Lost, Wilson Co., Texas, } February 17, 1872. }

To the People of Wilson County:

This was when "Principles, not men," was the slogan of the old Democratic party, but times are changed. Principles are washed and starched and Democracy are for any man or any measure they may promise success, office and emoluments. Hence a corps of wire-pulling marplots met at Sutherland Springs on the 27th of January, and nominated an anti-Free School candidate for Justice of the Peace for Precinct No. 3. After having concentrated in him all the virtues and good qualities of frail human nature, they ask for him the votes of the citizens of this county, claiming him to be a no-party candidate.

This man is the representative of intolerant, implacable, rule or ruin, war engendering class constituting poor folks despising, freedom hating Democracy, nothing out, after due deliberation, by a meeting of well-tailed Democrats, he must be expected to subserve the interests of that party. The convention was not large; it numbered eleven, was of the possum, new department, no-party stripe, and as such, it has attempted to throw dust into the eyes of the people by foisting the no-party candidate on them for their suffrage.

The real no-party candidate is Dr. E. T. Loach. No caucus, nor intriguing committee of seven put him in nomination, it was the spontaneous act of his friends, irrespective of party. He represents the hard-fisted, honest, working people, and as a land owner he is for the reduction of taxes, and for the fostering of a good and equitable public school system, so that the children of the poor need may not be the tools and the dupes of the more fortunate possessors of a good education. Though well tradened by a class of men, whose prejudices are the only basis for their reason and guide for their conduct, and who will say or do anything to accomplish their ends, his character places him far above the reach of their fangless malice.

By a late action of our county court taxes have been reduced fifty per cent, and the school tax will be but 12½ cents on the one hundred dollars for 1872, instead of one per cent as levied by the sapient defunct Democratic school board for 1871.

To the lovers of the Sunny South, of her past history and of her future welfare, we would say, give your votes to Dr. Loach. You will find him to be honest, capable, and watchful of your country's interests. He never shirked his duty—never was afraid to do right; in him, men of every color, creed, sect or party, will find an upright and impartial dispenser of justice, and a watchful sentinel over the rights of his constituents.

Proceedings of the City Council.

Regular Meeting.

SAN ANTONIO, Feb. 17, 1872.

Present, his Honor, Mayor Thielepape.
Councilmen—Messrs. Bell, Fairweather, Elmendorf, Flores, Steves, Doerr.

The object of the call was explained by his Honor the Mayor, which was for the purpose of receiving the Report of the Finance Committee, regarding the levy of City taxes, for the coming year, commencing on the 1st day of March next.

The Committee report that the first quarter be collected the same as in the last fiscal year.

An ordinance entitled "An ordinance to levy taxes," etc., approved Feb. 15, 1871, together with the amendments thereto, approved Dec. 14, 1871, was re-ordained for the first quarter of the fiscal year beginning March 1st, A. Policy of the Administration.

In conclusion, I would sum up the policy of the Administration to be a thorough enforcement of every law, a faithful collection of every tax provided for, economy in the disbursement of the revenue to prompt payment of every debt of the nation, a reduction of the taxes as rapidly as the requirements of the country will admit, the reduction of taxation and tariff to be so arranged as to afford the greatest relief to the greatest number, honest and fair dealing with all other peoples, to the end that war, with all its blighting consequents, may be avoided, but without dishonoring any right or obligation due to us, a reform in the treatment of Indians and in the whole civil service of the country, and finally in securing a pure, untrammeled ballot, where every man entitled to cast a vote may do so just once at each election, without fear of molestation or proscription on account of his political faith, nativity or color.

U. S. GRANT.

Washington, Dec. 5, 1870.

Newspaper Laws.

We would call the special attention of Postmasters and subscribers to the following synopsis of the newspaper laws:

1. A Postmaster is required to give notice by letter (returning a paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reasons for its not being taken; and a neglect to do so makes the Postmaster responsible to the publishers for the payments.

2. Any person who takes a paper from the Postoffice, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.

3. If a person orders his paper discontinued, he must pay all arrearages or the publisher may continue to send it until the payment is made.

4. If the subscriber orders his paper to be stopped at a certain time, and the publisher continues to send it, the subscriber is bound to pay for it if he takes it from the Postoffice. The law proceeds upon the ground that a man must pay for what he uses.

5. The courts have decided that refusing to take newspapers and periodicals from the Postoffice, or removing and leaving them unsalled for, is prima facie evidence of intentional fraud.

THE

New York Tribune,

For 1872.

THE consolidation of Italy, so long fragmentary and important, into one powerful State, with Rome as its capital; the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemburg, Bavaria, with Baden, Hesse, the Hanse Towns, and even the feudality of Prussia, into a consolidated and powerful empire of Germany, and the erection of Russia to research has proposed science in the councils of Europe, or to prosecute her often postponed, never extinguished designs on the greatly financed by Constantinople and the vast but decaying and anarchical dominion of the Sultan, all require time to invest with profound interest the ever-changing phases of our tidings from the Old World. THE TRIBUNE, through trained correspondents stationed at all points in Europe where great movements are in progress or imminent, aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle-age Feudalism and the Industrial or Democratic Nineteenth-Century Republicanism on the other. Recognizing a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict as destined (like our own recent convulsion) to evolve from strife, disaster, and seeming gloom, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and immorality in office has been inaugurated in our City, whereby the government of our State has been revolutionized through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus originated cannot, in its gross, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians of no trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed Reform, THE TRIBUNE will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

The virtual surrender by the Democratic party of its hostility to Equal Rights regardless of Color has divested our current politics of half their bygone intensity. However parties may hereafter rise or fall, it is clear that the fundamental principle which have hitherto honorably distinguished the Republican are henceforth to be regarded as practically accepted by the whole country. The right of every man to his own limbs and sinews—the equality of all citizens before the law—the inability of a State to enslave any portion of its people—the duty of the Union to guarantee to every citizen the full enjoyment of his liberty until he forfeits it by crime—such are the broad and firm foundations of our National edifice as now paled and the hand which shall seek to displace them. Though not 7 of twenty years old, the Republican party has completed the noble fabric of Emancipation, and may fairly invoke for it thereon the sternest judgment of Man, and the benignant smile of God.

Henceforth, the mission of our Republic is one of Peaceful Progress. To protect the weak and the humble from violence and oppression—to extend the boundaries and diffuse the blessings of Civilization—to stimulate to Ingenuity to the production of new inventions for economizing Labor and thus enlarging Production—to increase to each other the products of Food and of Fabrics, of Grains and of Metals, and thus to enhance the gain of Industry by reducing the cost of transportation and exchange between farmers and artisans—are some of the inspiring ends to which this Nation now addresses itself, and by which it would fain contribute to the progress, enlightenment, and happiness of our race. Exhibit great and good work, THE TRIBUNE contributes its zealous, persistent efforts.

Agriculture will continue to be more especially elucidated in its Weekly and Semi-Weekly editions, to which some of the ablest and most successful tillers of the soil will steadily contribute. No farmer who sells $100 worth of produce per annum can afford to do without our Market Reports, or others equally lucid and comprehensive. If he should read nothing else but what relates to his own calling and its rewards, we believe that no farmer who can read at all can afford to do without such a journal as THE TRIBUNE. And we aspire to make it equally valuable to those engaged in other departments of Productive Labor. We spend more and more money on our columns each year, as our countrymen's generous patronage enables us to do; and we are resolved that our issues of future years shall be exceeded in varied excellence and interest by those of 1872. Friends in every State can help us make our Journal better and better, by sending in Subscriptions and increasing your Clubs for the year just before us.

THE

World-Renowned

"ELIAS HOWE"

SEWING MACHINES,

Are Leading all others.

Sales for 1870

LARGER THAN ANY OTHER SEWING MACHINE MANUFACTURED IN THE UNITED STATES.

THE

"HOWE"

SEWING MACHINES

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867,

AND THE GOLD MEDAL AT AMSTERDAM EXHIBITION, IN 1869,

And have invariably obtained the HIGHEST HONOR at all the great exhibitions; also received, successively, the highest Premiums at all Texas State Fairs, in

1870 and 1871.

THE "HOWE"

Is the most durable, most simple, most complete in all its parts, and the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with care, it will last a life time without repair.

THEREFORE SELECT

"ELIAS HOWE'S"

NEWLY IMPROVED

Family Sewing Machine,

Which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sew, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commends itself as especially appropriate for sewing woven material, and if suitable thread be used, the seam will prove lasting and elastic as the fabric itself.

At the present time no less than 600 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best materials.

We have constantly on hand a full assortment of these celebrated Machines.

Call and examine before purchasing elsewhere.

Caution.

Agents for the CLIPPER MOWER and REAPER

The great field trials at Medallie, Mo., and at Xenia, Ohio, in the Summer of 1869—where "The Clipper" took first premium over all competitors—and at Rochester, N. Y., in 1870, where it received the highest premium awarded to any machine, and was awarded the First Premium and Gold Medal, proves that Reapers and Mowers have been able to sustain in the field their claims of superiority for The Clipper Machine over all others. The extraordinary lightness of draft under operation of the latter is generally conceded. The adjustability of the finger-bar to cut high or low without stopping the team, is worth $25 on any machine. It is the only mower that has the true center draft to be in accordance with correct mechanical principles, as the draft is the lightest, the most durable, and the least liable to get out of order. Farmers, the Clipper is the Mower Friend, and you cannot afford to ignore their welfare. Send for pamphlet—investigate. Buy or write to some one who has used THE CLIPPER. See it before you buy yourself before you buy any other.

VINEGAR BITTERS

MILLIONS Bear Testimony to their Wonderful Curative Effects.

What are they? A Purely Vegetable Preparation, made chiefly from the Native Roots and Herbs found on the Sierra Nevada Mountains of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, unless their bones have been destroyed by mineral poison or other means, and the vital organs wasted beyond the power of repair.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in connection with a suitable Tonic, as they do, at the first dawn of Womanhood, or the Turn of Life, these Bitters display such decided influence as to make no disease.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood, which is generally produced by a Disordered Liver or Stomach.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms are the offsprings of Dyspepsia.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages, English, German, French and Spanish.
