 South was complete. He asked whether
 the government intended to bring this
 point to the attention of the arbitration
 to Geneva, and proceeded to argue it at
 great length. Lord Granville replied, that
 the question of liability for the depredations
 of the Alabama would be argued in
 all its bearings before the arbitrators by
 Sir Roundell Palmer and other eminent
 counsel detained on the part of Great Brit-
 ain, whose interests would certainly not
 suffer for lack of learned defenders.

A Living Furnace.
 The living body is a regulated furnace.
 The human organism is all more or less
 combustible, but not equally so. The
 blood, that is to say the food in its trans-
 formed state, may be compared to the fuel,
 and the more stable elements formed
 from the blood, to the iron stove which
 contains the fuel. Just in proportion to
 the energy and activity with which life
 is carried on, does this combustion pro-
 ceed; and just in proportion as the com-
 bustion proceeds, is fresh fuel, that is to
 say fresh blood, required. But in order
 to obtain a supply of fresh blood, food
 must be present, and not only food, but
 the power of converting the food into
 blood, that is digestive energy. Where
 there is a failure in this digestive en-
 ergy, or in the appetite which accompanies
 it, stimulants of various description are
 frequently had recourse to; but their
 effect is transient, and if leaned upon too
 long and too exclusively, they tend to
 derange the digestive functions, and to
 take away the natural desire for food,
 which is the only true life-supporter.
 But let Dr. Fisch's Bitters be used perse-
 veringly and in the prescribed quantities,
 in conjunction with the daily meals, and
 their tonic qualities will rapidly strength-
 en the digestive organs, and create at the
 same time a sufficient and healthy appete.
 And when an abundance of whole-
 some food, (which we are thus enabled to
 take,) is duly digested and assimilated, it
 will give a fullness of vitality, which will
 take away any desire for the improper use
 of alcoholic stimulants.

Attention Republicans!

There will be a mass-meeting of the Republicans of Bexar county for the purpose of ratifying the nomination of the Hon. Ed. Degener, on Wednesday night, at the Turner's Hall, at 8 o'clock.

Hon. Ed. Degener, Hon. Jas. P. Newcomb and other prominent republicans will address the people. Let the Republicans rally en masse.

The nomination of Mr. Degener

In another column will be found the telegram announcing the unanimous nomination of Mr. Degener by the New Braunfels Convention, Messrs. Newcomb and Brown having withdrawn.

We can get a better idea of the importance of this step from the unqualified satisfaction that has of late been manifested by the unconstructed element of the prospect of inharmonious action on the part of the Convention. Perhaps the inordinate desire of the democratic press to magnify the disagreement between republicans and the attempt to bring these disagreements to an open conflict, has done much to cause the united action of all the delegates in the Convention.

Personal jealousies and misunderstandings have been thrown aside, the man most likely to defeat Hancock has been placed in the field, and we will have a fair-straight fight with General Hancock under circumstances that will secure a victory.

Instead of a demoralized army, with the one wing firing on the other and dissension and confusion prevailing among the leaders, as is the case in the democratic camp, the enemy will find that he will have to contend with a man worthy of his steel, whose forces are well-organized and eager for the fray.

The action of the New Braunfels Convention insures the perpetuation of republican institutions in this section of the country and affords convincing proof of the inherent strength of the party in Western Texas.

We congratulate the republicans of the 4th District.

A young German girl has been found exhibiting signs of insanity, and being under age, the negro has been held to answer before the courts. The Herald makes this circumstance the basis of the following remarks:

"We refer to this revolting subject merely to make a brief comment, viz: That political equality with negroes must of necessity lead to social equality and miscegenation. We first endure, then pity, then smile—such are the legitimate results of filthiness engendered in Loyal Leagues, and our German friends may think it very well to count and adore the negro in council, but when introduced into your families, or if the men by intimate association set the example to their children, these revolting occurrences will be the result, and must lead to the demoralization and deterioration of society."

The Herald thinks that political equality must of necessity lead to social equality and miscegenation, and this being the case some good concentrations are readily accounted for.

In the first place, this is a singular remark from a paper that has accepted the amendments. When the Herald accepts the amendments it accepts the negro political equality.

But the drift of the above article is simply this: We Democrats do not acknowledge the negro equality, and are therefore much more moral than you republicans (Germans in particular) who do, and for proof positive we call your attention to the example of this German girl.

We will leave it to the Herald to throw out inferences as to the comparative stanger of the American and German women from miscegenation, and will simply remark that the Confederacy and who were owned by the more degraded class of whites, will probably have their own peculiar views on that subject.

The complaint, that has most frequently appeared in democratic papers against the Germans, was that they did not treat the negro with familiarity and appreciation, and the unceasing cry has been that the Germans dislike the negroes, now that a degraded creature has been caught in the act the Herald changes the tune and reads the Germans a lecture on morality.

Since we are on the morality question, we will remind the Herald that there are some subjects that should not be agitated too rashly, and we therefore take the liberty of addressing a few questions to the worthy representative of the democracy.

Do you not know that it is the almost universal system of the most respectable democratic slave-owners to duplicate and triplicate their families in several shades, and is this not proved beyond the shadow of a doubt by the extraordinary

number of imitations in the South and by their aristocratic features and habits, and do you not know that many of the most respectable families they were raised and trained in the legitimate children?

After the editors of the Herald have managed to catch their breath again, we would like to know:

2d. Can any such disgraceful proceedings be laid at the door of the Germans, although they do believe in political equality of all men?

Those Germans who have felt flattered by the cheap adulation that the Herald has been smearing their with of late, should read and inwardly digest the entire article in the Herald. Do so some more, Mr. Herald.

Condensed Texas News.

Henry Miller, colored, was executed for the murder of Geo. D. Hays, on the 28th instant, at Brenham.

A Mexican, name unknown, fell from a wagon near Navasota, and was killed; he was drunk at the time.

An engine on the Galveston and Houston railroad, blew up, one mile from Harrisburg, fireman and engineer badly scalded.

Wm. Taylor, a cistern builder, died at Austin on the 4th from sunstroke.

A German Lutheran church has been built at Austin, at the cost of \$3,000.

Dr. C. G. Young, President of the Houston and Great Northern railroad, who was reported to have his ankle sprained by the cars being thrown off the track, has since died, he having received internal injuries.

The feud who placed obstructions on the track has not been discovered.

Robert Diamond has been sentenced by the District Court of Cherokee, to be hung for the murder of Henry Bryan. What is Texas coming to under Radical rule, where the law usurps the prerogatives of the citizen, and the vigilance committee?

The Lunatic Asylum at Austin is full, and only recent and curable cases will be received.

The Western Union Telegraph line will extend to Corpus Christi by the 10th of September.

Dr. Brazier shot and killed himself accidentally at Brenham.

The uncertainty of Texas seasons has almost passed into proverb. When the unprecedented dryness and the inevitable dust is taken into consideration, it is pleasant to read the Weekly Express of August 11th, 1870. It complains of tremendous and long continued rains, and gives an account of an overflow on the 8th, which carried off bath houses, &c. The whole country was under water, and the universal cry was "when will it stop raining?"

This sounds strange to people who have had their eyes filled with driving dust and waded ankle deep in the same for the last two months. There was a slight shower a few miles east of the city on the 15th, but the prospect is as dry as ever.

The citizens of Kendall county are putting their shoulders to the wheel in the defence of their lives and property from the dangers of Indian raids. They have completed the organization of a company of 60 men who will scout the country whenever the Indians make their appearance.

J. P. Staudeloch has been elected Captain, and Patten and Stenzenfus lieutenants, and they are an efficient body of men that will do good service as soon as an opportunity offers.

As their object is to destroy the common enemy they should receive encouragement and support from the State and citizens generally.

"FORWARDS" indulges in some bitter remarks in reference to Senator Giddens and Maj. Stanley Welch, speaking of the former as being possessed of "an unwashed snout" and of the latter as "a despicable individual."

These remarks are in bad taste in a newspaper that is sustained solely by the Congressional printing it received last year.

Our New Braunfels Correspondence.

NEW BRAUNFELS, Aug. 14, 1871.
For the last few days New Braunfels has been a lively little place, quite a number of the delegates having arrived; and interest in the question as to the nominee is increasing hourly.

Degener, Newcomb and Brown are present, and the impression is gaining ground that Mr. Degener is ahead of all his competitors, notwithstanding the indefinite state of mind of some delegates, even of some of those who had been instructed to vote for Degener.

The Convention will meet in the court-house, which has been tastefully decorated by our New Braunfels friends with flags and pictures of Washington, Lincoln, Grant, Sherman, and other American generals and statesmen.

A large Union flag decorates the hall and another waves from the roof.

At ten o'clock on Monday morning the Convention was opened by Mr. Newcomb, who read the call for the Convention and suggested the nomination of a temporary chairman. Grothaus, of DeWitt, and Camille Johns, of Colorado, were elected chairman and secretary.

After the representatives of the press had been admitted and committee chosen, the Convention adjourned to 8 o'clock P. M.

The subsequent proceedings are to be found in to-day's Express.

SPECIAL TO THE SAN ANTONIO EXPRESS.

New Braunfels, Aug. 14, 1871.
Convention adjourned to 8 o'clock to-morrow morning.

President, Robert Caldwell. Vice-Presidents, Hugo, of El Paso, and Ten Dyck, of Columbia.

Secretaries, C. Jones, Drummond and Groce.

Committee on Platform, Jas. Wright, A. Farson, A. Siemering, C. Jones, Robt. Zapp, Fayette Walker, Grothaus, J. E. Halsey and Williams.

Convention adjourned to 9 o'clock to-morrow morning.

A. SIEMERING.

Latest from New Braunfels.

Degener Unanimously Nominated!

NEW BRAUNFELS, Aug. 15, 1871.

Degener was unanimously nominated. Newcomb and Brown withdrew. The greatest harmony prevails.

A. SIEMERING.

THE CITY has been extraordinarily quiet and orderly for the last few months in particular, and this may be attributed to the effectiveness of the City and State Police and more remotely to the beneficial effects of Republican management. Beyond the sporadic attempts of an occasional soldier or coward to raise a disturbance on general principles, nothing of importance in the lawless line has transpired to mar the quiet of the city for a long time.

We believe that the people are so well satisfied with the state of things that the chances of electing a democratic city administration this fall are exceedingly slim.

SODA and Mineral water do not receive that attention from the public they did before the introduction of Cincinnati beer and ice.

We were pleased to receive a call yesterday from Judge I. N. Everett, of the 25th District, who won golden opinions from our people for the efficient manner in which he discharged his duties as District Attorney of this District.

He reports the condition of the country from the drought as terrible but the misfortunes of the people have not been aggravated this moon by an Indian raid.

The Democratic papers are making considerable capital out of the remark of Horace Greely, that the carpet-baggers in the South spell pray with an "e," and that they "pray" without ceasing. These editors forget that they themselves spell pray with a "h," and they carry out the injunction and pray without ceasing.

It is stated by the Paris Journal that Jules Simon (a member of the International society).

"You here, Jenkins! How the deuce did you find your way out?" "Find my way out! Out of where? What do you mean?" "Why, the last I saw of you, you were lost—in slumber." "Oh—ah; well, I rode out on a night mare!"

"Is that marble?" inquired a gentleman, pointing to a bust of Kentucky's great statesman, the other day, in a store.

"No, Sir, that's Clay," promptly replied the dealer.

THE

World-Known

ELIAS HOWE

SEWING MACHINES

ARE LEADING ALL OTHERS.

SALES FOR 1870

Larger than any other Sewing Machine manufactured in the United States.

THE

"HOWE" Sewing Machines

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867.

And the Gold Medal at Amsterdam Exhibition, in 1869.

And have invariably obtained the highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in

1870 AND 1871.

The "HOWE"

is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with ordinary care,

it will last a life time without repair.

THEREFORE SELECT

"Elias Howe's"

NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commands itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines.

Call and examine before purchasing elsewhere.

Caution.

Observe our

The holders of tickets to which gifts are awarded, will be paid on presentation at the office in Louisville. A liberal discount will be allowed when 100, 500, or 1,000 tickets are purchased in a lot. All orders accompanied by remittance will be promptly attended to, and the tickets returned by mail registered or expressed, as ordered. The undersigned, late principal business manager of the very successful Maritime Library Gift Concert at San Francisco, California, has been appointed agent and manager of the Gift Concert in aid of the Public Library of Kentucky.

The drawing will take place in public, and everything will be done to satisfy buyers of tickets that their interests will be as well protected as if they personally superintended the entire affair. MANNER OF DRAWING: There will be two glass wheels. One wheel will contain 100,000 numbers, plainly printed on leather tags. The other wheel will contain 721 boxes, each containing a gift. One tag or number will be drawn from the 100,000 wheel, and the first box drawn from the second or 721 box wheel will contain a gift, neatly printed and sealed up, and the gift so drawn from the second wheel will be the gift of the tag first drawn, whether \$100, \$1,000, or \$100,000.

Gifts will be paid on presentation of tickets drawing such gifts the second day after drawing. Tickets or coupons drawing gifts can be collected through any business or banking house in Louisville, or by any Express Company. All tickets are like greenbacks. No record being kept of purchasers' names, tickets are good only as the holder. Persons desirous of acting as agents for the sale of tickets in any city in the United States or Canada, address CHAS. E. PETERS, Manager, Louisville, Ky., Office, 120 Main Street, Johnson's Block. N. B. Buyers will note that there are only one hundred thousand tickets instead of two hundred thousand, as in the San Francisco Gift Concert, and that there is \$50,000 more distributed.

Consumption,

Its Cure and its Preventive,

By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. Joseph H. Schenck's simple Treatment, and availed themselves of his wonderful efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case, proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid, made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicine is as simple as it is successful. Its philosophy requires no argument. It is self-evident, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the chieftain of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they

"Leave no sting behind." The work of cure is now beginning. The vitiated and mucous deposits in the bronchi and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsibly, and the patient begins to feel that he is getting on his feet.

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more faintness, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and expels the inspissated and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is relinquished, the rotten tissue that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

Given up as Lost.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it may be prevented by a cure tannin be effected by Fresh air and riding out, especially in this season of the country in the fall and winter season, and all spring. Physicians who recommend that coughs lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as long as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This is a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words: "Many years ago I was in the last stages of consumption; confined to my bed, and at one time only a spoon-feeding was allowed me; then, like a drowning man, I caught at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripped the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only thirty-seven pounds; my strength was only one hundred and twenty five (25) pounds, and for years I have enjoyed unimpairing health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., continues to see patients at his office, No. 13 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines used, no other accommodations than the ample instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, let it come, let the despairing at once be of good cheer. Good blood at once follows, the cough lessens, the night sweat is absent, in a short time, both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.25 a bottle, or \$7.50 a half-dozen. Mandrake Pills, 75 cents a box. For sale by all druggists and Dealers.

Psychomancy. This word is de-
 rived from the Greek, signifying the power of the soul,
 spirit or mind, and is the basis of all human
 knowledge. Psychomancy is the title of a
 new work of 400 pages by Herbert Ham-
 ilton, B. A., giving full instructions in the
 science of Soul Charming and Psychologic
 Fascination; how to exert this wonderful
 power over men of subliminal consciousness,
 at will. It teaches Mesmerism, how to be-
 come Trance or Writing Mediums, Divination,
 Spiritualism, Alchemy, Philosophy of
 omens and Dreams, Brigham Young's Mar-
 riage, Guide to Marriage, &c. This is the
 only book in the English language profess-
 ing to teach this occult power, and is of
 immense advantage to the Merchant in
 selling goods, the Lawyer in gaining the
 confidence of Jurors, the Physician in
 healing the sick; to Lovers, in securing the
 affections of the opposite sex, and all
 seeking richness or happiness. Price by

 Inflammation of the Liver, Dropsy, Singuish
 Circulation of the Blood, ascites, Dropsy,
 Tamora, Jaundice, Serofula, Dys-
 pepsia, Ague and Fever, or
 their Concomitants.

having become aware of the extraordinary
 medicinal properties of the South Ameri-
 can Plant, JURUBABA.

Sent a special commission to that country
 to procure it in its native purity, and hav-
 ing found its wonderful curative prop-
 erties to even exceed the anticipations for-
 med by its great reputation, has concluded
 to offer it to the public, and is happy to
 state that he has perfected arrangements
 for a regular supply of this wonderful
 Plant. He has spent much time experi-
 menting and investigating as to the most
 efficient preparation from it, for popular
 use, and has for some time used in his
 practice with most happy results the es-
 sential medicine now presented to the public
 as

Dr. Wells' Extinct of Jurubaba
 and he confidently recommends it to every
 family as a household remedy which should
 be freely taken as a Blood Purifier, in all
 derangements of the system and to
 animate and fortify all weak and Lymphatic
 temperaments.
