Rev. Wm. Alvin Bartlett, of Chicago, in an address last evening, expressed the belief that although the loss will be between two and three hundred millions, Chicago might be made to look like herself for fifty millions. Men like Wm. Ogden and Geo. Smith had pledged their millions for a guarantee that Chicago would be immediately rebuilt. There were 110,000 homeless and foodless people to be taken care of until May, which will cost at least five millions, and require even all the immense sums that lfave been subscribed.

An Unprotected System.

Do not fancy because you feel strong that you are impregnable to sickness. Whole neighborhoods are frequently prostrated at this season by malarious fevers. Vigorous muscles and strong sinews, broad houlders and sound lungs, are no defence against the mephitic vapors of autumn. Frames which have withstood the summer heat may succomb now. Many an athletic man, whose family depends for its support on his industry, now lies prostrate; weak and helpless as a babe, under the periodical assanits of chills and fever, or billous remittent fever. This could not be if all were wise enough to provide against such a contingency, by toning and fortifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmiess, so that it is sheer felly not to take it as a safeguard at a season when diseases of the liver, the stomach, the bowels, and indeed all the visceral organs are generally prevalent. To keep the system in order when this precaution has been neglected, is the duty of every human being who values life. For both these purpose Hostetter's Bitters is designed, and it answers both. The Columbus Railroad.

H. B. Andrews, Esq., of this road, is new in this city, accompanied by several attaches, and we learn from him that it is the determination of the company to build as soon as the preliminary preparations are made. Mr. Andrews will immediately commence to locate the first twenty-five miles of the line from San Antonio, while operations are in progress at other points.

We are pleased to record anything which dicates the intention of the company to keep faith with the people of our city, who fully appreciate the great advantages which their road will bring to us. The connection with Galveston and Houston is most desirable, and daily becoming a greater necessity with us. When the link etween Houston and New Orleans is completed by the Chattanooga Company, and our connection by rail with the former sity secured, there will be the greatest change in our city imaginable, and we indulge in the dream that the prediction of Mr. Greeley, that, "when San Autonio gets railroad communication her population will go up to fifty thousand like a balloon," will be verified.

GEN. J. J. REYNOLDS, the Department Commander, returned yesterday morning, with the officers who accompanied him, from the scene of Martial Law in Limestone county. There is no truth, as we predicted, in the reports which have been circulated, to the effect that there was a disagreement between him and Governor DAVIS, as the General did not go for the purpose of interfering in any manner with measures commenced by the Governor, but gave the belligerents at Limestone some good advice, which we hope ther will head, The General will probably, report the result of his observations to the War Department. While at Hearne, the General, and the officers with him, examined the The General will, probably, report the reand the officers with him, examined the International Railroad, and they speak in the highest terms of its condition, and the perfect manner in which it is constructed.

THE little supposed victory of the Demcoracy in Texas has brought out the true Southern idea of the principles of that party. The other day a Dallas paper ap-peared with a flag bearing the motte "States' Rights." That means, to them, the right of secesion, which principle we claim was fairly and squarely whipped, in the late war. We learn by a private letter from Fort Richardsen, that the sons of Satanta and Big Tree are on the war path, avenging the imprisonment of their fathers, who are confined in our State Ponitentiary. They killed two white men near Fort Sill, about the let, inst., and will no doubt continue their bloody work. The method adopted to conciliate these savages is therefore a failure, and we hope a course will be pursued more calculated to secure the desired end, viz: "peace" with the Indians. We do hope the Columbus roapy that built at once, and assure the fill reason our citizens will accord the able aid and indulgence.

The Arctic restore it to a respectable place among the States of the Union? and are not the Union who are battling to put down the last vestige of rebellion worthy of sympathy and support and the protecting influence of the government of the United States. Texas was the last ditch of the rebellion; its territory never fairly felt the tread of invading forces; it contains mercun whipped, unrelenting traitors to-day than the rest of the Souther's States put together. The rebell Democracy is led by the men who inaugurated the rebellion; its press recks with treason and hate to the federal government, and the most vindictive, malicious abuse of every friend of the Government in the State. The "open letter" of the "thirty-two" is but asfaint diefive, malicious abuse of every friend of the Government in the State. The "open letter" of the "thirty-two" is but affaint picture of the misrepresentation and mal-icious slander that daily reeks from their party organs. But in spite of all this, we feel confident of winning the fight, if our hands are but up-held by the intelligent publicopinion of the loyal North and West. Thousands of hodest Confederates will come to us; the old Union men, encouraged by protection will rally to our aid, and the

come to us; the old Union men, encouraged by protection will rally to our aid, and the colored man is always true; he will brave starvation and death to stand by the party that gave him his freedom.

Our enemies are desperate; they feel that time is telling against them, and Union. Our enemies are desperate; they feel that time is telling against them, and that soon their day will be over: that in the South Democracy will perish because it only means treasen to the Government,

A LARGE piece of plaid velvet was stolen from Mrs. Meyer's Millinery store on Commerce Str. a few days ago. A sample of the goods was placed in the hands of that shrewd detective, Mr. Lyons, and he soon found the piece to match it. A coloredfound the piece to match it. A colored youth by the name of Frank Davis, had given it to her who was the starlight of his boyhood, and she was making a josey of it. the company giving bond in the sum of \$100,000 for the fulfillment of their contract. The route proposed is according to the old Johnson survey, and across the Guadaloupe river in Dewitt county.

THOSE who have read Nasby's description of the meetings and resolutions of "the Confederit X road Democracy, at Bascoms grocery" will appreciate the hu-mor in the frequent Attascosa County communications from 1 the dimycratic klub," When one reads, that, "within the last few years the expenditures of the Government have increased from thousands to millions," it would seem as if some Republican with a keen sense of the ridiculous, were burlesquing the Democracy, but it is all koncet indignation, and we have no doubt that the buckskinned guerrilla who perpetrated it imagines that General Grant has a cold chill in consequence. We give him this netice in order to encourage his mad and headstrong humor.

WE are confident that no extended reminder is necessary to induce our citizens to purchase the tickets to the entertainto purchase the tickets to the entertainment which will take place at the Casino next Friday. The dollar that is spent in aid of the unfortunates, many of whom are friendless, penniless, and on the verge of despair, were well invested if no renumeration were offered, but we have the best musical and dramatic talent of the eity, giving in return a performance that is worth five times the money. All henor to the Casino Association, and all others connected with this movement, and we trust the public will do its duty and not permit the managers to have a single unsoid ticket on their hands. In that case this charitable effort will reflect csedit on the city, and be of some real benefit to those, for whose benefit it has been started.

There, was once upon a time a man, who was very much afraid of a bear, and who one day found that a bear was actually pursuing him. He was nearly frightened to death, and ran as hard as he could until he fell exhausted and expecting to be devoured by the ferocious animal that was close behind him, but to his incredible astonishment when the bear came to where he was lying, instead of falling upon him and devouring him the bear began dancing be fore him. Then the man understood that it was a tame dancing bear, and all that the animal was chasing him for was to excite his admiration by executing a double shuffle before him.

That tame bear was Andy Johnson, but the next hear that chases some people, we know of, will be Gen. Grant, and the dancing will be done with the assistance of an instrument of one string with the bridge down.

THECAUSE AND CURE OF CONSUMP-TRON.—The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nustition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion the impaired, having the slightest pre-disposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse fife stomach and bowels from all diseased mucus and slime, which is clogging these grams so that they cannot perform their functions, and then rose up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenek's Mandráke Pills. These Pills clean the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased a new and healthy action, by which natural and healthy bile is secreted.

The stomach, howels, and lives are thus cleansed by the use of Schenek's Mandrake Pills; but there remains in the atomach an excess of acid, the organ is torpid and the appetite poor. In the bowels the lacteals are weak, and requiring strength, and support. It is in a condition like this that Schenek's Seawed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach awest and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first puccess of a good digestion, and ultimately make good, hearty appetite, and prepare the system for the first puccess of schenek's Pulmonic Syrup. The Pulmonic Syrup nourishes the assists Nature to expel all the diseased matter, in the form of free

It is important that while using Schenck's Medicines, care should be exercised not to take cold; keep in-doors in cold and damp weather; avoid night air, and take out door exercise only in a genial and warm sunshine.

sunshine.
I wish it distinctly understood the I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold, while using my Medicines, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured; and it is precisely the same in regard to Consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so stranuously caution pulmonary patients against exposing themselves to an atmosphere that is not gental and pleasant. Confirmed Consumptives' lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my Medicines consists in my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with safety is my ability to subdue inflammation instead of provoking it, as many of the faculty do. An inflamed lung cannot, with safety to the patient, be exposed to the biting blasts of Winter or the chilling winds of Spring or Autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibile.

I was myself cured by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these meany years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

Apout the First of October I expect to take possession of my new building, at the Northeast Corner of sixth and Arch Streets, where I shall be pleased to give advice to all whe may require it.

MILTRION

A strangely feetnates, powerful written, and theroughly reliable book. From a new standpoint, and upon a subject of vital and absorbing inheres in the vogarts. Showing the hear oras of the barbarous system of treatment in vogue in many prisons, and the advantages of the system recently inaugurated in others. Together with a true and detailed account of the maltreatment and crueftes practiced upon prisoners; also, shanie-fraced criminalities with female convicts, nuttinies, nurders, starvings, whippings, hair-breadth escapes, aketches and incidents, narratives, pen pictures, sunshine and shade, illustrative of prison life. Written by a Convict, in a Couvict's Cell. In one vol. 450 pages, over 50 elegant engravings, made expressly for Isla book. As sample pages, sample litustrations, said on application—or, a hound prospectus, for so cents. C. E. VENT, Cincinnati, New York and Chicago.
