SPECIAL NOTICE.

The San Antonio Weekly Express is the appointed Official Organ for the 23d Judicial District, composed of the counties of Bexar and Wilson; also for the 24th Judicial District composed of the counties of Medina, Uvalde, Bandera and Maverick. The San Antonio Weekly Free Press is the commissioned Official Organ for the 25th Judicial District, composed of the counties of Comal, Blanco, Kendall, Kerr and Gillespie.

BLANK DEEDS.

For Sale at this Office.

It is to be hoped that all the frontier counties of this Congressional district will be represented at the convention at New Braunfels. The question of frontier defence is one of life and death to the counties liable to Indian depredations, and the necessity of being represented in Congress by some man who will endeavor to obtain redress for their grievances must be apparent to all. Therefore, call your county meetings and send your delegates forward.

Foster, the New York street car murderer, who was to have been executed last week for a most brutal improvised murder has been reprieved until November by Gov. Hoffman.

The people of New York were excited to such a pitch of fury at the murder, and the frequency of deadly assaults by men of Foster's stamp, that lynching was even talked of in the newspapers.

But he was a pet of the Democracy and a very useful man on elections. Therefore the gubernatorial interference.

MANY of the Texas papers of the democratic persuasion are fretting themselves unnecessarily about what Hancock said at San Antonio about the Germans. We have said all we intend for the present, and as Mr. Hancock has thought proper to let the matter rest uncontradicted for nearly six years, we are in no hurry just now to show exactly what he said. At the proper time we will do so. We don't believe in long range firing.

Free Schools in the South.

It is not to be supposed that the former slaveholders throughout the South would acquiesce in the free school system without a great deal of useless opposition. They remember yet that it was the uneducated whites that were always ready and could be depended upon in sustaining them, either in defending slavery at home or attempting to carry it into the border States. It is therefore not surprising that they pay in many of the Southern States to the school tax.

The old time leaders of the party of retrogression are opposed, "loath and loath," to converting our idle, ignorant, lazy class into reasonable, respectable citizens, capable of reading and writing, and able to exercise their own understandings and all matters in which they are interested.

But the reason for this opposition to what is everywhere recognized as the true and only safeguard against the loss of civil liberty, lies deeper than would at first appear. It is true that all hopes, and to a certain extent, all desire for the re-establishment of slavery have gone glimmering, but the hope of obtaining special legislation regulating the labor of the black race to the special benefit of his former master, has not been given up. The effective and continued management of the school system would destroy this last hope of ruling the South, as in bygone days, but that they are occasionally successful in their scheme, is shown by the fact that in Georgia the free school system has been virtually defeated by democratic wire pullers in the legislature.

Mr. L. Napoleon has been sued in England by some Englishman, who was banished to that country a number of years ago when L. N. was Emperor of France. They claim only 400,000 pounds sterling as damages.

An Napoleon is now a private individual they have some show of recovering.

A famine prevails in Texas that exceeds anything heretofore heard of.

The misery has reached such a pitch that in many parts of the country the people have resorted to cannibalism.

This State of things can only happen in a country when the roads are in a primitive condition.

The Fourth Congressional District.

(Continued from the Free Press.)

It is a little mysterious, under the circumstances, that he remained a Democrat.

The French Government is making preparations to transport to New Caledonia the condemned Communists. The climate of New Caledonia is said to be very healthy, and the soil of extraordinary fertility, and adapted to the growing of coffee, sugar and tea.

The families of the transported will be assisted by the government in joining them. This will probably be more satisfactory to everybody concerned than the wholesale shooting that has heretofore prevailed.

A girl of Louisville was married last week, who bragged that she had been engaged two years, and that the lips of her lover had never been pressed to hers. We will bet a ticket in the co-operative lottery against a railroad that she is weeping now because she has wasted two years' valuable time.

The good work goes bravely on: An Illinois shoemaker has been shot for not having a pair of boots done when promised, compelling a man to go to a dance barefooted. A girl with a brass heel stepped on his pedicled corn, and he avenged himself on the shoemaker.

A NAUGHTY little boy, blabbering because his mother wouldn't let him go down to the river on the Sabbath, when being admonished, said: "I didn't want to go a-swimming with 'em, ma. I only wanted to go down and see the bad little boys down for getting a-swimming on a Sunday."

The bloom of youth will fade away, the brightness of the eye will grow dim with age, but a miserable little corn will never pass away.

various authors. Towards the close of the year his siding with the Germans in local affairs was a deal of ill will on the part of his constituents. His aversion on one occasion to some strictures on his course was an ignorance he developed in an intelligence what sensible man can hesitate as to which party he shall advocate.

It is a little mysterious, under the circumstances, that he remained a Democrat.

THE World-Renowned ELIAS HOWE

SEWING MACHINES

ARE LEADING ALL OTHERS.

SALES FOR 1870

Larger than any other Sewing Machine manufactured in the United States.

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867.

And the Gold Medal at Amsterdam Exhibition, in 1869.

And have invariably obtained the Highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in 1870 AND 1871.

THE "HOWE" Sewing Machines

Is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with ordinary care, it will last a life-time without repair.

THEREFORE SELECT

"ELIAS HOWE'S"

NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fall, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commands itself as especially appropriate for sewing women material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines.

Call and examine before purchasing elsewhere.

 medicinal properties of the South American
 Plant, called

JURUBEDA.
 Sent a special commission to that country
 to procure it in its native purity, and
 having found its wonderful curative prop-
 erties to even exceed the expectations for-
 mulated by its great reputation, he concluded
 to offer it to the public, and is happy to
 state that he has perfected arrangements
 for a regular supply of this wonderful
 Plant. He has spent much time experi-
 menting and investigating as to the most
 efficient preparation from it, for popular
 use, and has for some time used in his own
 practice with most happy results the effec-
 tual medicine now presented to the public

Dr. Wells' Extract of Jurubeda
 and he confidently recommends it to every

 Agents for the Grapes, Morins and Brazers.

The great field trials at Sedalia, Mo., and
 at Xenia, Ohio, in the Summer of 1868—
 where "The Clipper" met some 40 competi-
 tors, including all the leading machines
 built, and was awarded the First Premiums
 and Gold Medal—proves that the proprietors
 have been able to sustain the field their
 claims of superiority for the Clipper Machine
 over all others. Its extraordinary lightness
 of draft takes one-third of the labor off the
 team. The adjustability of the finger-bar,
 to cut high or low without stopping the team,
 is worth \$25 on any machine. It is the only
 mower that has the true center draft in ac-
 cordance with correct mechanical principles.
 In short, it is the lightest, the most durable,
 the least complicated, the most perfectly
 constructed, the most symmetrical in design,
 of any implement of its class. Farmers
 use CLIPPER in the "Horse's Field," and you
 cannot afford to ignore their welfare. Send
 for pamphlet—investigate. See or write in
 some one who has used THE CLIPPER. See
 the Machine yourself before you buy any
 other.

WONDERFUL RAPIDITY.
 Perfectly Regular and Even Distribution of
 the Seed. Cahoon's Broadcast
 Sower. For Sowing all Kinds of Grain
 and Grass Seed.
 The unprecedented success of this Sower
 the past season is without parallel in the
 history of Agricultural Implements. The
 farmers of the Country have no longer got to
 wait in the busy of Seeding time for the
 imperfect process of Hand Sowing, nor for
 the "Slow Coach," called "Combined
 Sowers, &c., &c."
