Spotless as a lily's leaf! Whiter than the Christmas snow. Not a shade of sin or good—And the bale laughed sweet and low.

A sudie fitted over the baby's face—
Or was it the gleam of its angel's wing
Just passing then I and leaving a trace
Of its presence, as it soared to sing
A bymu, when words and waters win
To grace and life a child of sin I

Not an outward sign or token
That the child was saved from wocBut the bonds of sin were broken.
And the babe langhed sweet and low.

## Greelyism.

"There is a tide in the affairs of men which taken at the flood," &c., is an axtom that seems to have made at least one convert to its logic, and that man is Horace Greeley. Scarcely is the ink dry wherewith he signifies his modest acceptance of the Presidency, in case of nomination and election, ere he spreads his sails and goes in to make political capital to further that event. The South and its miles of sea and all rail transportation. people are the first monthful he proposes. swallowing, and the accrisity and the clear exposition of wrongs and outrages at the South, now give way to letters and speeches wherein a new halo is cast around the people he has so long abused, and "carpet baggers," "thioving carpet-baggers," as Horace Greeley calls them, come in for his antagonism and abuse. To the mass of inwill be felt keenly. Risking life and means and their all, in apholding national Republican principles; standing all the brunt of internal predudice, and too often internal violence, Republicana, South, have reconstructed State after State and restored law and order to a people where only confusion and violence existed under Democratic management.

In the atterances of Horace Greeley. wherein the actual political situation is entirely ignored, we fall to see ought but a catch-peany to have every Democratic paper in the country make capital for him reparatory to a nomination to presiden tial honors. With his paper, the Nee York Tribune, of the last year containing hundreds upon bundreds of columns of wellauthenticated cases of Ku-kluxery and outrages wherein "carpel baggers," as he calls them (but Republicans of nerve, as we know the class he alludes to are) is in itself the best assurance of his glaring inconsistency, and places him in a false light to the nation, either in the one case or the other.

As far as our own State is concerned, Mr. Greeley saw mothing of it. From the ment of his stepping upon its seil he was absorbed by a class of political mountehanks who stand first on the State rolls as

nest Republicans felt like applying for introduction. Under such circumstances we astonished at his foolish speech before the Union Republican Committee at

New York. First, ignorance as to the ac-mal states of political affairs in this State excuses it. Second, his earnest desire to conciliate certain classes of the Southern people and secure their aid in urging him for the Presidency, allows us to ple weight enough upon his injustice to make us indignant in finding that he who has been the most earnest advocate of the Republican party, is, when his personal aims and ambition come into his cranium, in-

## clined to do it mest glaring injustice. Morgan's Road.

The Indianola Bulletin of the 20th come at the Express again and its article of "Why the San Autonio railrond will be built to San Antonio." It fails to enlighten us as to Mr. Morgan's intention, but assures us the road will be built to Austin, if we do not agree to, build it ourselves, to our city from Quere.

We have in a previous article shown that the road from Ledbetter to Austin, which is to be finished this year, is a connecting link with the Galveston and Houstou road, and consequently all the products of the country in and around Austin will go to Galveston, where Morgan's steamers ill be as much benefitted as though the Indianola line ran to Austin. Now, under likely that Morgan will build an opposition to him, and leave San Antonio and its resources the spoil of some other company? Hardly; and we call upon the Indianola Bulletin editor to explain how he reconciles such want of tact to Mr. Morgan's clearsightedness, which he attributes to him. The fact is, as we stated before, that Mr. Morgan is, in self-defense, and to save a loss of a million and a-half already ex sended in forty-four miles of road, forced to complete the route to San Antonio as soon as the Columbus road starts in to work. If he runs it to Austin, he is competing with a road that already carries the products of the country to Galveston to his steamers and taking from them return freights, while San Antonio and its valuammerce is left to a rival railroad.

We give our Indianola cotemporary the senefit of his assertion that Mr. Morgan has never contributed one cent to its supsort. All we have to say is, that we think t remarkable that the Bulletia should be the defender of a man whose name is a byword in the months of the people of West Texas for all that is grasping and monopo-lizing. Millions he has paid for the pricil ege of bleeding the people of West Texus, ouying upother companies so that he might hold the commerce of our country in his. grasp and draw from it millions of hardearned money. Not a single benefit has ever accrued to our people from his busicess connection with them; but, on the contrary, every internal interest has suffered from the burdensome rate of charges, which have affected alike articles of either ecessity or luxury.

Mr. Morgan may be King of the Gulf, but he will never be monarch of all West Texas. Two years from this time a road will be running to this place connecting as with New Orleans. If Mr. Morgan, in fit of spita against San Antonio, had compete with one that already carries freight to his vessels at Galveston, it is no harm to us, for the Columbus route can and, will offer us terms as favorable as Ashara carthonology and the annexation of San Domingo when it desires annexation.

A shara carthonology and thus will offer us terms as favorable as Ashara carthonology and the annexation. and, will offer us terms as favorable as those that Mr Morgan offers, for his avarice and greed will more than believe the difference in rates between five hundred miles of sea and all rail transportation.

A sharp earthquake shock has been felt at Kalistoga, California.

At Portland, Oregon, a negro, charged with debauching a young girl, was shot dead in the witness box by the father.

The sheriff of Portland (alling to box.)

This unfortunate country is about to be afflicted with one of those revolutions which seem to belong to its natural order of things, and for which she has affained an unenviable notoriety. The coming Presidential election has arraigned the differtelligent Republicans South his injustice out parties in bister bostility to and the prespect of a general onslaught on each other, accompanied, of course, with prestarsos, assassination and the like, increases hourly.

The two most premising candidates for the Presidency, are Juarez and Lerdo de Tejada. The former being in power, and exercising control over the different departments and branches of government for a leng-period of years, has apparently a considerable advantage over his former confidant and Chief Executive officer, Tejada, and by a judicious use of the government patronage it is thought' that he has entrentched himself so strongly that he cannot be ousted; particularly as he is austained by a powerful element in the National Congress, and he has moreover a controlling influence over the army, which may go far to reverse the decision of the people, should it be unfavorable to him in the election which comes off to-day.

A third candidate in the field is Porefirio Diaz, who has the reputation of being a pure minded patriot; it is thought that the

ocratic demagogue, to whom very few ears of civil war, which has been the curse of one of the most levely countries on the

Report of the Grand Jury. To the Hon, G. H. NOONAN,

Judge of the 23d Judicial District The Grand Jury convened at the June term of the District Court, a. D. 1871, resthoroughly investigated all business brought before them, and the jury being made up principally of stock men, particular attention has been given to that interest. A large number of witnesses have been before them, and all reasonable efforts have been resorted to in order that criminals of every grade might be brought to justice.

They have been in attendance fourteen days, and many witnesses being absent, pectfully beg leave to report that they have thoroughly investigated all business

days, and many witnesses being absent, and the chain of evidence being broken, they were unable to prosecute further the cases brought before them.

They inspected the court-house and jail, and while the Sheriff merits every considcration, for the cleanliness of the prison, they must report it as a nuisance-and a disgrace to the community. A new Worthouse and jail should be provided as early as the finances of the county will allow.

They would further report, that, consid ering the frontier locality of this county, that it is very creditable that more crimes the eircumstances of this connection, is it are not committed, and the morale of this community will compare favorably with he to one that is already advantageous any other of equal population in the United States.

In conclusion, we would report that the citizens of Bexarcounty should not be censured for the few cases of murder that have beer brought before them, as they were committed by Transient persons and not by citizens of this county.

Very respectfully, JESS, M. BELL, Foreman Grand Jury.

SEVERAL very large loads of hay passed through Main street yesterday, fairly filling the air with its pleasant and sweet perfume. As we witnessed the numerous stoppages it in its size and immensity caused, we involuntarily thought of the bridge on Pasco gtreet, where two men were busy driving spikes and planking the bridge, while it would be just as cheap to put a dozen to work and finish the job, and thus save our people the amoyance of over-crowded, half blockaded Main street.

The action of the city administration in regard to that bridge, has been sufficient to damn it forever in the eyes of the people, who have suffered the hundred inconveniences of the delay, the obstruction of other streets and the unnecessary distances pedestrians have been forced to walk in the hot sun or in muddy streets.

FINE Parlor sets at Reed & Mather's.

THE summer weather seems to affect but little, the amount of freighting. All day yesterday Main street was a perfect stream of heavy wagous and carretas laden with valuable freight some going from, others coming to this place.

Mr. EDITOR:-I me a complaint in the San Antonio Herald, regarding the insult-ing of persons on the streets by colored men under arms; and as I have the honor to command the only armed company of STATE GUARDS in San Autonio, I presume it has reference to my men. In the first place, I have not a man in my company who would insult anybody on the streets of San Antonio, and in the second place my men never usurp the pavement in drilling, but take the street.

To the honor and credit of the colored men of San Antonio, be it said that no where are they more courteous and pelite than in this city, and only the "San Antonio Herald would descend to such a low attack upon them.

In justice to the colored men, I ask o the Herald the name of its informant, (if it had any) in regard to the reported outrage. His utter disregard of truth can be easily proven.

fallen.

Dr. Scheeck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a themsand times authentiated by living and visible works. The meory of the cure by Dr. Schenck's medicines is as simple as it is un failing. Its philosophia requires no argument. It is self-assuring, self-convicing.

The Seaweed Tobic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsis and a functionally disordered liver. With this condition the breachiel tubes "sympathine" with the atomach. "Leave no Sting Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood. The Seaweed Tenic, in conjunction with the Pills, permentes and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painties, and the cure is seen to be at hand. There is no more flatuirase, no exacerbation of the atomach. An appetite

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suf-for one man. Schenek's Pulmonic ayrup comes in to perform its functions and to comes in to perform its functions and to haven and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impered and diseased portions of the langs. In the form of gatherings, it prepares them for expectoration, and folias a very short time the malady is vaniquished, the retten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or wemanhood that was.

a great deal to do with the appetite, sud is
the great point to gain.

To depair of cure after such evidence of
its possibility in the worst cases, and moral
certainty in all others, is sinful. Dr.
Schenck's; ersonal statement to be Faculty
of his own cure was in these modest words:
Many years ago I was in the last stages of

consumpties; confined to my bed, said at one time my physicians thought that I could not lise a week; then like a drawning man extering at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They seen ripen-ed the matter in my lungs, and I would spit up more than a plat of effensive yellow matter every mouning for a long time.

'As soon as that began to subsi cough, fever, pain and night sweats all be-gan to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my attength, and have grown in flesh ever since."
"I was weighed shortly after my recov-

ery," added the Doctor, "then looking like a mere akaleston; my weight was cally nine-ty-saven pounds; my present weight is two hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health." Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still con-tinue to see patients at their affice, No. 15 North Sigth street, Philadelphia, every Sat-

urday from 9 A. M. to 5 P. M. Those who wish a thorough examination with the Repirometer will be charged \$\frac{\phi}{2}\$. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they recurable ar not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of returningthe ample instructions that accompany them; First create appatite. Of recomminghealth, hunger is the most welcome symptom.
