SPECIAL NOTICE.

The San Antonio Express is the appointed Official Organ for the 24th Judicial District...

New York Democracy.

The New York Tammany Ring is the inner circle of the Democratic party. The Tammany Ring owns the Democratic party entirely...

The Ring leaders in New York, who were vagabonds on the face of the earth, have accumulated untold wealth...

Does not this remind one of the condition of the South before the Republican thunder and lightning purified the foul air?

New York is the highest taxed and the worst managed city in the world; peaceful processions of American citizens are mobbed by hordes of ignorant fanatics...

The Democratic craft with its crew of out-throats has struck a rock and is going down. The rock they struck and split on is the moral sense of the American people.

The Democracy has insulted and outraged law and decency, until the American people will stand it no longer. That is the reason California has gone Republican...

The attention of the whole country has, of late, been called to the painful, we might say, distressing position of the Ring. Their rascality has been exposed in a meritorious manner...

The great question of how will the all powerful ring evade the issue was asked. The telegraph tells us how it was managed. It was done so simply, that it is strange they had not thought of it before...

This is the face, that is being performed at New York to blind the people, but it is in vain. The election returns speak a language, that cannot be mistaken.

try from California to Maine. Will Texas embrace the loathsome corpse, that her sister States have consigned to oblivion?

The Democratic newspapers are in such a stew that some of them will certainly boil over. That terrible, tyrannical "Election Ordinance"...

If you can't be calm, restrain yourselves, that will answer just as well for the present; but if you can't do that, just boil on. You say, this is worse than a military despotism.

Of course it is, much worse, for if we have fair elections, you chivalry elect no more officials; therefore you howl. What is killing your own, few or many?

Now, if there is any place outside of New York city, where election tricks peculiarly prevail, that place is Texas. In these tricks, six-shooters and bow-knives have always been trumps.

There is nothing in the election order that any peaceful, well-disposed person can find fault with. It provides, that every body shall vote and return from the polls.

That voters shall not be annoyed or intimidated, and that there shall be no free whisky. Likewise, no guns, six-shooters, etc., thereby protecting the voters from the democratic rowdies...

We want immigration, and it is heading this way and this election law will help to direct it. An election disturbance, such as the democratic stump speakers propose, might check it.

Besides we want fair play, and so more camping around the polls. Therefore you will have to forego your little pastimes, but be calm, promise us to be calm.

Free Schools.

A beginning was made on the first Monday in September, and hundreds of public schools are in operation in our State to-day. Although at first there are many drawbacks...

Texas, like Virginia, of all the Southern States, begins first. In Virginia the free schools were introduced, not through a system, but by a law like the one of our State...

Out of our schools will grow a system, and when the soil of Texas resounds with the tread of two hundred thousand Young America on their way to the free school...

These two hundred thousand girls and boys are our darling pride; they should be educated in comfortable, elegant school houses, and their seats and desks ought to be as good as the best now in the elegant Yankee schools.

Likewise, no guns, six-shooters, etc., thereby protecting the voters from the democratic rowdies. Ah, there's the rub. We want immigration, and it is heading this way...

TIME in San Antonio is extremely var-
ied. It is never 12 o'clock at once in this
city. There are two or three bells and as
many steam whistles, and each one chooses
its own time to announce noon. This
must be puzzling to the Sun.

MR. GEORGE MACDONNA of London, Eng-
land, member of the Royal Agricultural
Society of Ireland, and well known in this
community as an extensive land owner in
the vicinity of the Medina, has just return-
ed from an extended tour through Medina
county and states, that, notwithstanding the
scarcity of rain in that section, many of
the Farmers will secure whole and three-
quarter crops, and all at least half the us-
ual crop.

He also states, that those who plowed in
the winter or early in spring have invari-
ably been rewarded with the best and
largest crops.

He expresses the opinion, that Texans
in this vicinity can be more independent
than any farming community under the
sun, as by a little practice of the science
of agriculture they can secure good crops,
whether they have rain or not.

Mr. Macdonna's reputation as a scientific
agriculturist entitles his opinion to great
weight.

BOTH branches of the Legislature as-
sembled last Tuesday and adjourned over
to Wednesday.

We understand from a letter that the
prospect is that the session will be very
brief.

The tearing down and burning of the
U. S. flag at Bremond is admitted by the
Democratic papers, but they say Republi-
cans did it.

When anybody tears down the old flag
in Texas, he can belong to no other party
but the Democratic. Republicans never
tear down that flag.

Poor Newscomb has had his plans defeat-
ed everywhere. Calvert Tribune.

You may exclaim with Hannibal, "one
more such victory and I am defeated for-
ever."

We had no idea the Democratic dis-
tress was as painful as the following ef-
fusion from the Statesman seems to indicate:

Who is Degener? He is a French Com-
munist, a Prussian Red Republican, an
American Slangwangler, a Mexican Block-
ader, a Sisterdale Monk, a Mormon Sain-
t, a Cayote Statesman, and a Congressional
Failure. He was once worth the powder
and lead it would take to kill him, but
he's not worth it now.

Degener is a vampire—not a blood-sucker,
nor a mud-sucker, nor a stump-sucker,
nor a sap-sucker—but a tan-sucker, a
wine-bibber, a beer-guzzler, a powder-suck-
er, a cotton-sucker and a money-sucker.

The American News Reporter weeps over
the following specimen local item: "He
exorted a day or two on beer, and getting
short, he burgled a little. But he was
soon copped and jailed. The news was im-
mediately wired to his amiable wife, who
rallied to him at once."

it will last a life time without repair.
THEREFORE SELECT
"Elias Howe's"
NEWLY IMPROVED
FAMILY SEWING MACHINE
which for simplicity and superiority of
mechanism, beauty and excellence of stitch,
economy of thread, strength of seam and
variety of work is unsurpassed by any
other Machine.
It will sew, quilt, gather, hem, fell, cord,
braid, bind, and perform every species of
sewing, plain and ornamental, making a
beautiful and perfect stitch, called the
"Howe" Lock Stitch, which is formed by
two threads, one upon each side of the
material, sewed and locked together in the
centre, forming an elastic seam, and pre-
serving the same appearance on both sides.
A stitch of this character commands
itself as especially appropriate for sewing
woven material, and if suitable thread be
used the seam will prove as strong and
elastic as the fabric itself.
At the present time no less than 400 Ma-
chines are turned out daily, and each and
every one is guaranteed perfect, and made
of the best material.

THE CAUSE AND CURE OF CONSUMPTION.—The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation it means that process by which the nutrient of the food is converted into blood, and thence into the solid of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot perform their functions, and then row up and restore the liver to a healthy action. For this purpose the sweet and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the acid and morbid alims that is causing disease and decay in the whole system. They will clear out the liver of all diseased and unhealthy action, by which natural and healthy bile is secreted.

The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the bowels the functions are weak, and requiring strength and support. It is in a condition, like this that Schenck's Sea-weed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy living blood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and preserving use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs, or cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure a new order of things—a good appetite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption; and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope.

I have seen many persons cured with only one sound lung, live and enjoy life to a good old age. This is what Schenck's Medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be.

It is important that while using Schenck's Medicines, care should be exercised not to take cold; keep in-doors in cold and damp weather; avoid night air, and take outdoor exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful to avoid taking cold, while using my Medicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I am extremely cautious pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed Consumptive lungs are a base of sorts, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with safety to the patient, be exposed to the biting blasts of Winter or the chilling winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The most caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibility.

The person should be kept on a whole-
some and nutritious diet, and all the Medicines continued until the body has re-
stored to its natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years, with one lung nearly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the First of October I expect to take possession of my new building, at the Northeast Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.

Full directions accompany all my Remedies, so that a person in any part of the world can be readily cured by a strict observance of the same.

SEWING MACHINE,

at the Fair in September; provided said
Sewing Machine, through its work, will
be entitled to the premium of the Agricul-
tural Association of Western Texas.

**At the Fair of the Agricul-
tural Association in Octo-
ber 1870, Mr. Elmendorf,**

**Agent for the ETNA Sew-
ing Machine, challenged**
**the Agent of the Grover &
Baker Machine for a Trial;**
**the President of the Associa-
tion appointed a Special**
**Committee of three gentle-
men, who used other Ma-
chines, and after a fair trial**
the award was given to the
ETNA MACHINE.

ELMENDORF & CO.,

Agents for the CLIPPER MOWERS and REAPERS.

The great field trials at Sedalia, Mo., and
at Xenia, Ohio, in the Summer of 1869—
where "The Clipper" met some 40 competi-
tors including all the leading machines
built, and was awarded the First Premium
and Gold Medal—proves that the proprietors
have been able to sustain in the field their
claims of superiority for The Clipper Machine
over all others. Its extraordinary lightness
of draft takes one-third of the labor of the
team. The adjustability of the finger-bar,
in cut high or low, without stopping the team,
is worth \$25 on any machine. It is the only
mower that has the true center draft in se-
cureance with correct mechanical principles.
In short, it is the lightest, the most durable,
the least complicated, the most perfectly
constructed, the most symmetrical in design,
of any implement of its class. Favored
THE CLIPPER is the Horse's Friend, and you
cannot afford to ignore their welfare. Send
for pamphlet—investigate. See or write to
some one who has used the CLIPPER. Run
the Machine yourself before you buy any
other.

WONDERFUL RAPIDITY.
Perfectly Regular and Even Distribution of
the Seed. **Cookson's Broadcast
Seeder.** For Sowing all Kinds of Grain
and Grass Seed.

This unprecedented success of this Seeder
the past season is without a parallel in the
history of Agricultural Implements. The
farmers of the Country have no longer got to
wait in the hurry of Seeding time for the
imperfect process of Hand Sowing, nor for
the "Slow Coaches," called "Combined
Seeders, &c., &c.
