This preparation of the great Scientist,  
Dr. Gottlieb Fish, of Germany, is based on  
the fact that, as all materials of the body  
are derived from Food, so all Vital Force,  
or Health, is derived from the Force stored  
up in Food. Dr. Fish's Biting enables the  
System to liberate and appropriate these  
Forces, creates at once appetite, cures Dys-  
pepsia, with its resulting Debility, Lassitude  
and lack of Nervous Energy; so tones  
the Stomach and Liver as to make Consti-  
pation and Biliousness impossible; acts as  
a Preservative and Restorative; Reinforce  
the System so it can tide over bad re-  
sults of changing climate, water, &c., and  
better endure and meet the demands often  
unexpectedly made on its Force and Ener-  
gy. Ladies in delicate health, aged per-  
sons, and all emaciated and weak after  
sickness, will rapidly strengthen by using  
this great preparation. (23-6-71d.w.2m)

**Republican Meeting.**  
Held at La Grange Fayette County Tex-  
as July 15th, 1871.  
J. G. Scherneck was called to the chair  
and E. T. Moore appointed Secretary.  
The object of the meeting was explained  
which was to elect Delegates to a conven-  
tion at New Braunfels (August 14th), to  
nominate a Republican candidate to re-  
present the congressional District of the  
United States, motion made by Robt. Zapp  
and seconded that a committee be appoint-  
ed to draft resolutions expressive to the  
sense of the meeting.  
The Chair appointed on said committee,  
Robert Zapp, Mureh Cole, Wallico Rogers,  
John Kellough and D. Gregory.  
The following resolutions were offered  
and unanimously adopted:  
Whereas it is the duty of all Republi-  
cans to examine and discuss the acts of  
the present administration (Federal and  
State) of our Legislature and our repre-  
sentative in Congress by a well timed ex-  
pression of opinion be it  
Resolved, That we endorse the plat-  
form of the national Republican party,  
that we sustain the administration of  
U. S. Grant as President of the U. S., and  
of Edmund J. Davis Governor of this  
State, that we express our unqualified  
approval of our Governor vetoing the  
Southern Pacific Railroad Bill and his  
opposition of granting subsidies in money  
and public lands to corporations and  
monopolies.  
Resolved, That we endorse the mem-  
bers of the Legislature, who stood firm to  
our Governor and sustained him in his ef-  
forts to prevent monopolies and unjust  
taxation and we commend herewith those  
members of the Legislature, who went out  
of their business by proposing amend-  
ments to our new, so overwhelmingly  
adopted Constitution for the purpose to  
give away our public domain to Railroad  
monopolies and to divide our State. We  
believe that our public domain should be  
kept for the laboring population.  
Resolved, That we request our repre-  
sentatives to provide by a general Corpora-  
tion law for the creation of corporations  
defining their duties and liabilities, a. s. i.  
aid banish here after all legislation on  
corporations except for charitable and  
municipal purposes, we believe that all  
corporations are rightfully subject to the  
control of the people and we request our  
Legislature to provide by proper enact-  
ments to prevent monopolies and extor-  
tion on the part of Railroad and all other  
corporations.  
Resolved, That we hold it the duty  
of all true Republicans to further the ad-  
vancement of Republican principles rather  
than the promotion of the interest of  
individual man.  
Resolved, That we are in favor of an  
early election and request our Legislature  
to make provisions for the same.  
Resolved, That we approve the action  
taken by our Legislature in regard to the  
pollage bill, believing that it is the only  
measure to protect property and lives of  
all law abiding citizens.  
Resolved, That we endorse the action  
of Edward Degenar as our Representative  
in Congress and assure him that our ver-  
dict is, "Well done good and faithful  
servant," and recommend his re-nomina-  
tion as a candidate for reelection.  
The following persons were elected  
Delegate, J. G. Scherneck, M. Cole, Robt.  
Zapp and H. E. Hammett.  
Resolved, That the proceedings of this  
meeting be sent for publication in the  
Brethren Enquirer, Austin State Journal  
and San Antonio Express.  
One motion the meeting adjourned sine  
die.  
J. G. SCHERNECK,  
Chairman.  
E. P. MOORE, Secretary.

At a Republican Nominating Con-  
vention, at Gonzales on the 11th of July the  
following resolutions were had:  
Whereas, the administration of our  
worthy Governor, Edmund J. Davis,  
through the instrumentality of wise laws,  
enacted by a Republican Legislature, has  
brought comparative peace and security to  
our homes and, besides, and besides to  
break down the baneful prejudices of race  
and color, and to place it beyond the  
power of our political enemies ever again  
to appeal to disloyalty with any hope of  
success, therefore  
Be it Resolved, That we, the Republi-  
cans of Gonzales county feel constrained  
to send greeting to all Republicans and  
to cry out in the fullness of our hearts,  
"peace on earth, and good will towards  
all men."  
Resolved, That we acknowledge with  
pleasure the many valuable services ren-  
dered our good cause, by the Hon. James  
P. Newcomb, who, ever since the war, has  
worked with untiring energy, to build up  
our party, and by his devotion to the  
principles of our party as a period in its  
history when, to be a Republican in Tex-  
as, was to be cast out as an evil, has shown  
an honest sincerity of soul, and firmness  
of purpose worthy the admiration of all  
good and true Republicans.  
Resolved, That we commend the able  
efficient manner in which the Hon. E.  
Degenar has discharged the duties of his  
responsible trust.  
Resolved, That the Secretary forward  
these resolutions to the "State Journal,"

**TELEGRAPHIC**  
NEW YORK, July 21.—A storm on the  
coast of Newfoundland and Labrador de-  
stroyed 310 fishing smacks, 23 buildings  
and 40 stores. The loss is estimated at  
one million and a half dollars. Ninety-  
three lives were lost.  
Mail advices from Cuba report Gen.  
Canal shot on the 17th July after or-  
ders had been received from Madrid that  
he be paroled and sent to this country.  
At Manuel on the Rio road, riots have  
occurred. The Irish and the German la-  
borers picked a quarrel in a large boat-  
room from which they drove the proprietor  
and family; subsequently some of the Irish  
laborers were terribly beaten by the Ger-  
mans, one named Ryan possibly fatally.  
The Irish again attacked the saloon with  
clubs and stones they were repelled by  
the Germans with repeated volleys from  
shot guns. The Irish beat a retreat.  
Patrick McMahon was shot in several  
places; not fatal.  
Isaac Chilen was shot in 26 places; his  
recovery is doubtful.  
Martin was shot 2 or 3 times and aver-  
ely clubbed. Not known how many others  
were injured.  
OMAHA, July 21.—Fort Fetterman ad-  
vises report that Red Cloud is preparing  
for the war path.  
NEW YORK, July 21.—The Cotton Ex-  
change is examining locations for a man-  
nmoth warehouse for cotton, to liberate the  
expense of cartage, stacking and storage.  
A storehouse for one hundred thousand  
bales will probably be erected at Brooklyn  
Navy Dock, where ships can unload and  
load.

The Houston Telegraph of yesterday  
morning denounces the Orangemen, who are  
moving to Great Britain and to Irish op-  
pression. This is characteristic. Anything  
anti-national suits the taste of the modern  
sham Democracy. Superintendent of Pol-  
ice Kalso had prohibited the Orange pro-  
cession in view of the danger of a riot;  
but Gov. Hoffman, the Democratic choice  
for the Presidency, solemnly commanded the  
order, and blood flowed and lives were sacri-  
ficed. Now, these Democratic wretches, the  
Orangemen, call for a revival of Know-  
Nothingism. We shall see what the result  
of Hoffman's political game will be. The  
Orangemen and Irishmen cannot parade  
in this county without fighting.—Houston  
Union.

The editor of a journal published in  
Antwerp a reporter to Brussels for the  
King's speech, and with him a couple  
of carrier pigeons to take back the docu-  
ments speedily. At Brussels he gave the  
pigeons in charge of a waiter and called  
for a waiter. He was kept waiting some  
time, but a very delicate frieze was sent  
for the delay. After breakfast he sent  
his bill and called for his carrier pigeons.  
"Pigeons!" exclaimed the waiter, "why,  
you have eaten them."  
Youth and age have too little sympathy  
with each other. If the young would re-  
member that they may be old, and the old  
remember that they have been young, the  
world would be happier.

# The Daily Express

OFFICIAL JOURNAL OF BEXAR COUNTY AND CITY OF SAN ANTONIO.

A. SEEMER & CO., Publishers

TUESDAY JULY 26, 1871.

## SPECIAL NOTICE.

The San Antonio Weekly Express is the appointed Official Organ for the 23d Judicial District, composed of the counties of Bexar and Wilson; also for the 24th Judicial District, composed of the counties of Medina, Uvalde, Bandera and Maverick. The San Antonio Weekly Press is the appointed Official Organ for the 26th Judicial District, composed of the counties of Comal, Blanco, Kendall, Kerr and Gillespie.

## BLANK DEEDS.

For Sale at this Office.

"The rascally Radicals" are at work in Grayson county, as we notice the county scrip is at par.

SOME snarls say that the Ku-klux is a Massachusetts idea, and refers to the disguised yankees throwing tea overboard in Boston harbor.

The fellow hits it to a T, but it is the only Massachusetts idea that has penetrated the South to any great extent.

The departurists are right, after all. Does it not read in the Bible, "Depart ye cursed into everlasting fire prepared for the devil and his angels." It is rough on the devil and his angels, however.

WHENEVER you read an obituary closing with the quotation, "No further seek his merits to disclose, Nor draw his frailties from their dread abode," You may be sure it means, "Whiskey killed him."

"The Gonzalez Index speaks of Judge Hancock and a brass band in close proximity. We suppose the latter is expected to perform at the approaching political funeral of the former."—Exchange.

Judging from a late speech of Hancock, he can blow his own trumpet as long and loud that the services of a brass band might be dispensed with. The presence of the brass band, however, is suggestive of the brassness of both performances.

The term for which the members of the present legislature were elected expires by rights, in October, and the people should insist that if they have not the proper spirit to meet and adjourn *et sic*, it be understood that they are not acting in harmony with those who elected them.

We have reason to believe that the Governor and the Attorney General are of the opinion that the constitution does not justify any other reading than that the holding of a third term is a perversion of the law, and in violation of the requirement for an election of the legislature every two years.

This attempt to hold over is nothing but an attempt to perpetuate power and to renew the railroad abominations of the last session.

We are sorry to note that the Governor has committed to imprisonment for life the death sentence that had been passed by the district court at Jackboro on Santana and Big Tree.

These two wretches are described by Gen. Sherman as the incarnation of robbery, murder and rape, and it is now judicially established that they murdered seven American citizens in Texas, and that they turned one man to death. Supposing that there be no future state of rewards and punishments hereafter, justice would demand that Santana and Big Tree be slowly roasted; but the law is merciful, and requires that out of mercy to women and children, and that other red heads be deterred from such heinous deeds, they be dispatched in a public and comparatively painless manner.

The main object of their punishment is defeated. The Klows will believe that the United States Government was afraid to hang the chiefs, and that is rapidly becoming the opinion of the people. We congratulate the saintly Tatum, and wonder if the roasted teamster left a wife and children.

"Austin may be called the city of the illustrious dead." In the State cemetery repose the remains of Gen. Albert Sidney Johnson, Gen. Ben. McCulloch, Wm. R. Scurry, Mentard, John A. Wharton, Terry McIntosh, Judge Hemphill, Lipscomb, and many others whose memories are dear to Southern hearts. The graves of these martyrs to the "Lost Cause" have been nearly neglected. Not a stone, not even a rude headstone, marks their resting places. All traces of many of the graves have wholly disappeared, and the foot of the letter press heedlessly upon the sod which once seals the ashes of departed heroes."—State Gazette.

We have a certain kind of veneration for the straight cut Confederate who died with his sword in his fist, and his face to the foe, but it seems that the ex-Confederate Democracy has none.

The remains of the Unionists who were slaughtered August 10, 1862, in the mountains near Fredericksburg, are covered by a handsome monument.

Now, if the illustrious dead are treated so ignominiously by the party, what words will express the depth of the abjection that will cover the memories of the ignoble living. We mean such men as Hancock, Pease, Hamilton, etc. They will, however, go down to their graves "survived, unshamed and unscathed," and their last resting place be forgotten, as we read above has happened to better men.

## The Legislature.

A few weeks ago the State Journal had an article attacking a party of surveyors who had been mapping the proposed route of the Indianola, San Antonio and El Paso Railroad. In the columns of the Official Organ at Austin, and in the last number we fancied we saw several editorial slugs that indicated at least uncertainty. Hoping that "the trumpet will hold forth no uncertain sound" at Austin, we, for our part, unqualifiedly advocate an election.

Although the members of the Legislature managed to deplete the Treasury, the amount of actual work done for the benefit of the people, was comparatively small. This, taken in connection with the railroad bribery, that gave it an unenviable notoriety all over the Union, induces the people at large to insist upon being represented more worthily. If the members were alive to the disgrace that clings to many of their acts, and were honest men, they would, from a sense of what is due their own reputations, insist on an expression of the people on this subject. Some of the members think we do about it, but mileage and per diem and a hope or another interview with Crosby, will outweigh decency and honor with the majority.

The Gazette "wastes its sweetness on the desert air" by publishing a translation from some northern copperhead paper on the difference of opinion that exists between the "Puritans" and the Germans on the observance of Sunday. It is true that some bitterness does exist on this subject, but the Democrats should not "lay the flattering unction to their souls" that it will ever culminate in the Germans voting the Democratic ticket.

The Democratic journals are wasting their resources in endeavoring to deceive the Germans in regard to the real sentiments of the "chivalry."

The Democratic whiskey and the German lager will never mix satisfactorily, and the more you attempt it the more unpalatable it becomes. The industrious, peaceful, tolerant Germans of Western Texas have no sentiments in common with the idle, drunken, rowdy element that constitutes the base and stinky of the Texas Democracy.

If we were compelled to take the average Texas Democrat as a type of the American, we would despair for our nationality, but we know from actual observation and contact with Americans in the North and West, and also to some extent in the South, that he is a base caricature.

The American and German Republicans may disagree about religion, but they both know that the Republican party is the only hope of the country, and they can overlook their non-essentials.

The greater always contains the less. Therefore, we advise the Democratic press to turn their attention to some more hopeful scheme than that of deceiving the Germans.

It won't work, they read too much.

MURKIN AT SEGUN.—On the eighth of this month, Charles Smith of Guadalupe county, waylaid and killed a colored man named Fayette Durham, and on the following day he shot Turner Young leaving him for dead. Smith then prepared to flee, when Peter Hayles, a special policeman, summoned a posse of six men and pursued the murderer to the residence of James Smith, who refused to surrender the assassin, and fired on the posse killing one of the lumber outfit.

Charles Smith fled to Seguin, where he obtained a writ to arrest the policeman and his posse, on the ground that they had no warrant for his arrest.—State Journal.

Charles Smith, by the above account, was instrumental in murdering three men, but obtained a writ to arrest the policeman and his posse.

The Magna Charta is a very elastic document. We believe we would prefer a little more "centralized, imperialism" in the administration of justice.

The vindication of the law over the mob is a great triumph for the American people, and conveys a lesson that will not soon be forgotten. It is a deplorable state of affairs that such a scene should be enacted in an American city and the loss of life is to be regretted but if it tends to Americanize the New York democratic Irish the advantage will be great.

The people have but little sympathy with the Orangemen but the principle of religious liberty was involved, and the hurricane of populist indignation that proposed infraction by a bigoted, bullying mob, has aroused throughout the entire country, shows how thoroughly the spirit of republicanism has pervaded the masses.

European nations will understand that our boasted freedom is not a sham and that we can protect every class without the necessity of a standing army.

Another branch of the Democracy in the south might draw a wholesome lesson from the New York affair, we refer to the class that whipped men and burned school houses in Bastrop county lately.

A compromise is published in the Union, that smacks of pistols and coffee for two. Colonel John T. Whitfield, of Houston, made some slanderous and vile remarks about Mrs. Davis, and wants to fight a duel with Tracy, who is perfectly willing if Whitfield will show that he is a gentleman, by proving that he did not make the remarks.

Whitfield is a democrat, but we do not believe his party will sustain him, for "to give the devil his due" that is not their style.

The drought extends more or less over the entire State.

## Indianola, San Antonio and El Paso Railroad.

In our last issue, we noticed the arrival of Col. Hector with a party of surveyors who had been mapping the proposed route of the Indianola, San Antonio and El Paso Railroad.

They were enthusiastically received by the citizens along the entire road. The people of Karnes county are not only willing but anxious to prove their interest in the enterprise by something more substantial than words and the citizens of Goliad county have petitioned the County Court to hold an election for the purpose of aiding in the building of the road by 75,000 dollars county bonds payable in 30 years at 8 per centum, and provided that the road be completed to Goliad in two years, the bonds to draw interest when the road shall reach Goliad. The people of Western Texas not only wish, but necessity demands that we have a railroad to the coast, and one in the management of which the people shall have some right, and privileges.

The necessity of the route and its advantages will be fully placed before the public and it is to be hoped that our citizens will do what the people of Karnes, Goliad and other counties have done, grant a substantial aid in subscribing to stock and in the donation of lands that without a road will hardly be of any value whatever, for generations to come.

Want of space prevents us from elaborating the subject at present.

THE SAN ANTONIO EXPRESS says: "The railroad excitement is over. The county of Bexar has done its duty; now let Messrs. Pierce & Co. do their duty as well."

Ah, there is the rub! Too much haste, Mr. Express; but it is never too late to repent.—Indianola Bulletin.

We have already received assurance that the Columbus road will be built, that the iron has been purchased and work will begin by the 1st of October.

But, for the sake of argument; let us suppose that Mr. Pierce is a man of the Morgan stamp, and that he will make no serious attempt to build the road, what would we have to lose or repent of? We have shown that we are alive to the necessity of having a railroad, and have sufficient vim in us to attempt to throw off the yoke of a grasping monopolist. Mr. Pierce did what neither Morgan nor his agent would do, he treated the people with common civility and made them a business-like proposition; and not having lost faith in the honesty of all mankind, we took the trouble to register and vote, and for this trifling expense and trouble we are accorded ten times over by the deposit.

The perspicacity with which the "Bulletin" points out the probability of bribery being used by Messrs. Pierce & Co., if really meant in earnest, is indicative either of incredible ignorance or something worse. There was but one mass meeting, and the expenses attending the election were very insignificant, and were settled by a dozen of our prominent merchants.

The enthusiasm was great, but it was the spontaneous expression of the people, who had been forced for years by Mr. Morgan, and who were alive to the necessity of obtaining railroad communication by some route that was independent of his influence. That is the whole matter in a nutshell.

The French people are recuperating rapidly. The rebuilding of demolished public works is progressing with great celerity, and the prompt action on the part of the people in taking up the loan, has restored confidence. Mr. Thiers called upon the people to lend him 200 millions, and more than double the amount was raised at once. This reflects credit on the financial ability of Thiers, and shows that the resources of the country have not been destroyed to an extent as is generally understood.

One of Darwin's strongest arguments in favor of his theory that man is a descendant of the monkey is that monkeys always part their hair in the middle. It is a noticeable fact, however, that monkeys have quit it since it has become fashionable among certain men.

A hat and robe dealer of Detroit, advertises some handsome "buggy" top dusters for sale; but whether the dusters will sell through for being buggy is not set forth in the advertisement.

Punch has made the discovery that an auction mart is the true land of nod.

THE

"HOWE" Sewing Machines

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867,

And the Gold Medal at Amsterdam Exhibition, in 1869,

And have invariably obtained the Highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in

1870 AND 1871.

The "HOWE"

is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is as perfect in all respects that with ordinary care, it will last a life time without repair.

THEREFORE SELECT

"Elias Howe's"

NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commands itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines. Call and examine before purchasing elsewhere.

## CANDIDATES.

We are authorized to announce the Hon. EDWARD DEGENER, as a candidate for re-election to Congress from the 4th District of Texas, subject to the nomination of the Republican Nominating Convention of this District.

See advertisement of Dr. Butts' Dispensary, headed "Book for the millions" MARRIAGE GUIDE—in another column.

**TRUTH.**—The powers of Mrs. Whitcomb's Syrup for children are as positive as the sunlight from heaven; and gentle and soothing as an angel's whisper.

A little son of Cap. Tobin was run over by the Mexican show wagon and escaped death almost by a miracle. He was much bruised but is in no danger.

We learn too that a little girl, daughter of Col. S. G. Newton had her arm broken by a fall from a tree.

MILK is high, but we are unable to say whether this arises from the scarcity of milk or the scarcity of water, both being necessary in the manufacture of the same.

The beef is getting so poor that the butchers apologize, it costs the same as usual but a little of it goes a good way, particularly if you give it to the dog, who can eat it if he is very hungry and has good teeth.

CHICKENS are not coming in very much, those that do, are brought in a wagon, they don't seem to recover from the cholera very fast, in fact they look hen pecked, but the doctors say the disease don't affect the eggs, particularly when they are made into an omelet if salt is used in eating. The report that the democrats are buying them all up so they can have some chicken pie too, is unfounded, they don't like chicken-pie, it is anatomical.

Dogs are lively, particularly at night, we suppose it is the heat that annoys them so they can't sleep. Every dog has his day, that is what is meant by the dog-days. They say that the city council are in with the butchers, and will put off killing the dogs until the weather turns cool, so that we may have sausage dog cheap. But perhaps this is an idle tale got up to hound on the ignoble cur that howl about the radicals.

Now is a good time to put the dogs apart in their own juice like peaches for they are not nice that way, but put up a spout, but perhaps the city council is waiting for Hancock to come, he will furnish the spout for nothing, he needs one for himself as soon as the election is over.

The Galveston, Houston and Texas railroad company made, through the Vice President of the road to the city of Galveston a proposition similar to the one offered to the city of San Antonio, but such a cry was raised against the company that the offer was withdrawn.

The consequence is that a request signed by an immense number of the citizens of Galveston, and among them the best men and the largest property holders, has been made Mr. Seal, to renew the proposition. The opposition seems to come chiefly from those who have really the least interest in the matter.

The New York World and the Woodhull and Claflin Weekly, unite in a lament over a distorted account of the death of Satsank, the third Kiowa chief, who was shot for factiously sticking a knife with a knife and afterwards endeavoring to manipulate a loaded carbine. The strong minded females are virtuously indignant at the barbarity of a United States officer, who rather sustained the man that shot "the noble savage," and thereby saved him from going to Hartsville. We have seen nothing as mournfully touching in the papers since we saw it stated that a man belonging to the Humane Society, went along on the cars, when the dogs were being transported to market, and fanned them with a palm leaf fan.

We hope that when we all get to the "happy hunting grounds," that the strong minded females that edit the above mentioned paper, and the three "sons of the forest," may be kept penned in one corral. The outsiders will be glad, and then some infirmities can be cured on the counter-irritation principle.

The highest price ever paid for a literary contribution in a periodical, was given by Punch to Douglas Jerrold, for his "advice to people about to marry." The price was \$25 a word—but there was only one word of the advice: "Don't."

## Proceedings of the City Council.

SAN ANTONIO, July 14, 1871.  
Regular meeting.  
Present, his honor, Mayor Tholepape.  
Councilmen—Messrs. Norton, Gross, Hill, Dunst, Callaghan and Moore.

A communication from the Mayor stating a proposition of the Bishop of Galveston, to give to the City, under certain conditions, the land needed for the extension of Navarro Street by the Convent, was read, and on motion said proposition was accepted.

Petition of Messrs. Wagner & Rummel, concerning the front wall of the building, between their store and that of Mr. A. Sartor Jr, on Commerce Street, was read, and on motion the Mayor was authorized to confer with Messrs. Wagner & Rummel concerning said petition.

Petition of several citizens for the repairing of a portion of North Center street, was read, also the report of the Improvement Committee recommending the granting of said petition, on motion said report was adopted.

Petition of Wm. Kossfeldt for the remission of a fine and costs levied upon him by the Recorder's Court, was read and rejected.

Report of the Finance Committee recommending the payment of bill of A. Siemerling & Co., was adopted.

Council then adjourned until 3 P. M. July 24, 1871.

A quaint old Scotch proverb runs thus: "An ounce of mother is worth a pound of clergy."

## Consumption,

Its Cure and its Preventive,

By J. H. Schenck, M. D.

Many a human being has passed away, for whom death there was no other reason than the want of known and indisputably proven means of cure. Those near and dear to family and friends, are sleeping the dreamless slumber into which, had they timely adopted

**Dr. Joseph H. Schenck's simple Treatment,**

and availed themselves of the wonderful & efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing preposterous. To the faith of the invalid is made no representation—that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is infallible. Its philosophy requires no argument. It is self-evident, self-convincing.

The Sarsaparilla and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

**Consumption,**

The Mandrake Pills are composed of one of Nature's subtlest gifts—the *Podophyllum Peltatum*. They possess all the blood-purifying, alterative properties of colomet, but unlike colomet, they

**"Leave no sting behind."**

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

**A Supply of Good Blood.**

The Sarsaparilla, in conjunction with the Pills permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man; Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gathering, it prepares them for expectoration, and lo! in a very short time the mucus is vanquished, the system throes that it recovered in renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the reward or punishment that was

**Given up as Lost.**

The second thing is, the patient must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it may be prevented or a cure cannot be effected. Fresh air and riding out, especially in the season of the country in the fall and winter months, will bring Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must be in good condition before he is determined to get well. This is a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful; Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

Many years ago I was in the last stages of consumption; confined to my bed, and as one time my physicians thought that I could not live a week; then, like a drowning man, catching at straw, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel their penetrates my whole system. They soon ripped the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only thirty-seven pounds; my present weight is one hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth Street, Philadelphia, every Saturday from 9 A. M. to 2 P. M. Those who wish a thorough examination with the Sarsaparilla and Mandrake Pills, the Hospitaler, should be charged \$5. The Hospitaler declares that exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, accepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough lessens, the night sweat is abated; in a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families, as a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Sarsaparilla, \$1.00 a bottle, or \$2.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all Druggists and Dealers.

 built, and was awarded the First Premiums  
 and Gold Medal—proves that the proprietors  
 have been able to sustain in the field their  
 claims of superiority for the Clipper Machine  
 over all others. Its extraordinary lightness  
 of draft takes one-third of the labor of the  
 team. The adjustability of the finger-bar,  
 to cut high or low without stopping the team,  
 is worth \$25 on any machine. It is the only  
 mower that has the iron center draft in so  
 complete with correct mechanical principles.  
 In short, it is the lightest, the most durable,  
 the least complicated, the most perfectly  
 constructed, the most symmetrical in design,  
 of any implement of its class. Farmers
