Indian Pelicy.

PHILADELPHIA, Oct. 28. — Geo. H. Stewart, Chairman of the Bye. cutive Committee of the Board of Indian Commissioners, on seeing the report in the papers that President Grant contemplated a change in his Indian policy, addressed him a note, to which the following reply was received. MANSION, MEXECUTIVE MANSION, Within the following reply was received. MANSION, Manual Mansion, Oct. 28, 1872.

My Dear Sir Your favor of the but it was fearfully unwomanly. twenty fourth inst., saying that a change in the Indian policy of the Administration is reported to be contemplated, is just received. Such a thing has not been thought of If the present policy toward the Indians can be improved in any hours had been unable to stay the bloom which would our Miss have way, I will always be ready to rebet's suggestions on the subject; but if any change is made, it must be on the side of the centralization and Christianization of the Indians. I do not believe our Creator ever

placed different races of men on earth with the view to having the stronger one exert all his energies in exterminating the weaker. If any change takes place in the Indian policy of the government while I hold my present effice, it

wiff be on the humanitarian side of the question. Very truly yours U. S. GRANT.

Steam on the Furm.

While steam has been applied to slmost every other form of indus-try, lightening its labors and in-creasing its products, it has never yet been used to any great extent in agriculture, especially in the pre-paration of the soil. The steam plow is now the great need of our farmers. Our smooth, wide-streehing prairies, without stones or trees, seem to have been designed by nature for eultivation on a grand scale. What, the mover or reaper is to the old-fashioned say the or sickle, such will the atomm plow

be to the implements now in use.

We find is the signification pers a description of a "steam motor," which promises to work a revo-lution in farming. It is claimed for t that as a plowing machine it will with her wastr." it that as a plowing machine it will then from twelve to twenty five acres of sod or stubble per day, according to the number of plews at tached, and at the ame time drive the pecessary harrows and crills so as to put in the sect at one operation.

By attaching a belt it can be made to do all tinds of farm work, such as thusbling, drawing water, saving wood, grinding, grain, etc.

Finally, it can be used as a road wagon, drawing immense loads up

wagon, drawing immense loads up hill and down, over muddy roads as

well as dry.

The machine is called Parvin's steam motor, and is new in the suburbe of Chicago. antho e

on the Judges of the Supreme Court, in consequence of the candidacy of Judge Evans for Congress, and his absence from the city. It is due to these gentlemen that the facts should be made known of their high trust. Last year Judge Order gress made an appropriation of \$2000 for this purpose, at the re-quest of the American Association for the Advancement of Science. Mr. Cutts selected Sherman, 8300 feet above the level of the sea, and on the Union Pacific Railroad, as a suitable place to make the test. At this altitude it was found that clou-dy and windy weather was preva-lent, which would make the location an unreliable one for scientific purposes. It is expected that Congress will make a larger appropriation the coming session to continue the examination at other points.

The record is instructive, and were it completed to the present time would fill a good sixed pamphlet. Since the period called the dark ages, when avery feudal chief in Europe was struggling for power and plunder, no country in the world has shown such an absolute ignorance of "God and Liberty" as our neighboring as called a Republic. A record completed to the present time would dame asstate the fact that these peops is have not improved in their answeledge of, or capabilities for, self government. Perhaps the outside world would have no just right to interfere so long as their own rights were not affected; but when, as along our frontier, these continued turmoils extend their baneful influences into our own borders, the question of the right and duty of active interference becomes a serious due. Certainly the right and duty to protect our own citizens will not be questioned; and if in order to accomplish that end, it shall appear necessary to torce upon the frontier States of Mexico peace, order and

Tun sickness of our foreman, necessitating the withdrawal of a compositor from his deak to fill his place, prevents the insertion of the usual amount of matter in to-days issue.

Ore District Court adjourned yesterday until Nevember 11th, not only on account of the election, but in order to hold Courtat Eagle Pass for Joilge Theraton; who had carnestly requested it. Judge Noonan left yesterday, and we trust he will make his lowrney in safty.

Gus. A. J. HAMELTON and Mr. Sheeks arrived yesterday, and deubtless spoke last night according to announcement, after we had gone to press. The Domecracy "laid themselves out" for a destration - securing all the backs in the City for a procession, and exerting themsalves generally to get up a show such as the great humbug Barnum is capable of. We will report the result to our next issue.

Wm have never enjoyed the bitter things of this life, there are too many of them to go around without disturbing the even ener of ones ways. Even Stomach biters, with all the advertising and puffing the differently named ones have received, never endused as lote admiration. But we tasted yesterday, for the first time in our lives, the HOME STOMACH BITTERS, for which Mesers. How Unnecessary the Anguish many persons undergo from rhou-matism, gout, neuralgia, toothache and earache. We say unnecessary because the application of MEXICAN MUSTANG LINIMENT to the affected part, or a few drops of it in the eara or tooth, affords instantaneous, and what is better, permanent relief, Fortula wounds, britisms, awellings, and all cuts, wounds, bruises, swellings, and all injuries or diseases which require treatment externally, this imiment is every-where regarded as the most potent and re-liable healing agent in axistonce. For all external injuries or allments of horses and eattle, it is infallible.

Delicate Creatures. This is the brase applied by His Blackness, the foore of Venice, to the fair ladies of Haly. It was the lovely complexion of Desdemo na, such a radient contract to his own, that won his heart; and sooth to say every man of discernment considers a fair skin, like a sweet voice, "an excellent thing in woman." Now this is a charm which can be acquired. There is a healthfut and odoriferous toilet artiele, knows ful and oderiferous toilet article, known everywhere as Hagan's Magnotta Balm, which literally transfigures a cloudy or sallow skis, suffusing the discolared face, neck, arms and besom with a soft, pearly tinge, and imparting to the surface a smoothness and a gloss like that of polished marble. Instead of clogging the pores, like the aticky enamels or contracting like the sticky enamels, or contracting them, and thus obstructing perspiration, like the astringent cosmetics, it cleaness the skin from all impurities and wonder fully improves its texture. This peculiarity is particularly appreciated by our rural belies, who find that the coarseness and roughness, which country air is apt to engender, are speedily removed from their faces, hands, sud arms, by this delightful preparation.

### FLUID EXTRACT BUCHU With Pepsine and Bismuth.

A REMEDY FOR DISPERSIAL. The stimutating influence of Buchu upon the mucus membrane of the stomach and bowels, has given it reputation in Des-pepsis. It angments the appetite and promotes digestion. In combination with Pensine and Bismuth when there is a de-ficiency in gastric secretion, its beneficial effects are decided and really wonderful? In Atonic Dyspepsia complicated with urinary diseases, it tends to prevent the malassimilation of the food and consequent generation of the sedimentary deposits in the urine, while the diuretic property holds the latter in solution and favors its dis-
