For 1872.

THE consolidation of Italy, so long fragmentary and impertant, into one powerful State, with Rome as its capital; the humiliation of Francethrough a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scien of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurttemberg, Bavaris, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to reassert her prepopderance in the councils of Europe, or to prosecute her often postponed but never retinquished designs on the great city founded by Constantine and the vast but decaying and astarchical dominion of the Sultan, all combine to invest with profound interest the ever-changing phases of our tidings from the fold World Tue Tunune through the collection of the collecti the prolonged struggle between middle-age Fondalism and Ecclesiasticism on the one hand and Nineteenth-Century skeptione hand and Mineteenth-Century skepticism and secularism on the other. Recognizing a Divine Providence in all that
proceeds and is, it looks hopefully on the
great conflict as destined (like our own
recent convulsion) to evolve from strife,
disaster, and seeming chaos, a fairer and
happier future for the toiling masses of
mankind.
In our own country, a war upon corrup-

tion and rascality in office has been inac tion and rascality in office has been inau-gurated in our City, whereby the govern-ment of our State has been revolutionised through an initial triumph of Reform which surpasses the most sanguine antici-pations. It is morally certain that the patiens. It is morally certain that the movement thus inaugurated cannot, in its gress, he circumscribed to any locality or any party, but that its purifying lafinence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wresting power from politicians by trade, and confiding it in those worthiest and fittest to wield it. To this beneficent and vitally needed Reform, The TRIBUNE will devote its best chergies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicieus.

The virtual surrender by the Democratic party of its hostility to Equal Rights regardless of Color has divested our current politics of halt their bygone intensity. However parties may henceforth rise or

politics of nair their bygone intensity. However parties may henceforth rise or fall, it is clear that the fundamental principles which have hitherto honorably distinguished the Republicans are henceforth to be regarded as practically accepted by the whole country. The right of every man to gis own limbs and sinews—the country of all ettients before the law—the equality of all citizens before the law-the ability of a State to enslave any portion of its people—the duty of the Union to guarantee to every citizen the full enjoy-ment of his liberty until he forfeits is by crime—such are the broad and firm foundations of our National edifice; and pal ed be the hand which shall seek to dissied be the hand which shall seek to dis-place them! Though not yet twenty years old, the Republican party has completed the noble tabric of Essancipation, and may fairly invoke thereon the sternest judgment of Man and the benignant smile of God.

Henceforth, the mission of our Repub-lic is one of Peaceful Progress. To protect

lie is one of Peaceful Progress. To protect the weak and the hamble from violence and oppression—to extend the boundaries and diffuse the blessings of Civilization and diffuse the Dressings of Civilization—to stimulate ingenuity to the production of new inventions for economizing Labor and three enlarging Production—to draw nearer to each other the producers of Food and of Fabrica, of Grains and of Matala, and the explanation of Industry, by and thus enhance the gain of Industry by reducing the cost of transportation and exchanges between farmers and artisans—such is the inspiring task to which this Nation now addresses itself, and by which it would fain contribute to the progress, callightenmt, and happiness of our race. To this great and good work, The This BUNE contributes its zealous, persistent efforts.

Agriculture will continue to be more exand thus enhance the gain of Industry by

effects.

Agriculture will continue to be more especially elucidated in its Weekly and Semi-Weekly editions, to which some of the ablest and most successful tillers of the soil will steadily contribute. No farmer who sells \$300 worth of produce per annum cau afford to do without our Market Re-ports, or others equally lucid and compre-bansive. If he should read nothing else but what relates to his own calling and its rewards, we believe that no farmer who can read at all can afford to do without such a journal as THE TRIBUNE. And we aspire to make it equally valuable to those engaged in other departments of Productive Labor. We spend more and more money on our columns each year, as our countrymen's generous patronage en-ables us to do; and we are resolved that our issues of former years shall be exceeded in varied excellence and interest by those of 1872.
