## Attention, Republicans!

It is our duty as a Republican organ, to warn you of danger.

As a sentinel on guard wakes his sleeping comrades on the approach of the enemy, even so we give the cry of warning. Wake up! The Philistines are upon you.

The bristled Serpent of Rebellion raises his head to strike.

Unless you arouse yourselves, at no distant day riot, revolution and bloodshed will be your portion.

All over the State the old rebel crew, animated with the same old rebel hate, and urged on by the same old rebel leaders, are already gloating on the prospect of your defeat.

If they are able, they will unchain the cut throats and thieves by the abolition of the State Police, and bid them to prey on your lives and property.

If we are defeated, Free Schools will be abolished.

If we are beaten, we will be the targets for rebel assassins to try their skill on and democratic judges, district attorneys and jurists living in effect, say to the democratic murderers: "well done, good and faithful servants!"

This is the experience of the past, and unless you arise in your manhood, it will be the sad lesson of the future.

If you, men of capital, want this State to have the taxes of New York, and the Government of Mexico combined, keep on squinting at the toothless old prostitute, democracy, but the day will come, when you will cover your heads with ashes.

If you, tolling Germans, want to embrace the same old hag, first cut down that unavenged corpse of your own blood and blood, that is between you and your hearts desire; first batter down that white monument, you have erected over the bones of your slaughtered loved ones; for if you vote the democratic ticket, it is nothing but a high stone lie.

No man can serve God and Manon.

If the Republican principles were the true ones 10 years ago, they are so to-day; if they are not, then the blood and tears of the war have been shed in vain and the gallant Union dead have died as the fool die.

You may believe this, if you can, but the Republican party never will.

The Republican party is gaining new strength all over the Union; it has within itself the vital principle of eternal youth, and it knows no defeat.

If every Republican in Texas, were to join the democracy to-morrow, the onward march of republicanism would not be stopped.

You may cause the mill to grind slow, but it will grind all the finer for it, and the thin opposes, will, sooner or later, be ground to powder.

Have the Texas Republicans learned to kiss the hand that scourged them with a whip of scorpions?

If you have not, then cease "this folding of the arms to slumber," gird on your armor and go to meet the enemy, as your brethren in California and Maine have met him.

It is amusing to see Republicans (!) turning up their noses for the old rebel leaders to put in the old Confederate ring to lead them with.

The Herald is gazing with troubled eye at the political horizon.

A bran new evening star is what distresses him.

## The Situation.

The tone of the Texas Democratic press is exciting comment in many of our Northern exchanges.

They are very decided in their condemnation of the attempt that is made to engender an unwholesome political excitement instead of an honest effort being attempted to counteract the growing spirit of lawlessness.

The Democratic press are endeavoring to arouse the old rebel element to deeds of violence.

The constantly increasing number of outrages, that are being committed, give us reason to fear that an attempt will be made in many parts of the State to intimidate the colored voters.

We hope that our State administration will be prompt and decisive in suppressing all outrages of this character, without calling on the National Government for assistance.

But should this attempt to defy the law be of a general and formidable nature, we may rest assured that steps of an equally formidable nature will be taken to preserve the peace and insure the freedom of the ballot to all.

Therefore, gentlemen of the lost cause, be reasonable.

## To all whom it may Concern.

We call the attention of the Sheriff and other peace officers to the following extract from the election order of the Governor:

6. The Governor, as provided by said act, approved August 15, 1870, (section 52), hereby assumes command, and during the election of all peace officers in the State, including sheriffs and their deputies, and city or town police or marshals and their deputies, and those officers are hereby directed to place themselves under the direction of the officer designated, or to be designated by the Governor, as set forth in circular orders from this headquarters, and to aid him in enforcing these regulations and the laws of this State and the United States, governing elections.

EDMUND J. DAVIS,  
Governor.

Official:  
JAMES DAVIDSON, Adj. Gen'l  
and Chief Police, Texas.

The section above referred to reads as follows:

Sec. 52. That the Governor shall take all necessary steps to secure a free, fair and peaceable election, and shall on the days of election, have paramount charge and control of the peace of the State over all peace and police officers, and shall have the command and direction in chief of all police officers by whomsoever appointed, and of all sheriffs and constables in their capacity as officers of the peace.

The Houston Union has been counting votes down in that District and estimates Clark's majority at not less than three thousand.

TEXAS Democratic papers say that Texas was never as prosperous as it is now and at the same time denounce Republican administration. They are too mad to lie well, be calm.

CAPTAIN W. S. Herdon, the Ku-Klux nominee, while surrounded by a crowd of howling rebels, at a public speaking in the town of Liberty called his competitor, the Hon. Geo. H. Whitmore a liar, struck him twice. There was tremendous cheering on the part of the rebels.

In Panola County Mr. Quick and Dr. Tinsley were prevented from speaking by actual violence, and Republicans living in Carthage in said county were obliged to fly from their homes.

TEXAS, Sept. 7, 1871.

This day, three freedmen having been to town and registered were on their way home, and being met by three disciples of the Democratic school, were attacked, struck, and chased back into Husk, losing their hats, and having to go home in the night, a distance of twenty-five miles. The parties were arrested and will be tried next Tuesday, and fined probably one cent and costs. Such things are done to scare the freedmen, as they are registering in fearful numbers.—Houston Union.

"If we," says the Louisville Journal editor, "were supreme dictator of all the States we should do many things that are not dreamed of. We have no doubt of it. The Journal would in all probability pay the Confederate debt, pension the Confederate soldiers, restore the Dixie and Tombac to power and position, banish all the blacks to Liberia or restore slavery; repeal the three great amendments to the Constitution, and in Washington imitate the example of Tammany Hall, and plunder the national treasury to its heart's content. If we misrepresent the Journal man, we shall be glad to make a correction.

THE UNION has gained one great victory over the Democracy of Houston. It forced them on last Monday night to hang out the United States flag, and to actually carry it in procession. This is the first time they have done such a thing since the canvass commenced.—Houston Union.

EX-GOVERNOR Throckmorton is in Austin.

GET your fruit and shade trees from Watson's Rosedale Nurseries near Brenham.

Outrages against peace and good order are becoming so numerous in certain counties, that the strong arm of martial law is becoming almost a necessity. There is no use in being mealy-mouthed about this matter. The first duty of a government is to protect the lives and property of its citizens, and if it fails to do this, it is unworthy to stand. The present State government does not intend to fail.—Journal.

THE Democracy again dote on old Greeley; they seem to think, that he is almost a Democrat. We will grant everything they have to say.

THE Democrats all over the State are reviving the term "the White Man's Party."

WHERE ignorance is bliss it is folly to be wise.

The Baroness Bardett Counts recently presented \$16,000 for division among the clerks in the banking firm with which she is associated.

ACROSS TEXAS, Sept. 9th, 1871.

Editor of the San Antonio Express:

DEAR SIR: About a year ago, the Galveston News copied an article written by me and published in 1850, in German, by the 'Imperial Geological Institute' in Vienna, on the Geology of Texas. This article was translated and republished in a condensed form by the London Geological Society, and copied into several scientific newspapers in the United States afterwards. From its publication in the Galveston News, Mr. S. B. Buckley's bile seems to have been stirred.

He wrote to the Editor of that paper in answer, insinuating that I had obtained some of my information, concerning the Geology of Texas, from his report, (which I have never even read) and which was published about six years after my paper appeared in the proceedings of the various scientific institutions. The editor of the Galveston News declined to publish any abuse of that kind, and Mr. B. met with the same success in applying to other editors. But having now become an agricultural editor of the Austin State Gazette himself, the remarkable letter appears in its weekly issue of the 9th of September 1871. If Mr. Buckley will take the trouble to apply to either of the institutions by which my letter was published, he will find that it was written, and I was well informed, before he ever saw Texas; and that the Galveston News copied the same from a scientific journal published in 1856. If there is any similarity in our reports concerning Comanche Peak, this only confirms the accuracy of mine, as he has used the notes left in the Geological rooms by Dr. Schumann and myself, when he took charge of them under Governor Throckmorton. Mr. Buckley can rest assured that, although I am the author of the Bill which passed last session of the legislature providing for a geological survey of Texas I am not an applicant for the position of State Geologist, neither am I the author of the "Washington letter" dated Sept. 11th 1870, and published in several newspapers, from which I quote:

"Mr. Buckley is not, in any sense, a geologist, and his name, as I am credibly informed, has been stricken from the list of all scientific societies for an attempt to change the names of plants, and other professional irregularities."

Mr. Buckley has already been so severely criticized by the Press, that further comment is unnecessary.

In publishing the above, you will greatly oblige

Yours,  
Very Respectfully,  
A. R. ROESSLER.

We publish the following from the Houston Telegraph as an item of public interest:

Col. Dashiell, of the San Antonio Herald paid us a visit on yesterday, and confirmed the news we had already heard, that the election of Judge Hancock in the Western District is considered certain.

We were pleased, also, to learn from the Colonel, that the Herald is prospecting fully, and always has a goodly amount in bank, subject to call, over and above its expenses.

In a Democratic procession in Houston a transparency bore the motto, "prisoners don't escape from Democratic sheriff's."

Would it not be better to substitute the following: "Dead men tell no tales."

"And France was not overpowered by the schoolmaster, but by overwhelming numbers."

"It is yet to be seen, whether German hosts could conquer French soldiers on equal terms." State Gazette.

German hosts and French soldiers is good—very good, just at this time.

The free schools in Austin are being more frequented every day. The German school under the management of Mr. Bieker and Miss Burbanck, has nearly 300 pupils. The colored school is progressing finely with 170 scholars.—Vorwärts.

## Influence of Temperature on Health.

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as in the most fervid summer weather; while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate.

Few, in any case, of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever, and the bilious remittent seem to recede before it, and if ever it should come into universal use, those diseases would cease to be known as the scourges of our low-lying and marshy districts. That honest bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a genuine character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters is sold in bottles alone.

A fellow who at one time acted as a claim agent at Leavenworth, Kansas, but on being detected in swindling crippled soldiers and soldiers' widows was obliged to leave that vicinity in hot haste, has been identified as the editor of a Democratic paper in Arkansas, noted for its vigorous declamation against "Radical thieves."

A young lady upon one occasion requested her lover to define love. Well, said he, "it is to me an inward impressibility and an outward all-overliveness."

WE CALLED at the registration office yesterday morning and ascertained that 81 names had been registered since the books had been opened.

HEADS of households have no rights servants are bound to respect, is the universal complaint.

SOME eyes are prevailing, principally among children. Some people attribute this to the lime with which the dust is impregnated.

WE HAVE received the GRAND ARMY JOURNAL (published at Washington), with a request to exchange, which we willingly accede to.

IT IS the duty every man to do all in his power to the Agricultural, Stockraising and Industrial interests of the county in which he lives.

WE CALLED at the Catholic Hospital yesterday, in order to ascertain the particulars concerning the death of the German reported in yesterday's Express.

THE name of the deceased is Sebastian Kuntz, a German, of forty-seven years of age, a hard-working man of excellent reputation and he leaves a family of a wife and seven children to mourn his untimely decease.

ON the 13th of Sept. he was engaged in assisting in the erection of a cotton press, on the Ujazy place on the Olmos, when the unfortunate accident occurred by which he lost his life; a large beam fell upon him unawares, striking him on the side of the head, severing one ear and falling him to the ground, causing besides internal injuries of a fatal nature.

THE unfortunate man died in the hospital on the 16th, remaining, however, in full possession of his senses up to the time of his death.

DR. Peterson and Gaendler made a post mortem examination, which developed the fact that the kidneys and bladder had sustained injuries of a necessarily fatal nature. His lower extremities were paralyzed from the time of the accident. He was buried day before yesterday.

While on the subject we call attention of the public to the Charity Hospital in this city.

IT is the only institution of the sort in the city of San Antonio and receives within its friendly walls, catholic, protestant, white, black and Mexican. The Sisters of Charity who manage it are often in straightened circumstances for the necessary means to carry on their daily work of love and humanity. The only assistance they have ever received from the city authorities has been the contract price of 60 cents, in currency, daily, for each city patient that is taken charge of.

WE believe this mere statement of the facts will be sufficient to induce the wealthy and charitable to contribute their mite toward sustaining one hospital in our midst.

We regret to learn, that in addition to the present stock of fine merchandise Mr. A. Adams Wore had a choice lot of goods on the ill-fated steamships "Humboldt" and "Cortez", all of which were lost, but which were at once ordered to be duplicated, by telegraph, and are now on their way here.

THE Fair will be opened on the 27th and promises to be a success. We shall publish a "Fair Reporter", which will contain everything of interest connected with it.

Our Fair Reporter will be invaluable to the advertising public, who should send in their advertisement without delay.

THE best job printing in Texas is done in the Express Office. We received the diploma last year at the Fair, and it is an inspection of our work by those, wishing anything in this line.

SINCE our last rains the prairie has assumed a beautiful green appearance, which is more peculiar to May than September. The stock will improve rapidly, for they will find plenty of rich grass and abundance of water. We hope this will have the effect of causing the butchers to "come down", and the prospects of the hay makers to ascend.

WE extract from a private letter from Presidio del Norte of the 9th Inst: "Yesterday a scout of about 100 men returned to this place; near Lancaster they met Indians, and the result was, that two Indians (one of them a chief) were killed, and captured, were seven squaws, one boy, two small children, and all the camp baggage. They were forwarded to Chihuahua, where the Government pays a reward of \$75 a piece for them. Scalps bring \$250. These Mexicans take a common sense view of the Indian question.

THE condition of the pavement in the immediate vicinity of the new iron bridge is exciting considerable comment. On the east side of the bridge it is more like a deadfall for unwary pedestrians after dark than anything else. If it cannot be completed, it should be barricaded, to prevent accidents. A fall of 5 feet on large boilers is not encouraging to the man it happens to.

PLUVINS has been very condensing of late, and we hope he will keep it up.

THE

"HOWE" Sewing Machines

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867,

And the Gold Medal at Amsterdam Exhibition, in 1869,

And have invariably obtained the Highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in 1870 AND 1871.

The "HOWE"

is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other machine, which is far less liable to break; it is so perfect in all respects that with ordinary care, it will last a life time without repair.

THEREFORE SELECT

"Elias Howe's"

NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, button, blind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the center, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commands itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines. Call and examine before purchasing elsewhere.

AUCTION AND COMMISSION HOUSE BY L. WOLFSON, SAN ANTONIO, TEXAS.

THE CAUSE AND CURE OF CONSUMPTION

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest pre-disposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot perform their functions, and then rise up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased and unhealthy action, by which natural and healthy bile is secreted.

The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the bowels the lactics are weak, and requiring strength and support. It is in a condition like this that Schenck's Scurvy Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and preserving use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter, in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs,—a cavity or abscess there,—the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure a new order of things,—a good appetite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope. I have seen many persons cured with only one sound lung, live and enjoy life to a good old age. This is what Schenck's Medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be. It is important that while using Schenck's Medicines, care should be exercised not to take cold; keep in-doors in cold and damp weather; avoid night air, and take outdoor exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold, while using my Medicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a fall in the progress of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed Consumptive's lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with safety to the patient, be exposed to the biting blasts of Winter or the chilling winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure—under almost any circumstances is an impossibility.

The person should be kept on a whole some and nutritious diet, and all the Medicines continued until the body has restored to it the natural quantity of flesh and strength. I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the First of October I expect to take possession of my new building, at the Northeast Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it. Full directions accompany all my Remedies, so that a person in any part of the world can be readily cured by a strict observance of the same. J. H. SCHENCK, M. D., Philadelphia. (13-11-70dly.)

Agents for the CLIPPER MOWER and REAPER.

The great field trials at Sedalia, Mo., and  
at Xenia, Ohio, in the Summer of 1869—  
where "The Clipper" met some 40 competi-  
tors, including all the leading machines  
built, and was awarded the First Premium  
and Gold Medal—proves that the proprietors  
have been able to sustain in the field their  
claims of superiority for The Clipper Machine  
over all others. Its extraordinary lightness  
of draft takes one-third of the labor off the  
team. The adjustability of the finger-bar,  
to cut high or low without stopping the team,  
is worth \$25 on any machine. It is the only  
mower that has the true center draft in ac-  
cordance with mechanical principles.  
In short, it is the lightest, the most durable,  
the least complicated, the most perfectly  
constructed, the most economical in weight,  
of any implement of its class. Farmers  
and all who are the Friends of the Horse,  
and who cannot afford to ignore their welfare—Send  
for samples—investigate—See or write to  
some one who has used the CLIPPER. See  
the Machine yourself before you buy any
