LONDON has a population of 3,000,000 and but two daily papers, five morning and four evening, while New York with less than 1,000,000 inhabitants has twenty-four daily papers.

Shirts, Shirts, Shirts! Shirts! Shirts!

It is said the Trinity railroad bridge will be completed by the 20th of this month, when the Houston and Great Northern cars will cross regularly to the eastern bank of the river.

Easy, durable and complete—The Word.

The estimated value of shipping last year was \$40,000,000, being \$100,000,000. A State that still cannot afford to buy \$100,000,000 worth of ships, and have this amount of capital available for the title of export, cannot get rich.

Which never needs adjusting?—The Word.

Northern Texas needs all kinds of fixtures. She has an abundance of wood and water. In many places they have the finest water power, which could be utilized in the greatest advantage, while in the western country should be greater abundance.

But let that name stand. You have pointed in his party aspiration, let him, in consequence become discredited, let him join the malcontents and renegades, and he, too, the stigma attached to him disappears like a fog from the brilliant rays of the sun, and the Democratic paper, not caring a whit for their former expatriates, make haste to swallow him, spare and all, and so to snare their readers, that instead of a radical, the honorable gentleman referred to, always a patriotic conservative liberal Republican of exceedingly exalted parts, and of the most spotless record.

Then the expert has stood with Greeley, Hancock, Dent, Hamilton, (with Jack and Morgan C.) Pease, Grinnell, Brown, Carl Schurz, Governor Walker of Virginia, and many others, who have been nominated for President No. 2, of Wilson City, and the undersigned were recommended to adumbration upon the subject of the approaching election, and the result was, that Mr. Sumner, of Boston, was chosen, and the man—ever that, Mr. Sumner was fit to be from the dead.

The picture is a true, and by no means overdrawn one.

They are going in for the general rifle, and the end, with them justifies the means.

They now praise the sophists, and declare that they achieve their godliness in "forgetting past differences."

It seems to us that our Democratic friends are an example in the forgotten line. They still keep up their old grudge.

Let any impartial critic examine a file of their party documents, and he will be compelled to acknowledge that they cast themselves to the winds to keep alive and killing this third "old difference" to resurrect the hideous state of their "lost cause," and to keep up that artificially created hate and prejudice against their Republicans brethren.

As far as we are as willing and ready at any other man, even a liberal Republican of the Blair stripe, who, hence, for political purposes, the great toe of the antagonist is helped to crush, to "slay off, slay down" and to meet every citizen of this great Republic as a "deadwood" member, but we income upon being put in the stocks.

Forged State Differences.

It is somewhat remarkable, though by no means uncommon, with the general mass of political parties, that the Democratic Party, with their *state* as an excuse, have been *hostile* and *bitter* with their opponents, and that every Union man, every Republican, who, from whatever party's interest, opposed the *Confederacy*, has been, and is still, a *hostile* and *bitter* enemy to the people.
