"Well," Said Covode, "I don't much object to the boys drinking all they want, but I don't want them to walk off with it in whole sale. I'm not anxious to keep a wholesale establishment. A fair retail business is all I care for. They may come here, if they're our friends, and drink as much as they want, but I don't want them to steal it. I don't want them to take a bottle to-day, and a demijohn to morrow, and a keg the next

washstand then." That's a good idea," said Uncle John, "it's a wonder I didn't think of it before."

So a new lock was put on the washstand-a large rosewood case washstand—a large reservoor with doors in front and a marble top. This would hold a small keg late of the M. E. M. M., with the of whiskey, two or three demijohns, or a couple of dozen bottles. The new lock did not seem to work very satisfactorily. A day or two after was was adjusted, the whole store, a dozen strong, was taken. A few days after the lock was changed again; no use—more whiskey gone mysteriously. Finally, a very in-tricate and complicated lock was put on. Then the robbery was to

The American Washing Dity no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sarve. In calling public attention to this little machine, a few of the invaluable qualities, (not possessed by any other washing machine yet invented.) are here enumerated. It is the smallest, most compact; most portable, most simple in construction, most easily operated. A child ten years edd, with a few hours' practice, can thoroughly comprehend and effectually use it. There is no adjusting, no acrews to annoy, no delay is udapting! It is always ready for use! It is a perfect little wonder! It is a ministure giant, doing more work and of a beiter quality, than the most sibborate and costly. Oue-half of the labor is fully saved by its use, and the clothes will isat one-half lenger than by the old plan of the rub board. It will wash the largest bifs.

No matter how deep rooted the prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleaning affects and others, and from bundreds who have thrown and the unwieldy, useless matches, which have signally failed to accomplish the object promised in promineous and loud sounding advertisements.

It is as perfect forwashing as a wringer is for wringing. The price another park mount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic edonomy that will repay the small investments to soo.
