EDITORIAL ITEMS.

We have received a notice from the Farmers' Protective Association of Dickinson county, Kansas, stating that Texas cattle will no longer be permitted to pass through that country.—Stockmen take notice.

Six fine shirts for eleven dollars, B. & G.

This lecture of Prof Perrin on Saturday last was most interestingly delivered. Mr. Perrin, however, is a literature, deserves more encouragement from the citizens of San Antonio.

See American Cheviot shirts, B. & G.

Prof. Perrin recommends the establishment of a public library in San Antonio. Undoubtedly such a movement could be made with success, and is productive of much good.

Shirts' cheapness tags, B. & G.

We are informed that the Board, Dr. Thomas, the intelligent "Lector" of the Herald, was furnished with a splendid new set of robes, presented to him by the Board of Directors of the reorganized Bank of Bally, and the Bank of Ireland are very good.

Greatest variety of work by the West.

We are indebted to U. S. Senator Plumb for the transmission of the Message of President Grant, transmitting the Report of the Commission appointed to devise rules and regulations for the purpose of reforming the civil service.

The document is highly interesting, and we propose to comment upon it.

The Herald of yesterday says that our old friend, Gen. Grant, is laying dangerous and sick at Nashville, and lays claim to intimate acquaintance with him, both in the U. S. and C. S. Army.

It is astonishing that we have could meet with any one, who was at all acquainted with the military and political—*as far as we had always considered that excellent statesman*, a man of great executive. Can it be possible that the General followed the army as a soldier, and supplied the General with mixed pickles and gingerbread? Or was that article written by the historical Tremper? We are not acquainted with the deeds of value of the said Tremper, but he did his best to do his part in the way of making the world better.

He is a man, industrious man, a reader of the Express—You will as soon venture to place yourself in the way of that locomotive, whose shell will shall make you fall right from its long chimney, start even the dreamy power to ground activity, as to oppose the so-called new ordnance.

The Houston Union says:

Those who point to the "crossed-hands" of the Express as a proof that the President's designation "Let us have peace," has not been manifested by him, are in error. The crossed hands, with any other President, must have been a soldier of the most daring, and most heroic, and most brilliant, who could have saved the Confederacy and his favorite "border states."

As for us, we modestly acknowledge, to have got Gen. Grant's corps many a time during four years service in Virginia—*though I am to Appomattox*, and if we never see the "border states," we may well say that we still live, and that sometimes the blow to deal were not the lightest one.

We hope the General will recover, and yet have another opportunity to serve his country—*and if he may—*—we may well say that we still live, and that sometimes the blow to deal were not the lightest one.

The Cow Ordinance and other
business of importance was before the

POLICY OF THE ADMINISTRATION.

of the Administration to be a thorough en-

forcement of every law, a faithful collec-

tion of every cent of the same, a prompt pay-

ment of every cent due, the repre-

sentation of the country to be arranged

as to all the greatest evils to the govern-

ment, and the protection of the people

to the end that with

all its blighting consequences may be avo-

ided, but without countenancing any right

or obligation due to us, a reform in the treat-

the medium of a pure, untrammeled ballot, where every

man entitled to cast a vote may do so just

Newspaper Laws.

We call the special attention of Postmasters and Subscribers to the following extracts of the newspaper laws:

1. A Postmaster is required to give no information to any person concerning any letter or package sent to him.

2. The Postmaster is responsible for the payment of postage.

3. If a person sends a paper discon-

tinued, he must pay the postage or the publisher may continue to send it until the

payment is made.

4. If the subscriber orders his paper to be stopped at a certain time, and the publisher fails to stop it, he is bound to pay for it if he takes it from the Postoffice. The law proceeds upon the ground that a man must pay for what he uses.

5. The courts have decided that refusing to take newspapers and periodicals from the Postoffice, or removing and leaving them uncalled for, is prima facie evidence of intention fraud.
