Manufacturing

UPPER, IRON AND BRASS

WITCOSTS

LOCAL AFFAIRS.

The new session of Congress was opened at Washington, D. C., on Dec. 1, and the Senate and House are yet, however, to meet.

President's Order.—Louis Ochsner, drunk and disorderly, has been fined \$100, prior to noon, at the Court of Common Pleas.

Removal.—Mrs. Follie Military has been removed from her position as manager of the Bank of Commerce at San Antonio, Texas, and appointed J. H. Myrick, her successor.

San Antonio Journal says, "The San Antonio Herald's New York correspondence is a stereotyped affair. The same letter, having a stereotyped ending, is copied from the Herald to the Journal, and the Journal, in turn, copies it from the Herald."

In a "local" yesterday we stated that Mr. Deacon has been succeeded in "capturing" his unfeeling employee. Mr. Deacon is not a police or peace officer, even if literally speaking, "captain" the subject.

We regret to say that Mr. Deacon is still individual to our town, and that cannot be said by the proper authorities. We hope the correction is satisfactory.

Business appeared to be more lively than usual yesterday. The arrival of country produce, including wood, shingles, hewn logs, etc., were considerable, and we saw several wagons loaded with dry goods for the market.

We hope that as we are now entering upon the spring season in earnest, this state of affairs will continue.

Our popular young friend Mr. Oscar Schaefer lately with the house of L. Zorn, is now residing at the corner of Moore and Clay, well known establishment, where he will be good to us many friends.

"Schaefer" is a good fellow all through and deserves to be patronized.

An old man has been to England who joined us in a day or two ago and holds the record of one point of his vessel in one vessel on the premises.

Such a law in this country would just put people to inconvenience. Nothing but the use of a steam pump would furnish positive evidence of the amount of business carried home every night by some men. Besides, the liquor business is general would be ruined, in most places.

At the sheriff's sale of property, yesterday, held under execution, Mr. Kirchner became the purchaser of a lot of land fronting 100 feet on the south side of Leroy Street, between 1st and 2nd Streets, on the Pecos creek, for \$500. The bidding was lively for a few moments between Kirchner and a few persons, youth, but the gallant policeman finally got away with it, and a good bargain.

DISTRICT COURT.—Upon meeting yesterday morning the District Attorney discovered that several of his material witnesses had absented themselves, and the cases assigned for yesterday were indefinitely postponed, except those of David T. Morris, et al., and W. H. Morris, et al., which were assigned to the grand jury. The grand jury, however, refused to grant a new trial, but it was continued by the court, and the prisoner discharged.

Several instances of flagrant robbery appear, by attorney and pliant guilty of the offense of which they were charged.

One third interest in the Herald was sold by the sheriff yesterday under an execution. Mr. N. O. Green was the happy purchaser, for the equivalent of \$5. We are not informed whether Mr. Green considers that he made a big bargain, or has got an "elephant"—we have heard, but several persons have stated to him that he paid an enormous price for only a third interest in the Herald establishment. But it is the property of certain substances, when mixed into the system, to repair this complicated apparatus to a great extent, that is, the work of nutrition. Under the name of Dr. Gottschlach's Bitter, we have a preparation which thus urges forward—and that permanently—not working aright, full, taken before or after eating, gives both increased general health and increased capacity to digest the food received. Experiment will verify this.

This subject continued next week under "The Importance of Health."

Has at reduced prices, Burnett & Grant.

For the service of Dr. Battie, Dispensary, headed "Book for the Millions" MARSHAL GUIDE—in another volume.

Fraudulent Misrepresentation.—Among the pernicious frauds of the period, there is one which especially deserves the reprehension of all who place a value on health and life. The swindlers have failed to consist in the attempts of irresponsible parties, in different sections of the United States, to force upon the market various nostrums compounded out of damaged or worthless drugs and other materials, and sold at exorbitant prices. It is the practice of these "local bitters," in the trusty sense of the phrase, to mix them with the stomach, simply the brain, and smother the nerves of those who are unaware enough to accept them as substitutes for the famous Vegetable Balsam, that for twenty years has known throughout the Western Hemisphere as a standard article.

The concocters of these "local bitters" are, in the trusty sense of the phrase, to mix them with the stomach, simply the brain, and smother the nerves of those who are unaware enough to accept them as substitutes for the famous Vegetable Balsam, that for twenty years has known throughout the Western Hemisphere as a standard article.

The fame of Heisterer's Balsam as a heart-preserving, blithering nostrum, as wide as the world, and the miserable attempts of needly nostrums to supplant it, are well known to all. Yet it is not at all that serious consequences follow the use of these nostrums compounded out of damaged or worthless drugs and other materials, and sold at exorbitant prices. It is the practice of the most popular concocters of all vegetable tonics and alteratives—Heisterer's Vegetable Balsam.
