidly strengthen by using this great preparation. 3-6-71d1w2m.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Incurable cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the accumulation of impurities in the blood, and which were cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its efficacy.

Scrofulous impurities, the most destructive enemies of our race. Often, this disease is the result of the impurities of the blood, and is the cause of many of the most distressing diseases, without exciting a suspicion of its presence. Again, it is the cause of liver infection, rapidly developing into one or other of its bilious forms, either on the surface or among the viscera. In the latter, it is likely to be suddenly deposited in the lungs or heart, or in some other part of the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, as a preventive of the various symptoms of disease which are caused by the impurities of the blood. Persons afflicted with the following complaints generally find immediate relief, and a long, happy life, by the use of this Sarsaparilla: St. Anthony's Fire, Itch, Ringworm, Tetter, Salt Rheum, Scald Head, Ringworm, Scare Eyes, Sore Ears, and other eruptions or skin diseases of Scrofulous disease. Also in the more general forms, as Dyspepsia, Dropsy, Head Aches, Stiff Neck, Rheumatism, and the various Nervous affections of the Mind, Liver and nervous system.

Men that toil and labor hard now, for a dollar or two per day, will see the demand for their services, incident upon the increase of all work and business in having a railroad to our city, receive from four to five dollars per day.

With the railroad opening connection with the East, and giving us transportation at low figures for building materials, every poor man can have a homestead at a reasonable cost. Now it takes years to accumulate enough to build, the prices of all material are so high.

Our Editor has gone to New Braunfels, and as we sit here playing supernumerary, we feel very much inclined to play Phoenix on him. What a sensation we could create by reversing the politics of the "Express" and lending it to the espousal of the cause of the untried. We fancy our Editor in receipt of a number of that paper and we imagine the fastest time made on record from the Comal, whither he has gone for a day. Ugh! the very thought of the diabolical basing he would give us in the next issue, makes our blood run cold, and the perspiration stand in beads on our forehead. No! we won't play Phoenix this time.

We earnestly trust the public generally will attend Father Conroy's lecture to-morrow evening, and give ear to the clear logic the reverend Father uses upon all subjects. The subject chosen is one of absorbing interest to either those of the Catholic faith or those not of it. The lecture commences at half past seven, and the proceeds of admission tickets and the receipts at the door are to be devoted to a charitable purpose, another reason why our people should attend largely and fill St. Mary's church to overflowing.

WE ARE fairly thirsting for further information regarding the start of that new Journalistic luminary to be called "The Recorder." We hear it is to call itself Republican. The directors of the movement have evidently been reading about Vallandigham's attempt to start out with a new suit made of old clothes and they think of making a similar move upon the other side of the political fence. Will it be in keeping with its name "Post-nopolitan"?

"Schnapps" is a remedy in chronic catarrhal complaints, etc.

I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommended it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genitourinary apparatus. With much respect, your obedient servant,

—Udolphe Wolfe, Esq., Present: Dear Sir: I have made a chemical examination of a sample of your "Schiedam Schnapps" with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

Consumption,
Its Cure and its Preventive,
By J. H. Schenck, M. D.
Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted
Dr. Joseph H. Schenck's simple Treatment,
and availed themselves of his wonderful medicinal medicines, they would not have fallen.
Dr. Schenck has in his own case proved that whatever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicine is as simple as it is un-failing. Its philosophy requires no argument. It is self-assuring, self-convincing.
The Seaweed Tonic and Mandrake Pills are the first two weapons with which the combat of the malady is assailed. Two thirds of the causes of consumption originate in dyspepsia and a functionally disordered liver. With this condition, the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of
Consumption.
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they
"Leave no Sting Behind."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It accedes from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,
A Supply of Good Blood.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more stagnation, no exacerbation of the stomach. An appetite sets in.
Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be evaded. It collects and ripens the inspissated and diseased portions of the lungs. In the form of gallstones, it prepares them for expectoration, and in a very short time the malady is vanquished, the rotten throm that it occupies is reabsorbed and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the enjoyment of womanhood that was
Given up as a Lost.
The second thing to be done is to stay in a warm room until they get well. It is a direct responsibility, prevent taking cold when the lungs are diseased, but must be protected so a cure cannot be effected. Fresh air and riding out especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as their strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
In despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's original statement to the Faculty of his own cure was in these modest words:
Many years ago I was in the last stages of consumption; confined in my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel these preparations my whole system. They soon opened the matter in my lungs, and I could spit up more than a pint of offensive yellow matter every morning for a long time.
As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have given no flesh ever since.
"I was weighed shortly after my recovery," added Dr. Schenck, "then looking like a mere skeleton, my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."
Dr. Schenck has disseminated his professional visits to New York and Boston. He at his own, Dr. J. H. Schenck, Jr., still continues to see patients at his office, No. 15 North Sixth street, Philadelphia, every Friday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirator declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.
The directions for taking the medicines are adapted to the intelligence even of a child. Follow those directions, and kind Nature will do the rest, stopping that in some cases the Mandrake Pills must be taken in increased doses; the three medicines used, and other accessories than the simple instructions that accompany them; First create appetite. Of restoring health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer, should blood at once follow, the cough loosens, the night sweat is checked. In a short time both of those morbid symptoms are gone forever.
Dr. Schenck's medicines are constantly kept in stock of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation, while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a "household" remedy, consumption in any of its forms.
Price of the Pulmonic Syrup and Seaweed Tonic, \$1.00 a bottle, or \$7.00 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

 Messrs. Herring, Farrell & Sherman—Our
 Agent at Richmond writes: "We got through
 with the fire and saved up the money from
 the late fire. The contents of the safe—\$25,000
 in bills, we recovered. It was a Herring safe,
 and a good safe indeed."
 J. C. BARNES, Treasurer.
 Messrs. Herring, Farrell & Sherman, New York
 Agents: The two safes of your manufacture,
 which we had in use on the morning of the fire,
 and at the Spotswood Hotel, which destroyed the
 Spotswood Hotel and adjoining block of build-
 ings, have given full satisfaction, and served to
 prevent the destruction of some \$25,000 in
 currency, besides the valuable papers and books
 enclosed therein. It was responsible for work-
 men to clear the safe out of the building 30 hours
 after the fire. Respectfully,
 J. F. GIBSON,
 Asst. Sup't for Adams & Northern Ex. Co's.
 Richmond, Va., Dec. 26, 1895.
LETTER FROM J. F. GIBSON & CO.,
 Proprietors of the Spotswood.
 Richmond, Va., Dec. 26, 1895.
 Messrs. Herring, Farrell & Sherman—On
 the morning of the 26th inst. we were for-
 tunate enough to have one of your Herring's
 Patent Champion Safes, which fell into the
 fire, and saved up the contents of the same.
 After the fire, to our utmost surprise, we found the
 safe, containing of valuable papers, money and
 considerable sums of bills, all well preserved.
 Had it not been for your Herring's Safe we would have
 lost everything.

 DR. WELLS
 having become aware of the extraordinary
 medicinal properties of the South American
 Plant, called
JURUBEBA.
 sent a special commission for that country
 to procure it in its native purity, and having
 found it to be wonderful in its prop-
 erties to even exceed the anticipations form-
 ed by its great reputation, has concluded
 to offer it to the public, and is happy to
 state that he has perfected arrangements for
 a regular supply of this wonderful
 Plant. He has spent much time experi-
 menting and investigating as to the most
 efficient preparation from it, for popular
 use, and has for some time used in his own
 practice with most happy results the effec-
 tual medicine now presented to the public
 by
Dr. Wells' Extract of Jurubeba
 and he confidently recommends it to every
 family as a household remedy which should
 be freely taken as a BLOOD PURIFIER in

 Agents for the CLIPPER MOWER and REAPERS.

The great field trials at Sedalia, Mo., and
 at Xenia, Ohio in the Summer of 1895—
 where "The Clipper" met some 400 competi-
 tors—including all the leading machines
 built, and was awarded the First Premiums
 and Gold Medal—proves that the proprietors
 have been able to sustain in the field their
 claims of superiority for "The Clipper" Machine
 over all others. Its extraordinary lightness
 and draft takes one-third of the labor of the
 team. The adjustability of the finger-bar,
 to cut high or low without stopping the team
 is without an equal. It is the only
 mower that has the true center draft in ac-
 cordance with correct mechanical principles.
 In short, it is the lightest, the most durable,
 the least complicated, the most perfectly
 constructed, the most symmetrical in design,
 of any implement of its class. Farmers
 run clipper in the "Horse's Foot," and you
 cannot afford to ignore their welfare. Send
 for pamphlet—investigate. See or write to
 some one who has used "THE CLIPPER." See
 the Machine yourself before you buy any
 other.
