ELMENDORF & CO.,
 Agents for the Clippes Mowers and Reapers
 The great field trials at Sedalia, Mo., and
 at Xenia, Ohio, in the Summer of 1869,
 where "The Clipper" met some of the best
 mowers, including all the leading machines
 built, and was awarded the First Premium
 and Gold Medal, "proves that the proprietors
 have been able to sustain in the field their
 claims of superiority for the Clipper Machine
 over all others. Its extraordinary lightness
 of draft takes one-third of the labor of the
 team. The adjustability of the finger-bar
 to get high or low without stopping the team
 is worth \$25 on any machine. It is the only
 mow that has the true center draft in ac
 cordance with correct mechanical principle.
 In short, it is the lightest, the most durable,
 the least complicated, the most perfectly
 constructed, the most symmetrical in design
 of any implement of its class. Farmers
 who are in the "Horse" frame, and you
 cannot afford to ignore their welfare. Send
 for pamphlet—investigate. See or write to
 some one who has used THE CLIPPER. See
