THE HYMN OF THE ALAMO

Rice! man the wall!-our clarion's blact Now sounds its final reveille—
This dewning meru must be the last
Our fated band shall ever see.
To life, but not to hope—farewell!
Yen wumpet's claug and came

peal,
And aterming about and clashing atoel,
Are sure, but not our country's, knell—
We joy in Spartan death.
The no despairing strife—
We fall—we die—but our expiring breath
Is Freedom's breath of life "

"Here, on this new Thermopyle,
Our monument shall tower high;
And 'Alamo' hereafter be
In bloodier field the battle-cry!"
Thus Travis from the ramparts cried;
And when his warriors saw the foe
Like whelming billows move below, once each dauntless heart replied-

Tis no despairing strife—
Ye fall—we dis—but our expiring
Is Freedom's breath of life!"

They came is like autumn's leaves they fall.
Yet hordes on hordes they on ward rush.
With gory tramp they mount the wall.
Till numbers the defenders crash.

Till falls their flag, when none comain Well may the victors quake to tel How Travis and his Hundred felf Amid a thousand feamen stain.

They sied the Spartage steath,

But not in hopeiess strife;

Like brethere died; and their axpiring

Was Freedom's breath of life.

The situation of the buildings is dmirable, the salubrity of Austin inquestioned, and the conservative. parding house tendencies of it p wile admirally adapted to the wants of a great State University. Probably some additional buildings would have to be erected in time, but that will be years hence. The land office and Supreme Court buildings, in connection with the capitol, will answer every purpose for many years. Let us make what has been heretofore the Cupitofine hill, the hill of science; and let pig before the States that have already Austin aspire to be the Athens of the State instead of its turbulent Bome. . As a seat of learning it may become more renowned, and will certainly obtain a better reputation, than is possible to it as a seut of government.

Greeley on Grant.

The leading reformers may well tremble over the speech-making tour of Mr. Greeley. Their stock in trude has been vile abuse of General Grant, The Philosopher in his travels thus rebukes them in his Dayton speech :

"Fellow citizens of Ohio, since the day I left home I have made a great many little speeches like this, but no man has heard from me one word implying disrespect and dis-paragement of that eminent citizen and public servant, the President of the United States. No word from me has thrown disparagement on his public services or dishanor on his high office."

This looks very mach like a return to common sense on the part of Mr. Greeley. If he had gone a little farther, and repudiated the men who are engineering his movement on the White House, he might have lost their valuable services, but he would have regained some of the respect which he has lost. The speakers who deal in slander and abuse are the openis of Mr. The speakers who deal in slander and abuse are the openis of Mr. Ciroley. He may retrain from industrial to the approaching elastion. Hard to Please.

The Greeley iten are herd to please. They witch into Green because the can't make a speech, and into his Cabinet officers because they may. They find fault with the Gorersment officials while at their posts of duty, and go for them awagely if they find them absent. They denounce the party for making certain laws, and condemn it and all connected with it for not suffering the same. One wing of the Greeley Def. "As the Federal forces were beaten these papers eries out, "so may the Demecratic hosts yet win victory from the jaws

> The points wherein the analogy fails are apparent on the least reflection. The canvace is rather like a trial before a jury than a battlefield. One side is not routed as in war, but is borne down by the weight tegy, but logical propositions are debated and decided upon. There are no re-enforcements to bring up to turn the contest or new batteries to be unmasked. Personaf courage is not of service to regain what has been lost, nor skillful tuctice. What is required is a reversal of a decision, soberly, calmly dispassionately made. To the presentation of the arguments mouths have been devoted, and every fact bearing on the case has been repeated again and again. Unices some material matter has been everlooked or held back, there is no cason to believe that the people will change the votes they gave in September and October. And what is more to the point, as the discussion has been carried on before the whole country, and not simvoted, there is every reason to expect that the decision of these who have roted is easly anticipatory of that will be rendered by these who are yet to east their ballots. -Cia Enquires.

BESMANUE AND THE U. S. A. - The St. Louis Globs explains that the great Germag Changellor's interference with emigration is, and was intended to be, favorable to the United States. Its object was to prevent German emigration to Brazil, where se many disastrone fallures of German colonies have been made. The great lead owners of Brazil have long been spreading false reports in Germany concerning the advantages of their country, and concealing the systematic plans by which, when they get the power, they reduce the German emigrant to a state of psonage: The Chancellor is certainly justified in all that he has done against smigration from the fatherland to Brazil, and his course in this matter should be construed rather as a friendly act towards the United States. The Globe says.

"So it will be seen that the measures of Prince Bismarck, instead of being Inspired by enmity, or even jestoricy against the United States (or "America," as our Republie is called in Germany, par excellence) is rather a friendly act towards us. For the stardy emigrant, who is thus prevented from going to Brazil, will in all probability, land on our own shores. THE grasshoppers still sontinued their milgrations over this city, passing south ward, on yesterday, but probably owing to a diminution in the breeze, they were much nearer the earth, and many of them alightad. It is feared that a perfect calm will cause them to drep in large numbers 'u our midst, and purhaps to destroy the vegetation in the gardens of the city.

WE recommend the perusal of the article clipped from the N. Y. Republican and printed on the first page of today's issue. It was no doubt written by the gallant Col. Dogume, editor of that journal, and is full of suggestions well worthy of consideration.

THE Hereid of pestorday compliments the energy of the Sau Antonio legal fra-ternity--("over the left.") We are bound, of course, to come to their rescue, I there ever was an energetic ber wither in this or in the old world, it is that which has charge of the disputes and digations incident to the business affairs of this part of the world. They can keep their cases on the docket longer, and put the County to more expense in doing so, than any other but we ever obtained knowledge of unless is he also ham where rum and beer are sold. If that be not energy, pluck, perseverance. Island all other qualification necessary for a successful practical prac perseverance, talent and all other quality-

inggler can keep daggers, and balls, and all sorts of things in great numbers, spinning in the atmosphere by mere muscular force for hours; the San Antonio bar can keep any number of legal causes spinning between heaven and earth by force of intellect, for many years.

WE find the following going the rounds of the Press. Who is Mr. Hanley, and in what part of Texas is he dying? It is none of our business, but we are commanded, you know, to look after the poor, and this poor man dying with only \$3,000, 000 in his pockets, and in Texas, demands the attention and pity of every philanthropist in the State.

A remarkable instance of the reward that is said to follow good actious, is the following:

"Forty five years ago Mr. B. T. Hanley "Forty five years ago Mr. B. T. Hanley, a merchant of Cincinnati, failed in business, but was assisted to ongage in it again by a stranger named Mr. S. W. Davis. Shortly after this, Mr. Hanley's place of business was burned to the ground, and Mr. Davis again advanced him money, with which he left the city and went to cook a furture. He is now reported to be soek a fortune. He is now reported to be dying in Texas, and has left his whole fortune, valued at \$3,000,000, to Mr. Davis."

SPECIAL NOTICES.

Marvelous Beyond Precedent is the effect of Sozodont upon the whole economy of the Mouth, keeping the gnms roay and healthy, the testh in perfect order, giving to the breath a balmy fragrance.

How Unnecessary the Augustan many persons undergo from Phomatism, gout, neuralgia, toothache and earaths. We say unnecessary because the application of Mexican Mustand Liniment to the affected part, or a few drops of it in the eary or tooth, affords instantaneous, the ears or tooth, affords instantaneous, and what is botter, permanent relief, Forents, wounds, bruises, awellings, and all injuries or diseases which require treatment exterially, this liminest is everywhere regarded as the most potent and reliable healing agent in existence. For all external injuries or allments of horses and eattle, it is infallible.

Beliente Crentures.—This is the phrase applied by His Blackness, the Moore of Venice, to the fair ladies of Italy. It was the levely complexion of Desdemens, such a radient contrast to his own that wen his heart: and sooth to say, every man of discernment considers a fair skin, like a sweet voice. "an excellent thing in woman." Now this is a charm which can be acquired. There is a healthful and ederiferous toilet article, known everywhere as HAGAN'S MAGNOLIA BALM, which literally transfigures a cloudy or sallow skin, suffusing the discolved face, neck, arms and become with a soft, pearly tinge, and imparting to the surface a smoothness and a gloss like that of polished marble. Instead of clogging the pores, like the sticky enamels, or contracting that wou his beart; and sooth to say like the sticky enamels, or contracting them, and thus obstructing perspiration, like the astringent cosmetics, it cleaness the skin from all impurities and wonderthe skin from all impurities and wonderfully improves its texture. This peculiarity is particularly appreciated by our rural belies, who find that the coarseness and roughness, which country air is apt to engender, are speedily removed from their faces, hands, and arms, by this deliabeful reprovenies.

We know Mr. Plance had gone to Europe to raise suids; but this is the first intimation we have had of his success in the matter.
