At a called meeting of Alamo Lodge No

44, A. F. and A. M., held on the 27th of September, 1871, the following report'and resolutions were unanimously adopted: To the W. M., Wardens and Brethren of Alamo Lodge No. 44, of A. F. and A. M.

Alamo Lodge No. 44, of A. F. and A. M.

Your committee feel but little qualified to justify and discharge the mearuful duty imposed upon them by this Lodge of Sorrow, this evening.

On the 29th day of August leat, the G. A. O. T. U., for purposes to him wise, laid his hand heavily upon us, and removed from our Councils, our good and well beloved Grand Master, T. J. H. Auderson, who, while in life, as a citzen, was just to his country and leyal to his Government, was faithful to his family, kind to his neighbor, and true to his friends; who, us a Mason, pre-eminently possessed all those qualities which distinguish the true and faithful brother, and who, by the purity of his life and the rectitude of his conduct, so endeared himself to us, that his name, in letters of gold, is indelibly impressed upon our memories as that of one, whose virtues should be extelled, and whose loss should ever be mourned.

Although a prince in our house, he was

should be extolled, and whose loss should ever be mourned.

Although a prince in our house, he was but mortal. The shrouded casket holds, and the mantle of death covers his mortal remains. And we know he will, in life, no more come amongst us forever. We know that while it is our loss we mearn, it is his priceless gain, for he is only called to higher honors and greater happiness by the Supreme Grand Master of Jieaveu and of earth, to whom we all in reverence bow. It but remains for us to humbly acknowledge in this bereavement, the holy chastening of the Divine hand, and to practice the virtues of the departed spirit, emulate its example, and merit its rewards.

White deing this, let us silently minute.

while doing this, let us ailently mingle our tears with the tears of his family, his friends, and of the brethren, so saily flowing; let their loss be our loss, let their griefs, and their cares be our cares, and their hopes our hopes, so long as time with us may last.

Be it resolved: That the report of the committee reporting this evening, he antanimously adopted, and spread upon the minutes of this Lodge, as expressions of the feelings and sympathies of the members of Alamo Lodge No. 44, upon our great bereavement, in the demise of our Grand Master, T. J. H. Anderson.

Be it further resolved: That a certified copy of the minutes of this Lodge of Sorow, be forwarded to the Grand Secretary of the Grand Lodge of Masous of Texas, for his disposition.

Be it further resolved: That the Lodge Room of Alamo Lodge No. 44 be clothed in mourning by the Tyler, and that the members of the Craft were the usual badge of mourning for thirty days.

Be it further resolved: That the papers of San Antonio be respectfully requested to publish the report and these resolutions for the information of the Craft.

diagrace us in the eyes of the nation?

But it is too feel, too feel.

We have lost this election through our on fault, and until we cap have more disrepetition of these defeats.

The Hancock meeting in front of the Manger Hotel, his intemperate language. sequent howling down of red to hear them, was bad enough, but the last affair has ruined us; it has lost us the German vote, which we night have gain ed, if the boys could only have been persuaded to keep still as an a state a

one half of the crowd were republicans, and although Shelly told the niggers, that they stunk, and he cursed the Governor and call the radicals thieves and rascale, and lied about the takes, yet he was not interrupted a single time. Now it made a bad impression on the Germans; they would like to see fair play, and that the democrats behaved like they did, was disgusting to them. The Germans that in tended to vote for Hancock, wanted Newcomb to speak, that they might hear him, and the conduct of the boys in going on that way, convinced them, that we were afraid to have the question asgued, and then the bowling reminded them too much of 1861. They are disgusted and will vote. for Degener, and to tell the truth, I am afcaid it has disgusted even some of our reliable democrats.

There was no sense in reminding Alex. Sweet of his having been in Duti's regiment, because it is well known that he was in Germany during the first part of the war, and never was an ardent demoerat. That was the first fool act.

The next was Gen. Young playing schooleacher over Newcomb. I am at a loss to explain the conduct of Young, he has never behaved that way before, and I conconclude, that in order to be equal to his arduous duties at the Fair, he must have ever-stimulated himself. It was a wonder way would have been, to have made a great show of fairness by endeavoring to suppress the howling.

He couldn't have succeeded, but then he might have shown, that the respectable demoorate were opposed to rowdyism, wow, This would have had a good effect, particularly on the Germans, and might have we have such leaders, that we must expect defeat.

My theory has always been, to treat your pponent with the most excruciating politeness, unless your intend to make a fuse big enough to break up the meeting. These half way measures never succeed, and last might was a proof of it.

What was the consequence ? Young got warming that was pitiful to witness, the Germans were disgusted, and the boys discouraged.

I find, that the animosity among the real old fashioned sort of rebels against Newcomb is tremendous, and knowing that he was an old Texan and never given them any particular reason to hate him, I determined to find out the cause of it; so I enquired of a fellow, who was felling for Honcock the reason he hated Newcomb. He said, I don't hate him so much for what he has done, as for what he might do in the future. We are going to have another fight here in Texas, and if he has anything to say about it and if we are whipped, he would as leave hang us as not. That's what's the matter.

It was bad policy too, to hollow and yell at Huston, because he was a Union soldier, for that has a bad, mighty bad, effect on the Germans. They know, that it was the republican soldiers, that humbled the pride of sontnern chivalry, that had always treated the Germans as inferiors and they can't bear to see them insulted pub- to imitate them and save the democracy bliely by the men that knng their sons After A. It was not Gen. Young's speaking to Newcomb in the middle of his speech, that was so bad, as it was that the crowd that bad been howling for some time, only wanted Hancock has thrown aside all national a leader to make a disturbance.

In Seguin we have blundered worse than anywhere else. It should be the policy of hundreds of unlawful Mexican voters, the democratic speakers to treat Mr. Degevoting two and three times a piece, to the detriment of the Germans. You may well is a respectable man and they are not; but sigh; those things left with the lost cause, in Seguin they actually went about town, ringing a hand bell and selling Degener out at auction. A CAMPAIGN DOCUMENT .- Take a Texas rowdy with his hat with a snake on it, red sash ac., give him an empty six shooter and a bottle of whiskey, put him in an iron cage and exhibit him at the North. and it would give the people of the United States a better understanding of the situation in Texas, than could be obtained from any other source.

The Democrata were in a terrible way have a State election a few weeks since, but now they oppose it because the Republicans propose to arrange the districts so as to make it probable of a Republican success. They call this new appertionment "a radical outrage," but they thought it very fair to re-district the Judicial Districts when Throckmorton was governor so as to throw all the loyal judges out of office. Nice, virtuous fellows, these democrats !

Gen. (ex-confed) Young, made himself conspicuous on Saturday night by leading a gang of confederate bullies in their attempts to disturb the Republican speakers and among these plug-uglies were Maj. (ex-confed) Colquehn, and & certain tooth carpenter who has his shop on Main Street; while Devine pulled the wires on the outskirts of the crowd. These men have certainly forgotten themselves; we beg leave to inform them that the confederacy is deall, and their little game played out. diseased muous and slime, which is clogging these organs so that they cannot perform their functions, and then rose up and restore the liver to a headthy action. For this puppose the surent and best remedy is Schench's Mandrake Pills. These Pills clean the stomach and howels of all the dead and necks and healthy action, by which natural and healthy bile is accreted.

The atomson, bowels, and liver are thus cleaned by the nee of Schench's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the howels the lactuals are weak, and requiring straight and emport. It is in a condition like this that Schench's Pepare the optom for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure most cases of Construption is the first and preserving use of Schench's Polmonic Syrup. The Pulmonic Syrup nourishes the system, purishes the blood, and is readily almorbed into the circulation, and thence distabuted to the discased lungs. There it ripens all morbid matters, whether in the form of abcasses of there expectoration, when once it ripens, it is then, by the great backing and putudying properties of Schenck's Pulystonie Syrup, that all nicers and cavited are leaded up south, and thence distabuted to the discased lungs,—a specific are leaded up south, and my patient is cared.

person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gene, if there is enough vitality left in the other to benl up, there is hope A leave seen many persons circle with only one sound lang, live and enjoy life to a good old ago. This is what Schenek's Medicines will do to care Communication. They will clean out the atomach, acceptance determined etwengthen it, get up a good digeation and etwengthen it, get up a good digeation and glue Nature the assistance she needs to clear the system of all the disease that and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be. It is important that while using Schenck's Medicines, care should be exercised not to take eald; keep in-doors in cold and damp weather; axeld night air, and take out-door exercise only in a genial and warm aunshine.

I wish it distinctly understood that when I recommend a putient to be cureful in regard to taking cold, while using my. Medicipes, I do so for a special reason. A man who has but partially specvered from the effects of a bad cold is far-more liable to a relayse than one who has been entipoly enred; and it is precisely the same introport to Communition. So long as the lungs are not perfectly healed, jost so long is there imminent danger of a full return of the disease. Hence it is that I so stresmoothy entrion pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed Communitatives longs are a mass of series, which the heast change of atmosphere will inflame. The grand secret of my success with my Medicipes consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. As inflamed Immer cannet with series. I wish it distinctly understood that of provoking it, as many of the faculty do. An inflamed lung cannot, with safety to the patient, be exposed to the biting blasts of Winter of the chilling winds of Spring or Autumn. It should be earefully shielded from all irritating influences. The utof from all tritating influences. The un-inest caution should be observed in this particular, as without it a cure under al-most any circumstances is an impossibili-ty.

The person should be kept on a whole-bone and nutritions debt, and all the Me-dicines continued until the body has res-tored to it the natural quantity of flesh

wored to it the natural quantity of flesh and strength.

I was myself enred by this treatment of the worst kind of Coosymption, and have lived to get fat and hearty these many years, with one lung mostly gone. I have ever thousands since, and very many have been cured by this treatment whom I have never seek.

About the First of October I expect to take possession of my new building, at the Northegas Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the Summer of 1869—where "The Clipper" met some 40 competters, including all the leading machines built, and was awarded the First Premiums and Gold Meda, proves that the proprietors have been able to sustain in the filed their alaimanf superiority for Fhe Clipper Machine over all others. Its extraordinary lightness of draft takes offerthird of the labor off the team. The adjustability of the inger-bar. team. The adjustability of the finger-bar, to cut high or low without stopping the team is worth \$25 on any machine. It is the only mover that has the true center draft in accordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class, Farmers THE CLEPPER is the Horses Friend, and you for pamphlet—investigate.
