The democratic press is very eloquent or the subject of radical corruption, it over-flows with pathos when it tells what the democracy might have done in the way of construction, if they had only been allowed to develope the Andy Johnson poliey more fully, and the string of democra-tic constitutionality is twanged unceasingly of late. We are informed with a great show of sincerity that the democracy is the most reliable, honest and economizing party, and that the material and monied interests of the country would have been better looked to, if that party had the management of public affairs; and this is resterated over and over again, until probably many of the democratic leaders actu-ally do believe it to be the truth. Indeed, so convinced have they become of their own virtue, and its general recognition by the public, that judging from the tone Texas organs, there is hardly a doubt, but that they will be overwhelmingly victorious at the next Presidential and State elections. This drunken delusion will have its time; but there will be a terrible waking-up some morning with the usual headache and nausea. But the truth has made all it political calculations with out taking into the account a very import ant factor in the sum, viz: the Amelican people. It is true, they have not forgotten, that it is by the number of votes counted that they expect to come again into power; but they seem utterly to have overlooked the fact, that the people have very good memories, and that the record of the demo-eracy during the rebellion has been bornt into the hearts and brains of the people But is there really any foundation for

the claim, that the democratic party is less corrupt to day, than it siways has been, or that they have any reasonable ground for the attacks that are constantly made upon the efficiency and honesty of republican ism; and what right has the democracy to claim the confidence of the people after the experience of the past ? To-day the democratic party is more corrupt and reckless than republicanism; the democrats are to day more eager for office than the republicans; and where has that party ever shown any particular financial ability, and bas it new any settled financial plan, and in what manner could they have carried on the work of reconstruction better than the republicans !

What, we ask, is this much vannted elaim of superior administrative ability

complished in the history of the party. The past is a lamp to our feet for the future, and the only reasonable conclusion we can arrive at, is, that the democracy would use their ascendancy, (should they ever attain it) to bring about another re

That is the way the American people look upon it, and that is, what they are trying to get the democracy to understand by giving increased republican majorities in the great States of Pennsylvania, Ohio and Iowa. But when the blind are leaders of the Bird, nursh cannot transmally be expected of them.

THECAUSE AND CURE OF CONSUMP-TION.—The primary cause of Geospuppties is derangement of the digestive organs. This derangement of the digestive organs. This derangement produces deficient an trition and assimilation. By assimilation and assimilation. By assimilation in the process by which the untriment of the feed is converted into blood, and therice into the solids of the bedy. Persone with digestion thus impaired, having the slightest pre-disposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Longs in some of the Forma; and I hold that IT will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanes the stomach and bowelse-from all diseased minuts and slike, which is clogging these organs so that they cannot perform their functions, and then rose up and restore the liver to a healthy action. For this purpose the street and best remedy is Schenick's Mandricke Pills. These Pills clean the stomach and bowels of all the dead and morning the stomach howels, and liver are thus cleanesed by the use of Schenick's Mandrake Pills; but there remedy is and and healthy action, by which natural and healthy belief is secreted.

The stomach, howels, and liver are thus cleanesed by the use of Schenick's Mandrake Pills; but there remedy is nowels, and liver are thus cleanesed by the use of Schenick's Mandrake Pills; but there remedy in the property of the pills; but there remedy is an excess of acid, the organ is torpid and THE CAUSE AND CURE OF CONSUMP.

The stomach. howels, and liver are thus-cleaned by the use off Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid and the appetite poor. In the bawles the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck a Scaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent toucto this imperiant organ, and create is good, hearty appetite, and prepare the system tort in a process of a good digestion, and utilimately make good, hearty, living abood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and preserving use of Schenck's Pulmonic Syrap. cases of Consumption is the free and pre-serving use of Schenck's Pulmonic Syrap. The Pulmonic Syrap neurishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distabluded to the diseased lungs. There is ripens all-morbid matters, whether in the form of abcasses or inberdes, and then assists Nature to expel all the diseased matter, in the form of free expectoratiofs, when once it ripens. It is then, by the great-healing and purifying properties of Schenck's Pul-monic Syrap, that all ulcers and cavities for healed up sound, and my patient is cured.

month Syrup, that all ulcers and cavities are healed up sound, and my patient is pured.

The essential thing to be done in curing Coffeenession is to get up a good appetite and a good digestion, so that the body will grow in firsh said get strong. If a person has sheased lungs, a cavity or abscess there, whe cavity should be all the matter cannot ripen, so long as the system is below agr. What is necessary to cure a new order of things,—a good appetite, a good intrigion, file body to grow in fresh and get fait shell Nature is helped, the matter wift sipen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan are the Consumption, and if a porson is very bad, if the lungs are not entirely gone, if there is enough vitality left in the other to head up, there is hope. I have seen many persons cured with medicines will do 'fo cure Consumption. Medicines will do 'fo cure Consumption and gith nature the designation of the medicines will do 'fo cure Consumption and gith Nature the designations where the system and strengthen it, get up a good digustion and gith Nature the designations where the system and strengthen it, get up a good digustion and gith Nature the designations have been a clear the system of all the disease that is in the lungs, whatever the form may be. It is important that while using Schenck's Medicines, care should be exercised not take odd, keep in-doors in ord dad damp weather; avoid night air, and take out door exercise only in a genial and warm soushine.

when I recommend a patient to be careful in regard to taking cold, white using my Medicines, I do so for a special reason. A man who has but partially recovered from the effects of k bad cold is far more liable man who has but partially recovered from
the effects of is had cold is far more liable
to a relapse than one who has been entirely erred; and it is precisely, the same, in
regard to Cousumption. So Jong as the
lugs are not perfectly healed, just to long
is there, insufficient danger of a fail return
of the dispase. Hence it is that I so stremonthly caution pulmonary patients
against exposing themselves to an atmosphere that is not genial and pleasant.
Confirmed Cousumptives lungs are a mass
of sorse, which the least change of atmosphere will inflame. The grand screek of
my success with my Medicipes consists in
my ability to subdue inflammation instead
of provoking it, as many of the faculty da.
An.inflamed-lung, caunot, with safety—to

I was myself cured by this treatment off the worst kind of Consumption, and have lived to get fag and hearty these many years, with one lung mossly gone. I have cured thousands sizes, and very many
