This preparation of the great Scientist Dr. Gottlieb Fisk of Germany, is based on the fact that, of all materials of the body are derived from Food, so all Vital Force or Health, is derived from the Force at work up in Food. Dr. Fisk's Bitters enables the System to liberate and appropriate these Forces, creates at once Appetite, cures Dyspepsia, with its resulting Debility, Lassitude and lack of Nervous Energy; so tones the Stomach and Liver as to make Constipation and Biliousness impossible; acts as a Preservative and Restorative; Reinforces the System so it can tide over bad results of changing climate, weary, &c. and better endures and meet the demands often unexpectedly made on its Force and Energy. **BATTLE BETWEEN BEES.**—A gentleman in Canada gives a history of a battle between two swarms of bees a few days ago. One swarm, he says, took forcible possession of their neighbor's barracks, and, as the attacked defended their rights, a furious fight commenced, and the battle raged from 4:30 to 9 P. M. Next morning, the warlike appearing not in good condition, they showed great pluck. The war continued without intermission till 10 A. M., when hundreds of dead bodies lay on the plain. At 11 the battle ended, when there was not one of the attacking party left to tell the tale.

A light house keeper, recently appointed on the New Jersey coast, made a ridiculous blunder. Immediately after he had taken possession, complaints were made that the lights went out by twelve o'clock. The proper officer was at once sent to look into the matter, and he was told that complaints were made against him, "For what?" was the inquiry. "Why, replied the officer, "they say that your lights do not burn after twelve o'clock at night."

"Well," was the reply, "I know they don't, for I put 'em out myself then, for I thought all vessels had got in by that time, and I wanted to save the oil."

A workingman was once visited in his illness by a well-meaning but different clergyman, who discharged his courteous and wore a face of perpetual mourning. As his sad visage appeared in the doorway, the sick man started up and exclaimed, "Why, what's the matter with you? You look as if your religion didn't agree with you!"

Education in the South

There will be no ground for astonishment at the low order of intelligence and morality among the lower classes in the Southern States...

The great majority of the whites in the South regard the common school system as the most abominable idea that the hated Yankees have imported.

of money for its support. The consequence is that the school law of Georgia remains in dead letters, and this is the State that is...

EVERY one who has read the thrilling narrative of the perils of the Arctic ocean in the late Dr. Kane's 'Arctic Explorations'...

Captain Hall, in his good ship 'Polaria,' left New York recently for the north-pole, via New Foundland, Davis' straits and Baffin's Bay.

The plan of the adventurous explorer is to push his ship as far north as possible, and by means of Esquimaux dogs and sledges to accomplish the task of penetrating the hitherto inaccessible region within ten degrees of the pole.

It is singular to think of the accomplishment of this feat. North will then be directly over his head, and east and west will be abolished...

The expedition has been fitted out under the auspices of the Navy department, and is provided with every arrangement and convenience that can be imagined necessary to insure its success.

It is gratifying to learn from the New Orleans Republic of the 20th ultimo, that the health of Gov. Warmouth is improving rapidly.

This Republican Governor of Louisiana has done for that State what Governor Davis has done for Texas. When it appeared probable that the people of Louisiana were about to lose an official who had done so much in forwarding the best interests of the State...

CONSIDERABLE stir has been made in the North about a newly discovered remedy for that almost incurable disease, the cancer. A firm in New York obtained a patent for the new remedy...

Phil. Sheridan and the German Convention. (A translation of the 'Waltbott,' a German newspaper, published at Allenstadt, June 10, 1871.)

When Lieut. Phil. Sheridan, who was brought to Paris by several German correspondents...

It is evident that the last criticism, which is filled with ignorance, prejudice, and a complex want of tact, is Sheridan's own, otherwise he would have seen the necessity of a denial...

In a communication, however, to Dr. Bloede, of the New York 'Demokrat,' Gen. Sheridan, under his own signature, denies each and all the charges made against him.

Now, the above translation is one of the mildest attacks upon the General that are going the rounds of nearly all the German and many of the English papers...

Our readers now know all the facts and can draw their own conclusions. CANARY BIRDS. Many persons have difficulty in keeping their canary birds in good health.

Place the cage so that no draft of air can strike the birds give nothing but healthy birds...

Superintendent Emuch Hoag has forwarded to the Commissioner of Indian Affairs a letter from Agent Louis Tatum, giving further details of the death of Satauk, the famous Kiowa chief...

On the 26th instant Satauk, Satauk, and Big Tom, were informed that they were to start that morning for Texas, to which they demurred, preferring to be sent away else.

When about one mile from the post, Satauk, having finished his death-song, had succeeded, unobserved, in drawing the shackles of his hands...

It would puzzle a Philadelphia lawyer to tell what the Democracy of Kentucky really does stand for. The Democrats can not tell themselves.

Arrival and Departure of Mails. ROUTE FROM COLUMBUS TO SAN ANTONIO. Arrive daily except Wednesday, by 6 A.M. Daily except Monday by 4 P.M.

CANDIDATES. We are authorized to announce the Hon. EDWARD DEGENER, as a candidate for re-election to Congress from the 4th District of Texas, subject to the nomination of the Republican Nominating Convention of this District.

Caution! We hereby warn everybody not to pay any money due to one R. F. Gosh, who for a short time acted as our agent, but failing to remit money collected, we hereby renounce any and all connections with him.

Infants - Much suffering to these tender little buds of the human family might be allayed by using Mrs. Whitcomb's Syrup. See advertisement in another column.

Thermometer 90 degrees in the shade and the ice machine out of order. Dogs are beginning to watch for the dog cart, but they can't see it yet.

Will the Austin Journal infer us who is to be blamed that we can never get a Journal that is not dated at least three or four days back? Yesterday we received the Star Journal and Galveston News of the 7th, and that, too, when we have a daily mail from Austin. We have not received them regularly during the past six weeks.

A SUGGESTION - Why is it that our citizens may not organize clubs for the purchase of tickets in the great Land and Immigration scheme of Messrs. Butler, Chadwick & Gary, the drawing of which takes place in October next? A club of ten, for instance, would purchase ten tickets, and the holder of one of the ten would be entitled to a proportionate share of all the prizes that might be drawn.

If a stranger in New York will take the trouble to walk past the Astor House, St. Nicholas, or any of the larger hotels, about the time that people usually dine, he will, without doubt, observe at least one individual who will be standing in front of the hotel picking his teeth, and conveying the impression that he has just taken a sumptuous repast, while the grandeur of his manner and the assurance of his style, would make the uninitiated believe that he must be the owner of the concern itself.

Now, there are some people in this town who treat the daily paper very much in the same manner that the New York loafer does the hotel. They have never subscribed a cent; they have never advertised; they have never given the paper an item of information on passing events, they affect to despise the paper. Yet every morning of their lives they take some one else's paper and indulge in lengthened criticisms, which creates the impression on the mind of the hearers that the gentleman has a large interest in the paper, but the truth is he is but a San Antonio, duplicate of the gentleman in front of the New York hotel, picking his teeth, and, like him, is doing it all for grandeur.

WHEN we saw the first man that sold a pair of eyeglasses, we saw the freedom out of their faces changed; we felt as if they had dawned upon Texas; we knew immediately that the persuasive man in the black velvet jacket was the forerunner of the higher order of civilization.

As we trudged home to dinner at 12 o'clock yesterday, we saw another sure sign that the railroad is coming fast. On Sealed street, near where you need to turn down to the river to look at the new bridge, there is a large tent occupied by two strangers, who are doing a "show up" business on a large scale. They have two large glass show cases, the bottom of one being lined with cards bearing numbers, and on these numbers are temptingly spread out greenbacks and specie to a considerable amount, and a diamond ring as big as Jim Pike's (N. Y.) and all you have to do is to pay a miserable dollar, throw some dice and your fortune's made.

The water trouble in Hartford elicits the following sharp criticism from the Hartford Courant: "ECONOMICAL FISH BOY. - Take four quarts of trout brook water, boil one hour, add a little salt, hold your nose, and eat with a fork."

Two card-playing friends were passing through a pine forest, when one asked the other this audacious question: "Why cannot the proprietor of this forest sell his own timber?" "Because no one is allowed to cut when it is his own deal."

Consumption, Its Cure and its Preventive, by J. B. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably genuine means of cure.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor. In this statement there is nothing presumptuous.

The work of cure is now beginning. The vitiated and morose humor is ejected, the liver, like a clock, is wound up, it ceases to be torpid, the stomach acts resolutely, and the patient begins to feel that he is getting on his feet.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure.
