(BY AUTHORITY.)
CONVENTION
 BETWEEN THE
 General Post Office of the United States of
 America and the General Post Office of
 the United Kingdom of Great Britain
 and Ireland.

The General Post Office of the United
 States of America and the General Post
 Office of the United Kingdom of Great
 Britain and Ireland, being desirous of es-
 tablishing an exchange of money orders
 between the two countries, the undersig-
 ned, duly authorized for that purpose, have
 agreed upon the following articles:
ARTICLE I.
 There shall be a regular exchange of
 money orders between the two countries.
 The maximum of each order is fixed at
 ten pounds sterling, when issued in the
 United Kingdom of Great Britain and Ire-
 land, and, when issued in the United
 States, at fifty dollars in the national
 paper currency of the latter country.

ARTICLE II.
 The British Post office shall have power
 to fix the rates of commission on all mon-
 ey orders issued in the United Kingdom
 and the United States Post Office shall
 have the same power in regard to all mon-
 ey orders issued in the United States.
 Each office shall communicate to the other
 its tariff of charges or rates of commission
 which shall be established under this con-
 vention, and these rates shall, in all cases,
 be paid in advance by the remitter, and
 shall not, in any event, be repayable. It
 is understood, moreover, that each office is
 authorized to suspend, temporarily, the
 exchange of money orders in case the
 course of exchange, or any other circum-
 stance, should give rise to abuses, or cause
 detriment to the postal revenue.

ARTICLE III.
 Each country shall keep the commission
 charged on all money orders issued within
 it, but shall pay to the other country one
 per cent. on the total amount of such
 orders.

ARTICLE IV.
 No money order shall include a fraction-
 al part of a penny or of a cent.

ARTICLE V.
 The service of the posting money-order
 system between the two countries shall be
 performed exclusively by the agency of
 offices of exchange. On the part of the
 United States, the office of exchange shall
 be New York, and on the part of the
 United Kingdom, London.

ARTICLE VI.
 Any person in the United States desir-
 ing to remit to the United Kingdom a sum
 of money within the limits prescribed by
 Article I, may pay it into any post office in
 the United States designated for such pur-
 pose from time to time, by the Postmaster
 General at that country. Such person
 shall, at the same time, give the name and
 address of the person to whom the amount
 is to be paid in the United Kingdom, and
 his own name and address. Any person
 in the United Kingdom desiring to remit
 to the United States a sum of money with-
 in the same limits, may pay it into any
 money-order office of the United Kingdom,
 giving at the same time, the name and ex-
 act address of the person to whom the
 amount is to be paid in the United States,
 and his own name and address. The re-
 ceiving postmaster in either country shall,
 in accordance with the rules established
 by his postal administration, notify every
 such payment to the despatching exchange
 office. The postmaster of New York, upon
 receipt of every notification of that kind,
 shall make out and forward to the prayer
 in the United Kingdom a money-order,
 payable in sterling at the post office in
 that country, designated by the remitter
 of the order, it being understood that the
 money-order so remitted shall be sent, in
 the first instance, to the controller of the
 money-order office in London, and shall
 not be subject to postage.

ARTICLE VII.
 By every mail, the exchange office of
 each country shall send to the exchange
 office of the other country a certified list
 of sums payable in that country, and re-
 ceived since the despatch of the previous
 list. As soon as any such list shall have
 reached the New York office, and been
 verified, this office shall make out inland
 money orders in favor of the payees, for
 the amount specified in the list, and shall
 promptly forward them to the payees or to
 the paying office, in conformity with the
 regulations existing in the United States
 for the payment of money-orders. The
 list forwarded to the United Kingdom
 shall be accompanied by the relative let-
 ters of advice of the orders entered there-
 in, together with the orders themselves,
 as already settled in Article VI. After
 comparison with the list, the advice shall
 be despatched to the office drawn upon,
 and the letters enclosing the orders posted
 for delivery. The lists, by means of which
 each office of exchange communicates with
 the other, shall be according to the Forms
 A and B annexed.

ARTICLE VIII.
 The list despatched from each office of
 exchange shall be numbered consecutively,
 commencing with No. 1, at the begin-
 ning of each year, and the entries, also, in
 these lists, shall have consecutive num-
 bers, those in the lists from the United
 Kingdom commencing each calendar month
 with No. 1. Of each list despatched from
 New York, a duplicate shall be sent, which
 duplicate shall, after being verified at the
 British office, be returned to New York.

ARTICLE XIV.
 Should any list fail to be received in due
 course, the despatching office shall, on re-
 ceiving information to that effect, trans-
 mit, without delay, a duplicate of the list,
 duly certified as such.

ARTICLE X.
 Each office of exchange shall promptly
 communicate to the other the correction of
 any simple error which it may discover in
 the verification of the lists. When the
 lists shall show irregularities which the
 receiving office shall not be able to rectify,
 that office shall apply for an explanation
 from the despatching office; and this ex-
 planation shall be afforded without delay.
 (To be continued.)

The celebrated Dean Swift once said, "whenever I am hard up for a sermon I abuse the Pope; he is my stillton cheese; there is always plenty of it and some people never get sick on it."

When the Democracy have no argument to advance they fall back on the old text—taxes—and preach without ceasing, "taxes! taxes! taxes!!!"

With tax-paying it is like with the rich; those who suffer worst from it have the least to say about it. The cattle-stealing ruffian, who lives by plundering his neighbor's stock, or the impudent city pettifogger, mouth most about taxes. The men who pay the taxes, that they may have a government have the least to say about them.

To quote the democratic mobocracy on this question is not more absurd than going back to the time when the Indians owned the country. Then there were no taxes to pay. Why not then go back to first principles at once and say, "O for the good old day, when there were no taxes to pay, and every man executed the law after his own fashion."

A COMMUNICATION from the Assistant Treasurer of the United States at New York, addressed to Colonel C. M. Terrill, notifies him that a check drawn by him on the Treasury at New York, for the sum of \$1500, to the order of surgeon J. F. Hammond, U. S. A., was forwarded from Sherman, Texas, making inquiry as to its genuineness, believing the same to be either an entire forgery, or a fifty dollar check, alleged to fifteen hundred dollars. Upon investigation it was proved that the check was altered, as suggested, and was consequently not honored at the Treasury in New York.

Colonel Terrill states that he issued the check in favor of Surgeon Hammond, for \$50, who had it cashed by a merchant at Jacksonville, Texas. It passed from them to other hands, and was presented to Messrs. Van Winkle & Co., at Sherman, by a man calling himself James Monroe, for collection, but who, becoming suspicious of the discovery of the fraud, left the place, which action influenced the letter of the Sherman merchants to the Assistant Treasurer, resulting in the fulfillment of their apprehensions.

In this connection we now wish to caution the public about checks given by paymasters and other disbursing officers of the government, and to state, as we are assured, that no check is ever given out by them which possesses the least clerical error, and we would advise all persons receiving such checks, to examine them closely and see that they are neither scratched or altered.

Memoirs of Interest.

Ex-father Hyacinth is about to marry.

A San Francisco wrecking company are removing the treasure from a Spanish galleon that went down off the coast of Ecuador in 1599, containing four millions in specie. One million has been recovered.

Boss Tweed has mirrors in his residence forty feet high, and everything, even down to the soap pails, has the Tweed monogram on it.

The only unmarried daughter of ex-Minister Metley, is engaged to an English nobleman.

Garibaldi is suffering from the breaking out of his old wounds.

The Sunday laws will be enforced in Cincinnati, as the motion to repeal was defeated by a vote of 12 to 11, by the board of Aldermen. All who voted to sustain the law were Republicans.

If we were the local of the Herald we would stop using the word "barren" so much.

TAXES.

It is universally contended that the future prosperity of Texas is to be found in the building of railroads, the establishment of manufactories, mills &c., and in the settlement of the country by a hardy, industrious emigration. In a word, we need both capital and labor.

If we desire that mouled men shall invest their millions in internal improvements, and that emigrants make their home in Texas, we must maintain law and order, and thus ensure security to life and property. The Republican party has a natural tendency that way, while the democracy has an inclination towards anarchy. The democratic riots in New York, the operations of the Ku Klux in the South, go to show beyond a doubt what we have to expect in Texas, as soon as the pressure of the State Police is removed.

The crowning glory of the administration of Governor Davis is the State Police. The ruddy element exists now as much as ever, but as long as the law breakers are promptly arrested, they are comparatively harmless. The beneficial effects of this organization are so fully appreciated by the people that the democratic papers attack them only by vague abuse. The "outrages" complained of are few and far between. It is impossible to prevent some unworthy men being found on the Police, and they are dismissed whenever their unfitness is apparent. The democratic party proposes, (in case they are ever able) to disband this force. This step would at once inaugurate the reign of the assassin, the mob and the vigilance committee, or they would do what is infinitely worse, establish a democratic State Police. How would our German settlers like such an arrangement?

Now which policy is calculated to invite capital and labor into the State?

Again, it is absolutely necessary that the children be educated. An educated people will always be a law abiding people, and where the people obey the law, there is the country where capitalists will invest and emigrants settle. Under democratic management the public schools were a farce. The republican party intends that every child shall be educated. If the democracy come into power they will repeal the school law. This is natural, ignorance is the strong card of the democracy, ignorant men can be led, but educated people consult their own judgment.

How will the democratic policy on this subject affect the welfare of the State?

Again, if the democratic party come into power, they will repeal the registration law and thus be enabled to perpetrate the accustomed election frauds, and there being no State Police, the bullies and desperadoes would intimidate the negro, and finally they would repeal the amendments to the Constitution. They could subsequently exact labor laws which would reduce the negro to virtual slavery, which means fight.

How would the tax payers like the expense of another rebellion? Not much, we fancy; then gentlemen, be careful how you plough with the democratic heifer.

A Slander Refuted.

A gentleman, who knew Lieut. DeGress when in the army, says he never was able to make out a correct report. Yet he is now Superintendent of Schools.—San Antonio Herald.

"Never was able to make out a correct report." What sort of report? Report of what?

If the gentleman (?) refers to the time that Colonel DeGress was Provost Marshal on General Mower's staff, and subsequently Assistant Commissioner of the Freedmen's Bureau at Houston, when he sought to make a report of rebel outrages on Union men and Freedmen, he is right; for no one man to this day could ever discover or ferret out their atrociousness, or reach their villainous truths. But if the gentleman (?) alludes to his ability to make out the usual reports required of him in the performance of his duties as an officer of the army, he either never knew Colonel DeGress in his capacity of Lieutenant, Captain, or Colonel, or he perpetrates a deliberate and malicious falsehood. It does not require our testimony, who have known him long and well, but the thousands of patriotic officers and men who served with him can testify that no man ever displayed a higher capacity to perform well and intelligently any duties devolving upon him, than Colonel J. C. DeGress.

So far as the effort to under-rank this officer by the title of "Lieutenant" is concerned, it is well known that DeGress rose above that grade for meritorious services in 1861, and held a Colonel's command at "Pea Ridge" while yet a Captain, and in which battle he was seriously wounded. After the close of the war, while for a few weeks he held the rank of Lieutenant in the regular army, he was never required to make out a company report of any kind, being then detailed as a staff officer on the staff of the Commanding General of the 5th Military District. He was soon made a full Captain and Brevet Lieutenant Colonel, which rank he still holds as a retired officer of the United States Army. The brother of Colonel DeGress, Major Frank DeGress, Chief Artillery for General Logan, is the "Army of the Tennessee," made his name and fame national by his signal gallantry on the 23d of July, 1864, when he marched at the head of a Regiment with a musket in hand, to retake his lost battery, which had fallen into the hands of the enemy, and was the first man to reach and recover his guns. So, who speaks of "Lieutenant" DeGress establishing his ignorance, as no such person as "Lieutenant DeGress" is known to exist.

RECENT CHANGES.

There have recently been various changes in the garrisons of the different posts on the upper frontier, as follows:

At Fort Concho the garrison has been reduced from eight to four companies; Fort Davis, from seven to three companies; Fort Stockton, from six to four companies.

The Infantry at this last post alternate between Stockton and Fort Lancaster, one company being required to do duty at Lancaster for thirty days when it is in turn relieved by another company for the same period. Rather hard service, we should say.

The garrison at Fort Clark has been augmented by one company, (Capt. French's) of Infantry from Fort Davis. Most of the troops taken from the above named posts are cavalry, which have gone to join Gen. McKenzie on his extensive scout.

FRIEDLANDER.—Among the recent arrivals in the city is Mr. Wm. E. Friedlander, Post Trader at Fort Stockton. Mr. Friedlander was a delegate to the New Brannfels Convention, and one of the most earnest supporters of our next Congressman, Hon. Ed. DeGener. Friedlander is a young man of excellent judgment and first class business qualifications. It is not more than three years since he came to this frontier, unknown, and unsupported by friends; but by untiring energy and a close attention to business, he has possessed himself of means and a flourishing business, and unnumbered friends among both army officers and citizens, and bids fair to become one of the solid men of this land of promise.

The establishment of Mr. Friedlander is one of the most extensive upon this frontier, containing every article of necessity and ornament which the good judgment of its proprietor can suggest, and conducted upon that strict mercantile basis usual with houses of wide experience, in large commercial centres, which seems to be fully appreciated in the community of which he is so enterprising a member.

It has been suggested that the warm advocacy of General Hancock, by the local of the Herald has a deeper meaning than is usually supposed. But the General is up to your tricks and your manners, Thompy.

Why don't Hancock and the Herald sue Express for libel? The Herald must know that such suits are sometimes successful. Perhaps they are afraid we might produce the documents in a few court. They are in white and black and the hand writing is unmistakable.

VERMILLES, Aug. 17.—It has been positively ascertained that a majority of the Assembly will support, in slightly modified form, a proposition by M. Revel on behalf of left center Saturday last, conferring Presidency for three years on Thiers.

The election committee, to whom was referred the prolongation of Thiers, term for three years, oppose the proposition 9 to 6.

PARIS, Aug. 17.—Sword subscribed by Alsace residents of New York for General Ulysses, defender of Strasburg, was presented the General to-day. In accepting the gift of his countrymen in America, General Ulysses said he would only draw the sword when an attempt was made to reconquer provinces which had been torn from France by results of the war.

LONDON, Aug. 17.—In the House of Lords today the Queen's assent to the army regulation bill was announced.

In the House of Commons, Viscount E. Field, Under Secretary for Foreign Affairs, said searching investigation had been ordered into the recent murder of six Englishmen in Peru.

LONDON, Aug. 18.—Prince Gotschakoff publishes a report of what passed between him and the evangelical deputation at Fredericksburg in July. He says: having heard them, he thought their mission had the appearance of interfering in the domestic affairs of Russia; that he could permit no foreign intervention whatever; that the Russian Government could not tolerate the least shadow of intervention from whatever source it came. The missionaries expressed their respectful regret. He accepted the address of the American delegation to hand to the Emperor. The address to the Emperor of the Swiss delegation, which was written in London; he decided by refusing to accept. He then explained, it might seem indecorous to only accept the address of the American delegation, and requested them to withdraw it, which they did.

THE World-Renowned

ELIAS HOWE

SEWING MACHINES

ARE LEADING ALL OTHERS.

SALES FOR 1870

Larger than any other Sewing Machine manufactured in the United States.

THE

'HOWE' Sewing Machines

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867.

And the Gold Medal at Amsterdam Exhibition, in 1869.

And have invariably obtained the Highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in 1870 AND 1871.

The "HOWE"

Is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with ordinary care, it will last a life time without repair.

THEREFORE SELECT

"Elias Howe's"

NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commends itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove so strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines. Call and examine before purchasing elsewhere.

Caution.

PROBABLY FATAL ACCIDENT.—A most
distressing, and probably fatal accident,
occurred yesterday morning at the Menger
Hotel, in rear of the Hotel, from the
effects of which one of the parties will no
doubt die, if not both.

In the business of brewing, a cauldron
of boiling water is found necessary to be
kept on hand, both for the uses of distil-
ling the hops and for the cleaning of bar-
rels.

This boiling water is conveyed into the
brew vat and barrels through a four inch
tap or faucet by means of a tin funnel
slipped pipe, which fits over the tap. On
this occasion the barrel becoming filled
with the boiling water, the workman,
named Reininger, attempted to turn off the
spigot but in doing so turned it too far
back, and the flow still continued. Another
workman, a Pole named John Schmidt
seeing the mistake and danger, ran to the
assistance of the farmer and made an ef-
fort to turn the spigot so as to shut off the
water but in the hurry and excitement he
pulled it too far forward, so as to turn the
water full on; the strength of which was
so great as to force the tin pipe funnel
partly off the copper tap and allow the
water to rush out with considerable vol-
ume before the men could get from under
and before the faucet.

The result was that both men were
severely scalded. John Smith the one who
went to the rescue of Reininger, no doubt
fatally.

No blame can be attached to any either
than those who were the unfortunate vic-
tims, and not even to them for it was not
so much the result of carelessness as it
was unforeseen accident.

A MAN MISTAKEN FOR A BEAR AND KILLED BY AN ARMY OFFICER.—We are indebted to Major H. B. Adams for the following account of an accidental shooting of a hay maker near Fort Richardson:
On the 9th instant, a party of gentlemen consisting of Col. Mizner, Capt. Jackson, an English nobleman and Mr. John S. Kape went to Napier's hay camp on a hunting excursion, and while in pursuit of their sport, Jackson and Napier discovered something in the brush a short distance off, which both mistook for a bear. Captain Jackson immediately fired, and the supposed Bruin fell; but to the horror of these gentlemen, upon a nearer approach to the object, they discovered a man lying dead, shot through the head, instead of the bear they expected to find. It appears that the man—whose name is not given—had gone to a water hole half a mile from the hay camp, and was engaged bathing his head, when shot. He was screened from a perfect view by willows, and as the sun was declining at the time, the mistake was altogether natural.

Capt. Jackson of the 11th Infantry, when he discovered the fearful mistake he had made, was much overcome and exhibited the greatest distress, and is indeed more a subject for sympathy and commiseration than the unfortunate man whom he unwillingly hurried into Eternity.

The affair has caused general regret in the neighborhood of Fort Richardson.

Consumption,
Its Cure and its Preventive,
By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. Joseph H. Schenck's simple Treatment, and availed themselves of his wonderful efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un-failing. Its philosophy requires no argu-ment. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the great two weapons with which, the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

Consumption.
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"Leave nothing behind." The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A Supply of Good Blood.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Oxyfication is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more sickness, no accumulation of the stomach. An appetite sets in.

New comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatharings, it prepares them for expectoration, and in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

given up as lost.

The second thing is, the patient must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented, or the cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much as so fast as their strength will bear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after each evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words: "Many years ago I was in the last stages of consumption confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them permeate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much; I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only thirty-seven pounds; my present weight is 145 hundred and seventy-five (215) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to cure patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 5 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; and the three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of recovering health, hunger is the most welcome symptom. When it comes, as it will unless let the despairing at once be of good cheer. Good blood at once follows, the cough lessens, the night sweat is abated, in a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

moral aspects of the sexual system, with the
latest discoveries in producing and prevent-
ing offspring, preserving the complexion, &c.
This is an interesting work of two hun-
dred and twenty-four pages, with numerous
engravings, and contains valuable information
for those who are married or contem-
plate marriage; still it is a book that ought
to be under lock and key, and not laid care-
lessly about the house.

JURUBEBA.
WHAT IS IT?
It is a sure and perfect remedy for all dis-
eases of the Liver and Spleen, En-
largement or obstruction of Intes-
tines, Urinary, Uterine, or
Abdominal Organs, Pover-
erty or want of blood,
Intermittent or
Remittent
Fever,
Inflammation of the Liver, Dropsy, Sluggish
Circulation of the Blood, Abscesses,
Tumors, Jaundice, Scrofula, Dys-
pepsia, Ague and Fever, or
their Concomitants.
Dr. WELLS
having become aware of the extraordinary
medicinal properties of the South Ameri-
can Plant, called

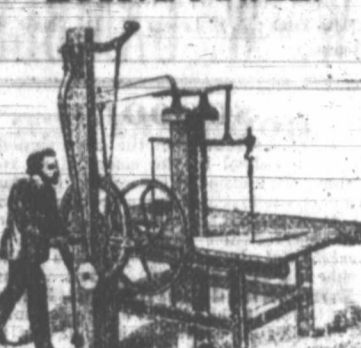

JURUBEBA.
Sent a special commission to that country
to procure it in its native purity, and hav-
ing found its wonderful curative prop-
erties to even exceed the anticipations for-
med by its great reputation, has concluded
to offer it to the public, and is happy to
state that he has perfected arrangements
for a regular supply of this wonderful
Plant. He has spent much time experi-
menting and investigating as to the most
efficient preparation from it, for popular
use, and has for some time used in his own
practice with most happy results the effec-
tual medicine now presented to the public.
Dr. Wells' Extract of Jurubeba
and he confidently recommends it to every
family as a household remedy which should
be freely taken as a Blood Purifier in
all derangements of the system and to
animals and fortify all weak and Lymptic
temperaments.

ELMENDORF & CO.,
Agents for the CLIPPER MOWERS and REAPERS.

The great field trials at Sedalia, Mo., and
at Xenia, Ohio, in the Summer of 1893—
where "The Clipper" met some 40 competi-
tors, including all the leading machines
built, and was awarded the First Premiums
and Gold Medal—proves that the proprietors
have been able to sustain in the field their
claims of superiority for The Clipper Machine
over all others. Its extraordinary lightness
of draft takes one-third of the labor of the
team. The adjustability of the finger-bar,
to cut high or low without stopping the team,
is worth \$25 on any machine. It is the only
mower that has the true center draft in ac-
cordance with correct mechanical principles.
In short, it is the lightest, the most durable,
the least complicated, the most perfectly
constructed, the most symmetrical in design,
of any implement of its class. Farmers
who clipper is the "Horse's Friend" and you
cannot afford to ignore their welfare. Send
for pamphlet—investigate. See or write to
some one who has used THE CLIPPER. See
the Machine yourself before you buy any
other.
