The Surprise.

"Who is dead?" they said to him. "Come
Away!
Kiss her and leave her; thy love is clay."
They smoothed her tresses of dark brown
hair;
On her forehead of stone they laid it fair;
Over her eyes, which gazed too much,
They drew the lids with gentle touch;

With a tender touch they closed up well
The sweet, thin lips that had secrets to
tell;
About her brows and her beautiful face
They tied her veil and her marriage-lace,
And drew on her white feet her white silk
on shoes;
Which were the whitest no eyes could
close!

And ever her bosom they crossed her
hands;
"Come away," they said, "God under-
stands!"
And then there was a silence, and nothing
there
But silence, accents of eagerness,
And jasmine, and roses, and rosemary,
And they said, "As a lady should lie, thus
she."

And they held their breath as they left the
room
With a shudder, to glance at its stillness
and gloom.
But he who loved her too well to dread
The sweet, the stately, the beautiful dead.
He lit his lamp and took the key
And turned it. Alone again—he and she.

He and she; but she would not speak,
Though he kissed, in the old way, the
quiet cheek.
He and she; yet she would not smile,
Though he called her the name she loved
so well.

He and she; still she did not move.
To any, one passionate whisper of love,
Then he said, "Cold lips, and breast without
breath!
Is there no voice, no language of death,
Dumb to the ear and still to the sense,
But to heart and to soul, distinct, intense?"

So now I will listen with cool, yet ear;
What is the secret of dying, dear?
Were it the infinite wonder of all
That you ever could let life's flower fall?
Or was it a greater marvel to feel
The perfect calm e'er the agony steal?

Was the miracle greater to find how deep,
Beyond all dreams, sunk downward that
sleep?
Did life toll back its reward, dear,
And show, as they say it does, just things
clear?

And was it the innermost heart of the bliss
To find out so what a wisdom love is?
Oh, perfect dead! Oh, dear, most dear!
I hold the breath of my soul to hear!
I listen, as deep as to horrible lack,
As high as to heaven, and you do not tell!

There must be pleasures in dying, sweet,
To make you so glad from lead to feet!
I would tell you, darling, if I were dead,
And 'twere your, hot tears upon my brow
shed.

I would say, though the angel of death
had laid
His sword on my lips to keep it unaid.
You should not ask vainly, with astounding
Which of all death's was the chiefest sur-
prise!

The very strangest and suddenest thing,
Of all the surprises that dying must bring.
Ah, foolish world! Oh, most kind dead!
Though he told me, who will believe it
was said?

Who will believe that he heard her say,
With the sweet, soft voice, in the dear old
way:
"The sweetest wonder is this—I hear,
And see you, and love you, and kiss you,
dear,
And am your angel, who was your bride,
And know, though dead, have never died."

THE GERMAN PARTY VS. THE KNOW
NOTHING PARTY.—Carl Schurz, our Mis-
souri Senator, in making desperate efforts to get
the German element of our country dis-
tinguished with all political parties and with
everything not of German nationality. He
thinks, and other representatives of the
German, deny that they have any in-
tention of forming a German party, still
we can see nothing in their speeches but
this one idea. Schurz is the leading rep-
resentative of the German element in our po-
litics, and he thinks he can combine and
organize the Germans as to hold the bal-
ance of power in all political contests. If
he could succeed in this scheme, he would
be one of the most powerful men in the
nation. Democratic Tammany would jump
at a change in policy that would bring
him to his knees.

But this national partyism is stirring up
Know Nothingism again. All over the
Eastern States the Know Nothing party is
organizing to combat these combinations
of foreigners. To see the Irish, the Ger-
mans, and the French, each nationality
voting solid together, without division
or sentiment, is alarming some of our
American born citizens.
Both of these institutions are wrong, but
so long as one exists we may expect to see
the other as well. Such organizations are
dangerous to a republican government, for
when men vote together because they are
of one nationality, they do not vote on
principle, but blindly follow their lead-
ers.
We hope that the Germans and the
native borne citizens of Missouri will have
nothing to do with these dangerous or-
ganizations, but study politics for them-
selves and be guided by principle. Let them
speak for themselves and pay no attention
to their miscellaneous false arguments.
(Gazette North Missouri.)

Hancock Interviewed.

A German friend of ours, not believing
that Johnny Hancock ever scored that im-
ported Durham cattle was only worth
fifty dollars per head, repaired to his ranch
some time ago to look at the cattle, and
interviewed the owner, when the follow-
ing dialog took place:
German—How much land have you
left in a body?
Johnny—About 3000 acres.
German—What you take for 100 acres?
Johnny—It is worth \$50 per acre now,
and will be worth \$100 in six months; so
I won't sell an acre to any man.
German—What do you pasture on your
land?
Johnny—Durham cattle, the finest breed
England could furnish.
German—You don't say?
Johnny—Yes! they cost in England
\$100 per head, and at cost \$150 per head to
get them here.
German—What will you take for a
calf?
Johnny—Five hundred dollars.
German—Won't you take for a calf what
you score a full grown cow was worth?
Johnny—How much was that?
German—Fifteen dollars!
Johnny—Only fifteen dollars? Ah! I
recollect, I did near my Durham cattle
were only worth that amount, to the tax
collector; but that was done to save John
Hancock, and when John Hancock was
serving John Hancock, John Hancock
scores anything for John Hancock. Began
you a "Dutchman," you are not "white,"
anyhow.

German—Say, Judge, will you sell that
\$300 corner lot opposite the Raymond
House for \$6000?—Journal.

The Journal is requested to correct the
error published in relation to the burn-
ing of a flag at Fremont. Will it, from
the statement of Gold Robertson, make the
amendment—State Gazette.

Most certainly. We have in fact, al-
ready done so, in Wednesday's issue, as
follows: The Gazette grinds out the usual
Democratic time about the Ku Klux insult
to the flag at Fremont, being done by the
"Radicals." It publishes a letter from
Hon. Jan. W. Robertson, who begins by
admitting that he was not present, and
knows nothing about it. He next con-
fesses that while a Republican speaker was
addressing the audience said "hoisting
and yelling" and general disorder, the
flag was torn from the stand and stolen
away. Lastly, he tries to create the im-
pression that the whole thing was a "Rad-
ical trick." This campaign dodge, Mr.
Robertson, is too stale; it deceives nobody,
and shows great poverty of invention on
the part of yourself and the Ku Klux apolo-
gists. We shall publish soon the particu-
lars of the latest Democratic crime
against decency and patriotism, and over-
whelm these defenders of rebel miscreants
with their evidence.—State Journal.

The Troy Whig reports neighboring
farmers cutting their cornstalks, singing
and hoisting them for cattle feed, saying,
"Cap'n, O feller, come home with me

Democratic Campaign.

THOUGHTS OF A RAMBLING CHARACTER.

We, Democrats, are a hopeful set, apparently. We have more hope, than anything else, that has been our stock in trade for so many years; but it is rather getting played out of late.

To tell the plain truth, we are bewildered, as we never were before, and are so completely lost in the woods we don't know where north is.

This is an inside view, of course it would never do, under any circumstances, to throw up the sponge, and to a simple minded man, that hears our stump speakers, or reads the democratic papers, it would seem, that victory for the democracy was absolutely inevitable and nine tenths of the democracy actually believe, that we are going to have the old state of things back.

When the Confederacy went down, then the scepter departed from the hands of Judah, or in more popular language—

Humpty Dumpty got a fall, And all the doctors in the land Can't make Humpty Dumpty stand.

We may gain a temporary ascendancy in some of the States, our best hopes don't go beyond that, but during that short time we will have our hands in the public pocket, we leaders are going to make it pay, we are going to make hay, and plenty of it, while the sun shines, just like the New York democracy. Those New York democrats knew perfectly well, that their time would soon come and that they would be kicked out of office, and it was this very anxiety on the part of each one, to grab while he had a chance that has spelled the whole thing, but if they can keep out of the penitentiary (and they have stolen enough to buy up the democratic judges), they will be perfectly satisfied with the result; they will retire and spend the balance of their lives in luxurious living and will be infamous and contented. It don't hurt a democratic politician much, to be infamous; they laugh at the public indignation, and as for any remorse for past crimes, they don't even know what it means.

These New York democrats will plunder no more; but they have made up for the

loss of time by the quantity they have stolen. The breaking up of the Tammany Ring cripples the democracy everywhere; we have lost prestige, we have lost the moral courage we need to have.

The ring was thought to be invincible; it was one of the 23 millions, and the organization was well nigh perfect. Now all is chaos; the Germans have abandoned the Ring and the whole population is howling at the door, demanding the accounts and they are all in a mess.

This unfortunate state of affairs accounts for the results of the election in Maine and California. Here in Texas the prospect is really disheartening. When I look at the character of the material we are obliged to put forward, and consider the infamous record of the leading democrats, their murdering and stealing during the Confederacy, when I take into consideration the fact, that the negro vote can't be coaxed and that the State Police checkmates us, whenever we try to scare them, when I remember, that the old Confederates will fly off on the Jeff Davis tangent before the time and by acts of old fashioned violence alarm the North, and when I see how there is no chance for election tricks, my heart sinks within me.

Whether the vessel of iron strikes the vessel of clay or the vessel of clay strikes the vessel of iron, it always has the same as far as the vessel of clay is concerned.

What makes matters worse, is, that the howl about taxes is dying out; we overdid that thing, and the man they have a' the head of their party are much ahead of our crowd in honesty and pluck; besides in spite of all we can do, the people will take up for the State Police and Free schools, and those two institutions will be the death of the Texas Democracy yet.

her thing we have overdone, is blackguarding our Governor, Davis; it has drawn a good deal of attention to him and the lies and slanders some fool newspapers have heaped upon him, have made him right popular, even among democrats. Such fool newspapers as the Herald hurt our cause more than anything else, the people get sick at their stomachs hearing about Davis and Newcomb all the time, that they are thieves, tyrants &c, when no word is produced.

Something may turn up yet, there is nothing we must whistle to keep our courage up, anyhow.

The Gallant O'Bryan.

About two weeks ago "the O'Bryan" of Uvalde, wrote a letter to the Herald attacking the administration of Governor Davis.

"The O'Bryan" admits the grapes hung too high, as far as that commission was concerned, and that he was a copperhead even then.

"The O'Bryan" was in the Union army, so were most of the New York Tammany thieves, they and "the O'Bryan" would have been in the Confederate army if they had been paid well for it.

The Democratic O'Bryans are descendants from the old Kings of Ireland, he jabbers.

The Baltimore American makes the following comparison between the expenses of New York city courts and the expenses of the United States courts and Executive Department, State Government, &c.:

Four courts in New York \$661,500

The Disease and the Remedy. It frequently happens that the best natured people are, unintentionally, the most cruel.

The disease that permits a diseased limb to endanger the life of his patient, set of regard for the temporary pain of an operation, affords us an instance of the dangerous consequences of too much good nature.

The American people in the goodness of their hearts permitted the rebel leaders to live, and the consequence of this blunder is that they are to-day, again, plotting the downfall of the Government.

Whether the vessel of iron strikes the vessel of clay or the vessel of clay strikes the vessel of iron, it always has the same as far as the vessel of clay is concerned.

On Friday the 22nd inst., we attended a Republican meeting beyond the Martinez, about sixteen miles from San Antonio, two men, both of them under the influence of whiskey, came to the meeting yelling like Indians, and undignified for the purpose of breaking it up.

After the meeting adjourned we went to the house of a citizen to get dinner. Jackson rode into the yard on horse back still keeping up his abuse, and we thought for the purpose of seeking a difficulty.

As the whole number registered up to date does not sum up of the above number, we presume the "Statesman" misunderstood Mr. Green.

When, at the peace preliminaries, the sum of milliards—which now seems to sit so lightly on France—was mentioned, Jules Favre, not exactly bursting into tears, as before, yet appeared utterly speechless with horror.

"The O'Bryan" admits the grapes hung too high, as far as that commission was concerned, and that he was a copperhead even then.

As to what "the O'Bryan" says about the editor of the Express, he is simply mistaken.

For this would unite the German Americans in the wished-for union in conflict, through blood and iron.

For the purpose of a call this morning from N. O. Green, Esq., of San Antonio. He informs us that a large number of whites and about six hundred Mexicans have registered, who had never before registered at all.

As to what "the O'Bryan" says about the editor of the Express, he is simply mistaken.

And now Alaska claims the "oldest Mason." He is a Russian 115 years old, who alleges that he received the Master Mason's degree at the age of 20, by special dispensation, in a lodge on the frontiers of Persia more than 67 years ago.

The longshoremen of Baltimore have recently demanded an increase of their pay, amounting from twenty to twenty-five cents per hour. Several of the stevedores have agreed to the advance asked for.

A New York paper says that when a Bergen girl gets dressed, she says calmly remarks, "Hain, tat lat goot" and when a Koch Island girl answers a question, she says, "Well, John, you're tipped by check or beautiful."

REV. CHARLES NAINSMITH.

Our Fair Reporter. We will publish daily during the Fair a newspaper under the above heading, which will be distributed gratuitously at the Fair grounds.

The "Fair Reporter" will have the size and appearance of the Express.

Those who advertise in the Reporter.

may count on their business cards receiving prominent notice during the continuance of the Fair. Advertisements must be inserted in the Express Office by Monday the 25th September.

We call attention to the communication from Messrs. Van Slyck and Anderson.

There is no cause for surprise in this conduct of one of the thousands of chivalry that Texas is cursed with. We have seen a similar crew attempt the same thing a few weeks ago in the city.

WHAT A GREAT AMOUNT OF MUSCULAR ability there is, leading around the corners and bar rooms of San Antonio.

How these gentlemen manage to get bread and heat to establish the evident excellent health they seem to enjoy, is one of those secrets that will, perhaps, be revealed in a future issue of the "Express". We have never heard of a similar case.

COURT.—The District Court opens on the first Monday in October.

the second day of the month, at which time the probate docket will be taken up. On the second Monday in October, the 9th day of the month, the civil docket will be taken up. On Monday, the 20th day of October, the criminal docket will be taken up and disposed of.

WHAT WE WANT IN SAN ANTONIO.—The city of San Antonio needs, above all things, a railroad.

The city of San Antonio needs at least one public Park. Now, that the old ruin on the Alamo Plaza has been cleared away, that locality might be laid out in walks and planted in trees. In a few years these would furnish a delightful resort.

This could be done all the easier as every inch of the ground is irragable.

The city of San Antonio needs a uniform system of grading and paving the streets, as the present mode is almost worse than useless.

The city of San Antonio does not need all the dogs that infest the city.

and a restriction of one or two dogs to each house, should be made.

The city of San Antonio needs signs on the corners of the streets.

they should be legible and attractive. The streets should be lighted by gas or some other means, so as to make walking after dark possible.

Upwards of three hundred had registered before the close of the office yesterday.

Opium, colds and pneumonia are beginning to prevail in general, at this season.

Mr. Oberlin, the carpenter near the bridge on Passo street, is being repaired in several places where it has saved in from the action of the late rain. The grinding and paving in question has been done in such an workmanlike manner that it will constantly need repairing.

We hope the expense attending the overhauling of this patched job will be charged to the party who is responsible for it.

Mr. DORNER returned to our city last Friday from an extended trip over the District, during which he made speeches in some twenty-four different places.

Mr. Degeher is looking well and more confident of success than ever, and was received with open arms in almost every place he spoke. He will address the citizens of Castroville to-day.

MASONIC NOTICE.—A meeting of Alamo Lodge No. 44, is called for Wednesday evening, the 27th, on important business. A full attendance is earnestly requested.

By order of B. OPPENHEIMER, W. M. W. F. MARSHALL, Secretary. San Antonio, Sept. 23d, 1871.

THE FAIR.—All persons intending to exhibit articles, will please have them delivered to the Secretary, at the Fair grounds, San Pedro Springs, on Monday Tuesday and Wednesday.

It is hoped that those of our citizens who can exhibit paintings, drawings, engravings, statuary, and flowers, will contribute to the attractions of the Fair by sending out what they can. The best care will be taken of the articles, during the Fair.

Arrangements have been made for the safety and security of property of the exhibitors.

By THE BOARD OF DIRECTORS. A few months ago the Antwerp papers reported that the "Wandering Jew" had reappeared and been spoken to in the city. The tradition of centuries is that the visits of that mythical person always precede war or pestilence; and the superstitions are now connecting the outbreak of cholera in Belgium with the recent visitation of the wanderer. There is something remarkable in the vitality of this ridiculous tradition.

The number of accidents reported from the Pennsylvania coal mines during the past week is much larger than during any former week for a long time. From all reports, the most of them are the result of carelessness on the part of the men themselves.

ELIAS HOWE

SEWING MACHINES

ARE LEADING ALL OTHERS.

SALES FOR 1870

Larger than any other Sewing Machine manufactured in the United States.

THE "HOWE" Sewing Machines

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867,

And the Gold Medal at Amsterdam Exhibition, in 1860,

And have invariably obtained the Highest Honor at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in 1870 AND 1871.

The "HOWE"

is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with ordinary care, it will last a life time without repair.

THEREFORE SELECT

"Elias Howe's" NEWLY IMPROVED

FAMILY SEWING MACHINE

which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commends itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 400 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines. Call and examine before purchasing elsewhere.

Caution.

Observe our MEDALLION TRADE MARK,

THE CAUSE AND CURE OF CONSUMPTION.

The primary cause of Consumption is derangement of the digestive organs. This derangement produces indigestion, indigestion and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest pre-disposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption, without first restoring good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime, which is clogging these organs so that they cannot perform their functions, and then set up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime—that is causing disease and decay in the whole system. They will clear out the liver of all diseased and new and healthy action, by which natural and healthy life is secured.

The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organs are cramped and the appetite poor. In the bowels the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Serravallo's Tonic comes to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of Consumption is the first and preserving use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter, in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs—a cavity or abscess there—the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure a new order of things—a good appetite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up, there is hope.

I have seen many persons cured with only one sound lung, live and enjoy life to a good old age. This is what Schenck's Medicine will do, it cures Consumption. They will cleanse the stomach, ripen and strengthen it, get up a good digestion and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be.

It is important that while using Schenck's Medicine, care should be exercised not to take cold; keep in-doors in cold and damp weather; avoid night air, and take outdoor exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold, while using my Medicine, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I am extremely cautious; pulmonary medicine against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed Consumptive lungs are a mass of nerves, which the least change of atmosphere will inflame. The grand secret of my success with my Medicine consists in my ability to subside inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with safety to the patient, be exposed to the biting blasts of Winter or the chilling winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibility.

The person should be kept on a wholesome and nutritious diet, and all the Medicines continued until the body has restored to it the natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and healthy three many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the first of October I expect to take possession of my new building, at the Northeast Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.

Full directions accompany all my Remedies, so that a person in any part of the world can be readily cured by a strict observance of the same.
