REVOLUTIOINARIES  
MEXICO, May 3.—The revolutionary army advanced to the sea last night, having abandoned its camp on the river, six miles above, and swung around into the San Fernando road, behind, and about fifteen miles distant from this city. It is supposed that this movement has been made to lead of General Carranza's government forces, and to be approaching from that direction.

CINCINNATI, May 3.—Address presented by the committee on platform to present the resolutions. Address of gratitude to Carranza's administration for its power has rendered itself guilty of various crimes in law of the land, and use of power not granted by the Constitution, it has not only violated the rights of the people, but those who are governed and not for those who govern it has thus struck a blow at the fundamental principles of constitutional government and liberties of its citizens.
